PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

UTAH PROPORTIONATE SHARE AREAS AND FARM PROPORTIONATE SHARES FOR THE 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9877; 23 F. R. 4325), the Agricultural Stabilization and Conservation Utah State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm proportionate shares from the allocation of 33,257 acres established for Utah by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at 222 Southwest Temple Street, Salt Lake City, Utah, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Utah. These bases and procedures incorporate the following:

§ 850.97 *Utah*—(a) *Proportionate share areas.* Utah shall be divided into six proportionate share areas as served by beet sugar companies. These areas shall be designated as follows: Garland, West Jordan-Gunnison, Cache, Ogden, Layton and Holly. Acreage allotments for these areas shall be computed by applying to the planted sugar beet acreage record for each area a weighting of 75 percent to the average acreage for the crops of 1950 through 1954, as a measure of "past production", and a weighting of 25 percent to the largest acreage of any of the crops of 1950 through 1954, as a measure of "ability to produce", with pro rata adjustments to a total of 33,257 acres. Acreage allotments computed as aforestated are established as follows: Garland Area, 7,691 acres; West Jordan-Gunnison Area, 15,316 acres; Cache Area, 4,115 acres; Ogden Area, 2,223 acres; Layton Area, 3,094 acres; and Holly Area, 818 acres.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from area allotments as follows:

(1) *For new producers.* Garland Area, 105 acres; West Jordan-Gunnison Area, 436 acres; Cache Area, 128 acres; Ogden Area, 52 acres; Layton Area, 82 acres; and Holly Area, 10 acres;

(2) *For appeals.* Garland Area, 77 acres; West Jordan-Gunnison Area, 155 acres; Cache Area, 65 acres; Ogden Area, 23 acres; Layton Area, 31 acres; and Holly Area, 9 acres;

(3) *For making adjustments in initial shares.* Garland Area, 155 acres; West Jordan-Gunnison Area, 0 acre; Cache Area, 290 acres; Ogden Area, 41 acres; Layton Area, 40 acres; and Holly Area, 30 acres.

(c) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County Office on Form SU–100, Request for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.76. If a preliminary request for a tentative farm proportionate share is filed, a fully-completed Form SU–100 shall be filed by April 1, 1958. However, requests for proportionate shares may be accepted after such dates and shares may be established if the county committee determines that in any such case the farm operator was prevented from filing a completed Form SU–100 by such dates because of absence, illness or other reasons beyond his control.

(d) *Establishment of individual proportionate shares for old-producer farms*—(1) *Farm bases.* In each proportionate share area, the 1958 farm base for each old-producer shall equal the average accredited acreage of sugar beets for the period 1954–57, provided the farm has an accredited acreage record for at least one of the crop years 1955–57. The farm base for a farm for which a new-producer share was established in any of the years 1955–57 shall equal the most recent accredited acreage but shall not exceed the most-recently established share.

(2) *Initial proportionate shares.* For each proportionate share area, except the Garland Area, the total of individual farm bases for old-producer farms, as established pursuant to the preceding subparagraph is less than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial proportionate shares shall be established from the farm bases in each proportionate share area as follows: For farms for which the respective requested acreages are equal to or less than their farm bases, the initial shares shall coincide with the requested acreages, and for all other farms, initial shares shall be computed by prorating to such farms in accordance with their respective bases, the area allotment less the prescribed set-asides and the total of the initial shares established in accordance with the preceding part of this subparagraph. For the Garland Area, the total of individual farm bases for old-producer farms, as established pursuant to the preceding subparagraph, is more than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial proportionate shares shall be established from the farm bases by prorating to such farms in accordance with their respective bases, the area allotment less the prescribed set-asides.

(3) *Adjustments in initial shares.* Within the acreage available from the set-aside for adjustments (in all areas except the West Jordan-Gunnison Area) and from acreage of initial shares in excess of requested acreages in each proportionate share area, adjustments shall be made in initial farm proportionate shares for old producers so as to establish a proportionate share for each farm which is fair and equitable as compared with proportionate shares for all other farms in the area by taking into consideration availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities, and the production experience of the operator.

(e) *Establishment of individual proportionate shares for new-producer farms.* Within the acreage set aside for new producers in each proportionate share area, proportionate shares shall be established in an equitable manner for farms to be operated during the 1958-crop year by new producers (as defined in § 850.76) at levels determined by the State Committee to be economically feasible to plant to sugar beets under usual circumstances (5 acres), by taking into consideration the availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities, and the production experience of the operator.

(f) *Adjustments under appeals.* Within the acreage set aside for making adjustments under appeals and any other acreage remaining unused in each proportionate share area, adjustments shall be made in proportionate shares under appeals to establish fair and equitable farm shares in accordance with the provisions of § 850.76, applicable to appeals.

(g) *Adjustments because of unused acreage.* To the extent of acreage available within the allotment for each proportionate share area from underplanting and failure to plant, and unused acreage from set-asides and other sources, adjustments shall be made in farm proportionate shares, during the 1958-crop season. However, any acreage released by producers prior to April 20, 1958, shall be used to increase small proportionate shares (four acres in the Ogden area and five acres in all other areas, or the requested share, whichever is smaller) so as to promote the more efficient operation of farms. In increasing such small-producer shares, the State Committee shall take into consideration the size of beet operations for small farms in the area, the type of operations in the area, and other pertinent factors relating to efficient sugar beet production.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on Form SU–103, Notice of Farm Proportionate Share—1958 Sugar Beet Crop, even if the acreage established is "non". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted proportionate share on a Form SU–103–A or other similar written notice. For each tentative proportionate share which is established, the person filing the request for such share shall be notified on a Form SU–103–B specifying that such tentative share does not constitute a farm proportionate share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Utah State Committee for determining farm proportionate shares in Utah in accordance with the determination of proportionate shares for the 1958 crop of sugar beets, as issued by the Secretary of Agriculture.

The bases and procedures specified herein are essentially the same as those which were effective in the State for the 1957 crop. Advisory committees, including grower and processor representatives, are utilized. In establishing proportionate shares for old producers, the factors of "past production" and "ability to produce" sugar beets are measured by applying formulas to the accredited acreages for the crop years 1954–57. The procedure for establishing farm shares for new producers meets the related requirements of § 850.76.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugar beets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

(Sec. 403, 61 Stat. 921; 7 U. S. C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930 as amended; 7 U. S. C. 1131, 1132)

Dated: July 17, 1958.

[SEAL] S. J. POSTMA,
Chairman, Agricultural Stabilization and Conservation Utah State Committee.

Approved: August 14, 1958.

[Sugar Determination 850.76, as Amended, Supp. 22]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

WYOMING PROPORTIONATE SHARE AREAS AND FARM PROPORTIONATE SHARES FOR 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9877; 23 F. R. 4325), the Agricultural Stabilization and Conservation Wyoming State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm proportionate shares from the allocation of 37,745 acres established for Wyoming by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at 345 East Second Street, Casper, Wyoming, and at the offices of the Agricultural Stabilization and Conservation Committees in the Sugar beet producing counties of Wyoming. These bases and procedures incorporate the following:

§ 850.98 *Wyoming*—(a) *Proportionate share areas.* Wyoming shall be divided into two proportionate share areas as served by beet sugar companies. These areas shall be designated as follows: Great Western and Holly. Acreage allotments for these areas shall be computed by applying to the planted sugar beet acreage record for each area, a weighting of 75 percent to the average acreage for the crops of 1950 through 1954, as a measure of "past production", and a weighting of 25 percent to the largest acreage of any of the crops of 1950 through 1954, as a measure of "ability to produce", with pro rata adjustments to a total of 37,745 acres. Acreage allotments computed as aforestated are established as follows: Holly Area, 27,346 acres; and Great Western Area, 10,399 acres.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from area allotments as follows: Great Western Area, 104 acres for new producers, 104 acres for appeals, and 561 acres for making adjustments in initial proportionate shares; Holly Area, 274 acres for new producers, 274 acres for appeals, and 52 acres for making adjustments in initial shares.

(c) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County Office on Form SU–100, Request for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.76. If a preliminary request for a tentative farm proportionate share is filed, a fully-completed Form SU–100 shall be filed by April 1, 1958, before a proportionate share may be established for the farm. However, requests for proportionate shares may be accepted after such dates and shares may be established if the County Committee determines that in any such case the farm operator was prevented from filing a completed Form SU–100 by such dates because of absence, illness or other reasons beyond his control.

(d) *Establishment of individual proportionate shares for old-producer farms*—(1) *Farm bases.* The 1958 farm base for each old-producer farm having an accredited acreage for at least one of the crop years 1955–57, shall equal the most recent of the 1957, 1956 or 1955 crop shares established for the farm, including adjustments made under appeals but excluding any other upward adjustment made because the shares of other farms were not fully planted and excluding any downward adjustment made because the acreage planted on the farm was less than the share originally established for the farm.

(2) *Initial proportionate shares.* For each proportionate share area, the total of individual farm bases for old-producer farms, as established pursuant to subparagraph (1) of this paragraph, is more than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial proportionate shares shall be established by prorating to such farms in accordance with their respective bases, the area allotment less the prescibed set-asides.

(3) *Adjustments in initial shares.* Within the acreage available from the set-aside for adjustments, and from acreage of initial shares in excess of requested acreages in each proportionate share area, adjustments shall be made in initial farm proportionate shares for

old producers so as to establish a proportionate share for each farm which is fair and equitable as compared with proportionate shares for all other farms in the area by taking into consideration availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities, and the production experience of the operator.

(e) *Establishment of individual proportionate shares for new-producer farms.* Within the acreage set aside for new producers in each proportionate share area, proportionate shares (minimum of 10 acres) shall be established in an equitable manner for farms to be operated during the 1958-crop year by new producers (as defined in § 850.76), by taking into consideration the availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator.

(f) *Adjustments under appeals.* Within the acreage set aside for making adjustments under appeals and any other acreage remaining unused in each proportionate share area, adjustments shall be made in proportionate shares under appeals to establish fair and equitable farm shares in accordance with the provisions of § 850.76 applicable to appeals.

(g) *Adjustments because of unused acreage.* To the extent of acreage available within the allotment for each proportionate share area from underplanting and failure to plant, and unused acreage from set-asides and other sources, adjustments shall be made in farm proportionate shares during the 1958-crop season. However, any acreage released by producers prior to March 20, 1958, shall be used to increase small proportionate shares (smaller-than-average for the area) so as to promote the more efficient operation of farms. In increasing such small-producer shares, the State Committee shall take into consideration the size of beet operations for small farms in the area, the type of operations in the area, and other pertinent factors relating to efficient sugar beet production.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on Form SU–103, Notice of Farm Proportionate Share—1958 Sugar Beet Crop, even if the acreage established is "none". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted proportionate share on a Form SU–103–A or other similar written notice. For each tentative proportionate share which is established, the person filing the request for such share shall be notified on a Form SU–103–B specifying that such tentative share does not constitute a farm proportionate share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Wyoming State Committee for determining farm proportionate shares in Wyoming in accordance with the determination of proportionate shares for the 1958 crop of sugar beets, as issued by the Secretary of Agriculture.

The bases and procedures specified herein are essentially the same as those which were effective in the State for the 1957 crop. Advisory committees, including grower and processor representatives, are utilized. In establishing proportionate shares for old producers, the factors of "past production" and "ability to produce" sugar beets are recognized by using the most recent of 1955–57 shares as the base. The procedure for establishing farm shares for new producers meets the related requirements of § 850.76.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugar beets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 233]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area and the restricted areas alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Division, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.19, the Dawsonville, Georgia, area (R–534) is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
Dawsonville, Ga. Restricted area (R 534) (Chattanooga).	A circle of 2.5 mile radius of a point at latitude 34°22'00", longitude 84°10'00".	Surface to 5,000 feet MSL.	Continuous.....	Headquarters, Air Research & Development Command, Andrews Air Force Base, Maryland.

2. In § 608.27, the Presque Isle, Maine, area (R–80) amended on March 31, 1954 in 19 F. R. 1760, is further amended by changing the "Designated Altitudes" column to read: "3,500 feet MSL to 45,000 feet MSL".

3. In § 608.29, the Cotuit, Massachusetts, area (R–79) amended on January 25, 1952 in F. R. 715 is further amended by changing the "Designated Altitudes" column to read: "Surface to 2,000 feet MSL".

4. In § 608.29, the Nashawena, Massachusetts, area (R–62) amended on October 31, 1951 in 16 F. R. 11066 is further amended by changing the "Designated Altitudes" column to read: "Surface to 12,000 feet MSL".

5. In § 608.29, the No Man's Land Island, Massachusetts, area (R–18) amended on May 4, 1956 in 21 F. R. 2977 is further amended by changing the "Designated Altitudes" column to read: "Surface to 24,000 feet MSL".

6. In § 608.37, the Isle of Shoals, New Hampshire, area (R–96) amended on February 14, 1958 in 23 F. R. 973 is further amended by changing the "Designated Altitudes" column to read: "Surface to 3,000 feet MSL" and the "Controlling Agency" column to read: "COMFAIRDETBRUNS, NAS, Brunswick, Maine".

7. In § 608.54, the Great Machipongo Inlet, Virginia, area (R–85) amended on April 26, 1952 in 17 F. R. 3724 is further amended by changing the "Designated Altitudes" column to read: "Surface to 40,000 feet MSL".

8. In § 608.54, the Ship Shoal Island, Virginia, area (R–47) amended on October 31, 1951 in 16 F. R. 11066 is further amended by changing the "Designated Altitudes" column to read: "Surface to 50,000 feet MSL".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

The amendment shall become effective on September 25, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

AUGUST 15, 1958.

[F. R. Doc. 58-6759; Filed, Aug. 21, 1958; 8:45 a. m.]

[Amdt. 4]

PART 620—SECURITY CONTROL OF AIR TRAFFIC

ALASKAN COASTAL ADIZ AND WESTERN DEFENSE AREA

Acting upon a request submitted by the Department of the Air Force, and concurred thereto by the United States Navy, the Administrator hereby revises the outer boundaries of the Alaskan Coastal ADIZ to encompass the Aleutian Islands Area. Additionally, the portion of the original Northern ADIZ which was deleted by Amendment 3, 21 F. R. 10310, December 22, 1956, is hereby redesignated as a part of the Western Defense Area.

Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Therefore, Part 620 is amended as follows:

1. Section 620.22 (e) is amended to read as follows:

(e) *Alaskan (Coastal) ADIZ.* The area bounded by a line 73°00' N., 141°00' W.; 69°50' N., 141°00' W.; 71°18' N., 156°44' W.; 68°53' N., 166°16' W.; 63°17' N., 168°42' W.; 58°39' N., 162°03' W.; 56°34' N., 154°10' W.; 59°28' N., 146°18' W.; 59°30' N., 139°30' W.; 57°00' N., 139°30' W.; 52°00' N., 153°00' W.; 50°00' N., 174°00' W.; 60°00' N., 174°10' W.; 61°45' N., 177°00' W.; 65°00' N., 169°00' W.; 73°00' N., 169°00' W.; 73°00' N., 141°00' W. (point of beginning).

2. Section 620.23 (b) is amended to read as follows:

(b) *Western Defense Area.* The area bounded by a line 48°29'38" N., 124°43'35" W.; eastward along the U. S.-Canadian Border to 121°00' W.; 48°00' N., 121°00' W.; 48°00' N., 117°00' W.; 45°20' N., 118°15' W.; 44°15' N., 121°00' W.; 39°15' N., 121°00' W.; 36°00' N., 118°48' W.; 36°00' N., 117°05' W.; 35°31' N., 116°22' W.; 34°30' N., 116°00 W.; 33°30' N., 115°15' W.; 33°08' N., 114°55' W.; 32°43' N., 114°45' W.; westward along U. S.-Mexican Border to 32°32'03" N., 117°07'25" W.; 32°30' N., 117°20' W.; 32°16' N., 117°08' W.; 32°16' N., 118°25' W.; 34°00' N., 120°30' W.; 34°50' N., 121°10' W.; 38°50' N., 124°00' W.; 40°00' N., 124°35' W.; 43°00' N., 124°40' W.; 46°15' N., 124°30' W.; 48°00' N., 125°15' W.; 48°29'38" N., 124°43'35" W. (point of beginning).

(Sec. 1203, 64 Stat. 825; 49 U. S. C. 703. Interpret or apply secs. 1201–1204, 64 Stat. 825; U. S. C. 701–704)

This amendment shall become effective September 1, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

AUGUST 15, 1958.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket Nos. 6977–6982]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

DEHN & CO., INC., ET AL.

In the matter of Dehn & Co., Inc., et al., Docket 6977; Gavin Bros., Inc., et al., Docket 6978; Walter P. Shiel & Co. et al., Docket 6979; McGovern and McGovern, Docket 6980; The Salmon and Tuna Sales Company et al., Docket 6981; and Ivar Wendt, Docket 6982.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment or acceptance of commission, brokerage, or other compensation under 2 (c): § 13.820 *Direct buyers;* § 13.822 *Lowered price to buyers.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist orders: Dehn & Co., Inc., et al., Docket 6977; Gavin Bros., Inc., et al., Docket 6978; Walter P. Shiel & Co. et al., Docket 6979; McGovern and McGovern, Docket 6980; The Salmon and Tuna Sales Company et al., Docket 6981; and Ivar Wendt, Docket 6982; all of Seattle, Wash., July 3, 1958]

These cases were heard by a hearing examiner on the complaints of the Commission charging six brokers of canned salmon and other food products in Seattle, Wash., with discriminating in price in violation of section 2 (c) of the Clayton Act by such practices as the following: (1) Selling at net prices lower than those accounted for to the packers; (2) granting price deductions—including freight payments, "trade discounts", and "promotional allowances"—a part or all of which were not charged back to the packers but were taken from the brokerage commissions; (3) taking reduced brokerage on sales involving price concessions; and (4) accepting brokerage on direct purchases, and making allowances in lieu thereof to field brokers purchasing for their own accounts for resale.

Following acceptance of agreements containing consent orders, the hearing examiner made his initial decisions and orders to cease and desist, which became on July 3 the decisions of the Commission.

By said orders, all six respondents were ordered to cease and desist from paying, granting, or passing on, either directly or indirectly, to any buyer or to anyone acting for or in behalf of or subject to the direct or indirect control of such buyer, brokerage earned or received by respondents on sales made for their packer-principals, by allowing to buyers lower prices which reflect all or any part of such brokerage, or by granting them allowances or rebates which are in lieu of such brokerage, or by any other method or means.

McGovern and McGovern, Docket 6980, and Ivar Wendt, Docket 6982, were ordered also to cease and desist from receiving or accepting, directly or indirectly from any seller anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of seafood products by respondent for his own account.

The Salmon and Tuna Sales Company, Docket 6981, and Ivar Wendt, Docket 6982, were additionally ordered to cease and desist from paying, granting, or allowing, directly or indirectly, to any buyer, or to anyone acting for or in behalf of, or who is subject to the direct or indirect control of such buyer, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any sale of their seafood products to such buyer for his own account.

By "Decision of the Commission", etc., in each case, all six respondents were ordered as follows:

It is ordered that the respondents herein shall within sixty (60) days after service upon them of these orders, file with the Commission reports in writing setting forth in detail the manner and form in which they have complied with the orders to cease and desist.

Issued: July 3, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 58-6777; Filed, Aug. 21, 1958; 8:50 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter K—Patents, Allotments and Sales

PART 121—ISSUANCE OF PATENTS IN FEE, CERTIFICATES OF COMPETENCY, SALE OF CERTAIN INDIAN LANDS, AND REINVESTMENT OF PROCEEDS

MISCELLANEOUS AMENDMENTS

On pages 1699 and 1700 of the FEDERAL REGISTER of March 12, 1958, there was published a notice of intention to amend Part 121 of 25 CFR. The purpose of this amendment is to cover the issuance of orders removing restrictions to adult Indians of the Five Civilized Tribes pursuant to the provisions of section 2 (b) of the act of August 11, 1955 (69 Stat. 666) and to redesignate the present § 121.52 as § 121.61.

Interested persons were given an opportunity to submit their views, data, or arguments in writing on the proposed amendment of the regulations to the Commissioner, Bureau of Indian Affairs, Washington 25, D. C., within 30 days from the date of publication of the notice in the FEDERAL REGISTER.

Several objections to the proposed amendment were received. They dealt mainly with that part of § 121.52 which provides for the termination of the Indian's eligibility for all special services performed for him by the United States because of his status as an Indian upon the issuance of an order removing restrictions.

The objections were thoroughly considered and discussed during the 30-day period. As a result of such consideration and discussion, a change has been made in § 121.52 by substituting the following wording for the provision regarding termination of eligibility for such services: "The effect of such order also shall be to terminate the Indian's eligibility for all special services provided for him by the Department of the Interior because of his status as an Indian, except in cases (a) where it is determined by the Secretary, or his authorized representative, that the termination of eligibility because of such order will result in substantial hardship for the Indian, and (b) where the Secretary, or his authorized representative, is directed by law to provide such special services for the Indian, * * *."

The proposed amendment to the regulation, as changed, is hereby adopted as set forth below. This amendment is effective upon publication in the FEDERAL REGISTER.

HATFIELD CHILSON,
Acting Secretary of the Interior.

AUGUST 15, 1958.

1. A new center head and seven new sections, designated §§ 121.51 to 121.57, thereunder, to read as set forth below are added after § 121.49 *Procedure for removing restrictions.*

2. The present § 121.52 is redesignated § 121.61 under the present center head Mortgages and Deeds of Trust to Secure Loans to Indians and reads as indicated below.

REMOVAL OF RESTRICTIONS, FIVE CIVILIZED TRIBES

Sec.
121.51 Removal of restrictions.
121.52 Effect of order.
121.53 Factors to be considered.
121.54 Notice of intent to issue order.
121.55 Issuance of order.
121.56 Appeals from decision to issue order.
121.57 Judicial review.

AUTHORITY: §§ 121.51 to 121.57 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply sec. 2, 40 Stat. 606, as amended; 25 U. S. C. 355.

§ 121.51 *Removal of restrictions.* Upon a determination by the Secretary of the Interior that an adult Indian of the Five Civilized Tribes owning trust or restricted property possesses sufficient ability, knowledge, experience, and judgment to enable him to manage his business affairs, including the administration, use, investment, and disposition of any property turned over to such person and the income or proceeds therefrom, with such reasonable degree of prudence and wisdom as will be apt to prevent him from losing such property or the benefits thereof, the Secretary or his authorized representative shall issue, without application therefor by the Indian affected, an order removing restrictions.

§ 121.52 *Effect of order.* When an order becomes effective, the Secretary shall cause to be turned over to the Indian full ownership and control of any money and property that is held in trust for him or that is held subject to a restriction against alienation imposed by the United States, issuing, in the case of land, such title document as may be appropriate; provided, that the Secretary may make such provisions as he deems necessary to insure payment of money loaned to any such Indian by the Federal Government or by an Indian tribe, and provided further, that the interest of any lessee or permittee in any lease, contract, or permit that is outstanding when an order removing restrictions become effective shall be preserved as provided in section 2 (d) of the act of August 11, 1955. The effect of such order also shall be to terminate the Indian's eligibility for all special services provided for him by the Department of the Interior because of his status as an Indian, except in cases (a) where it is determined by the Secretary, or his authorized representative, that the termination of eligibility because of such order will result in substantial hardship for the Indian, and (b) where the Secretary, or his authorized representative, is directed by law to provide such special services for the Indian, and if he inherits or there is devised to him interests in trust or restricted property, subsequent to the effective date of the order, the property will be acquired without restrictions. Any existing exemption from taxation that constitutes a vested property right shall continue in force and effect until it terminates by virtue of its own limitations.

§ 121.53 *Factors to be considered.* Prior to the issuance of an order removing restrictions, all or part of the following factors, as appropriate, shall be considered in arriving at a decision, and any other factors that may be pertinent:

(a) The extent of the Indian's education and the nature of his training and experience, including business experience, and the manner in which he has demonstrated his ability to manage his own affairs without assistance or supervision.

(b) The extent to which he has made an adequate living for himself and family; the extent to which he has required assistance from the Government, tribe, or other agency or organization in the matter of loans, relief, old-age assistance, aid to dependent children, unemployment compensation, old-age and survivors insurance, etc.; and the extent, if any, his family has been dependent on the income from trust or restricted property.

(c) The assets, including land and improvements, farm equipment, livestock, etc., he, or his family has; the property, real or personal, he has acquired through his own efforts.

(d) The manner in which he has used assets and funds coming into his possession, whether through earnings, inheritance or otherwise.

(e) The state of his health and physical capacities, insofar as they affect his ability to manage his own affairs.

(f) The value of his property in relation to his demonstrated degree of ability to manage his own affairs.

§ 121.54 *Notice of intent to issue order.* Prior to the issuance of an order removing restrictions the Indian will be notified in writing that:

(a) Section 2 (b) of the act of August 11, 1955 (69 Stat. 666), directs the Secretary of the Interior to issue an order removing restrictions to any Indian of the Five Civilized Tribes who; in the judgment of the Secretary, has sufficient ability, knowledge, experience, and judgment to enable him to manage his business affairs, including the administration, use, investment, and disposition of any property turned over to such person and the income or proceeds therefrom, with such reasonable degree of prudence and wisdom as will be apt to prevent him from losing such property or the benefits thereof.

(b) He has been determined tentatively to be in the category defined by the statute, and an order removing restrictions will be issued 60 days after the date of the notice, unless he or someone acting in his behalf, presents persuasive reasons for not issuing the order. Such reasons should be in writing and received in the office issuing the notice before the end of the 60-day period.

§ 121.55 *Issuance of order.* (a) If no objection is filed, as permitted by § 121.54 (b), the order shall be issued at the end of the 60-day period, and the Indian and the Board of County Commissioners for the county in which the Indian resides shall be so notified. The order shall become effective six months after the date of such notice, unless set aside by order of a county court. The timely initiation of proceedings before a county court shall stay the effective date of an order until the proceedings are concluded.

(b) If an Indian, or someone acting in his behalf, submits within the 60-day period allowed for that purpose, reasons for not issuing the order, and it is determined the reasons are not persuasive, the Indian and any person acting in his behalf shall be notified in writing that the order will be issued, notwithstanding the objections, 30 days after the date of such notification. The notification shall allow a right of appeal to the Secretary of the Interior within the 30-day period.

§ 121.56 *Appeals from decision to issue order.* An appeal to the Secretary, together with supporting data, must be transmitted to the officer issuing the notice of the proposed removal of restrictions, and must be received by such officer before the expiration of the 30-day period mentioned in § 121.55 (b). Issuance of the order removing restrictions shall be withheld until the appeal is decided. If no appeal is received by the end of the 30-day period allowed for appeals, or if an appeal is dismissed, the order removing restrictions shall be issued, and the Indian and the Board of County Commissioners for the county in which the Indian resides shall be so notified. The order shall become effective six months after the date of such notice, unless set aside by order of a county court. The timely initiation of proceedings before a county court shall stay the effective date of an order until the proceedings are concluded.

§ 121.57 *Judicial review.* When an order removing restrictions is issued, copies thereof shall be delivered to the Indian, and to any person acting in his behalf, and to the Board of County Commissioners for the county in which the Indian resides, with the notification that, under the terms of the act of August 11, 1955 (69 Stat. 666), the Indian or the Board of County Commissioners has the right, within six months from the date of the notice of the order, to apply to the county court for the county in which the Indian resides for an order setting aside the order removing restrictions. The timely initiation of such proceedings shall stay the effective date of the order until the proceedings are concluded.

MORTGAGES AND DEEDS OF TRUST TO SECURE LOANS TO INDIANS

§ 121.61 *Approval of mortgages and deeds of trust.* The Commissioner of Indian Affairs or his authorized representative may approve mortgages or deeds of trust on any individually owned trust or restricted land whenever such lands under any law or treaty may be sold with the approval of the Secretary of the Interior or his duly authorized representative. The approval of such a mortgage or deed of trust terminates the trust or restricted status of the land only with respect to such mortgage or deed of trust and only for the purpose of permitting foreclosure or sale pursuant to the terms of the mortgage or deed of trust in accordance with the laws of the State or Territory in which the land is situated.

(R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 7, 32 Stat. 275, 34 Stat. 1018, sec. 1, 35 Stat. 444, secs. 1, 2, 36 Stat. 855, as amended, 856, as amended, sec. 17, 40 Stat. 579, 62 Stat. 236; 25 U. S. C. 379, 405, 404, 372, 373, 483)

Subchapter O—Rights of Way—Roads

PART 163—ESTABLISHMENT OF ROADLESS AND WILD AREAS ON INDIAN RESERVATIONS

ELIMINATION OF AREA FROM PART OF WARM SPRINGS RESERVATION

On page 3601 of the FEDERAL REGISTER of May 24, 1958, there was published a notice of intention to amend Part 163, Roadless and Wild Areas on Indian Reservations, Title 25 of the Code of Federal Regulations. The purpose of the amendment is to eliminate the roadless area from a part of the Warm Springs Reservation at the request of the Confederated Tribes of the Warm Springs Reservation.

Interested persons were given an opportunity to submit their views, data and arguments concerning the proposed amendment within 30 days from the date of publication of the notice. More than 30 days have elapsed since this publication and no objections to the proposed amendment have been raised with this Department.

The proposed amendment to the regulations is hereby adopted as set forth below. This amendment is effective upon publication in the FEDERAL REGISTER.

HATFIELD CHILSON,
Acting Secretary of the Interior.

AUGUST 18, 1958.

Section 163.1 of Part 163 is amended to read as follows:

§ 163.1 *Roadless areas.* A roadless area for the purpose of this part is one which contains no provision for the passage of motorized transportation and which is at least 100,000 acres in forested country or at least 500,000 acres in nonforested country. The following are established as roadless areas on Indian reservations:

Name of area	Reservation	Approximate acreage
Rainbow Bridge	Navajo	1,590,000
Black Mesa	Navajo	820,000
Grand Canyon	Hualapai	530,000
Painted Desert	Navajo	525,000
Black River	San Carlos-Ft. Apache.	325,000
Wind River Mountains	Shoshone	220,000
Columbia-San Poil Divide.	Colville	155,000
Mt. Thomas	Ft. Apache	130,000
Mission Range	Flathead	125,000
Mesa Verde	Consolidated Ute	115,000
Goat Rocks	Yakima	105,000

The boundaries of these areas are described in the appendix to this part.[1]

(R. S. 161; 5 U. S. C. 22)

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1720]

[Oregon 06315]

OREGON

POWER SITE MODIFICATION NO. 426, MODIFYING EXECUTIVE ORDERS OF JULY 2, 1910, JULY 10, 1912, AND DECEMBER 12, 1917, CREATING POWER SITE RESERVES NOS. 95, 285, AND 661 RESPECTIVELY, AND THE DEPARTMENTAL ORDER OF DECEMBER 12, 1917, CREATING WATER POWER DESIGNATION NO. 14

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, and sections 2 and 3 of the act of June 9, 1916 (39 Stat. 218), it is ordered as follows:

The Executive orders of July 2, 1910, July 10, 1912, and December 12, 1917, creating Power Site Reserves Nos. 95, 285, and 661 respectively, and the departmental order of December 12, 1917, classifying certain lands as Water Power Designation No. 14, are hereby modified to the extent necessary to permit the granting of a right-of-way under section 2477, United States Revised Statutes (43 U. S. C. 932), to Lane County, Oregon, for the construction of a highway over and across those portions of the following-described lands needed for road improvements, as delineated on the map submitted with the County's application (Oregon 06315), and designated "right-of-way for highway for Lane County, State of Oregon," based on the road survey completed June 16, 1958, and certified by H. O. Walberg, Civil Engineer:

WILLAMETTE MERIDIAN

T. 17 S., R. 2 E.,
Sec. 1, lot 4.
T. 16 S., R. 3 E.,
Sec. 31, lots 7, 8, 9, 10.
T. 17 S., R. 3 E.,
Sec. 4, lots 6 and 7;
Sec. 5, lot 4 and NE¼SE¼;
Sec. 9, lots 3 and 4.

This modification is subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended, and to the condition that in the event the lands are required for purposes of power development by the United States, its licensees or permittees, said Lane County, Oregon, its transferee or assignee shall relocate at its own expense so much of the highway on the right-of-way granted by the United States as may be found by the appropriate agency of the United States to be necessary to avoid interference with such power development.

The lands are also withdrawn pursuant to filing of application for preliminary permit for proposed water power Project No. 852, with respect to which the Federal Power Commission in its determination DA-446-Oregon issued August 12, 1958, took necessary action, and to which reference is made for the terms and conditions under which the right-of-way grant may be made effective.

ROGER ERNST,
Assistant Secretary of the Interior.

AUGUST 15, 1958.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

Subchapter B—Bureau of the Public Debt

[Dept. Circ. 530, 8th Rev., 1958 1st Amdt.]

PART 315—UNITED STATES SAVINGS BONDS

COMPUTATION OF AMOUNT

AUGUST 15, 1958.

Section 315.11 (c) of Department Circular No. 530, Eighth Revision, (31 CFR,

[1] The appendix to this part appears at 3 F. R. 709-711, Mar. 22, 1938.

1957 Supp., 315) dated December 26, 1957, is hereby amended and revised to read as follows:

(c) *Bonds that may be excluded from computation.* There need not be taken into account:

(1) Bonds on which that person is named beneficiary;

(2) Bonds in which his interest is only that of a beneficiary under a trust;

(3) Bonds to which he has become entitled under § 315.66 as surviving beneficiary upon the death of the registered owner, as an heir or legatee of the deceased owner, or by virtue of the termination of a trust or the happening of any other event;

(4) Bonds of Series E purchased with the proceeds of matured bonds of Series A, Series C–1938, and Series D, where such matured bonds were presented for that purpose;

(5) Bonds of Series E bearing issue dates from May 1, 1941, to December 1, 1945, inclusive, held by individuals in their own right which are not more than $5,000 (maturity value) in excess of the prescribed limit;

(6) Bonds of Series E or Series H reissued under § 315.60 (b) (1);

(7) Bonds of Series E or Series H reissued in the name of a trustee of a personal trust estate which did not represent excess holdings prior to such reissue;

(8) Bonds of Series E or Series H purchased with the proceeds of bonds of Series F or Series G, maturing on and after September 1, 1958, where such matured bonds are presented for that purpose by individuals, legal guardians, committees (and similar representatives of the estates of minors and incompetents) and trustees of personal trust estates, subject to the terms of § 316.1a of this chapter (Department Circular No. 653, Fourth Revision, as amended), offering bonds of Series E, and § 332.1a of this chapter (Department Circular No. 905, Revised, as amended), offering bonds of Series H.

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (P. L. 404, 79th Cong.; 60 Stat. 237) is found to be unnecessary with respect to this amendment.

(Sec. 22, 49 Stat. 21, as amended; 31 U. S. C. 757c)

[SEAL] ROBERT B. ANDERSON,
Secretary of the Treasury.

[F. R. Doc. 58–6788; Filed, Aug. 21, 1958; 8:54 a. m.]

[Dept. Circ. 653, 4th Rev., 1958, 2d Amdt.]

PART 316—OFFERING OF UNITED STATES SAVINGS BONDS, SERIES E

SPECIAL OFFERING TO OWNERS OF MATURING SAVINGS BONDS OF SERIES F AND G

AUGUST 15, 1958.

Department Circular No. 653, Fourth Revision, dated April 22, 1957, as amended (31 CFR, 1957 Supp., 316) is hereby supplemented and further amended by the addition of the following new section:

§ 316.1a *Special offering to owners of maturing savings bonds of Series F and G*—(a) *General.* The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended (31 U. S. C. 757c) hereby offers owners of bonds of Series F and Series G maturing on and after September 1, 1958, the privilege of applying the proceeds of their matured bonds to the purchase of bonds of Series E without regard to the limitation on holdings prescribed in § 316.8.

(b) *Restrictions and conditions.* This offering is subject to the following restrictions and conditions:

(1) It extends only to individuals, that is, natural persons in their own right, legal guardians, committees, and similar representatives of estates of minors and incompetents, and to "personal trust estates". For this purpose the term "personal trust estates" means trusts established by natural persons in their own right, for the benefit of themselves or other such natural persons, in whole or in part, and common trust funds comprised in whole or in part of such trust estates.

(2) It is subject to the restrictions prescribed in § 315.6 of this chapter (savings bond regulations, Department Circular No. 530).

(3) The matured bonds must be presented to a Federal Reserve Bank or Branch for the specified purpose of taking advantage of this offering.

(4) Bonds of Series E may be purchased with the proceeds of the matured bonds only up to the denominational amounts that such proceeds will fully cover; any difference between the redemption value of the matured bonds and the purchase price of bonds of Series E will be paid to the owner.

(5) The bonds of Series E will be registered in the name of the owner in any authorized form of registration.

(6) They will be dated as of the first day of the month in which the matured bonds are presented to a Federal Reserve Bank or Branch.

(c) *Termination of offering.* This offering will continue until terminated by the Secretary of the Treasury.

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (P. L. 404, 79th Cong.; 60 Stat. 237) is found to be unnecessary with respect to this amendment.

(Sec. 22, 49 Stat. 21, as amended; 31 U. S. C. 757c)

[SEAL] ROBERT B. ANDERSON,
Secretary of the Treasury.

[F. R. Doc. 58–6789; Filed, Aug. 21, 1958; 8:54 a. m.]

[Dept. Circ. 905, Rev., 1958 2d Amdt.]

PART 332—OFFERING OF UNITED STATES SAVINGS BONDS SERIES H

SPECIAL OFFERING TO OWNERS OF MATURING SAVINGS BONDS OF SERIES F AND G

AUGUST 15, 1958.

Department Circular No. 905, Revised, dated April 22, 1957, as amended (31 CFR, 1957 Supp., 332) is hereby supplemented and further amended by the addition of the following new section:

§ 332.1a *Special offering to owners of maturing savings bonds of Series F and G*—(a) *General.* The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended (31 U. S. C. 757c) hereby offers owners of bonds of Series F and Series G maturing on and after September 1, 1958, the privilege of applying the proceeds of their matured bonds to the purchase of bonds of Series H without regard to the limitation on holdings prescribed in § 332.9.

(b) *Restrictions and conditions.* This offering is subject to the following restrictions and conditions:

(1) It extends only to individuals, that is, natural persons in their own right, legal guardians, committees, and similar representatives of estates of minors and incompetents, and to "personal trust estates." For this purpose the term "personal trust estates" means trusts established by natural persons in their own right, for the benefit of themselves or other such natural persons, in whole or in part, and common trusts comprised in whole or in part of such trust estates.

(2) It is subject to the restrictions prescribed in § 315.6 of this chapter (savings bond regulations, Department Circular No. 530).

(3) The matured bonds must be presented to a Federal Reserve Bank or Branch for the specified purpose of taking advantage of this offering.

(4) Bonds of Series H may be purchased with the proceeds of the matured bonds only up to the denominational amounts that such proceeds will fully cover; any difference between the redemption value of the matured bonds and the purchase price of bonds of Series H will be paid to the owner.

(5) The bonds of Series H will be registered in the name of the owner in any authorized form of registration.

(6) They will be dated as of the first day of the month in which the matured bonds are presented to a Federal Reserve Bank or Branch.

(c) *Termination of offering.* This offering will continue until terminated by the Secretary of the Treasury.

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (P. L. 404, 79th Cong.; 60 Stat. 237) is found to be unnecessary with respect to this amendment.

(Sec. 22, 49 Stat. 21, as amended; 31 U. S. C. 757c)

[SEAL] ROBERT B. ANDERSON,
Secretary of the Treasury.

[F. R. Doc. 58–6790; Filed, Aug. 21, 1958; 8:54 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

Subchapter B—Standard Samples and Reference Standards

PART 230—STANDARD SAMPLES AND REFERENCE STANDARDS ISSUED BY NATIONAL BUREAU OF STANDARDS

SUBPART B—STANDARD SAMPLES AND REFERENCE STANDARDS WITH SCHEDULE OF WEIGHTS AND FEES

DESCRIPTIVE LIST

In accordance with the provisions of section 4 (a) and (c) of the Administrative Procedure Act, it has been found that notice and hearing on these schedules of fees are unnecessary for the reason that such procedures, because of the nature of these rules, serve no useful purpose. These schedules are effective from August 4, 1958.

Section 230.11 *Descriptive list* is amended as follows:

1. Paragraph (r) *Radioactive standards* is amended to read as follows:

(r) *Radioactive standards.*

ALPHA-BETA-GAMMA STANDARDS [1]

Sample No.	Radiation	Nuclide	Nominal (a) activity	Volume	Price per sample
4900	α	Polonium-210 [b]	200 dps	(c)	$27.00
4901	α	Polonium-210 [b]	500 dps	(c)	27.00
4902	α	Polonium-210 [b]	1000 dps	(c)	27.00
4903	α	U_3O_8 [d]	15 dps	(e)	27.00
4911	β (α)	RaD E [f]	500 dps	(e)	27.00
4912	β (α)	RaD E [f]	1000 dps	(e)	27.00
4913	β (γ)	Cobalt–60	10^4 dps/ml [g]	(h)	27.00
4914	γ (β)	Cobalt–60	10^6 dps [g]	5.0 ml	27.00
4915	γ (β)	Cobalt–60	10^6 dps [c]	5.0 ml	27.00
4916	(β)	Phosphorus–32 [i]			
4917	β (γ)	Iodine–131 [i]			
4918	β (γ)	Gold–198 [i]			
4919	β	Strontium–90, Yttrium–90	10^4 dps/ml [g]	(h)	27.00
4920	β	Thallium–204	10^4 dps/ml [g]	(h)	27.00
4921	β (γ)	Sodium–22	10^4 dps/ml [g]	(h)	27.00
4922	γ (β)	Sodium–22	10^6 dps [c]	5.0 ml	27.00
4923	β (γ)	Sodium–24 [i]	10^6 dps/ml [g]	25.0 ml	27.00
4924	β	Carbon–14	10^4 dps/ml [g]	(j)	27.00
4925	β	Carbon–14	10^4 dps/ml [g]	25.0 ml	27.00
4926	β	Hydrogen–3	10^6 dps/ml [g]	(h)	27.00
4927	β	Hydrogen–3	10^6 dps/ml [g]	(h)	27.00

4935	β	Krypton–85	10^8 dps/ml [k]	(k)	27.00
4936	γ (β)	Iron–59	10^6 dps/ml [c]	5.0 ml	27.00

[1] Radioactivity standards are shipped express collect only to destinations in Canada and the United States. In the case of shipments to other countries consignee should appoint an agent to handle shipment abroad, apply to the National Bureau of Standards for pro forma invoices, and establish a credit for the cost of the standards at any bank in the United States.

[a] The disintegration rate as of the reference date is given on a certificate accompanying the standard.

[b] Samples consist of a practically weightless deposit of polonium-210 on a silver disk 1 inch in diameter, 1/16-inch thick and faced with 0.002 inch of palladium. Please note that standard samples Nos. 4900, 4901, and 4902 are now polonium-210. This change makes possible the preparation of small diameter weightless source with little self-absorption and no beta emission. Corrections for decay may be made accurately. If uncalibrated strong alpha sources with a longer half-life are desired and the above characteristics are not required, the beta sources Nos. 4911 and 4912 may be used. Two years after plating, the alpha emission rate in the forward direction is approximately one-half the given disintegration rate and decays with approximately the half-life of radium D.

[c] Deposited source.

[d] Samples consist of U_3O_8 deposited on a 0.1-mm platinum foil and mounted on an aluminum disk, 1¼ inch in diameter and 1/32-inch thick. The alpha-ray disintegration rate as of the date of calibration is indicated on the certificate accompanying the standard.

[e] Standards consist of Pb–210—Bi–210 in equilibrium, deposited on a silver disk 1 inch in diameter, 1/16-inch thick and faced with 0.002 inch of palladium.

[f] Total activity of these standards is such that they may be ordered singly under the general licensing provisions of the Atomic Energy Act of 1954 (please refer to Federal Register, Volume 21, page 213, January 11, 1956).

[g] These standards can be issued only under the special licensing provisions of the Atomic Energy Act of 1954, and it is therefore required that a copy of the purchaser's current AEC By-Product Material License be on file at the National Bureau of Standards.

[h] Approximately 3 ml of low-solids carrier solution containing the active nuclide in a flame-sealed ampoule.

[i] Primary standards of these nuclides are maintained at the National Bureau of Standards, secondary standards being now available commercially as noted in the following press release dated May 1, 1957:

Distribution of Certain Short-Lived Radioisotope Standards.

Effective May 6, 1957, the National Bureau of Standards discontinued the distribution of the following radioactivity standard samples of short-lived radioisotopes which are now commercially available:

NBS Standard Sample No. 4916 Phosphorus–32
NBS Standard Sample No. 4917 Iodine–131
NBS Standard Sample No. 4918 Gold–198
NBS Standard Sample No. 4923 Sodium–24
NBS Standard Sample No. 4933 Potassium–42

Standardized samples of these nuclides may be obtained from the Nuclear-Chicago Corporation, 223 West Erie Street, Chicago 10, Illinois. The standards to be issued by this firm will be derived from comparisons made with the primary standards of the National Bureau of Standards. The firm, however, has accepted full responsibility for the standardization of the samples that it distributes.

Discontinuance of this activity will permit the Bureau to devote more of its resources toward meeting the demands of science and industry for new and more accurate standards. The Bureau's action also conforms with the Federal Government's general policy of withdrawing from activities that can be carried on by private business. The Bureau will, however, continue to maintain the primary disintegration-rate standards of these nuclides, with which commercially available secondary standards may be compared. It is anticipated that there will be no interruption in the distribution schedules of the above standards.

[j] Benzoic acid (7C–14) in about 3 ml of toluene in a flame-sealed glass ampoule.

[k] Approximately 10 ml of Kr^{85} in inert krypton at a pressure of approximately one atmosphere in a break-seal glass ampoule.

RADIUM STANDARDS (FOR RADON ANALYSIS)

Sample No.	Radium content (in grams)	Volume (ml.) (a)	Price per sample
4950	10^{-8}	100	$27.00
4951	10^{-11}	100	27.00
4952	Blank solution	100	5.00

[a] Samples are sealed in flame-sealed glass ampoules.

RADIUM GAMMA-RAY STANDARDS

Sample No.	Radium content (in micrograms)	Volume (ml.) (a)	Price per sample
4955	0.1	5	$27.00
4956	0.2	5	27.00
4957	0.5	5	27.00
4958	1.0	5	27.00
4959	2.0	5	27.00
4960	5.0	5	27.00
4961	10	5	27.00
4962	20	5	27.00
4963	50	5	27.00
4964	100	5	27.00

[a] Samples are contained in flame-sealed glass ampoules.

ROCK STANDARDS

RADIUM ROCK SAMPLES [p]

Sample No.	Rock	Average radium content micrograms of radium per gram of rock	Price per sample
4975	Dunite	0.009±0.004	$3.00
4976	Carthage limestone	0.15 ±0.03	3.00
4977	Berea sandstone	0.24 ±0.02	3.00
4978	Columbia River basalt	0.33 ±0.03	3.00
4979	Cheshnford granite	2.95 ±0.08	3.00
4980	Quartzite	0.06 ±0.01	3.00
4981	Graniteville granite	3.5 ±0.2	3.00
4982	Gabbro-diorite	0.18 ±0.02	3.00
4983	Milford granite	0.23 ±0.03	3.00
4984	Triassic diabase	0.18 ±0.02	3.00
4985	Deccan trap	0.31 ±0.04	3.00
4986	Kimberlite	0.59 ±0.04	3.00

[p] Each sample consists of 100 g of pulverized rock taken from bulk material analyzed for radium content. Petrographic data of each standard and approximate chemical analysis of a representative sample of all standards except 4976, 4977 and 4980 is also given in a certificate accompanying each sample.

CARBON-14 DATING STANDARD

Sample No.	Description	Price per sample
4990	Contemporary standard for Carbon-14 dating laboratories (sample consists of 5 lb of oxalic acid)	$5.00

2. Paragraph (t) *Limestone slabs for caulking compound tests* is amended to read as follows:

(t) *Limestone slabs for caulking compound tests.*

Sample No.	Description	Unit of issue	Price per sample
1005	Limestone slabs, as required by Federal Specification TT–C–598, "Compound, Caulking, Plastic."	Set of 12 slabs.	$25.00

(Sec. 9, 31 Stat. 1450, as amended; 15 U. S. C. 277. Interprets or applies sec. 8, 31 Stat. 1450, as amended; 15 U. S. C. 276)

A. V. ASTIN,
Director,
National Bureau of Standards.

Approved: August 12, 1958.

SINCLAIR WEEKS,
Secretary of Commerce.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 17—MEDICAL

MISCELLANEOUS AMENDMENTS

1. The centerhead "Appointments" immediately preceding § 17.30 is deleted and a new centerhead "Definitions" is added.

2. Former § 17.30 is redesignated as new § 17.61 (see paragraph 13 of this document for new § 17.61) and a new § 17.30 is added to read as follows:

§ 17.30 *Definitions.* Wherever used in Veterans Administration medical regulations, the terms defined in this section shall have the meaning herein stated, namely:

(a) *Veteran.* The term "veteran" means a person who served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable.

(b) *Military, naval, or air service.* The term "military, naval, or air service" means service in the United States Army, Navy, Air Force, Marine Corps, or Coast Guard, including the Reserve components thereof.

(c) *Veteran of any war.* The term "veteran of any war" means any veteran who served in the active military, naval, or air service during a period of war.

(d) *Period of war.* The term "period of war" means each of the Indian Wars, the Spanish-American War, World War I, World War II, the Korean conflict, and the period beginning on the date of any future declaration of war by the Congress and ending on a date prescribed by Presidential proclamation or concurrent resolution of the Congress.

(e) *Indian Wars.* The term "Indian Wars" means the campaigns, engagements, and expeditions of the United States military forces against Indian tribes or nations, service in which has been recognized heretofore as pensionable service.

(f) *Spanish-American War.* The term "Spanish-American War" (1) means the period beginning on April 21, 1898, and ending on July 4, 1902, (2) includes the Philippine Insurrection and the Boxer Rebellion, and (3) in the case of a veteran who served with the United States military forces engaged in hostilities in the Moro Province, means the period beginning on April 21, 1898, and ending on July 15, 1903.

(g) *World War I.* The term "World War I" (1) means the period beginning on April 6, 1917, and ending on November 11, 1918, and (2) in the case of a veteran who served with the United States military forces in Russia, means the period beginning on April 6, 1917, and ending on April 1, 1920.

(h) *World War II.* The term "World War II" means the period beginning on December 7, 1941, and ending on December 31, 1946.

(i) *Korean conflict.* The term "Korean conflict" means the period beginning on June 27, 1950, and ending on January 31, 1955.

(j) *Retirement.* "Retirement" of an individual from the military, naval, or air service shall be considered to be a discharge or release from such service.

(k) *Hospital care.* "Hospital care" includes medical services rendered in the course of hospitalization and transportation and incidental expenses for veterans who are in need of treatment for a service-connected disability or are unable to defray the expense of transportation.

(l) *Medical services.* "Medical services" includes, in addition to medical examination and treatment, dental and surgical services, and dental appliances, wheelchairs, artificial limbs, trusses, and similar appliances, special clothing made necessary by the wearing of prosthetic appliances, and such other supplies as the Administrator determines to be reasonable and necessary.

(m) *Domiciliary care.* "Domiciliary care" includes transportation and incidental expenses for veterans who are unable to defray the expense of transportation.

(n) *Service-connected disability.* The term "service-connected disability" means a disability incurred or aggravated in line of duty in the active military, naval, or air service. For purposes of out-patient treatment and on submission of an appropriate application therefor, all disabilities of Spanish-American War veterans may be considered war service connected.

(o) *Chief medical officer.* The term "chief medical officer" means the medical officer in charge of the parent outpatient clinic of the regional office territory in which the clinic is located (i. e., the chief medical officer of the Medical Division of a regional office (including the Veterans Benefits Office, D. C.); the director of a separate Veterans Administration outpatient clinic; or Chief, Outpatient Service, at a hospital with which a regional office Medical Division has been merged.)

3. The centerhead "Definitions" immediately preceding § 17.31 is deleted.

4. Section 17.31 *Chief medical officer* is revoked.

5. In § 17.35, the headnote and paragraph (a) are amended to read as follows:

§ 17.35 *General authority for emergency hospital care.* (a) All potential beneficiaries having prima facie entitlement therefor, who are in need of emergency hospital care, may be provided therewith, and such emergency hospital care may, if necessary, be continued until a definite decision is reached as to the eligibility of the applicant for medical treatment. This authority for emergency hospitalization carries authority to supply Government transportation and necessary meals and lodging en route to the facility designated for the emergency admission.

6. The centerhead "Medical Treatment in Foreign Countries" immediately preceding § 17.36 is amended to read "Hospital Care and Medical Services in Foreign Countries".

7. Section 17.36 is revised to read as follows:

§ 17.36 *Eligibility for hospital care and medical services in foreign countries.* No person shall be entitled to receive hospital or domiciliary care or medical services, who resides outside of the continental limits of the United States or a territory, commonwealth, or possession of the United States except that the Chief Medical Director or Chief Medical Officer, Veterans Benefits Office, D. C., may authorize services as provided in paragraphs (a) and (b) of this section, provided the applicants are temporarily sojourning or temporarily residing in a foreign country and are citizens of the United States (sec. 524, Pub. Law 85–56).

(a) Hospital care for persons eligible under § 17.47 (a) who are in need of treatment for that disease or injury adjudicated by the Veterans Administration as incurred in or aggravated in line of duty in the active military, naval, or air service during a period of war.

(b) Medical services for persons eligible under § 17.60 (a) (1), (2), (5), and (6) who are in need of treatment for that disease or injury adjudicated by the Veterans Administration as incurred in or aggravated in line of duty in the active military, naval, or air service during a period of war.

8. Sections 17.46, 17.47, and 17.48 are revised to read as follows:

§ 17.46 *Persons entitled to hospital or domiciliary care.* Hospital or domiciliary care may be provided:

(a) Subject to the eligibility provisions of §§ 17.47 and 17.48, for:

(1) Persons discharged, released, or retired from active military, naval, or air service under other than dishonorable conditions (sec. 106, Pub. Law 85–56).

(2) Members or former members of the uniformed services (Army, Navy, Air Force, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service) temporarily or permanently retired for physical disability or receiving disability retirement pay who require hospitalization for chronic diseases, and who have no eligibility to hospitalization under laws governing the Veterans Administration or who having eligibility do not elect hospitalization as Veterans Administration beneficiaries (Pub. Law 351, 81st Cong., and Executive Order 10122 as amended by Executive Order 10400).

(3) Persons included in section 311 and section 332, Title III, Public Law 85–56, January 1, 1958.

(b) Not subject to the eligibility provisions of §§ 17.47 and 17.48, for:

(1) Persons in active service with the United States Army (Pub. Law 177 and Pub. Law 852, 76th Cong.), or United States Navy or Marine Corps (Pub. Law 675, 70th Cong.), when duly referred with authorization therefor, may be supplied hospital care. Emergency treatment may be rendered such persons upon their own application, when absent from their commands, provided that covering formal authorization be procured as promptly as possible after the emergency treatment is begun.

(2) Hospital care may be provided, upon authorization, for beneficiaries of the Public Health Service, Bureau of Employees' Compensation, and other Federal agencies.

(3) Pensioners of nations allied with the United States in World War I and World War II may be supplied hospital care when duly authorized.

(c) Emergency hospital care may be provided for:

(1) Persons having no prima facie eligibility therefor, as a humanitarian service.

(2) Persons admitted because of presumed discharge or retirement from the Armed Forces, but subsequently found to be ineligible as such.

(3) Employees (not potentially eligible as ex-members of the Armed Forces) and members of their families, when residing on reservations of field stations of the Veterans Administration, and when they cannot feasibly obtain emergency treatment from private facilities.

(d) Persons comprehended under the provisions of paragraphs (b) and (c) of this section may be supplied hospitalization after the needs of emergency applicants under paragraph (a) of this section are fully met. Charges at prescribed rates will be made for the services rendered.

(45 Stat. 1090, secs. 1, 2, 70A Stat. 100, 215, 606, secs. 106, 311, 332, 71 Stat. 91, 96, 100; 10 U. S. C. 1216, 3723, 24 U. S. C. 31, 32 U. S. C. 320, 38 U. S. C. 2106, 2311, 2332, E. O. 10122, Apr. 14, 1950, 15 F. R. 2173, 3 CFR, 1950 Supp., E. O. 10400, Sept. 27, 1952, 17 F. R. 8648, 3 CFR, 1952 Supp.)

§ 17.47 *Eligibility for hospital or domiciliary care of persons discharged, released, or retired from active military, naval, or air service.* Within the limits of Veterans Administration facilities, hospital or domiciliary care may be furnished the following applicants in the specified order of preference. Notwithstanding the numerical group listing in paragraphs (a) to (d), inclusive, of this section, all persons comprehended in each group are on a parity with all other persons in the same paragraph in determining questions of priority for admissions:

(a) Hospital care for:

(1) Persons who served in the active military, naval, or air service during a period of war as defined in § 17.30, including those who have had active duty as members of the Women's Army Auxiliary Corps, Women's Reserve of the Navy and Marine Corps, and the Women's Reserve of the Coast Guard, when discharged, released, or retired (including members of the Fleet Reserve or Fleet Marine Reserve on retainer pay) under other than dishonorable conditions from a period of war service, and when suffering from an injury or disease incurred or aggravated in line of duty in that period of active military, naval, or air service, and for which they are medically determined to be in need of hospital care (sec. 106, Pub. Law. 85–56, January 1, 1958).

(2) Persons included in section 311 and section 332 of Title III, Public Law 85–56, who are suffering from injuries or diseases incurred in line of duty, during a period of war for which they are receiving disability compensation, and for which they are in need of hospital care.

(3) Persons who served in the active military, naval, or air forces on or after December 7, 1941, and before January 1, 1947, or on or after June 27, 1950, and prior to February 1, 1955, who are in need of treatment for an active psychosis adjudicated by the Veterans Administration as service connected under the provisions of section 502, Title V, Public Law 85–56, January 1, 1958.

(4) Cadets and midshipmen suffering from disabilities incurred in line of duty while assigned to duties constituting war service during the Spanish-American War and World War I and Korean conflict (which includes practice cruises at sea but excludes practice maneuvers at the Academies) and those pursuing a prescribed course of instruction at the Academies during World War II, requiring treatment for disabilities incurred in line of duty during such periods.

(5) Persons defined in subparagraphs (1) through (4) of this paragraph when suffering from a nonservice-connected condition which is associated with and held to be aggravating disability from a disease or injury incurred or aggravated in line of duty and for which they are medically determined to be in need of hospital care.

(b) Hospital care for:

(1) Persons who were discharged, released, or retired under other than dishonorable conditions from active military, naval, or air service for disability incurred or aggravated in line of duty or who are in receipt of compensation for service-connected or service-aggravated disability, when suffering from injuries or diseases incurred or aggravated in line of duty in such active service, and for which they are medically determined to be in need of hospital care. Cadets and midshipmen who meet these requirements as to character of discharge or receipt of compensation are eligible under this paragraph, regardless of the requirement as to active military, naval, or air service.

(i) For applicants not in receipt of compensation for service-connected or service-aggravated disability, the official records of the Armed Forces relative to findings of line of duty for its purposes will be accepted in determining eligibility for hospital care under this paragraph; except that where such official records show a finding of disability not incurred or aggravated in line of duty and evidence is submitted to the Veterans Administration which permits of a different finding, the decision of the Armed Forces will not be binding upon the Veterans Administration, which will be free to make its own determination of line of duty incurrence or aggravation upon the evidence so submitted. It will be incumbent upon the applicant to present such controverting evidence and, until he so acts and a determination favorable to him is made by the Veterans Administration, the finding of the Armed Forces will control and hospitalization will not be authorized. Such controverting evidence, when received from an applicant, will be referred to the adjudicating agency which would have jurisdiction if the applicant were filing claim for pension or disability compensation, and the determination of such agency as to line of duty, which is promptly to be communicated to the Manager of the field station receiving the application for hospitalization, will govern his disapproval or approval of admission, other eligibility requirements having been met. Where the official records of the Armed Forces show that the disability on account of which a veteran was discharged from service under other than dishonorable conditions was incurred or aggravated in line of duty, such showing will be accepted for the purpose of determining his eligibility for hospitalization, notwithstanding the fact that the Veterans Administration has made a determination in connection with a claim for monetary benefits that the disability was incurred or aggravated not in line of duty. See also section 105, Public Law 85–56, defining line of duty, whether on active duty or authorized leave, relative to applicants whose only military or naval service was in a period other than wartime.

(ii) When the applicant is in receipt of compensation for a service-connected or service-aggravated disability, inquiry will not be made as to the character of discharge from service.

(iii) In those exceptional cases where the official records of the Armed Forces show discharge or release under other than dishonorable conditions because of expiration of period of enlistment or any other reason save disability, but also show a disability incurred or aggravated in line of duty during the said enlistment; and the disability so recorded is considered in medical judgment to be or to have been of such character, duration, and degree as to have justified a discharge for disability had the period of enlistment not expired or other reason for discharge or release been given, the Chief Medical Director, upon consideration of a clear, full statement of the circumstances submitted to him, is authorized to approve admission of the applicant for hospital treatment, provided other eligibility requirements are met. A typical case of this kind would be one where the applicant was under treatment for the said disability recorded during his service at the time discharge was given for the reason other than disability.

(2) Persons defined in § 17.46 (a) (2) who require hospitalization for chronic diseases incurred in line of duty in active military, naval, or air service when beds are available and they agree to pay the subsistence rate set by the Administrator of Veterans Affairs, except that no subsistence charge will be made for those persons who are members or former members of the Public Health Service, Coast Guard, Coast and Geodetic Survey, and enlisted personnel of the Army, Navy, Marine Corps, and Air Force.

(3) Persons included in section 332 of Title III, Public Law 85–56, who on or after August 27, 1940, and prior to December 7, 1941, suffered an injury or disease in line of duty for which they are receiving disability compensation and for which they are in need of hospital treatment.

(4) Persons defined in subparagraphs (1) to (3) of this paragraph when suffer-

ing from a nonservice-connected condition which is associated with and held to be aggravating disability from a disease or injury incurred or aggravated in line of duty, and for which they are medically determined to be in need of hospital care (effective January 1, 1958).

(c) *Hospital or domiciliary care.* (1) Hospital care for persons who were discharged, released, or retired from active military, naval, or air service under other than dishonorable conditions for disability incurred or aggravated in line of duty, or who are in receipt of compensation for service-connected or service-aggravated disability, when suffering from nonservice-connected diseases or injuries requiring hospitalization. See also paragraph (b) (1) (i), (ii), and (iii) of this section which applies here, and to subparagraph (2) of this paragraph.

(Sec. 106, Pub. Law 85–56)

(2) Domiciliary care for persons who were discharged, released, or retired from active military, naval, or air service under other than dishonorable conditions for disability incurred or aggravated in line of duty, or who are in receipt of compensation for service-connected or service-aggravated disability when suffering from a permanent disability or tuberculous or neuropsychiatric ailment and who are incapacitated from earning a living and who have no adequate means of support. An additional requirement for eligibility for domiciliary care is the ability of the veteran to perform all the following:

(i) Perform without assistance daily ablutions, such as brushing teeth; bathing; combing hair; body eliminations.

(ii) Dress himself, with a minimum of assistance.

(iii) Proceed to and return from the dining hall without aid.

(iv) Feed himself.

(v) Secure medical attention on an ambulatory basis or by use of personally propelled wheelchair.

(vi) Have voluntary control over body eliminations or control by use of an appropriate prosthesis.

(vii) Share, by his personal efforts, in some measure, however slight, in the maintenance and operation of the station.

(viii) Make rational and competent decisions as to his desires to remain or leave the station.

(Sec. 510, Pub. Law 85–56)

(d) *Hospital or domiciliary care.* (1) Hospital or domiciliary care for persons who served in the active military, naval, or air service, including those who had active duty as a member of the Women's Army Auxiliary Corps, during a period of war as defined in § 17.30, who were discharged, released, or retired (including members of the Fleet Reserve or Fleet Marine Corps Reserve on retainer pay) from active duty under other than dishonorable conditions; who swear that they are unable to defray the expense of hospitalization or domiciliary care (including the expense of transportation to and from a Veterans Administration facility); and who are suffering from a disability, disease, or defect which, being susceptible to cure or decided improvement, indicates need for hospital care, or which, being essentially chronic in type is producing disablement of such degree and of such probable persistency as will incapacitate from earning a living for a prospective period, and thereby indicates need for domiciliary care. An additional requirement for eligibility for domiciliary care is the ability of the veteran to perform all of the following:

(i) Perform without assistance daily ablutions, such as brushing teeth; bathing; combing hair; body eliminations.

(ii) Dress himself with a minimum of assistance.

(iii) Proceed to and return from the dining hall without aid.

(iv) Feed himself.

(v) Secure medical attention on an ambulatory basis or by use of personally propelled wheelchair.

(vi) Have voluntary control over body eliminations or control by use of an appropriate prosthesis.

(vii) Share, by his personal efforts, in some measure, however slight, in the maintenance and operation of the station.

(viii) Make rational and competent decisions as to his desires to remain or leave the station.

Except for applicants presenting emergent conditions, consideration in admissions under this subparagraph may be given to the length or character of service.

(Sec. 106, Pub. Law 85–56)

(2) Hospital care for persons defined in § 17.46 (a) (2) who require hospitalization for chronic diseases not incurred in line of duty in active military, naval, or air service when beds are available and they agree to pay the subsistence rate set by the Administrator of Veterans Affairs, except that no subsistence charge will be made for those persons who are members or former members of the Public Health Service, Coast Guard, Coast and Geodetic Survey, and enlisted personnel of the Army, Navy, Marine Corps, or Air Force.

(3) Hospital or domiciliary care for cadets and midshipmen assigned to duties constituting war service during the Spanish-American War and World War I and Korean conflict (which includes practice cruises at sea but excludes practice maneuvers at the Academies) and those pursuing a prescribed course of instruction at the Academies during World War II who meet the other eligibility requirements of subparagraph (1) of this paragraph.

(Secs. 105, 106, 311, 332, 71 Stat. 90, 91, 100; 38 U. S. C. 2105, 2106, 2311, 2332)

§ 17.48 *Considerations applicable in determining eligibility for hospital or domiciliary care.* (a) Under § 17.47 (b) (2) and (d) (2), the term "chronic diseases" shall include chronic arthritis, malignancy, psychiatric or neuropsychiatric disorder, neurological disabilities, poliomyelitis with disability residuals and degenerative diseases of the nervous system, severe injuries to the nervous system including quadriplegics, hemiplegics, and paraplegics, tuberculosis, blindness and deafness requiring definitive rehabilitation, major amputees, and such other diseases as may be agreed from time to time jointly by the Chief Medical Director of the Veterans Administration, the Chairman of the Armed Forces Medical Policy Council, Office of the Department of Defense, and the Surgeon General of the U. S. Public Health Service, Office of the Department of Health, Education and Welfare. Blindness, as used in this paragraph, is defined as central visual acuity of 20/200 or less in the better eye, with corrective glasses, or central visual acuity of more than 20/200, if there is a field defect in which the peripheral field has contracted to such an extent that the widest diameter of the visual field subtends an angular distance no greater than 20 degrees in the better eye.

(b) Under § 17.47 (c) (2):

(1) "No adequate means of support": When an applicant is receiving an income of $125 or more per month from any source for his own use, this fact will be considered prima facie evidence that he has adequate means of support. This is subject to rebuttal by a showing that his income is not adequate to provide the care required by reason of his disability or that the income is not available for his use because of other obligations such as contributions in whole or in part to the support of a spouse, child, mother, or father. In all such cases of alleged inadequate means of support, the circumstances will be submitted to the Manager for decision.

(c) Under § 17.47 (d):

(1) "Any disability, disease, or defect" will comprehend any acute, subacute, or chronic disease (of a general medical, tuberculous, or neuropsychiatric type) or any acute, subacute, or chronic surgical condition susceptible of cure or decided improvement by hospital care; or any condition which does not require hospital care for an acute or chronic condition but requires domiciliary care. Domiciliary care, as the term implies, is the provision of a home, with such ambulant medical care as is needed. To be entitled to domiciliary care, the applicant must consistently have a disability, disease, or injury which is essentially chronic in type and is producing disablement of such degree and probable persistency as will incapacitate from earning a living for a prospective period.

(2) "Unable to defray expenses of hospitalization or domiciliary care (including transportation to and from a Veterans Administration facility)": The affidavit of the applicant on VA Form 10–P–10 that he is unable to defray the expenses of hospitalization or domiciliary care (including transportation to and from a Veterans Administration facility) will constitute sufficient warrant to furnish hospitalization or domiciliary care (including Government transportation to cover transportation to the facility).

(d) Persons hospitalized pursuant to § 17.47 (c) (1) or (d) (1) and (3), who it is believed may be entitled to hospital care or medical or surgical treatment or to reimbursement for all or part of the cost thereof, by reason of statutory, contractual, or other relationships with third parties, including those liable for damages by reason of negligence or other legal wrong, will not be furnished hospital care without charge therefor to the extent of the amount for which third parties are or will become liable, and such patients will be requested to execute appropriate assignment or other instrument which will entitle the Administrator of Veterans Affairs, on behalf of the United States, to receive and to collect, directly or as assignee, from the third party or parties, to the extent of the amounts for which such third party is liable, the cost of such care and treatment as determined under the applicable rules and regulations, including medical fee schedules, of the Veterans Administration. The words "by reason of statutory or contractual relationship" as used in this paragraph include, but are not limited to, (1) membership in a union, fraternal or other organization, (2) rights under a group hospitalization plan, or under any insurance contract or plan which provides for payment or reimbursement for the cost of medical or hospital care, and conditions the obligation of the insurer to pay upon payment or incurrence of liability by the person covered, (3) "workmen's compensation" or "employers' liability" statutes, State or Federal, (4) right to "maintenance and cure" in admiralty. Notice of the assignment will be mailed promptly to the party or parties believed to be liable. When the amount of charges is ascertained, bill therefor will be mailed such party or parties. If payment is not received in due course the matter will be referred to the proper Chief Attorney.

(e) Women veterans will not be entitled to hospital care for pregnancy and parturition unless it is complicated by a pathological condition.

9. In § 17.50, paragraph (d) is amended, paragraph (f) is deleted, and former paragraphs (g), (h), (i), and (j) are redesignated paragraphs (f), (g), (h), and (i), respectively, to read as follows:

§ 17.50 *Utilization of facilities other than those under direct and exclusive jurisdiction of the Veterans Administration.* • • •

(d) The general principles to be observed in utilization of facilities other than those over which the Veterans Administration has direct and exclusive jurisdiction will be as follows: Other Government facilities under agreements or private facilities under contracts will be used for the hospitalization of beneficiaries requiring hospital treatment in accordance with the foregoing instructions only when facilities under direct and exclusive jurisdiction of the Veterans Administration are not feasibly available, or when the urgency of the applicant's medical condition, the relative distance of the travel involved, or the nature of the treatment required in the individual case makes it necessary or economically advisable to utilize such other institutions instead of a facility under direct and exclusive jurisdiction of the Veterans Administration. Under the provisions of this section, admissions to other Government, private, State, or municipal hospitals may be authorized by Managers of regional offices (including Veterans Benefits Office, D. C.), centers, hospitals, and separate Veterans Administration Outpatient Clinics, through chief medical officers (as currently defined in § 17.30 (o).

• • • • •

(f) The prior approval of the Chief Medical Director or the Assistant Chief Medical Director for Operations must be secured for the use of private, State, or municipal facilities covered by contracts and located either within the continental limits of the United States or in the insular possessions or territories, for the hospitalization in such facilities of beneficiaries in excess of the number of beds contracted for, except where immediate hospitalization is indicated for treatment of a medically emergent service-connected disease or injury. The number of beds set apart by agreements with other Government facilities, for treatment of Veterans Administration beneficiaries, may be exceeded during any month as necessitated with the consent of the commanding officer of the hospital concerned: *Provided*, That the utilization thereof be correspondingly reduced in other months, so that the average monthly use of such beds, at the end of the fiscal year, will not have exceeded the total allocation.

(g) An applicant, whose eligibility for hospitalization (whether for observation or treatment or whether for a service-connected or nonservice-connected condition) had been determined, whose admission to a Veterans Administration facility had been authorized, and who had been supplied transportation therefor but who, while enroute to the designated facility (or enroute from it after completion of service and regular discharge, with transportation furnished to a designated point), develops an unavoidable and unforeseen medical emergency that forbids continuance of such travel and requires admission to a private hospital or treatment by a private physician, will be entitled to such necessary services at the expense of the Government, including any extra transportation costs (ambulance or otherwise) that were actually necessitated in the circumstances.

(1) If the chief medical officer of the territory concerned is informed of such emergency hospital admission or such physician's treatment before or shortly after the beginning of the services, authorization for the services, followed by payment of bills therefor, may be made in accordance with the terms of paragraph (b) (2) of this section.

(2) If the chief medical officer had not authorized such hospitalization or such physician's services, he may nevertheless certify for payment bills from the hospital superintendent or the attending physician, provided determination is made of the actual necessity for the items of service rendered and payment is at fees considered reasonable and not in excess of those customarily charged the general public for similar services in the hospital where rendered.

(3) Subject to the same controlling conditions as in subparagraph (2) of this paragraph, the chief medical officer may authorize reimbursement of the beneficiary or his representative, if either had paid bills submitted by the superintendent of the hospital or by the physician who had attended the beneficiary and had submitted those receipted bills.

(h) Payment or reimbursement for emergency medical treatment and hospitalization through facilities other than governmental as provided in paragraph (g) of this section may be authorized where a veteran granted vocational rehabilitation pursuant to the provisions of Public Law 16, 78th Congress as amended, or Public Law 894, 81st Congress, as amended, is furnished transportation and ordered to report to a designated school, proceeds in accordance with said orders, and becomes ill while en route, if there is no intervening factor for which he is responsible which would affect or change his status.

(i) The qualifying term "service-connected" as used in paragraphs (b) (1), (c), (f), and (g) of this section is applicable to an active psychosis adjudicated by the Veterans Administration as service connected under the provisions of Public Law 239, 82d Congress.

10. Section 17.51 *Travel for hospitalization in medical emergencies* is revoked.

11. Section 17.60 is revised to read as follows:

§ 17.60 *Outpatient treatment and examination.* (a) Medical services may be furnished to the following applicants under the conditions stated, except that applicants for dental treatment, as defined in subparagraphs (1) to (5), inclusive, of this paragraph, must also meet the applicable provisions of § 17.123.

(1) Persons discharged, released, or retired from active military, naval, or air service, including those who had active duty as members of the Women's Army Auxiliary Corps who served during a period of war as defined in § 17.30 and who are in need of treatment for a disease or injury adjudicated by the Veterans Administration as incurred or aggravated in such war service (Pub. Law 85–56, January 1, 1958).

(2) Persons included in section 311 and section 332 of Title III, Public Law 85–56, who are in need of treatment for an injury or disease incurred in line of duty and for which they are receiving disability compensation (Pub. Law 85–56).

(3) Persons who were discharged, released, or retired under other than dishonorable conditions from active military, naval, or air service for disability incurred or aggravated in line of duty in active service, or who are in receipt of compensation for a service-incurred or service-aggravated disability and who are in need of treatment for that condition which resulted in discharge, release, or retirement for disability or for a service-incurred or service-aggravated disability. A formal claim for disability compensation will not be required of an applicant eligible for outpatient treatment by reason of discharge, release, or retirement for disability incurred or aggravated in line of duty; and a denial of a claim for disability compensation will not debar outpatient treatment for such disability.

(See determination of line of duty, § 17.47 (b) (1) (i) and (iii); Pub. Law 85–56, January 1, 1958.)

(4) Persons pursuing a course of vocational training authorized under Public Law 16, 78th Congress, as amended, or Public Law 894, 81st Congress, as amended, who are in need of treatment to avoid interruption of such training.

(5) Persons who served in the active military, or naval service during the Spanish-American War, when discharged from such service under other than dishonorable conditions who are in need of outpatient treatment. Such outpatient treatment will not include medical care and treatment necessary to and part of hospital care furnished a patient while in a hospital.

(6) Persons who served in the active military, naval, or air service on or after December 7, 1941, and before January 1, 1947, or on or after June 27, 1950, and prior to February 1, 1955, who are in need of treatment for an active psychosis adjudicated by the Veterans Administration as service connected under the provisions of section 502, Public Law 85–56, January 1, 1958.

(7) Physical examinations may be furnished to applicants having prima facie entitlement to hospital or domiciliary care to determine their need for such care and to claimants or beneficiaries of the Veterans Administration for purposes of disability compensation, pension, emergency officers' retirement pay, medical feasibility for vocational training under Public Law 16, 78th Congress, as amended, or Public Law 894, 81st Congress, as amended, or War Orphans' Educational Assistance Act of 1956, Public Law 634, 84th Congress, and Government insurance.

(8) Persons properly referred by authorized officials of other Federal agencies for which the Administrator of Veterans Affairs may agree to render such service under conditions stipulated by him and pensioners of nations allied with the United States in World War I and World War II when duly authorized. Charges for services furnished to such patients will be at prescribed rates.

(9) Employees of the Veterans Administration, their families, and the general public in emergencies, subject to conditions stipulated by the Administrator of Veterans Affairs. Charges for treatment of patients specified herein will be at prescribed rates.

(b) While outpatient treatment is primarily authorized only for service-connected or service-aggravated conditions, adjunct outpatient treatment for a nonservice-connected condition which is associated with and held to be aggravating disability from a disease or injury service-connected or service-aggravated may be also authorized in accordance with prescribed principles for persons defined in paragraph (a) (1) to (3) and (6) of this section. The opinion of the Chief Medical Director may be requested in any individual case where advice as to the propriety of furnishing adjunct treatment is desired.

(Sec. 2, 57 Stat. 43, as amended, 64 Stat. 1121, as amended, 70 Stat. 411, as amended, secs. 311, 332, 71 Stat. 96, 100; 38 U. S. C. 701a, 1031–1084, 2311, 2332, ch. 12A)

12. Immediately following § 17.60, a new centerhead "Appointments" is added.

13. A new § 17.61 is added to read as follows:

§ 17.61 *Refusal of treatment by unnecessarily breaking appointments.* A patient under outpatient medical treatment who breaks an appointment without a reasonable excuse for such action will be informed that a repetition of the offense will be deemed to be a refusal of Government treatment. If such patient breaks a second appointment, without at least 24 hours' notice or a reasonable excuse, it will be deemed that he has refused Government treatment. Thereafter no further treatment will be furnished until he has made a specific formal application therefor and has satisfactorily evinced a willingness to accept Government treatment and to cooperate with the Government agency providing the treatment, by keeping his appointments or by giving at least 24 hours' notice where an appointment must necessarily be broken. Where an appointment is broken without notice and satisfactory reasons are shown for the breaking of the appointment and it is also satisfactorily shown that circumstances attending the breaking of the appointment were such that notice could not be given, the patient will not be deemed to have refused treatment. Nothing in this section will be construed to prevent a patient from receiving the benefit of treatment for an emergency condition that may arise during the time when he has been determined to be "Not entitled to treatment" as a result of refusal.

14. The centerhead immediately preceding § 17.66 is amended to read as follows: "Disciplinary Control of Beneficiaries Receiving Hospital or Domiciliary Care."

15. In § 17.100, paragraph (b) is amended, a new paragraph (d) is added, and former paragraphs (d), (e), (f), (g), (h), (i), (j), and (k) are amended and redesignated paragraphs (e), (f), (g), (h), (i), (j), (k), and (l), respectively, to read as follows:

§ 17.100 *Transportation of claimants and beneficiaries.* • • •

(b) *Readmissions.* (1) Hospital readmissions, when medically determined necessary to observe progress, modify treatment or diet, etc.

(2) No transportation will be furnished a person whose period of exclusion from hospital care for infraction of discipline has not expired, except when emergent hospital care is required, and the applicant executes affidavit that he is unable to defray the expense of transportation to accomplish travel for readmission for such emergent hospital care.

• • • • •

(d) *Passes, leaves of absence for administrative reasons, and furloughs.* Transportation will not be furnished beneficiaries who are permitted passes, leaves of absence for administrative reasons, or who are on furloughs, to depart from or return to Veterans Administration stations, except that if a patient or member in such status develops an emergent condition and the patient or member (or the guardian, if there be one) is without funds to return such patient or member to a Veterans Administration facility, travel may be approved by the Manager of the Veterans Administration facility to which the patient or member is to be returned. In such exception, the applicant (or his representative) will be required to execute the affidavit that he is unable to defray the expense of transportation.

(e) *Interstation transfers for treatment, diagnosis, or domiciliary care.* Prior consent of the area medical director will be had for transfers of patients or members en bloc within the area, and of both area medical directors if interarea transfers are involved.

(f) *Discharge.* (1) Upon completion of hospitalization for treatment, or for observation and examination, and regular discharge, return transportation to the point from which the beneficiary had proceeded; or to another point if no additional expense be thereby caused the Government.

(2) A patient in a terminal condition may be discharged to his home or transferred to a hospital suitable and nearest his home, regardless whether travel so required exceeds that covered in proceeding to the hospital of original admission.

(3) Transportation may be furnished to a point other than that from which a patient had proceeded to a hospital upon a showing of bona fide change of address of the patient's residence during the period of hospital care.

(4) The furnishing of transportation to effect discharge of a member from domiciliary care will require prior consent of the Manager.

(5) No return transportation will be supplied a patient who receives an irregular discharge from hospital care, unless he executes an affidavit of inability to defray the expense of return transportation.

(g) *Outpatient physical examination.* (1) Outpatient physical examination, subject to exception defined in paragraph (h) of this section.

(2) Outpatient treatment for service-connected conditions, including adjunct treatment thereof, and for nonservice-connected conditions to prevent interruption of training authorized under Public Law 16, 78th Congress, as amended, or Public Law 894, 81st Congress, as amended, subject to exceptions defined in paragraph (h) of this section.

(h) *Limitations.* (1) Transportation for outpatient treatment will not be supplied an applicant whose period of exclusion from hospital or domiciliary care for a disciplinary offense has not expired.

(2) No return transportation will be supplied a claimant or beneficiary who has not completed an outpatient service, unless he executes an affidavit that he is unable to defray the expense of such travel.

(i) *Advance authority required.* All travel for the foregoing purposes, paragraphs (a) to (g) of this section, must be authorized in advance. In emergent hospital admissions or emergent outpatient treatment, such prior authority may be given by telephone or telegraph, subject to confirmation in writing by the authorizing employee.

(j) *Accessories of transportation.* The accessories of transportation, meals and lodging en route, pullman accommodations, and accompaniment by an attendant or attendants, may be authorized when determined necessary for the travel.

(k) *Furnishing transportation and other expenses incident thereto.* In furnishing transportation and other expenses incident thereto, as defined, the Veterans Administration may (1) issue requests for transportation, meals, and lodging; or (2) reimburse the claimant, beneficiary or representative, for payment made for such purpose, upon due certification of vouchers submitted therefor; or (3) make mileage allowance.

(l) *Transportation of other than Veterans Administration beneficiaries.* Transportation of beneficiaries of other Federal agencies, incident to medical services rendered upon requests of those agencies, will not be furnished by the Veterans Administration, except that station vehicles may be used subject to reimbursement. Transportation incident to medical services rendered allied beneficiaries under agreement will be subject to reimbursement by the governments concerned.

16. In § 17.115, paragraphs (c) and (d) (5) are amended and paragraph (d) (6) is revoked to read as follows:

§ 17.115 *Types, fitting and training, and eligibility to appliances and repairs thereto.* • • •

(c) Beneficiaries supplied prosthetic appliances will be additionally entitled to fitting and training in the use of the appliances; and such service may be obtained under contract, if determined necessary (sec. 513, Public Law 85–56).

(d) • • •

(5) Persons defined in § 17.60 (a) (5).

(6) [Revoked]

17. In § 17.118, paragraph (a) is amended to read as follows:

§ 17.118 *Guide dogs or mechanical and electronic equipment for blind beneficiaries.* (a) Pursuant to the provisions of section 514, Public Law 85–56, blind ex-members of the Armed Forces entitled to disability compensation for a service-connected disability may be furnished a trained seeing-eye or guide dog. In addition, they may be supplied the necessary travel expenses to and from their places of residence to the point where adjustment to the seeing-eye or guide dog is available and meals and lodging during the period of adjustment, provided they are required to be away from their usual places of residence during the period of adjustment.

18. In § 17.120, paragraphs (d) and (h) are amended and paragraph (i) is revoked to read as follows:

§ 17.120 *Authorization of dental examinations.* • • •

(d) Those requiring dental examination during hospital or domiciliary care.

• • • • •

(h) Persons defined in § 17.60 (a) (5).

(i) [Revoked]

19. In § 17.123, the introductory paragraph preceding paragraph (a) is amended to read as follows:

§ 17.123 *Authorization of outpatient dental treatment.* Outpatient dental treatment may be authorized by the Chief, Dental Service, for beneficiaries defined in § 17.60 (a) (1) to (5), inclusive, and (b), to the extent prescribed and in accordance with the applicable classification and provisions set forth in this section:

(Secs. 210, 521, 71 Stat. 91, 113; 38 U. S. C. 2210, 2521. Interpret or apply secs. 101, 501, 502, 510–514, 522–524, 526, 527, 71 Stat. 88, 110–114; 38 U. S. C. 2101, 2501, 2502, 2510–2514, 2522–2524, 2526, 2527)

This regulation is effective August 22, 1958.

[SEAL] ROBERT J. LAMPHERE,
Acting Deputy Administrator.

[F. R. Doc. 58–6786; Filed, Aug. 21, 1958; 8:53 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 54—GUARANTY OF LOANS TO CARRIERS BY RAILROAD

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 14th day of August A. D. 1958.

There being under consideration the matter of rules and regulations governing applications requesting the guaranty by the Commission under part V of the Interstate Commerce Act, as amended, against loss of principal or interest on any loan, discount, or advance or on any commitment in connection therewith which may be made for the purposes set forth in said part, and good cause appearing therefor:

It is ordered, That the following rules and regulations be, and they are hereby, approved and prescribed, and that on and after August 29, 1958, persons making application for a guaranty under the provisions of said part V observe and comply with these rules and regulations:

Sec.
54.1 Form and content of application.
54.2 Required exhibits.
54.3 Fees.
54.4 Execution and filing of application.
54.5 General instructions.

AUTHORITY: §§ 54.1 to 54.5 issued under sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interpret or apply sec. 2, Pub. Law 85–625.

§ 54.1 *Form and content of application.* The application and supporting exhibits shall conform to § 1.15 of this chapter and shall show in the order indicated and by section numbers and letters corresponding to those used in this part the following:

(a) As to the carrier applicant and the transaction:

(1) Full and correct name and principal business address.

(2) Date of incorporation, or organization if not a corporation, and government, state, or territory under the laws of which it was incorporated or organized. If carrier applicant is a trustee, receiver, assignee, or other fiduciary, the name and address of the court, if any, under the direction of which the carrier applicant is acting, and the nature of the proceeding, if any, in which applicant was appointed. If carrier applicant is a partnership, an association, or other form of organization other than a corporation, a full description of the organization should be furnished.

(3) Name, title, and address of the person to whom correspondence regarding the application should be addressed.

(4) Brief description of the loan and its purpose or purposes, including statements of (i) the total amount of the loan, (ii) the purpose or purposes for which the loan proceeds will be used, (iii) the maturity date or dates, (iv) description of the security, if any, for the loan, including applicants' opinion of the value of any collateral and the basis for such opinion, (v) the date or dates on which carrier applicant desires the funds to be made available, (vi) the rate of interest, (vii) estimated total expenses in connection with the loan, including detail as to expenses estimated for legal, accounting, and engineering services, printing and engraving, trustees, fees, state and federal taxes, and commissions and discounts; and (viii) the portion of the loan concerning which guaranty by the Commission is sought.

(5) Concerning the necessity for the guaranty sought:

(i) Statement on behalf of the applicant carrier that it has endeavored to obtain a loan or loans for the purpose or purposes proposed without a guaranty by the Commission in connection therewith, but has not been able to obtain a loan therefor upon reasonable terms.

(ii) Information as to the applicant carrier's efforts to obtain the needed financing without a guaranty thereof by the Commission, and as to the results of such efforts. (See § 54.2 (b) (8) as to exhibits on this subject.)

(6) Statement, in summary form, showing the carrier applicant's financial obligations to, or claims against, the United States, if any, as of date of application, or latest available date, listed as to (i) balance on any direct loans, (ii) balance on any loans under which the United States is guarantor, (iii) status of any claims under litigation, and (iv) any other debits or credits existing between the carrier applicant and the United States, showing the department or agency involved in such loans, claims and other debts.

(b) As to the lender or lenders:

(1) Full and correct name and principal business address.

(2) Names and addresses of principal executive officers and directors, or partners.

(3) Reference to applicable provisions of law and the charter or other governing instruments conferring authority to the lender to make the loan and to ac-

cept the mortgage or other obligation evidencing the loan.

(4) Brief statement of the circumstances and negotiations leading to the agreement by the lender to make the proposed loan, including the name and address of any person or persons, other than directors, officers, partners, or employees of the carrier applicant, representing or purporting to represent the carrier applicant in connection with such negotiations.

(5) Brief statement of the nature and extent of any affiliation or business relationship between the lender and any of its directors, partners, or principal executive officers, on the one hand, and, on the other, the carrier applicant and any of its directors, partners, or principal executive officers, or any person or persons whose name is required to be furnished under subparagraph (4) of this paragraph.

(6) Full and complete statement of all sums paid or to be paid and of any other consideration given or to be given by lender in connection with the proposed loan, including with respect thereto: (i) Name and address of each person to whom the payment is made or to be made, (ii) the amount of the cash payment, or the nature and value of other consideration, (iii) the exact nature of the services rendered or to be rendered, (iv) any condition upon the obligation of the lender to make such payment, and (v) the nature of any affiliation, association, or prior business relationship between any person named in answer to subdivision (i) of this subparagraph and the lender or any of its directors, partners, or officers.

§ 54.2 *Required exhibits.* There shall be filed with and made a part of each application, and with each copy thereof, the exhibits required in this section, except that exhibits filed with and made a part of any related application filed with the Commission under section 20a of the Act for authority to issue securities in connection with the proposed loan may be incorporated in and made part of the loan application by reference.

(a) The following exhibits are required concerning the carrier applicant:

(1) As Exhibit 1, with the original application but not with copies thereof, copy of charter or articles of incorporation, with amendments to date, duly certified by the appropriate public officer; and copy of by-laws, with amendments to date. If carrier applicant is not a corporation, copy of articles of agreement, or association, or trust agreement, evidencing organization, or if carrier applicant is a trustee, receiver, assignee, or other fiduciary, copy of duly certified order of the court, or instrument of appointment.

(2) As Exhibit 2, the following: (i) Copies of all resolutions of directors authorizing the proposed loan; (ii) if the charter or by-laws require approval by stockholders, copies of resolutions of stockholders authorizing such loan, all such resolutions of stockholders to be accompanied by sufficient transcripts of the minutes of their meetings to show the number of shares voted for and against the resolutions, and the number of share-votes required to adopt the resolution; (iii) copies of resolutions of stockholders or directors, or duly authorized committee thereof, authenticated by a proper officer of carrier applicant, designating by name and for that purpose the executive officer by whom the application is signed, verified, and filed on behalf of the carrier applicant; (iv) if carrier applicant is an association or other organization except a corporation, documentary evidence showing authorization of the proposed loan and designation of the individual signing, verifying, and filing the application on behalf of the carrier applicant; and (v) if carrier applicant is a trustee, receiver, assignee, or other fiduciary, a certified copy of the order, if any, of the court having jurisdiction, authorizing the proposed loan, and the filing of the application.

(3) As Exhibit 3, preliminary opinion of counsel that he is familiar with the corporate or other organizational powers of the carrier applicant, that the carrier applicant is authorized to make the application, and that when proper corporate or other organizational action has been taken and the obligations executed, and security delivered as contemplated by the application, such obligations will constitute the valid and subsisting obligations of the carrier applicant. Such opinion should also cover the validity and lien of each item of any collateral offered.

(4) As Exhibit 4, a map of carrier applicant's existing railroad, and a map and profile of the line or lines to be constructed, if any.

(5) As Exhibit 5, statement showing miles of line owned; miles operated; number of units of locomotives, freight cars, and passenger cars owned and leased; principal commodities carried; and identification of the 10 most important industries served.

(6) As Exhibit 6, statement as to whether any railroad affiliated with the carrier applicant has applied for or received a loan guaranty under this part. If such an affiliate has applied for or received such a guaranty, full particulars should be given.

(7) As Exhibit 7, statement showing total dividends declared and total dividends paid for each of the last 10 calendar years and for each month of the current year to latest available date.

(8) As Exhibit 8, a copy of general balance sheet as of latest available date, but as of a date not earlier than the end of the second month preceding date of filing of the application, in form and detail as required in schedules 200A and 200L of the Commission's annual report Forms A or C, together with the following supporting schedules:

(i) Particulars of loans and notes receivable in form and detail as required in schedule 203 of annual report Form A for the Class I railroads; and for the Class II similar detail for every item in excess of $25,000.

(ii) Particulars of investments in other companies in form and detail as required in schedules 205 and 206 of annual report Form A, or schedules 1001 and 1002 of Form C, as appropriate.

(iii) Particulars of balance in account 743, Other Deferred Charges, in form and detail as required in annual report Form A, schedule 217, or schedule 1703 of Form C, as appropriate,

(iv) Particulars of loans and notes payable in form and detail required in schedule 223 of annual report Form A, or schedule 1701 of Form C, as appropriate, as well as information as to bank loans including the name of the bank, date and amount of the original loan, current balance, maturities, rate of interest, and security, if any, therefor,

(v) Particulars of long-term debt in form and detail required in schedules 218 and 219 of annual report Form A, or schedules 670, 695, 901, 902 and 1702 of Form C, as appropriate, together with a list of mortgages, pledges, and other liens, including a brief statement concerning each, indicating the property or securities encumbered, the mortgage limit per mile, if any, particulars as to priority, as well as to whether "open", "closed", or "open end",

(vi) Particulars of balance in account 784, Other Deferred Credits, in form and detail as required in schedule 226 of annual report Form A, or schedule 1704 of Form C, as appropriate,

(vii) Particulars as to contingent assets and liabilities in form and detail as required in schedule 233 of annual report Form A for the Class I railroads, and similar information for the Class II in the same form and detail,

(viii) Particulars as to guaranties and suretyships in form and detail as required in schedule 110 of annual report Form A for the Class I railroads, and similar information for the Class II in the same form and detail,

(ix) Particulars as to capital stock in form and detail as required in schedules 228, 229 and 230 of annual report Form A or schedule 690 in Form C, as appropriate.

NOTE: The information required as Exhibit 8 shall give effect to any modification of the Commission's Uniform System of Accounts for Railroad Companies in effect on the date of filing the loan application.

(9) As Exhibit 9, statement showing comparative balance sheets as of December 31 for each of the last 10 years preceding the year in which the application is filed in form and detail as required in annual report Forms A and C, schedules 200A and 200L, and if carrier applicant's reports to its stockholders include a consolidated balance sheet for two or more railroads which differs from the returns in the balance sheet schedules of its annual reports to the Commission, reference should be made here to the sections of the stockholders' reports which include said consolidated balance sheets.

(10) As Exhibit 10, to be filed only with the original copy of the application, a copy of carrier applicant's report to its stockholders for each of the 3 years preceding the year in which the application is filed.

(11) As Exhibit 11, comparative income statement for each month of the year in which the loan application is filed, including cumulative data to latest month shown, which shall not be earlier than the second month preceding date of filing the application, compared with the same month of each of the two preceding years, in account form similar to that required in column (a) of schedule 300 of annual report Form A, or columns (a) and (c) of schedule 1801 of Form C, as appropriate, and modified to include any revision of the Commission's Uniform System of Accounts for Railroad Companies in effect on the date of filing the loan application.

(12) As Exhibit 12, comparative income statement showing data for each of the last 10 years in account form and detail similar to that required in subparagraph (11) of this paragraph.

(13) As Exhibit 13, pro forma income statement showing estimated income account for each of the remaining months in the current year and for each month of the year subsequent thereto, in account form and detail similar to that required in subparagraphs (11) and (12) of this paragraph, together with a statement setting forth the basis for such estimates.

(14) As Exhibit 14, comparative statement of total expenditures for maintenance of (i) way and structures and (ii) equipment for each of the past 10 years and for each month of the current year, together with estimated expenditures for the remaining months of the current year and the year subsequent thereto, and including a statement showing the basis for such estimates.

(15) As Exhibit 15, a statement showing for the current calendar year and each 5 years thereafter estimated total operating revenues, total operating expenses, operating ratio, income available for fixed charges, and net income after fixed charges and contingent interest.

(16) As Exhibit 16, a statement showing actual cash balance at the beginning of each month and the actual cash receipts and disbursements during each month of the current year to the date of the latest balance sheet furnished as Exhibit 8, together with a monthly forecast (both before and after giving effect to use of proceeds from the proposed loan) for the balance of the current year and the year subsequent thereto.

(17) As Exhibit 17, a statement showing for each month to latest available month of the current year, compared with the same month of each of the 2 preceding years (i) number of tons of revenue freight carried, (ii) number of revenue ton-miles, (iii) freight revenue (account 101), (iv) number of passengers carried, (v) number of passenger miles, and (vi) passenger revenue (account 102), as well as similar information, on an estimated basis, for each of the remaining months in the current year and the year subsequent thereto.

(18) As Exhibit 18, statement showing comparatively for each year in the 8-year period preceding the year in which the application is filed, and on an estimated basis for the current and succeeding 4 years, the following: (i) Total charges to operating expenses for depreciation of way and structures, and equipment, (ii) deductions for accelerated tax amortization under section 168 of the Internal Revenue Code in excess of such depreciation charged to operating expenses, (iii) net income reported in annual reports to the Commission, and (iv) pro forma net income which would have resulted without the benefit of such deductions for accelerated tax amortization.

(19) As Exhibit 19, a general statement setting forth the facts as to estimated prospective earnings and other funds upon which applicant relies to repay the loan.

(b) The following exhibits are required as to the transaction:

(1) As Exhibit 20, specimens, or forms where specimens are not available, of all securities to be pledged or otherwise issued in connection with the proposed loan; and in case of an issue of bonds copy of the mortgage or indenture by which secured or proposed to be secured.

(2) As Exhibit 21, if the application is with respect to the acquisition of property other than equipment, a statement showing: (i) The name and business address of the owner or vender of the property to be acquired, (ii) a general description as to the character and size of the property and its location, accompanied by a general map and profile or by a general plan, as may be appropriate, (iii) the agreed or estimated purchase price, and the full terms of the contract, if any has been made, for such acquisition, (iv) such other information or data as may aid in a determination of the reasonableness of the agreed or estimated purchase price, and (v) the account or accounts of the Commission's effective classification of accounts in which the cost of such property would be properly classified.

(3) As Exhibit 22, if the application is with respect to equipment acquired after January 1, 1957, or to be acquired, a statement showing: (i) For locomotives, full particulars as to kind, unit cost, size, power, number of units coupled, and name of builder, (ii) for freight cars, full particulars as to service type (box, gondola, flat, etc.), capacity, unit cost, and name of builder, (iii) for passenger cars, full particulars as to service type (coach, baggage, postal, etc.), capacity, unit cost, and name of builder, (iv) for floating equipment, full particulars as to service type (tug, float, ferry, lighter, etc.), displacement tonnage, length, cargo capacity, unit cost, and name of builder, and (v) whether the equipment was purchased through competitive bidding, and, if the unit prices, free on board builders plant, shown are not the lowest bids received, the reason for accepting a higher bid.

(4) As Exhibit 23, if the application is with respect to the construction, completion, extension or improvement of facilities, or additions and betterments thereto, made after January 1, 1957, or not yet made, a statement showing (i) location and description of project, (ii) quantities and prices (actual or estimated) attested by a competent engineer, and (iii) distribution of total cost by primary accounts of the Commission's classification of investment in road and equipment property, together with one copy of each A. F. E. (authority for expenditure) or of each completion report, as may be appropriate.

(5) As Exhibit 24, if the application is with respect to maintenance of property, a statement showing (i) description of project or projects, (ii) date or dates initial work is proposed to be commenced, (iii) additional employees (not now employed by carrier applicant) to be hired or recalled, (iv) why the maintenance is required at this time, (v) breakdown of total cost as between material and labor, and (vi) distribution of total cost by primary accounts of the Commission's classification for operating expenses.

(6) As Exhibit 25, if the application is with respect to refinancing of existing obligations, a statement containing a full description of the transaction, including the terms and conditions of the disposition of such existing obligations.

(7) As Exhibit 26, copies of the loan agreement entered into, or to be entered into, between the carrier and lender, and of any agreements or instruments executed or to be executed in connection with the proposed loan.

(8) As Exhibit 27, copies of correspondence from all, and not less than 3, lending institutions or security underwriters to which application for the financing has been made, evidencing that they have declined the financing unless guaranteed by the Commission or specifying the terms upon which they will undertake the financing without such guaranty.

(c) The following exhibits are required as to the lender:

(1) As Exhibit 28, to be filed only with the original copy of the application, copies of the charter or other organizational papers and of by-laws or other governing instruments, including all amendments.

(2) As Exhibit 29, balance sheet statement as of the latest available date, but within 3 months of the date of filing the application.

(3) As Exhibit 30, income statement for the 3 calendar or fiscal years immediately preceding the year in which the application is filed and similar statement for the latest available period in the current year but within 3 months of the date of filing the application.

§ 54.3 *Fees.* On or before the date of closing of any loan guaranteed by the Commission pursuant to an application filed under this part, the applicant carrier shall pay, or cause to be paid, to the Commission as a guaranty fee such amount as the Commission hereafter may determine and prescribe as necessary to cover the administrative costs of carrying out the provisions of part V of the Interstate Commerce Act, as amended. Checks or money orders in payment of such fees shall be made payable to the order of the Treasurer of the United States.

§ 54.4 *Execution and filing of application.* The following procedure shall govern the execution and filing of the application:

(a) The original application shall bear the date of execution and be signed with ink by or on behalf of the carrier applicant and the lender. Execution shall be by the applicant if an individual, by all partners if a partnership, unless satisfactory evidence is furnished of the authority of a partner to bind the partnership, and, if a corporation, an association or other similar form of organization, by its president or other

executive officer having knowledge of the matters therein set forth. Persons signing the application on behalf of the carrier and lender, respectively, shall also sign a certificate in form as follows:

---------- certifies that
(Name of official)
he is the ----------
(Title of official)
of the ----------;
(Name of carrier or lender)
that he is authorized on the part of said applicant to sign and file with the Interstate Commerce Commission this application and exhibits attached thereto; that he has carefully examined all of the statements contained in such application and the exhibits attached thereto and made a part thereof relating to the aforesaid ----------;
(Name of carrier or lender)
that he has knowledge of the matters set forth therein and that all such statements made and matters set forth therein are true and correct to the best of his knowledge, information, and belief.

(Date)

(b) There shall be made a part of the original application the following certificate by the Chief Accounting Officer of the carrier applicant:

---------- certifies that he
(Name of officer)
is ---------- of
(Title of officer)
----------; that he
(Name of carrier applicant)
has supervision over the books of account and other financial records of the carrier applicant and has control over the manner in which they are kept; that such accounts are maintained in good faith in accordance with the effective accounting and other orders of the Interstate Commerce Commission; that he has examined the financial statements and supporting schedules included in this application and to the best of his knowledge and belief said statements accurately reflect the accounts as stated in the books of account; and that, other than the matters set forth in the exceptions attached to such statements, said financial statements and supporting schedules represent a true and complete statement of the financial position of the carrier applicant and that there are no undisclosed assets, liabilities, commitments to purchase property or securities, other commitments, litigation in the courts, contingent rental agreements, or other contingent transactions which might materially affect the financial position of the carrier applicant.

(Date)

(c) The original application and supporting papers, and 6 copies thereof for the use of the Commission, shall be filed with the Secretary of the Interstate Commerce Commission, Washington, D. C. Each copy shall bear the dates and signatures that appear in the original and shall be complete in itself, but the signatures in the copies may be stamped or typed. If unusual difficulties arise in the furnishing of any of the exhibits required in § 54.2, the carrier applicant or the lender, upon appropriate showing and with the consent of the Commission, may file a lesser number.

(d) In event the application is for a loan not exceeding $500,000, and the furnishing of exhibits in the detail required by § 54.2 is shown by the applicant or applicants to be unduly burdensome in relation to the nature and amount of the loan, the Commission may modify the requirements of said section.

§ 54.5 *General instructions.* (a) If the application is approved by the Commission, the following documents will be required for deposit with the Commission before the transaction is closed:

(1) Resolutions of the board of directors or executive committee of the carrier applicant, and where necessary, of meetings of the stockholders, authorizing the execution and delivery of such obligations, instruments, and security as are incident to the loan and guaranty thereof, in conformity with such terms as may be prescribed by the Commission, and authorizing the designated officers to receive and receipt for the proceeds of the loan.

(2) Final opinion by counsel for the carrier applicant to the effect that he is familiar with the corporate powers of the carrier applicant; that the carrier applicant is authorized to execute and deliver the notes or other obligations evidencing the same, and to pledge and hypothecate any securities pledged as collateral; that the notes or other obligations so executed and so delivered constitute the valid and binding obligations of the carrier applicant, secured by the said collateral, and that the lender will obtain a lien on any security involved of the rank and priority represented by the applicant carrier. Such opinion shall also cover the priority and lien of each item of the collateral offered.

(3) In respect of loans to receivers or trustees, the receiver or trustee will be required to deposit with the Commission certified copies of the court orders and decrees authorizing him to execute and deliver the obligations and to give the security under and according to the terms of the loan and guaranty as prescribed by the Commission.

(b) The guaranty by the Commission of a loan pursuant to an application filed as provided in this part should not be construed as relieving a carrier from complying with applicable provisions of section 20a of the Interstate Commerce Act (49 U. S. C. 20a) in relation to the issuance of securities or the assumption of obligation with respect to securities of others. Any related application filed under said section should be complete in itself. To avoid duplication in filing required information, exhibits included in an application filed with the Commission for authority under said section 20a incident to the proposed loan may be incorporated in and made a part of the related loan application by reference. (See also § 54.2.)

It is further ordered, That notice of these regulations be given to the general public by posting copies in the office of the Secretary, Interstate Commerce Commission, Washington, D. C., and by filing with the Director, Federal Register Division, Washington, D. C.

NOTE: The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

PART 56—ISSUANCE OF SECURITIES, ASSUMPTION OF OBLIGATIONS, AND FILING OF CERTIFICATES AND REPORTS

INSTRUCTIONS GOVERNING SPECIAL APPLICATIONS FOR EXEMPTION FROM REQUIREMENT THAT CERTAIN RAILROAD SECURITIES BE OFFERED FOR SALE AT COMPETITIVE BIDDING

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 14th day of August A. D. 1958.

The conclusions and findings of the Commission stated in its supplemental report of even date herewith, in Ex Parte 158, "In the Matter of Competitive Bidding in the Sale of Securities under Section 20a of the Interstate Commerce Act", being under consideration, and good cause therefor appearing:

It is ordered, That the appendix to the order of the Commission, Division 4, entered July 23, 1952, governing applications for authority to sell securities without competitive bidding (49 CFR 56.25) be, and it is hereby, amended by adding at the end thereof the following:

The foregoing requirements were further modified by the Commission's supplemental report of August 14, 1958, in Ex Parte 158, (1) to except securities sold or otherwise issued in connection with a loan guaranteed under the provisions of part V of the Interstate Commerce Act from the general requirement set forth in the prior report therein of May 8, 1944, that railroad securities be offered for sale at competitive bidding or upon invitation of bids for the purchase thereof, and (2) to make the policy expressed in Finance Docket No. 17748, Atlantic Coast Line R. Co. Competitive Bidding Exemption, supra, inapplicable to applications for exemption from the Commission's competitive bidding requirements by an applicant which in good faith, and under the belief that a guaranty may or will be required by the Commission in order for it to obtain the needed financing upon reasonable terms, has entered upon discussions or negotiations with respect to the terms of sale with a prospective purchaser of its securities.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies 41 Stat. 494, as amended; 49 U. S. C. 20a)

It is further ordered, That notice of the foregoing amendment be given to the general public by posting copies in the Office of the Secretary, Interstate Commerce Commission, Washington, D. C., and by filing with the Director, Federal Register Division, Washington, D. C.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 31]

DESERT GAME RANGE, NEVADA

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add §§ 31.116 and 31.117 to Chapter I, Title 50, Code of Federal Regulations, Subpart Desert Game Range, Nevada, as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of bighorn sheep and elk on certain lands of the Desert Game Range under certain limitations and subject to compliance with the laws and regulations of the State of Nevada.

The proposed regulation relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U. S. C. 1003); however, it is the policy of the Department of the Interior that, wherever practicable, the rule making requirements be observed voluntarily. Accordingly, interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 18, 1958.

D. H. JANZEN,
Director, Bureau of Sport Fisheries and Wildlife.

§ 31.116 *Hunting of bighorn sheep permitted.* Subject to the provisions of Parts 18 and 20 of this chapter and of §§ 31.113, 31.114, and 31.115, bighorn sheep may be taken by hunting at the times and on the parts of the Desert Game Range as follows:

(a) During the period from November 29 to December 14, 1958, both dates inclusive, the hunting of bighorn sheep is permitted on that part of the Desert Game Range lying north and east of U. S. Highway 95 and east of Alamo Road.

(b) During the period from December 19 to December 22, 1958, both dates inclusive, the hunting of bighorn sheep is permitted on that part of the Desert Game Range lying north of U. S. Highway 95, west of the Three Lakes Valley Road, and east of the Indian Springs—Groom Road.

§ 31.117 *Hunting of elk permitted.* Subject to the provisions of Parts 18 and 20 of this chapter and of §§ 31.113, 31.114, and 31.115, elk may be taken by hunting during the period January 10 to January 25, 1959, both dates inclusive, on that part of the Desert Game Range lying south and west of U. S. Highway 95.

[F. R. Doc. 58-6785; Filed, Aug. 21, 1958; 8:53 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 53]

OFFICIAL UNITED STATES STANDARDS FOR GRADES OF SLAUGHTER LAMBS, YEARLINGS, AND SHEEP

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that the Department of Agriculture, under the provisions of sections 203 and 205 of the Agricultural Marketing Act of 1946, as amended (7 U. S. C. 1622 and 1624), is considering the revision of the official U. S. standards for grades of slaughter lambs, yearlings, and sheep (7 CFR 53.130–53.134) to conform with the revised standards for grades of lamb, yearling mutton, and mutton carcasses (7 CFR, 1957 Supp. 53.114–53.118). It is proposed to amend said regulations to read as follows:

SLAUGHTER LAMBS, YEARLINGS, AND SHEEP

§ 53.130 *Market sheep.* The official standards for market sheep, developed by the United States Department of Agriculture, provide for segregation according to (a) use as slaughter animals or feeders; (b) class or sex conditions; (c) age group; and (d) grade, which is determined by the apparent relative excellence and desirability of the individual animal for a particular use.

§ 53.131 *Slaughter classes and market groups.* The classes of slaughter sheep are ram, ewe, and wether; the age groups are lambs, yearlings, and sheep. Definitions of the respective classes and age groups are as follows:

(a) *Ram.* A ram is an uncastrated male ovine.

(b) *Ewe.* A ewe is a female ovine.

(c) *Wether.* A male ovine castrated when young and prior to developing the secondary physical characteristics of a ram.

(d) *Lamb.* A lamb is an immature ovine, usually under 14 months of age, that has not cut its first pair of permanent incisor teeth.

(e) *Yearling.* A yearling is an ovine usually between one and two years of age, that has cut its first pair of permanent incisor teeth but has not cut the second pair.

(f) *Sheep.* A sheep is an ovine, usually over 24 months of age, that has cut its second paid of permanent incisor teeth.

§ 53.132 *Slaughter lamb and sheep grades—(a) Grade factors.* The specific grade of a slaughter lamb or sheep is determined by a composite evaluation of two general considerations which influence carcass excellence, (1) conformation and (2) fatness, maturity, and other factors responsible for differences in quality of the lean flesh.

(1) Conformation refers to the general body proportions of the animal and to the ratio of meat to bone. Although primarily determined by the inherent muscular and skeletal systems, it is also influenced by the degree of fatness. Excellent conformation in slaughter lambs and sheep is denoted by a compact, wide-topped, straight-lined, thick-fleshed individual that is deep and full in the twist. Fullness and thickness should be especially evident in the portions of the body producing the more desirable cuts of meat—loin, rack, and legs.

(2) In grading slaughter lambs and sheep, quality of the lean flesh must necessarily be evaluated indirectly from consideration, primarily, of the quantity, distribution, and type of fat or finish in relation to the maturity of the animal being graded. Limited consideration is also given to such factors as character of bone and smoothness and symmetry of body. Finish is evaluated by noting variations in the fullness and apparent thickness of the fat covering over the back, loin, ribs, and legs. A high degree of desirable finish is evidenced by a thick, firm, smooth layer of fat which is uniformly distributed over the body.

(b) *General principles.* (1) The determination of the carcass grade that the slaughter animal will produce requires the exercising of well-regulated judgment. Each animal presents a different combination of the grade-determining factors. Animals frequently have characteristics associated with two or more grades. Therefore, a composite evaluation of all the inherent physical characteristics is essential for accuracy in determining grade.

(2) The accurate determination of the grade of a slaughter lamb or sheep requires handling in addition to visual observation. The length and density of the fleece varies greatly with individuals and the thickness and firmness of the flesh covering of wooled lambs and sheep can only be roughly estimated without handling. The technique used in handling usually varies with the degree of precision in mind as well as the experience of the grader. Experienced graders may find one quick handling satisfactory. This usually consists of placing one open hand over the back and ribs in simultaneous motion. The thumb extends just over the backbone, while the fingers, which are held close together, cover the rib section and pressure is applied very lightly with a slight lateral and forward and backward motion. The generally accepted technique of handling sheep where time permits, and especially when noting slight differences between individuals, is to handle forward from the dock to neck with the open hand, fingers together, laid flat and with a slight lateral motion. Both hands may then be used on each side in a similar

manner to determine the fleshing over the shoulders, ribs, and hips. Regardless of the method, considerable experience is necessary in handling lambs or sheep to accurately determine the grade.

(3) Although the market designation of slaughter lambs and sheep is usually made by classes, the standards are intended to apply to all classes without regard to sex condition. However, animals which have thick heavy necks and shoulders typical of uncastrated males are discounted in grade in accord with the extent to which these characteristics are developed. Such discounts may vary from less than half a grade in young lambs in which such characteristics are barely noticeable to as much as two full grades in mature rams in which such characteristics are very pronounced.

(4) The standards for each of the various grades of slaughter lambs and sheep describe only animals with a relatively similar development of conformation and quality factors and which also represent the lower limits of each grade. No attempt is made to describe the numerous combinations of grade factors which may meet the minimum requirements for a particular grade. However, examples of the extent to which superiority in quality may compensate for deficiencies in conformation, and vice versa, are indicated for each grade.

§ 53.133 *Specifications for official United States standards for grades of slaughter lambs*—(a) *Prime.* (1) Lambs possessing the minimum requirements for Prime grade tend to be lowset, compact, thickly fleshed, and short of neck. They tend to be wide over the back, loin, and rump. Shoulders and hips are moderately neat and smoothly laid in. The twist is deep and full, and the legs are large and plump. There is a slight fullness or plumpness evident over the crops, loin, and rump which contributes to a well-rounded appearance. Relatively young lambs, under seven months of age, have slightly more than a slightly thin fat covering over the back, ribs, loin, and rump. In handling, the backbone and ribs are slightly discernible. Older, more mature lambs have slightly more than a slightly thick fat covering over the back, loin, and rump. In handling, the backbone and ribs are not readily discernible. Prime lambs exhibit evidences of high quality. The bones tend to be proportionately small, joints smooth, the finish evenly distributed, and the body trim, smooth, and symmetrical.

(2) To qualify for the Prime grade a lamb must possess the minimum qualifications for finish regardless of the extent that its conformation may exceed the minimum requirements for Prime. However, a development of finish which is superior to that specified as minimum for the Prime grade may compensate, on an equal basis and without limit, for a development of conformation which is inferior to that specified for Prime as indicated in the following example: A lamb which has evidences of finish equivalent to the mid-point of the Prime grade may have conformation equivalent to the mid-point of the Choice grade and remain eligible for Prime.

(b) *Choice.* (1) Lambs possessing the minimum requirements for Choice grade are slightly compact, slightly thick-fleshed, and slightly short of neck. They are slightly wide over the back, loin, and rump. The shoulders and hips are usually moderately neat and smoothly laid in but may exhibit a slight tendency toward prominence. The twist is slightly deep and full, and the legs slightly thick and plump. Relatively young lambs, under seven months of age, have a moderately thin fat covering over the back, ribs, loin, and rump. In handling, the backbone and ribs are slightly prominent. Older, more mature lambs have a slightly thin fat covering over the back, ribs, loin, and rump. In handling, the backbone and ribs are slightly discernible. Choice lambs usually present a moderately refined appearance.

(2) A lamb which has conformation equivalent to at least the mid-point of the Choice grade may have a development of finish equivalent to the minimum for the upper third of the Good grade and remain eligible for Choice. Also, a development of finish which is superior to that specified as minimum for the Choice grade may compensate, on an equal basis and without limit, for a development of conformation which is inferior to that specified for Choice as indicated in the following example: A lamb which has a development of finish equivalent to the mid-point of the Choice grade may have conformation equivalent to the mid-point of the Good grade and remain eligible for Choice.

(c) *Good.* (1) Lambs possessing the minimum requirements for Good grade are moderately rangy, upstanding, long and thin of neck, and moderately thin-fleshed. They are slightly narrow over the back, loin, and rump. Hips and shoulders are moderately prominent. The twist is slightly shallow and legs slightly small and thin. Relatively young lambs, under seven months of age, have slightly more than a very thin, uneven fat covering over the back, loin, and upper ribs. In handling, the shoulders, backbone, hips, and ribs are prominent. Older, more mature lambs have slightly more than a thin fat covering over the back, ribs, and loin. In handling, the bones of the shoulders, backbone, hips, and ribs are rather prominent. Lambs of this grade may present evidences of slightly low quality. The bones and joints are usually moderately large, and the body somewhat lacking in symmetry and smoothness.

(2) A lamb which has conformation equivalent to at least the mid-point of the Good grade may have a development of finish equivalent to the minimum for the upper third of the Utility grade and remain eligible for Good. Also, a development of finish which is superior to that specified as minimum for the Good grade may compensate, without limit, for a development of conformation which is inferior to that specified for Good on the basis of a half grade of superior finish for a third of a grade of deficient conformation as indicated in the following example: A lamb which has a development of finish equivalent to the mid-point of the Good grade may have conformation equivalent to the minimum for the upper third of the Utility grade and remain eligible for Good.

(d) *Utility.* (1) Lambs meeting the minimum requirements for Utility grade are very rangy, angular, and long and thin of neck. They are very thinly fleshed, narrow over the back, loin, and rump, and shallow in the twist. The hips are very prominent and the shoulders are usually open, rough, and prominent. The legs are very small, thin, and present a slightly concave appearance. Regardless of age, Utility lambs show no visible evidence of fat covering. In handling, bones of the shoulders, backbone, hips, and ribs are very prominent. Utility grade lambs are of rather low quality. The bones and joints are proportionately large and the body is very rough and unsymmetrical.

(2) A lamb which has conformation equivalent to at least the mid-point of the Utility grade may have a development of finish equivalent to the minimum for the upper third of the Cull grade and remain eligible for Utility. Also, a development of finish which is superior to that specified as minimum for the Utility grade may compensate, without limit, for a development of conformation which is inferior to that specified for Utility on the basis of a half grade of superior finish for a third of a grade of deficient conformation as indicated in the following example: A lamb which has a development of finish equivalent to the mid-point of the Utility grade may have conformation equivalent to the minimum for the upper third of the Cull grade and remain eligible for Utility.

(e) *Cull.* (1) Typical Cull grade lambs are extremely rangy, angular, long and thin of neck, thin-fleshed, and extremely narrow and shallow bodied. Shoulders and hips are very prominent. The legs are extremely small, thin, and present a very concave appearance. In handling, the bones of the shoulders, backbone, hips, and ribs are extremely prominent and the entire bony framework is very evident. The general appearance is that of low quality. The relative proportion of meat to bone is quite low, joints appear large, and the body is very unsymmetrical.

§ 53.134 *Specifications for official United States standards for grades of slaughter yearlings and sheep*—(a) *Prime.* (1) Slaughter sheep older than yearlings are not eligible for the Prime grade.

(2) Yearling sheep possessing the minimum requirements for Prime grade are lowset, thickly fleshed, and short of neck. They are wide over the back, loin, and rump. Shoulders and hips are moderately neat and smoothly laid in. The twist is deep and full, and the legs are large and plump. There is a distinct fullness or plumpness evident over the crops, loins, and rump which contributes to a well-rounded appearance. There is a thick fat covering over the back, ribs, loin, and rump, and, in handling the backbone and ribs are not discernible. Prime slaughter yearling sheep exhibit evidences of high quality. The bones tend to be proportionately small, joints smooth, the finish evenly distributed, and the body trim, smooth, and symmetrical.

(3) To qualify for the Prime grade a yearling must possess the minimum qualifications for finish regardless of the extent that its conformation may exceed the minimum requirements for Prime. However, a development of finish which is superior to that specified as minimum for the Prime grade may compensate, on an equal basis and without limit, for a development of conformation which is inferior to that specified for Prime as indicated in the following example: A yearling which has a development of finish equivalent to the mid-point of the Prime grade may have conformation equivalent to the mid-point of the Choice grade and remain eligible for Prime. Yearlings which are otherwise eligible for Prime grade but which have excessive, bunchy, or irregular distribution of external fat are not eligible for Prime.

(b) *Choice.* (1) Slaughter sheep possessing the minimum requirements for Choice grade are moderately compact, thickly fleshed, and short of neck. They are moderately wide over the back, loin, and rump. The shoulders and hips are usually moderately neat and smoothly laid in but may show a slight tendency toward prominence. The twist is moderately deep and full and the legs rather thick and plump. Yearling sheep have a slightly thick fat covering over the back, ribs, loin, and rump, and, in handling, the backbone and ribs are only slightly discernible. Mature sheep have a moderately thick fat covering over the back, ribs, loin, and rump, and, in handling, the backbone and ribs are hardly discernible. Choice slaughter sheep usually present a moderately refined appearance.

(2) A sheep which has conformation equivalent to at least the mid-point of the Choice grade may have a development of finish equivalent to the minimum for the upper third of the Good grade and remain eligible for Choice. Also, a development of finish which is superior to that specified as minimum for the Choice grade may compensate, on an equal basis and without limit, for a development of conformation which is inferior to that specified for Choice as indicated in the following example: A sheep which has a development of finish equivalent to the mid-point of the Choice grade may have conformation equivalent to the mid-point of the Good grade and remain eligible for Choice.

(3) Yearlings which are otherwise eligible for Prime grade but which have excessive, bunchy, or irregular distribution of external fat are included in the Choice grade. Sheep which are otherwise eligible for the Choice grade but which have excessive, bunchy, or irregular distribution of external fat are not eligible for Choice.

(c) *Good.* (1) Slaughter sheep possessing the minimum requirements for Good grade are slightly rangy, upstanding, long and thin of neck, and slightly thin-fleshed. They are slightly narrow over the back, loin, and rump. Hips and shoulders are moderately prominent. The twist is slightly shallow and the legs slightly small and thin. Yearling sheep have slightly more than a moderately thin fat covering over the back, loin, and upper ribs. In handling, the shoulders, backbone, hips, and ribs are rather prominent. Mature sheep have a slightly thin fat covering over the back, ribs, and loin. In handling, the bones of the shoulders, backbone, hips, and ribs are slight prominent. Sheep of this grade may present evidences of slightly low quality. The body is somewhat lacking in symmetry and smoothness.

(2) A sheep which has conformation equivalent to at least the mid-point of the Good grade may have a development of finish equivalent to the minimum for the upper third of the Utility grade and remain eligible for Good. Also, a development of finish which is superior to that specified as minimum for the Good grade may compensate without limit, for a development of conformation which is inferior to that specified for Good on the basis of a half grade of superior finish for a third of a grade of deficient conformation as indicated in the following example: A sheep which has evidences of finish equivalent to the mid-point of the Good grade may have conformation equivalent to the minimum for the upper third of the Utility grade and remain eligible for Good.

(3) Sheep which are otherwise eligible for Choice grade but which have excessive, bunchy, or irregular distribution of external fat are included in the Good grade.

(d) *Utility.* (1) Slaughter sheep meeting the minimum requirements for Utility grade are very rangy, angular, and long and thin of neck. They are very thinly fleshed, narrow over the back, loin, and rump, and shallow in the twist. The hips are very prominent and the shoulders are usually open, rough, and prominent. The legs are very small, thin, and present a slightly concave appearance. Regardless of age, Utility grade slaughter sheep show no visible evidences of fat covering. In handling, the bones of the shoulders, backbone, hips, and ribs are so thinly covered that they are very prominent. Utility grade slaughter sheep are of rather low quality. The bones and joints are proportionately large and the body is very rough and unsymmetrical.

(2) A sheep which has conformation equivalent to at least the mid-point of the Utility grade may have a development of finish equivalent to the minimum for the upper third of the Cull grade and remain eligible for Utility. Also, a development of finish which is superior to that specified as minimum for the Utility grade may compensate, without limit, for a development of conformation which is inferior to that specified for Utility on the basis of a half grade of superior finish for a third of a grade of deficient conformation as indicated in the following example: A sheep which has a development of finish equivalent to the mid-point of the Utility grade may have conformation equivalent to the minimum for the upper third of the Cull grade and remain eligible for Utility.

(e) *Cull.* (1) Typical Cull grade sheep are extremely rangy, angular, long and thin of neck, thin-fleshed, and extremely narrow and shallow bodied. Shoulders and hips are very prominent. The legs are extremely small, thin, and present a very concave appearance. In handling, the bones of the shoulders, backbone, hips, and ribs are extremely prominent and the entire bony framework is very evident. The general appearance is that of low quality. The relative proportion of meat to bone is quite low, joints appear large, and the body is very unsymmetrical.

Any interested person who wishes to submit written data, views, or arguments concerning the proposed revision may do so by filing them with the Director of the Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 19th day of August 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[Docket No. AO-227-A9]

HANDLING OF MILK IN NEOSHO VALLEY MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Besse Hotel, Pittsburg, Kansas, beginning at 10:00 a. m., local time, on August 26, 1958, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Neosho Valley marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and emergency marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Neosho Valley Cooperative Creamery Association:

Proposal No. 1. Add to the order a definition of a supply plant. This proposed definition will involve consideration of qualification standards for a supply plant to qualify as a pool plant.

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 2. Make such changes as may be necessary to make the entire marketing agreement and the order

conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 523½ North Broadway, Pittsburg, Kansas, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 19th day of August 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[Docket No. AO-160-A20]

HANDLING OF MILK IN PHILADELPHIA, PA., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in U. S. District Court Room No. 5, United States Court House, Ninth and Market Streets, Philadelphia, Pennsylvania, beginning at 9:30 a. m., e. d. t., on August 28, 1958, with respect to a proposed amendment to the tentative marketing agreement and to the order regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendment hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendment, set forth below, has not received the approval of the Secretary of Agriculture.

Proposed by the Inter-State Milk Producers Cooperative, Inc., and by the Milk Distributors' Association of the Philadelphia Area, Inc.:

1. Add the following language at the end of § 961.10: ": *Provided*, That milk which is diverted for the account of a handler (a) to the producer milk plant of another handler, or (b) to a nonproducer milk plant during the period February through September or on less than 10 days per month during the period October through January, shall be presumed to have been received at a producer milk plant of the diverting handler: *And provided further*, That milk which is delivered to a producer milk plant from a farm bulk tank pickup route by or for the account of a nonproducer milk plant shall be presumed not to have been received by the producer milk plant and shall be allocated as other source milk pursuant to § 961.47."

Proposed by the Dairy Division, Agricultural Marketing Service:

2. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendment thereto resulting from this hearing.

Copies of this notice of hearing and the order, may be obtained from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or the Market Administrator, Fox Building, 12th Floor, 1612 Market Street, Philadelphia 3, Pennsylvania, or may be there inspected.

Issued at Washington, D. C., this 19th day of August 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[Docket No. AO-299]

HANDLING OF MILK IN MICHIGAN UPPER PENINSULA AND NORTHEASTERN WISCONSIN MARKETING AREAS

NOTICE OF REVISED RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENTS AND ORDERS

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR, Part 900), notice is hereby given of the filing with the Hearing Clerk of this revised recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed marketing agreements and orders regulating the handling of milk in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on May 28, 1958 (23 F. R. 3818), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of opportunity to file written exceptions thereto. On the basis of exceptions to the previous recommended decision certain changes have been made in the regulation proposed, particularly with respect to the pooling provisions of the order for the Northeastern Wisconsin marketing area and pricing zones of the order for the Michigan Upper Peninsula marketing area. In view of these changes interested parties are being given further opportunity to file exceptions. Interested parties may file written exceptions to this revised decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 7th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which each of the proposed marketing agreements and orders, as hereinafter set forth, were formulated, was conducted at Escanaba, Michigan, on October 8–15, 1957, pursuant to notice thereof which was issued September 13, 1957 (22 F. R. 7429) and at Green Bay, Wisconsin, on November 20, 1957, pursuant to notice to reconvene which was issued October 30, 1957 (22 F. R. 8852).

The material issues of record relate to:

1. Whether the handling of milk produced for sale in each of the proposed marketing areas is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products;

2. Whether marketing conditions show the need for the issuance of milk marketing agreements or orders which will tend to effectuate the policy of the act; and

3. If orders are issued what their provisions should be with respect to:

(a) The scope of regulation;

(b) The classification and allocation of milk;

(c) The determination and level of class prices;

(d) Distribution of proceeds to producers; and

(e) Administrative provisions.

1. *Character of commerce.* The handling of milk in each of the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk and milk products.

The Michigan Upper Peninsula marketing area defined in the order proposed for that area includes fourteen counties in Michigan and portions of three counties in Wisconsin. Within this area there is a continuous and substantial interstate commerce in the procurement of milk from producers and the sale of fluid milk and its products to consumers. Distributing plants in Iron Mountain, Ironwood and Bessemer, Michigan, distribute fluid milk products in Saxon, Hurley, Florence, Aurora, Niagara and Wausaukee, Wisconsin. Distributing plants in Rhinelander and Green Bay, Wisconsin, distribute fluid milk products throughout various portions of the area in Michigan. Distributing plants in the Sault St. Marie portion of the marketing area distribute fluid milk products to ore boats passing through the locks at Sault St. Marie proceeding to ports in Ohio, Indiana, Illinois and Minnesota.

Producers supplying milk to plants in the Michigan portion of the marketing area are on farms located in several counties in Wisconsin and all the Upper Peninsula counties of Michigan. Milk produced on farms in the states of Wisconsin and Michigan is inextricably commingled at processing plants in Ironwood, Iron Mountain, Crystal Falls and Bessemer, Michigan; and in Green Bay, Wisconsin. Supplemental supplies of milk come primarily from plants procuring supplies of milk from Wisconsin dairy farmers.

The marketing area proposed for the Northeastern Wisconsin area includes the city of Menominee, Michigan. Milk dealers in Menominee distribute milk in Marinette and other nearby Wisconsin areas. Wisconsin dealers likewise distribute milk in Menominee.

One of the major distributors serving the proposed Northeastern Wisconsin marketing area processes milk at a plant in Green Bay, Wisconsin, and distributes approximately 25 percent of his total fluid milk sales in the Michigan upper Peninsula marketing area as proposed herein. Milk used in these products is procured from producers with farms located in Michigan and Wisconsin. Other distributors at Rhinelander and Sheboygan, Wisconsin, in the proposed Northeastern Wisconsin marketing area distribute fluid milk products in Michigan. The distributor at Rhinelander distributes milk in Ironwood, Watersmeet and Iron River, Michigan. The distributor at Sheboygan distributes fluid milk products in Menominee, Michigan. Fluid milk products are distributed throughout the Wisconsin area from plants of handlers regulated by the Milwaukee, Wisconsin, order.

Farm milk supplies for each of the proposed marketing areas are intermingled with farm supplies of numerous manufacturing plants. Such products as nonfat dry milk, cheese, butter, evaporated milk and other related products are processed by national dairy concerns for distribution in the current of interstate commerce. Within the Northeastern Wisconsin marketing and supply areas are more than four thousand farms supplying milk to the Chicago, Illinois, market.

2. *Need for regulation.* Milk marketing and pricing conditions in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas justify the issuance of milk marketing orders to establish and maintain orderly marketing conditions. Orders for each of these areas will tend to effectuate the declared policy of the Agricultural Marketing Agreement Act.

Northeastern Wisconsin is in general an area of intensive milk production. Of the 21 counties proposed for inclusion in the marketing area milk cow population in 13 counties exceeded 50 per square mile of land in farms, and was less than 25 in only three counties. In this area are located 17 supply plants for the Chicago market which receive milk from more than 4,000 producers qualified for Chicago. The total volume of Chicago pool milk has varied from 63 to 93 million pounds per month in a recent 12 month period. Extensive manufacturing of dairy products such as cheese, butter, nonfat dry milk and other products is conducted in the area.

Approximately 1,250 producers of Grade A milk supply the needs of plants engaging in the fluid milk trade of this area. None of this milk is purchased from producers on the basis of use made of it by the dealer. Most producers receive a flat price for their milk without being in position to negotiate with respect to prices, terms or conditions of sale. In a few instances base and excess prices are paid as a means of encouraging level production, but without regard to utilization of the milk.

For the most part the prices paid producers approximate the producer prices of the Chicago order applicable in the immediate vicinity. This does not mean, however, that local milk dealers are paying the applicable Chicago order prices for the milk they sell in fluid form. Handler testimony for a group of dealers claimed to be representative showed that in May 1957 they used 73.6 percent of receipts from producers as Class I milk and in September 1957 their Class I utilization was 82 percent. Chicago Class I and II utilization was 56.9 percent in May and 76.5 percent in September. The Chicago utilization percentages include in Class II ice cream use and for Class II volumes are computed on a milk equivalent basis; had the computation for Chicago been identical with that for the Northeastern Wisconsin dealers a somewhat greater difference in utilization would have been shown. No Chicago plants regularly distribute milk in Northeastern Wisconsin that is priced under the Chicago order. Three cooperative associations and one proprietary concern operating Chicago supply plants also operate separate facilities for the Northeastern Wisconsin trade.

The flat price system prevalent in the Northeastern Wisconsin area by its very nature promotes instability in the marketing of milk for the fluid trade of the area. The milk dealer who can restrict his purchases to the volume of his trade sales will have a Class I cost equal to the flat price paid. A certain amount of reserve milk is necessary for the market, however, to assure an adequate supply at all times. Fluctuation brought about by the seasonal nature of production and day to day variations in milk sales require the disposition of some Grade A milk produced for the market into manufacturing channels at a value lower than that for fluid sales. To the extent that a dealer can avoid or minimize the cost of handling such reserve milk he can achieve a competitive advantage over the dealer who carries the reserve milk associated with his share of the market. As a result producers have no assurance of a continuing market for their milk. Instances were shown on the record of producers being "cut off" with little or no notice.

While the supply competition from Chicago determines the general level of prices in the area, the flat prices paid are by no means uniform. In some cases different prices are paid to producers delivering to the same dealer. These price differences accentuate disparities in costs of milk for fluid use.

A cooperative association representing a substantial number of producers has been unsuccessful in attempts to negotiate uniform prices based upon use of milk. With most dealers they have been unable to negotiate prices on any basis. Dealer resistance has prevented this association from fully serving its members through check testing and weighing services.

Classified prices are negotiated separately by areas between the principal milk dealers with plants located in or near the Michigan Upper Peninsula cities of Ironwood, Marquette, and Sault St. Marie and local units of a cooperative association representing producers supplying each of these cities. Other cooperative associations own and operate plants at which milk produced by members of such associations is received, processed, and packaged, and from which such milk is distributed to wholesale and retail outlets. A considerable volume of milk in the Upper Peninsula is, however, purchased at flat prices without regard to the use made of the milk.

Substantial quantities, estimated at 10 to 14 million pounds annually, of milk packaged in Northeastern Wisconsin plants is distributed in the Michigan Upper Peninsula. The principal distribution is from a plant at Green Bay, Wisconsin. Milk from this plant is now sold throughout most of the Upper Peninsula. A plant at Rhinelander, Wisconsin also distributes substantial volumes of milk in the Peninsula, principally in the western portion. Distribution from other Wisconsin plants is of a more localized nature. This regular distribution of milk packaged in Wisconsin is a relatively recent development associated with improved roads, paper packages, and growth of the Upper Peninsula tourist trade. Classified price negotiations between producers and dealers in the Upper Peninsula are of comparatively recent origin, such negotiations having been carried on only since January 1954 at Marquette, December 1954 at Ironwood, and June 1956 at Sault Ste. Marie. While income from dairying represents a substantial proportion of the cash farm income of the Upper Peninsula, climate, topography and soil conditions are such that only 10–15 percent of the total area is in farmland. Twenty to twenty-five percent of the milk produced is for fluid use, the large majority of the remainder being made into cheese.

Negotiation of classified prices for milk delivered to Upper Peninsula dealers has been severely affected by the sales competition from milk bought on the flat price basis. The complex problem of proper price relationship between the production area of the Upper Peninsula and that of the intensive Wisconsin production area cannot properly be solved by negotiation when prices do not apply equally on the basis of classified use.

Stability of marketing conditions can be assured for these areas only (1) when all milk handlers in each area have substantially equal prices of milk according to use, (2) such use is verified by impartial audit, when all producers supplying each handler in each market receive the same price for milk of the same quality, with the quality and quantity of such milk verified by an adequate check weighing and testing program, and (3) when accurate marketwide information relative to receipts and sales of milk in these areas is provided to all (giving in each case due consideration to the point of receipt). The milk marketing orders herein proposed will provide the only practical means for accomplishing these ends.

3. *Order provision*—(a) *The scope of regulation*—(1) *Marketing areas.* The three cooperative associations of producers that initiated the request for an order proposed in the notice of hearing an order with a marketing area of all territory in the Michigan Upper Peninsula, exclusive of Menominee township in Menominee County, plus five towns and the city of Hurley in Iron County, Wisconsin. A handler who distributes in the Upper Peninsula about one-fourth of the milk processed at his plant in Green Bay, Wisconsin, proposed in the notice of hearing that the area also include 25 counties in Northeastern Wisconsin and Menominee township, Menominee County, Michigan. Handlers with local distribution proposed minor additions, all of which were within the area proposed by the Green Bay handler.

In the course of the hearing the proponent cooperative associations supported the need for regulation in much of the additional Wisconsin territory proposed, but advocated that this be accomplished by means of a separate order. Consideration was given to issuance of a single regulation for the Michigan Upper Peninsula and Northeastern Wisconsin areas. While substantial volumes of milk are distributed in Michigan by plants located in Wisconsin, the number of dealers making such distribution is relatively few. Additional plant and farm supply inspections are required, since Michigan statutes do not provide for reciprocal approvals. Prior to July 1, 1957, milk could not practicably be labeled Grade A in Michigan so that milk meeting Grade A standards could not be sold in Michigan under the label used for the Wisconsin trade. A large majority of the dealers in Northeastern Wisconsin limit their distribution to Wisconsin points. Wisconsin distribution from Michigan plants is localized to nearby points for which appropriate consideration can be given in defining separate marketing areas.

In view of these considerations and differences in supply conditions in the two areas, it is concluded that issuance of separate orders for the Michigan Upper Peninsula and Northeastern Wisconsin areas with prices properly aligned is the most appropriate means of providing regulation adapted to the needs of each area.

The Michigan Upper Peninsula marketing area should be defined to include all area within 14 of the 15 Upper Peninsula counties (omitting Menominee County) and the following territory in Wisconsin: five towns and the cities of Hurley and Montreal in Iron County; two towns in Florence County and one town and the village of Niagara in Marinette County. For the purposes of the pricing provisions this area is divided into two zones which are discussed in detail under pricing.

The total population of this area is approximately 290,000. The principal cities with population over 10,000 are Sault St. Marie, Escanaba, Ironwood and Marquette. There are, in addition, six other cities of more than 5,000 population.

While no one dealer distributes milk throughout the Upper Peninsula, a dealer whose plant is located in Marquette distributes throughout the greater portion. Milk bottled at this plant is sold at Sault St. Marie, and St. Ignace, each approximately 165 miles east of Marquette, at Manistique and Escanaba to the southeast, at Houghon 100 miles to the northwest, and to the south at Crystal Falls, near the Wisconsin border. Milk bottled at Bessemer and Ironwood is likewise sold in the Copper Country near Houghton, and a cooperative association with bottling facilities in Houghton County sells milk in and near Marquette. Ironwood and Bessemer dealers serve the adjoining cities of Hurley and Montreal and other nearby territory in Iron County, Wisconsin. Iron Mountain dealers serve the nearby areas in Florence and Marinette counties, Wisconsin, and Wisconsin dealers in Florence County compete in Iron Mountain.

The health regulations of the State of Michigan provide a uniform minimum standard with respect to all milk marketed within the State of Michigan. While Grade A milk regulations similar to United States Public Health standards have only recently become effective in Michigan on a permissive basis, practically all plants in the Upper Peninsula either have complied or will comply with Grade A standards. Grade A labeling under United States Public Health standards is widespread in Wisconsin and will become compulsory July 1, 1959.

While resident population in many areas of the Upper Peninsula is sparse the distribution of tourist and vacation trade is widespread. It is therefore concluded that the marketing area in Michigan should be defined by county boundries. The southernmost county, Menominee, is largly devoted to farming with its principal population center, the City of Menominee, at the southern extremity of the county, which adjoins the City of Marinette, Wisconsin. Inclusion of these cities in the Northeastern Wisconsin marketing area appears appropriate. There is little, if any, distribution of milk in other portions of Menominee County that would not be regulated under either of the orders.

The Northeastern Wisconsin marketing area should include the Wisconsin counties of Brown, Calumet, Kewaunee, Langlade, Lincoln, Manitowoc, Oneida, Outagamie, Portage, Sheboygan, Vilas, Waupaca and Winnebago. In addition there should be included, as more precisely defined in the order, the northern portion of Fond du Lac County, the eastern portion of Marathon County, all of Shawano County not a part of the Menominee Indian Reservation, the southeastern portion of Wood County, the City of Sturgeon Bay in Door County, the cities of Marinette and Peshtigo and the town of Peshtigo in Marinette County, the cities of Gillett, Ocorto and Oconto Falls in Oconto County, all in Wisconsin, and the City of Menominee, Menominee County, Michigan.

The total population of this area is approximately 900,000. The principal cities, ranging in population from 25,000 to more than 50,000, are Green Bay, Sheboygan, Oshkosh, Appleton, Wausau, Fond du Lac, and Manitowoc, and the companion cities of Marinette and Menominee the combined population of which is approximately 25,000. There are, in addition, some sixteen other cities of more than 5,000 population.

Milk from one Green Bay plant is distributed throughout this entire area. A cooperative association operates a bottling plant at West DePere in Brown County from which milk is distributed throughout the major portion of the area. Another plant of the same cooperative furnishes the entire milk supply of a dealer in Rhinelander whose distribution covers the remainder of the area. Milk bottled at Sheboygan and Manitowoc is distributed extensively throughout a number of the more densely populated counties in the southern and eastern portions of the area. A number of other plants extend their distribution throughout two or more counties. There is also a substantial distribution of milk throughout much of the area from at least three plants regulated under the order for the Milwaukee market.

Wausau dealers offered testimony to show that the volume of milk from other areas sold in that city is not sufficient to justify its inclusion in the marketing areas. Approximately 7–8 percent of the sales in Wausau are by dealers with extensive distribution throughout the area. The same general need for regulation was shown with respect to marketing conditions in Wausau as for the remainder of the area. Producers supplying Wausau dealers belong to the same cooperative association as do the producers supplying numerous dealers throughout the area. Wausau dealers extend their distribution into other parts of the proposed area. It is concluded that Wausau should be included in the area.

Almost all milk distributed in the area meets the Grade A labeling standards of Wisconsin. Most of the cities have Grade A ordinances and milk inspected under one authority moves freely into other jurisdictions within the area.

In the counties of Marinette and Oconto on the western shore of Green Bay it is necessary to include in the marketing area only the cities which are the principal centers of population. It is not necessary to regulate distribution in the remainder of these counties, in Forest County, or in that part of Florence County not included in the Michigan Upper Peninsula order. Population in these areas is predominantly rural, and there is little opportunity for substantial distribution of milk by dealers who will not otherwise be regulated. Likewise in Door County, lying between the shores of Green Bay and those of Lake Michigan, it is necessary to include only the City of Sturgeon Bay to provide effective regulation. Inclusion of all of Fond du Lac County would result in the marketing area boundary passing through the city of Waupun, which lies partly in Fond du Lac County and partly in Dodge County. For this reason the southern portion of Fond du Lac County is not included in the area.

(2) *Milk to be regulated.* The milk to be regulated by each of the proposed marketing agreements and orders should be that which represents the primary sources of supply of milk distributed on routes in the respective proposed marketing areas. To be eligible for such distribution milk must be produced, processed and distributed in conformity with applicable health regulations. Provision should be made to designate clearly what milk will be subject to the pricing and the respective pooling provisions of each of the recommended marketing agreements and orders. For this reason, definitions of fluid milk plant or pool plant, handler, producer, producer milk, producer-handler, route, fluid milk product and other source milk are provided in the orders.

The definition of a fluid milk plant, or pool plant, should be such as to determine which producers, as hereinafter defined, are to be included in the determination of the uniform prices to be paid by handlers under the Michigan Upper Peninsula and Northeastern Wisconsin orders. The two broad categories of milk plants to be regulated by these orders are distributing plants and supply plants. There are distributing plants at which milk received from local dairy farmers or other plants is processed and packaged and from which such milk is distributed as fluid milk products in one or both of these extensive marketing areas. At other plants milk is received directly from dairy farmers and delivered in bulk to distributing plants. This category of plant is generally known as a supply plant.

Elsewhere in this decision it is concluded that under the Michigan Upper Peninsula order distribution of returns to producers should be through individual-handler pools, and that under the Northeastern Wisconsin order such distribution should be through a marketwide pool. Under handler pooling the incentive for a handler to engage in the fluid milk trade of the area is based strictly upon the fluid milk business he can develop. In a marketwide pool, however, there is incentive for plants to be placed under regulation as a means of sharing in the utilization of the market without becoming an integral part of the supply for the market. The marketwide pooling system provides opportunity for partial regulation with respect to milk not priced and pooled under the order. Similar provisions would encounter practical difficulties in a handler pool order. For these reasons the standards of market participation used to determine full regulation of distributing plants and supply plants vary somewhat under the two pooling systems. In conformity with the nomenclature included in other orders, fully regulated plants are defined as "fluid milk plants" under the Michigan Upper Peninsula order and as "pool plants" under the Northeastern Wisconsin order.

To be eligible for distribution in fluid form in the State of Michigan milk must conform to the requirements of Public Law No. 169. Permissive standards for Grade A milk have recently become effective and it is probable that milk labeled Grade A will shortly constitute the principal distribution in the Upper Peninsula. Distributing plants to be defined as fluid milk plants under the Michigan Upper Peninsula order should include those plants at which fluid milk products either labeled Grade A or conforming to the requirements of Michigan Public Law No. 169 are processed or packaged for distribution in the marketing area.

Under this order provision should be made to exempt from regulation distributing plants located outside the marketing area from which only a minor volume of milk is distributed in the marketing area. Regulation of such plants might place them in an uneconomic and unfavorable position with respect to the major portion of their sales in nonregulated areas. As long as the volume of sales an exempt plant may make in the proposed marketing area is left relatively low, such distribution would not present a disruptive force. An average of 600 pounds per day on routes in the marketing area is considered to be an appropriate limit for such exemption.

The fluid milk plant definition of the Michigan Upper Peninsula order should include provision for supply plants at which milk produced in conformity with health regulations of the area is received from dairy farmers and from which fluid milk products are moved to distributing plants. Supply plants from which regular shipments of milk are delivered to the market should be fully regulated. Regular shipments of milk from sources where no minimum price regulations are in effect would be a threat to the stability of this market were there no provisions for pricing receipts of supply plants. As a result of handlers' receiving milk from outside the order in unlimited shipments, a situation could arise in which a significant portion of the market supply of milk would not be subject to the pricing and payment provisions of the order. These plants would be a constant threat to the classified pricing plan of the order.

Handlers in the Michigan Upper Peninsular area receive both regular and incidental supplemental supplies of milk when demand for fluid milk products exceeds the production of milk in this area. Further, there are supply plants which are integral parts of a certain handler's sources of supply. One of the proponent cooperatives, with a plant located at Crystal Falls, receives producer milk to supply various handlers with supplemental supplies of milk. A dealer performing functions somewhat similar to those of a supply plant plans to construct a receiving station at Carney, Michigan. Supply plants which constitute regular sources of supply should be fully regulated. Provision should be made, however, for receipt of some supplemental unpriced supplies during the vacation and short production seasons. Thus, it is concluded that the fluid milk plant definition in the Michigan Upper Peninsula order should provide that a supply plant be one from which milk or skim milk is delivered to a distributing plant on 10 or more days in any of the months of July through December or on 3 or more days in the months of January through June.

In the Northeastern Wisconsin marketing area, uniform minimum standards of the State of Wisconsin presently apply only to milk labeled Grade A. Grade labeling will become compulsory in 1959. Grade A milk represents the dominant distribution in the Northeastern Wisconsin marketing area. Distributing plants to be regulated under the Northeastern Wisconsin order should be those at which fluid milk products labeled Grade A are processed or packaged for distribution in the marketing area and from which disposition of fluid milk products on routes in the marketing area represents 20 percent or more of receipts of Grade A milk from dairy farmers. Such plants should also be limited to those having a total route disposition of 50 percent or more of receipts from dairy farmers and supply plants. To qualify for pool status a supply plant should move 50 percent or more of its receipts of Grade A milk from dairy farmers to a qualified distributing plant. If a supply plant qualifies on this basis during each of the months of August through November, it should be able to retain pool plant status the following December through July.

The extent to which other markets draw supplies from the same area as the Northeastern Wisconsin market and the substantial manufacturing milk production in the area necessitate these pool plant requirements in order to insure that the producers sharing in the uniform price of the market pool be those delivering to plants from which a substantial portion of the receipts is disposed of as fluid milk products in the marketing area, and that the receipts of plants primarily associated with other markets or uses be excluded from sharing in the pool.

The proponent of marketwide pooling at the hearing proposed that disposition of 30 percent of receipts from producers as Class I milk in the marketing area be required each month for both distributing and supply plants. This proponent, a cooperative association, operates a supply plant at Wittenberg, Wisconsin, that supplies the entire needs of a distributing plant at Rhinelander. Other than this regular full-supply arrangement handlers provided little evidence of need for supply plants. This is a concentrated milk production area where there are abundant supplies of milk available for direct delivery. Supply plants most commonly are called upon for heaviest shipments in periods of low supply. Accordingly, provision is made for a supply plant to retain pool status if it has made substantial shipments in the August–November period for which milk production is normally seasonally low. The requirement that 20 percent of its farm milk supply be disposed of on routes in the marketing area will limit pool participation of distribution plants to those with a substantial interest in the fluid trade of the area. The requirement that a distribution plant have 50 percent or more of its total Grade A receipts disposed of on routes, either in or out of the area, serves to distinguish those plants

that must qualify as supply plants from those that may qualify as distributing plants. In view of its inclusion in the recommended decision, provision is retained to exempt from regulation distributing plants located outside the marketing area from which Class I disposition on routes in the marketing area averages less than 600 pounds per day.

There are at least three distributing plants, which would be regulated by the proposed Northeastern Wisconsin order that currently sell fluid milk products within the proposed Michigan Upper Peninsula marketing area. There are at least three milk plants regulated under the Milwaukee, Wisconsin, order that currently sells fluid milk products within the proposed Northeastern Wisconsin marketing area. Since handlers distribute fluid milk products in various regulated markets in this area, provisions must be adopted to avoid possible dual regulation. In this connection, it is concluded that a plant should be regulated under the order where such plant's monthly sales of fluid milk products are greatest. However, operators of plants subject to regulation under another order should be required to file reports and submit to audits by the market administrator in order that he may verify the status of such plant.

"Handler" should be defined under the respective orders as any person who operates one or more fluid milk or pool plants, in his capacity as such, or who operates a plant that does not qualify as a fluid milk or pool plant but from which any fluid milk product is distributed on routes in the marketing area. The handler receives the milk of producers and must be held responsible for reporting its receipts and utilization, and for making payment for it at not less than specified minimum prices. Producer-handlers and operators of plants (including those that fail to qualify for pool status under the Northeastern Wisconsin order) distributing minimum volumes in the marketing areas should be defined as handlers so that they may be required to report to the market administrator the information necessary to determine their status and relationship to the market at any given time. In certain cases, obligations imposed by the order must also be ascertained.

It was proposed that a cooperative association be defined as a handler with respect to milk of member producers diverted for the account of the cooperative to nonfluid milk plants even though the association operated no plant. In another portion of this decision it is concluded that proceeds of the sale of producer milk under the Michigan Upper Peninsula order be by means of individual-handler pools. The pool of the cooperative handler, with respect to milk delivered to unregulated plants, would reflect only the value of the diverted milk which presumably would be in manufacturing milk classes. For the producers diverted for the account of the cooperative to receive any share of the value of Class I milk of the market, it would be necessary for the cooperative to collect the proceeds for milk of other member producers and reblend them with those from the diverted milk. This may be done without defining the cooperative association as a handler or the farmers whose milk is diverted by the cooperative as producers. The proposal would serve no useful purpose under this order. Under the Northeastern Wisconsin order, a cooperative association may be a handler with respect to milk so diverted. This provision will enable milk so diverted for short periods of time to continue to receive the uniform price under the order and be available for fluid use when needed.

"Producer" should be defined under the Michigan Upper Peninsula order as any person, other than a producer-handler, who produces milk in compliance with Grade A requirements or Michigan Public Law No. 169, which milk is received at a fluid milk plant. Provision should be made that the milk of producers regularly received at a fluid milk plant may be diverted for the account of the handler operating such plant to a nonfluid milk plant without such producers losing their status as producers under the proposed order. This will permit milk regularly associated with this market to be diverted to manufacturing plants during periods of flush production, holidays and weekends when deliveries exceed sales, should there be need for this milk to be manufactured in nonregulated plants. Producers whose milk is so diverted will continue to receive the diverting handler's uniform price under the order and their milk should be available for fluid use when needed. Diverted milk shall be deemed to have been received at the fluid milk plant from which it was diverted. Under the Northeastern Wisconsin order, "producer" should be defined as any person, other than a producer-handler, who produces milk in compliance with Grade A requirements of any duly constituted health authority, which milk is received at a pool plant or is diverted from a pool plant to a nonpool plant for the account of a handler or cooperative association. An exception should be made, however, to exclude from the definition of "producer" during the months of March through June those farmers with bases established under the Chicago and Milwaukee orders by delivery to plants, subject to such orders, operated under common control with the Northeastern Wisconsin pool plant to which the farmer may deliver during these months. A number of handlers operate both Chicago or Milwaukee and Northeastern Wisconsin plants. Payments under a base plan are made in these months under the Chicago order and in all but March under the Milwaukee order, but no base plan is provided herein. Without the exception provided in the producer definition a handler with plants in other pools could transfer producers with wider seasonal production to the Northeastern Wisconsin pool for these months of seasonally high production.

"Producer milk" should include all skim milk and butterfat contained in milk produced by producers and received at the fluid milk plant or pool plant directly from producers or diverted by a handler from such a plant. All provisions concerning the classification of producer milk should apply also to the milk received from handlers' own farm.

"Producer-handler" should be defined as a dairy farmer who operates a plant from which fluid milk products are distributed on a route in the marketing area but who receives no milk from other dairy farmers or nonfluid or nonpool milk plants. Reports to the market administrator at such time and in such manner as may be requested, with examinations of accounts, records and facilities should provide ample means to determine the status of a producer-handler.

A producer-handler may receive milk from other fluid milk or pool plants and still maintain status as a producer-handler. However, the classification provisions of each of the proposed orders should provide that any milk, skim milk or cream in bulk form transferred or diverted from a fluid milk or pool plant to a producer-handler will be Class I milk. Supplemental supplies of milk which may be obtained from other fluid milk or pool plants, by virtue of the type of operation involved, may be presumed to be needed by the producer-handler for fluid milk use and should be classified in the supplying handler's plant as Class I milk. Any milk which is received at a fluid milk or pool plant from a producer-handler would be "other source milk" and would, therefore, be allocated to the lowest class utilization at the plant(s) of such handler after the allocation of allowable shrinkage on producer milk. This method of allocating milk received from producer-handlers at regulated plants will insure producers priority on Class I sales made by the handler operating the plant where the producer-handler's milk is received. The producer-handler who by being exempt enjoys the full advantage of his fluid milk sales, should not also share in the Class I sales of other producers.

The definition of a route is included in each of the orders to clarify other definitions or provisions and avoid lengthy repetition in order language. The term route should be defined as a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product other than a delivery to any milk processing plant.

A definition of "fluid milk product" is included to mean milk, flavored milk, flavored milk drinks, skim milk, buttermilk, half and half and cream. This definition of "fluid milk product" will clarify other order provisions and definitions.

"Other source milk" should be defined as all skim milk and butterfat contained in fluid milk products received by a handler at his fluid milk or pool plant(s), except producer milk and fluid milk products received from other regulated plants. This definition would include milk products, other than fluid milk products, from any source (including those produced at the fluid milk or pool plant) which are reprocessed and converted to another product in the plant during the month. The amount of supplemental supplies received from unregulated milk plants, varies from

season to season and between handlers. This definition of other source milk will insure uniformity among all handlers under the allocation and pricing provisions of each of the proposed orders.

(b) *The classification and allocation of milk.* Milk under each order would be classified in three classes reflecting the principal differences in the value and in the quality of milk required for different uses.

Because skim milk and butterfat are not used in most products in the same proportion as received from producers, these components should be classified separately. Class prices, however, will apply per hundredweight of milk and will be adjusted for the butterfat content of the milk actually used in each class through butterfat differentials.

Class I utilization under each order should include all skim milk and butterfat disposed of for consumption as fluid milk products, namely milk, skim milk, flavored milk, flavored milk drinks, buttermilk, half and half, and cream. Plant loss of producer milk in excess of 2 percent of receipts and skim milk and butterfat not accounted for as Class II or Class III utilization should also be Class I.

The products to be included in Class I are those required by health authorities in each marketing area to be from inspected sources. The extra cost of producing and delivering to the market milk of approved quality in the quantities required for fluid distribution justifies a price for Class I milk somewhat higher than that for manufacturing quality milk. It is appropriate that the products requiring approval be included in a single class so that all milk required for their use may contribute uniformly to the cost of supplying the market needs for inspected milk.

Reserve milk in excess of market needs for fluid consumption must usually be manufactured into various dairy products for which approved inspected sources of milk are not required. Such products must be sold in competition with like products from uninspected sources produced over a wide area. Most such products are less perishable than fluid milk products. Milk used to produce these products should be classified in lower classes and priced in accordance with its value in such outlets.

It was proposed that all such uses be included in Class II milk. It is desirable, however, that separate classification and pricing be provided for milk used to produce butter, cheese, and nonfat dry milk. Substantial volumes of milk priced under the Chicago order are made into these products at plants located in the Northeastern Wisconsin area. A separate class (Class IV) is provided under that order for the milk equivalent of butterfat made into butter and cheese. A separate classification for these products (including also nonfat dry milk, the manufacture of which frequently complements the manufacture of butter) will permit pricing milk used for these products under the Northeastern Wisconsin order in close alignment with the Chicago order. In the Michigan Upper Peninsula some excess milk must be disposed of to cheese factories, and prices that can be realized in this area for milk disposed of to such outlets differ considerably from the value of such milk in other nonfluid products. In addition to these products, skim milk dumped or disposed of for livestock feed after notification to the market administrator and opportunity for verification of volumes should also be included in Class III milk, as should shrinkage within allowable limits.

Class II milk should then include all skim milk and butterfat used to produce products not specified as Class I or Class III and in inventories of fluid milk products on hand at the end of the month.

Unaccounted for milk in excess of a reasonable allowance for plant loss should be Class I so as to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for plant loss. No limit need be put on shrinkage of other source milk (assigned to Class III) since such milk is deducted from the lowest use class under the allocation procedures.

Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts. Allowance for loss on producer milk diverted to another plant regulated by the same order should be at the plant where actually received. Each handler must be held responsible for full accounting of all his receipts of skim milk or butterfat in any form. The handler who first receives the milk from producers should be responsible for establishing the classification of and the payment for producer milk. Except for such limited quantities of shrinkage as may be classified in Class III, all skim milk and butterfat which is received and for which the handler cannot establish utilization should be classified as Class I milk. This provision is necessary to remove any advantage to handlers who fail to keep complete and accurate records and to assure that producers receive full value for their milk on the basis of its use.

Uniformity of minimum prices to handlers and simplicity of accounting are achieved if, so far as possible, Class I utilization each month is assigned to current receipts of producer milk. This can be accomplished by classification of closing inventory as Class II, and allocation of opening inventory to Class I only when current receipts of producer milk (except allowable Class III shrinkage) are less than Class I sales. In such case the handler should pay the difference between the Class II price for such milk in the preceding month and the current Class I price. The volume on which this charge is made should not exceed the volume for which producers were paid at the Class II price in the preceding month.

Provisions should be made for classification of fluid milk products transferred in bulk between regulated plants and from regulated plants to unregulated plants. Transfers between fluid milk plants, or between pool plants, should be permitted in any class agreed upon by the handlers operating such plants so long as the prior claim of producer milk for Class I sales is maintained.

Transfers to unregulated plants may be at Class II or Class III if such plant does not engage in the fluid milk business, or has receipts from inspected farmers equal to any Class I sales. If Class I sales exceed such receipts, the milk transferred should be Class I to the extent of the excess. In any event, in order to substantiate a classification other than Class I the unregulated plant must have and make available records adequate to verify any such utilization claimed.

When handlers receive butterfat and skim milk from sources other than from producers, it is necessary to provide a method for allocating such receipts to the classes of utilization in such a manner as to determine the classification of producer milk. Inasmuch as producer milk is the regular available supply for fluid consumption in the marketing area, producer milk should be assigned the Class I utilization in preference to other source milk. This is necessary to assure the effectiveness of a classified pricing program. The system of assigning utilization of milk to receipts from different sources is set forth in detail in the proposed order. A monthly accounting period is provided for this assignment in order that uniform prices to producers may be computed for each month's delivery of milk.

(c) *Class prices.* The price of milk for fluid use in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas should be closely related to the prices of milk used in the production of manufactured dairy products. In both of these areas substantial volumes of milk are produced, relative to fluid milk production, for use in the production of manufactured milk products. Producers' farms where milk is produced for the Chicago and Northeastern Wisconsin markets are intermingled in the Northeastern Wisconsin milkshed. Surplus and reserve supplies of milk from the Chicago market are manufactured in plants located in the Northeastern Wisconsin area. Dealers in the Northeastern Wisconsin and Michigan Upper Peninsula areas have based their fluid milk prices on the prices paid by manufacturing plants in the areas and on prices paid by plants regulated under the Chicago order. Class I prices in the nearby Federal order markets of Chicago, Milwaukee, Duluth-Superior, Minneapolis-St. Paul and Upstate Michigan are based on similar manufacturing values. Use of a basic formula price to which a Class I differential is added will, for each order, reflect manufacturing values.

(1) *Basic formula price.* The basic formula price used to determine the Class I price should be the higher of the average price paid by 12 Wisconsin and Michigan condenseries or a formula price based on market values of butter and nonfat dry milk. These prices measure the value of milk used in each of these major manufactured dairy products which are marketed nationally. These same factors are used in the Chicago and Milwaukee Federal order markets.

Several of the 12 condenseries whose prices are included are located in the

Northeastern Wisconsin area. A butter-powder formula price using slightly different factors from that included in the attached orders was proposed in the notice of hearing. In view of the desirability of maintaining alignment with prices of the orders for the Chicago and Milwaukee markets the formula price used in those orders is included as the alternative basic formula price. Use of the basic formula price of the preceding month in the determination of Class I prices will permit these prices to be announced early in the month to which they apply, and will assist in maintenance of alignment with Chicago and Milwaukee prices.

(2) *Class I price.* The Class I price differential to be added to the basic formula price should be at a level which will reflect the additional costs of providing an adequate but not excessive year-round supply of milk meeting the inspection requirements of each of these areas. For the initial 18 months of operation of the Northeastern Wisconsin order this differential should be established at an annual level of $0.74, varied seasonally to be $0.94 for the months of August, September, October, and November; $0.74 for the months of January, February, July, and December; and $0.54 for the months of March, April, May, and June; and at those plants located in the Wisconsin counties of Florence, Forest, Marinette, Oneida, and Vilas, or in the State of Michigan, the Class I price under the Northeastern Wisconsin order should be increased ten cents. For the initial 18 months of operation of the Michigan Upper Peninsula order this differential should be established for those plants located in (1) Zone 1 at an annual level of $0.97, varied seasonally to be $1.15 for the months of July through November, and $0.95 for the months of January, February, and December, and $0.75 for all other months; and (2) Zone 2 at an annual level of $1.17, varied seasonally to be $1.35 for the months of July through November, $1.15 for the months of January, February, and December, and $0.95 for all other months.

It was proposed at the hearing that the Class I differential of the Northeastern Wisconsin order be $1.00 in all months of the year and that of the Michigan Upper Peninsula order be $1.35 for all months. While zone price differences for the Upper Peninsula were proposed in the notice of hearing, proponents at the hearing supported the application of a single Class I differential applicable at all locations.

Prices of the Chicago and Milwaukee markets are a dominating influence on the price structure of the Northeastern Wisconsin area. The volume of milk priced under the Chicago order delivered to Chicago pool plants located in the Northeastern Wisconsin area averaged approximately 78 million pounds per month over a recent 12 month period. This is substantially more milk than that to be regulated under the Northeastern Wisconsin order. Chicago prices at these points are clearly the dominant competitive factor in procurement of milk. Milwaukee handlers also compete for sales in the Northeastern Wisconsin marketing area. Producer prices under the Milwaukee order are directly related to those of the Chicago order.

Under the Chicago order the Class I prices at plants located more than 70 miles from the Chicago City Hall are decreased 2 cents for each 15 miles or fraction thereof in excess of 70 miles. An annual average Class I differential, of 90 cents is provided at the 55–70 mile zone. Chicago pool plants are located in the Northeastern Wisconsin area in zones 7–14 so that the annual average Class I price differentials applicable at these plants range from 64 to 78 cents. Under the Milwaukee order an average annual differential of 86 cents, which represents the Chicago zone prices at Milwaukee, applies at all plants.

Approximately two-thirds of the milk to be regulated by the Northeastern Wisconsin order is received at points which would lie in zones 7–10 of the Chicago order, for which the applicable Class I differential of that order ranges from 72 to 78 cents on the annual average. Furthermore, it is from plants located in this area that route distribution is most extensive throughout other parts of the area.

This area also represents the primary concentration of receipts under the Chicago order. Thirteen of the 17 Chicago pool plants are located in zones 7–10. While the record does not show the volume of receipts for plants in this particular group of zones, at 10 plants in zones 7–9 receipts were more than 61 percent of the Chicago milk received in the entire area. The six Chicago plants in zone 9 received approximately 35 percent of the total volume for the area.

It is concluded that a Class I differential with an annual average of 74 cents, which is that applicable under the Chicago order at plants in zone 9, is appropriate for all parts of the Northeastern Wisconsin marketing area except for the northern portion of the area discussed elsewhere in this decision. Throughout the remainder of the area the extensive competition between handlers makes it desirable that the Class I price be uniform to handlers rather than be varied by the zone differentials of the Chicago order. The concentration of receipts under both Chicago and the proposed Northeastern Wisconsin order at or near zone 9 makes this the most appropriate price for the area.

In conformity with the seasonal price patterns of the Chicago order the Northeastern Wisconsin Class I differential should be 20 cents above the annual average level for the months of August through November, 20 cents less for the months of March through June, and at the annual average level for other months.

The Chicago and Milwaukee orders provide for the adjustment of Class I and II prices on the basis of supply and demand in the Chicago market. In view of the lack of data with respect to producer receipts and utilization in the Wisconsin area there is no basis for providing similar provisions for the Northeastern Wisconsin order at this time. While consideration was given to providing precise price alignment by use of the amount of adjustment each month under the Chicago order such precise alignment is not required for an initial 18 month period of operation of the order necessary to provide data with respect to the market. The differences in classification and accounting provisions of the orders make it impossible to provide precise alignment on a comparable basis. The inclusion of ice cream and fluid cream as Class II uses under the Chicago order accounted for on the milk equivalent of butterfat used results in a higher cost to handlers and consequently a higher average producer price for identical utilization than will result from the classification and accounting procedure of the order recommended herein. Experience during the initial period will provide data upon which proper allowance may be made for these factors.

In Oneida and Vilas counties milk production is much less intensive than in the remaining portions of the Northeastern Wisconsin area. The principal handler located in this area, whose plant is at Rhinelander in Oneida County, receives his entire supply from a plant at Wittenberg, 74 miles to the south in the area to which the 74 cent differential would apply. This area, and the companion cities of Marinette-Menominee are the portions of the Northeastern Wisconsin area nearest to the Michigan Upper Peninsula area from which local distribution in adjacent portions of that area may be expected. A Class I price 10 cents higher than that applicable in other portions of the area should apply under the Northeastern Wisconsin order at plants in these areas and the territory intervening between the two marketing areas. This will reflect differences in supply conditions in that portion of the area.

Other than this zone price differential, there is no need to provide any reductions in the Class I price for plants at distant locations. This is an area where substantial volumes of milk in excess of local requirements are produced and as a consequence producer prices approach the minimum. To the east in Lake Michigan, to the south Chicago order prices increase at locations nearer Chicago, while Milwaukee prices are maintained at the Chicago level applicable at Milwaukee, and to the north this decision establishes Michigan Upper Peninsula prices higher than those here provided. To the west the nearest regulated markets, Minneapolis-St. Paul and Duluth-Superior, are also at higher levels.

It was proposed by proponent cooperatives that the Michigan Upper Peninsula marketing area be zoned as three areas for the purpose of establishing Class I price differentials, for each zone. However, at the hearing producers recommended at the Class I price be the basic formula price plus $1.35 in all months, and for all portions of the marketing area. Negotiated prices in the two markets of Marquette and Ironwood have been established by one of the proponent cooperatives for several years. In 1956, the average monthly price differential for fluid milk, above manufacturing prices, using the recommended basic formula

price, was $1.30 in the Marquette market and $1.05 in the Ironwood market. Negotiated prices for the Sault Ste. Marie market have not been in effect for a sufficient period to permit a reasonable determination of the average differential. The prices negotiated at this point have, however, been substantially higher at all times than those for Marquette. The classification to which these prices apply is not similar in all respects to that recommended herein inasmuch as the negotiated Class I price does not apply to cream and half and half.

The influence of the Northeastern Wisconsin market should be reflected in the level of the Class I price under the Michigan Upper Peninsula order. The Wisconsin area is not only a source of alternative supplies of milk but provides considerable direct competition for sales from Wisconsin plants. The Michigan Upper Peninsula area is, however, quite extensive geographically, and some portions are much farther from the Wisconsin production area than others. As a consequence transportation costs from Wisconsin points are substantially higher in certain parts of the area.

For Zone 1, representing the area lying nearest to the Wisconsin production, a Class I price 23 cents higher than that of the principal portion of the Northeastern Wisconsin area is provided. This price is 13 cents more than that for the nearby northern portions of the Wisconsin area. Such difference approximates the costs of movement of supplemental supplies in this area. The Class I pride is increased an additional 20 cents for the remainder of the area, which is at a greater distance from Northeastern Wisconsin. This difference between zones approximates that which has been established through negotiations at Ironwood in Zone 1 and Marquette in Zone 2. The relationship between prices in the principal cities in each of these zones and that provided in the concentrated Wisconsin production area continues to approximate reasonable allowances for transportation for movements of supplemental supplies of milk.

In the previous recommended decision it was proposed that a third zone, consisting of the counties of Chippewa, Luce and Mackinac be provided, with an additional increase of 20 cents in the minimum Class I price. This would have included the city of Sault Ste. Marie. As a result of exceptions received, the record with respect to the pricing history of this proposed zone has been reviewed. It is hereby concluded that the data available with respect to price relationships between this area and the area proposed in Zone 2 in the recommended decision covers too short a period to justify establishment at this time of a fixed differential in the minimum Class I prices applicable in these areas. Accordingly, only two pricing zones are provided in the order attached hereto, with the same minimum Class I price applicable at all points in the area outside Zone 1.

The price relationships between the Michigan Upper Peninsula and Northeastern Wisconsin orders have also been reviewed and it is concluded that the prices of the Michigan order should be increased 3 cents in order to more appropriately reflect past relationships and cost of trahsportation.

The demand for fluid milk during the vacation season in the Michigan Upper Peninsula makes appropriate the inclusion of July with the months of highest Class I prices. With this exception the seasonal pattern of the Class I price in the Michigan Upper Peninsula order should follow that of the Northeastern Wisconsin order. The price differences cited apply to the annual average levels provided.

In contrast to the situation in Northeastern Wisconsin the possibility that distant plants are or might become regulated under the Michigan Upper Peninsula order requires that provision be made to allow for the cost of moving Class I milk from such plants. While the distant plants presently distributing milk in the area would be regulated under the Northeastern Wisconsin order, plants not subject to any other order may become regulated as either supply plants or distributing plants. If such plants are west of Lake Michigan, presumably in Wisconsin or Minnesota the nearest portion of the marketing area will be Zone 1, in which the cities of Ironwood and Iron Mountain provide appropriate points from which distances may be determined. If such plants are east of Lake Michigan, presumably in the lower peninsula of Michigan, the portion of the marketing area accessible to them will be Zone 2, via the newly constructed bridge over the Straits of Mackinac. St. Ignace, located at the straits, provides a convenient point for measurement of distances from Zone 2. Accordingly, location adjustments from the Zone 1 price are provided for plants located west of Lake Michigan and more than 50 miles from the nearer of Ironwood or Iron Mountain, and from the Zone 2 price for plants located east of Lake Michigan and more than 50 miles from St. Ignace. The rate of adjustment should be 10 cents per hundred-weight for distances of 50–70 miles, plus 2 cents for each additional 20 miles or fraction thereof. The application of these rates to the Northeastern Wisconsin plants with substantial distribution in the marketing area will approximate the prices established for such plants under the Wisconsin order.

Under the handler pooling provisions included in the Michigan Upper Peninsula order the producer prices computed reflect the location value of milk if the handler does not operate two or more plants at which different Class I values are applicable. If such is the case the uniform price applicable to milk received at the plant to which the higher Class I price applies is computed and a location differential equal to the difference in Class I values is used in determining minimum producer prices at other plants of such handler. The uniform price of the Northeastern Wisconsin order is computed as that applicable at plants in the major portion of the area with a 10 cent plus differential for milk delivered to plants in the higher priced zone.

(3) *Class II prices.* The Class II price should reflect a value for milk used in cottage cheese, ice cream and related products under each of these orders. Reserve supplies of milk that are needed because handlers' sales fluctuate on a daily basis are converted to such products as cottage cheese, ice cream and related products. Ungraded milk for these purposes commands higher prices than that for butter, cheese, or nonfat dry milk. The level of Class II milk price should not be below that paid for ungraded milk for the same use, since such "pay" prices represent the prevailing value for milk for such uses. It is to be expected that such supplies of milk will be used in the highest valued manufactured products. It is concluded that the Class II price under each of these orders should be the basic formula price of the current month which represents the higher of the prices established for milk for manufacturing purposes.

(4) *Class III price.* The Class III price should reflect the value of milk for manufacture into butter, nonfat dry milk, and cheese (other than cottage cheese) in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas. The plants which manufacture butter, nonfat dry milk and cheese are not comparable in these two areas. In the Northeastern Wisconsin area there are centered some of the largest manufacturing plants in the country. Plants manufacture into these products milk from the Chicago market for which the price is established on the basis of the butter-powder formula price. Thus, it is appropriate that the butter-powder formula portion of the basic formula price should be used to price milk used to produce butter and cheese under the Northeastern Wisconsin order. That computed from the current month quotations should apply.

Producer proponents of the Michigan Upper Peninsula order proposed that the pay prices at local cheese plants and creameries should be the price for "distressed" milk during the flush months. Products, principally cheese, made at these plants must be assembled and shipped considerable distances to the central markets. As a consequence the prices paid by these plants are less than prices paid by cheese factories and creameries in Northeastern Wisconsin. Many of these plants are operated by producer cooperatives so that their current pay prices may not reflect accurately returns to the farmers supplying milk to such plants. It is concluded that the butter-powder formula price less ten cents will approximate the level of prices paid by manufacturing plants in the area and should determine the Class III milk price.

(5) *Handler butterfat differentials.* Butterfat and skim milk will be accounted for separately for classification purposes since they are not used in most products in the same proportions as received from producers. The basic test for which class prices are determined is 3.5 percent butterfat content, the usual fat test at which prices are quoted in these areas, and on which the two markets have operated for some time. It will

then be necessary to adjust Class I, Class II and Class III prices of milk to each handler in accordance with the average test of milk used in each class by such handler. Butterfat differentials which reflect differences in value due to differences in butterfat content are used for this purpose.

Producers proposed that a single butterfat differential apply to all classes of milk. They proposed that this differential be 0.122 times the average price of 92-score butter at Chicago. Producers contend there is a shortage of butterfat for fluid milk uses which has resulted in part from the requirements of recently enacted Michigan statutes.

Butterfat in fluid milk products (which include cream) from inspected sources has a higher value than that in ungraded milk, which will be approximately reflected by a butterfat differential 0.125 times the Chicago butter price. Such a differential should be used to adjust the hundredweight price of Class I milk for each one-tenth percent variation from 3.5 percent butterfat content. The Class II and Class III butterfat differential should be 0.115 times the Chicago butter price. This differential reflects an appropriate value of butterfat for Class II and Class III uses in these areas.

In order that the Class I butterfat differential may be announced early each month for the current month, it is provided that the Class I differential be based on the average price of butter in the preceding month. This will permit the announcement of the Class I butterfat differential at the same time that the Class I price is announced.

The Class II and Class III butterfat differential will not be announced until after the end of the current month. Although handlers will not know precisely the cost of such milk as it is utilized, they will know that their cost will follow that of their principal competitors for manufactured outlets. Trends in butter and nonfat dry milk prices may be observed from daily and weekly reports issued by the Department.

(d) *Distribution of proceeds to producers*—(1) *Types of pool.* The act specifies that an order must provide for (1) the payment to all producers delivering milk to the same handler of uniform prices for all milk delivered by them, or (2) the payment to all producers delivering milk to all handlers of uniform prices for all milk so delivered; without regard to the uses made of such milk by the handler to whom it was delivered. The former method of payment is by individual-handler pools, the latter by a marketwide pool. Under either method all handlers pay the class prices for producer milk, except for differences in the location at which received and for butterfat content.

Under the individual-handler pool, the minimum prices to be paid producers will be uniform to all producers delivering their milk to the same handler. The uniform price will depend upon the proportion of producer receipts used in each class by the handler. Although each handler will be required to pay minimum uniform prices to all the producers who deliver milk to him during each month, the prices paid by different handlers may differ because the proportion of milk used in each class may vary.

(i) Michigan Upper Peninsula: The individual-handler type of pool should be included in the Michigan Upper Peninsula order as a means of distributing to producers the returns from the sale of their milk.

In the Michigan Upper Peninsula area the Michigan Milk Producers Association has operated separate association pools at Marquette, Ironwood and Sault Ste. Marie with respect to milk of those members delivered to handlers at each of these points. Handler pooling will permit continuation of this practice should the association so desire. At least three other cooperative associations operate plants in other points in this marketing area. The area is very extensive, with substantial differences in production conditions surrounding various centers of population. While Class I price differences are provided in recognition of this situation, it is also desirable that differences in the supply and sales relationships throughout the area be reflected in producer prices. Individual handler pooling was supported by all producer organizations with members supplying the Michigan Upper Peninsula market.

It was proposed that, in addition to the milk each handler received from producers or diverted for his account to nonfluid milk plants, there should be included in the computation of his pool price, milk of dairy farmers who had supplied such handler any time during the preceding months of July-December and certified their willingness and ability to deliver inspected milk currently, but whose milk was not received at a fluid milk plant. It was proposed that such dairy farmers be designated "associated producers" and receive payments from the handler through the market administrator equal to the difference between the uniform price of the handler and the manufacturing milk price of the order. The source of such payments would be a reduction in the uniform price otherwise payable to producers by the handler. It was claimed that such provisions would prevent producers from loss of their market through arbitrary action of the handler.

A number of things in addition to conformity with health requirements are influential in farmers' acquiring and retaining a fluid milk market. A number of plants in this area receive milk only in bulk tanks and other plants are in the course of changing to this type of delivery. Only dairy farmers equipped with farm storage tanks can continue to market milk at such plants. Seasonality of production is another factor which may affect the ability of a dairy farmer to retain his market with any specific handler. It is difficult from this record to find a basis on which failure of a farmer to meet market practice requirements could be distinguished from arbitrary action of a handler in determining the producer who should share in the Class I business of a handler without current delivery of milk. It is concluded that such provision should not be included without more definite evidence of actual need to provide stable market conditions.

(ii) Northeastern Wisconsin: The marketwide type of pool should be used in the Northeastern Wisconsin order to distribute returns to producers.

In the recommended decision it was recommended that handler pools also be included in the Northeastern Wisconsin order, principally upon the basis that it was not shown that any particular group of plants serve to balance supplies among other plants. As a result of numerous exceptions received to the proposed pooling provisions for this area it is concluded that handler pooling in this area might operate to prevent adequate reserve supplies of milk from being carried by many Northeastern Wisconsin plants. Such reserve supplies for this market would thus accumulate either in the Chicago pool or in the hands of cooperative handlers under the Northeastern Wisconsin order. In view of these considerations it is concluded that returns under the Northeastern Wisconsin order should be by means of a marketwide type of pool. Appropriate modification of the definitions of "plant", "producer" and "handler", and provision for payments on unpriced milk are included on the basis of findings contained elsewhere in this decision.

(2) *Payments on unpriced milk.* Northeastern Wisconsin order: The order should provide compensatory payments with respect to unpriced milk which is allocated to Class I in a pool plant when receipts from producers exceed 110 percent of the Class I utilization.

An important function of the order is to insure that the position of handlers paying producers a Class I price for fluid milk will not be undermined by other handlers using the market's excess or surplus milk for Class I use. It is equally important that the Class I market be protected from the use of seasonal excess milk from other markets as well as from its own surplus. If the order failed to provide such protection, a handler could curtail purchases of producer milk to his own advantage and secure low cost reserve supplies from other markets for Class I use.

Seasonal supplies may be obtained easily and cheaply during the months of flush production, when most markets have receipts of milk considerably greater than necessary to supply their current fluid requirements. If adjoining milksheds dispose of their seasonal surplus in each other's Class I markets, the result would be confused and disorderly marketing conditions. Market prices would be demoralized, production of milk would be impaired, and the future supply of milk for both markets would be jeopardized. Such disorderly marketing conditions would be contrary to the purposes of the Agricultural Marketing Agreement Act. Therefore, in order to insure the effectiveness of the classified pricing program and to promote orderly marketing, it is necessary that some method of compensating for, or neutralizing the effect of, the advantage created for unpriced milk should be provided as an essential provision of this order. Since the need for such payments arises because of the availability of unpriced milk (milk not procured at specified prices by class usage), compensatory payments should not apply to milk entering the marketing area from a plant regulated under another order. Its proper classification and pricing is determined pursuant to the other order.

It is not practicable to price all milk which may enter the market. However, it is necessary to make provision to prevent the displacement of producer milk by such unpriced milk for the purpose of cost advantage. The alternative available under the order is to make a charge against unpriced milk used in Class I to the extent necessary to remove any advantage in using such milk in lieu of milk from producers.

To remove the price advantage that a handler might achieve by purchasing surplus milk from other markets for use as Class I milk, a compensatory payment should be assessed on such milk equal to the difference between the Class I price and the Class III price. The Class III price provided by the order is a fair index of the value of such milk in manufactured dairy products which is the alternative outlet for such milk. As indicated elsewhere in this decision manufacture of such dairy products is highly concentrated in this and adjoining areas.

It was proposed that the rate of payment be the difference between the Class I price of the order and the uniform price. It is likely that the uniform price of the Chicago order rather than that of the Northeastern Wisconsin order will be the dominant competitive procurement factor in the area. Further, as demonstrated clearly by present procurement practices in the area, it cannot be assumed that payment of a uniform price determines the cost of Class I milk to a handler.

In order to permit handlers to secure supplementary supplies without making a payment when the market is actually short of milk, it has been provided that no compensatory payment will apply any month in which receipts of producer milk on the market are less than 110 percent of Class I sales. Such utilization percentage would be a more practical demarcation of adequate supply and deficit supply conditions than the 125 percent mentioned at the hearing.

In the case of a handler whose plant fails to qualify as a distributing plant but who has sales of fluid milk products on routes in the marketing area, such handler also should under certain conditions be required to make payments to the producer-settlement fund. The amount of these payments would be the lesser of (1) the difference between the Class I and Class III price multiplied by the amount of Class I milk sold in the marketing area, or (2) the amount by which total payments to dairy farmers are less than the total amount of the plant's obligation to producers if such obligation is computed as if such plant were a pool plant.

If the handler elects to make payments under the first option, the regulatory plan will be protected in the same manner and to the same extent as is provided with respect to compensatory payments on other source milk. If the handler chooses to pay the full utilization value of his milk either directly to his own farmers or by combination of payments to his farmers and to the producer-settlement fund, he will obviously not have any advantage in terms of the minimum order class prices on his sales of Class I milk in the marketing area, for his total minimum obligation for milk will be determined in exactly the same way as if he were a fully regulated handler.

Affording this latter option to nonpool plants from which some Class I milk is distributed in the marketing area will adequately protect the regulatory plan in this market. Under the standards adopted herein for pooling the only such nonpool plants would be those with less than half their receipts disposed of on routes or with only a minor share of their route business in the marketing area, being primarily associated with other fluid markets. Distributing plants primarily associated with other unregulated markets do not procure their milk supplies in the milkshed of the Northeastern Wisconsin area, which is practically coextensive with the marketing area. It is expected that Class I utilization of pool milk in this market will substantially exceed 50 percent. Under these circumstances no advantage in the procurement of milk could accrue to handlers operating such nonpool plants. The volumes of milk that might be involved would be relatively small in comparison to the volume of milk in the pool. There is no necessity in this market to require these partially regulated plants to make payments into the producer-settlement fund if it is ascertained that they have paid their Grade A dairy farmers at least the total amount of money which they would be required to pay if they were fully regulated.

The nonpool handler should also pay his pro rata share of the costs of administration of the order. Complete verification of receipts, utilization and payments is required if such a handler is to be given credit for payments as related to the classified use value of skim milk and butterfat received. Accordingly, administrative expense should be determined on the same basis as for fully regulated plants. Should a handler operating a nonpool distributing plant elect when filing his report to make payments to the pool at the difference between the Class I and Class III prices with respect to sales in the marketing area, the expenses of administration will be assessed only with respect to such sales, since need for verification will then be confined to that volume.

(3) *Producer-settlement fund.* Since the amount which the Northeastern Wisconsin order requires a particular handler to pay for his milk may be more or less than the amount he is required to pay to producers or cooperative associations, some method of balancing these amounts is necessary. A producer-settlement fund should be established for this purpose. All handlers who are required to pay more for their milk on the basis of their utilization than they are required to pay to producers or cooperative associations should pay the difference into the producer-settlement fund; and all handlers who are required to pay more to producers or cooperative associations than they are required to pay for their milk on the basis of utilization should receive the difference from the producer-settlement fund. Amounts paid into and out of the producer-settlement fund for this purpose will be equal except for minor differences that may result from rounding of uniform prices. In order to permit this rounding of prices, to allow for unavoidable delays in receiving payments from handlers, and to permit payments to be made to any handler which audit by the market administrator reveals is due such handler from the producer-settlement fund, a reserve should be held in the producer-settlement fund at all times. The amount of the reserve contemplated in the proposed Northeastern Wisconsin order should be sufficient for these purposes. This reserve would be accumulated by deducting between 4 and 5 cents each month from the uniform price after adding half of the unobligated balance to the pool from which such prices are computed.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due to all handlers from the producer-settlement fund, payments to such handlers should be reduced uniformly per hundredweight of milk. The handlers may then reduce payments to producers by an equivalent amount per hundredweight. Amounts remaining due such handlers from the producer-settlement fund should be paid as soon as the balance in the fund is sufficient, and handlers should then complete payments to producers.

4. *Producer butterfat differentials.* The butterfat differential used in making payments to producers should be calculated at the average of the returns actually received from the sale of butterfat in producer milk by each handler. The rate to be used for this purpose would be the average of the Class I, Class II, and Class III differentials weighted by the proportion of butterfat in producer milk classified in each class. Thus, producer returns for butterfat will reflect the actual sale value of their butterfat at the class differentials provided in the order. The producer butterfat differential in no way affects the handlers' costs of milk but merely prorates returns among producers according to the varying butterfat tests of their milk.

(e) *Other administrative provisions.* Certain other provisions are needed in each of the orders to carry out the administrative steps necessary to accomplish the purpose of the proposed regulations.

(1) *Terms and definitions.* In addition to the definitions discussed earlier in this decision which define the scope of the regulation, certain other terms and definitions are desirable in the interest

of brevity and to assure that each usage of the term implies the same meaning. Other terms defined in each of the proposed orders are common to many other Federal milk orders.

(2) *Market Administrator.* Provisions are made for the appointment by the Secretary of market administrators to administer each of the orders and to set forth the powers and duties of the market administrators.

(3) *Records and reports.* Provision should be included in each of the orders to inform handlers that they are required to maintain adequate records of their operations and to make the reports necessary to establish the proper classification and pricing of milk and payments due producers for milk. Time limits must be prescribed for filing such reports and for making payments to producers. Dates must be established for the announcement of prices by the market administrators.

In view of the adoption of marketwide pooling under the Northeastern Wisconsin order, it is necessary to provide additional time for computation of the marketwide uniform price based upon receipt of reports from all handlers, and for handlers to make payments to producers. Under this type of pooling sufficient time must be provided for receiving monies due the producer-settlement fund and payments to handlers which are required to balance the pool. The dates of these payments will follow, in general, those under the Chicago order. The following time schedules should allow all interested persons adequate time to perform each function. These time limits apply to the indicated day of the month following the month for which computations are being made except Class I price announcements which are for the current month. (1) Day of the month and function under the Michigan Upper Peninsula order are as follows:

5th working day—Announcement of class prices by market administrator.

10th day—Payment by handlers to cooperative associations operating fluid milk plants.

12th day—Announcement of uniform price for each handler by market administrator.

12th day—Notification by market administrator to each handler of the value of his producer milk in each class, and payments due for expenses of administration.

13th day—Payments by handlers to cooperative associations.

15th day—Payments by handlers to producers.

20th day—Submission of producer payrolls by each handler to the market administrator.

(2) Day of the month and function under the Northeastern Wisconsin order are as follows:

5th day—Announcement of class prices by market administrator.

5th working day—Submission of monthly reports of receipts and utilization by handlers.

10th day—Payment by handlers at class prices for milk received from pool plants of cooperative associations.

14th day—Announcement by market administrator of uniform price, notification to each handler of the value of producer milk in each class and payments due for expense of administration by market administrator.

16th day—Payments by handler to cooperative associations collecting on behalf of members.

16th day—Payments by handler to market administrator for producer-settlement fund.

17th day—Payment by market administrator due to handlers out of producer-settlement fund.

18th day—Payments by handlers to producers.

25th day—Submission of producer payroll by each handler to the market administrator.

It is necessary that handlers retain records to prove the utilization of the milk received and that proper payments were made therefor. Since the books of all handlers associated with the market cannot be audited immediately it is necessary that such records be kept for a reasonable period of time.

Each of the orders should provide for specific limitations of the time that handlers should be required to retain their books and records and of the period of time in which obligations under the order should terminate. The provisions made in this regard are identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444) covering the retention of records and limitation of claim is equally applicable in this situation and is adopted as a part of this decision.

(4) *Expense of administration.* As his share of the expenses of administering the respective order under which he is regulated each handler should pay not in excess of 5 cents per hundredweight with respect to all receipts of producer milk and such other source milk, not priced under another order, as is classified Class I milk. The expense of administration for handlers paritally regulated under the Northeastern Wisconsin order is discussed elsewhere in this decision.

Market administrators must verify receipts and utilization of all such milk, therefore, all such milk should be subject to the expenses of adminstration. Experience in other markets indicates that 5 cents per hundredweight with respect to all such milk should yield sufficient money to cover expenses of administration. If payment of expenses of administration at the rate of 5 cents per hundredweight yields more money than is needed, under either order, provision is made for the Secretary to prescribe a lesser rate of payment from time to time.

(5) *Marketing services.* A provision should be included in each of the orders for furnishing marketing services to producers, such as verifying tests and weights of producer milk and furnishing market information. These should be provided by the market administrators and the cost should be borne by the producers receiving the service. If a qualified cooperative association is found to be performing such services for any member producers in a similar manner, this will be accepted by the market administrators in lieu of their own service. These orders should provide that 6 cents per hundredweight, or such lesser amount as the Secretary may determine, be deducted from payments to such producers for use of the market administrators in financing such services.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of certain interested parties in the market. These briefs and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions set forth in the briefs are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or to reach such conclusions are denied.

General findings. (a) The proposed marketing agreements and orders and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in each of the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in public interest; and

(c) The proposed marketing agreements and orders will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled.

Recommended marketing agreements and orders. The following orders regulating the handling of milk in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the proposed orders.

Recommended Order for Michigan Upper Peninsula Marketing Area

DEFINITIONS

§ 1011.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1011.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 1011.3 *U. S. D. A.* "U. S. D. A." means the United States Department of Agriculture.

§ 1011.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 1011.5 *Michigan Upper Peninsula marketing area.* (a) "Michigan Upper Peninsula marketing area" (hereinafter referred to as the "marketing area") means all the territory including all municipal corporations within the zones described below in this section.

(b) "Zone 1": Counties of Delta, Dickinson, Gogebic, Iron, Ontonagon, all in the State of Michigan; the town of Niagara and the village of Niagara, in Marinette County; the towns of Aurora and Florence, in Florence County, and the towns of Carey, Kimball, Oma, Pence, Saxon and the cities of Hurley and Montreal in Iron County, all in the State of Wisconsin.

(c) "Zone 2": Counties of Alger, Baraga, Chippewa, Houghton, Keweenaw, Luce, Mackinac, Marquette and Schoolcraft, all in the State of Michigan.

§ 1011.6 *Fluid milk product.* "Fluid milk product" means milk, skim milk, flavored milk, flavored milk drinks, buttermilk, half and half and cream (sweet or sour).

§ 1011.7 *Route.* "Route" means a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk processing plant.

§ 1011.8 *Fluid milk plant.* "Fluid milk plant" means the premises, buildings and facilities of any milk receiving, processing or packaging plant handling milk eligible for distribution in the marketing area as Grade A milk or conforming to the requirements of Michigan Public Law No. 169:

(a) From which fluid milk products are disposed of during the month on routes in the marketing area except as provided in § 1011.81; or

(b) From which milk or skim milk is delivered to a plant(s) described in paragraph (a) of this section on 10 or more days in any of the months of July through December or on three or more days in any of the months of January through June.

§ 1011.9 *Handler.* "Handler" means a person who operates one or more fluid milk plants or any other plant from which fluid milk products are disposed of during the month on routes in the marketing area.

§ 1011.10 *Producer.* "Producer" means a person, other than a producer-handler, who produces milk in conformity with the sanitation requirements for Grade A milk of any duly constituted health authority, or in conformity with the requirements of Michigan Public Law No. 169, which milk is:

(a) Received at a fluid milk plant; or

(b) Diverted from such plant for the account of a handler (milk so diverted shall be deemed to have been received by the diverting handler at the fluid milk plant from which it was diverted).

§ 1011.11 *Producer-handler.* "Producer-handler" means a dairy farmer who distributes fluid milk products on a route in the marketing area but receives no fluid milk products during the month except his own production or from fluid milk plants.

§ 1011.12 *Producer milk.* "Producer milk" means milk received at a fluid milk plant directly from producers, or diverted to a nonfluid milk plant pursuant to § 1011.10.

§ 1011.13 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in (or represented by):

(a) Receipts during the month of fluid milk products except: (1) Receipts from other fluid milk plants or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the fluid milk plant) which are reprocessed or converted to another product in the fluid milk plant during the month.

§ 1011.14 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers, as defined in § 1011.10, which the Secretary determines after application by the association is qualified under provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act".

MARKET ADMINISTRATOR

§ 1011.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

§ 1011.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1011.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(c) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(d) Pay out of the funds provided by § 1011.71:

(1) The cost of his bond and of the bonds of his employees,

(2) His own compensation, and

(3) All other expenses, except those incurred under § 1011.72, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 1011.30 through 1011.33, or (2) payments pursuant to §§ 1011.70, 1011.71, and 1011.72;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Audit records of all handlers or persons upon whose utilization the classification of skim milk and butterfat for each handler depends, to verify the reports and payments required pursuant to the provisions of this part; and

(i) Publicly announce the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk pursuant to § 1011.51 and Class I butterfat differential pursuant to § 1011.54 (a), both for the current month; the minimum price for Class II milk pursuant to § 1011.52 and the Class II butterfat differential pursuant to § 1011.54 (b), both for the preceding month; and the minimum price for Class III milk pursuant to § 1011.53 and the Class III butterfat differential pursuant to § 1011.54 (b), both for the preceding month;

(2) On or before the 12th day of each month the uniform price for each handler for the preceding month, computed pursuant to § 1011.61 and the producer butterfat differential computed pursuant to § 1011.62.

REPORTS, RECORDS AND FACILITIES

§ 1011.30 *Monthly reports of receipts and utilization.* On or before the 5th day (exclusive of Sundays and holidays) of each month, each handler who operates fluid milk plant(s) shall report to the market administrator for the preceding month for each fluid milk plant, in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of butterfat and skim milk contained in or represented by:

(1) Producer milk,

(2) Fluid milk products received from other fluid milk plants,

(3) Other source milk, and

(4) Inventories of fluid milk products on hand at the end of each month;

(b) The utilization of all skim milk and butterfat required to be reported

pursuant to paragraph (a) of this section; and

(c) Such other information with respect to sources and disposition as the market administrator may prescribe.

§ 1011.31 *Payroll reports.* On or before the 20th day of each month each handler operating fluid milk plant(s) shall report his producer payroll for each fluid milk plant for the preceding month which shall show:

(a) The pounds of milks received from each producer and the percentage of butterfat contained therein;

(b) The date and net amount of payment to such producer, or to a cooperative association for such producer's milk, with the price, deductions and charges involved and the nature of each.

§ 1011.32 *Producer-handler reports.* Each producer-handler shall make reports at such time and in such manner as the market administrator may request.

§ 1011.33 *Exempt handler reports.* Each handler exempt pursuant to §§ 1011.81 and 1011.82 shall report to the market administrator his disposition of fluid milk products on routes within the marketing area at such time and in such manner as the market administrator shall prescribe.

§ 1011.34 *Records and facilities.* Each handler shall maintain and make available to the market administrator, during the usual hours of business such accounts and records of all of his operations and such facilities as are necessary to verify reports or to ascertain the correct information with respect to:

(a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form;

(b) The weights and tests for butterfat, skim milk and other content of all milk and milk products handled;

(c) Inventories of all dairy products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations.

§ 1011.35 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if within such three year period, the market administrator notifies a handler in writing that the retention of such books and records, or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1011.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat required to be reported pursuant to § 1011.30 shall be classified (separately as skim milk and butterfat), pursuant to §§ 1011.41 to 1011.45.

§ 1011.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1011.42 and 1011.43, the classes of utilization shall be:

(a) Class I utilization shall be skim milk and butterfat:

(1) Disposed of in the form of fluid milk products, except those classified pursuant to paragraph (c) (2) of this section; and

(2) Not accounted for as Class II or Class III utilization.

(b) Class II utilization shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) or (c) of this section; and

(2) In inventories of fluid milk products on hand at the end of the month.

(c) Class III utilization shall be all skim milk and butterfat:

(1) Used to produce butter, nonfat dry milk or cheese in any form except cottage cheese;

(2) In skim milk disposed of for livestock feed or dumped subject to prior notification to and verification (at his discretion) by the market administrator;

(3) In shrinkage of skim milk and butterfat allocated to milk received from producers, but not to exceed 2 percent of such receipts; and

(4) In shrinkage of other source milk.

§ 1011.42 *Shrinkage.* (a) When producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred by a handler to another handler without first having been received for the purpose of weighing and testing in the transferor handler's plant shall be included in the receipts at the plant of the transferee handler for the purpose of computing his shrinkage and shall be excluded at the plant of the transferor handler in computing his shrinkage.

§ 1011.43 *Transfers.* Skim milk and butterfat transferred or diverted as milk, skim milk or cream in bulk form from a fluid milk plant to:

(a) The fluid milk plant of another handler shall be classified at the utilization indicated by the operators of both plants in their reports submitted pursuant to § 1011.30, otherwise as Class I utilization, subject in either event to the following conditions:

(1) The receiving plant has utilization in such class of an equivalent amount of skim milk and butterfat, respectively; and

(2) Such skim milk and butterfat shall be classified so as to allocate to producer milk the greatest possible total Class I utilization in the two plants.

(b) A plant operated by a producer-handler or a handler exempt pursuant to § 1011.81, shall be Class I utilization; and

(c) A nonfluid milk plant (except as specified in paragraph (b) of this section) shall be Class I utilization unless the following conditions apply:

(1) Utilization in another class is claimed by the transferring handler in his report submitted pursuant to § 1011.30 for the month:

(2) Class I utilization in the nonfluid milk plant does not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines are the regular source of supply for fluid disposition of such plant. If Class I utilization exceeds such receipts, the skim milk and butterfat transferred shall be Class I to the extent of such excess; and

(3) The operator of the nonfluid milk plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such utilization.

§ 1011.44 *Responsibility of handlers.* All skim milk and butterfat shall be classified as Class I utilization unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 1011.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat respectively, in Class I, Class II and Class III utilization for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water normally associated with such solids in the form of whole milk.

§ 1011.46 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class III utilization, the pounds of butterfat shrinkage allowed pursuant to § 1011.41 (c) (3);

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant(s) other than those subject to another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant subject to another marketing agreement or order issued pursuant to the act;

(d) Subtract from the pounds of butterfat remaining in Class II milk and Class I milk, in series beginning with Class II, the pounds of butterfat contained in inventory of fluid milk products on hand at the beginning of the month;

(e) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received from fluid milk plants of other handlers according to the classification established pursuant to §§ 1011.41 and 1011.43 (a);

(f) Add to the remaining pounds of butterfat in Class III utilization the pounds subtracted pursuant to paragraph (a) of this section; and

(g) If the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such overage from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 1011.47 *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in the same manner as that prescribed for butterfat in § 1011.46.

§ 1011.48 *Computation of total producer milk in each class.* The amounts computed pursuant to §§ 1011.46 and 1011.47 will be combined into one total for each class and the weighted average butterfat content of producer milk in each class will be determined.

MINIMUM PRICES

§ 1011.50 *Basic formula price.* The basic formula price shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic or field prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the U. S. D. A.:

Present Operator and Location
Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A., during the month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter.

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period, by the U. S. D. A.; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents and adjust to the nearest full cent.

§ 1011.51 *Class I milk price.* Subject to the provisions of § 1011.54 the minimum price to be paid by each handler for milk received at his fluid milk plant from producers or the fluid milk plant of a cooperative association during the month and utilized as Class I milk during the 18 month period following the effective date of this part should be the basic formula price for the preceding month, plus the applicable amounts specified below for the marketing area zone in which such plant is located. For plants located outside the marketing area and west of Lake Michigan the price (subject to § 1011.55) should be that specified for Zone 1. For plants located outside the marketing area and east of Lake Michigan the price (subject to § 1011.55) shall be that specified for Zone 2.

Zone	Months of March through June	Months of January February and December	Months of July through November
1	$0.75	$0.95	$1.15
2	.95	1.15	1.35

§ 1011.52 *Class II milk price.* Subject to the provisions of § 1011.54, the minimum price to be paid by each handler for milk received at his fluid milk plant from producers or from the fluid milk plant of a cooperative association, during the month and utilized as Class II milk shall be the basic formula price.

§ 1011.53 *Class III milk price.* Subject to the provisions of § 1011.54 the minimum price per hundredweight to be paid by each handler for milk received at his fluid milk plant from producers or the fluid milk plant of a cooperative association during the month and utilized as Class III milk shall be the price computed pursuant to § 1011.50 (b) less ten cents.

§ 1011.54 *Handler butterfat differential.* If the average butterfat test of Class I milk, Class II milk or Class III milk as computed pursuant to § 1011.48 is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such average butterfat test is above or below 3.5 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the U. S. D. A. during the month specified below by the applicable factor listed, and rounding to the nearest one-tenth cent:

(a) For Class I milk, multiply such price for the preceding month by 0.125;

(b) For Class II and Class III milk, multiply such price for the current month by 0.115.

§ 1011.55 *Handler location adjustment.* (a) For milk received at a fluid milk plant located outside the marketing area, west of Lake Michigan and more than 50 miles from the nearer of the City Hall in Ironwood, Michigan, or the City Hall in Iron Mountain, Michigan, the applicable Zone 1 price for Class I milk shall be reduced 10 cents, plus 2 cents for each 20 miles or fraction thereof in excess of 70 miles.

(b) For milk received at a fluid milk plant located outside the marketing area, east of Lake Michigan, and more than 50 miles from the City Hall in St. Ignace, Michigan the applicable Zone 3 price for Class I milk shall be reduced 10 cents, plus 2 cents for each 20 miles or fraction thereof in excess of 70 miles.

(c) Any distance used to determine location adjustments shall be the shortest hard surfaced highway distance as determined by the market administrator.

§ 1011.56 *Equivalent price provision.* Whenever the provisions of this part require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose and the specified price is not reported or published, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with, the price specified.

HANDLER'S OBLIGATION AND UNIFORM PRICE

§ 1011.60 *Value of producer milk.* The value of producer milk received by each handler at fluid milk plant(s) shall be computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class, as computed pursuant to § 1011.48, by the applicable respective class prices (adjusted pursuant to §§ 1011.54 and 1011.55), and add together the resulting amounts;

(b) Add the amounts computed by multiplying the quantity of overage assigned to each class pursuant to § 1011.46 (g) and the corresponding step of § 1011.47 by the applicable class price;

(c) Add the amount obtained in multiplying by the difference between the Class II price for the preceding month and the Class I price for the current month the lesser of:

(1) The hundredweight of milk subtracted from Class I pursuant to § 1011.46 (d) and the corresponding step of § 1011.47; or

(2) The hundredweight of producer milk classified as Class II, during the preceding month; and

(d) Add or subtract, as the case may be, the amount necessary to correct errors in receipts or utilization for previous months as disclosed by audit by the market administrator.

§ 1011.61 *Computation of uniform price* For each month the market administrator shall compute for each handler a "uniform price" per hundredweight of producer milk of 3.5 percent butterfat content delivered to fluid milk plants of such handler as follows:

(a) From the value of milk computed for such handler pursuant to § 1011.60, subtract if the weighted average butter-

fat test of all milk represented by such value is greater than 3.5 percent or add, if the weighted average butterfat test of such milk is less than 3.5 percent an amount computed by multiplying the total pounds of butterfat represented by the difference of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 1011.62 multiplied by 10;

(b) Adjust the resulting amount by the sum of money used in adjusting the uniform price, pursuant to paragraph (c) of this section for the previous month to the nearest cent;

(c) Except as provided in paragraph (d) of this section, divide the result by the total hundredweight of producer milk represented by the amount computed pursuant to § 1011.60 (a) and adjust the resulting figure to the nearest cent. The "uniform price" so computed shall be that applicable to milk delivered to the fluid milk plant(s) of a handler at whose plant or plants a single Class I price is applicable pursuant to §§ 1011.51 and 1011.55;

(d) For each handler operating two or more fluid milk plants at which different Class I prices are applicable pursuant to §§ 1011.51 and 1011.55, the value of milk used in the computation provided in paragraph (c) of this section shall first be further adjusted by adding the value of all applicable producer location adjustments pursuant to § 1011.63. The uniform price as computed shall be that applicable at the plant or plants of such handler at which the highest Class I price is applicable.

§ 1011.62 *Producer butterfat differential.* The applicable uniform prices to be paid pursuant to § 1011.70 to producers delivering milk to each handler shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 3.5 percent, respectively, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 1011.54, weighted by the pounds of butterfat in producer milk used by such handler in each class and the result rounded to the nearest tenth of a cent.

§ 1011.63 *Producer location adjustments.* In making payments pursuant to § 1011.70 to producers or a cooperative association for milk for which a uniform price was computed pursuant to § 1011.61 (d) such uniform price for milk received at a plant at which a lesser Class I price is applicable than at the plant for which the uniform price is computed shall be reduced by an amount equal to the difference between the applicable Class I prices.

§ 1011.64 *Notification.* On or before the 12th day after the end of each month, the market administrator shall mail to each handler, at his last known address a statement showing for such month:

(a) The amount and value of his producer milk in each class;

(b) The uniform price applicable at each fluid milk plant of such handler pursuant to §§ 1011.61 and 1011.63 and the butterfat differential computed pursuant to § 1011.62; and

(c) The amounts to be paid by such handler pursuant to §§ 1011.71 or 1011.72.

PAYMENT FOR MILK

§ 1011.70 *Time and method of payment.* (a) Except as provided in paragraph (b) or (c) of this section, on or before the 15th day after the end of each month each handler who received milk from producers shall pay for milk received during such month to each producer for milk received from him the uniform price as provided in § 1011.61 adjusted by the butterfat differential pursuant to § 1011.62 and the location adjustment pursuant to § 1011.63.

(b) (1) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any claim on the part of the association, each handler shall pay to the cooperative association on or before the 13th day of each month, in lieu of payments pursuant to paragraph (a) of this section an amount equal to the gross sum due for all milk received from certified members, less amount owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer and submit to the cooperative association on or before the 13th day of each month, written information which shows for each such member-producer:

(i) The total pounds of milk received from him during the preceding month,

(ii) The total pounds of butterfat contained in such milk,

(iii) The number of days on which milk was received, and

(iv) The amounts withheld by the handler in payment for supplies sold.

The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse, and a certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, shall be made by written notice to the market administrator, and shall be subject to his determination.

(c) Each handler shall make payment to a cooperative association for milk received from the fluid milk plant of such cooperative association on or before the 10th day after the end of the month in which it was received, at not less than the applicable class prices.

§ 1011.71 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 13th day after the end of each month 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe with respect to:

(a) All receipts within the month of milk from producers, including milk of such handler's own production; and

(b) Any other source milk allocated to Class I pursuant to § 1011.46 (b) and the corresponding step of § 1011.47.

§ 1011.72 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments pursuant to § 1011.70 for milk received from each producer (excluding milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as the Secretary may prescribe, and on or before the 13th day after the end of each month shall pay such deductions to the market administrator. Such monies shall be used by the market administrator to verify weights, samples and tests of milk received from producers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a fluid milk plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 1011.70 as may be authorized by such producers, and pay such deductions on or before the 13th day after the end of the month to the cooperative association rendering such services of which such producers are members.

§ 1011.73 *Errors in payment.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due:

(a) To the market administrator from such handler,

(b) To such handler from the market administrator, or

(c) To any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 1011.74 *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1011.71, 1011.72 and 1011.73 shall be increased one-half of one percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 1011.75 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or association or, if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the Act a petition claiming such money.

APPLICATION OF PROVISIONS

§ 1011.80 *Producer-handler exemption.* A producer-handler shall be exempt from all provisions of this part except §§ 1011.32, 1011.34 and 1011.35.

§ 1011.81 *Exempt handler.* A handler who operates a fluid milk plant located outside the marketing area from which an average of less than 600 pounds of fluid milk products per day are disposed of during the month in the marketing area on route(s), shall be exempt from all provisions of this part except §§ 1011.33 to 1011.35.

§ 1011.82 *Handlers subject to other Federal orders.* The provisions of this part shall not apply to a handler with respect to the operation of a fluid milk plant during any month in which the milk at such plant would be subject to the classification, pricing and payment provisions of another marketing agreement or order issued pursuant to the Act and the disposition of fluid milk products in the other Federal marketing area exceeds that in the Michigan Upper Peninsula marketing area: *Provided*, That the operator of a fluid milk plant which is exempted from the provisions of this part pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1011.90 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1011.91 *Suspension or termination.* The Secretary shall, whenever he finds that this part, or any provision of this part, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision of this part.

§ 1011.92 *Continuing obligation.* If upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1011.93 *Liquidation.* Under the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers, in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1011.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1011.101 *Separability of provisions.* If any provision of this part, or the application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Revised Recommended Order for Northeastern Wisconsin Marketing Area

DEFINITIONS

§ 1016.1 *Act.* "Act" means Public Act No. 10, 73d Congress as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

§ 1016.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 1016.3 *U. S. D. A.* "U. S. D. A." means the United States Department of Agriculture.

§ 1016.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 1016.5 *Northeastern Wisconsin marketing area.* The Northeastern Wisconsin marketing area, hereinafter referred to as the "marketing area", means all territory within (a) the counties of Brown, Calumet, Kewaunee, Langlade, Lincoln, Manitowoc, Oneida, Outagamie, Portage, Shawano (exclusive of the Menominee Indian Reservation), Sheboygan, Vilas, Waupaca and Winnebago, all in Wisconsin, including all towns, villages, and cities; (b) the county of Fond du Lac, Wisconsin, exclusive of the towns of Alto, Ashford, Auburn, Byron, Eden, Oakfield, Osceola and Waupun, the villages of Campbellsport, Eden and Oakfield, and the city of Waupun; (c) the city of Sturgeon Bay in Door County, Wisconsin; (d) the towns of Bergen, Berlin, Bevent, Easton, Elderon, Fransen, Guenther, Harrison, Hewitt, Knowlton, Kronenwetter, Maine, Marathon, Mosinee, Norrie, Plover, Reid, Rib Mountain, Ringle, Stettin, Texas, Wausau, and Weston, the villages of Brokaw, Elderon, Hatley, Marathon and Schofield, and the cities of Mosinee and Wausau, all in Marathon County, Wisconsin; (e) the town of Peshtigo and the cities of Marinette and Peshtigo in Marinette County, Wisconsin; (f) the cities of Gillett, Oconto and Oconto Falls in Oconto County, Wisconsin; (g) the towns of Cranmoor, Grand Rapids, Port Edwards,

Rudolph, Saratoga and Seneca, the villages of Biron and Port Edwards, and the cities of Nekoosa and Wisconsin Rapids in Wood County, Wisconsin; and (h) the city of Menominee in Menominee County, Michigan.

§ 1016.6 *Fluid milk product.* "Fluid milk product" means milk, skim milk, flavored milk, flavored milk drinks, buttermilk, half and half and cream (sweet or sour).

§ 1016.7 *Route.* "Route" means a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk processing plant.

§ 1016.8 *Pool plant.* "Pool Plant" means any milk plant approved by a duly constituted authority for the handling of milk to be labeled Grade A, except as provided in §§ 1016.80, 1016.81 and 1016.82:

(a) At which milk is processed or packaged and from which during the month:

(1) Disposition on routes in the marketing area of fluid milk products labeled Grade A is 20 percent or more of receipts of Grade A milk from dairy farmers; and

(2) Total disposition on routes of fluid milk products labeled Grade A is 50 percent or more of receipts of Grade A milk from dairy farmers and other milk plants, or

(b) At which milk eligible for distribution as Grade A milk is received from dairy farmers and from which during the month 50 percent or more of such receipts is moved to a plant described in paragraph (a) of this section. Any such receiving plant that was a pool plant during each of the months of August through November immediately preceding shall continue to be a pool plant for each of the succeeding months of December through July unless written request to the contrary is filed with the market administrator on or before the first day of any such month.

§ 1016.9 *Handler.* "Handler" means (a) the operator of a pool plant in his capacity as such; (b) the operator of any other plant from which fluid milk products labeled Grade A are disposed of during the month on routes in the marketing area; or (c) a cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant.

§ 1016.10 *Producer.* (a) "Producer" means a person, other than a producer-handler, who produces Grade A milk in conformity with the sanitation requirements of any duly constituted Federal, state, county, or municipal authority, whose milk is received at a pool plant. "Producer" shall also include any such person with respect to milk diverted from a pool plant to a nonpool plant for the account of a handler or cooperative association. Milk so diverted shall be deemed to have been received at the pool plant from which diverted, if for the account of the operator of such plant, or at an identical location if for the account of a cooperative association through diversion from the pool plant of another handler.

(b) During the months of March, April, May, and June "producer" shall not include any such person whose milk is received or diverted from a farm from which a base applicable for the current year was earned under the provisions of either Federal Order No. 41 or Federal Order No. 7 by delivery to a plant subject to such order operated by the handler, an affiliate of such handler or any person who controls or is controlled by such handler.

§ 1016.11 *Producer-handler.* "Producer-handler" means a dairy farmer who distributes fluid milk products on a route in the marketing area, but receives no fluid milk products during the month except his own production or by transfer from pool plants.

§ 1016.12 *Producer milk.* "Producer milk" means milk received at a pool plant directly from producers, or diverted to a nonpool plant pursuant to § 1016.10.

§ 1016.13 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in (or represented by):

(a) Receipts during the month of fluid milk products except

(1) Receipts from other pool plants or

(2) Producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the pool plant) which are reprocessed or converted to another product in the pool plant during the month.

§ 1016.14 *Cooperative Association.* "Cooperative Association" means any cooperative marketing association of producers, as defined in § 1016.10, which the Secretary determines after application by the association is qualified under provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act."

MARKET ADMINISTRATOR

§ 1016.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

§ 1016.21 *Powers.* The market administrator shall have the following powers with respect to this part.

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1016.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(c) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(d) Pay out of the funds provided by § 1016.74;

(1) The cost of his bond and of the bonds of his employees,

(2) His own compensation, and

(3) All other expenses, except those incurred under § 1016.75, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 1016.30 through 1016.33, or (2) payments pursuant to §§ 1016.70 through 1016.76;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Audit records of all handlers or persons upon whose utilization the classification of skim milk and butterfat for each handler depends, to verify the reports and payments required pursuant to the provisions of this part; and

(i) Publicly announce the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk pursuant to § 1016.51 and the Class I butterfat differential pursuant to § 1016.54 (a), both for the current month; the minimum price for Class II milk pursuant to § 1016.52 and the Class II butterfat differential pursuant to § 1016.54 (b), both for the preceding month; and the minimum price for Class III milk pursuant to § 1016.53 and the Class III butterfat differential pursuant to § 1016.54 (b), both for the preceding month;

(2) On or before the 14th day of each month the uniform price for each handler for the preceding month, computed pursuant to § 1016.61 and the producer butterfat differential computed pursuant to § 1016.62.

Reports, Records and Facilities

§ 1016.30 *Monthly reports of receipts and utilization.* On or before the 5th day (exclusive of Sundays and holidays) of each month, each handler who operates pool plants, each cooperative association that is a handler pursuant to § 1016.9 (c) and each handler whose obligation is computed pursuant to § 1016.82 shall report to the market administrator

for the preceding month for each pool plant, in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of butterfat and skim milk contained in or represented by:

(1) Producer milk, or receipts from dairy farmers producing Grade A milk,

(2) Fluid milk products received from other pool plants,

(3) Other source milk, and

(4) Inventories of fluid milk products on hand at the end of each month;

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section; and

(c) Such other information with respect to sources and disposition as the market administrator may prescribe.

§ 1016.31 *Payroll reports.* On or before the 25th day of each month each handler operating a pool plant or receiving Grade A milk from dairy farmers shall report his producer payroll for each pool plant for the preceding month which shall show:

(a) The pounds of milk received from each producer or dairy farmer producing Grade A milk and the percentage of butterfat contained therein;

(b) The date and net amount of payment to such producer or dairy farmer, or to a cooperative association for such producer's milk, with the price, deductions and charges involved and the nature of each.

§ 1016.32 *Producer-handler reports.* Each producer-handler shall make reports at such time and in such manner as the market administrator may request.

§ 1016.33 *Exempt handler reports.* Each handler exempt pursuant to §§ 1016.81 and 1016.82 shall report to the market administrator his disposition of fluid milk products on routes within the marketing area at such time and in such manner as the market administrator shall prescribe.

§ 1016.34 *Records and facilities.* Each handler shall maintain and make available to the market administrator, during the usual hours of business such accounts and records of all of his operations and such facilities as are necessary to verify reports or to ascertain the correct information with respect to:

(a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form;

(b) The weights and tests for butterfat, skim milk and other content of all milk and milk products handled;

(c) Inventories of all dairy products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations.

§ 1016.35 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if within such three year period, the market administrator notifies a handler in writing that the retention of such books and records, or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1016.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat required to be reported pursuant to § 1016.30 shall be classified (separately as skim milk and butterfat), pursuant to §§ 1016.41 through 1016.45.

§ 1016.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1016.42 and 1016.43, the classes of utilization shall be:

(a) Class I utilization shall be skim milk and butterfat:

(1) Disposed of in the form of fluid milk products, except those classified pursuant to paragraph (c) (2) of this section; and

(2) Not accounted for as Class II and Class III utilization.

(b) Class II utilization shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) or (c) of this section; and

(2) In inventories of fluid milk products on hand at the end of the month.

(c) Class III utilization shall be all skim milk and butterfat:

(1) Used to produce butter, nonfat dry milk or cheese in any form except cottage cheese;

(2) In skim milk disposed of for livestock feed or dumped subject to prior notification to and verification (at his discretion) by the market administrator;

(3) In shrinkage of skim milk and butterfat allocated to milk received from producers, but not to exceed 2 percent of such receipts; and

(4) In shrinkage of other source milk.

§ 1016.42 *Shrinkage.* (a) When producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred by a handler to another handler without first having been received for the purpose of weighing and testing in the transferor handler's plants shall be included in the receipts at the plant of the transferee handler for the purpose of computing his shrinkage and shall be excluded at the plant of the transferor handler in computing his shrinkage.

§ 1016.43 *Transfers.* Skim milk and butterfat transferred or diverted as milk, skim milk or cream in bulk form from a pool plant to:

(a) The pool plant of another handler shall be classified at the utilization indicated by the operators of both plants in their reports submitted pursuant to § 1016.30, otherwise as Class I utilization, subject in either event to the following conditions:

(1) The receiving plant has utilization in such class of an equivalent amount of skim milk and butterfat, respectively, and

(2) Such skim milk and butterfat shall be classified so as to allocate to producer milk the greatest possible total Class I utilization in the two plants;

(b) A plant operated by a producer-handler or a handler exempt pursuant to § 1016.81, shall be Class I utilization;

(c) A nonpool plant (except as specified in paragraph (b) of this section) shall be Class I utilization unless the following conditions apply:

(1) Utilization in another class is claimed by the transferring handler in his report submitted pursuant to § 1016.30 for the month,

(2) Class I utilization in the nonpool milk plant does not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines are the regular source of supply of Grade A milk for such plant. If Class I utilization exceeds such receipts, the skim milk and butterfat transferred shall be Class I to the extent of such excess; and

(3) The operator of the nonpool milk plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such utilization.

§ 1016.44 *Responsibility of handlers.* All skim milk and butterfat shall be classified as Class I utilization unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 1016.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat respectively, in Class I, Class II and Class III utilization for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water normally associated with such solids in the form of whole milk.

§ 1016.46 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class III utilization, the pounds of butterfat shrinkage allowed pursuant to § 1016.41 (c) (3);

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant(s) other than those subject to another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant subject to another marketing agreement or order issued pursuant to the act;

(d) Subtract from the pounds of butterfat remaining in Class II milk and Class I milk, in series beginning with Class II, the pounds of butterfat contained in inventory of fluid milk products on hand at the beginning of the month;

(e) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received as fluid milk products from pool plants of other handlers according to the classification established pursuant to §§ 1016.41 and 1016.43 (a);

(f) Add to the remaining pounds of butterfat in Class III utilization the pounds subtracted pursuant to paragraph (a) of this section; and

(g) If the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such coverage from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 1016.47 *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in the same manner as that prescribed for butterfat in § 1016.46.

§ 1016.48 *Computation of total producer milk in each class.* The amounts computed pursuant to §§ 1016.46 and 1016.47 will be combined into one total for each class and the weighted average butterfat content of producer milk in each class will be determined.

MINIMUM PRICES

§ 1016.50 *Basic formula price.* The basic formula price shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic or field prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the U. S. D. A.

Present Operator and Location

Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richmond Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A., during the month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter.

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period, by the U. S. D. A.; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents and adjust to the nearest full cent.

§ 1016.51 *Class I milk price.* Subject to the provisions of § 1016.54 the minimum price to be paid by each handler for milk received at his pool plant from producers or the pool plant of a cooperative association during the month and utilized as Class I milk during the 18 month period following the effective date of this part shall be:

(a) Except as provided in paragraph (b) of this section, the basic formula price for the preceding month plus $0.54 for the months of March, April, May and June; $0.74 for the months of January, February, July and December; and $0.94 for all other months.

(b) For plants located in the Wisconsin counties of Florence, Forest, Marinette, Oneida and Vilas or in the State of Michigan, the price computed in paragraph (a) of this section shall be increased ten cents.

§ 1016.52 *Class II milk price.* Subject to the provisions of § 1016.54 the minimum price to be paid by each handler for milk received at his pool plant from producers or the pool plant of a cooperative association, during the month and utilized as Class II milk shall be the basic formula price.

§ 1016.53 *Class III milk price.* Subject to the provision of § 1016.54 the minimum price per hundredweight to be paid by each handler for milk received at his pool plant from producers or the pool plant of a cooperative association during the month and utilized as Class III milk shall be the price computed pursuant to § 1016.50 (b).

§ 1016.54 *Handler butterfat differential.* If the average butterfat test of Class I milk, Class II milk or Class III milk as computed pursuant to § 1016.48 is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such average butterfat test is above or below 3.5 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the U. S. D. A. during the month specified below by the applicable factor listed, and rounding to the nearest one-tenth cent:

(a) For Class I milk, multiply such price for the preceding month by 0.126;

(b) For Class II and Class III milk, multiply such price for the current month by 0.115.

§ 1016.55 *Equivalent price provision.* Whenever the provisions of this part require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose and the specified price is not reported or published, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with, the price specified.

HANDLER'S OBLIGATION AND UNIFORM PRICE

§ 1016.60 *Value of producer milk.* The value of producer milk received by each handler at pool plant(s) and by any cooperative association with respect to milk for which it is a handler pursuant to § 1016.9 (c) shall be computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class, as computed pursuant to § 1016.48, by the applicable respective class prices (adjusted pursuant to § 1016.54);

(b) Add the amounts computed by multiplying the quantity of overage assigned to each class pursuant to § 1016.46 (g) and the corresponding step of § 1016.47 by the applicable class price;

(c) Add the amount obtained in multiplying by the difference between the Class II price for the preceding month and the Class I price for the current month the lesser of:

(1) The hundredweight of milk subtracted from Class I pursuant to § 1016.46 (d) and the corresponding step of § 1016.47; or

(2) The hundredweight of producer milk classified as Class II, during the preceding month; and

(d) If during the month total receipts of producer milk were 110 percent or more of the total Class I milk at pool plants, add an amount equal to the difference between the values (at test and location) at the Class I price and Class III price with respect to (1) Other source milk subtracted from Class I pursuant to § 1016.46 (b) and the corresponding step of § 1016.47; and

(2) Milk in inventory subtracted from Class I pursuant to § 1016.46 (d) and the corresponding step of § 1016.47 which is in excess of the sum of:

(i) The quantity for which payment is computed pursuant to paragraph (c) of this section; and

(ii) The quantity subtracted from Class II pursuant to § 1016.46 (c) and the corresponding step of § 1016.47 in the month preceding.

§ 1016.61 *Computation of uniform price.* For each month, the market administrator shall compute the uniform price per hundredweight for producer milk of 3.5 percent butterfat content delivered to pool plants other than those specified in § 1016.63, as follows:

(a) Combine into one total the individual values of milk of all handlers computed pursuant to § 1016.60;

(b) And, if the weighted average butterfat test of all producer milk represented in paragraph (a) of this section is less than 3.5 percent, or subtract, if the weighted average butterfat test of such milk is more than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such average butterfat test from 3.5 percent by the butterfat differential provided in § 1016.62 multiplied by 10;

(c) Subtract the aggregate of the values of the applicable producer location adjustments pursuant to § 1016.63;

(d) Add not less than one half of the unobligated balance in the producer-equalization fund;

(e) Divide the resulting amount by the hundredweight of milk received from producers; and

(f) Subtract not less than 4 cents nor more than 5 cents.

§ 1016.62 *Producer butterfat differential.* The applicable uniform prices to be paid pursuant to § 1016.70 to producers delivering milk to each handler shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 3.5 percent, respectively, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 1016.54, weighted by the pounds of butterfat in producer milk used by such handler in each class and the result rounded to the nearest tenth of a cent.

§ 1016.63 *Producer location adjustments.* In making payments pursuant to § 1016.70 to producers or a cooperative association for milk received at a plant located in the Wisconsin counties of Florence, Forest, Marinette, Oneida or Vilas or in the State of Michigan, the uniform price computed pursuant to § 1016.61 shall be increased 10 cents.

§ 1016.64 *Notification.* On or before the 14th day after the end of each month, the market administrator shall mail to each handler, at his last known address a statement showing for such month:

(a) The amount and value of his producer milk in each class;

(b) The uniform price for the month pursuant to §§ 1016.61 and 1016.63 and the butterfat differential computed pursuant to § 1016.62; and

(c) The amount due such handler pursuant to § 1016.73 and the amounts to be paid by such handler pursuant to §§ 1016.72, 1016.74 and 1016.75.

PAYMENT FOR MILK

§ 1016.70 *Time and method of payment.* (a) Except as provided in paragraphs (b) and (c) of this section, on or before the 18th day after the end of each month each handler who received milk from producers shall pay for milk received during such month to each producer for milk received from him the uniform price as provided in § 1016.61 adjusted by the butterfat differential pursuant to § 1016.62 and the location adjustment pursuant to § 1016.63.

(b) (1) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any claim on the part of the association, each handler shall pay to the cooperative association on or before the 16th day of each month, in lieu of payments pursuant to paragraph (a) of this section an amount equal to the gross sum due for all milk received from certified members, less amount owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer and submit to the cooperative association on or before the 16th day of each month, written information which shows for each such member-producer:

(i) The total pounds of milk received from him during the preceding month,

(ii) The total pounds of butterfat contained in such milk,

(iii) The number of days on which milk was received, and

(iv) The amounts withheld by the handler in payment for supplies sold.

The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse, and a certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, shall be made by written notice to the market administrator and shall be subject to his determination.

(c) Each handler shall make payment to a cooperative association for milk received from the pool plant of such cooperative association on or before the 10th day after the end of each month in which it was received, at not less than the applicable class prices.

§ 1016.71 *Producer-equalization fund.* The market administrator shall establish and maintain a separate fund, known as the "producer-equalization fund" into which he shall deposit all payments received pursuant to §§ 1016.72 and 1016.83 (a) (1) or (b) (1) (including any adjustments thereto pursuant to § 1016.76) and out of which he shall make all payments pursuant to § 1016.73 (including any adjustments thereto pursuant to § 1016.76).

§ 1016.72 *Payments to the producer-equalization fund.* On or before the 16th day after the end of each month, each handler whose value of milk is required to be computed pursuant to § 1016.60 shall pay to the market administrator any amount by which such value for such month is greater than the minimum amount required to be paid by him pursuant to § 1016.70.

§ 1016.73 *Payments out of the producer-equalization fund.* On or before the 17th day after the end of each month, the market administrator shall pay to each handler any amount by which the value of milk for such handler for the month pursuant to § 1016.60 is less than the total minimum amount required to be paid by him pursuant to § 1016.70, less any unpaid obligations of such handler to the market administrator pursuant to § 1016.72: *Provided*, That if the balance in the producer-equalization fund is insufficient to make all payments to all such handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 1016.74 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 16th day after the end of each month 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe with respect to:

(a) All receipts within the month of milk from producers, including milk of such handler's own production;

(b) Any other source milk allocated to Class I pursuant to § 1016.46 (b) and the corresponding step of § 1016.47; and

(c) The applicable amount specified in § 1016.83 (a) (2) or (b) (2).

§ 1016.75 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments pursuant to § 1016.70 for milk received from each producer (excluding milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as the Secretary may prescribe, and on or before the 13th day after the end of each month shall pay such deduction to the market administrator. Such monies shall be used by the market administrator to verify weights, samples and tests of milk received from producers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a fluid milk plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 1016.70 as may be authorized by such producers, and pay such deductions on or before the 13th day after the end of the month to the cooperative association rendering

such services of which such producers are members.

§ 1016.76 *Errors in payment.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due:

(a) To the market administrator from such handler,

(b) To such handler from the market administrator, or

(c) To any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 1016.77 *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1016.72 through 1016.76 shall be increased one-half of one percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 1016.78 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or associations or, if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 1016.80 *Producer-handler exemption.* A producer-handler shall be exempt from all provisions of this part except §§ 1016.32, 1016.34 and 1016.35.

§ 1016.81 *Exempt handler.* A handler who operates a fluid milk plant located outside the marketing area from which an average of less than 600 pounds of fluid milk products per day are disposed of during the month in the marketing area on route(s), shall be exempt from all provisions of this part except §§ 1016.33 through 1016.35.

§ 1016.82 *Handlers subject to other Federal orders.* The provisions of this part shall not apply to a handler with respect to the operation of a pool plant during any month in which the milk at such plant would be subject to the classification, pricing and payment provisions of another marketing agreement or order issued pursuant to the act and the disposition of fluid milk products in the other Federal marketing area exceed that in the Northeastern Wisconsin marketing area: *Provided*, That the operator of a pool plant which is exempted from the provisions of this part pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

§ 1016.83 *Handler operating a nonpool distributing plant.* Each handler, other than a producer-handler or one exempt pursuant to §§ 1016.81 or 1016.82, who during the month operates a Grade A milk plant from which fluid milk products are distributed on a route in the marketing area, shall, in lieu of the payments required pursuant to §§ 1016.70 through 1016.74, pay to the market administrator as follows:

(a) If such handler so elects at the time of reporting pursuant to § 1016.30, his obligations shall be as follows:

(1) On or before the 13th day after the end of the month, for the producer-settlement fund, an amount equal to the difference between the value of the Class I milk disposed of during the month on routes in the marketing area at the applicable Class I price for the month and the value of such milk at the Class II price; and

(2) On or before the 13th day after the end of the month, as his pro rata share of the expense of administration, the rate specified in § 1016.74 with respect to Class I milk disposed of on routes in the marketing area.

(b) Unless such handler elects to have his obligations computed pursuant to paragraph (a) of this section, his obligations shall be as follows:

(1) On or before the 25th day after the end of the month, for the producer-settlement fund, the lesser of the amount computed pursuant to paragraph (a) (1) of this section, or any plus amount resulting from the following computation:

(i) Compute an amount equal to the value of milk which would be computed pursuant to § 1016.60 for Grade A milk received from dairy farmers at such plant for such month if such plant had been a pool plant;

(ii) Deduct the gross payments made by the handler to dairy farmers for Grade A milk received at such plant for such month. Gross payments to be included in this computation shall be limited to cash payments made to the dairy farmer or his assignee on or before the date of the report required pursuant to § 1016.31, plus the value of any supplies on service furnished by the handler on prior written authorization or as evidenced by a delivery ticket signed by the dairy farmer; and

(2) On or before the 13th day after the end of the month, as his pro rata share of the expense of administration, an amount equal to that which would have been computed pursuant to § 1016.74 had such plant been a pool plant.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1016.90 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1016.91 *Suspension or termination.* The Secretary shall, whenever he finds that this part, or any provision of this part, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision of this part.

§ 1016.92 *Continuing obligation.* If upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1016.93 *Liquidation.* (a) Under the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent.

(b) If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers, in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1016.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1016.101 *Separability of provisions.* If any provision of this part, or the application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 20th day of August 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

FEDERAL TRADE COMMISSION

[16 CFR Part 43]

[File No. 21-580]

OUTLET AND SWITCH BOX MANUFACTURING INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS OR OBJECTIONS

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, firms, corporations, organizations, or other parties affected by or having an interest in the proposed trade practice rules for the Outlet and Switch Box Manufacturing Industry, to present to the Commission their views concerning said rules including such pertinent information, suggestions or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than September 10, 1958. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., e. d. t., Wednesday, September 10, 1958, in Room 532, Federal Trade Commission Building, Pennsylvania Avenue and Sixth Street NW., Washington, D. C., to any such persons, firms, corporations, organizations, or other parties who desire to appear and be heard. After due consideration of all matters presented in writing or orally the Commission will proceed to final action on the proposed rules.

The industry for which trade practice rules are sought to be established through this proceeding consists of persons, firms, corporations and organizations engaged in the manufacture and sale of industry products which are formed metal switch boxes, outlet boxes, gang boxes, utility boxes, concrete boxes, extension rings, box covers, bar hanger sets, and combination and parts of such products, exclusive of (1) boxes and cabinets which have interior preassembled wiring, (2) hinged cover and pre-assembled screw cover metal cabinets, (3) under floor-duct junction boxes, and combination and parts of such products.

A general trade practice conference for the industry was held in Washington, D. C., at which proposed rules suggested by the Outlet and Switch Box Association, Inc., were considered and discussed. The announced hearing constitutes a further step in the proceedings.

Issued: August 19, 1958.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

NOTICES

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Delegation Order 66; Chief Counsel's Order 1958-11]

AUTHORITIES OF REGIONAL APPELLATE DIVISION AND OF REGIONAL COUNSEL IN PROTESTED CASES AND IN TAX COURT CASES

DELEGATION ORDER

Pursuant to the authority vested in the undersigned: *It is ordered*, That:

1. (a) In each case in which a taxpayer has protested the determination of liability made by the office of a District Director of Internal Revenue or by the office of the Director of International Operations, the Regional Commissioner is authorized exclusively to represent the Commissioner (1) in the determination of liability for income, profits, estate, and gift tax in cases not docketed in the Tax Court of the United States, whether before or after issuance of a statutory notice; and (2) in the determination of liability for the excise and employment taxes designated in paragraph 5 of this order. In each region the Assistant Regional Commissioner (Appellate), as Chief of the Appellate Division of the region, is authorized and each Associate Chief of the Appellate Division is authorized to represent the Regional Commissioner in the determination of tax liability in any such case; and each Assistant Chief is authorized and each Special Assistant to the Chief is authorized to represent the Regional Commissioner in the determination of tax liability in any such case in which the net deficiency or the net overassessment determined by the District Director or by the Director of International Operations does not exceed $50,000 and the determination of the Appellate Division does not involve a net overassessment in excess of $50,000.

(b) The authorities delegated in subparagraph (a) of this paragraph are subject to the exceptions set forth in paragraph 3 of this order and, except as provided in paragraph 4, they may not be redelegated.

2. (a) In each income, profits, estate, and gift tax case docketed in the Tax Court, in conformity with the provisions of Delegation Order No. 60—Chief Counsel's Order No. 1958-5, dated April 17, 1958, the Regional Commissioner is authorized exclusively to represent the Commissioner in the functions delegated to the Regional Appellate Division in that joint Order. In each region the Assistant Regional Commissioner (Appellate), as Chief of the Appellate Division of the region, is authorized and each Associate Chief of the Appellate Division is authorized to represent the Regional Commissioner in the performance of those functions; and each Assistant Chief is authorized and each Special Assistant to the Chief is authorized to represent the Regional Commissioner in the performance of those functions in any such case in which the net deficiency or net overassessment determined in the statutory notice does not exceed $50,000 and the basis of disposition does not involve a net overassessment in excess of $50,000.

(b) The authorities delegated in subparagraph (a) of this paragraph are subject to the exceptions set forth in paragraph 3 of this order and they may not be redelegated.

3. The authorities delegated by this order to the Regional Commissioners do not include authority to:

(a) Eliminate the ad valorem fraud penalty in any case not docketed in the Tax Court, except with the concurrence of Regional Counsel;

(b) Act in any case in which a recommendation for criminal prosecution is

pending, except with the concurrence of Regional Counsel; nor

(c) Modify any decision of the Excess Profits Tax Council with respect to any issue arising under section 722 of the Internal Revenue Code of 1939, except with the concurrence of the Director of the Appellate Division or his delegate.

4. In any case not docketed in the Tax Court in which a statutory notice was issued by the office of a District Director, the Assistant Regional Commissioner (Appellate) may relinquish the jurisdiction of the Appellate Division by waiver to the office of that District Director. Similarly, the Assistant Regional Commissioner (Appellate) for the region which includes Washington, D. C., may relinquish the jurisdiction of the Appellate Division by waiver to the office of the Director of International Operations in any case in which the office of that Director issued the statutory notice. No such waiver shall be made in any case in which criminal prosecution has been recommended and not finally disposed of; nor in any case in which the determination in the statutory notice includes the ad valorem fraud penalty. Notwithstanding any such waiver, upon filing of a petition with the Tax Court, jurisdiction shall revest in the Appellate Division.

5. The excise and employment taxes subject to the provisions of this Order include any Federal excise or employment tax:

(a) Under the Internal Revenue Code of 1939, except any tax imposed by:

(1) Chapter 8, 15, 23, 26, or 27A;

(2) Subchapter B of Chapter 25;

(3) Part V, VI, VII, or VIII of Subchapter A of Chapter 27;

(4) Subchapter B of Chapter 28, insofar as it relates to liquor and tobacco; or

(5) Chapter 9A, insofar as it relates to distilled spirits, wines, cordials, or fermented malt liquors.

(b) Under the Internal Revenue Code of 1954, except any tax imposed by:

(1) Chapter 35 of Subtitle D;

(2) Subchapter A, Chapter 39 of Subtitle D;

(3) Subtitle E; or

(4) Subchapter D, Chapter 78 of Subtitle F, insofar as it relates to liquor and tobacco.

6. (a) In the performance of his functions under this order, each Regional Counsel shall be subject to the general supervision and control of the Chief Counsel. With the approval of the Chief Counsel, Regional Counsel may redelegate any function by this order vested in Regional Counsel. The Chief Counsel may delegate any function vested in him by this order.

(b) The Regional Counsel will consider all memoranda prepared in the Regional Appellate Division recommending the issuance of statutory notices, prior to the issuance of such statutory notices by the Regional Appellate Division.

7. The instructions contained in this order are intended to supplement the instructions contained in Delegation Order No. 60—Chief Counsel's Order No. 1958–5, dated April 17, 1958, and supersede other prior instructions to the extent that such other prior instructions are inconsistent herewith.

Issued: August 6, 1958.

Effective: August 6, 1958.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner.

ARCH M. CANTRALL,
Chief Counsel.

[Delegation Order 65; Chief Counsel's Order 1958–10]

REGIONAL COMMISSIONERS AND REGIONAL COUNSEL

REVOCATION OF DELEGATION OF AUTHORITY

Commissioner's Reorganization Order No. 2, dated May 15, 1952, as revised and amended, relating to delegation of certain functions to Regional Commissioners and Regional Counsel, issued pursuant to the authority of Treasury Department Order No. 150–2, is hereby revoked.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner.

ARCH M. CANTRALL,
Chief Counsel.

Approved: August 5, 1958.

JOHN K. CARLOCK,
Acting General Counsel for the Treasury Department.

Approved: August 6, 1958.

NELSON P. ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 58–6792; Filed, Aug. 21, 1958; 8:55 a. m.]

[Order 64]

DIRECTOR, APPELLATE DIVISION

AUTHORITY IN ISSUES ARISING UNDER SECTION 722

Pursuant to the authority vested in me as Commissioner of Internal Revenue:
It is hereby ordered:

1. The Director of the Appellate Division is authorized exclusively to exercise final authority within the Internal Revenue Service with respect to all issues arising under section 722 of the Internal Revenue Code of 1939 in cases not docketed in the Tax Court of the United States, whether before or after issuance of a statutory notice.

2. With respect to all issues arising under section 722 of the Internal Revenue Code of 1939 in cases docketed in the Tax Court of the United States, in conformity with the provisions of Delegation Order No. 60—Chief Counsel's Order No. 1958–5, dated April 17, 1958, the Director of the Appellate Division is authorized exclusively to represent the Commissioner in the functions comparable to those delegated in standard-issue cases to the Regional Appellate Division in that joint order.

3. The functions herein delegated may be redelegated by the Director of the Appellate Division only.

4. The instructions contained in this order are intended to supplement the instructions contained in Delegation Order No. 60—Chief Counsel's Order No. 1958–5, dated April 17, 1958; and to supersede IR–Mim. 19, dated August 15, 1952, and other prior instructions to the extent that such instructions are inconsistent herewith.

Issued: August 4, 1958.

Effective: August 4, 1958.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner.

Office of the Secretary

[Dept. Circ. 570, Rev. Apr. 20, 1943, 1958 Supp. No. 189]

MICHIGAN SURETY CO.

TERMINATION OF AUTHORITY TO QUALIFY AS ACCEPTABLE SURETY ON FEDERAL BONDS

Notice is hereby given that the Certificate of Authority issued by the Secretary of the Treasury to the Michigan Surety Company, Lansing, Michigan, under the provisions of the act of Congress approved July 30, 1947 (6 U. S. C. 6–13), to qualify as sole surety on recognizances, stipulations, bonds and undertakings permitted or required by the laws of the United States, terminated as of July 31, 1958.

The Michigan Surety Company received its initial authority from the Secretary of the Treasury to do business with the United States on September 28, 1956, and remained continuously so qualified until July 31, 1958.

The company requested permission from the Treasury to retire voluntarily from the execution of any new business in favor of the United States.

In order that there may be a coordinated record showing the status of outstanding bonds of this company as of this date in favor of the United States, bond-approving officers are requested, upon the receipt of this circular, to examine carefully the records of their offices and report promptly to the Surety Bonds Branch, Bureau of Accounts, Treasury Department, all outstanding bonds accepted by them and executed by the Michigan Surety Company as surety or co-surety on which the liability of the company has not terminated.

It is also requested that the Surety Bonds Branch be advised as expeditiously as possible as to all facts, in detail, relating any existing claim, or with respect to the occurrence of any event or the existence of any circumstance which may hereafter result in a claim against the Michigan Surety Company.

In furnishing the above information bond-approving officers will please give the name of the principal on the bond, the date and penalty of the bond, and with respect to claims, the nature of the claim, the circumstances out of which it arose, and its status at the time of the report.

Bond-approving officers and other officials of the Government charged with the duty of taking bonds, recognizances, stipulations or undertakings should proceed immediately to secure new bonds, where necessary, with acceptable sureties, in lieu of bonds executed by the Michigan Surety Company.

[SEAL] JULIAN B. BAIRD,
Acting Secretary of the Treasury.

AUGUST 19, 1958.

DEPARTMENT OF DEFENSE

Department of the Army

RALPH M. BESSE

EMPLOYMENT WITHOUT COMPENSATION AND STATEMENT OF BUSINESS INTERESTS

Pursuant to section 101 (a) of Executive Order 10647 (section 710 (b) of the Defense Production Act of 1950 as amended) notice is hereby given of the appointment of Mr. Ralph M. Besse on July 29, 1958, in the Department of the Army. Mr. Besse is serving as Chief of the Cleveland Ordnance District, Cleveland, Ohio.

Mr. Besse is presently employed by the Cleveland Electric Illuminating Company, Cleveland, Ohio.

Mr. Besse's statement of his personal business interests is set forth below.

Dated: August 14, 1958.

JOHN W. MARTYN,
Administrative Assistant.

Statement of Personal Business Interests

The following statement lists the names of concerns required by section 302 (b) of Executive Order 10647, dated November 28, 1955 (subsection 710 (b) (6)) of the Defense Production Act of 1950, as amended.

1. The names of any corporation in which I am, or within 60 days preceding this appointment have been, an officer or director:

The Cleveland Electric Illuminating Co.—Executive Vice Pres. & Director.
The CEICO Company—President.
The Cleveland Trust Company—Director.

2. The names of any corporation in which I own, or within 60 days preceding this appointment have owned, any stocks, bonds, or other financial interests:

Stockholder: American Vitrified Products, Cleveland Electric Illuminating Co., Cleveland Trust Company, Controls Co. of America, Diamond Portland Cement, Dow Chemical Co., Gerber Products Co., Great American Life Underwriters, Middle South Utilities, National Screw & Mfg. Co., Ohio Oil Company, One William Street, Prince Marine Drilling (also holder of debentures), Producing Properties, Inc., Socony Mobil Oil Co., Standard Oil of New Jersey, Television Electronic Fund, Inc., Travelers Insurance Co., U. S. Life Insurance Co.

3. The names of any partnerships in which I am, or within 60 days preceding this appointment have been, a partner:

None.

4. The names of any other businesses in which I own, or within 60 days preceding this appointment have owned, any similar interest:

None.

Dated: July 21, 1958.

RALPH M. BESSE.

[F. R. Doc. 58–6758; Filed, Aug. 21, 1958; 8:45 a. m.]

DEPARTMENT OF COMMERCE

Federal Maritime Board

UNITED STATES LINES CO.

NOTICE OF APPLICATION

Notice is hereby given that United States Lines Company seeks the privilege to (1) carry westbound cargoes from English and French Channel ports and German North Sea ports on Trade Route Nos. 5, 7, and 9, to United States North Atlantic ports by freight vessels operating on Trade Route No. 8, and (2) to carry eastbound cargoes from United States North Atlantic ports to Southampton, England by freight vessels operating on Trade Route No. 5.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 605 (c) of the Merchant Marine Act, 1936, as amended, 46 U. S. C. 1175, should by the close of business on September 5, 1958, notify the Secretary, Federal Maritime Board in writing in triplicate, and file petition for leave to intervene in accordance with the rules of practice and procedure of the Federal Maritime Board.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Federal Maritime Board determines that petitions to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the application will be processed without a hearing.

Dated: August 19, 1958.

By order of the Federal Maritime Board.

[SEAL] JAMES L. PIMPER,
Secretary.

Maritime Administration

CERTAIN TRADE ROUTES

NOTICE OF TENTATIVE CONCLUSIONS AND DETERMINATIONS REGARDING MODIFICATION OF ESSENTIALITY AND UNITED STATES FLAG SERVICE REQUIREMENTS

Notice is hereby given that on August 18, 1958, the Maritime Administrator, acting pursuant to section 211 of the Merchant Marine Act, 1936, as amended, tentatively found and determined that the privilege to carry westbound cargoes from English and French Channel ports and German North Sea ports on Trade Routes Nos. 5, 7, and 9 to United States North Atlantic ports by freight vessels operating on Trade Route No. 8, is essential to the promotion, development, expansion and maintenance of the foreign commerce of the United States.

Any person, firm or corporation having an interest in the foregoing who desires to offer comments and views or request a hearing thereon should submit same in writing in triplicate to the Chief, Office of Government Aid, Maritime Administration, Department of Commerce, Washington 25, D. C., by the close of business on September 5, 1958. In the event a hearing is requested, a statement must be included giving the reasons therefor. Any hearing thereby afforded will be before an Examiner on an informal basis only. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

Dated: August 19, 1958.

By order of the Maritime Administrator.

[SEAL] JAMES L. PIMPER,
Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50–73]

GENERAL ELECTRIC CO.

SUBMISSION OF COMPREHENSIVE REPORT REGARDING PROPOSED CHANGES IN DESIGN AND OPERATION OF NTR

Upon the basis of a preliminary investigation and a letter dated June 17, 1958, from the Manager, Vallecitos Atomic Laboratory, General Electric Company (hereinafter referred to as the "licensee"), it appears that the Nuclear Test Reactor (NTR) at the Vallecitos Atomic Laboratory has been shut down since mid-March 1958, for repair and modification and that all fuel for the reactor has been placed in the storage vault.

In its letter of June 17, 1958, the General Electric Company advised, among other things, that: "As you are probably aware, the NTR has been shut down to permit us to make certain modifications to the facility. The modifications will be the subject of an amendment to our NTR license application. Operation of the NTR will remain suspended until after amendment of license number R–33."

Pursuant to the Atomic Energy Act of 1954, as amended, and §§ 2.202 (b) and 50.100 of the Commission's regulations in 10 CFR Parts 2 and 50: *It is ordered*, That: Special nuclear material shall not be loaded into the NTR until the licensee has submitted to the Commission a comprehensive report describing and evaluating proposed changes in the design of the NTR and proposed changes in procedures for its future operation and until the Commission has authorized such loading.

Signed and dated at Germantown, Md., August 13, 1958.

For the Atomic Energy Commission.

H. L. PRICE,
Director, Division of Licensing and Regulation.

Issuance of the foregoing order is consented to by the licensee.

Dated: August 7, 1958.

GEO. WHITE,
General Electric Company.

FEDERAL POWER COMMISSION

[Docket No. G-15881]

TENNESSEE GAS TRANSMISSION CO.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGES IN RATES, AND ALLOWING INCREASED RATES TO BECOME EFFECTIVE

AUGUST 15, 1958.

Tennessee Gas Transmission Company (Tennessee), on July 22, 1958, tendered for filing six revised sheets[1] to its FPC Gas Tariff, Original Volume No. 3, by which Tennessee proposed to increase its rates for the sale of gas so as to increase revenues by $1,270 per billing period for gas produced or gathered in the State of Louisiana and supplied to American Louisiana Pipe Line Company under Rate Schedule F-4 and to United Gas Pipe Line Company under Rate Schedules F-16 and F-38. Tennessee requests that the aforementioned revised tariff sheets become effective as of August 1, 1958.

The increased rates and charges so proposed are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of said Act No. 8 of 1958. In consideration of this fact, and in order to assure a proper refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable that the Commission waive the requirements of § 154.63 of its regulations and suspend the said proposed increased rates and charges until August 2, 1958, and thereafter to permit them to become effective as of that date: *Provided*, That within 20 days from the date of this order Tennessee shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed changes, and that the above-designated revised tariff sheets be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest and to aid in carrying out the provisions of the Natural Gas Act that Tennessee's proposed increased rates be made effective as hereinafter provided and that Tennessee be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in the above-designated revised tariff sheets.

(B) Pending such hearing and decision thereon, said First Revised Sheet Nos. 66, 83, 652 and 669 and Second Revised Sheet Nos. 268 and 279, are each hereby suspended and the use thereof deferred until August 2, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rates, charges and classifications set forth in the above-designated filings shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, Tennessee shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Tennessee shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the diffemce between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax moneys collected pursuant to said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by Tennessee herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Tennessee shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Tennessee so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the date upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to bcome effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Tennessee shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the revised tariff sheets involved, as follows:

Agreement and Undertaking of Tennessee Gas Transmission Company To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-15881, Tennessee Gas Transmission Company hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused the agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ------ day of ----------.

TENNESSEE GAS TRANSMISSION COMPANY

By ----------

Attest:

(Secretary)

Unless Tennessee is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Tennessee shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise it shall remain in full force and effect.

(G) The revised tariff sheets hereby suspended shall not be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37).

By the Commission.

[Docket No. G-15861]

TEXAS GAS EXPLORATION CORP.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 18, 1958.

Texas Gas Exploration Corporation (Respondent) on July 25, 1958, tendered for filing proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 24, 1958.

Purchaser: Texas Gas Transmission Corporation.

Rate schedule designation: Supplement No. 1 to Respondents FPC Gas Rate Schedule No. 1.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

The increased rate(s) and charge(s) so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until August 2, 1958, and thereafter to permit it to become effective as of that date: *Provided*, That within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until August 2, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate(s), charge(s), and classification(s) set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of ----------
To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G--, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ------ day of ------.

By ----------

Attest:

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket Nos. G–10956, G–2374]

CITIES SERVICE GAS CO. AND PANHANDLE EASTERN PIPE LINE CO.

ORDER SETTING DATES FOR HEARINGS, PERMITTING INTERVENTIONS AND SEVERING ISSUES

AUGUST 18, 1958.

In the matters of Cities Service Gas Company, Docket No. G–10956; Panhandle Eastern Pipe Line Company, Docket No. G–2374.

Notice of the application in Docket No. G–10956 was given on March 4, 1957 and published in the FEDERAL REGISTER on March 8, 1957 (22 F. R. 1533–34).

Thereafter, and on March 25, 1957, Panhandle Eastern Pipe Line Company filed a petition for leave to intervene in Docket No. G–10956, in which Panhandle stated that the application proposes, among other things "to construct additional facilities; viz, replacing twelve miles of 10" line with 20" line to expand the 'Ottawa-Sedalia System'." Panhandle further alleges that Applicant (Cities Service) relies upon the receipt of 12,970 Mcf per day of gas from Panhandle. The petitioner further alleges that there is pending before the Commission Docket No. G–2374, an application in which Panhandle is seeking authority from this Commission to abandon said service being rendered to Cities Service.

However, counsel for Panhandle advised the Commission by letter dated April 1, 1957, that Panhandle is interested in the Ottawa-Sedalia System only, and that it has no interest in the other facilities covered by the application.

It appears to the Commission that the participation of Panhandle Eastern Pipe Line Company in Docket No. G–10956 to the extent that it relates to the Ottawa-Sedalia System may be in the public interest.

Notice of the application in Docket No. G–2374 was given on March 5, 1954 and published in the FEDERAL REGISTER on March 11, 1954 (19 F. R. 1375).

On March 24, 1954 Cities Service filed a protest and petition for leave to intervene in Docket No. G–2374 stating that Panhandle seeks to abandon service to Cities Service under an Exchange Agreement between the parties dated February 18, 1947, as amended by letter agreement dated November 21, 1949, and appearing in Cities Service FPC Gas Tariff, Original Volume No. 2, Original Sheets Nos. 15–20, as Rate Schedule X–4. Cities Service alleges, among other things, that termination of service under said rate schedule would result in a reduction or abandonment of service by Panhandle to the following towns and communities in Missouri; Liberty, Excelsior Springs, Blue Springs, Smithville, Lees Summit, Hickman Mills, Grandview, Belton, Raytown, Windsor, and other small communities. The petitioner also states that such termination would cause a reduction or abandonment of service by Cities Service to the following towns and communities in Missouri: Concordia, Sweet Springs, Lexington, Richmond, Henrietta, Higginsville, Marshall, Carrollton, Blackburn, Waverly and Norborne.

On March 25, 1954, Kansas City, Missouri and The Gas Service Company (Gas Service), each filed a petition for leave to intervene. Gas Service alleges that under said exchange agreement the deliveries made at the Bannister connection are important to Panhandle with respect to its ability to render adequate service to Gas Service from the Louisburg lateral, which lateral serves a large number of communities in Missouri. Kansas City alleges that termination of deliveries of natural gas by Panhandle into the Cities Service system will adversely affect the supply to Kansas City; that it will necessitate expenditure of substantial sums of money by Cities Service in order to adjust its system to meet the load requirements thereon and such expenditures will adversely affect the rates paid for gas service by Kansas City consumers.

It appears to the Commission that the participation of Cities Service Gas Company, Gas Service Company and Kansas City, Missouri in Docket No. G–2374 may be in the public interest.

Since no protests, petitions for leave to intervene or notices of intervention other than that of Panhandle have been filed in Docket No. G–10956, and since Panhandle is interested only in the Ottawa-Sedalia System, it is in the public interest that that part of the application relating to said Ottawa-Sedalia System be severed from the rest of the application and consolidated for hearing with the application in Docket No. G–2374. The Commission finds further that it is in the public interest that all other parts of the application in Docket No. G–10956 be disposed of under the shortened procedure provided by 18 CFR 1.32 (b) as requested in the prayer of said application.

The Commission orders:

(A) Panhandle Eastern Pipe Line Company is hereby permitted to become an intervener in Docket No. G–10956, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of said intervener shall be limited to matters relating to the Ottawa-Sedalia System: *And Provided, further,* That the admission of such intervener shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Cities Service Gas Company, Kansas City, Missouri and The Gas Service Company are hereby permitted to intervene in Docket No. G–2374, subject to the rules and regulations of the Commission: *Provided, however,* That their participation shall be limited to matters affecting rights and interests specifically asserted in their petitions to intervene: *And provided, further,* That the permission to intervene shall not be construed as recognition by the Commission that any party has been or might be aggrieved by any order in these proceedings.

(C) That part of the application in Docket No. G–10956 relating to the Ottawa-Sedalia System of Cities Service Gas Company and the issues involved therein is hereby severed from the rest of the application in said docket and is consolidated for hearing with the application in Docket No. G–2374.

Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules and regulations thereunder, it is hereby ordered that a hearing will be held on September 30, 1958, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by that part of the application in Docket No. G–10956 which relates to the Ottawa-Sedalia System and the application in Docket No. G–2374, and a hearing will be held on September 10, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C. concerning the matters involved in and the issues presented by all other parts of the application in Docket No. G–10956: *Provided, however,* That the Commission may, after a non-contested hearing in Docket No. G–10956 (excluding the issues relating to the Ottawa-Sedalia System), dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing. Failure of any party to appear at and participate in the hearing in Docket No. G–10956 set for September 10, 1958 shall be construed as waiver of and concurrence in omission of the intermediate decision procedure in cases where a request therefor is made.

By the Commission.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[F. R. Doc. 58–6798; Filed, Aug. 21, 1958; 8:56 a. m.]

[Docket No. G–15066 etc.]

TENNESSEE GAS TRANSMISSION AND AUSTRAL OIL EXPLORATION CO., INC.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 18, 1958.

In the matters of Tennessee Gas Transmission Company, Docket Nos. G–15066 and G–15067; Austral Oil Exploration Company, Inc., Operator and Agent, Docket No. G–15082.

Tennessee Gas Transmission Company (Tennessee), a Delaware corporation with a principal place of business in Houston, Texas, filed on May 7, 1958, in Docket Nos. G–15066 and G–15067, applications for certificates of public convenience and necessity, purusant to section 7 of the Natural Gas Act, authorizing sales of natural gas produced from fields in Oklahoma and Louisiana, in interstate commerce for resale, as follows:

(1) Docket No. G–15066: To Lone Star Gas Company (Lone Star) from the Johnson A. Butler and Singer leases, Katie Field, Garvin County, Oklahoma, to be made pursuant to a gas sales contract dated March 11, 1958, between Lone Star and Tennessee.

(2) Docket No. G–15067: To American Louisiana Pipe Line Company (American) from the H. J. Lutcher Stark lease, North Holly Beach Field, Cameron Parish, Louisiana, to be made pursuant to a basic gas sales contract dated July 10, 1956, as amended April 14, 1958. On January 17, 1958, Tennessee was authorized, in Docket No. G–11227, to make sales to American from acreage dedicated by the July 10, 1956, contract in the North Holly Beach Field. Tennessee is herein requesting authorization to sell gas from additional acreage dedicated by the amendment of April 14, 1958, to the basic contract. The acreage is owned 25 percent by Tennessee, 25 percent by Tidewater Oil Company and 50 percent by Austral Oil Exploration Company, Inc.

On May 9, 1958, Austral Oil Exploration Company, Incorporated (Austral), a Delaware corporation with a principal place of business in Houston, Texas, filed an application in Docket No. G–15082, pursuant to section 7 of the Natural Gas Act, as Operator and as Agent for Oil Participations, Incorporated, a signatory co-owner party to a basic gas sales contract with American dated July 10, 1956,

as amended April 14, 1958, and requests authorization to sell gas from additional acreage dedicated by the amendment of April 14, 1958.

The application recites Austral was authorized in Docket No. G–11253 to sell to American natural gas produced in the North Holly Beach Field pursuant to the basic gas sales contract of July 10, 1956.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 15, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58–6799; Filed, Aug. 21, 1958; 8:56 a. m.]

[Docket No. G–14691]

MANUFACTURERS LIGHT AND HEAT CO.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 18, 1958.

Take notice that The Manufacturers Light and Heat Company (Applicant), a Pennsylvania corporation and a subsidiary of The Columbia Gas System, Inc., having its principal place of business at 800 Union Trust Building, Pittsburgh, Pennsylvania, filed on March 17, 1958, an application and on June 9, 1958, a supplement thereto, pursuant to section 7 of the Natural Gas Act, for an order authorizing it to abandon by sale certain of its gas transmission facilities in the State of Ohio to The Ohio Valley Gas Company (Ohio Valley), 99 North Front Street, Columbus, Ohio, and for a certificate of public convenience and necessity authorizing it to sell and deliver natural gas at wholesale to Ohio Valley for resale, all as more fully represented in the application which is on file with the Commission and open for public inspection.

This proposal is a part of The Columbia Gas System plan for realignment of properties so that each operating subsidiary will be subject to regulation by only one regulatory agency. It is proposed that Applicant's retail distribution facilities in Ohio, including the transmission facilities to be abandoned by Applicant, be transferred to Ohio Valley and operated by Ohio Valley subject only to the jurisdiction of the Public Utilities Commission of Ohio and that its remaining interstate transmission facilities will be retained by Applicant and operated subject only to the jurisdiction of this Commission.

The transmission facilities (which are presently operated by Applicant under authorizations from this Commission) proposed to be transferred are described as follows, in the order of their geographic location from north to south along the Ohio River, beginning at the point where it crosses the Pennsylvania-Ohio line:

1. Approximately 3.16 miles of 8", 6" and 4" gas transmission pipeline (Line No. 981) extending from its interconnection with Line 5 at the river crossing in the center of the City of East Liverpool, Ohio, eastwardly to a point in Liverpool Township, Columbiana County, Ohio, near the Pennsylvania-Ohio border, together with the following short laterals connecting the aforesaid Line 981 with district regulators:

Line 93—8' of 8" and 392' of 10" transmission line.
Line 978—1,513' of 8" transmission line.
Line 982—26' of 2" transmission line.
Line 983—11' of 2" transmission line.
Line 984—16' of 1½" transmission line.
Line 986—996' of 4" transmission line.
Line 987—18' of 2" transmission line.
Line 1553—811' of 2" transmission line.
Line 1388—151' of 4" transmission line.

2. Approximately 3.09 miles of 8" and 2,358' of 10" gas transmission pipeline (Line No. 5) extending from the interconnection of Line 5 and Line 94 in Wellsville, Ohio, eastwardly to the river crossing in the center of East Liverpool, Ohio, together with the following short laterals connecting the aforesaid portion of Line 5 with district regulators:

Line 1373—342' of 4" transmission line.
Line 1003—661' of 6" transmission line.
Line 1004—241' of 4" transmission line.
Line 1401—32' of 6" transmission line.
Line 980—242' of 4" transmission line.

3. Approximately 4.49 miles of 6" and 4" gas transmission line (Line No. 1665) extending from its interconnection with Line 94 in Madison Township, Columbiana County, Ohio, eastwardly to the Town of Calcutta in St. Clair Township, Columbiana County, Ohio, together with the following short laterals connecting the aforesaid Line 1665 with district regulators:

Line 1703—497' of 4" transmission line.
Line 1770— 23' of 4" transmission line.

4. Approximately 2.04 miles of 8" and 6" gas transmission pipeline (Line No. 6012) extending from its interconnection with production lines in Madison Township, Columbiana County, Ohio, eastwardly and southerly to its interconnection with Line 94 and Line 1608 in the same Township, County and State, together with transmission Line No. 6161 (1,352' of 2" pipeline) connecting with Line 6012. These lines were purchased by Applicant from Natural Gas Company of West Virginia pursuant to authorization granted at Docket G–9694, together with the McFarland Production Field. Portions of this area have become residential, so that Line 6012 and Line 6161, together with the field lines are used as a medium pressure distribution system. Such field lines to be transferred to Ohio Valley are described in the footnote.[1] Applicant will retain the gas wells.

5. Approximately 1.56 miles of 4" and 6" gas transmission pipeline (Line No. 1608) extending from its interconnection with Line 94 in Yellow Creek Township, Columbiana County, Ohio, southwardly to the City of Wellsville in the same Township, County and State.

6. Approximately 1.70 miles of 6⅝", 4" and 3" gas transmission pipeline (Line No. 28) extending from its interconnection with the remaining portion of Line 28 in Wayne Township, Jefferson County, Ohio, westwardly to the Village of Hopedale, Green Township, Harrison County, Ohio.

7. Approximately 2.25 miles of 6" gas transmission pipeline (Line No. 29) extending from the southern border of the City of Toronto, Jefferson County, Ohio, in a northerly direction through said City to its interconnection with Line 1031 in the said City; together with the following short laterals connecting the aforesaid portion of Line 29 with district regulators:

Line 1425—213' of 4" transmission line.
Line 1426—220' of 4" transmission line.

8. Approximately 4.52 miles of 6" gas transmission pipeline (Line No. 1573) extending from its interconnection with Line 5 north of Steubenville, Jefferson County, Ohio, westwardly to the Town of Wintersville, in the same County and State; together with the following short laterals connecting the aforesaid Line 1573 with district regulators:

Line 1602—35' of 2" transmission line.
Line 1427—18' of 2" transmission line.
Line 1607—20' of 6" transmission line.

9. Approximately 3.48 miles of 4" gas transmission pipeline (Line No. 1045) extending from its interconnection with Line 1039 in Steubenville Township, Jefferson County, Ohio, westwardly to the Village of New Alexandria in the same County and State; together with the following short laterals connecting the aforesaid Line 1045 with district regulators:

Line 1044—135' of 2" and 29' of 4" transmission line.
Line 1449—255' of 4" transmission line.

[1] Line 6472—1,599' of 6" and 1,704' of 6⅝" production line; Line 6475—1,726' of 6" production line; Line 6572—7,051' of 2" production line; Line 6573—55' of 2" production line; Line 6574—1,150' of 2" production line; Line 6593—5,809' of 2" production line; Line 6605—10,592' of 4" production line; Line 6611—6,189' of 2" production line; Line 6960—3,708' of 2" production line.

10. Approximately 375 feet of 2" gas transmission pipeline (Line No. 1106) connecting Line 20 with district regulators, in Warren Township, Jefferson County, Ohio, supplying part of the Village of Tiltonsville in the same Township, County and State.

11. Approximately 2.14 miles of 6⅝", 6", 4" and 3" gas transmission pipeline (Line No. 1113) extending from its interconnection with Line 20 in the City of Bridgeport, Pease Township, Belmont County, Ohio, westwardly to the Village of Lansing; together with the following short lateral connecting the aforesaid Line 1113 with a district regulator:

Line 1115—1,297' of 2" transmission line.

12. Approximately 2.20 miles of 8" gas transmission pipeline (Line No. 6159) extending from the Rock Hill Station in Pultney Township, Belmont County, Ohio, eastwardly to the end of the line.[2]

13. Approximately 0.72 miles of 4", 6" and 8" gas transmission pipeline (Line No. 1736) connecting Line 20 with district regulators in Pultney Township, Belmont County, Ohio, supplying part of the City of Bellaire in the same Township, County and State.

14. Approximately 250 feet of 3" gas transmission pipeline (Line No. 1129) connecting Line 20 with district regulators, in Mead Township, Belmont County, Ohio, supplying part of the Village of Shadyside in the same Township, County and State.

15. Approximately 0.35 miles of 6", 3" and 2" gas transmission pipeline (Line No. 1144) extending from its interconnection with the remainder of Line 1144 in Salem Township, Monroe County, Ohio, north to the Village of Clarington in the same Township, County and State.

16. Approximately 0.78 miles of 4", 3" and 2" gas transmission pipeline (Line No. 1151) extending north and south from its interconnection with the new 6" Line 1151 in Ohio Township, Monroe County, Ohio, to the following short laterals connecting the old Line 1151 with district regulators supplying the Village of Hannibal in the same Township, County and State:

Line 1775—187' of 2" transmission line.
Line 1152—39' of 2" and 6' of 6" transmission line.
Line 1885—150' of 2" transmission line.

17. Approximately 3.12 miles of 2" gas transmission pipeline (Line No. 1149) extending from its interconnection with Line 1151 in Lee Township, Monroe County, Ohio, southwest to the Village of Sardis in the same Township, County and State, and north to the following short lateral connecting the aforesaid Line 1149 with a district regulator supplying the Village of Duffy:

Line 1142—45' of 2" transmission line.

[2] As was explained in the application at Docket G–9694, it was intended to use Line 6159 as a transmission line supplying gas to The Ohio Fuel Gas Company at Rock Hill Station. A landslip having occurred, however, Line 6157 is now used for that purpose, and the portion of Line 6159 described above will be used only to serve rural customers. Only the portion needed to supply said customers will be transferred and the remainder of the line will be sold for salvage.

Applicant alleges that its "proposed realignment of properties requires that two of its distribution lines in Ohio be retained by it so that, in the first case, gas delivered into the present distribution system in Ohio should not flow across the border into Pennsylvania; and in the second case, because the line is one of the principal feeds into the high pressure distribution belt system around Steubenville". It is proposed that these lines be reclassified as transmission lines so that Applicant will not own any distribution lines in Ohio. These lines are described as follows:

(1) Approximately 1.8 miles of 4" high pressure distribution line extending from its interconnection with Line 93 at the eastern edge of the City of East Liverpool, Columbiana County, Ohio, eastwardly to a meter at the state line.

(2) Approximately 1.76 miles of 8" high pressure distribution line extending from its interconnection with Line 1039 in the City of Mingo Junction, Steubenville Township, Jefferson County, Ohio, northwestwardly to its connection with the high pressure distribution belt system around the City of Steubenville, Ohio, and with district regulators supplying the Mingo Junction, Ohio, distribution plant.

Applicant also requests an order issuing to it a certificate of public convenience and necessity authorizing the sale and delivery of natural gas at wholesale to Ohio Valley for resale.

No new facilities are proposed to be constructed. Existing measuring stations, distribution check measuring stations and production check measuring stations will be used to meter the gas to be sold by Applicant to Ohio Valley.

Applicant estimates the natural gas requirements for its Ohio retail distribution area as follows:

Year	Annual (Mcf)	Peak day (Mcf)
1957	10,746,632	[1] 60,377
1958	13,012,800	78,600
1959	13,366,200	81,000
1960	13,639,500	83,000
1961	13,818,700	84,800

[1] Actual.

Following the receipt of all necessary regulatory authorizations, Applicant will enter into a service agreement pursuant to its effective FPC Gas Tariff providing for the sale and delivery of natural gas to Ohio Valley for resale.

Applicant, Ohio Valley and The Columbia Gas System, Inc., entered into an agreement dated December 1, 1957, providing that in consideration of the transfer by Applicant to Ohio Valley of Applicant's Ohio properties used in connection with Applicant's Ohio distribution operations, Ohio Valley will pay Applicant a cash sum equal to the aggregate book value less liabilities and obligations, as of the closing date. This value is represented to be $4,669,287 as of October 31, 1957, less than 7 percent of which is the value of the transmission plant covered by this application. Ohio Valley will issue and sell to Columbia Gas System, Inc., an installment promissory note and common stock, $90 par value, in such amounts as will equal the purchase price plus $300,000 for initial operations.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 7, 1958, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before September 24, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58–6800; Filed, Aug. 21, 1958; 8:56 a. m.]

[Docket No. G–12793]

PACIFIC NORTHWEST PIPELINE CORP.

NOTICE OF PETITION TO AMEND CERTIFICATE ORDER

AUGUST 18, 1958.

Take notice that on July 23, 1958, Pacific Northwest Pipeline Corporation (Applicant) filed in Docket No. G–12793 a petition requesting the Commission to amend the certificate of public convenience and necessity issued to Applicant on September 10, 1957, by increasing the maximum daily volumes of natural gas which Applicant was authorized to sell to San Francisco Chemical Company (Chemical Company) from a maximum of 300 Mcf per day of interruptible gas to a maximum of 100 Mcf of firm gas and 1,400 Mcf of interruptible gas per day, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

The proposed additional volumes reflect the provisions of a new gas sales contract between Applicant and Chemical Company dated May 16, 1958, intended to supersede the original contract of May 14, 1957.

No additional facilities will be required to make the additional deliveries.

Protests or petitions to intervene in this proceeding may be filed with the

Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 5, 1958.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6767; Filed, Aug. 21, 1958; 8:47 a. m.]

[Docket No. G-1063]

OHIO FUEL GAS CO.

NOTICE OF PETITION TO AMEND ORDER ISSUING CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

AUGUST 18, 1958.

Take notice that on July 17, 1958, The Ohio Fuel Gas Company (Ohio Fuel) filed in Docket No. G-1063 a petition to amend the certificate of public convenience and necessity issued to it on August 13, 1948, and the second order of the Commission issued in this docket on November 13, 1950, so as to authorize Ohio Fuel to make regular deliveries of natural gas to The Cincinnati Gas and Electric Company (Cincinnati) at Ohio Fuel's existing Dicks Creek Measuring Station in Lemon Township, Butler County, Ohio, which station is presently maintained for emergency use only, all as more fully set forth in the aforesaid petition to amend, which is on file with the Commission and open to public inspection.

The original order of the Commission issued August 13, 1948, provided that the record in this proceeding be held open with respect to the facilities at Dicks Creek Measuring Station pending further action as may be necessary on request of the parties. The second order, issued on November 13, 1950, provided as follows: "That part of the application in this proceeding in which applicant makes request to discontinue the use of Dicks Creek Measuring Station be and the same is hereby dismissed without prejudice to such further action as the Commission may deem proper upon the filing of an appropriate application by any of the parties hereto." This second order resulted from an agreement by the parties to use the Dicks Creek Station only for emergencies.

The instant petition states that Ohio Fuel has now been requested by Cincinnati to provide regular service to the latter through the Dicks Creek Station in order to take natural gas for mixing with propane-air gas from a plant which Cincinnati proposes to construct at this point. The total quantity of gas being delivered by Ohio Fuel to Cincinnati under their existing contract is not to be changed by the subject proposal.

Protests or petitions to intervene in this proceeding may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 10, 1958.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58. 6768; Filed, Aug. 21, 1958; 8:47 a. m.]

[Docket No. G-15006]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 18, 1958.

Take notice that on April 30, 1958, as supplemented and amended on July 9, 1958, United Gas Pipe Line Company (Applicant) filed in Docket No. G-15006 an application, pursuant to section 7 (c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain unspecified facilities to enable Applicant to make direct industrial sales of natural gas from its main pipeline system in the general area of its system from time to time during the calendar year 1959, all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

Applicant states that the proposed facilities would have a total cost not to exceed $1,500,000, with a maximum limitation of $400,000 for any single connection, and that the total annual deliveries to direct industrial customers to be attached under the present application will not exceed 25,794,000 Mcf.

The purpose of this "budget-type" application is to enable Applicant to save time and money in constructing the taps, meters and branch lines necessary to connect industrial customers during the calendar year 1959, subject to the limitations set forth above.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 23, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 12, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

GENERAL SERVICES ADMINISTRATION

[Delegation of Authority 317, Revocation]

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY WITH RESPECT TO DISPOSAL OF CERTAIN ADDITIONS AND ALTERATIONS TO FACILITIES OF NEWPORT NEWS SHIPBUILDING & DRY DOCK COMPANY YARD, NEWPORT NEWS, VA.

1. Pursuant to the authority vested in the Administrator of General Services by the provisions of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, the delegation of authority dated January 31, 1951, to the Secretary of Defense to dispose of the real and related personal property comprising the scrambled facilities at the Newport Shipbuilding & Dry Dock Company Shipyard, Newport News, Virginia, constructed under Contracts NOd-1149 (now NObs-2714) and NObs-3377, between the United States of America, represented by the Secretary of the Navy, and the Newport Shipbuilding & Dry Dock Company is hereby revoked.

2. The revocation of this delegation of authority shall be effective as of the date hereof.

Dated: August 14, 1958.

FRANKLIN FLOETE,
Administrator.

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority 30-VII-5 (Revision 1)]

BRANCH MANAGER, INDIANAPOLIS, INDIANA

DELEGATION RELATING TO FINANCIAL ASSISTANCE, PROCUREMENT AND TECHNICAL ASSISTANCE AND ADMINISTRATIVE FUNCTIONS

I. Pursuant to the authority delegated to the Regional Director by Delegation No. 30 (Revision 4), as amended (22 F. R. 5811, 8197 23 F. R. 557, 1768) there is hereby delegated to the Branch Manager, Indianapolis Branch Office, Small Business Administration, the authority:

A. *Specific.*

FINANCIAL ASSISTANCE

To take the following actions in accordance with the limitations of such delegations set forth in SBA-500, Financial Assistance Manual:

1. To approve but not decline the following types of loans:

a. Direct business loans in an amount not exceeding $20,000.00; and

b. Participation loans in an amount not exceeding $100,000.00.

2. To approve or decline Limited Loan Participation Loans.

3. To approve or decline Disaster Loans not exceeding $50,000.00. Declination of a disaster loan is extended only to an original application and not to reconsideration of such application.

PROCUREMENT AND TECHNICAL ASSISTANCE

To take the following actions in accordance with the limitations of such delegations as set forth in SBA-400, Agency Policy Manual, and SBA-600, Procurement and Technical Assistance Manual:

4. To develop with Government procurement agencies required local procedures for implementing established inter-agency policy agreements, including but not limited to steps such as determining joint set-asides and representation at procurement centers.

ADMINISTRATIVE

5. To administer oaths of office.

6. To approve annual and sick leave for employees under his supervision.

B. *Correspondence.* To sign all non-policy making correspondence, including Congressional correspondence, relating to the functions of the Branch Office.

II. The authority delegated in I.A.1, 2, 3, 5 and 6 may not be redelegated. The authority delegated in I.B. (with the exception of congressional correspondence) may be redelegated, limiting such redelegation to routine correspondence only.

III. All authority delegated herein may be exercised by any SBA employee designated as Acting Branch Manager.

IV. All previous authority delegated by the Regional Director to the Branch Manager, Indianapolis, Indiana, is hereby rescinded without prejudice to actions taken under such delegations of authority prior to the date hereof.

Dated: July 23, 1958.

GEORGE E. HALE,
Acting Regional Director
Chicago Regional Office.

[Declaration of Disaster Area 197]

WEST VIRGINIA

DECLARATION OF DISASTER AREA

Whereas, it has been reported that during the month of August, 1958, because of the effects of certain disasters, damage resulted to residences and business property located in certain areas in the State of West Virginia;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act.

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7 (b) of the Small Business Act may be received and considered by the Offices below indicated from persons or firms whose property situated in the following County (including any areas adjacent to said County) suffered damage or other destruction as a result of the catastrophe hereinafter referred to:

County: Kanawha (Flood occurring on or about August 8, 1958).

Offices: Small Business Administration Regional Office, 900 North Lombardy Street, Richmond 20, Va. Small Business Administration Branch Office, Davidson Building, 910 Quarrier Street, Charleston, W. Va.

2. No special field offices will be established at this time.

3. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to February 28, 1959.

Dated: August 11, 1958.

WENDELL B. BARNES,
Administrator.

FEDERAL REGISTER

VOLUME 23 NUMBER 166

Washington, Saturday, August 23, 1958

THE NATIONAL ARCHIVES OF THE UNITED STATES 1934

UNIVERSITY OF MICHIGAN

AUG 25 1958

MAIN READING ROOM

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 235a—PREEXAMINATION OF ALIENS WITHIN THE UNITED STATES

Part 235a is amended to read as follows:

Sec.
235a.1 Application.
235a.2 Disposition.

AUTHORITY: §§ 235a.1 and 235a.2 issued under sec. 103, 66 Stat. 173; 8 U. S. C. 1103.

§ 235a.1 *Application.* Preexamination may be authorized for any alien, except a citizen of Canada, Mexico, or islands adjacent to the United States, who applied for preexamination on Form I–63 prior to August 21, 1958, intending to apply to a consular officer of the United States in Canada for an immigrant visa and who believes that he will be admissible to the United States under all the provisions of the immigration laws if in possession of an immigrant visa, or that he is prima facie eligible for a waiver of excludability under section 5 or 7 of the act of September 11, 1957; that he will be able to obtain the prompt issuance of an immigrant visa, and that he is a person of good moral character. Any alien who filed Form I–63 shall be deemed to have thereby abandoned his nonimmigrant status in the United States. Form I–63 shall have been submitted to the office of the Immigration and Naturalization Service having jurisdiction over the applicant's place of residence, and may have been filed separately or in conjunction with a petition for nonquota or preference quota status under Part 204 or 205 of this chapter. If the applicant was under deportation proceedings, the application had to be made to the special inquiry officer during the hearing pursuant to Part 242 of this chapter. The applicant shall be notified of the decision, and, if the application is denied, of the reasons therefor and of his right to appeal under Part 6 or 7 of this chapter.

§ 235a.2 *Disposition.* When preexamination is authorized, the applicant shall not be preexamined until he has presented written assurance from the consular officer of the United States in Canada that a visa will be promptly available if upon personal examination he is found eligible for a visa, and a report from a medical officer of the United States Public Health Service setting forth findings of the applicant's mental and physical condition. Preexamination to determine the applicant's admissibility to the United States shall be conducted in the manner and under the procedures prescribed in sections 235 and 236 of the act and Parts 235 and 236 of this chapter. If the applicant is found admissible, he shall, not later than June 30, 1959, be given a sealed letter, addressed to the Canadian immigration officer at the port through which he will enter Canada, showing the purpose of his visit to Canada and guaranteeing that if admitted to Canada he will be readmitted to the United States or, if found inadmissible when seeking reentry to the United States he will be paroled into the United States.

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES; APPREHENSION, CUSTODY, HEARING, AND APPEAL

The first sentence of paragraph (e) *Application for discretionary relief* of § 242.16 *Hearing* is amended by deleting the words "preexamination on Form I–63 under Part 235a of this chapter,".

PART 245—ADJUSTMENT OF STATUS OF NONIMMIGRANT TO THAT OF A PERSON ADMITTED FOR PERMANENT RESIDENCE

Section 245.1 is amended to read as follows:

§ 245.1 *Application.* An alien whose deportability has not been established in proceedings under Part 242 of this chapter subsequent to August 21, 1958, may if he believes he meets the eligibility requirement of section 245 of the act, file an application Form I–507 with the district director in whose district he re-

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

sides. A visa shall not be held to be available for a person claiming a preference quota or a nonquota status under section 101 (a) (27) (A) or (F) unless a petition to accord such status has been approved in accordance with section 204 or 205 of the act. A special nonquota visa shall not be held to be available under section 15 of the act of September 11, 1957, unless the alien, having been admitted as a nonimmigrant visitor or student prior to April 18, 1958, has been allocated such a visa by the Director, Office of Refugee and Migration Affairs, Department of State. Except as provided in Part 235a of this chapter, an application under this section shall be the sole method of requesting the exercise of discretion under section 5, 6, or 7 of the act of September 11, 1957, insofar as they relate to excludability by an alien in the United States. Applications for the benefits of section 9 or 13 of the act of September 11, 1957, shall be filed in like manner as an application under section 245 of the Act. An alien who has a nonimmigrant status under paragraph (15) (A), (15) (E), or (15) (G) of section 101 (a) of the Immigration and Nationality Act, or has an occupational status which would, if he were seeking admission to the United States, entitle him to a nonimmigrant status under any of such paragraphs of section 101 (a) of the Immigration and Nationality Act, shall not be eligible to apply for adjustment of status without first executing and submitting with his application the written waiver required by section 247 (b) of the Immigration and Nationality Act and Part 247 of this chapter. In all cases the applicant shall be notified of the decision and if denied of the reasons therefor and his right to appeal within 10 days of the receipt of such notification in accordance with Part 7 of this chapter.

PART 249—CREATION OF RECORD OF LAWFUL ADMISSION FOR PERMANENT RESIDENCE

Part 249 is amended to read as follows:

§ 249.1 *Application.* Any alien who believes that he meets the eligibility requirements enumerated in section 249 of the act shall apply on Form N–105 to the district director having jurisdiction over his place of residence. The applicant shall be notified of the decision and if the application is denied of the reasons therefor and of his right to appeal within 10 days from the receipt of such notification in accordance with Part 7 of this chapter. If the application is granted, a Form I–151, showing that the applicant has acquired the status of an alien lawfully admitted for permanent residence, shall not be issued until the applicant surrenders any other document in his possession evidencing compliance with the alien registration requirements of former or existing law.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the persons affected by the regulations prescribed will not require additional time to prepare for the effective date of the regulations.

Dated: August 21, 1958.

J. M. SWING,
Commisioner of Immigration and Naturalization.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 729—PEANUTS

ALLOTMENT AND MARKETING QUOTA REGULATIONS FOR PEANUTS OF THE 1957 AND SUBSEQUENT CROPS, AMENDMENT 4

Basis and purpose. The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1281 et seq.), for the purpose of revising the Allotment and Marketing Quota Regulations for Peanuts of the 1957 and Subsequent Crops (21 F. R. 9370, 9760; 22 F. R. 6741, 6987, 8475; 23 F. R. 1567) to announce the basic rate of marketing quota penalty applicable to the marketing of excess peanuts of the 1958 crop. As the marketing of 1958 crop peanuts is beginning in some peanut-producing States and as this amendment announces the basic rate of marketing quota penalty applicable to 1958 crop peanuts produced on acreage in excess of farm allotments, this amendment should be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, public procedure and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1001–1011) is impracticable and contrary to the public interest and the amendments specified below shall become effective upon the filing of this document with the Director, Division of the Federal Register.

The Allotment and Marketing Quota Regulations for Peanuts of the 1957 and Subsequent Crops (21 F. R. 9370, 9760; 22 F. R. 6741, 6987, 8475; 23 F. R. 1567) are hereby amended as follows:

Section 729.851 (a) is amended by adding a sentence thereto reading: "The basic support price for peanuts for the marketing year beginning August 1, 1958, and ending July 31, 1959, is $213.20 per ton or 10.66 cents per pound and, therefore, the basic penalty rate for the 1958 crop of peanuts is 8.0 cents per pound."

(Sec. 375, 52 Stat. 38, 66, as amended; 7 U. S. C. 1375. Interpret or apply sec. 373, 52 Stat. 38, 65, as amended; secs. 358, 359, 55 Stat. 88, 90, as amended; 7 U. S. C. 1373, 1358, 1359)

Done at Washington, D. C., this 20th day of August 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 909—ALMONDS GROWN IN CALIFORNIA

ORDER FIXING SALABLE AND SURPLUS PERCENTAGES FOR ALMONDS DURING CROP YEAR BEGINNING JULY 1, 1958

Correction

In Federal Register Document 58–6754, published on page 6444 in the issue for Thursday, August 21, 1958, the next to last paragraph should read as follows:

It is hereby further found that good cause exists for not giving prior notice, engaging in public rulemaking procedure, or postponing the effective date of this action later than the date of its publication in the FEDERAL REGISTER for the reasons that (1) the 1958–59 crop year has already begun, and establishment of these percentages provides a basis for trading between growers and handlers, (2) compliance with the percentages herein established will require no special preparation on the part of handlers, and (3) this action relieves restrictions

on the handling of almonds during the 1958–59 crop year.

[Valencia Orange Reg. 150]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.450 *Valencia Orange Regulation 150*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 21, 1958.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., August 24, 1958, and ending at 12:01 a. m., P. s. t., August 31, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 646,800 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 22, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-6922; Filed, Aug. 22, 1958; 11:31 a. m.]

[Lemon Reg. 753]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

§ 953.860 *Lemon Regulation 753*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based becomes available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 20, 1958.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 24, 1958, and ending at 12:01 a. m., P. s. t., August 31, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 255,750 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 21, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-6890; Filed, Aug. 22, 1958; 9:33 a. m.]

[Lemon Regulation 752, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.859 (Lemon Regulation 752, 23 F. R. 6317) are hereby amended to read as follows:

(ii) District 2: 372,000 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 20, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-6813; Filed, Aug. 22, 1958; 8:46 a. m.]

PART 1003—DOMESTIC DATES PRODUCED OR PACKED IN LOS ANGELES AND RIVERSIDE COUNTIES OF CALIFORNIA

ESTABLISHMENT OF FREE, RESTRICTED, AND WITHHOLDING PERCENTAGES FOR 1958–59 CROP YEAR

Notice was published in the August 9, 1958 issue of the FEDERAL REGISTER (23 F. R. 6143) that consideration was being given to a proposal to establish for the 1958–59 crop year beginning August 1, 1958, free, restricted, and withholding percentages for marketable dates of the Deglet Noor, Zahidi, and Khadrawy varieties. These percentages were proposed after consideration of the unanimous recommendation of the Date Administrative Committee and other available information, in accordance with the applicable provisions of Marketing Agreement No. 127 and Order No. 103 (7 CFR Part 1003), regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). In said notice, interested persons were afforded the opportunity to file written data, views, or arguments with respect to the proposal. No such comment was filed within the prescribed time.

After consideration of all relevant matters pertaining to the proposal, including the recommendation of the committee, it is hereby found that to establish free percentages, restricted percentages, and withholding percentages as hereinafter set forth (which percentages are the same as those in the aforesaid notice) will tend to effectuate the declared policy of the aforesaid act.

Therefore, is is hereby ordered, That the said percentages for the 1958–59 crop year shall be as follows:

§ 1003.206 *Free, restricted, and withholding percentages.* The free percentage, restricted percentage, and withholding percentage of marketable dates for each variety shall be, for the crop year beginning August 1, 1958, and ending July 31, 1959, as follows: (a) Deglet Noor variety dates: Free percentage, 74 percent; restricted percentage, 26 percent; and withholding percentage, 35.1 percent; (b) Zahidi variety dates: Free percentage, 90 percent; restricted percentage, 10 percent; and withholding percentage, 11.1 percent; and (c) Khadrawy variety dates: Free percentage, 100 percent; restricted percentage, 0 percent; and withholding percentage, 0 percent.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that: (1) The 1958–59 crop year began on August 1, 1958, and the aforesaid percentages will apply to all dates subject to volume regulation on and after that date; (2) since the free, restricted, and withholding percentages established for the 1957–58 crop year for the Deglet Noor and Zahidi varieties of dates will continue to apply until the percentages for the 1958–59 crop year became effective, it is necessary that the percentages for the 1958–59 crop year become effective as soon as possible so as to minimize adjustments; and (3) handlers are aware that the percentages set forth herein were proposed for the 1958–59 crop year and they need no additional advance notice for compliance with this regulation. In these circumstances, this regulation should be made effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated August 20, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

[F. R. Doc. 58-6841; Filed, Aug. 22, 1958; 8:52 a. m.]

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. Y]

PART 222—BANK HOLDING COMPANIES

PARTICIPATIONS BETWEEN BANKS

§ 222.105 *Participations between banks under section 6 (a) of the Bank Holding Company Act.* (a) The Board's Statement in the matter of General Contract Corporation, which appears in the Federal Reserve Bulletin for March 1958, at p. 260, expressed the view, among other things, that the nonrecourse purchase of installment paper constitutes a "discount" within the meaning of section 6 (a) (4) of the Bank Holding Company Act of 1956, which forbids a bank "to make any loan, discount or extension of credit to a bank holding company of which it is a subsidiary or to any other subsidiary of such bank holding company." In the course of that Statement the Board also said (p. 269):

> It may be noted, however, that when one bank seeks participation by another bank to aid in meeting the credit needs of a borrower, there would seem to be no conflict with section 6 if the second bank joined at the outset in making its portion of the loan, since this would not involve the second bank in either a direct loan to the first bank or a purchase of paper from it. This would seem to permit at least a partial solution of the problems involved in participations.

(b) The Board has been asked further questions as to when a bank may be considered to have "joined at the outset in making its portion of the loan" within the meaning of the principle quoted above.

(c) This principle must be read in the light of a specific exemption appearing in the last sentence of section 6 (a) of the Bank Holding Company Act which provides that:

> Non-interest-bearing deposits to the credit of a bank shall not be deemed to be a loan or advance to the bank of deposit, nor shall the giving of immediate credit to a bank upon uncollected items received in the ordinary course of business be deemed to be a loan or advance to the depositing bank.

(d) This specific exemption must, in turn, be considered against the background of the following statement by the Committee on Banking and Currency of the House of Representatives appearing in a report on the Bank Holding Company Act (H. R. Rep. No. 609, 84th Cong., 1st sess., 25 (1955)):

> Routine banking transactions between subsidiary banks are not treated as extensions of credit and do not fall within the prohibitions of this section.

(e) It is clear from both the exemption and this statement in the House Committee Report, that the exemption refers only to interbank transactions and does not encompass transactions between bank and nonbank affiliates of the same bank holding company. The unique ability of banks to maintain deposit accounts, coupled with the section 6 (a) exemption relating to such accounts, distinguishes bank subsidiaries from nonbank subsidiaries, and makes it possible, at least in some circumstances, for both an originating bank and a participating bank to "join at the outset" in making a loan, even though, the originating bank may handle all the arrangements with, and disbursements to, the borrower.

(f) Four different factual situations have been considered by the Board from the point of view of whether they constitute a "joining at the outset" in the light of the above quotation from the General Contract Corporation case and the exemption set forth in the last para-

graph of section 6 (a) of the Act. In each of the four factual situations, there was in existence prior to or concurrent with the laying out of funds to the borrower a participation loan agreement between the originating bank and the participating bank; the agreement covered a specific loan or line of credit and a specific borrower, and it did not relate to a mere block of unidentified paper.

(1) The first of the four factual situations was the clearest and simplest case. In this situation, in addition to the existence of the participation loan agreement as mentioned above, the participating bank had on deposit with the bank originating the loan a sum sufficient to cover the participating bank's portion of the loan, and had instructed the originating bank to debit the account of the participating bank to the extent of the latter's participation in the loan. The Board expressed the view that in this situation in which the participating bank has the funds on deposit at the originating bank, the transaction is exempted as a "joining at the outset" even though there may be an interval of time during the day, in accordance with usual banking practices, between the advancing of the funds to the borrower and the actual debiting of the participating bank's account.

(2) The second factual situation was similar to the first one but differed from it in that funds sufficient to cover the participating bank's portion of the loan were not physically on hand at the originating bank at the time of the laying out of funds to the borrower, but, instead, prior to that time were wire transferred by the participating bank to the credit of the originating bank at a Federal Reserve Bank or some other correspondent of the originating bank. This situation was considered by the Board to be exempt as a "joining at the outset" in view of the similarity between funds actually on deposit with the originating bank and funds transferred to its credit at a correspondent.

(3) In the third factual situation, while there was a specific participation loan agreement as in the other situations, the participating bank did not have a deposit with the originating bank and also did not transfer funds to the account of the originating bank at the latter's correspondent. Instead, the originating bank had a deposit with the participating bank. The originating bank also had instructions from the participating bank that when the former made funds available to the borrower, the originating bank would: (i) Concurrently or immediately thereafter make an appropriate entry, in the amount of the participating bank's portion of the loan, to the originating bank's record of its deposit account with the participating bank; (ii) promptly forward to the participating bank, in the manner usually followed in the ordinary course of business, evidence of that bookkeeping entry together with a certificate of participation in the loan; and (iii) advise the participating bank by telephone or telegraph of the two preceding steps. The participating bank, upon receipt of that advice, would credit the account of the originating bank with the amount of the participating bank's participation. In view of the fact that this establishment by the participating bank of a credit to the account of the originating bank would be similar to the transfer of funds to the originating bank's account at a correspondent bank in the second situation, the Board reached the conclusion that this third factual situation similarly qualified for exemption as a "joining at the outset".

(4) The fourth factual situation was the same as the third except that step (iii) mentioned above, namely, advice by telephone or telegraph from the originating bank to the participating bank, was omitted. As much as a day or so could, therefore, elapse before the participating bank would receive the documents referred to in step (ii) and actually make the entry on its own books to show the credit to the account of the originating bank. This fourth situation presented a closer and more doubtful question than the other three. However, considering all the circumstances, including the purposes and legislative history of the last paragraph of section 6 (a), the Board expressed the opinion that this fourth situation should also be considered to be exempt as a "joining at the outset".

(g) In connection with each of the four factual situations described above, questions have also been raised as to whether the originating bank may handle the receipt of repayments by the borrower and may transfer the participating bank's portion of such repayments to the participating bank by crediting a deposit account of the latter at the originating bank. The Board expressed the opinion that these activities are clearly permitted by the exemption in the last paragraph of section 6 (a).

(h) Questions involving participation loans between affiliates of the same bank holding company necessarily depend on the particular circumstances involved, and the views outlined above were based on the Board's understanding of the factual information in the respective situations. If in actual practice there are material variations from the factual situations summarized above, the matter would, of course, need to be considered in the light of those circumstances.

(Sec. 5, 70 Stat. 137; 12 U. S. C. 1844)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] KENNETH A. KENYON,
Assistant Secretary.

[F. R. Doc. 58-6810; Filed, Aug. 22, 1958; 8:45 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

PART 35—FLIGHT ENGINEER CERTIFICATES

REVISION OF PART

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 20th day of August 1958.

Part 35 originally became effective on March 15, 1947, and established requirements for the issuance of flight engineer certificates. Since that time other airman parts have been revised and now differ from present Part 35 in format and terminology. It is, therefore, desirable to revise Part 35 to make it conform more closely to the newer airman parts.

Four Civil Air Regulations draft releases were issued proposing the revision of Part 35. These were Draft Release 48-6 dated October 25, 1948; 49-5 dated October 5, 1949; 56-5 dated February 20, 1956; and 57-23 dated November 4, 1957.

All of the above-mentioned draft releases proposed that an additional requirement of 5 hours of flight training in the duties of a flight engineer be added to certain of the experience requirements. Current provisions of § 35.6 (a) and (b) of Part 35 permit an applicant with certain diversified practical experience or specialized aeronautical training in the maintenance and repair of aircraft and aircraft engines to meet the experience requirements for a flight engineer certificate even though such an applicant has had no flight experience in the duties of a flight engineer. The principal function of the flight engineer is to assist the pilot members of the crew in the mechanical operation of aircraft during flight. In view of this fact, it is the Board's opinion that an applicant having only practical experience or aeronautical training in the maintenance and repair of aircraft or aircraft engines should also have a minimum of 5 hours of training in flight in the duties of a flight engineer on multiengine aircraft having engines rated at least at 800 h. p. each. This revision contains such a requirement for inflight training. However, this flight experience is not a condition which need be met prior to the applicant's taking the written examination prescribed in § 35.32. Accordingly, a note to this effect is included in § 35.32. In addition, the experience requirements have been changed to permit experience gained on turbine-powered aircraft having thrust equivalent to at least 800 h. p. to be credited toward qualifying for a certificate.

Part 35 was amended on May 1, 1948, by amendment 35-1 which eliminated the requirement that an applicant hold an engineering degree plus one year of practical experience, and required in lieu thereof only that an applicant be a graduate of at least a 2-year specialized aeronautical training course of which at least 6 months shall have been in the maintenance and repair of multiengine aircraft having engines rated at least at 800 h. p. In that amendment the Board did not contemplate that persons holding certain engineering degrees would be precluded from qualifying for a flight engineer certificate. Therefore, because there has been some confusion as to whether such persons would be eligible, a new section is included which contains the provision that an applicant holding a degree in aeronautical, electrical, or mechanical engineering from a recognized college, university, or engineering school and having 6 months practical experience in the maintenance and repair of aircraft having engines rated at least at 800 h. p. each, may qualify for a flight engineer certificate. An applicant qualifying under this requirement is also required to have 5 hours of training in flight in the duties of a flight engineer as discussed above.

In the last draft release (57-23), a change was proposed in the experience requirements which would have permitted an applicant with 400 hours of copilot time on aircraft having 4 or more engines rated at least at 800 h. p. each, or the equivalent in the case of turbine-powered aircraft, to meet the experience requirements for a flight engineer certificate. After further study it is considered that the 400 hours of copilot time would not be the equivalent of the experience requirement of the 200 hours of pilot-in-command time presently required in Part 35. Therefore, no change is being made in the present requirements. In arriving at this decision, the Board has taken into consideration the fact that a copilot who does not meet the 200 hours of pilot-in-command time requirement can continue to qualify for a flight engineer certificate by completing an approved course for the training of a flight engineer.

Current provisions with respect to reexamination after failure require that an applicant produce evidence that he has received an additional 5 hours of instruction in each of the subjects failed where he does not elect to wait 30 days for re-examination. In certain situations, such as where an applicant has failed because of lack of proficiency in unfeathering an engine, it might be unnecessary and even detrimental to the equipment to require 5 hours of additional training. Hence, for the practical examination, this section is amended so that the Administrator may set the required number of hours of additional training required in lieu of the mandatory 5-hour additional instruction period now in effect.

During the past several years, industry has developed synthetic trainers which simulate flight characteristics and performance of corresponding aircraft through virtually all ranges of normal and emergency operations. In addition to the obvious economic advantages of the use of such aircraft simulators in lieu of aircraft, it is apparent that the practical examination of the applicant in certain emergency procedures can be more safely and perhaps more completely accomplished in the aircraft simulator rather than in the aircraft. Therefore, in recognition of the advanced state of design of the aircraft simulator for training purposes, demonstration of the emergency skill requirements in § 35.33 is permitted either by demonstration of proficiency in an aircraft simulator or in the corresponding aircraft. The use of the aircraft simulator for this purpose will, however, be limited to demonstraion of competence with respect to emergency duties and procedures where malfunction in the aircraft is simulated. It is the Board's opinion that an applicant's capabilities cannot fully be determined without an actual demonstration of proficiency in flight. Therefore an applicant is still required to demonstrate competence with respect to his normal duties and procedures aboard an aircraft in flight. It was proposed in Draft Release 56-5 that the examination, in flight, with respect to normal duties, might be accomplished in air transportation, provided that the applicant is under the direct supervision of a fully qualified flight engineer assigned to the flight crew. No provision is made for this herein, as the Board considers that in the interest of safety it should not permit original airman certification in aircraft engaged in air transportation in view of the possible hazardous conditions which could be created or magnified because of the inexperience of the applicant.

Interested persons have been afforded an opportunity to participate in the making of this revison (22 F. R. 8958), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby revises Part 35 of the Civil Air Regulations (14 CFR Part 35, as amended) as follows, effective November 15, 1958:

APPLICABILITY AND DEFINITIONS

Sec.
35.1 Applicability of this part.
35.2 Definitions.

CERTIFICATION RULES

35.5 Application for certificate.
35.6 Issuance.
35.7 Duration.
35.8 Change of address.

GENERAL CERTIFICATE REQUIREMENTS

35.21 Citizenship.
35.22 Age.
35.23 Education.
35.24 Examinations and tests.
35.25 Re-examination after failure.
35.26 Substantiation of experience.
35.27 Physical standards.

QUALIFICATIONS FOR A CERTIFICATE

35.31 Experience.
35.32 Knowledge.
35.33 Skill.
35.34 Limited certificate.

OPERATING RULES

35.41 Certificate required.
35.42 Display.
35.43 Medical certificate.
35.44 Operation during physical deficiency.

AUTHORITY: §§ 35.1 to 35.44 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552.

APPLICABILITY AND DEFINITIONS

§ 35.1 *Applicability of this part.* This part establishes certification and general operating rules for flight engineers.

§ 35.2 *Definitions.* As used in this part, terms are defined as follows:

Administrator. The Administrator is the Administrator of Civil Aeronautics.

Approved. Approved, when used alone or as modifying terms such as means, method, action, equipment, etc., means approved by the Administrator.

Authorized representative of the Administrator. An authorized representative of the Administrator is any employee of the Civil Aeronautics Administrator or any private person, authorized by the Administrator to perform particular duties of the Administrator under the provisions of this part.

Flight engineer. A flight engineer is an individual holding a valid flight engineer certificate issued by the Administrator and whose primary assigned duty during flight is to assist the pilots in the mechanical operation of an aircraft.

Flight time. Flight time is the time from the moment the aircraft first moves under its own power for the purpose of flight until it comes to rest at the next point of landing (block-to-block time).

Month. A month is that period of time extending from the first day of any month as delineated by the calendar through the last day thereof.

Pilot in command. The pilot in command is the pilot responsible for the operation and safety of the aircraft during the time defined as flight time.

CERTIFICATION RULES

§ 35.5 *Application for certificate.* An application for a certificate shall be made on a form and in a manner prescribed by the Administrator.

§ 35.6 *Issuance.* (a) A flight engineer certificate shall be issued by the Administrator to an applicant who meets the requirements of this part.

(b) Pending a review of the applicant's application and supplementary documents and the issuance of a certificate by the Administrator, an authorized representative of the Administrator may, subject to such conditions and limitations as the Administrator may prescribe, issue a temporary flight engineer certificate to an applicant who meets the requirements of this part.

§ 35.7 *Duration.* (a) A flight engineer certificate issued to a United States citizen shall remain in effect until surrendered, suspended, revoked, or otherwise terminated by order of the Board. A certificate issued to an applicant other than a United States citizen shall remain in effect for a period no longer than 12 months after the date of issuance; however, it may be reissued without further demonstration of technical competence.

(b) A temporary flight engineer certificate shall remain in effect for a period no longer than 90 days after the date of issuance.

(c) After revocation, and upon request after suspension, the certificate shall be returned to the Administrator.

§ 35.8 *Change of address.* Within 30 days after any change in the permanent mailing address of a certificated flight engineer, he shall notify the Administrator in writing of his new address. This notice shall be mailed to the Administrator of Civil Aeronautics, attention Airman Records Branch, Washington 25, D. C.

GENERAL CERTIFICATE REQUIREMENTS

§ 35.21 *Citizenship.* An applicant for a flight engineer certificate may be a citizen of any country or a person without nationality.

§ 35.22 *Age.* 21 years is the minimum age for the issuance of a flight engineer certificate.

§ 35.23 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate limitation shall be placed upon his flight engineer certificate.

§ 35.24 *Examinations and tests.* Examinations and tests shall be conducted by an authorized representative of the Administrator at such times and places as the Administrator may designate. The passing grade for such examinations and tests shall be at least 70 percent.

§ 35.25 *Re-examination after failure.* An applicant who has failed any prescribed written or practical examination or test may not apply for re-examination within a 30-day period from the date of such failure unless he presents a statement signed by a certificated flight engineer, an appropriately rated and certificated ground instructor, or an authorized representative of the Administrator, which attests that the applicant is considered competent for re-examination, and

(a) In the case of the written examination, that the applicant has received an additional 5 hours of instruction in each of the subjects failed; or

(b) In the case of the practical examination, that the applicant has received such additional instruction as may be required by the Administrator in each of the subjects failed.

§ 35.26 *Substantiation of experience.* An applicant shall present to the Administrator satisfactory documentary evidence to substantiate the experience qualifications for a flight engineer certificate.

§ 35.27 *Physical standards.* An applicant shall present evidence that he has, within the 12 months immediately preceding the date of application, met the physical standards of the second class prescribed in Part 29 of this chapter: *Provided*, That an applicant who is unable to distinguish aviation signal red, aviation signal green, and white shall be issued an airman certificate appropriately endorsed to prohibit the holder thereof from exercising the privileges of such certificate except under such conditions, or with the use of such equipment, which would not require the ability to distinguish such aviation signal colors.

QUALIFICATIONS FOR A CERTIFICATE

§ 35.31 *Experience.* An applicant shall:

(a) Have had at least 3 years of diversified practical experience in the maintenance and repair of aircraft and aircraft engines, of which one year shall have been in the maintenance and repair of multi-engine aircraft having engines rated at least at 800 h. p. each or the equivalent thereof in the case of turbine-powered aircraft, and have had at least 5 hours of training in flight in the duties of a flight engineer on multiengine aircraft having 4 or more engines rated at least at 800 h. p. each or the equivalent thereof in the case of turbine-powered aircraft; or

(b) Be a graduate of at least a 2-year specialized aeronautical training course in the maintenance, repair, and overhaul of aircraft and aircraft engines, of which at least 6 months shall have been in the maintenance and repair of multiengine aircraft having engines rated at least at 800 h. p. each or the equivalent thereof in the case of turbine-powered aircraft, and have had at least 5 hours of training in flight in the duties of a flight engineer on multiengine aircraft having 4 or more engines rated at least at 800 h. p. each or the equivalent thereof in the case of turbine-powered aircraft; or

(c) Hold a degree in aeronautical, electrical, or mechanical, engineering from a recognized college, university, or engineering school and have had 6 months practical experience in the maintenance and repair of multiengine aircraft having engines rated at least at 800 h. p. each or the equivalent thereof in the case of turbine-powered aircraft, and have had at least 5 hours of training in flight in the duties of a flight engineer on multiengine aircraft having 4 or more engines rated at least at 800 h. p. each or the equivalent thereof in the case of turbine-powered aircraft; or

(d) Have had at least 200 hours of flight time as pilot in command of aircraft having 4 or more engines rated at least at 800 h. p. each or the equivalent thereof in the case of turbine-powered aircraft; or

(e) Have had at least 100 hours of flight experience in the duties of a flight engineer; or

(f) Within 90 days immediately preceding the date of application, have completed successfully a course of instruction which the Administrator approves as adequate for the training of a flight engineer.

§ 35.32 *Knowledge.* An applicant shall satisfactorily pass a written examination on the following subjects with respect to aircraft having 4 or more engines and certificated in the transport category or an aircraft having 4 or more engines and incorporating a flight engineer station:

(a) The provisions of the Civil Air Regulations applicable to the duties of a flight engineer;

(b) Theory of flight and elementary aerodynamics;

(c) Aircraft performance and aircraft engine operation with respect to limitations;

(d) Mathematical computations of engine operation and fuel consumption;

(e) Basic meteorology with respect to engine operations;

(f) Aircraft loading and center of gravity computations;

(g) General aircraft maintenance and operating procedures; and

(h) Emergency procedures.

NOTE: The applicant need not have the 5 hours of training in flight in the duties of a flight engineer specified in § 35.31 (a), (b), and (c) prior to taking the written examination required by § 35.32.

§ 35.33 *Skill.* An applicant shall pass a practical examination in the duties of a flight engineer on an aircraft having 4 or more engines and certificated in the transport category or on an aircraft having 4 or more engines and incorporating a flight engineer station, with respect to pre-flight inspection of aircraft, servicing, starting, and pre-take-off run-up, and

(a) In flight, demonstrate competence with respect to normal duties and procedures relating to the aircraft, aircraft engines, propellers, and appliances; and

(b) In flight, or in an approved synthetic trainer which accurately simulates the flight characteristics and performance of the aircraft, demonstrate competence with respect to emergency duties, procedures, and recognition of and the taking of appropriate action with respect to the malfunctioning of aircraft, aircraft engines, propellers, and appliances.

§ 35.34 *Limited certificate.* (a) An applicant may be certificated as a flight engineer for an aircraft having less than 4 engines: *provided:* That

(1) The design of the aircraft incorporates a flight engineer station satisfactory to the Administrator,

(2) The applicant meets the requirements of §§ 35.21 through 35.32, except that experience need not include flight time in aircraft having more than 2 engines, and

(3) The applicant passes a practical examination as required in § 35.33 in aircraft having less than 4 engines.

(b) A certificate issued under the provisions of this section shall contain an appropriate limitation which may be removed at such time as the holder of the certificate passes the practical test prescribed in § 35.33 for an aircraft having 4 or more engines.

OPERATING RULES

§ 35.41 *Certificate required.* No individual shall serve as a flight engineer in air commerce on an aircraft of United States registry without, or in violation of the terms of, a certificate isued in accordance with the provisions of this part. He shall have his certificate in his personal possession when performing his duties.

§ 35.42 *Display.* A flight engineer shall, upon request, present his airman and medical certificates for examination by any authorized representative of the Civil Aeronautics Board or the Administrator, or by any State or local law enforcement officer.

§ 35.43 *Medical certificate.* No individual shall exercise the privileges accorded by a flight engineer certificate unless he has in his personal possession while so serving a medical certificate or other evidence satisfactory to the Administrator showing that he has met the physical requirements appropriate thereto within the preceding 12 months.

§ 35.44 *Operation during physical deficiency.* No individual shall exercise the privileges accorded by a flight engi-

neer certificate during any period of known physical deficiency or increase in physical deficiency which would render him unable to meet the physical requirements prescribed for the issuance of his currently effective medical certificate.

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1958 C. C. C. Grain Price Support Bulletin 1, Supp. 2, Amdt. 2, Wheat]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1958-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

DETERMINATION OF SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 23 F. R. 3485, 5317 and 5764 containing the specific requirements for the 1958-crop wheat price support program are hereby amended to also provide discounts for eligible wheat which grades No. 4, No. 5 or "Sample" because of damaged kernels and "Sample" because of test weight but having a test weight not less than 40 pounds per bushel.

Section 421.3043 *Determination of support rates* • • •, paragraph (d) *Support rates* • • •, subparagraph (3) *Premiums and discounts for class, grade, variety and protein content* is amended as follows:

1. Subdivision (i) (*a*) is amended by changing the footnote 1 to read as follows:

[1] Not applicable to any of the undesirable varieties listed in the variety discount schedule or to Hard Amber Durum or Amber Durum grading No. 4, 5 or "Sample" because of damaged kernels.

2. Subdivision (iv) is amended by changing the footnote 1 to read as follows:

[1] Not applicable to any of the undesirable varieties listed in the variety discount schedule or to wheat grading No. 4, 5 or "Sample" because of damaged kernels.

3. Section 421.3043 (d) (3) is further amended by the addition of a new subdivision (v) as follows:

(v) Special discounts for wheat grading "Sample" on factor of test weight only: [1]

Test weight (pounds)	Discount for Hard Red Spring Wheat	Discount for wheat of all other classes
	Cents per bushel	*Cents per bushel*
50	0	4
49	4	8
48	8	12
47	12	16
46	16	20
45	20	24
44	26	30
43	32	36
42	38	42
41	44	48
40	50	54

4. Section 421.3043 (d) (3) is further amended by the addition of a new subdivision (vi) as follows:

(vi) Special discounts for wheat grading No. 4, 5 or "Sample" on factor of total damaged kernels (other than heat damaged).

Total damaged kernels: [2]	*Cents per bushel*
7.1–8 percent	−1
8.1–9 percent	−2
9.1–10 percent	−3
10.1–11 percent	−4
11.1–12 percent	−5
12.1–13 percent	−6
13.1–14 percent	−7
14.1–15 percent	−8
15.1–16 percent	−10
16.1–17 percent	−12
17.1–18 percent	−14
18.1–19 percent	−16
19.1–20 percent	−18
20.1–21 percent	−20
21.1–22 percent	−22
22.1–23 percent	−24
23.1–24 percent	−26
24.1–25 percent	−28
25.1–26 percent	−30
26.1–27 percent	−32
27.1–28 percent	−34
28.1–29 percent	−36
29.1–30 percent	−38

[2] The discount for total damaged kernels (not in excess of 30 percent damage) shall be in addition to any applicable classification, grade and variety discounts and in addition to the special discounts for test weight provided in subdivision (v) of this subparagraph. If the wheat grades No. 4, 5 or "Sample" because of the factor total damaged kernels (not in excess of 30 percent damage), contains not more than 14 percent moisture, is not musty, sour, heating or hot, but otherwise grades No. 3 or better, the discount for total damaged kernels shall be in addition to the applicable discount for grade No. 3.

Wheat of any class which grades "Sample" because it contains in excess of 30 percent damaged kernels (other than heat damaged), which contains not more than 14 percent moisture, which is not musty, sour, heating or hot, and which meets all other eligibility requirements shall be discounted 60 cents per bushel from the applicable basic terminal or county support rate. The discounts set forth in subdivisions (iii) and (v) of this subparagraph shall be applicable to wheat of this quality. The discounts set forth in subdivisions (i) (*b*) and (ii) (*b*) of this subparagraph, shall not be applicable to wheat of this quality.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, as amended, 1053, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1447, 1421)

Issued this 19th day of August 1958.

[SEAL] WALTER C. BERGER,
Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 58-6817; Filed, Aug. 22, 1958; 8:47 a. m.]

[1958 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 4, Wheat]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1958-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

ELIGIBLE WHEAT

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 23 F. R. 3485, 5317, and 5764, containing specific requirements for the 1958-crop wheat price support program are hereby amended as follows:

1. Section 421.3038 (c) (1) is amended to also make wheat grading No. 4, 5 or "Sample" because of damaged kernels (other than heat damage) and wheat grading "Sample" because of test weight but having a test weight of not less than 40 pounds per bushel eligible for price support so that the amended subparagraph reads as follows:

§ 421.3083 *Eligible wheat.* • • •

(c) • • •

(1) The wheat must be (i) wheat of any class grading No. 3 or better; (ii) wheat of any class grading No. 4 or 5 because of containing "Durum" and/or "Red Durum," but otherwise grading No. 3 or better; (iii) wheat of any class which grades No. 4, 5 or "Sample" on the factor of test weight, provided the test weight is not less than 40 pounds per bushel and which otherwise meets the requirements of subdivision (i), (ii) or (iv) of this subparagraph; (iv) wheat of any class which grades No. 4, 5 or "Sample" on the factor of damaged kernels (other than heat damage), provided such wheat with damaged kernels contains not more than 14 percent moisture, is not musty, sour, heating or hot, and which except for such damaged kernel factor would meet the requirements stated in subdivision (i), (ii) or (iii) of this subparagraph; or (v) wheat of the class Mixed Wheat, consisting of mixtures of grades of eligible wheat as stated in subdivision (i), (ii) (iii) or (iv) of this subparagraph, provided such mixtures are the natural products of the field.

2. Section 421.3040 (c) is amended by extending the schedule therein to apply to wheat testing as low as 40 pounds per bushel so that the amended paragraph reads as follows:

§ 421.3040 *Determination of quantity.* • • •

(c) When the quantity of wheat is determined by measurement, a bushel shall be 1.25 cubic feet of wheat testing 60

[1] These discounts are in addition to the discount of 9 cents per bushel for wheat grading No. 5 on the basis of test weight only and in addition to any other applicable discounts.

pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 60-pound wheat:

For wheat testing:	Percent
65 pounds or over	108
64 pounds or over, but less than 65 pounds	107
63 pounds or over, but less than 64 pounds	105
62 pounds or over, but less than 63 pounds	103
61 pounds or over, but less than 62 pounds	102
60 pounds or over, but less than 61 pounds	100
59 pounds or over, but less than 60 pounds	98
58 pounds or over, but less than 59 pounds	97
57 pounds or over, but less than 58 pounds	95
56 pounds or over, but less than 57 pounds	93
55 pounds or over, but less than 56 pounds	92
54 pounds or over, but less than 55 pounds	90
53 pounds or over, but less than 54 pounds	88
52 pounds or over, but less than 53 pounds	87
51 pounds or over, but less than 52 pounds	85
50 pounds or over, but less than 51 pounds	83
49 pounds or over, but less than 50 pounds	82
48 pounds or over, but less than 49 pounds	80
47 pounds or over, but less than 48 pounds	78
46 pounds or over, but less than 47 pounds	77
45 pounds or over, but less than 46 pounds	75
44 pounds or over, but less than 45 pounds	73
43 pounds or over, but less than 44 pounds	72
42 pounds or over, but less than 43 pounds	70
41 pounds or over, but less than 42 pounds	68
40 pounds or over, but less than 41 pounds	67

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421)

Issued this 19th day of August 1958.

[SEAL] WALTER C. BERGER,
Executive Vice President,
Commodity Credit Corporation.

[1958 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 1, Rice]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1958-CROP RICE LOAN AND PURCHASE AGREEMENT PROGRAM

SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service (23 F. R. 3987) with respect to rice produced in 1958 which contain specific requirements for the 1958-Crop Rice Price Support Program are hereby amended as follows:

Section 421.3344 (a) is amended to include the final value factors for head and broken rice so that the amended paragraph reads as follows:

§ 421.3344 *Support rates.* • • •

(a) *Basic rates.* The basic support rate per 100 pounds of rough rice shall be computed as follows: Multiply the yield (in pounds per hundredweight) of head rice by the applicable value factor for head rice (as shown in the table below according to class or variety). Similarly, multiply the difference between the total yield and head rice yield (in pounds per hundredweight) by the applicable value factor for broken rice. Add the results of these two computations to obtain the basic loan or purchase rate per 100 pounds of rough rice and express such rate in dollars and cents, rounded to the nearest whole cent.

VALUE FACTORS FOR HEAD AND BROKEN RICE

Group	Rough rice class or variety	Head rice	Broken rice
I	Patna (except the variety Century Patna), and Rexoro (except the variety Rexark)	$0.0902	$0.04
II	Blue Bonnet, Nira and Rexark	.0852	.04
III	Century Patna, Toro, Fortuna, R. N. and Edith	.0752	.04
IV	Blue Rose (including the varieties Improved Blue Rose, Greater Blue Rose, Kamrose and Arkrose), Magnolia, Zenith, Prelude, Lady Wright and Nato	.0727	.04
V	Pearl, Calrose, Early Prolific, Calady, and other varieties	.0637	.04

(Sec. 4, 62 Stat. 1070 as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c; 7 U. S. C. 1421, 1441)

Issued at Washington, D. C., this 19th day of August 1958.

[SEAL] WALTER C. BERGER,
Executive Vice President,
Commodity Credit Corporation.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter A—General

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

LABELING OF OLEOMARGARINE OR MARGARINE

Subsequent to publication in 1950 of the regulation in Part 3—Statements of Policy and Interpretation, captioned § 3.17 *Labeling of oleomargarine* (21 CFR 3.17), the definition and standard of identity for oleomargarine (21 CFR 45.1) was amended in 1952 to include the name "margarine" as a synonym for the name "oleomargarine" and to list additional optional ingredients. Now, therefore, pursuant to the provisions of the Federal Register Act (44 U. S. C. 311) and the regulations thereunder (1 CFR 1.34), the statement of policy and interpretation contained in § 3.17 *Labeling of oleomargarine* is revoked and is republished as set forth below. This action is taken under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 701, 52 Stat. 1055; 21 U. S. C. 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F. R. 1045).

§ 3.17 *Labeling of oleomargarine or margarine.* The Federal Food, Drug, and Cosmetic Act was amended by Public Law 459, 81st Congress (64 Stat. 20) on colored oleomargarine or margarine by adding thereto a new section numbered 407. Among other things, this section requires that there appear on the label of the package the word "oleomargarine" or "margarine" in type or lettering at least as large as any other type or lettering on the label, and a full and accurate statement of all the ingredients contained in such oleomargarine or margarine. It provides that these requirements "shall be in addition to and not in lieu of any of the other requirements of this Act."

(a) Under section 403 (g) of the Federal Food, Drug, and Cosmetic Act, any article that is represented as or purports to be oleomargarine or margarine must conform to the definition and standard of identity for oleomargarine or margarine promulgated under section 401 of the act (21 CFR 45.1), and its label must bear the name 'oleomargarine" or "margarine."

(b) The identity standard for oleomargarine or margarine applies to both the uncolored and the colored article. Although this standard does not require that all permitted optional ingredients be declared on the label, the amendment to the Federal Food, Drug, and Cosmetic Act made by Public Law 459, 81st Congress, requires the labels on packages of colored oleomargarine or margarine to bear "a full and accurate statement of all the ingredients contained in such oleomargarine or margarine." The optional ingredients permitted by the identity standard for oleomargarine or margarine and the names by which we believe such ingredients, when present, should be declared in order to constitute "a full and accurate statement" are set forth below:

(1) The rendered fat or oil, or stearin derived therefrom (any or all of which may be hydrogenated), of cattle, sheep, swine, or goats, or any combination of two or more such articles—to be declared by the name of the specific animal fat, oil, or stearin, for example, "beef fat." If the animal fat or oil is hydrogenated the name should include the word "hydrogenated" or "hardened." Where combinations are used, the names are to be arranged in order of predominance, with the animal fat, oil, or stearin present in greatest proportion named first.

(2) Any vegetable food fat or oil, or oil or stearin derived therefrom (any or all of which may be hydrogenated), or any combination of two or more such articles—to be declared by the name of the specific vegetable food fat, oil, or stearin, for example "cottonseed oil" or "soybean oil." If the vegetable fats or oils present are hydrogenated, the declaration should include the word "hydrogenated" or "hardened," for example, "hydrogenated cottonseed oil" or "hardened cotonseed oil." If two or more vegetable food fats or oils are used they are to be named in order of predominance with the one present in greatest proportion named first in the series, as, for example, "cottonseed oil, soybean oil, and corn oil."

(3) The optional ingredients cream, milk, skim milk, nonfat dry milk and water, ground soybeans and water, butter, and salt should be declared by those terms.

(4) Artificial color and artificial flavor should be declared as such by the terms prescribed in the identity standard for oleomargarine or margarine (Part 45 of this chapter). They need not be declared additionally by the names of the specific colors or flavors.

(5) The presence of sodium benzoate or benzoic acid should be declared as prescribed by the identity standard for oleomargarine or margarine.

(6) The optional ingredient vitamin A added in an essential carrier should be declared as "vitamin A added" or "with added vitamin A."

(7) The optional ingredient vitamin D should be declared as "vitamin D added" or "with added vitamin D."

(8) The optional emulsifying ingredients lecithin, mono- or diglycerides and sodium sulfo-acetate derivatives of mono- or diglycerides should be declared by those terms.

(9) The presence of citric acid, isopropyl citrate, and stearyl citrate should be declared as prescribed by the identity standard for oleomargarine or margarine.

(10) The statement of all the ingredients contained in colored oleomargarine or colored margarine is subject to the requirements pertaining to conspicuousness in section 403 (f) of the act.

(c) In considering the requirement that the word "oleomargarine" or "margarine" be in type or lettering at least as large as any other type or lettering on the label, it must be borne in mind that at least three factors are involved—the height of each letter, the area occupied by each letter as measured by a closely fitting rectangle drawn around it, and the boldness of letters or breadth of the lines forming the letters. The type or lettering used should meet the following tests:

(1) The height of each letter in the word "oleomargarine" or "margarine" should equal or exceed the height of any other letter elsewhere on the label.

(2) The area of the closely fitting rectangle with respect to any of the letters in the word "oleomargarine" or "margarine" should equal or exceed the area of such rectangle applied to the same or a corresponding letter elsewhere on the label.

(3) The letters in the word "oleomargarine" or "margarine" should be equal to or exceed in prominence and boldness, such as breadth of lines forming the letters, the same or corresponding letters elsewhere on the label.

(d) All oleomargarine or margarine containing the optional ingredients vitamin A, vitamin D, or both is subject to the regulations labeling requirements pertaining to foods for special dietary use, as promulgated under the provisions of section 403 (j) of the act (21 CFR Part 125, as amended).

(e) The word "oleomargarine" or "margarine" (and thus the other information called for by the statute) should appear on each panel of the package label that might reasonably be selected by the grocer for display purposes at the point of sale.

(f) The amendment covering colored oleomargarine or colored margarine states that, "for the purposes of • • • section 407 of the Federal Food, Drug, and Cosmetic Act, as amended, the term 'oleomargarine' or 'margarine' includes: (1) All substances, mixtures, and compounds known as oleomargarine or margarine; (2) all substances, mixtures, and compounds which have a consistence similar to that of butter and which contain any edible oils or fats other than milk fat if made in imitation or semblance of butter." Notwithstanding the difference between this definition and the definition and standard of identity for oleomargarine or margarine promulgated under section 401 of the act, it was the clear intent of Congress that any article which is represented as or purports to be oleomargarine or margarine is misbranded if it fails to comply with the definition and standard of identity for oleomargarine or margarine even though it may meet the statutory definition.

(g) Section 407 (a) states that "Colored oleomargarine or colored margarine which is sold in the same State or Territory in which it is produced shall be subject in the same manner and to the same extent to the provisions of this act as if it had been introduced in interstate commerce."

(h) Section 407 (b) (4) requires that each part of the contents of the package be "contained in a wrapper which bears the word 'oleomargarine' or 'margarine' in type or lettering not smaller than 20-point type." The Food and Drug Administration interprets this to mean that the height of the actual letters is no less than 20 points, or 20/72 of 1 inch.

(i) The wrappers on the subdivisions of oleomargarine or margarine contained within the packages sold at retail are labels within the meaning of section 201 (k) and should contain all of the label information required by sections 403 and 407 of the Federal Food, Drug, and Cosmetic Act, just as in the case of 1-pound cartons.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 407, 64 Stat. 20; 21 U. S. C. 347)

Dated: August 18, 1958.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

Subchapter B—Food and Food Products

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF TOTAL COMBINED BROMINE IN OR ON CHERRIES AND PLUMS AFTER FUMIGATION WITH ETHYLENE DIBROMIDE

No objections having been filed to the proposal published in the FEDERAL REGISTER of May 20, 1958 (23 F. R. 3408) in re the establishment of tolerances of 25 parts per million for residues of total combined bromine in or on cherries and plums after fumigation with ethylene dibromide, and on request having been received for referral of the proposal to an advisory committee: *It is ordered,* That the regulations for tolerances for residues of pesticide chemicals in or on raw agricultural commodities (21 CFR, 1957 Supp., 120.146 (23 F. R. 2966)) be amended by changing § 120.146 to read as follows:

§ 120.146 *Tolerances for residues of inorganic bromides or total combined bromine resulting from fumigation with ethylene dibromide*—(a) *Tolerances for inorganic bromide residues.* (1) Tolerances of 50 parts per million are established for residues of inorganic bromides (calculated as Br) in or on the following grains that have been fumigated with ethylene dibromide: Barley, corn, oats, popcorn, rice, rye, sorghum (milo), wheat.

(2) Tolerances of 10 parts per million are established for residues of inorganic bromides (calculated as Br) in or on the following raw agricultural commodities that have been fumigated with ethylene dibromide in accordance with the Mediterranean Fruit Fly Control Program or the Quarantine Program of the U. S. Department of Agriculture: Beans (string), bitter melons (Momordica charantia), cantaloups, Cavendish bananas; citrus fruits, cucumbers, guavas, litchi fruit, litchi nuts, mangoes, papayas, peppers (bell), pineapples, zucchini squash.

(b) *Tolerances for total combined bromine residues.* Tolerances of 25 parts per million are established for residues of total combined bromine (which include bromine from both inorganic and organic compounds, resulting from fumigation with ethylene dibromide in accordance with the Mediterranean Fruit Fly Control Program, the Quarantine Program of the U. S. Department of Agriculture, or to meet State quarantine requirements) in or on cherries, plums (fresh prunes).

This action is taken pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (b), (e), 68 Stat. 511, 514; 21 U. S. C. 346a (b), (e)), and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.29).

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health,

Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 511; 21 U. S. C. 346a)

Dated: August 18, 1958.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 58-6832; Filed, Aug. 22, 1958; 8:50 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6304]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

MEASUREMENT OF SUPPORT IN DEPENDENCY CASES

On May 20, 1958, a notice of proposed rule making regarding an amendment to those provisions of the Income Tax Regulations under section 152 of the Internal Revenue Code of 1954 relating to the measurement of support in dependency cases was published in the FEDERAL REGISTER (23 F. R. 3403). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, such rules are hereby adopted as set forth below.

(68A Stat. 917; 26 U. S. C. 7805)

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: August 19, 1958.

FRED C. SCRIBNER, Jr.,
Acting Secretary of the Treasury.

The Income Tax Regulations (26 CFR (1954) Part 1) are amended by deleting the last two sentences of paragraph (a) (2) (i) of § 1.152-1 (adopted by Treasury Decision 6231, 22 F. R. 2940, April 26, 1957) and by inserting in lieu thereof, the following: "Generally, the amount of an item of support will be the amount of expense incurred by the one furnishing such item. If the item of support furnished an individual is in the form of property or lodging, it will be necessary to measure the amount of such item of support in terms of its fair market value."

[F. R. Doc. 58-6837; Filed, Aug. 22, 1958; 8:51 a. m.]

TITLE 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 4—CHILD LABOR REGULATIONS, ORDERS, AND STATEMENTS OF INTERPRETATION

OCCUPATIONS PARTICULARLY HAZARDOUS FOR THE EMPLOYMENT OF MINORS BETWEEN 16 AND 18 YEARS OF AGE OR DETRIMENTAL TO THEIR HEALTH OR WELL-BEING

EXEMPTIONS

Finding and order. On May 8, 1958, notice was published in the FEDERAL REGISTER (23 F. R. 3069) that the Secretary of Labor proposed to amend Hazardous Occupations Orders Nos. 5, 8, and 12 (29 CFR 4.55, 4.59, and 4.63, respectively), for the purpose of providing uniform exemptions for student-learners enrolled in cooperative vocational training programs conducted by recognized state or local authority or in substantially similar programs conducted by private schools in the three orders. The proposals included the modification of the exemption in Order No. 12 to make it applicable to the employment of student-learners in cooperative vocational programs in all of the occupations covered by that order, and the provision of new exemptions in Orders Nos. 5 and 8 similar to the one thus provided for such student-learners in Order No. 12.

In addition, uniform exemptions for apprentices under these three orders were proposed. This uniformity was accomplished by modifying the language of the apprentice exemption included in Order No. 5 to make it conformable with that set forth in the exemptions for apprentices contained in Orders Nos. 8 and 12.

The notice provided for a public hearing on the matters set forth therein to be held in Washington, D. C., on June 17, 1958. Interested persons were invited to participate in the hearing and to submit data, views, or arguments with respect to the proposed amendments. Interested persons unable to attend were afforded an opportunity to submit such data, views, or arguments in writing.

All relevant matter so presented and submitted has been carefully considered, and upon the basis of this evidence and information, it is hereby found appropriate to amend Hazardous Occupations Orders Nos. 5, 8, and 12, as proposed.

Now, therefore, pursuant to authority contained in section 3 (l) of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 203 (l)) and Reorganization Plan No. 2 (3 CFR, 1943–1948 Comp., p. 1064), and in accordance with the Procedure Governing Determinations of Hazardous Occupations (29 CFR Part 4, Subpart D), I hereby order the adoption of the said proposals and amend Hazardous Occupations Orders Nos. 5, 8, and 12 (29 CFR Part 4, Subpart E, §§ 4.55 (c), 4.59 (c) (2), and 4.63 (c) (2), respectively), to read as follows:

§ 4.55 *Occupations involved in the operation of power-driven woodworking machines (Order 5).* • • •

(c) *Exemptions.* (1) This section shall not apply to the employment of apprentices in the occupations herein declared particularly hazardous: *Provided*, That (i) the apprentice is employed in a craft recognized as an apprenticeable trade, (ii) the work of the apprentice in the occupations herein declared hazardous is incidental to the apprentice training, is intermittent and for short periods of time, and is under the direct and close supervision of a journeyman as a necessary part of such apprentice training, and (iii) the apprentice is registered by the Bureau of Apprenticeship and Training of the United States Department of Labor as employed in accordance with the standards established by that Bureau, or is registered by a State agency as employed in accordance with the standards of the State apprenticeship agency recognized by the Bureau of Apprenticeship and Training, or is employed under a written apprenticeship agreement under conditions which substantially conform to such Federal or State standards as determined by the Secretary of Labor.

(2) This section shall not apply to the employment of a student-learner in occupations herein declared particularly hazardous: *Provided, however*, That such a student-learner is enrolled in a course of study and training in a cooperative vocational training program under a recognized State or local educational authority or in a course of study in a substantially similar program conducted by a private school: *Provided, further*, That such student-learner be employed under a written agreement which shall provide: (i) That the work of the student-learner in the occupations herein declared hazardous shall be incidental to his training, shall be intermittent and for short periods of time, and shall be under the direct and close supervision of a qualified and experienced person; (ii) that safety instruction shall be given by the school and correlated by the employer with on-the-job training; and (iii) that a schedule of organized and progressive work processes to be performed on the job shall have been prepared. Such a written agreement shall carry the name of the student-learner, and shall be signed by the employer and the school coordinator or principal. Copies of the agreement shall be kept on file by both the school and the employer. This exemption for the employment of student-learners may be revoked in any individual situation wherein it is found that reasonable precautions have not been observed for the safety of minors employed thereunder.

§ 4.59 *Occupations involving the operation of power-driven metal forming, punching, and shearing machines (Order 8).* • • •

(c) *Exemptions.* • • •

(2) This section shall not apply to the employment of a student-learner in occupations herein declared particularly hazardous: *Provided, however*, That such a student-learner is enrolled in a course of study and training in a cooperative vocational training program under a recognized State or local educational authority or in a course of study in a substantially similar program conducted by a private school: *Provided, further*, That such student-learner be employed under a written agreement which shall provide: (i) That the work of the student-learner in the occupations herein declared hazardous shall be incidental to his training, shall be intermittent and for short periods of time, and shall be under the direct and close supervision of a qualified and experienced person; (ii) that safety instruction shall be given by the school and correlated by the employer with on-the-job training; and (iii) that a schedule of organized and progressive work processes to be performed on the job shall have been prepared. Such a written agreement shall carry the name of the student-learner, and shall be signed by the employer and the school coordinator or principal. Copies of the agreement shall be kept on file by both the school and the employer. This exemption for the employment of student-learners may be revoked in any individual situation wherein it is found that reasonable precautions have not been observed for the safety of minors employed thereunder.

§ 4.63 *Occupations involving the operation of paper-products machines (Order 12).* • • •

(c) *Exemptions.* • • •

(2) This section shall not apply to the employment of a student-learner in occupations herein declared particularly hazardous: *Provided, however*, That such a student-learner is enrolled in a course of study and training in a cooperative vocational training program under a recognized State or local educational authority or in a course of study in a substantially similar program conducted by a private school: *Provided, further*, That such student-learner be employed under a written agreement which shall provide: (i) That the work of the student-learner in the occupations herein declared hazardous shall be incidental to his training, shall be intermittent and for short periods of time, and shall be under the direct and close supervision of a qualified and experienced person; (ii) that safety instruction shall be given by the school and correlated by the employer with on-the-job training; and (iii) that a schedule of organized and progressive work processes to be performed on the job shall have been prepared. Such a written agreement shall carry the name of the student-learner, and shall be signed by the employer and the school coordinator or principal. Copies of the agreement shall be kept on file by both the school and the employer. This exemption for the employment of student-learners may be revoked in any individual situation wherein it is found that reasonable precautions have not been observed for the safety of minors employed thereunder.

These amendments shall become effective September 23, 1958.

(Sec. 3, 52 Stat. 1060, as amended; 29 U. S. C. 203)

Signed at Washington, D. C., this 18th day of August 1958.

JAMES P. MITCHELL,
Secretary of Labor.

[F. R. Doc. 58-6836; Filed, Aug. 22, 1958; 8:50 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 204—DANGER ZONE REGULATIONS

PART 207—NAVIGATION REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 204.113 establishing and governing the use and navigation of a restricted area in the Gulf of Mexico and Apalachicola Bay south of Apalachicola, Florida, is hereby amended, redesignating the eastern boundary of the area, amending paragraph (a) as follows:

§ 204.113 *Gulf of Mexico and Apalachicola Bay south of Apalachicola, Florida, Drone Recovery Area, Tyndall Air Force Base, Florida*—(a) *The restricted area.* A rectangular area excluding St. George Island with the eastern boundary of the area west of the channel through St. George Island within the following co-ordinates: Beginning at a point designated as the northeast corner latitude 29°38'20" N, longitude 84°58'30" W; thence southeast to latitude 29°35'23" N, longitude 84°56'54" W; thence southwest to latitude 29°34'15" N, longitude 85°00'35" W; thence northwest to latitude 29°37'-10" N, longitude 85°02'00" W; thence northeast to point of beginning.

[Regs., Aug. 7, 1958, 800.211—ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

2. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 204.140 establishing and governing the use and navigation of a danger zone used as a naval firing range in the Gulf of Mexico south of Pensacola, Florida, is hereby amended with respect to paragraph (b) (1) revising the periods of firing, as follows:

§ 204.140 *Gulf of Mexico, south of Pensacola Bay; firing range, U. S. Naval Station, Pensacola, Fla.* • • •

(b) *The regulations.* (1) Scheduled firing will take place on Tuesday of each week between the hours of 8:00 a. m. and 3:30 p. m. Unscheduled firing may take place other week days between these hours except Saturdays, Sundays and holidays, on which days the Rifle Range will be closed to all firing.

[Regs., Aug. 7, 1958, 800.211—ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

3. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; U. S. C. 1), § 204.210 establishing and governing the use and navigation of a danger zone in the Pacific Ocean adjacent to San Francisco, California is hereby revoked, as follows:

§ 204.210 *Pacific Ocean adjacent to San Francisco, Calif.; firing ranges, U. S. Military Reservations, Harbor Defense of San Francisco.* [Revoked]

[Regs., Aug. 7, 1958, 800.211—ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

4. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), paragraph (h) of § 207.640 establishing and governing the use and navigation of a restricted area in San Francisco Bay, California is hereby revoked, as follows:

§ 207.640 *San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, Calif.* • • •

(h) [Revoked]

[Regs., Aug. 7, 1958, 800.211—ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

[SEAL] HERBERT M. JONES,
Major General, U. S. Army,
The Adjutant General.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

EDITORIAL NOTE: Section 21.2, issued pursuant to 35 Stat. 658; 2 C. Z. Code 303, is hereby deleted from the Code of Federal Regulations. The amendment of section 303 of Title 2 of the Canal Zone Code at 63 Stat. 594 has rendered § 21.2 obsolete.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 15—MATTER MAILABLE UNDER SPECIAL RULES

PART 26—AIRMAIL

SHIPMENTS UNDER FEDERAL REGULATIONS; WEIGHT AND SIZE LIMITS

1. In § 15.4 *Shipments under Federal regulations* amend paragraph (b) to read as follows:

(b) *Meats and meat products.* Meats and meat products may be sent through the mail only if they conform with regulations of the U. S. Department of Agriculture under Federal statutes. Each shipment must be accompanied with a certificate submitted by the mailer on Form 3583. This form is designed for use by all shippers of meat or meat-food products subject to the inspection regulations of the U. S. Department of Agriculture. Three types of certificates are included in the form. The shipper must complete both sides of the form and submit it to the postmaster with each shipment. The original copies of all certificates must be kept in the post office for 1 year. Certificates one and two must be completed in duplicate and the duplicates sent to the address of the U. S. Department of Agriculture printed on the form.

NOTE: The corresponding Postal Manual section is 125.36.

(R. S. 161, 396, as amended; sec. 1, 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 18 U. S. C. 1716)

2. Section 26.3 *Weight and size limits* is amended to read as follows:

§ 26.3 *Weight and size limits*—(a) *Weight.* Airmail may weigh up to 70 pounds. See Part 17 of this chapter for the exception to this limit for articles addressed to certain APO's and NPO's.

(b) *Size.* Airmail is limited to 100 inches in combined length and girth. See Part 17 of this chapter for the exception to this limit for articles addressed to certain APO's and NPO's and § 25.3 (b) of this chapter for instructions on how to measure parcels.

NOTE: The corresponding Postal Manual section is 136.3.

(R. S. 161, 396, as amended; sec. 1, 62 Stat. 1097; 5 U. S. C. 22, 369, 39 U. S. C. 475)

[SEAL] HERBERT B. WARBURTON, *General Counsel.*

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1721]

[1917038]

[Sacramento 047486]

CALIFORNIA

WITHDRAWING LAND FOR USE OF DEPARTMENT OF ARMY IN CONNECTION WITH SIERRA ORDNANCE DEPOT

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in California are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral-leasing laws and the act of July 31, 1947 (61 Stat. 681; 30 U. S. C. 601-604) as amended, and reserved for use of the Department of the Army in connection with the Sierra Ordnance Depot, and as an addition to those withdrawn by Public Land Orders No. 813 of March 18, 1952, and No. 1614 of April 9, 1958.

MOUNT DIABLO MERIDIAN

T. 28 N., R. 17 E.,
Sec. 29, N½SW¼.

The area described aggregates 80 acres.

It is the intent of this order that the withdrawn minerals in the lands shall remain under the jurisdiction of the Department of the Interior, and no disposition shall be made of such minerals except under the applicable United States mining and mineral leasing laws, and then only after such modification of the provisions of this order as may be necessary to permit such disposition.

FRED G. AANDAHL, *Assistant Secretary of the Interior.*

AUGUST 19, 1958.

[Public Land Order 1722]

[Anchorage 033229 et al.]

ALASKA

WITHDRAWING PUBLIC LANDS FOR RECREATIONAL PURPOSES

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, including native rights, if any, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining, but not the mineral-leasing laws nor the act of July 31, 1947 (61 Stat. 681; 30 U. S. C. 601-604) as amended, and reserved under the jurisdiction of the Secretary of the Interior, for administration and maintenance as public recreation areas pending their conveyance or other disposal as authorized by the act of May 4, 1956 (70 Stat. 130), as amended by the act of August 30, 1957 (71 Stat. 510):

[Anchorage 033229]

TRACT A

Beginning at a point on the north shore of Tyone Lake, marked by a Bureau of Land Management public service site sign, latitude 62°31'44" N., longitude 146°47'06" W., thence

Northeasterly, 1,320 feet along shore line of Tyone Lake;
Northwesterly, 330 feet;
Southwesterly, 1,320 feet to the bank of a stream;
Southerly, 330 feet along said bank to point of beginning.
The tract described contains 10 acres.

TRACT B

Beginning at a point on the east shore of the channel connecting Tyone and Susitna Lakes, latitude 62°28'28" N., longitude 146°40'10" W., from which a BLM public service site sign bears northerly 160 feet, thence

East, 330 feet;
North, 330 feet;
West, 330 feet to shore line;
South, 330 feet along shore line to point of beginning.
The tract described contains 2.5 acres.

TRACT C

Beginning at a point on the mouth of a stream on the northeast shore of Susitna Lake marked by a BLM public service site sign, latitude 62°27'56" N., longitude 146°37'47" W., thence

Northerly, 330 feet along the stream;
Southwesterly, 330 feet to the shore of Susitna Lake;
Southeasterly, 330 feet along the shore of Susitna Lake to point of beginning.
The tract described contains 1.5 acres.

TRACT D

Beginning at a point at the mouth of a stream on the east shore of Susitna Lake marked by a BLM public service site sign, latitude 62°26'45" N., longitude 146°36'41" W., thence

Easterly, 330 feet along shore of Susitna Lake;
North, 330 feet;
Westerly, 660 feet;
South, 330 feet to a point on the shore of Susitna Lake;
Easterly, 330 feet along shore line to point of beginning.
The tract described contains 5 acres.

TRACT E

Beginning at a point on the east shore of Lake Louise, latitude 62°20'18" N., longitude 146°28'16" W., thence

Northeasterly, 330 feet;
Northwesterly, 330 feet;
Southwesterly, 330 feet to a point on the shore of the lake;
Southeasterly, 330 feet along shore line to point of beginning.
The tract described contains 2.5 acres.

TRACT F

Beginning at a point on the northwest shore of Lake Louise marked by a BLM public service site sign, latitude 62°20'42" N., longitude 146°37'32" W., thence

Northerly, 330 feet along the shore line;
West, 330 feet;
South, 330 feet;
East, 330 feet to point of beginning.
The tract described contains 2.5 acres.

TRACT G

Beginning at a point on the west shore of Little Lake Louise marked by a BLM public service site sign, latitude 62°18'47" N., longitude 146°40'47" W., thence

Northwesterly, 330 feet;
Southwesterly, 330 feet;
Southeasterly, 330 feet to a point on the shore of the lake;
Northeasterly, 330 feet along shore of lake to point of beginning.
The tract described contains 2.5 acres.

TRACT H

Beginning at the tip of a peninsula on the east shore of Little Lake Louise marked by a BLM sign, latitude 62°18'13" N., longitude 146°38'38" W., thence

Northeasterly, 1320 feet along the north shore line of the peninsula to a point marked by a BLM sign;
South, 660 feet to a point on the south shore of the peninsula marked by a BLM sign;
Westerly, 990 feet along south shore to point of beginning.
The tract described contains approximately 10 acres.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

[Ex Parte MC-40]

PART 193—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

EMERGENCY EQUIPMENT ON ALL POWER UNITS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 13th day of August A. D. 1958.

The matter of parts and accessories necessary for safe operation under the Motor Carrier Safety Regulations prescribed by order dated April 14, 1952, as amended, being under consideration; and

It appearing that a notice of proposed rule making was issued February 20, 1958 (23 F. R. 1575), in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003), in which interested persons were invited to present written statements containing data, views, or arguments on the proposal therein to vacate and set aside § 193.95 (b), (c), and (e) of Motor Carrier Safety Regulations relating to spare bulbs, spare fuses, and hand tools on or before March 31, 1958, which time was extended to April 15, 1958, by order dated March 17, 1958 (23 F. R. 1963), and that certain representations have been received in response thereto;

And it further appearing that after full investigation of the matters and things, within the scope of our notice of February 20, 1958, and after full consideration of all the data, views, and arguments received from interested persons with respect thereto, some of the considered requirements are no longer necessary;

It is ordered, That effective September 1, 1958, paragraphs (b) and (e) of § 193.95 of the Motor Carrier Safety Regulations be, and they are hereby, vacated and set aside;

And it is further ordered, That § 193.95, *Emergency equipment on all power units* be, and it is hereby amended by deleting therefrom paragraphs (b) and (e) in their entirety, without altering or changing designations of remaining paragraphs.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Federal Register Division.

(49 Stat. 546, as amended; 49 U. S. C. 304)

By the Commission.

PROPOSED RULE MAKING

POST OFFICE DEPARTMENT

[39 CFR Part 15]

MATTER EXCLUDABLE FROM AIRMAIL

NOTICE OF PROPOSED RULE MAKING

The Department proposes to amend its airmail regulations so as to prohibit airmail transmission of matter specifically excluded from air shipment in lawfully filed or published tariffs of air carriers.

The amendment to Title 39, Chapter 1, Code of Federal Regulations, set forth below will achieve the desired purpose.

The proposed regulation relates to a proprietary function of government and is therefore exempt from the rulemaking requirements of 5 U. S. C. 1003. However, the Postmaster General desires to voluntarily observe the requirements in this case, so that postal patrons may have an opportunity to present written views concerning the proposed regulation. Consideration will be given the proposed regulation in the light of such written views as may be submitted. Comments may be submitted to Mr. Edwin A. Riley, Director, Postal Services Division, Bureau of Operations, Washington 25, D. C., at any time prior to September 22, 1958.

PART 15—MATTER MAILABLE UNDER SPECIAL RULES

In § 15.7 *Airmail,* add new paragraph (d) to read as follows:

(d) Matter specifically excluded from air shipment in lawfully filed or published tariffs of air carriers.

NOTE: The corresponding Postal Manual section is 125.7d.

(R. S. 161, 396, as amended; sec. 405, 52 Stat. 994, as amended, sec. 1, 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 18 U. S. C. 1716, 39 U. S. C. 485)

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 922]

VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

ORDER DIRECTING THAT REFERENDUM BE CONDUCTED; DESIGNATION OF REFERENDUM AGENTS TO CONDUCT SUCH REFERENDUM; AND DETERMINATION OF REPRESENTATIVE PERIOD

Pursuant to the applicable provisions of Marketing Agreement No. 131 and Order No. 22, as amended (7 CFR Part 922), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended, 7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the growers who, during the period February 1, 1957, through January 31, 1958 (which period is hereby determined to be a representative period for the purposes of such referendum), were engaged, in the State of Arizona and that part of the State of California, south of the 37th Parallel, in the production of Valencia oranges for market to determine whether such growers favor continuation of the said marketing agreement and order. Warren C. Noland and Edmund J. Blaine of the Fruit and Vegetable Division; Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to perform, jointly, or severally, the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By giving opportunity for each of the aforesaid growers to cast his ballot, in the manner herein authorized, relative to the aforesaid continuance of the marketing agreement and amended order, on a copy of the appropriate ballot form. A cooperative association of such growers, bona fide engaged in marketing Valencia oranges grown in the aforesaid production area or in rendering services for or advancing the interests of the growers of such Valencia oranges, may vote for the growers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form), and the vote of such cooperative association shall be considered as the vote of such growers.

(2) By determining the time of commencement and termination of the period of the referendum and by giving public notice, as prescribed in (a) (3) hereof, (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to Warren C. Noland, Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California, and the time such ballots must be received.

(3) By giving public notice (i) by utilizing available agencies of public information (without advertising expense), including both press and radio facilities in the State of Arizona and designated part of California; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each grower whose name and address are known; and (iii) by such other means as said referendum agents or any of them may deem advisable.

(4) By conducting meetings of growers and arranging for balloting at the meeting places, if said referendum agents or any of them determine that voting shall be at meetings. At each such meeting, balloting shall continue until all of the growers who are present, and who desire to do so, have had an opportunity to vote. Any grower may cast his ballot at any such meeting in lieu of voting by mail.

(5) By giving ballots to growers at the meetings, and receiving any ballots when they are cast.

(6) By securing the name and address of each person casting a ballot, and in-

quiring into the eligibility of such person to vote in the referendum.

(7) By giving public notice of the time and place of each meeting authorized hereunder by posting a notice thereof, at least two days in advance of each such meeting, at each such meeting place, and in two or more public places within the applicable area; and, so far as may be practicable, by giving additional notice in the manner prescribed in paragraph (a) (3) hereof.

(8) By appointing such person or persons as are deemed necessary or desirable to assist said agents in performing their functions hereunder. Each person so appointed shall serve without compensation and may be authorized, by said referendum agents or any of them, to perform any or all of the functions set forth in paragraphs (a) (5), (6), (7), and (8) hereof (which, in the absence of such appointment of subagents, shall be performed by said referendum agents) in accordance with the requirements set forth; and shall forward to Warren C. Noland, Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California, immediately after the close of the referendum, the following:

(i) A register containing the name and address of each grower to whom a ballot form was given;

(ii) A register containing the name and address of each grower from whom an executed ballot was received;

(iii) All of the ballots received by the respective referendum agent in connection with the referendum, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and which were received by the respective agent during the referendum period;

(iv) A statement showing when and where each notice of the referendum posted by said agent was posted and, if the notice was mailed to growers, the mailing list showing the names and addresses to which the notice was mailed and the time of such mailing; and

(v) A detailed statement reciting the method used in giving publicity to such referendum.

(b) Upon receipt by Warren C. Noland of all ballots cast in accordance with the provisions hereof, he shall canvass the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results; and shall forward such report, together with the ballots and other information and data, to the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

(c) Each referendum agent and appointee pursuant hereto shall not refuse to accept a ballot submitted or cast; but should they, or any of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent or appointee shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential. The Director of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby authorized to prescribed additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agents and appointees in conducting said referendum.

Copies of the text of the aforesaid marketing agreement and amended order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Washington, D. C., and at the Western Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, 1031 South Broadway, Room 1005, Los Angeles 15, California.

Ballots to be cast in the referendum may be obtained from any referendum agent, and any appointee hereunder.

Dated: August 19, 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[7 CFR Part 927]

[Docket No. AO-71-A36]

HANDLING OF MILK IN NEW YORK-NEW JERSEY MILK MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at New York City on July 22-25, 1958, pursuant to notice thereof issued on July 9, 1958 (23 F. R. 5308).

The material issues on the record of the hearing related to:

1. The seasonal pricing of Class III milk.

2. The need for immediate action by the Secretary with respect to issue No. 1.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

Issue No. 1: The seasonal pricing of Class III milk. Consideration was given at this hearing to proposals for (1) increasing the seasonal adjustments in the Class III price in amounts ranging from 5 to 15 cents during July through November (2) eliminating the present seasonal adjustment in the Class III pricing formula (3) increasing the butter-cheese adjustment applicable in all months (4) eliminating the butter-cheese adjustment during any of the months of July through February in which specified conditions of a "tight" market prevail and (5) eliminating the butter-cheese adjustment during August through November.

It is concluded that (1) the order should be amended to eliminate for the months of August through November the butter-cheese adjustment of 3 cents per pound of butterfat presently applicable to milk received from producers (and utilized in butter or cheese) during the months of July through February and (2) no other change should be made at this time in present provisions of the order for the pricing of Class III milk.

Elimination of the butter-cheese adjustment as indicated is justified on evidence of (1) relatively high spot milk margins in the months of August-November of recent years (2) relatively high handling charges currently obtained for milk under annual contracts (3) the reflection of these handling charges in payments to producers in excess of minimum order prices and (4) lack of need for such adjustment in the months of August-November to insure acceptance of all necessary reserve supplies of producer milk. Evidence supporting the conclusion (herein set forth) that there should be no increase at this time in the price of milk for Class III uses other than butter and cheese also tends to justify elimination of the butter-cheese adjustment as indicated.

During the periods August-November of the years 1955, 1956, and 1957 spot milk margins averaged 61, 67, 61 cents respectively compared with annual averages of 42, 45, and 43 cents respectively, for the same years. The month when the spot milk margin was highest in each of the last three years was a month in the August-November period, these margins being $1.07 in August 1957, 84 cents in November 1956, and 80 cents in September 1957.

From September 1957 through July 1958, however, spot milk margins have been lower in each month than in the same month a year earlier. During the first seven months of 1958 spot milk margins averaged 21 cents compared with 34 cents during the same period in 1957. This development in spot milk margins occurred during a period (October 1957-June 1958) when volumes of Class III milk exceeded those in the same period a year earlier. The simultaneous occurrence of these developments indicates a relationship between the two with the supply and price of Class III milk constituting a factor affecting the level of spot milk margins. These developments, however, are considered to be of greater significance in connection with the general level of the Class III price than specifically with the butter-cheese adjustment which, as such, merely fixes the amount of the difference between the price established for milk used for butter and cheese and the price established for other Class III uses.

While the volume of milk sold on the spot market for fluid use is relatively small, estimated not to exceed three percent of total Class I-A sales, a very substantial proportion of the total volume of Class I-A milk is purchased from country plant operaters by distributors on terms specified in annual contracts negotiated between the parties. Some of such annual contracts are for specified quantities of milk and some cover the entire output of specified country plants.

These annual contracts provide for payment of a per hundredweight handling charge to the country plant operator. Handling charges under contracts involving specified quantities of milk ordinarily are somewhat higher than under contracts for the entire output of plants. Handling charges currently paid under existing annual contracts for the entire output of plants was reported to be about 10 cents per hundredweight higher than under similar contracts in 1955 and 2 or 3 cents higher than in 1957. Such handling charges under contracts currently in effect range from 30 to 40 cents per hundredweight with a median of around 37 cents. Although specific amounts were not reported, there is evidence that premiums paid to producers over the order minimum uniform prices are rather general and widespread at country plants throughout the milkshed. This is indication of the existence of relatively favorable outlets for milk for manufacturing purposes.

One of the proposals considered at the hearing was that the butter-cheese adjustment at the rate of 3 cents per pound of butterfat presently applicable in the months of July through February be eliminated in any of such months when the volume of milk in Class III is less than 200 million pounds and less than 25 percent of the total volume of pool milk. The month of September 1957, is the only month in the past five years in which this proposed provision would have operated to eliminate the butter-cheese adjustment. Elimination of the butter-cheese adjustment only in months when the volume of Class III milk is less than 200 million pounds was proposed on the basis that this appeared to be the maximum volume of milk which could be disposed of in these months for Class III uses other than butter and cheese, and that historically, there appeared to be an increase in the volume of milk going into butter and cheese in months when the total volume of Class III milk exceeded 200 million pounds.

There is found to be merit in this principle of eliminating the butter-cheese adjustment under conditions generally related to the volume of Class III milk. The degree of refinement proposed for determining when the butter-cheese adjustment should not apply is found not to be necessary, however, if the months involved are limited to August through November. During the 20 months in August through November periods of the past five years there were only 7 months in which the volume of Class III milk exceeded 200 million pounds, and in 2 of these 7 months the volume of milk going into butter and cheese did not exceed 20 million pounds. Also in 2 of these 7 months the volume of milk utilized in Class III products other than butter and cheese exceeded 200 million pounds. These latter 2 months are August of 1956 and 1957.

A conclusion that outlets other than butter and cheese are unavailable for more than 200 million pounds of Class III milk during the months of August through November is of questionable validity also in view of the fact that substantially more than this volume was used in Class III, exclusive of butter and cheese, in all except 2 out of 25 months in the March-July portions of the last 5 years. In the months of March through June 1958, the volume of milk in Class III, exclusive of that used for butter and cheese and also not including the volume used for storage cream (since cream normally is not stored in the August-November period), ranged from 227 million pounds (in March) to 292 million pounds (in June). No accurate measure is found in the record of the maximum volume of milk for which Class III outlets, other than butter and cheese, are available in the months of August-November. However, elimination of the butter-cheese adjustment for these months should provide additional incentive for moving the maximum proportion of Class III milk into the higher valued products. Although there is no evidence of any past unsatisfied demand for milk for fluid use in the marketing area, this action also may be expected to be reflected in the price at which milk is made available for fluid use without at the same time resulting in homeless milk or the inability to dispose of milk on reasonable terms.

Elimination of the butter-cheese adjustment in specified months is preferred (to the proposed plan under which it's elimination would depend on a specified Class III volume) because it is definite and provides a better and more reliable basis for the necessary operating decisions of handlers. Under the alternative proposal, there would be uncertainty and speculation as to whether the butter-cheese adjustment would be applicable in in a particular month until after announcement of the uniform price on the 15th of the following month.

The above conclusion that, except for elimination of the butter-cheese adjustment in the August-November period, there should be no change at this time in present provisions of the order for pricing Class III milk, of course, constitutes a denial of all other proposals considered at the hearing. Proposed increases in existing Class III price seasonal adjustment factors are found not to be justified primarily on the basis that to do so would seriously jeopardize the maintenance and expansion of outlets for Class III milk in the higher valued uses and which must be sold for such uses at a price competitive with alternative sources of butterfat and nonfat solids. Detail findings in this connection are setforth herein.

Proposed reduction in the Class III price, either by elimination of existing seasonal factors or increasing the butter-cheese adjustment, likewise is found not to be justified primarily on the basis that a reduction in the level of the price is not necessary to retain adequate outlets for Class III milk or to reasonably insure its acceptance and orderly disposition.

The present level of the Class III price appears to be reasonably in line with the average of prices paid at selected midwestern condenseries and with the United States average of prices paid for milk for manufacturing. Historically, the Class III price has been lower than the prices paid at midwestern condenseries and has generally been higher than the United States average of prices paid for manufacturing milk. Since the order was amended in 1956, the margin between the Class III price and midwestern condensery prices has narrowed. The simple average of monthly Class III prices was lower than the midwestern condensery price by 14 cents in 1955, 13 cents in 1956, and 6 cents in 1957. During the 12 months ending in May 1958, the Class III price averaged 3 cents lower than the midwestern condensery price. The weighted average price for all Class III milk including that utilized in butter and cheese ranged from 1 to 4 cents less than the simple average Class III price during these comparative periods.

The margin between the Class III price and the United States average of prices paid for milk for manufacturing has increased since 1955. The simple average of monthly Class III prices exceeded the United States average price for milk for manufacture by 2 cents in 1955, 5 cents in 1956, and 9 cents in 1957. During the 12 months ending in May 1958, the Class III price was 10 cents higher than the United States average at all manufacturing plants and during July through November 1957, the Class III price ranged from 11 to 23 cents higher than the United States average manufacturing price.

The United States average of prices paid dairy farmers for milk used in the manufacture of butter and American cheese historically has been higher than the Order 27 price for milk used in such products. Since 1955 the margin between the Order 27 price for milk so utilized and the United States average price has declined approximately one-half. In 1955 the United States average price was 15 cents per hundredweight higher than the Order 27 price and was 7 cents higher in 1957. During the 12 months ending in May 1958, the United States average price for milk used in butter exceeded the Order 27 price by 8 cents per hundredweight. Also, since 1955, the margin between the United States average of prices paid dairy farmers for milk used in the manufacture of American cheese and the Order 27 price for milk used in butter and cheese has declined. In 1955 the difference between the two prices was 9 cents, while in 1957 and in the 12 months ending in May 1958, they were the same.

During the past two years there has been relatively close alignment on an annual average basis between the Order 27 Class III price and the Boston Class II price. During the last six months of 1956 the Order 27 Class III price was $3.11 per hundredweight compared with

the Boston Class II price of $3.12. In 1957 the Order 27 Class III price was $3.06 and the Boston Class II price was $3.05. During the first six months of 1958 the Order 27 Class III price was $2.94 while the Boston Class II price was $2.90. The Order 27 Class III price has been somewhat higher than the Boston Class II price during the months of highest production and has been lower during the months of shortest supply. During 1957 the Order 27 Class III price was higher than the Boston Class II price by 10 cents in March, 15 cents in April, 13 cents in May and 13 cents in June. During 1958 the Order 27 Class III price was 7 cents, 14 cents and 8 cents higher than the Boston Class II price in March, April and May, respectively. The Order 27 Class III price was higher than the Boston Class II price in seven months in 1957 in amounts ranging up to 10 cents. The Order 27 Class III price has generally been lower monthly and annually than the Philadelphia Class II price. However, during the first six months of 1958 the average Order 27 Class III price was 6 cents higher than the Philadelphia Class II price.

From 1955 to 1957 the total Class III volume of milk declined from 3,708 to 3,352 million pounds, a decline of 10 percent. During this same period the total volume of milk utilized in products at the full Class III price increased from 2,660 to 2,812 million pounds, an increase of 6 percent, and the volume of milk used in the manufacture of butter and cheese declined from 1,048 to 540 million pounds, a decline of 49 percent. Recently, as the total volume of milk in the pool has increased, the total volume of Class III milk also has increased. Compared with 1957, the total volume of Class III milk in the 12 months ending May 1958 increased from 3,352 to 3,673 million pounds, an increase of 10 percent. The volume of milk used in Class III products other than butter and cheese declined 1 percent from 2,812 to 2,795 million pounds and the volume of milk used in butter and cheese increased 63 percent from 540 to 878 million, an increase about equal to the increase in total volume of milk in Class III.

Changes also have taken place in the utilization of milk in individual Class III products. Approximately one-fourth of the total volume of Class III milk has been used in ice cream during the past several years. After reaching a peak of 907 million pounds in 1956 the total volume of milk used in ice cream declined to 881 million pounds in 1957. In the 12 months ending with May 1958 the volume of milk used in ice cream was approximately the same as in 1957. Milk used in ice cream outside New York City has increased each year since 1952, both in absolute volume and as a percent of total volume of Class III milk. During the 12 months ending in May 1958 the absolute volume of such milk also increased compared with 1957, but declined as a percentage of all Class III. The volume of milk used in ice cream in New York City has declined in total volume and as a percent of total Class III milk since 1955. The volume so utilized was 489 million pounds in 1955, 451 million pounds in 1956, 418 million pounds in 1957 and 405 million pounds in the 12 months ending with May 1958. Milk used in ice cream in New York City as a percent of total Class III milk was 13.2 in 1955, 12.3 in 1956, 12.5 in 1957 and 11.0 during the 12 months ending with May 1958. Total production of ice cream in nine northeastern states increased from 1956 to 1957 and has been approximately the same as in 1957 during the 12 months ending in May 1958 with the result that the volume of pool milk used in ice cream in relation to ice cream production declined slightly in 1957 and through May 1958 compared with 1956.

Changes also have taken place in sources of butterfat used in the manufacture of ice cream. Cream was the source of 62 percent of the butterfat in ice cream manufactured in wholesale frozen dessert plant in New York State in 1956. The percentage from this source declined to 57 in 1957 while at the same time the percentage of butterfat obtained from butter increased from 12 to 18. Most of this shift was in the manufacture of ice cream in New York City with little change in the sources of butterfat for ice cream in Upstate New York. In New York City, cream as a source of butterfat in ice cream declined from 51 percent in 1956 to 41 percent in 1957 and the use of butter as a source of butterfat increased from 15 percent to 28 percent.

The volume of milk used in the manufacture of cheese other than cheddar has increased during the past several years, particularly since 1956. This use accounted for 250 million pounds of milk in 1956, 292 million pounds in 1957 and 336 million pounds in the last 12 months ending with May 1958. As a percent of total Class III milk the quantity of milk used in cheese other than cheddar has also increased. During the 12 months ending in May 1958, 9 percent of total Class III milk was so utilized. About 20 percent of the total Class III volume of milk is used in fluid cream outside New York City and during the past 5 years has shown little change.

Storage cream increased in total volume and as a percent of Class III milk from 1956 to 1957, but declined during the last 12 months ending in May 1958. The volume of storage cream was 338 million pounds in 1956, 371 million pounds in 1957 and 277 million pounds in the 12 months ending with May 1958. Storage cream accounted for 9 percent of the total Class III milk in 1956, 11 percent in 1957 and 7.5 percent during the 12 months ending May 1958. More of the recent increase in the total volume of Class III milk has gone into butter than into cheese. The percentage of the total Class III milk used in butter in 1956 was 16 percent, in 1957, 9 percent, and during the 12 months ending in May 1958, 16 percent. American cheese accounted for 8 percent of the total Class III milk in 1956, 7 percent in 1957 and 8 percent in the 12 months ending in May 1958. The volume of milk used in candy, evaporated milk, condensed milk and other Class III products has increased during the past few years and during the past two years accounted for about 15 percent of the Class III milk.

In addition to market statistics relating the volumes and proportions of Class III milk used in various products, this decision also reflects considerations of instances reported at the hearing in which handlers recently have turned to nonpool sources on the basis that needed supplies of butterfat and nonfat solids are available at lower cost than from pool sources. Products involved in such instances are cream cheese, Italian cheese, and ice cream.

Issue No. 2: The need for immediate action by the Secretary with respect to Issue No. 1. The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto, on the above issue.

It is urgent that remedial action as provided in this decision be made effective as soon as possible. The primary purpose of this decision is to insure that milk is made readily available for fluid use and is utilized in manufactured products which return producers the highest possible price during the months of shortest supply. Unless this decision is made effective September 1, 1958, two of the four months in which the supply of milk is shortest will have elapsed. It is therefore found that good cause exists for omission of the recommended decision in order to inform interested parties of the conclusions reached. Uncertainty on the part of interested parties might lead to instability in the market. Knowledge of the action decided upon by the Secretary will permit those affected to adjust their operations promptly in accordance with such decision.

Delay beyond September 1, 1958, will defeat the purpose of the amendment. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereof, would make such relief substantially ineffective and therefore should be eliminated in this instance.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the prices of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Marketing agreement and order amending the order, as amended. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the New York-New Jersey Milk Marketing Area" and "Order Amending the Order, Regulating the Handling of Milk in the New York-New Jersey Milk Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of February 1958 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order amending the order, regulating the handling of milk in the New York-New Jersey milk marketing area, is approved or favored by producers, as defined under the terms of the order, as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Issued at Washington, D. C., this 20th day of August 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the New York-New Jersey Milk Marketing Area

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New York-New Jersey milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the New York-New Jersey milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

Amend § 927.43 by deleting "in the months of July through February" appearing therein immediately preceding the first proviso and by substituting therefor the following: "in the month of July and in the months of December through February".

[F. R. Doc. 58-6840; Filed, Aug. 22, 1958; 8:52 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

[7 CFR Part 963]

[Docket No. AO-306]

HANDLING OF APPLES GROWN IN DESIGNATED PART OF WASHINGTON

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Chelan, Washington, on May 6, 1958, and continued at Yakima, Washington, on May 12, 1958, after notice thereof published in the FEDERAL REGISTER (23 F. R. 2201), on a proposed marketing agreement and order regulating the handling of apples grown in designated part of Washington, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

On the basis of the evidence introduced at the hearing, and the record thereof, the Deputy Administrator, Marketing Services, Agricultural Marketing Service, on July 11, 1958, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of the filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (F. R. Doc. 58-5442; 23 F. R. 5381).

The material issues, findings and conclusions, and the general findings of the recommended decision set forth in the FEDERAL REGISTER (F. R. Doc. 58-5442; 23 F. R. 5381) are hereby approved and adopted as the material issues, findings and conclusions, and the general findings of this decision as if set forth in full herein.

Exceptions to the recommended decision were filed within the prescribed time by (1) Bernard A. Schons, Tonasket, a handler, Alfred Robinson, Oroville, a grower, and Roy A. Visser, Tonasket, a grower, by (2) Halverson, Applegate, and McDonald, and Donald H. Brazier, Jr., by C. W. Halverson, Yakima, Attorney, on behalf of 44 growers and handlers, and by (3) Melvin R. Brown, Wells and Wade Fruit Company, Wenatchee, a grower-shipper.

Exceptions to the findings and conclusions of the recommended decision included a contention that the decision was based only on proponent evidence and that it did not give consideration to opposition testimony. It was contended approximately an equal number, if not more, interested parties testified in opposition to the proposed order.

The hearing consisted of two sessions—namely, one session at Chelan and another at Yakima. Even though the entire subject matter open for consideration at the hearing was not covered fully and completely at each session, the testimony given at both sessions covers all the subject matter and constitutes the complete record of the hearing upon which the aforementioned findings and conclusions are based.

The proponents and opponents testifying at the hearing were about equal in number and volume of testimony. The proponents and many of the opponents stated that the apple industry in Washington faced a problem, especially in the marketing of off condition apples. Most of these witnesses also stated that some form of regulation should be formulated, because voluntary effort on the part of each member of the industry would prob-

ably not be effective. The proponents favored the proposed program because of its flexibility and the rapidity with which such a program could be made effective. Most of the opponent witnesses were of the opinion that any regulations should be at the State rather than at the Federal level. A few of these witnesses believed nothing should be done at this time on an industry wide basis. These witnesses were of the opinion that such problems should be solved by the individual on the basis most suitable to his situation. Some of these opponent witnesses contended that the proposed program would not solve many of the industry problems, and that the program would be an added expense on an overburdened industry. Many of the modifications to the proposed program adopted in the recommended decision were suggested by opposition witnesses. The proponents, readily admitting that the proposed program should not be considered the answer to all the industry's problems, contended that the program would be another tool which, with other tools available, would materially contribute to the establishment of orderly marketing conditions for Washington apples, and that the proposed maximum assessment of ¼ cent per bushel to cover cost of the local administration of the proposed order would not be burdensome but rather such expense would insure more equitable returns for other expenses normally incurred. The evidence of record clearly shows that some of the harvesting, storage, and marketing practices of the industry have resulted in the marketing of apples of a maturity, grade, and condition which have adversely affected the demand for Washington apples and tended to lower grower returns for the better quality apples. While there was controversy at the hearing over the method that should be used in an endeavor to correct this situation, it was shown that the proposed order was designed for this purpose and should be of assistance to the industry.

Exception was taken to the conclusion that all handling of apples grown in the production area should be subject to the act and the order. The record of the hearing clearly indicates that the handling of all apples grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce. There are ample precedents for varying degrees of grade and maturity standards on Agricultural commodities in the various States including Washington, either under State law, or State or Federal marketing agreements. The general objectives of such regulations for any particular State or area is to improve the competitive position of the commodity, expand consumption, and improve grower returns. Such is the intent of the proposed order as indicated by the testimony of the proponents. The demoralizing effect that shipments of low grade apples, namely culls, has upon the price of apples has long been recognized by the apple industry in Washington. The shipment of cull apples for fresh market use is prohibited under State law, unless such apples are packed in one bushel wooden baskets, ring faced, baskets lidded, and designated as "culls." The evidence introduced at the hearing sets forth that at times the shipment of apples meeting the requirements of one of the lower grades or off-condition apples have a similar depressing effect on the price of apples. The proposed program would provide authority for the committee, with the approval of the Secretary, to take such action as necessary in the interest of the industry to prevent the shipment of such apples.

Exception was taken to the finding that "the trend of apple production in the State of Washington is sharply upward." It was contended that this was the basis for the conclusion that "regulations for marketing should be imposed." The annual production in bushels for the past seven seasons was listed in the recommended decision. Such production ranged from 17,700,000 bushels to 32,600,000 bushels. In addition, the evidence shows that because of the large number of young trees that will soon be coming into production, the 32,600,000 bushel crop of 1957 will likely be considered normal or perhaps a small crop. Testimony given at the hearing shows that since 1949, plantings in the production area have been considerably over and above the amount of plantings needed to maintain normal production. The 1954 census lists 1,134,114 trees of non-bearing age and 2,436,108 trees of bearing age within the State of Washington. A large proportion of these trees of non-bearing age are of the red sport strains, principally of the Delicious variety. Some of the Red Strains develop red color at an earlier stage of maturity than the regular or standard strains of the same variety. This might result in an industry problem resulting from the shipment of immature fruit. The prospective increase in production, and the varietal composition of such production, is a factor in the determination in the recommended decision that the proposed marketing order would be of benefit to the industry. But this was not the sole basis for the conclusion that a marketing order for Washington apples would tend to effectuate the declared policy of the act.

The conclusions, based upon the findings that in 1957 many shipments of apples were made which did not return to the grower the cost of picking, packing, storing and transportation to market was objected to because the objectors contend that most of these costs had already been incurred by the grower prior to shipment. The additional cost necessarily incurred during the selling and delivery process, it is contended, results in the grower salvaging a portion of the aforementioned costs. Even though apples may not generally develop characteristics until later in the season which may make it obvious to a casual observer that the apples possess a short storage life because of condition factors, experienced apple men know prior to harvest that such apples, if handled in the normal way, will encounter problems relative to condition. Testimony adduced at the hearing shows that such experienced apple men are able accurately to predict the date apples should be picked, the type and extent of condition problems likely to be encountered, and the keeping or shelf life expectancy of such apples. The record of the hearing further shows that many growers and handlers were aware that certain lots of apples of the 1957 crop would not return the aforementioned costs and consequently many of such apples were left on the trees. Others, however, endeavored to store and market apples which it was known did not possess the necessary keeping qualities. The sale of such apples not only failed to return the costs of marketing but also depressed the prices received for the better quality apples. Regulations such as provided for in the proposed order would tend to prevent such occurrences. Opponents to the proposed program contended that the proposed program, while regulating condition factors of apples grown in the production area, would not prevent off condition apples from other States from entering the channels of trade and thus adversely affect the buyer's habits of purchasing apples, including Washington apples. However, if wholesalers and retailers of apples know that they are more likely to get off condition apples from some other apple producing area, such should favorably rather than adversely affect their attitude towards the purchase of Washington apples, which in turn should reflect increased consumption of Washington apples by their customers.

Exception was taken to the proposed program in that, it was contended, the rules and regulations established thereunder would probably eliminate or restrict the sale of lower grades of apples produced within the production area without imposing like restriction on similar grades of apples produced elsewhere. It was pointed out at the hearing that the Washington apple industry, under State law, now restricts the sale of the poorer grades of apples, namely culls, even though there is no restriction against the shipment of culls into the State of Washington. The proposed marketing order would merely provide authority to adjust such minimum requirements when the committee, with the approval of the Secretary, determined such action to be in the best interest of the industry.

Exception was taken to the provision set forth in § 963.54 of the recommended marketing agreement and order which exempts, except as otherwise provided, the handling of apples for commercial processing into products. A modification of this section as set forth in the notice of hearing, was offered at Chelan to regulate the handling of apples for processing to the full extent permitted under the act. The act specifically exempts apples for canning and freezing. This modification would require the grading of all apples sold to dehydrators and juicers and would vest in the Apple Quality Control Committee the authority to recommend to the Secretary prohibiting the sale of apples below a designated grade to such processing outlets. This modification, as the record shows, encountered strong opposition at Yakima. The evidence of record shows that canners, freezers, juicers, and dehydrators compete with each other in the purchase of the raw product. The record shows that packers do not attempt to separate the cull apples into grades for processing. Likewise, the processors do not attempt to purchase the raw stock on a graded basis. Testimony shows that a better job can be done in the handling of culls and other low grade apples that are destined for processing. Such improved handling should result in greater returns from the sale of apples for processing. Some of the evidence supporting this modification was persuasive, however, the record of the hearing does not show sufficient evidence to substantiate this modification.

All of the exceptions to the recommended decision were carefully and fully considered, in conjunction with the evidence in the record, in arriving at the findings and conclusions set forth herein. To the extent that the findings and conclusions set forth in this decision are at variance with any exception pertaining thereto, such exceptions are denied on the basis of the findings and conclusions to which such exceptions refer.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Apples Grown in Designated Part of Washington," and "Order Regulating the Handling of Apples Grown in Designated Part of Washington," which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. The aforesaid marketing agreement and order shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure, governing proceedings to formulate marketing agreements and marketing orders, have been met.

It is hereby ordered, That all of this decision, except the annexed agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement are identical with those contained in the annexed order which will be published with this decision.

Dated: August 19, 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

AUTHORITY: §§ 963.0 to 963.71 issued under 48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047.

§ 937.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure, as amended, effective thereunder (7 CFR Part 900), a public hearing was held at Chelan, Washington, on May 6, 1958, and continued at Yakima, Washington, on May 12, 1958, upon a proposed marketing agreement and a proposed marketing order regulating the handling of apples grown in designated part of Washington. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) This order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) This order regulates the handling of apples grown in the production area in same manner as, and is applicable only to persons in the respective classes of commercial or industrial activity specified in, a proposed marketing agreement upon which a hearing has been held;

(3) This order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of apples grown in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of apples grown in the production area as defined in the order is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

It is, therefore, ordered, That, on and after the effective date hereof, the handling of apples grown in the said production area shall be in conformity to, and in compliance with, the terms and conditions of this order; and such terms and conditions are as follows:

DEFINITIONS

§ 963.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 963.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 963.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 963.4 *Production area.* "Production area" shall include in the State of Washington the counties of Okanogan, Chelan, Kittitas, Yakima, and Skamania and all the counties east thereof.

§ 963.5 *Apples.* "Apples" means all varieties of apples grown in the production area, classified botanically as Malus sylvestris.

§ 963.6 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Malus sylvestris.

§ 963.7 *Fiscal period.* "Fiscal period" is synonymous with fiscal year and means the 12-month period ending on July 31 of each year or such other period that may be approved by the Secretary pursuant to recommendations by the committee.

§ 963.8 *Committee.* "Committee" means the Apple Quality Control Committee established pursuant to § 963.20.

§ 963.9 *Grade.* "Grade" means any one of the officially established grades of apples as defined and set forth in:

(a) Sections 51.300 to 51.327 of this title (21 F. R. 5084), or amendments thereto, or modifications thereof, or variations based thereon;

(b) Standards for Apples issued by the State of Washington or amendments thereto, or modifications thereof, or variations based thereon.

§ 963.10 *Condition.* "Condition" means any of the officially established standards relative to condition factors of apples as defined and set forth in:

(a) Section 51.317 of this title (21 F. R. 5084), or amendments thereto, or modifications thereof, or variations based thereon;

(b) Condition Standards for Apples issued by the State of Washington or amendments thereto, or modifications thereof, or variations based thereon.

§ 963.11 *Grower.* "Grower" is synonymous with producer and means any person who produces apples for market and who has a proprietary interest therein: *Provided*, That, the term grower, as used in §§ 963.20, 963.22, and 963.23, shall not include any person who is a handler unless such person produced at least 51 percent of the apples he handled during the previous fiscal period.

§ 963.12 *Handler.* "Handler" is synonymous with shipper and means any person (except a common or contract carrier transporting apples owned by another person) who handles apples.

§ 963.13 *Handle.* "Handle" and "ship" are synonymous and mean to sell, consign, deliver, or transport apples or cause the sale, consignment, delivery, or transportation of apples within the production area or from any point within the production area to any point outside thereof: *Provided*, That the term "Handle" shall not include the transportation within the production area of apples from the orchard where grown to a packing facility located within such area for preparation for market, or the delivery or sale of such apples to such packing facility for such preparation.

§ 963.14 *District.* "District" means the applicable one of the following described subdivisions of the production area, or such other subdivisions as may be prescribed pursuant to § 963.31 (m):

(a) "District 1" shall include the County of Okanogan and that part of Douglas County included within Horticultural District No. 11, Washington State Department of Agriculture.

(b) "District 2" shall include the counties of Chelan, Grant, and that part of Douglas County included within Horticultural District No. 4, Washington State Department of Agriculture.

(c) "District 3" shall include the Counties of Yakima, Kittitas, Skamania, Klickitat, and Benton.

(d) "District 4" shall include all other counties in the production area not included in Districts 1, 2, or 3.

ADMINISTRATIVE BODY

§ 963.20 *Establishment and membership.* There is hereby established an Apple Quality Control Committee consisting of 17 members, each of whom shall have an alternate who shall have the same qualifications as the member for whom he is an alternate. Twelve of the members and their respective alternates shall be growers or officers or employees of corporate growers. Five of the members and their respective alternates shall be handlers, or officers or employees of handlers. Two of the grower members and their respective alternates shall be producers of apples in District 1, four of the grower members and their respective alternates shall be producers of apples in District 2, five of the grower members and their respective alternates shall be producers of apples in District 3, and one of the grower members and his respective alternate shall be a producer of apples in District 4. One of the handler members and his respective alternate shall be a handler of apples in District 1, two of the handler members and their respective alternates shall be handlers of apples in District 2, and two of the handler members and their respective alternates shall be handlers of apples in District 3.

§ 963.21 *Term of office.* The term of office of each member and alternate member of the committee shall be for two years, beginning August 1 and ending July 31; or such other dates that may be approved by the Secretary pursuant to recommendations by the committee: *Provided*, That the term of office of six of the initial grower members and alternates and two of the initial handler members and alternates shall end on July 31, 1959. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and have qualified and until their respective successors are selected and have qualified.

§ 963.22 *Nomination*—(a) *Initial members.* Nominations for each of the twelve initial grower members and five initial handler members of the committee, together with nominations for the initial alternate members for each position, may be submitted to the Secretary by growers and handlers. Such nominations may be made by means of group meetings of the growers and handlers concerned in each district. Such nominations, if made, shall be filed with the Secretary no later than the effective date of this part. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified in this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in § 963.20.

(b) *Successor members.* (1) The names of nominees for successor members and alternates of the committee shall be submitted to the Secretary by the committee no later than June 1 of each year, or by such other date as may be established by the committee and approved by the Secretary. The committee shall conduct elections for the purpose of designating nominees. Such elections may be either by meetings of the growers and handlers or by mail balloting or a combination of both. The committee may establish rules and regulations as necessary to govern the conduct of nomination meetings and mail balloting. The committee shall determine and announce the method of election to be followed in each district.

(2) In the designation of nominees only growers, including duly authorized officers or employees of corporate growers, may participate in the election of nominees for grower member and grower alternate positions. Only handlers, including duly authorized officers or employees of handlers, may participate in the election of nominees for handler member and handler alternate positions. Each grower shall be entitled to cast but one vote for each grower nominee and one vote for each grower alternate nominee to be designated from the district in which he is a producer. Each handler shall be entitled to cast but one vote for each handler nominee and one vote for each handler alternate nominee to be designated from the district in which he is a handler. No grower or handler, as the case may be, may vote in more than one district in any one fiscal year. If a person is qualified both as grower and as a handler, he may vote as either a grower or as a handler but not as both.

(3) If nomination meetings are held, the committee shall publicly announce the time and place of each such meeting. At each such meeting a chairman and a secretary shall be selected by the growers or handlers eligible to participate therein. Only growers and handlers present at such meetings shall be eligible to participate in the election of the nominees to be designated at such meeting. The chairman shall announce at the meeting the number of votes cast for each person for member or alternate and shall promptly submit to the committee a complete report concerning such meeting.

(4) If nominees are designated by mail balloting, the committee shall publicly announce the period within which the names of candidates shall be filed with the committee and the number of endorsements necessary for the name of a candidate to be placed on the ballot. At the option of the committee, candidates may be also designated at meetings of growers and handlers. The committee shall publicly announce the period of balloting. Ballots shall be made available to growers and handlers either by mail or at designated places within the district. The ballot shall include, in addition to the names of the candidates, explicit directions for marking and mailing.

(5) At the conclusion of the voting, whether at a meeting or meetings or by mail balloting, the committee shall promptly submit a report thereof to the Secretary.

§ 963.23 *Selection.* From the nominations made pursuant to § 963.22, or from other qualified persons, the Secretary shall select the twelve grower members of the committee, the five handler members of the committee, and an alternate for each such member.

§ 963.24 *Failure to nominate.* If nominations are not made within the time and in the manner prescribed in § 963.22, the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in § 963.20.

§ 963.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary promptly after being notified of such selection.

§ 963.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any member or alternate member of the committee, a successor for the unexpired term of such member or alternate member of the committee shall be nominated and selected in the manner specified in §§ 963.22 and 963.23. If the names of nominees to fill any such vacancy are not made available to the Secretary within a reasonable time after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in § 963.20.

§ 963.27 *Alternate members.* An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member and perform such other duties as assigned. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. In the event both a member of the committee and his alternate are unable to attend a committee meeting, the member or the committee may designate any other alternate member from the same district and group (handler or grower) to serve in such member's place and stead.

§ 963.30 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part;

(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 963.31 *Duties.* The committee shall have, among others, the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the compensation and to define the duties of each;

(c) To submit to the Secretary as soon as practicable after the beginning of each fiscal period a budget for such fiscal period, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such period;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a competent accountant at least once each fiscal year and at such times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to apples;

(i) To submit to the Secretary such available information as he may request;

(j) To notify producers and handlers of all meetings of the committee to consider recommendations for regulations;

(k) To give the Secretary the same notice of meetings of the committee as is given to its members;

(l) To investigate compliance with the provisions of this part;

(m) With the approval of the Secretary, to redefine the districts into which the production area is divided, and to reapportion the representation of any district on the committee; *Provided:* That any such changes shall reflect, insofar as practicable, shifts in apple production within the districts and the production area;

(n) To select such persons as may be necessary to serve as advisers or counselors to the committee, including, but not limited to, representatives from the Washington State Department of Agriculture, Washington State College Extension Service, and the Washington State Apple Commission.

§ 963.32 *Procedure.* (a) Fourteen members of the committee, including alternates acting for members, shall constitute a quorum; and any action of the committee shall require the concurring votes of at least eleven members. At any assembled meeting, all votes shall be cast in person.

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: *Provided*, That such meetings shall be subject to the establishment of communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place. Any such meeting shall be considered as an assembled meeting.

(c) The committee may vote by telephone, telegraph, or other means of communication, and any votes so cast shall be confirmed promptly in writing.

§ 963.33 *Expenses and compensation.* The members of the committee, and alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part and may also receive compensation, as determined by the committee, which shall not exceed $10.00 per day or portion thereof spent in performing such duties: *Provided*, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

§ 963.34 *Annual report.* The committee shall, as soon as practicable after the close of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal period; and (b) any recommendations for changes in the program.

EXPENSES AND ASSESSMENT

§ 963.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in § 963.41.

§ 963.41 *Assessments.* (a) As his pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period, each person who first handles apples during such period shall pay to the committee, upon demand, assessments on all apples so handled. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person during the fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period's expense. Such rate of assessment shall not exceed one-fourth cent ($0.0025) per bushel in any fiscal year. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all apples handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year's shipments, the committee may accept the payment of assessments in advance and may also borrow money for such purpose.

§ 963.42 *Accounting.* (a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted

for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in subparagraph (2) of this section, it shall be refunded proportionately to the persons from whom it was collected: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: *Provided*, That funds already in the reserve do not equal approximately one fiscal period's expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred during any fiscal year when assessment income is less than expenses, (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided*, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

REGULATIONS

§ 963.50 *Marketing policy.* (a) Each season prior to making any recommendations pursuant to § 963.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

(1) The estimated total production of apples within the production area;

(2) The expected general quality and size of apples in the production area and in other areas;

(3) The expected demand conditions for apples in different market outlets;

(4) The expected shipments of apples produced in the production area and in areas outside the production area;

(5) Supplies of competing commodities;

(6) Trend and level of consumer income;

(7) Other factors having a bearing on the marketing of apples; and

(8) The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for apples, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 963.51 *Recommendations for regulation.* (a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of apples in the manner provided in § 963.52, the committee shall recommend such regulations to the Secretary. To the extent practicable, such recommendations shall be made on or before September 1 of each year.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for apples during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 963.52 *Issuance of regulations.* (a) The Secretary shall regulate, in the manner specified in this section, the handling of apples whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Establish standards of condition, maturity, and grade for any or all varieties of apples during any period or periods and may prohibit shipment of such lots of apples which fail to meet such standards: *Provided*, That nothing in this section shall be construed to authorize the establishment of shipping quotas, embargoes, or any other limitation on the shipment of any lots of apples meeting such condition, maturity, or grade standards;

(2) Regulate the shipment of apples by establishing minimum standards of condition, maturity, and grade for any or all varieties of apples during any period or periods when season average prices are expected to exceed the parity level.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 963.53 *Modification, suspension, or termination of regulations.* (a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to § 963.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of apples in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such suspension.

§ 963.54 *Special purpose shipments.* (a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 963.41, 963.52, 963.53, and 963.55, and the regulations issued thereunder, handle apples (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) (1) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §§ 963.41, 963.52, 963.53, or 963.55, the handling of apples in such minimum quantities, or types of shipments (including individual gift packages), or for such specified purposes as may be prescribed.

(2) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent apples handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle apples pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the apples will not be used for any purpose not authorized by this section.

(d) The committee may, with the approval of the Secretary, designate storage warehouses within the production area, and exempt, from any or all restrictions under this part, the handling of apples to such storages: *Provided*, That the committee, with the approval of the Secretary, shall adopt such rules and regulations as may be necessary to prevent any apples so stored from being handled, upon removal from storage, except in conformity with the provisions of this part.

§ 963.55 *Inspection and certification.* (a) Whenever the handling of any variety of apples is regulated pursuant to § 963.52 or § 963.53, each handler who handles apples shall, prior thereto, cause such apples to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: *Provided*, That, except as otherwise provided in this section, this requirement shall not be applicable to apples that have previously been inspected and certified.

(b) Inspection and certification shall be required for apples which previously have been so inspected and certified if such apples have been regraded, resorted, repackaged, or in any other way further prepared for market.

(c) The commitee may, with the approval of the Secretary, establish a period prior to shipment during which the inspection required by this section must be performed.

(d) Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such apples.

REPORTS

§ 963.60 *Reports.* (a) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties and functions under this part. Such reports may include, but are not necessarily limited to, the following: (1) The quantities of each variety of apples received by such handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such apples; and (4) the destination of each shipment of such apples.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to the prohibition of disclosure of individual handler's identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the apples received, and of apples disposed of, by such handler as may be necessary to verify reports pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 963.61 *Compliance.* Except as provided in this part, no person shall handle apples, the shipment of which has been prohibited by the Secretary in accordance with the provisions of this part; and no person shall handle apples except in conformity with the provisions of this part.

§ 963.62 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 963.63 *Effective time.* The provisions of this part, and of any amendment thereto, shall become effective at such time as the Secretary may declare above his signature and shall continue in force until terminated in one of the ways specified in § 963.64.

§ 963.64 *Termination.* (a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner in which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that continuance is not favored by the majority of producers who, during a representative period determined by the Secretary, were engaged in the production of apples for market: *Provided*, That such majority has produced for market during such period more than 50 percent of the volume of apples produced for market.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 963.65 *Proceedings after termination.* (a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered pursuant to this section shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 963.66 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) effect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any right or remedies of the Secretary or of any other person with respect to any such violation.

§ 963.67 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon the termination of this part, except with respect to acts done under and during the existence of this part.

§ 963.68 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 963.69 *Derogation.* Nothing contained in the provisions of this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 963.70 *Personal liability.* No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other act, either of commission, or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 963.71 *Separability.* If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or things shall not be affected thereby.

Order Directing That Referendum Be Conducted; Designation of Agents To Conduct Referendum; and Determination of Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as Amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), it is hereby directed that a referendum be conducted among producers who, during the period August 1, 1957, through July 31, 1958 (which is

hereby determined to be a representative period for the purpose of such referendum), were engaged, in the counties of Okanogan, Chelan, Kittitas, Yakima, and Skamania in the State of Washington, and all the counties of that State situated east of such counties, in the production of apples for market to ascertain whether such producers favor the issuance of an order regulating the handling of apples grown in the aforesaid production area, which order is annexed to the decision of the Secretary of Agriculture filed simultaneously herewith. Robert H. Eaton and Allan Henry, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated agents of the Secretary of Agriculture to conduct said referendum severally or jointly.

The procedure applicable to this referendum shall be "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176; 19 F. R. 35).

Copies of the aforesaid annexed order, of the aforesaid referendum procedure, and of this order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D. C.

Ballots to be cast in the referendum, and other necessary forms and instructions, may be obtained from any referendum agent or appointee.

[7 CFR Part 1016]

HANDLING OF MILK IN NORTHEASTERN WISCONSIN MARKETING AREA

NOTICE OF REVISED RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Correction

In Federal Register Document 58-6816, published at page 6510 in the issue for Friday, August 22, 1958, paragraph (a) of § 1016.70 should read as follows:

§ 1016.70 *Time and method of payment.* (a) (1) Except as provided in paragraphs (b) and (c) of this section, on or before the 18th day after the end of each month each handler who received milk from producers shall pay for milk received during such month to each producer for milk received from him the uniform price as provided in § 1016.61 adjusted by the butterfat differential pursuant to § 1016.62 and the location adjustment pursuant to § 1016.63.

(2) If by such date a handler has not received full payment pursuant to § 1016.73, he may reduce his total payments to all producers and cooperative associations uniformly by not more than the amount of reduction in payment from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments following receipt of the balance from the market administrator.

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

CITY OF OAKLAND, CALIF., AND ENCINAL TERMINALS

NOTICE OF AGREEMENTS FILED WITH BOARD FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U. S. C. 814):

(1) Agreement No. 8335, between the City of Oakland, California, and Encinal Terminals, covers the lease to Encinal of certain terminal property in the Outer Harbor Terminal Area and the Ninth Avenue Terminal Area, more particularly described in the agreement, on terms and conditions set forth therein, for a period of ten (10) years beginning on the first day of the month next succeeding thirty (30) days following approval by the Board of this agreement. This agreement, upon approval, will replace Agreements Nos. 8095 and 8155, both as amended.

(2) Agreement No. 8095-C, between the City of Oakland, California, and Encinal Terminals, provides for the cancellation of approved Agreement No. 8095, as amended and extended by Agreements Nos. 8095-1 and 8095-2, covering the lease to Encinal of the City of Oakland's Ninth Avenue Terminal Area, to become effective the date of commencement of lease under Agreement No. 8335, described above.

(3) Agreement No. 8155-C, between the City of Oakland, California, and Encinal Terminals, provides for the cancellation of approved Agreement No. 8155, as amended and extended by Agreements Nos. 8155-1, 8155-2, and 8155-3, covering the lease to Encinal by the City of Oakland of certain marine terminal facilities in the Outer Harbor Terminal Area, to become effective the date of commencement of lease under Agreement No. 8335, described above.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: August 20, 1958.

By order of the Federal Maritime Board.

CIVIL AERONAUTICS BOARD

[Docket No. SR-2276]

C. G. CHAMBERS

NOTICE OF ORAL ARGUMENT

In the matter of James T. Pyle, Administrator of Civil Aeronautics, complainant v. C. G. Chambers, respondent, Docket No. SR-2276.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on September 17, 1958, at 10:00 a. m., e. d. s. t., in Room 5042, Commerce Building, 14th Street and Constitution Avenue NW., Washington, D. C., before the Board. The respondent has been allotted 30 minutes and the Administrator 30 minutes to be presented in that order. The respondent may reserve one-quarter of his allotted time for rebuttal.

Dated at Washington, D. C., August 20, 1958.

FEDERAL POWER COMMISSION

[Docket No. E-6837]

CENTRAL MAINE POWER CO.

NOTICE OF APPLICATION

AUGUST 19, 1958.

Take notice that on August 11, 1958, an application was filed with the Federal Power Commission pursuant to section 203 of the Federal Power Act by Central Maine Power Company (Applicant), a corporation organized under the laws of the State of Maine and doing business in the State of Maine only with its principal business office at Augusta, Maine, seeking an order authorizing the purchase of the properties, assets and franchises of Rumford Light Company ("Rumford"), a corporation organized under the laws of the State of Maine and doing business only in said State with its principal business office at Rumford, Maine. Applicant generates purchases, transmits, distributes and sells electric energy in all sixteen counties of Maine except Aroostook and Washington Counties. Applicant also has an arrangement with Public Service Company of New Hampshire for the interchange of secondary electric energy at the metering point in North Berwick, Maine. Rumford purchases, distributes and sells electric energy in or part of twelve towns in Oxford County, Maine. The consideration for the aforesaid purchase is to be in cash with the amount to be determined as follows: (1) Original cost of Rumford's operating properties less accrued depreciation, customer contributions and advances; (2) the cost of the operating materials and supplies and other inventory owned by Rumford at the time of the sale; (3) the amount of accounts receivable of Rumford less customer deposits and accrued interest thereon; (4) the amount of accrued utility revenues adjusted as of the date of sale. The date of the aforesaid sale is to be fixed as the last day of the month in which regulatory bodies grant Applicant permission to effect the purchase from Rumford. Applicant proposes to furnish electric service to the public in those towns now being served by Rumford. Applicant states that its arrangements with Rumford for the purchase of Rumford's property will be the most economical and will benefit the public now being served.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the ninth day of September 1958, file with the Federal Power Commission, Washington 25, D. C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[1] Undated.

The increased rates and charges proposed are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refunds in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges until August 2, 1958, and thereafter to permit them to become effective as of that date: *Provided*, That within 20 days from the date of this order, each Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of each of the said proposed changes, and that the supplements herein designated be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondents' proposed increased rates be made effective as hereinafter provided and that each Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in each of the supplements to Respondents' FPC Gas Rate Schedules as herein designated.

(B) Pending such hearings and decisions thereon, each of said supplements be and each is hereby suspended and the use thereof deferred until August 2, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in each of the aforementioned supplements to Respondents' FPC Gas Rate Schedules shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, each Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Each Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondents herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondents shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondents so elect, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the dates upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, each Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of _____ To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued _____, in Docket No. G-_____, _____ hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this _____ day of _____.

_____

By _____

Attest:

_____

(Secretary)

Unless a Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, his agreement and undertaking shall be deemed to have been accepted.

(F) Each Respondent who, in conformity with the terms and conditions of paragraph (D) of this order, makes such refunds as may be required by order of the Commission, shall be discharged of his undertaking; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the periods of suspension have expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: August 15, 1958.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-2323]

UNIVERSAL SECURITIES, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 19, 1958.

I. Universal Securities, Inc., (Universal), a North Dakota corporation, 405 North Third Street, Bismarck, North Dakota, filed with the Commission on July 22, 1958, a notification on Form 1-A and an offering circular relating to a proposed offering of 20,000 shares of Class A common stock, 50¢ par value, at $7.50 per share, and 1,500 shares of its preferred stock, $100 par value, at $100 per share, or an aggregate of both classes of stock of $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof, and Regulation A, promulgated thereunder. Sam Parker Pandolfo (Pandolfo) was named as principal underwriter.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that:

1. The notification on Form 1-A is deficient in that:

a. A written certification signed by the underwriter of the securities proposed to be offered has not been filed as an exhibit to the notification as required by Item 11 (c);

b. The response to Item 2 fails to disclose the required information with respect to affiliates of Universal;

c. The response to Item 9 fails to disclose the required information with respect to sales of unregistered securities of the issuer or any of its predecessors or affiliated issuers, which were sold within one year prior to the filing of this notification by or for the account of any person who at the time was director, officer, promoter, or principal security holder of the issuer.

d. The response to Item 10 fails to disclose the required information with respect to contemplated offerings of securities in addition to those covered by this notification.

2. The offering circular fails to set forth:

a. Certain of the rights of the preferred shareholders in regard to liquidation, as required by paragraph 7 (a) of Schedule I;

b. The location and general character of the physical properties now held or presently intended to be acquired and the nature of the title under which such properties are held or proposed to be held, as required by paragraph 8C (b) of Schedule I;

c. The names and complete residence addresses of all promoters of Universal as required by paragraph 9 (a) of Schedule I; and

d. All direct and indirect interests of directors, officers, and promoters in Universal or its affiliates, and in any material transactions within the past two years, as required by paragraph 9 (c) of Schedule I.

B. The notification and offering circular contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The failure to adequately disclose in the offering circular the background and past experience of Sam Parker Pandolfo.

2. The failure to disclose in the offering circular the book value of Universal's Class A common stock, its relationship to the price of the securities to be offered, and the basis for the determination of the offering price.

3. The failure to adequately disclose in the offering circular the person in whom voting control will rest upon completion of the offering.

4. The failure to disclose in the offering circular the reasons, purposes and circumstances explaining the choice of Sam Parker Pandolfo as underwriter.

5. The failure to disclose in the offering circular the extent, nature and scope of all of Universal's past and prospective business operations.

6. The failure to disclose in the offering circular the fact that neither Universal or Pandolfo are registered broker-dealers with the Commission.

7. The failure to adequately disclose in the offering circular the interests of Pandolfo and Great Northern Investment Company in the Union Reserve Life Insurance Company.

8. The failure to adequately disclose in the offering circular the terms, conditions and scope of Universal Securities exclusive insurance agency agreement with Union Reserve Life Insurance Company.

9. The failure to disclose in the offering circular the background and experience of Universal's promoters and officers.

10. The failure to disclose in the offering circular the contingent liabilities incurred by Universal as a result of stock purchases and sales.

C. The offering, if made by means of the offering circular filed on July 22, 1958, would be made in violation of section 17 of the Securities Act of 1933, as amended.

III. *It is ordered*, Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given to Universal and to any person having any interest in the matter that this order has been entered; that the Commission upon receipt of a written request within thirty days after entry of this order will, within twenty days after the receipt of such request, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether to vacate the order or to enter an order permanently suspending the exemption, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect, unless or until it is modified or vacated by the Commission, and that notice of the time and place for any hearing will promptly be given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[List No. 23-7]

CERTAIN PUSH-BUTTON PUPPETS

COMPLAINT RECEIVED

AUGUST 19, 1958.

The United States Tariff Commission hereby gives notice of the receipt, on August 7, 1958, of a complaint under section 337 of the Tariff Act of 1930 (19 U. S. C. 1337, 1337 (a)) filed by Kohner Brothers, a partnership, 155 Wooster Street, New York, N. Y., alleging unfair methods of competition and unfair acts in the importation and sale of certain foreign push-button puppets.

In accordance with the provisions of § 203.3 of the rules of practice and procedure of the Commission (19 CFR 203.3) the Commission has initiated a preliminary inquiry into the allegations of this complaint for the purpose of determining (a) whether the institution of an investigation under section 337, above, is warranted, and (b) whether the issuance of a temporary order of exclusion from entry under section 337 (f) of the Tariff Act of 1930 (19 U. S. C. 1337 (f)) is warranted.

A copy of the complaint is available for public inspection at the offices of the United States Tariff Commission located at Eighth and E Streets NW., Washington, D. C., and also in the New York Office of the Tariff Commission, located in Room 437 of the Custom House.

Persons desiring to submit information pertinent to the aforementioned purposes of the preliminary inquiry may do so by submitting their views in writing to the Secretary, United States Tariff Commission, Washington 25, D. C. Fifteen copies of any such submission are required.

Issued: August 20, 1958.

By order of the Commission.

DEPARTMENT OF JUSTICE

Office of Alien Property

STATEMENT OF ORGANIZATION AND DELEGATIONS OF FINAL AUTHORITY

MISCELLANEOUS AMENDMENTS

The Statement of Organization and Delegations of Final Authority of the Office of Alien Property (21 F. R. 1241), as amended, are hereby amended as follows and not otherwise:

1. Subparagraph 5 (c) is amended to read:

(c) *Litigation Section.* Under the supervision of the Chief, Litigation Section, this Section conducts all litigation concerning the Office, matters which may be referred to the Section for enforcement or possible litigation and such title claim proceedings under the Trading With the Enemy Act, as amended, as may be referred by the Director.

(1) The Chief, Litigation Section, is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions.

(2) In the exercise of his authority with respect to title claims under the Trading With the Enemy Act, as amended, insofar as it relates to a position taken by the Litigation Section prior to allowance or final disallowance of a claim, the Chief, Litigation Section, shall sign in his own name and title.

(3) The Chief, Litigation Section, is authorized to execute receipts, surrenders, releases or other instruments to evidence action which may be consummated in cases referred to or handled by the Section.

2. The first sentence of subparagraph 5 (d) is amended as follows:

(d) *Claims Section.* Under the supervision of the Chief, Claims Section, this Section processes all claims under the Trading With the Enemy Act, as amended, or under Title II of the International Claims Settlement Act of 1949 for the return of property or the payment of debts of former owners of vested property, except such title claims under the

Trading With the Enemy Act, as amended, as may be referred by the Director to the Litigation Section of the Office.

• • • • •

3. Subparagraph 5 (e) is amended as follows:

(e) *Liquidation Section.* Under the supervision of the Chief, Liquidation Section, this Section is responsible for matters relating to the operation or liquidation of business enterprises which have been supervised or vested, for the management and liquidation of vested real and personal property, for collection, custody and administration with respect to vested interests in estates and trusts and vested rights under contracts of life insurance and annuity and for all matters relating to the administration of trade-marks and copyrights and rights or interests therein or related thereto vested under the Trading With the Enemy Act, as amended, or controlled thereunder by 8 CFR, Part 507. This Section also performs certain functions in connection with effectuating returns of vested property.

• • • • •

(3) The Chief, Liquidation Section, and within this Section, the Chief, Collection and Custody Unit and the Assistant Chief, Collection and Custody Unit, are severally authorized:

• • • • •

(ii) To take custody of any property or interest therein which is vested in, or is transferable or deliverable to, the Attorney General under the Trading With the Enemy Act, as amended, or Title II of the International Claims Settlement Act of 1949; to accept payment, assignment, transfer, assignment or delivery made to or for the account of the Attorney General pursuant to said Act or Title; to exercise any right of election to surrender or release any vested life insurance policy contract rights or interests therein against payment of said surrender value; and to execute receipts, surrenders, releases or other instruments to evidence such action;

• • • • •

Executed at Washington, D. C., on August 19, 1958.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

- Lemons grown in California and Arizona; limitation of handling 6591
- Prunes, dried, produced in California; reports of holdings, acquisitions, sales, uses, and shipments 6592
- Raisins produced from raisin variety grapes grown in California; finding regarding estimated season average price 6591

Agriculture Department

See Agricultural Marketing Service; Commodity Stabilization Service.

Alien Property Office

Notices:
- Intention to return vested property:
  - Koefoed, Axel Emil, et al 6613
  - Mainz, Mrs. Lore Hermine, et al 6614
  - Netherlands Government for benefit of Amsterdamsche Bank, N. V., et al 6613

Rules and regulations:
- Claims procedure; definitions; indispensable party 6592

Civil Aeronautics Board

Proposed rule making:
- Pilot recent experience requirements; withdrawal of notice 6601

Commodity Stabilization Service

Notices:
- Tobacco, fire-cured and Virginia sun-cured; referendum 6610

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

SEMIANNUAL CFR SUPPLEMENT

(As of July 1, 1958)

The following semiannual cumulative pocket supplement is now available:

Title 46, Parts 146–149, 1958 Supplement 1 ($1.00)

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

CONTENTS—Continued

PART 446—PEANUTS

SUBPART—1958 CROP PEANUT PRICE SUPPORT PROGRAM

This bulletin (hereinafter called subpart) contains the regulations applicable to the 1958 crop Peanut Price Support Program, under which the Secretary of Agriculture makes price support available through the Commodity Credit Corporation and the Commodity Stabilization Service (hereinafter referred to as CCC and CSS respectively).

Sec.

446.1001	Administration.
446.1002	Availability.
446.1003	Methods of price support.
446.1004	Definitions.
446.1005	Support prices.
446.1006	Price support schedule.
446.1007	Eligible peanuts.
446.1008	Eligible producer.
446.1009	Determination of type and grade.
446.1010	Service charges and fees.
446.1011	Interest rate.
446.1012	Applicable forms and requirements.
446.1013	Personal liability of the borrower.
446.1014	Payments and collections; amounts not exceeding $3.00.
446.1015	Setoffs.
446.1016	Foreclosure.
446.1017	Financial institutions.
446.1018	Approved lending agency.
446.1019	Assignment of association loans.
446.1020	Farm storage loan provisions.
446.1021	Loans to associations.
446.1022	Purchase agreements.

AUTHORITY: §§ 446.1001 to 446.1022 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054, sec. 201, 68 Stat. 899; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421.

§ 446.1001 *Administration.* (a) The program will be administered by the Oils and Peanut Division, CSS, under the general direction and supervision of the Executive Vice President, CCC. In the field the program will be carried out by Agricultural Stabilization and Conservation State Committees and by Agricultural Stabilization and Conservation County Committees (hereinafter called State and county committees) and the Dallas CSS Commodity Office (hereinafter called the commodity office). State and county committees and the commodity office do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements thereto.

(b) Associations operating under an Association Loan and Handling Agreement CCC Peanut Form 27 (1958) with CCC (hereinafter referred to as an Agreement with CCC) may receive, arrange storage for and handle eligible peanuts for and on behalf of eligible producers, using such peanuts as collateral for a loan made available by CCC.

§ 446.1002 *Availability*—(a) *Areas.* The program will be available in the following areas:

(1) The Southeastern area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The Southwestern area consisting of the States of Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, and Texas.

(3) The Virginia-Carolina area consisting of the States of Missouri, North Carolina, Tennessee, Virginia, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(b) *Time.* Loans will be made through January 31, 1959, and will mature on May 31, 1959, or such earlier date as may be specified by CCC: *Provided, however,* That CCC may extend the maturity date beyond May 31, 1959. All farm storage loan documents must be dated and delivered to the county office on or before January 31, 1959. Warehouse receipts for peanuts delivered to an association operating under an Agreement with CCC must show that the peanuts were received in the warehouse not later than January 31, 1959, and must have been issued within two business days (excluding Saturdays) after the peanuts were received in the warehouse. Purchase agreements will be available at the county office through January 31, 1959. A producer who desires to sell peanuts to CCC is required to file Commodity Purchase Form 1 with the county office on or before such date.

§ 446.1003 *Methods of price support.* CCC will support the price of eligible 1958 crop quota peanuts through nonrecourse farm storage loans to eligible producers, non-recourse warehouse storage loans to Associations operating under Agreements with CCC, and through purchase agreements with eligible producers.

§ 446.1004 *Definitions.* As used in this subpart and in instructions and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *Association.* A group of producers organized in accordance with the provisions of the Capper-Volstead Act, for the purpose of handling agricultural products for and on behalf of its producer members, which qualifies as a cooperative in the State(s) in which it functions, is approved by CCC, and meets the following requirements:

(1) The major portion of the peanuts handled by the association is delivered to the association by producer members;

(2) The members and any non-members for whom the association handles peanuts have a right to share pro rata in the profits made from handling peanuts;

(3) The association has the legal right to pledge or mortgage the peanuts tendered as security for a loan;

(4) The manager of the association must not be engaged in the business of buying, selling, storing, or dealing in peanuts, other than in his capacity as manager of the association or as a producer; and

(5) The association shall maintain such accounts and records as CCC may prescribe.

(b) *County office.* The office of the ASC county committee where records for the farm are kept.

(c) *Farm.* A farm as defined in the marketing quota regulations which in general defines a farm as all adjacent or nearby farmland which is operated as one farming unit.

(d) *Farm allotment.* The effective farm allotment for the 1958 crop of peanuts as defined in the marketing quota regulations.

(e) *Farmers stock peanuts.* Picked or threshed peanuts produced in the con-

tinental United States during the calendar year 1958, which have not been shelled, crushed, cleaned (except for removal of foreign material and loose shelled kernels) or otherwise changed from the state in which picked or threshed peanuts are customarily marketed by producers.

(f) *Farm peanut acreage.* The 1958 farm peanut acreage determined in accordance with the marketing quota regulations which in general defines such acreage as the total acreage of peanuts on the farm which is picked or threshed.

(g) *Lot.* That quantity of peanuts for which one inspection memorandum is issued.

(h) *Marketing quota regulations.* The Allotment and Marketing Quota Regulations for peanuts of 1957 and Subsequent Crops issued by the Acting Secretary of Agriculture, including any amendments or supplements thereto or revisions thereof (21 F. R. 9370).

(i) *Net weight.* That weight obtained by multiplying the gross weight by a percentage equal to 100 percent minus the sum of the percentages of (1) foreign material and (2) moisture in excess of 7 percent in the Southeastern and Southwestern areas or 8 percent in the Virginia-Carolina area.

(j) *Operator.* The person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(k) *Producer.* A person who, as owner, landlord, tenant, or sharecropper, is entitled to share in the peanuts produced on the farm or in the proceeds thereof.

(l) *Quota peanuts.* Peanuts which are within the amount of the farm marketing quota determined pursuant to the marketing quota regulations.

(m) *Type.* The generally known types of peanuts (i. e. Runner, Spanish, Valencia, and Virginia) as defined in 7 CFR 729.904 of the "Determination with Respect to Supply of Valencia Type Peanuts for the 1958–59 Marketing Year," issued April 11, 1958, by the Acting Secretary of Agriculture (23 F. R. 2443).

(n) *Within quota card.* Form MQ–76 (Peanuts) 1958, 1958 Peanut Within Quota Marketing Card, issued pursuant to the marketing quota regulations.

§ 446.1005 *Support prices.* The natural average support price is $213.20 per ton. The support prices and loan rates by types, and the premiums and discounts with respect thereto, are contained in § 446.1006.

§ 446.1006 *Price support schedule.* The following price support schedule applies to farmers stock peanuts in bulk or in bags, net weight basis, eligible for loan or purchase agreement under the terms of the peanut price support program.

(a) *Average support prices.* The support price by type per average ton of 1958 crop quota peanuts will be:

	Per ton
Virginia	$224.97
Runner type	200.50
Southeastern Spanish type	217.69
Southwestern Spanish type	209.69
Valencia type suitable for cleaning and roasting	220.17

(b) *Calculation of support prices.* The support price per ton for each type of peanuts shall be calculated on the basis of the following rates, premiums and discounts:

(1) *Kernel values per net ton excluding loose shelled kernels.* (i) Price for each percent of sound mature kernels:

Virginia type	$3.10
Runner type	2.96
Southeastern Spanish type	3.07
Southwestern Spanish type	3.02
Valencia type:	
A. Southwestern area:	
(aa) Suitable for cleaning and roasting	3.24
(bb) Not suitable for cleaning and roasting	3.02
B. Areas other than Southwest	3.07

(ii) Price for each percent of damaged and other kernels: $1.40.

(iii) Premium for each percent extra large kernels in Virginia type peanuts: $0.40.

(2) *Value of loose shelled kernels per pound.* $0.07.

(3) *Damaged kernel discount.* For all types of peanuts the discount per ton for damaged kernels riding the screen prescribed for determination of sound mature kernels for that type shall be as follows:

Peanuts containing damaged kernels of:	Discount
1 percent	None
2 percent	$3.20
3 percent	6.40
4 percent	11.20
5 percent	17.60
6 percent	24.00
7 percent	33.60
8 percent and over	(1)

[1] Not eligible for price support.

(4) *Foreign material discount.* The discount for each full 1 percent foreign material in excess of 4 percent and not over 10 percent shall be $1.00 per ton. Peanuts with more than 10 percent foreign material shall not be eligible for price support.

(5) *Florispan peanuts.* Florispan peanuts will be supported at a price equivalent to 65 percent of the support price for Runner type peanuts of the same grade.

(6) *Variety X peanuts.* The support price of an unnamed and undesirable variety of peanuts grown in Virginia from seed stock commercially developed in Windsor, Isle of Wight County, Virginia, and known as Variety X will be discounted 50 percent of the rate for Virginia type peanuts of the same grade, with no premium for extra-large kernels.

(c) *Definitions*—(1) *Sound mature kernels.* The term "sound mature kernels" means kernels which are free from damage and minor defects as defined in the U. S. Standards for shelled (i) Spanish type peanuts effective July 31, 1956, in the case of Spanish and Valencia peanuts, (ii) Runner type peanuts, effective July 31, 1956, or (iii) Virginia type peanuts, effective September 15, 1957; and which will not pass through a screen having:

(a) $^{15}/_{64}$ x ¾ inch perforations in the case of Spanish and Valencia peanuts,

(b) $^{15}/_{64}$ x 1 inch perforations in the case of Virginia peanuts,

(c) $^{16}/_{64}$ x ¾ inch perforations in the case of Runner peanuts.

(2) *Extra large kernels.* "Extra large kernels" means shelled Virginia type peanuts which will not pass through a screen having 21.5/64 x 1 inch openings and which are "whole" and free from "minor defects" and "damage," as such terms are defined in the U. S. Standards for Shelled Virginia Type Peanuts (effective September 15, 1957).

(3) *Virginia type peanuts.* Virginia type peanuts, to receive price support as Virginia type, must contain 30 percent or more "Fancy" size (i. e., peanuts riding a $^{31}/_{64}$ x 3 inch slotted screen). Virginia type peanuts containing less than 30 percent "Fancy" size will be supported as though they were Runner type.

(4) *Valencia type peanuts suitable for cleaning and roasting.* Valencia type peanuts suitable for cleaning and roasting shall be those containing less than 25 percent discoloration and damage caused by cracked and broken shells.

(d) *Producer advance value.* The support price of eligible peanuts less an amount equivalent to $9.00 per net weight ton to provide funds to pay inspection, storage, and part of the association's expenses in connection with the loan program.

§ 446.1007 *Eligible peanuts.* Peanuts eligible for price support are 1958 crop farmers stock peanuts, other than those produced in violation of a restrictive lease on Federally owned land, or produced on any newly irrigated or drained lands within any Federal irrigation or drainage project as provided in section 211 of the Agricultural Act of 1956, which:

(a) Contain not more than 10 percent foreign material and not more than 7 percent damaged kernels;

(b) Contain moisture not in excess of (1) 10 percent if placed under a farm storage loan, or (2) 9 percent in the Southeast and Southwest areas and 10 percent in the Virginia-Carolina area when received into a warehouse as collateral for a loan to the association or when delivered under a purchase agreement; except that any such peanuts which have been mechanically dried shall contain at least 5 percent moisture in the Southeast and Southwest areas and 6 percent moisture in the Virginia-Carolina area.

(c) Are properly identified by a within quota marketing card;

(d) Are produced by an eligible producer on a farm on which the 1958 farm peanut acreage does not exceed the larger of the 1958 farm allotment or one acre, or for which a within quota marketing card is issued to the producer or operator upon the execution of Form MQ–92—Peanuts (3–26–58) Agreement by Operator of Overplanted Peanut Farm, in which he agrees that the farm peanut acreage will not exceed the larger of the farm allotment or one acre, and if such undertaking is breached to pay liquidated damages to CCC, determined in accordance with the terms of such agreement, and to pay any marketing penalties determined to be due the Secretary of Agriculture.

(1) The liquidated damages payable to CCC under such agreement may be waived in a case where it is determined that the breach of such agreement was unintentional and occurred despite a bona fide effort by the operator and other producers on the farm to comply with such agreement. The State administrative officer, or in his absence, the acting administrative officer, is authorized to make such determination in a case where the farm peanut acreage does not exceed the acreage specified in the agreement by more than the larger of one-tenth acre or two percent of the acreage specified in the agreement. The State committee is authorized to make such determination in a case where the farm peanut acreage exceeds the acreage specified in the agreement by more than the larger of one-tenth acre or two percent of the acreage specified in the agreement and the State committee also determines that the amount by which the farm peanut acreage exceeded the acreage specified in the agreement was so small, in relation to the acreage so specified, that it did not materially impair CCC's price support operations.

(2) Copies of Form MQ–92—Peanuts (3–26–58) may be obtained from the county committee. The county committee may decline to execute such agreement in any case where it finds reasonable grounds to believe that it will be used as a device to evade the requirements of the price support program or the collection of marketing penalty.

(e) Are free and clear of all liens and encumbrances, including landlord's liens, or if liens or encumbrances exist on the peanuts, acceptable waivers are obtained.

(f) In the Southwest area, if such peanuts are bagged, the bags are new or thoroughly cleaned used bags which are made of material, other than mesh or net, weighing not less than 7½ ounces nor more than 10 ounces per square yard and containing no sisal fibers, are free from holes, and are finished at the top with either the selvage edge of the material, binding, or a hem. Such bags shall be of uniform size with approximately 2-bushel capacity.

§ 446.1008 *Eligible producer.* A producer will be eligible for price support with respect to all eligible peanuts in which the beneficial interest is in him and has always been in him, or in him and a former producer whom he succeeded before the peanuts were harvested. To meet the requirements of succession to a former producer, the rights, responsibilities, and interest of the former producer with respect to the farming unit on which the peanuts are produced shall have been substantially assumed by the producer claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. Where the county office has experienced difficulty in settling a farm-storage loan with a producer, the county committee may determine that he is not eligible for a 1958 crop farm-storage loan. If such determination is made, the producer shall be able to obtain a 1958 crop loan through the association by delivering eligible peanuts to a warehouse under contract to receive peanuts for such association.

§ 446.1009 *Determination of type and grade.* A Federal or Federal-State inspector, authorized or licensed by the Secretary of Agriculture, U. S. Department of Agriculture, shall determine the type and grade of each lot of peanuts:

(a) To be mortgaged as security for a farm storage loan, such type and grade to be determined on the basis of a sample taken by the county committee before the loan is made;

(b) When delivered in settlement of a farm storage loan;

(c) When delivered to CCC under a purchase agreement;

(d) When received in a warehouse under contract CCC Peanut Form 28 (1958);

(e) When delivered to CCC from a warehouse under contract CCC Peanut Form 28 (1958).

The grade shall be expressed in terms of the percentages of sound mature kernels, damaged kernels, loose shelled kernels, other kernels, foreign material, moisture, and extra large kernels in Virginia type peanuts.

§ 446.1010 *Service charges and fees.* (a) On the quantity of peanuts placed under a farm storage loan the producer shall pay an initial service charge in the amount of 30 cents per ton, except that the minimum charge shall be $3.00. An additional service charge at the rate of 30 cents per ton shall be paid on any additional quantity delivered to and accepted by CCC. On the quantity of peanuts covered by a purchase agreement the producer shall pay, at the time the agreement is filed, a service charge of 15 cents per ton or fraction thereof, except that the minimum charge shall be $1.50. No refund of service charges will be made except where the amount collected exceeds the correct amount. State committees may, at their option, require a deposit on farm storage loans, such deposit to be applied against the service charge when the loan is granted.

(b) The producer will pay the fee for inspecting peanuts placed under a farm storage or association loan or delivered to CCC under a purchase agreement. CCC will pay the fee for inspecting loan collateral peanuts acquired by CCC.

(c) The association will pay the warehouse charges on peanuts redeemed. CCC will pay warehouse charges with respect to loan collateral peanuts acquired by CCC, except that the producer will be required to defray storage charges accruing prior to May 31, 1959.

(d) The service charges and fees specified in this section will be computed on gross weights.

§ 446.1011 *Interest rate.* Loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement of the loan, except that (a) where there is a default in satisfaction of a farm storage loan the deficiency shall bear interest at the rate of 6 percent per annum from the date of default, and (b) where there has been a fraudulent representation by the producer in the loan documents or in obtaining the loan, the loan shall bear interest at the rate of 6 percent per annum from the date of disbursement of the loan.

§ 446.1012 *Applicable forms and requirements*—(a) *Farm storage loans.* Applicable forms are the Producer's Note and Supplemental Loan Agreement, secured by Commodity Chattel Mortgage, delivery instructions issued by the county office, Loan Settlement, and such other forms and documents as may be required by CCC.

(b) *Purchase agreements.* Applicable forms are the Purchase Agreement, Purchase Agreement Settlement, the delivery instructions issued by the county office, and such other forms and documents as may be required by CCC.

(c) *Other requirements.* Producer's Note and Supplemental Loan Agreements, and Commodity Chattel Mortgages must have State and documentary revenue stamps affixed thereto where required by law. Loan and purchase agreement documents executed by an administrator, executor, or trustee, will be acceptable only where legally valid. Farm storage loans shall be made on the entire quantity of peanuts stored in a bin or crib except where the county committee has determined that a loan on part of the peanuts stored therein is necessary to enable an otherwise eligible producer to obtain a price support loan. However, approval of a loan on part of the peanuts stored in a bin or crib shall not be granted in the event the State committee has determined on a State-wide basis that such partial loans shall not be made. A producer shall not have both a farm storage loan and purchase agreement on peanuts stored commingled in the same bin or building.

§ 446.1013 *Personal liability of the borrower.* The making of any fraudulent representation in obtaining a loan or the conversion or unlawful disposition of any portion of the peanuts by the borrower may render such borrower subject to criminal prosecution under Federal law and shall render him personally liable for the amount received (plus interest) and for any resulting expense incurred by any holder of the note. For the purpose of establishing any deficiency remaining due in the event the producer has made any such fraudulent representation, wilful conversion or unlawful disposition, the value of the commodity or part thereof delivered to the holder of the note or removed by such holder shall be the market value on the date of delivery or removal, as determined by such holder in the case of farm storage loans. Irrespective of the provisions of the Producer's Note and Supplemental Loan Agreement, if the conversion is determined by CCC not to have been wilful, the value of the commodity or part thereof delivered to the holder of the note or removed by such holder shall be the settlement value determined pursuant to § 446.1018 (l) (4). In the event the amount disbursed under a loan or purchase agreement exceeds the amount authorized in this subpart, the producer shall be personally liable for repayment of the amount of such excess.

§ 446.1014 *Payments and collections; amounts not exceeding $3.* To avoid ad-

ministrative costs of making small payments and handling small accounts, amounts of $3 or less due a producer will be paid only upon request; and a deficiency of $3 or less, including interest, may be disregarded unless demand for payment is made by CCC.

§ 446.1015 *Set-offs.* (a) If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due, or are payable under the provisions of the note evidencing such loan out of the proceeds of the price support loan or purchase, such producer must designate CCC or the lending agency holding such note as the payee of the proceeds of the price support loan or purchase to the extent of such indebtedness or installments, plus interest, if any, but not to exceed that portion of the proceeds remaining after deduction of loan service charges and amounts due prior lien-holders. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided in this section. Indebtedness owing to CCC or to a lending agency as provided in this section shall be given first consideration after claims of prior lien-holders.

(b) Associations shall deduct from their advance payments to producers, and remit in accordance with procedure approved by CSS, the amount of indebtedness as shown on the marketing cards presented at the time the peanuts are received, plus interest.

(c) Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 446.1016 *Foreclosure.* If the loan is not satisfied upon maturity by payment, or by delivery of the peanuts from farm storage, the holder of the note is authorized to remove the peanuts and sell them. Any sum due the borrower as a result of the sale of the peanuts shall be payable only to the borrower without right of assignment.

§ 446.1017 *Financial institutions.* As used in this subpart a financial institution is a commercial bank which accepts demand deposits, or an association organized pursuant to State laws and supervised by State banking authorities, or a production credit association.

§ 446.1018 *Approved lending agency.* An approved lending agency shall be a bank or other financial organization with which CCC has entered into a lending agency agreement, CCC Peanut Form 50 (1958), authorizing the lending agency to make a loan to an association.

§ 446.1019 *Assignment of association loans.* Approved lending agencies making loans to associations may assign all or part of such loans to CCC and obtain payment for the amounts assigned by means of sight drafts drawn on CCC payable through a designated Federal Reserve Bank or Branch Bank. Lending agencies may act as agents for CCC in servicing the loan or portion thereof assigned to CCC.

§ 446.1020 *Farm storage loan provisions.* Loans will be available to eligible producers on eligible peanuts in approved farm storage. Producers who want to obtain such loans will apply at the county office where the farm program records are kept, and that office will arrange for inspection of the storage facilities and for inspection, sampling, and grading of the peanuts. After it is determined that the producer, the peanuts, and the storage facilities meet the requirements therefor, the county office will determine the amount of the loan and prepare and approve the loan documents. Copies of all such documents will be kept in the county office. After the loan documents are approved, disbursement will be made by a financial institution or by sight draft drawn on CCC by the county office. The producer may deliver the peanuts to CCC upon maturity of the loan, or may redeem the peanuts at any time prior to such delivery by repaying the amount of the loan plus interest and charges.

(a) *Approved farm storage.* Approved farm storage shall consist of storage structures located on or off the farm (excluding public warehouses), which are determined by the county office to be so located and of such substantial and permanent construction as to afford safe storage of peanuts. Such structures shall be dry and well-ventilated.

(b) *Method of determining quantity—* (1) *Peanuts placed under loan.* The net weight of the peanuts to be placed under a farm storage loan will be calculated from an estimated gross weight determined as provided in this section.

(i) *Peanuts stored in bulk.* The estimated gross weight of bulk peanuts may be determined either by actual weight or by measurement. When the quantity is determined by measurement, the gross weight shall be computed on the number of pounds per cubic foot indicated below for the type of peanuts being placed under loan:

Type:	Weight per cu. ft. (pounds)
Runner	16.9
Spanish	19.7
Valencia	17.5
Virginia	13.5

(ii) *Peanuts stored in bags.* The estimated gross weight of bagged peanuts shall be determined by weighing a sufficient number of bags to estimate the gross weight of all the bags, or the gross weight may be determined by weighing all the bags.

(iii) A minimum reduction of 5 percent in the estimated gross weight, determined as provided in subdivision (i) or (ii) of this subparagraph is required in an effort to avoid underdelivery at maturity in the event the loan is not repaid.

(2) *Peanuts delivered to CCC at maturity.* The net weight of peanuts delivered to CCC upon maturity of the loan shall be calculated from the gross weight determined by actual weight at the time of delivery.

(c) *Disbursement.* Disbursement of farm storage loans will be made to producers by financial institutions, pursuant to the Provisions for Participation of Financial Institutions in Pools of CCC Price Support Loans of Certain Commodities (23 F. R. 3913) and any amendments or supplements thereto, or by sight drafts drawn on CCC by the county office. Disbursement shall not be made after February 15, 1959, unless authorized by the Executive Vice President, CCC. Payment in cash, credit to the producer's account, or the drawing of a check or draft shall constitute disbursement. The date of such draft, check, credit, or cash payment shall be considered as the date of disbursement of the funds. The producer shall not present the loan documents for disbursement unless the peanuts are in existence and in good condition. If the peanuts are not in existence or not in good condition at the time of disbursement, the total amount disbursed under the loan shall be promptly refunded by the producer.

(d) *Insurance.* CCC will not require the borrower to insure the peanuts placed under a farm storage loan. However, if a borrower does insure such peanuts and an insurance indemnity is paid thereon, the insurance proceeds must be paid to CCC to the extent of its interest, after first satisfying the borrower's equity in the peanuts involved in the loss.

(e) *Safeguarding the peanuts.* The producer who obtains a farm storage loan is obligated to maintain the storage structure in good repair and to keep the peanuts in storage and in good condition until the loan is liquidated.

(f) *Loss or damage to the peanuts under farm storage loan.* (1) The producer is responsible for any loss in grade and for any loss in weight, except as provided in paragraph (h) (4) of this section. Notwithstanding the foregoing, physical loss or damage occurring after disbursement of the loan funds will be assumed by CCC to the extent of the settlement value at the time of destruction of the quantity of peanuts destroyed, or in an amount equivalent to the extent of the damage as determined by CCC less any insurance proceeds in which CCC may be entitled and the salvage value of the commodity, if the producer establishes to the satisfaction of CCC each of the following conditions:

(i) The physical loss or damage occurred without fault, negligence, or conversion on the part of the producer, or any other person having control of the storage structure;

(ii) The physical loss or damage resulted solely from an external cause (other than insect infestation, rodents, or vermin), such as theft, fire, lightning, inherent explosion, windstorm, cyclone, tornado, flood or other external cause;

(iii) The producer has given the county office immediate notice confirmed in writing of such loss or damage;

(iv) The producer has made no fraudulent representation in the loan documents or in obtaining the loan.

(2) No physical loss or damage occurring prior to disbursement of the loan funds will be assumed by CCC.

(g) *Redemption of the peanuts under farm storage loan.* A producer may, at any time prior to the date on which the peanuts are delivered to or removed by CCC pursuant to paragraph (h) of this section, redeem the peanuts remaining under farm storage loan by paying to CCC the principal amount of the note, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. After payment of the note has been effected, the county office manager shall arrange for the release of the chattel mortgage. The producer may arrange for partial release of the peanuts prior to maturity after making payment for the quantity of peanuts to be released, plus charges and accrued interest; however, if the quantity of peanuts contained in the bin or crib and covered by the chattel mortgage is greater than the quantity with respect to which the amount of the loan was computed, all or part of such excess may be removed without payment of the loan, but only upon prior approval of the county office. Partial redemption of farm storage loans and release of the commodity will not be approved by the county committee in the event the State committee has determined on a State-wide basis that partial redemption of loans and releases of peanuts will not be permitted. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the peanuts must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the peanuts from storage when the proceeds of the sale are needed to repay all or any part of the loan. Any such approval shall be subject to the terms and conditions in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers at the office of the county committee.

(h) *Settlement of farm storage loans.* (1) The producer is required to pay off the loan on or before maturity or to deliver the peanuts in accordance with instructions issued by the county office. If the producer fails to deliver mortgaged peanuts as instructed, he will be responsible for all costs of removal incurred by the holder of the note.

(2) If, either before or after maturity, the peanuts are in danger of going out of condition, the producer shall so notify the county committee and confirm such notice in writing. If the county committee determines that the peanuts are in danger of going out of condition and that they cannot be satisfactorily conditioned by the producer, and delivery cannot be accepted within a reasonable length of time, the county office shall arrange for an inspection and grade determination to be made at the expense of CCC. When delivery is completed, settlement shall be made on the basis of such grade or the grade determined at the time of delivery, whichever is higher.

(3) In the event the farm is sold, the producer dies, or there is a change of tenancy, the peanuts may be delivered before the maturity date of the loan, upon prior approval by the county committee. Peanuts also may be delivered before the maturity date of the loan for other reasons upon authorization by the Executive Vice President, CCC.

(4) (i) Settlement for peanuts delivered to CCC will be made, subject to the provisions of the Producer's Note and Supplemental Loan Agreement, at the applicable support price for the type, grade (except as provided above for peanuts going out of condition), and quantity of peanuts delivered and accepted by CCC, plus an allowance for shrinkage during the storage period of four-tenths of a cent ($0.004) per net weight pound delivered, and an allowance for the actual shrinkage during the storage period of the extra large kernels in Virginia type peanuts: *Provided, however,* That the settlement value for the peanuts delivered to CCC which do not meet the requirements with respect to moisture, damage or foreign material in § 446.1007 shall be determined at the support price for the grade placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade placed under loan and the market price of the peanuts delivered, as determined by CCC: *Provided, further,* That if the value of the peanuts delivered (including the shrinkage allowance and allowance for loss in extra large kernels in Virginia type peanuts) is less than the amount of the loan with respect to such peanuts, and CCC determines that the deficiency resulted from abnormal climatic conditions which prevailed throughout the area or locality in which the peanuts were produced and which caused the development of progressive damage in the peanuts during storage, that such damage would not normally be detected or appraised accurately by a reasonably prudent person in control of the storage structure, and that the producer has complied with the other provisions of the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage, (*a*) if the net weight of all peanuts delivered, plus the net weight of the peanuts redeemed prior to such delivery, equals or exceeds 97 percent of the net weight of the peanuts on which the loan was made CCC may relieve the producer from liability for the deficiency, or (*b*) if the net weight of the peanuts delivered, plus the net weight of peanuts redeemed prior to such delivery, is less than 97 percent of the net weight of the peanuts on which the loan was made, CCC may relieve the producer from liability for that part of the deficiency which exceeds an amount equal to the loan value per pound of the peanuts under loan multiplied by the number of pounds by which the net weight of the peanuts delivered, plus the net weight of peanuts redeemed prior to such delivery, is less than 97 percent of the net weight of the peanuts on which the loan was made.

(ii) Delivery of peanuts in bulk will be accepted only from the structure(s) in which the peanuts under loan are stored. The maximum quantity eligible for delivery in cases where a loan has been made on part of the commodity in the bin shall be the quantity on which the loan was made plus any normal overrun established by the State committee. In the case of peanuts stored in bags, only the identical bags under loan may be delivered.

(5) If the settlement value of the peanuts delivered exceeds the amount due on the loan (excluding interest), such excess amount will be paid to the producer. Any payment due the producer will be made by sight draft drawn on CCC by the county office.

(6) If the settlement value of the peanuts is less than the amount due on the loan (excluding interest), the amount of the deficiency plus interest thereon, shall be paid to CCC, except as provided in paragraph (f) of this section, and may be set off against any payment which would otherwise be due to the producer under any agricultural program administered by the Secretary of Agriculture or any other payments which are due or may become due the producer from CCC or any other agency of the United States.

§ 446.1021 *Loans to associations.* An association which desires to receive, arrange storage for and handle peanuts for and on behalf of eligible producers and for and on behalf of eligible producers represented by bona fide producer marketing cooperatives which meet the criteria established for an association in § 446.1004 (a), which are approved by CCC, and which are operating under an agreement with the association, may obtain a loan on all eligible peanuts handled on behalf of eligible producers, stored in approved warehouses, and represented by warehouse receipts in a form prescribed by CCC. Such loan will be made pursuant to the terms of the Association Loan and Handling Agreement, CCC Peanut Form 27 (1958), between the association and CCC, and shall be evidenced by a blanket note in form prescribed by CCC. The association may receive eligible peanuts from eligible producers who are not members of the association and use such peanuts as loan collateral. Approved storage for peanuts under loan to an association will be warehouses approved pursuant to instructions issued by CCC and operated under contract with the association or with CCC. The names and locations of such warehouses may be obtained from the association or the county office. The association may obtain the loan from an approved lending agency or from CCC. Each producer from whom the association receives peanuts must present his within quota card at the time he delivers the peanuts for storage. For each lot of peanuts received, the association shall make an advance payment to the producer in the amount of the producer advance value for such peanuts. At any time prior to sale by CCC the association may redeem peanuts for sale in accordance with policies established by CCC.

The association shall distribute to the producers from whom it receives peanuts all proceeds from the handling of such peanuts under loan, less operating expenses, unless other disposition of such proceeds is approved by CCC.

§ 446.1022 *Purchase agreements.* (a) Purchase agreements will be available to eligible producers on eligible peanuts stored on the farm or stored off the farm on an identity preserved basis. Any peanuts stored off the farm on other than an identity preserved basis shall not be eligible for sale to CCC. The producer who signs a purchase agreement will not be obligated to sell any quantity of the peanuts to CCC. However, he may sell to CCC any quantity of eligible peanuts not in excess of the quantity stated in the purchase agreement. The producer may not assign his interest in a purchase agreement.

(b) *Delivery.* If the producer who signs a purchase agreement wishes to sell the peanuts to CCC, he will have a 30-day period ending on May 31, 1959, during which he must notify the county committee in writing of his intention to sell. The producer shall deliver the peanuts in accordance with delivery instructions issued by the county office, and shall complete delivery within a 15-day period immediately following the date of such instructions unless the county office determines that more time is needed for delivery. The producer may be required to retain the peanuts represented by a purchase agreement for a period of 60 days after May 31, 1959 without any cost to CCC.

(c) *Method of determining quality and quantity.* Peanuts delivered to CCC pursuant to a purchase agreement shall be of the type specified on the purchase agreement, and shall meet the grade requirements of § 446.1007 as determined by a Federal or Federal-State inspector on the basis of a sample taken at the time of delivery. The quantity of peanuts shall be determined by actual weight at the time of delivery. CCC will not assume any loss in quantity or quality of the peanuts covered by a purchase agreement occurring prior to delivery to CCC.

(d) *Settlement.* Settlement for eligible peanuts delivered to CCC under a purchase agreement shall be made at the applicable support price for the type, grade and quantity, net weight (calculated from actual gross weight), delivered and accepted by the county committee. When delivery is completed, payment will be made by sight draft drawn on CCC by the county office. The producer shall direct on Commodity Purchase Form 4 to whom payment of proceeds shall be made.

Issued this 20th day of August 1958.

[SEAL] WALTER C. BERGER,
Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 58-6894; Filed, Aug. 25, 1958; 8:57 a. m.]

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 2]

PART 722—COTTON

SUBPART—REGULATIONS PERTAINING TO MARKETING QUOTAS FOR UPLAND COTTON OF THE 1958 AND SUCCEEDING CROPS

NORMAL YIELD

Basis and purpose. The purpose of this amendment to the Regulations Pertaining to Marketing Quotas for Upland Cotton of the 1958 and Succeeding Crops (23 F. R. 3231, 5533) is to establish the normal yields for counties. Such normal yields for counties as established by the Director, are hereby approved by the Administrator of Commodity Stabilization Service in accordance with §§ 722.2 (d) (8) and 722.50. In order that such normal yields may be used by county committees in connection with determinations of farm normal yields, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby found and determined that compliance with the notice and public procedure requirements and compliance with the 30-day effective date requirement of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Division of the Federal Register.

Section 722.50 of the Regulations Pertaining to Marketing Quotas for Upland Cotton of the 1958 and Succeeding Crops is hereby amended by addition of a new paragraph (a) at the end thereof which reads as follows:

(a) *For 1958 crop year.* The following table sets forth the normal yields for the 1958 crop year, as adjusted pursuant to § 722.2 (d) (8), which are established for the respective counties.

ALABAMA

[Amdt. 2]

PART 722—COTTON

SUBPART—REGULATIONS PERTAINING TO MARKETING QUOTAS FOR EXTRA LONG STAPLE COTTON OF THE 1958 AND SUCCEEDING CROPS

NORMAL YIELD

Basis and purpose. The purpose of this amendment to the Regulations Pertaining to Marketing Quotas for Extra Long Staple Cotton of the 1958 and Succeeding Crops (23 F. R. 3241, 5533) is to establish the normal yields for counties. Such normal yields for counties as established by the Director, are hereby approved by the Administrator of Commodity Stabilization Service in accordance with §§ 722.102 (d) (8) and 722.151. In order that such normal yields may be used by county committees in connection with determinations of farm normal yields, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby found and determined that compliance with the notice and public procedure requirements and compliance with the 30-day effective date requirement of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Division of the Federal Register.

Section 722.151 of the Regulations Pertaining to Marketing Quotas for Extra Long Staple Cotton of the 1958 and Succeeding Crops is hereby amended by addition of a new paragraph (a) at the end thereof which reads as follows:

(a) *For 1958 crop year.* The following table sets forth the normal yields for the 1958 crop year, as adjusted pursuant to § 722.102 (d) (8), which are established for the respective counties.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 752, Amdt. 2]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.859 (Lemon Regulation 752, 23 F. R. 6317; 6546) are hereby further amended to read as follows:

(ii) District 2: 465,000 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 21, 1958.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 58-6889; Filed, Aug. 25, 1958; 8:56 a. m.]

PART 989—RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

FINDING THAT ESTIMATED SEASON AVERAGE PRICE OF RAISINS FOR 1958–59 CROP YEAR WILL BE IN EXCESS OF PARITY

This action is being taken pursuant to the provisions of § 989.62 of Marketing Agreement No. 109, as amended, and Marketing Order No. 89, as amended (7 CFR Part 989), regulating the handling of raisins produced from raisin variety grapes grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). This section will tend to effectuate the declared policy of the act and is not for the purposes of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish thereunder.

In its meeting of August 13, 1958, the Raisin Administrative Committee (established pursuant to the marketing agreement and order) considered data relevant to the formulation of a marketing policy for the crop year which begins September 1, 1958, and recommended that volume regulation not be applied to the handling of raisins during such crop year.

The July 15, 1958 parity price for raisins is $211 per ton. Prices received by producers for raisins averaged $256 per ton for the 1957–58 season. Based on pre-season sales of raisins for early season delivery, indications are that the average price to producers for 1958–59 will exceed that of 1957–58. In support of these indications, the 1958 production of raisins is expected to be substantially below average, and to approximate the small production of 163,000 tons in 1957. Moreover, handlers' carryin of raisins for 1958–59 will be smaller than for 1957–58. Hence, the total supply of raisins is expected to be less for 1958–59 than for 1957–58 and less than normal requirements for raisins in domestic and export markets and for carryout.

In view of the foregoing, it is hereby found that the estimated season average price to producers for raisins for the crop year which begins on September 1, 1958, will be in excess of the parity level specified in section 2 (1) of the said act. Accordingly, only the provisions of the said marketing agreement and order which apply in over-parity situations will be applicable in the 1958–59 crop year. The provisions which apply only to volume regulation will not be applicable.

Section 989.62 provides that the provisions of the marketing agreement and order relating to minimum grade and condition standards and inspection requirements, within the meaning of section 2 (3) of the said act, and any other provisions pertaining to the administration and enforcement thereof, shall continue in effect irrespective of whether the estimated season average price to producers for raisins is in excess of the parity level specified in section 2 (1) of the act. The said section also provides that any off-grade raisins received by a handler during a period when minimum grade standards are in effect and when the season average price to producers for raisins, as estimated by the Secretary, is in excess of the parity level shall be disposed of by such handler pursuant to the provisions of § 989.59 (f) (implemented by, or as provided in, §§ 989.159 (g) (2) and 989.162), rather than through the off-grade pool (§ 989.60).

Accordingly, no off-grade pool will be in effect during the 1958–59 crop year. For the purpose of levying assessments, free tonnage raisins shall be determined as provided in § 989.180.

It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and that good cause exists for not postponing the effective date of this document later than September 1, 1958 (5 U. S. C. 1001 et seq.), in that: (1) Handlers are aware of the information on which this finding is based, namely that (a) prices received by producers for raisins during the 1957–58 crop year have been well above parity, (b) contracts are being made for delivery of raisins early in the 1958–59 crop year at prices well in excess of parity, and (c) the probable total supply of raisins for 1958–59 will be less than for 1957–58; (2) growers are now making decisions whether to make raisins of their grapes or sell the grapes to wineries, and definite knowledge now concerning the regulations which may be applicable to the handling of raisins will be useful to them; and (3) since the effect of this finding will be to preclude pooling or other volume regulation from becoming or being made effective during the period for which the finding is made, handlers will require no advance notice for preparation.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 21, 1958, to become effective on September 1, 1958.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[F. R. Doc. 58-6892; Filed, Aug. 25, 1958; 8:56 a. m.]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

MISCELLANEOUS AMENDMENTS

Pursuant to Marketing Agreement No. 110, as amended, and Order No. 93, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), the Prune Administrative Committee recommended certain amendments of the handler reporting requirements in § 993.172 of the committee's administrative rules and procedures 7 CFR Part 993). (The amendments would: (1) Delete suparagraph (5) of § 993.172 (c) of said rules and procedures which requires handlers to report monthly to the committee, as a separate item, the total tonnage of prunes sold by them to Federal Government agencies; (2) revise § 993.172 (c) (3) to require handlers to report monthly the tonnage of such sales to Federal Government agencies in combination with and as a part of the total tonnage of prunes sold in domestic outlets, segregated by uses; and (3) revise § 993.172 (d) (2) by deleting the requirement therein that handlers report monthly to the committee the disposition of prunes to the Commodity Credit Corporation and other Federal Government agencies separate from the tonnage of prunes shipped or otherwise disposed of in domestic outlets, and by requiring handlers to report such tonnage monthly in combination with and as a part of that tonnage of prunes shipped or otherwise disposed of in domestic outlets.

The committee's recommendation is based on: (1) The relatively small quantity of prunes sold and shipped by handlers to Federal Government agencies in recent years; (2) the fact that, for the purposes of the said marketing agreement and order, the committee considers Federal Government agencies a domestic outlet for prunes; and (3) the cost to handlers of compiling and reporting sales and shipments of prunes to Federal Government agencies separate from sales and shipments of prunes in domestic outlets is out of proportion to the benefit from maintaining such separate categories. After consideration of all relevant information, including the committee's recommendation, it is concluded that the aforesaid amendments should be approved and, for the reasons hereinafter set forth, should become effective upon publication in the FEDERAL REGISTER.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.), and for making these amendments effective upon publication in that: (1) Handlers will soon begin reporting monthly sales and shipments of prunes in the 1958–59 crop year; (2) these amendments will reduce handlers' costs of complying with reporting and record keeping requirements by the simplification of such requirements; and (3) handlers require no advance notice for preparation to comply with these amendments. In these circumstances, these amendments should be made effective upon publication in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 21, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of Alien Property, Department of Justice

PART 502—RULES OF PROCEDURE FOR CLAIMS

SUBPART A—GENERAL RULES

DEFINITIONS; INDISPENSABLE PARTY

Part 502 of the rules of the Office which sets forth the procedure for adjudication of claims asserted before it contains references to the authority of the Chief, Claims Section. In certain instances the Chief, Litigation Section, handles title claims under the Trading With the Enemy Act, as amended, and the rules require amendment to specify such authority for the Chief, Litigation Section, in those instances. Accordingly, §§ 502.2 and 502.3 are amended as set forth herein. Since these amendments relate to agency management notice, hearing and suspension of applicability are not required.

§ 502.2 *Definitions.* • • •

(l) The term "parties" includes the claimant on the one hand and the Chief of the Claims Section or the Chief of the Litigation Section on the other.

• • • • •

(p) The term "docketed claim" means a claim which has been referred by the Director, the Chief of the Claims Section or the Chief of the Litigation Section to the Chief Hearing Examiner for hearing and has been given a docket number.

§ 502.3 *Indispensable party.* The Chief of the Claims Section shall be a necessary party in all claims proceedings except those involving title claims under the Trading With the Enemy Act, as amended. In title claim proceedings under that Act either the Chief of the Claims Section or the Chief of the Litigation Section shall be a party. In those proceedings in which the Chief of the Litigation Section is a party, he shall have the authority, rights and duties granted or imposed by these rules upon the Chief of the Claims Section except the authority granted by § 502.6 (b).

(40 Stat. 411, as amended, secs. 201–318, 40 Stat. 562–575; 50 U. S. C. App. 1–40; 22 U. S. C. 1631–1641q. E. O. 9193, 7 F. R. 5205, 3 CFR, 1943 Cum. Supp.; E. O. 9725, 11 F. R. 5381, 3 CFR, 1946 Supp.; E. O. 9788, 11 F. R. 11981, 3 CFR, 1946 Supp.; E. O. 10254, 16 F. R. 5039, 3 CFR, 1951 Supp.; E. O. 10644, 20 F. R. 9063, 3 CFR, 1955 Supp.)

Executed at Washington, D. C., on August 19, 1958.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7058]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

DUNDEE ELECTRONICS CO.

Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1880 *Old, used, reclaimed, or reused as unused or new.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45). [Cease and desist order, Thomas F. Di Stefano trading as Dundee Electronics Co., Paterson, N. J., Docket 7058, July 7, 1958]

In the Matter of Thomas F. Di Stefano, Individually and Trading as Dundee Electronics Co.

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a distributor of radio and television tubes in Paterson, N. J., with selling, mainly to jobbers and mail order houses, a large number of used, pull-out, factory reject, and JAN surplus tubes without disclosing such inferior quality on the tube, box, carton, or in advertising.

Following acceptance of an agreement for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 7 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent, Thomas F. Di Stefano, individually and trading as Dundee Electronics Co., or trading under any other name, and his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of television or radio tubes in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Selling, offering for sale or distributing used, pull-outs factory rejects or JAN surplus radio or television tubes without clearly disclosing on the tubes and the individual cartons in which each tube is packaged, and in advertising, invoices and shipping memoranda, that they are used, pull-outs, factory rejects or JAN surplus tubes, as the case may be.

2. Selling, offering for sale or distributing any radio or television tube which is not new or first quality without clearly and conspicuously disclosing that fact on the tube and the individual carton in which each tube is packaged, and in advertising, invoices and shipping memoranda.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is further ordered, That the respondent Thomas F. Di Stefano shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist contained in said initial decision.

Issued: July 7, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 58-6868; Filed, Aug. 25, 1958; 8:51 a. m.]

[Docket 6921]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

FRANK GROSS FURS

Subpart—*Advertising falsely or misleadingly:* § 13.155 *Prices:* Comparative; exaggerated as regular and customary; percentage savings. Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur Products Labeling Act. Subpart—*Misbranding or mislabeling:* § 13.1280 *Price.* Subpart—*Misrepresenting oneself and goods—Prices:* § 13.1785 *Comparative;* § 13.1805 *Exaggerated as regular and customary.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Frank Gross trading as Frank Gross Furs, Harrisburg, Pa., Docket 6921, July 12, 1958]

In the Matter of Frank Gross, an Individual Trading as Frank Gross Furs

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a furrier in Harrisburg, Pa., with violating the Fur Products Labeling Act by affixing to fur products labels containing fictitious prices and thereby misrepresenting the regular retail selling prices; by failing to conform to the invoicing requirements of the Act; by newspaper advertisements which represented prices as reduced from regular prices which were in fact fictitious, and used comparative prices and percentage savings claims not based on the regular retail prices; and by failing to maintain adequate records as a basis for such pricing claims.

After acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 12 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That Frank Gross, an individual trading as Frank Gross Furs, or under any other trade name, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, offering for sale, transportation, or distribution of fur products in commerce, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products in commerce, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Representing on labels affixed to fur products that certain amounts are the regular and usual prices of fur products when such amounts are in excess of the prices at which respondent usually and customarily sold such products in the recent regular course of his business.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of the paws, tails, bellies, or waste fur, when such is the fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported furs contained in a fur product.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public an-

nouncement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Represents, directly or by implication that the regular or usual price of any fur product is any amount which is in excess of the price at which the respondent has regularly and customarily sold such product in the recent regular course of his business.

2. Makes use of comparative prices and percentage savings claims in advertisements, unless such compared prices or percentage savings claims are based upon the current market value of the fur product or unless a bona fide price at a designated time is stated.

D. Making claims and representations in advertisements respecting comparative prices, percentage savings claims, or claims that prices are reduced from regular or usual prices, unless respondent maintains full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Frank Gross, an individual trading as Frank Gross Furs, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: July 11, 1958.

By the Commission.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

FRY KING CORP. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.110 *Indorsements, approval, and testimonials;*[1] § 13.155 *Prices:* Exaggerated as regular and customary; fictitious marking. Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1056 *Preticketing merchandise misleadingly.* Subpart—*Misrepresenting oneself and goods*—Prices: § 13.1805 *Exaggerated as regular and customary;* § 13.1810 *Fictitious marking.* Subpart—*Using misleading name*—Goods: § 13.2345 *Source or origin:* Maker.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, The Fry King Corporation et al., New York, N. Y., Docket 7029, July 12, 1958]

In the Matter of The Fry King Corporation, a Corporation, and Max Fain and Isaac Steinbook, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging manufacturers in New York City of small household electrical appliances including deep fat fryer-cookers and fry pan skillets, with representing falsely in advertising and upon cartons in which the appliances were packaged and which were disseminated to purchasers for use in retail sale, that an exaggerated and fictitious price was the usual retail price; that certain of their appliances had been approved or guaranteed by Good Housekeeping magazine; and, through prominent use of the word "Westinghouse", that their appliances were manufactured by Westinghouse Electric Corporation.

After acceptance of an agreement containing a consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 12 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, The Fry King Corporation, a corporation, and its officers, and Max Fain and Isaac Steinbook, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of fryer-cookers and skillets or any other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or indirectly:

(a) That any amount is the retail price of merchandise when such amount is in excess of the price at which such merchandise is usually and regularly sold at retail;

(b) That their merchandise has been advertised in Life Magazine or Good Housekeeping Magazine; or has been advertised in any other magazine or publication, unless such is the fact;

2. Using the name of any company in connection with merchandise which has not been manufactured in its entirety by said company; or representing, directly or indirectly, that merchandise not manufactured in its entirety by a specified company was so manufactured, provided, however, that this prohibition shall not be construed as prohibiting a truthful statement that a part of an article of merchandise has been manufactured by a specified company when such part is clearly and conspicuously identified;

3. Using the Good Housekeeping seal of approval in connection with their merchandise; or representing in any manner that their merchandise has been awarded said seal of approval; or that their merchandise has been approved by any other group or organization, unless such is the fact, provided, however, that this prohibition shall not be construed as prohibiting a truthful statement that a part of an article of merchandise has been approved by a group or organization, when such part is clearly and conspicuously identified.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents, The Fry King Corporation, a corporation, and its officers, and Max Fain and Isaac Steinbook, individually and as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 11, 1958.

By the Commission.

[Docket 6203]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

HOLLAND FURNACE CO.

Subpart—*Coercing and intimidating:* § 13.350 *Customers or prospective customers:* To purchase, make payment, or support product or service: *By utilizing scare tactics; by withholding customer's property or rights.* Subpart—*Delaying or withholding corrections, adjustments or action owed:* § 13.675 *Delaying or withholding corrections, adjustments or action owed.* Subpart—*Misrepresenting oneself and goods*—Business status, advantages or connections: § 13.1425 *Government connection;* § 13.1520 *Personnel or staff.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45). [Cease and desist order, Holland Furnace Company, Holland, Mich., Docket 6203, July 7, 1958]

This case was heard by a hearing examiner on the complaint of the Commission charging a manufacturer of furnaces, with plant in Holland, Mich.—with some 475 branch offices in various States and a number of sub-branches, selling its products through house-to-house salesmen whom it supplied with sales manuals, catalogs, and other literature and assigned a certain territory—with using deceptive sales schemes under which its said salesmen posed as Government or utility inspectors or heating engineers to gain access to homes and then dismantled furnaces without the owners' permission, ostensibly to determine the extent of repairs necessary, and refused to reassemble them on misrepresentations that this would involve grave dangers of fire, gas, and explosion, or that the competitor-manufacturer of the furnace was out of business or that parts were unobtainable; with requiring owners of such dismantled furnaces to sign releases absolving the company of liability for its employees' negligence or other liability before reassembling the furnaces; or otherwise using scare tactics, misrepresentation, and coercion to sell its furnaces, heating equipment, and parts.

After extended proceedings, the hearing examiner made his initial decision and order to cease and desist from which respondent filed appeal. The Commission, having heard the matter on the whole record including briefs and oral argument, denied respondent's appeal and on July 7 adopted the initial decision as its own decision.

The order to cease and desist is as follows:

It is ordered, That respondent Holland Furnace Company, a corporation, and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of furnaces, heating equipment, or parts therefor, do forthwith cease and desist from:

(1) Representing, directly or indirectly that any of its employees are inspectors or are employees or representatives of government agencies or of gas or utility companies.

(2) Representing, contrary to fact, that its salesmen or servicemen are heating engineers.

(3) Representing that any furnace manufactured by a competitor is defective or not repairable, or that the continued use of such furnace will result in asphyxiation, carbon monoxide poisoning, fires, or other damage, or that the manufacturer of such furnace is out of business, or that parts of such furnace are unobtainable, unless such are the facts.

(4) Tearing down or dismantling any furnace without the permission of the owner.

(5) Representing that a furnace which has been dismantled cannot be reassembled and used without danger of asphyxiation, gas poisoning, fires, or other damage, or for any other reason, when such is not a fact.

(6) Requiring the owner of any furnace which has been dismantled by respondent's employees to sign a release absolving the respondent of liability for its employees' negligence, or of any other liability, before reassembling said furnace.

(7) Refusing to immediately reassemble, at the request of the owner, any furnace which has been dismantled by respondent's employees.

(8) Misrepresenting in any manner the condition of any furnace which has been dismantled by respondent's employees.

By "Final Order", report of compliance was required as follows:

It is ordered, That respondent Holland Furnace Company shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with the order to cease and desist contained in the initial decision.

Issued: July 7, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

Subtitle A—Office of the Administrator, Housing and Home Finance Agency

PART 3—SLUM CLEARANCE AND URBAN RENEWAL

RELOCATION PAYMENTS; CONDITIONS DETERMINING ELIGIBILITY FOR PAYMENT

The rules and regulations governing the making of relocation payments under section 106 (f) of the Housing Act of 1949, as amended, 42 U. S. C. 1456, to individuals, families, and business concerns displaced by an urban renewal project, prescribed on behalf of the Housing and Home Finance Administrator by the Acting Urban Renewal Commissioner, as of October 8, 1956 (21 F. R. 9991, December 15, 1956), as amended (22 F. R. 1980, March 26, 1957; 22 F. R. 9937, December 12, 1957; 23 F. R. 750, February 5, 1958; 23 F. R. 1723, March 13, 1958; and 23 F. R. 5723, July 30, 1958), are hereby further amended by amending paragraph (c) of § 3.108 *Conditions determining eligibility for payment*, to read as follows:

(c) The property from which the individual, family, or business concern is displaced must have been acquired by the Local Public Agency. For the purposes of the rules and regulations in this part, acquisition is deemed to occur:

(1) At the time the Local Public Agency obtains possession of the property pursuant to a court order in a condemnation action instituted for the purpose of acquiring title; or

(2) At the time of conveyance of title; or

(3) At the time a binding contract of sale (or purchase) is entered into between the Local Public Agency and the owner: *Provided*, That such contract includes a provision prohibiting the owner from re-renting the property once it is vacated by the individual, family, or business concern then occupying it, or the Local Public Agency otherwise receives adequate written assurance from the owner to such effect: *And provided further*, That no Relocation Payments may be made until the property is actually conveyed to the Local Public Agency.

(Sec. 502, 62 Stat. 1283, as amended, sec. 106, 63 Stat. 417, as amended, sec. 305, 70 Stat. 1100, as amended; 12 U. S. C. 1701c, 42 U. S. C. 1456)

Issued as of the 26th day of August 1958.

[SEAL] C. L. OSWALD, *Acting Urban Renewal Commissioner.*

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1723]

[Anchorage 022342]

ALASKA

WITHDRAWING LANDS FOR RECREATIONAL PURPOSES

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public-land laws including the mining but not the mineral leasing laws nor disposals under the act of July 31, 1947 (61 Stat. 681; 30 U. S. C. 601-604) as amended, and reserved under the jurisdiction of the Secretary of the Interior for administration and maintenance as public recreation areas pending their conveyance or other disposal as authorized by the act of May 4, 1956, as amended by the act of August 30, 1957 (71 Stat. 510):

SEWARD MERIDIAN

T. 5 N., R. 8 W.,
Sec. 20, lot 1;
Sec. 21, lot 3.
T. 2 N., R. 11 W.,
Sec. 6, lots 9 to 57, inclusive, SE¼NE¼NW¼, and E½SE¼NW¼.
T. 3 N., R. 11 W.,
Sec. 9, lots 1 and 2.
T. 4 N., R. 11 W.,
Sec. 34, W½SW¼.

The areas described aggregate 374.47 acres.

FRED G. AANDAHL, *Assistant Secretary of the Interior.*

AUGUST 19, 1958.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

[No. 32414]

PART 169—TRANSFERS OF PASSENGER BROKERS' LICENSES

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 13th day of August A. D. 1958.

The matter of promulgating rules and regulations under sections 204, 211, and 212 of the Interstate Commerce Act, governing transfers of passenger brokers' licenses and changes in control of corporations or associations holding passenger brokers' licenses being under consideration; and

It appearing, that a notice of proposed rule making was issued April 17, 1958, setting forth the text of proposed rules in the matter; that said notice was published in the FEDERAL REGISTER issue of May 2, 1958 (23 F. R. 2974), pursuant to provisions of section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003); that, after consideration of all written data, views, or arguments received in the matter, adoption of said rules as proposed is deemed justified; and that the basis and purpose of this amendment is to extend the same privileges and apply the same requirements to passenger brokers as are extended and applied to property brokers under 49 CFR 167.11 and 167.12, with respect to transfers of brokers' licenses and changes in the control of corporations and associations holding brokers' licenses.

It is ordered, That 49 CFR Part 169, Transfers of Passenger Brokers' Licenses be, and it is hereby added under the center head, Parts 165–180: General Provisions, and the following sections be added reading as follows:

Sec.
169.1 Transfer of brokers' licenses.
169.2 Corporations and associations holding brokers' licenses.

AUTHORITY: §§ 169.1 and 169.2 issued under sec. 204, 49 Stat. 546, as amended; 49 U. S. C. 304. Interpret or apply secs. 211, 212, 49 Stat. 554, as amended, 555, as amended; 49 U. S. C. 311, 312.

§ 169.1 *Transfer of brokers' licenses.* A license issued a passenger broker under section 211 of the Interstate Commerce Act may be transferred, if approved by the Commission, upon application and proof that the transferee is fit, willing, and able to perform the duties, and that the transfer will not be contrary to the public interest.

§ 169.2 *Corporations and associations holding brokers' licenses.* A change in the control of a corporation may be accomplished only with the approval of the Commission upon application and proof that the change in control will not be contrary to the public interest.

It is further ordered, That this order shall become effective on the 16th day of September A. D. 1958

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy thereof with the Director, Federal Register Division.

By the Commission, Division 4.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F. R. Doc. 58-6677; Filed, Aug. 25, 1958; 8:54 a. m.]

PART 210—EXEMPTIONS

AGRICULTURAL COMMODITIES, LIVESTOCK AND FISH

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 14th day of August A. D. 1958. Publication of Administrative Ruling No. 107 in accordance with Transportation Act of 1958.

It appearing that on August 12, 1958, there was enacted Public Law 85–625, Transportation Act of 1958, amending section 203 (b) (6) of the Interstate Commerce Act by the addition of two provisos, the first stating that the words as used in that exemption shall include property shown as "Exempt" in the "Commodity List" incorporated in Administrative Ruling No. 107 of the Commission's Bureau of Motor Carriers dated March 19, 1958, but shall not include property shown therein as "Not exempt", and the second stating that notwithstanding the first proviso the words shall not be deemed to include certain specified commodities, and shall be deemed to include certain other specified commodities;

And it further appearing that in view of the reference in the amendment to Administrative Ruling No. 107 of the Commission's Bureau of Motor Carriers, dated March 19, 1958, it is necessary that the ruling be published in the Commission's regulations as information to the public in order that its contents may be officially noted in the administration and enforcement of the exemption; therefore,

It is ordered, That 49 CFR Part 210 be amended by adding thereto § 210.25 *Agricultural commodities, livestock and fish* with the explanatory headnote as follows:

§ 210.25 *Agricultural commodities, livestock and fish; Bureau of Motor Carriers Administrative Ruling No. 107.* Administrative Ruling No. 107 of the Commission's Bureau of Motor Carriers, dated March 19, 1958, is as set forth below. The "Commodity List" therein is for use in determining the status of commodities under the exemption provisions of section 203 (b) (6) of the Interstate Commerce Act (49 U. S. C. 303 (b) (6)) in accordance with the following amendment of that section by the Transportation Act of 1958:

Clause (6) of subsection (b) of section 203 of the Interstate Commerce Act, as amended, is amended by striking out the semicolon at the end thereof and inserting in lieu thereof a colon and the following: "*Provided*, That the words 'property consisting of ordinary livestock, fish (including shell fish), or agricultural (including horticultural) commodities (not including manufactured products thereof)' as used herein shall include property shown as 'Exempt' in the 'Commodity List' incorporated in ruling numbered 107, March 19, 1958, Bureau of Motor Carriers, Interstate Commerce Commission, but shall not include property shown therein as 'Not exempt': *Provided further, however*, That notwithstanding the preceding proviso the words 'property consisting of ordinary livestock, fish (including shell fish), or agricultural (including horticulutral) commodities (not including manufactured products thereof)' shall not be deemed to include frozen fruits, frozen berries, frozen vegetables, cocoa beans, coffee beans, tea, bananas, or hemp, and wool imported from any foreign country, wool tops and noils, or wool waste (carded, spun, woven, or knitted), and shall be deemed to include cooked or uncooked (including breaded) fish or shell fish when frozen or fresh (but not including fish and shell fish which have been treated for preserving, such as canned, smoked, pickled, spiced, corned or kippered products);".

[Ruling No. 107]

MARCH 19, 1958.

The following is an administrative ruling of the Bureau of Motor Carriers, for the purpose of making readily available holdings of the Commission and the courts, and Bureau opinions, relating to the status of various commodities under the partial exemption in Section 203 (b) (6) of the Interstate Commerce Act. The "Bureau opinions" in this ruling are tentative and provisional and are made either in the absence of authoritative Commission or Court decisions or in applying the holdings and reasoning of court decisions which have reversed or altered past general and specific findings of the Commission.

GENERAL

This ruling relates to Section 203 (b) (6) as it presently reads:

Nothing in this part, except the provisions of section 204 relative to qualifications and maximum hours of service of employees and safety of operation or standards of equipment shall be construed to include • • • (6) motor vehicles used in carrying property consisting of ordinary livestock, fish (including shell fish), or agricultural (including horticultural) commodities (not including manufactured products thereof), if such motor vehicles are not used in carrying any other property, or passengers, for compensation; • • •.

Pending before the Congress are bills which if enacted into law would limit or revise the application of the exemption and render obsolete many of the interpretations herein.

For each entry in the Commodity List there is shown either the number assigned to one of the Commission or court decisions in the Case List, or the words "Bureau opinion" the latter denoting an informal expression of the Bureau. In a few instances reference is made to a numbered Note appended to the ruling. Certain of these explain the reason for Bureau opinions which differ from past Commission decisions. Others mention pending Commission proceedings which may affect the status of commodities making reference thereto.

Though commodities are shown as either "Exempt" or "Not exempt," it must be kept in mind that an "Exempt" commodity loses its exemption whenever it is transported in a vehicle which at the same time is transporting for compensation commodities not within the exemption.

The absence of a commodity from the list below should not be taken to mean that it is either within or not within the exemption. Only those commodities are listed as to which inquiries have been received in the past by the Bureau or which have been the subject of Commission or court proceedings.

W. Y. BLANNING, *Director.*

COMMODITY LIST

Alfalfa, *see* Feeds.
Animal fats—Not exempt—Bureau opinion.
Animals, *see* Livestock.

Bagged commodities—Placing exempt commodities—Case 1 in bags does not affect their exempt status.
Bark, *see* Forest Products.
Barley, *see* Grains.
Bees—Exempt—Case 1.
Beeswax, crude, in cakes and slabs—Exempt—Bureau opinion.
Beet pulp, *see* Feeds.
Beets, sugar—Exempt—Case 1.
Berries, *see* Fruits.
Bran, *see* Feeds.
Broom corn, threshed and baled—Exempt—Bureau opinion.
Bulbs, *see* Horticultural Commodities.
Butter—Not exempt—Case 20.
Buttermilk—Exempt—Case 20.

Canned fruits and vegetables—Not exempt—Case 20.
Carnauba wax as imported in slabs or chunks—Not exempt—Bureau opinion.
Castor beans—Exempt—Case 1.
Cattle, live, *see* Livestock.
Cattle, slaughtered—Not exempt—Case 20.
Charcoal—Not exempt—Bureau opinion.
Cheese—Not exempt—Case 1.
Cheese, cottage—Not exempt—Case 20.
Cheese, cream—Not exempt—Case 20.
Christmas trees, plain, sprayed, or coated—Exempt—Bureau opinion.
Citrus fruits, *see* Fruits.
Coal—Not exempt—Bureau opinion.
Coca beans—Exempt—Case 1 (b), Note 1.
Coffee beans, green—Exempt—Case 1 (b), Note 1.
Coffee, roasted—Not exempt—Bureau opinion.
Coffee, instant—Not exempt—Bureau opinion.
Containers, crates, and boxes which have been used in the movement of exempt commodities and are being returned for reuse—Exempt—Case 8.
Containers, new for use in shipping exempt commodities—Not exempt—Case 8.
Copra meal—Not exempt—Case 6.
Corn, *see* Grain.
Corn cobs—Exempt—Case 1.
Corn cobs, ground—Exempt—Bureau opinion, Note 4.
Corn fodder—Exempt—Case 1.
Cottage cheese, *see* Cheese.
Cotton, carded but not spun, woven, or knitted—Exempt—Bureau opinion, Note 5.
Cotton, ginned or unginned—Exempt—Case 1.
Cotton linters—Exempt—Case 20.
Cotton waste, consisting of scraps of cotton fibre not spun, woven or knitted—Exempt—Bureau opinion, Note 5.
Cotton yarn—Not exempt—Bureau opinion.
Cottonseed, whole—Exempt—Case 1.
Cottonseed cake—Not exempt—Bureau opinion.
Cottonseed, dehulled — Exempt — Bureau opinion.
Cottonseed hulls—Exempt—Case 20.
Cottonseed meal—Not exempt—Case 20.
Crates, *see* Containers.
Cream, *see* Milk.
Cream cheese, *see* Cheese.

Dehydrated, *see* commodity name: Fruits, Vegetables, Eggs, etc.
Diatomaceous earth—Not exempt—Bureau opinion.
Dinners, frozen—Not exempt—Bureau opinion.
Dinners, seafood, frozen—Not exempt—Case 7, Note 6.
Dried, *see* commodity name: Fruits, Vegetables, Eggs, etc.

Eggs:
Albumen, fresh, liquid—Exempt—Case 5.
Dried—Exempt—Case 20.
Frozen—Exempt—Case 20.
In shell—Exempt—Case 1.
Liquid, whole or separated—Exempt—Case 5.
Oiled—Exempt—Case 1.
Powder, dried—Exempt—Case 20.
Shelled—Exempt—Case 5.
Yolks, dried—Exempt—Case 20.
Yolks, fresh, liquid—Exempt—Case 5.

Fats, animal—Not exempt—Bureau opinion.
Feathers—Exempt—Case 20.
Feeds:
Alfalfa meal—Not exempt—Bureau opinion.
Alfalfa pellets—Not exempt—Bureau opinion.
Beet pulp—Not exempt—Case 6.
Bran shorts—Not exempt—Case. 6.
Copra meal—Not exempt—Case. 6.
Corn Gluten—Not exempt—Bureau opinion.
Cottonseed products, *see* Cottonseed.
Distilled corn grain residues, with or without solubles added—Not exempt—Case 6.
Fish meal—Not exempt—Case 6.
Hominy feed—Not exempt—Bureau opinion.
Middlings—Not exempt—Case 6.
Oat hulls, ground—Exempt—Bureau opinion, Note 4.
Pelletized ground refuse screenings—Not exempt—Case 6.
Rice bran—Exempt—Bureau opinion—Compare Case 12.
Screenings, feed—Exempt—Case 6.
Wheat bran—Not exempt—Bureau opinion.
Wheat shorts—Not exempt—Bureau opinion.
Fertilizer, commercial—Not exempt—Bureau opinion.
Fish (including shell fish):
General. Frozen, quick frozen, and unfrozen fish and shell fish in the various forms in which it is shipped, such as live fish, fish in the round, beheaded, and gutted fish, filletted fish, beheaded shrimp, and oysters, clams, crabs, and lobsters, with or without shells, including crab meat and lobster meat—Exempt—Case 11.
Breaded, uncooked, frozen or unfrozen—Exempt—Administrative Ruling No. 98, November 28, 1955.
Cakes, codfish—Not exempt—Case 7, Note 6.
Clam juice or broth—Not exempt—Bureau opinion.
Cooked or partially cooked fish or shrimp, frozen or unfrozen—Not exempt—Administrative Ruling No. 98, November 28, 1955.
Croquettes, salmon, frozen—Not exempt—Case 7, Note 6.
Deviled crabs, clams or lobsters frozen—Not exempt—Case 7, Note 6.
Dinners, frozen—Not exempt—Case 7, Note 6.
Fried fish fillets, oysters, or scallops, frozen—Not exempt—Case 7, Note 6.
Frogs, live or dressed—Exempt—Bureau opinion.
Frozen, *see* General above, and individual listings.
Hermetically sealed in containers as a treatment for preserving—Not exempt—Case 11.
Hermetically sealed in containers for cleanliness only, preservation attained by refrigeration — Exempt — Bureau opinion.
Meal—Not exempt—Case 6.
Offal (inedible portions of fish not further processed)—Exempt—Bureau opinion.
Oil from fishes—Not exempt—Bureau opinion.
Preserved, or treated for preserving, such as smoked, salted, pickled, spiced, corned or kippered—Not exempt—Case 11.
Shells, oyster, moving to market for use in button making—Not exempt—Case 16.
Stew, consisting of raw oysters or clams, milk, and seasoning, frozen but uncooked—Exempt—Bureau opinion.
Sticks, frozen—Not exempt—Case 7, Note 6.
Turtles, sea or fresh water—Exempt—Bureau opinion.
Whale meat, fresh—Exempt—Bureau opinion.
Flagstone—Not exempt—Bureau opinion.
Flax fiber—Exempt—Case 1.
Flaxseed, whole—Exempt—Case 1.
Flaxseed, meal—Not exempt—Bureau opinion.
Flour—Not exempt—Bureau opinion.
Flowers and flower plants, *see* Horticultural commodities.
Fodder, corn and sorghum—Exempt—Case 1.
Forage, *see* Hay.
Forest products.
Bark—Exempt—Case 1.
Bark, boiled to clean and soften—Exempt—Bureau opinion.
Blankets of pine and spruce boughs—Exempt—Bureau opinion.
Greenery—Exempt—Case 1.
Holly sprigs, and cuttings—Exempt—Bureau opinion.
Leaves—Exempt—Case 1.
Leaves, sisal, husks and moisture removed—Exempt—Bureau opinion.
Mistletoe—Exempt—Bureau opinion.
Myrobalons, as imported in natural state—Exempt—Bureau opinion.
Palmyra stalk fibers (fronds from palm leaves)—Exempt—Bureau opinion.
Peat moss, dried, shredded, baled—Exempt—Case 22.
Resin, crude—Exempt—Case 1.
Resin products, such as turpentine—Not exempt—Administrative Ruling No. 62, August 3, 1937.
Roots, natural or dried—Exempt—Bureau opinion.
Sap, maple—Exempt—Case 1.
Spanish moss—Exempt—Case 1.
Sphagnum moss—Exempt—Bureau opinion.
Spices, *see* separate listing: Spices.
Trees, *see* separate listing: Trees.
Valonia, as imported in natural state—Exempt—Bureau opinion.
Wreaths of holly or other natural material with small amount of foundation or decorative material—Exempt—Bureau opinion.
Frogs, *see* Fish.
Frozen, *see* commodity name: Fruits, Vegetables, Fish, Poultry, etc.
Fruits and Berries:
Bagged—Exempt—Case 1.
Canned—Not exempt—Case 20.
Citrus fruit sections, fresh, cold-packed, semi-frozen, or frozen—Exempt—Bureau opinion, Note 2.
Color added—Exempt—Case 1.
Dates, pitted, dried—Exempt—Bureau opinion.
Dehydrated—Exempt—Bureau opinion, Note 3.
Dried, naturally or artificially—Exempt—Cases 1 and 20.
Figs, dried, halved or quartered—Exempt—Bureau opinion.
Frozen, fresh—Exempt—Case 20.
Fumigated—Exempt—Case 1.
Graded—Exempt—Case 1.
Hulls of oranges after juice extractions—Not exempt—Bureau opinion.
In brine, to retain freshness—Exempt—Bureau opinion.

Juice, orange or other citrus—Not exempt—Case 17.
Juice, fruit, plain or concentrated—Not exempt—Bureau opinion.
Kernels—Exempt—Bureau opinion.
Oiled apples—Exempt—Case 1.
Peaches, peeled, pitted, and put in cold storage in unsealed containers—Exempt—Case 20.
Quick frozen, fresh—Exempt—Case 21.
Pies, frozen—Not exempt—Case 14.
Preserved, such as jam—Not exempt—Bureau opinion.
Purees, strawberry and other, frozen—Not exempt—Case 7, Note 6.
Raisins, seeded or unseeded—Exempt—Bureau opinion.
Sliced, fresh or frozen—Exempt—Bureau opinion, Note 2.
Strawberries, in syrup and unsealed containers in cold storage—Exempt—Case 20.

Grains:
Artificially dried—Exempt—Case 1.
Barley, rolled—Exempt—Case 20.
Barley, whole—Exempt—Case 1.
Corn, cracked—Exempt—Bureau opinion.
Corn, shelled—Exempt—Case 1.
Corn, whole—Exempt—Case 1.
Feeds, *see* separate heading: Feeds.
Hulls, *see* Feeds.
Milo maize—Exempt—Bureau opinion.
Oats, whole—Exempt—Case 1.
Oil extracted from grain—Not exempt—Bureau opinion.
Popcorn, popped—Not exempt—Bureau opinion.
Popcorn, unpopped, shelled, in sealed or unsealed containers—Exempt—Bureau opinion.
Rice bran—Exempt—Bureau opinion, Compare Case 12.
Rice, brewers—Exempt—Bureau opinion.
Rice, clean—Exempt—Cases 12 and 20.
Rice polish—Exempt—Case 20.
Rice, precooked—Not exempt—Bureau opinion.
Rice, whole—Exempt—Case 1.
Rye, whole—Exempt—Case 1.
Sorghum grains, whole—Exempt—Case 1.
Wheat germ—Not exempt—Bureau opinion.
Wheat, whole—Exempt—Case 1.
Grass sod—Exempt—Bureau opinion.
Gravel—Not exempt—Bureau opinion.
Greenery, *see* Forest products.
Grinding, *see* Note 4.

Hair, alpaca, camel, or goat, clipped from animal—Exempt—Bureau opinion.
Hair, hog or other animal, product of slaughter of animal—Not exempt—Bureau opinion.
Hay and forage, dried naturally or artificially—Exempt—Case 1.
Hay, chopped—Exempt—Case 20.
Hay, dehydrated—Exempt—Case 1.
Hay, salt (from salt marshes)—Exempt—Bureau opinion.
Hay, sweetened with 3 percent molasses by weight—Not exempt—Bureau opinion.
Hemp fiber—Exempt—Case 1.
Herbs, *see* Spices.
Hides, green and salted—Not exempt—Cases 1 and 23.
Honey, in the comb or strained—Exempt—Case 1.
Honey, heat treated to retard granulation—Exempt—Bureau opinion.
Hops—Exempt—Case 1.
Horticultural commodities:
Bulbs—Exempt—Bureau opinion.
Flowers, growing or cut—Exempt—Bureau opinion.
Leaves, natural or dried—Exempt—Bureau opinion.
Nursery stock—Exempt—Bureau opinion.
Plants, vegetable and flower—Exempt—Bureau opinion.
Roots, rhubarb, asparagus, mint, etc.—Exempt—Bureau opinion.
Trees, growing, balled in earth—Exempt—Bureau opinion.
Wreaths, holly or other natural material, with small amount of foundation or decorative material—Exempt—Bureau opinion.
Humus, of a nature similar to peat moss—Exempt—Bureau opinion.

Ice for cooling subsequent shipments of exempt commodities—Exempt—Administrative Ruling No. 63, August 3, 1937.
Imported commodities—Have same status as domestic—Cases 1 (b) and 22.
Insecticides—Not exempt—Bureau opinion.

Juices, *see* Fruits.
Jute fiber, in bales—Exempt—Bureau opinion.

Kelp, dried, ground—Exempt—Bureau opinion, Note 4.

Latex, *see* Rubber.
Leaves, *see* Forest products, Horticultural commodities, and Spices.
Livestock:
Exhibit animals, such as those of 4–H club members, which though showed for a few days, are chiefly valuable for slaughter—Exempt—Bureau opinion.
Medical use animals, such as ordinary healthy swine for serum manufacture—Exempt—Bureau opinion.
Monkeys—Not exempt—Bureau opinion.
Ordinary, i. e., all cattle, swine, sheep, goats, horses, and mules, except such as are chiefly valuable for breeding, racing, show purposes, and other special uses—Exempt—Case 1.
Race horses—Not exempt—Case 1.
Registered or purebred cattle for ordinary farm or ranch uses, not chiefly valuable for breeding, race, show, or other special purposes—Exempt—Bureau opinion.
Show horses—Not exempt—Case 1.
Zoo animals—Not exempt—Bureau opinion.
Limestone, agricultural—Not exempt—Bureau opinion.
Linseed meal, *see* Meal.
Lumber, rough sawed or planed—Not exempt—Cases 1 and 9.

Manure, in natural state—Exempt—Case 1.
Manure, dried or dehydrated, bagged—Exempt—Bureau opinion.
Maple sap—Exempt—Case 1.
Maple syrup—Not exempt—Bureau opinion.
Meal, alfalfa—Not exempt—Bureau opinion.
Meal, copra—Not exempt—Case 6.
Meal, cottonseed—Not exempt—Case 20.
Meal, fish—Not exempt—Case 6.
Meal, flaxseed—Not exempt—Bureau opinion.
Meal, linseed—Not exempt—Bureau opinion.
Meal, peanut—Not exempt—Bureau opinion.
Meal, soybean—Not exempt—Bureau opinion.
Meat and meat products, fresh, frozen or canned—Not exempt—Cases 1 and 20.
Milk and Cream:
Buttermilk—Exempt—Case 20.
Chocolate—Not exempt—Case 1
Condensed—Not exempt—Case 20.
Frozen—Exempt—Case 20.
Homogenized—Exempt—Case 1.
Pasteurized—Exempt—Cases 1 and 20.
Powdered—Exempt—Case 20.
Raw—Exempt—Case 1.
Skim—Exempt—Cases 1 and 20.
Skim, with two-thirds of water removed, in bulk of unsealed containers—Exempt—Bureau opinion.
Standardized—Exempt—Case 1.
Sterilized in hermetically sealed cans—Not exempt—Bureau opinion.
Vitamin "A"—Exempt—Cases 1 and 20.
Milo, *see* Grain.
Mohair, raw, cleaned, or scoured—Exempt—Case 1(a).
Molasses—Not exempt—Bureau opinion.
Moss, *see* Forest products.
Mushrooms, fresh—Exempt—Case 4.

Nursery stock, *see* Horticultural commodities.
Nuts (including peanuts):
Peanut meal—Not exempt—Bureau opinion.
Peanut shells, ground—Exempt—Case 20, Note 4.
Polished—Exempt—Bureau opinion.
Raw, shelled or unshelled—Exempt—Cases 1, 3, and 18.
Roasted or boiled—Not exempt—Bureau opinion.
Shelled, raw—Exempt—Cases 3 and 18.
Shells—Exempt—Bureau opinion.
Shells, ground peanut—Exempt—Case 20, Note 4.
Unshelled, raw—Exempt—Case 1.

Oats, *see* Grains.
Oil, mint—Not exempt—Case 1.
Oil, extracted from vegetables, grain, seed, fish, or other commodity—Not exempt—Bureau opinion.

Packaged commodities—Packaging exempt commodities does not affect their exempt status—Case 1.
Peanuts, *see* Nuts.
Peat moss, *see* Forest products.
Pelletized feeds, *see* Feeds.
Pelts—Not exempt—Case 1.
Pies, frozen—Not exempt—Case 14.
Pigeons, racing—Not exempt—Case 13.
Plants, vegetable or flower, *see* Horticultural commodities.
Poles, *see* Trees.
Popcorn, *see* Grains.
Poultry, dressed, fresh or frozen—Exempt—Case 19.
Poultry, feathers—Exempt—Case 20.
Poultry, frozen—Exempt—Case 19.

NOTES

NOTE 1: The report in Determination of Exempted Agricultural Commodities, MC–C–968, First Supplemental Report, decided February 11, 1958, was served on February 14, 1958. Whether any petitions for reconsideration will be filed is not known at this time.

NOTE 2: In Penn-Dixie, 68 M. C. C. 29, Division 1 of the Commission held fresh citrus fruit sections not to be within the exemption. However, this decision was rendered prior to the affirmance by the U. S. Supreme Court of the court decisions in I. C. C. vs. Home Transfer & Storage Co., 141 F. Supp. 599, 352 U. S. 884 and in Frozen Food Express vs. U. S., 148 F. Supp. 399, 355 U. S. 6. In the former case peeled and sliced frozen peaches were held to be within the exemption, and in the latter case cut up vegetables and peeled and pitted peaches were held to be within the exemption.

NOTE 3: In the Determination case, 52 M. C. C. 511, the Commission held that dehydrated vegetables do not come within the exemption. However, that position would seem no longer valid in view of the recent holding in Frozen Food Express vs. U. S., 148 F. Supp. 399 that dried egg powder, dried egg yolks and powdered milk are within the exemption, which holding was affirmed by the U. S. Supreme Court in 355 U. S. 6.

NOTE 4: It is rather clear from the Determination case, 52 M. C. C. 511, that the Commission considered grinding to be manufacturing, though it did not specifically so hold. The Bureau until recently considered all ground commodities to be not exempt. In Herrett, 69 M. C. C. 487 (January 29, 1957), the Commission, Division 1, held ground oat hulls not within the exemption. This, however, was prior to the expiration of the date for appeal in Frozen Food Express vs. U. S. and I. C. C., 148 F. Supp. 399, in which the court held, among other things, that ground peanut shells, dried egg powder, and powdered milk are within the exemption. No appeal was taken as to ground peanut shells, and on appeal the U. S. Supreme Court affirmed the decision as to the two powdered commodities. The Court opinion does not describe the grinding and powdering processes there involved, but in an early Commission case, Harris and Callis, 4 M. C. C. 169 it was said that ground peanut shells are produced by pulverization in a hammer mill.

In view of the Court holdings, which now are final, the Bureau no longer considers that grinding alone removes a commodity from the exemption. However, manufacturing which follows or precedes grinding may have this effect. Thus the bolting which produces flour would make that commodity non-exempt. Also meals produced by grinding commodities from which the oil has been extracted are considered not within the exemption. Thus in the Frozen Food case, mentioned above, the court held cottonseed meal not to be within the exemption.

NOTE 5: In view of the "substantial identity" test of the U. S. Supreme Court in East Texas Motor Freight Lines, Inc. vs. Frozen Food Express, 351 U. S. 49, the Bureau takes the view that the exemption includes cotton or wool which has been combed or carded but not spun, woven or knitted. Thus wool tops and noils are now considered within the exemption. Also considered within the exemption is waste which consists of scraps or discards of cotton or wool fibers resulting from the handling and processing in mills, but not waste made up of scraps of thread, yarn, or cloth.

NOTE 6: This holding was made in Hughes, 71 M. C. C. 457, which proceeding later was reopened for further hearing. Pending final determination of the proceeding the holding cannot be considered an authoritative decision of the Commission. However, these same commodities were held not exempt in

Bureau opinions rendered previous to the decision. Compare Administrative Ruling No. 98.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy with the Director, Federal Register Division.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies sec. 203, 49 Stat. 544, as amended; 49 U. S. C. 303)

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F. R. Doc. 58-6876; Filed, Aug. 25, 1958; 8:54 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 909]

ALMONDS GROWN IN CALIFORNIA

BUDGET OF EXPENSES OF ALMOND CONTROL BOARD AND RATE OF ASSESSMENT FOR 1958-59 CROP YEAR

Notice is hereby given that the Secretary is considering a proposed rule to establish a budget of expenses of the Almond Control Board of $33,000, and a rate of assessment of seventeen hundredths of a cent (.17¢) per pound of almond kernels received by handlers for their own accounts during the crop year beginning July 1, 1958. The proposed budget and assessment rate, which are based on the recommendation of the Almond Control Board and other information available to the Secretary, would be established in accordance with the applicable provisions of Marketing Agreement No. 119, as amended, and Order No. 9, as amended (7 CFR Part 909), regulating the handling of almonds grown in California. Said amended marketing agreement and order are effective under the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Consideration will be given to data, views, or arguments pertaining to the proposed rule which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., not later than the tenth day after publication of this notice in the FEDERAL REGISTER.

The quantity of assessable almonds is presently estimated at approximately 27 million pounds (kernel weight) for the 1958-59 crop year. On this basis, an assessment rate of .17 cent per pound of almond kernels would result in the collection of sufficient funds to meet the estimated expenses of the Board for the 1958-59 crop year and provide a reasonable excess. The aforesaid amended marketing agreement and order provide that funds which are collected in excess of expenditures for a crop year may be used temporarily by the Board during the four month period subsequent to such crop year in paying the expenses of the Board in connection with the new crop year, but must be made available to the handlers from whom collected within five months from the beginning of such new crop year.

The proposed rule is as follows:

§ 909.308 *Budget of expenses of the Almond Control Board and rate of assessment for the crop year beginning July 1, 1958*—(a) *Budget of expenses.* The budget of expense for the crop year beginning July 1, 1958 shall be in the total amount of $33,000 for the maintenance and functioning of the Almond Control Board, and for such purposes as the Secretary may, pursuant to the provisions of the agreement and order, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for the said crop year shall be seventeen hundredths of a cent (.17¢) per pound of almonds, kernel weight basis, received by each handler for his own account, except almonds received from other handlers on which assessments have been paid.

Dated: August 20, 1958.

[Docket Nos. AO-238-A8, AO-298]

HANDLING OF MILK IN CENTRAL WEST TEXAS AND RED RIVER VALLEY MARKETING AREAS

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO REVISED RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR, Part 900), notice is hereby given that the time for filing exceptions to the revised recommended decision with respect to the proposed marketing agreement and order to regulate the handling of milk in the Red River Valley marketing area, which was issued on August 12, 1958 (23 F. R. 6284; F. R. Doc. 58-6569), is hereby extended to September 2, 1958. Such exceptions must be filed with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on that date.

Dated: August 21, 1958.

Commodity Stabilization Service

[7 CFR Part 725]

BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED AND VIRGINIA SUN-CURED TOBACCO

ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR 1959-60 MARKETING YEAR

Notice is hereby given that pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1312, 1313, 1377), and Public Law 85-705, 85th Congress, 2d Session, approved August 21, 1958, the Secretary is preparing to amend the regulations (22 F. R. 5675, 8103; 23 F. R. 135) governing establishment of farm tobacco acreage allotments for burley, flue-cured, fire-cured, dark air-cured and Virginia sun-cured tobacco for the 1958-59 marketing year by the addition of § 725.929 following § 725.928 as set forth below. Such amendment, however, will be contingent upon growers of fire-cured (type 21) tobacco and Virginia sun-cured (type 37) tobacco voting approval in a referendum to combine acreage allotments for fire-cured (type 21) tobacco and Virginia sun-cured (type 37) tobacco into a single combined acreage allotment for a farm as provided in Public Law 85-705, 85th Congress, 2d Session, approved August 21, 1958.

§ 725.929 *Combination of 1958 fire-cured (type 21) tobacco acreage allotment and 1958 Virginia sun-cured (type 37) tobacco acreage allotment on the same farm into a 1958 single combined allotment.* (a) The 1958 fire-cured (type 21) tobacco acreage allotment and the 1958 Virginia sun-cured (type 37) tobacco acreage allotment heretofore established for the same farm pursuant to § 725.911 to 725.928, inclusive, shall be combined into a 1958 single combined tobacco acreage allotment for the farm for either fire-cured (type 21) tobacco, or Virginia sun-cured (type 37) tobacco, whichever the owner of the farm or his representative chooses and notifies the county committee of his choice, within 15 days after the date written notification of the opportunity to make such choice is mailed to him. The county committee shall also notify the farm owner that in case the owner of any such farm or his representative does not notify the county committee of his choice within such 15 days, the county committee, with approval of a representative of the State committee, shall combine such 1958 allotments for such farm into a 1958 single combined acreage allotment for either fire-cured (type 21) tobacco or Virginia sun-cured (type 37) tobacco, on the basis of (1) the prevalent kind of tobacco grown in the area in which such farm is located, (2) the curing facilities on such farm, and (3) the proximity and nature of markets. Any single combined acreage allotment established for any farm pursuant to this paragraph shall equal the sum of the acreage of the allotments of fire-cured (type 21) tobacco and Virginia sun-cured (type 37) tobacco comprising it, and shall be used for all purposes of the 1958 tobacco marketing quota program and for determining 1958 price support eligibility.

(b) After the date farmers voting in a referendum approve the establishment of combined acreage allotments as provided in this section, if one or more farms having a 1958 fire-cured (type 21) tobacco acreage allotment is combined with another or more farms having a 1958 Virginia sun-cured (type 37) tobacco acreage allotment a single combined acreage allotment for the 1958-59 marketing year designated for either fire-cured (type 21) tobacco or Virginia sun-cured (type 37) tobacco shall be established for the combined farm equal to the total acreage of and in place of the 1958 acreage allotments for fire-cured (type 21) tobacco and Virginia sun-cured (type 37) tobacco previously established for the farms comprising the combined farm. The county committee shall give written notification to the owner of such combined farm that he or his representative may designate a single combined 1958 acreage allotment for the combined farm as either for fire-cured (type 21) tobacco or for Virginia sun-cured (type 37) tobacco by submitting his choice to the local county committee within 15 days following the date of mailing of such notification to him; and that if he fails to notify the county committee of his choice within such time, the county committee, with approval of a representative of the State committee, shall designate the 1958 single combined acreage allotment for the farm as heretofore provided in this section.

(c) Single combined farm acreage allotments established in accordance with this section shall be determined and approved as provided in § 725.927 (a) and written notice thereof shall be given and mailed as provided in § 725.927 (b).

Prior to the final adoption and issuance of this amendment, consideration will be given to any data, views, or recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington, D. C. All submissions must be postmarked not later than five days from the date of filing of this notice with the Director, Division of the Federal Register, in order to be considered.

Done at Washington, D. C., this 22d day of August 1958.

[SEAL] CLARENCE L. MILLER, *Acting Administrator.*

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42]

PILOT RECENT EXPERIENCE REQUIREMENTS

WITHDRAWAL OF NOTICE OF PROPOSED RULE MAKING

The Bureau of Safety has had under consideration amendments to Parts 40, 41, and 42 of the Civil Air Regulations relative to pilot recent experience requirements. The reasons for this proposed rule making were set forth in detail in a notice of proposed rule making which was published in the FEDERAL REGISTER (22 F. R. 9079) and circulated to the industry as Civil Air Regulations Draft Release No. 57-25. The Bureau desires that all persons affected by the requirements of this proposal be fully informed as to the status of the proposal and the developments associated therewith.

The present provisions of §§ 40.301, 41.52, and 42.44 require that pilots shall have made within 90 days preceding their serving in air transportation, at least 3 take-offs and 3 landings in aircraft of the same type in which they are to serve. It was proposed to amend these sections to require that prior to serving as pilot in command of a particular type airplane a pilot shall have served at least 20 hours as pilot, or have satisfactorily passed an appropriate flight check, in that type of airplane within the preceding 60 days. The consensus of the comment received in response to Draft Release 57-25 was that the present requirements should not be amended as proposed therein.

A study of the comments received and other relevant information and discussions with interested parties indicate that the proposed amendments would not afford any significant increase in safety over the present regulations and would place a burden on the air carriers which is not commensurate with any increase in safety that they might afford. It is, therefore, the Bureau's opinion that it should not recommend adoption of the proposed amendments to the Board. However, the requirements for pilot recent experience are being considered further as a part of the over-all review which the Bureau is now conducting with respect to the standards for air carrier training programs.

The Bureau, therefore, wishes to make it clear that a modified proposal to amend the pilot recent experience requirements may be forthcoming and that the view presently expressed is not to be considered binding on the Bureau or the Board in the consideration of this or similar matters in the future.

Accordingly, the Bureau of Safety hereby withdraws Civil Air Regulations Draft Release No. 57-25.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425)

Dated at Washington, D. C., August 18, 1958.

By the Bureau of Safety.

[SEAL] OSCAR BAKKE, *Director.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. Idaho 09521]

IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

AUGUST 18, 1958.

In accordance with the authority vested in me by Order No. 541, section 2.5, of the Director, Bureau of Land Management, approved April 21, 1954, 19 F. R. 2476, it is ordered as follows:

The lands hereinafter described, so far as they are withdrawn and reserved for stock driveway purposes, are hereby restored to disposition under the public land laws.

BOISE MERIDIAN, IDAHO

T. 1 S., R. 11 E., Parcel No. 1,
Sec. 8, E½E½, SW¼SE¼;
Sec. 9, W½W½;
Sec. 17, N½.
T. 1 S., R. 11 E., Parcel No. 2,
Sec. 18, S½SE¼;
Sec. 19, E½E½, NW¼NE¼;
Sec. 20, W½W½, SE¼SW¼;
Sec. 29, W½NW¼, NW¼SW¼;
Sec. 30, NE¼NE¼.

Within the above-described areas are 1,320 acres of public lands.

The land is typical of dry grazing land in southern Idaho, and is located in Elmore County, Idaho.

No application for these lands will be allowed under the homestead, desert land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

With respect to Parcel No. 2, this revocation is made in furtherance of an exchange under section 8 of the act of June 28, 1934, as amended by section 3 of the act of June 26, 1936 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 315g) by which the offered lands will benefit a Federal Land Program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended, granting prefer-

ence rights to veterans of World War II and others.

With respect to Parcel No. 1, subject to any existing valid rights and the requirements of applicable law, the lands described in paragraph 2 hereof, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on September 23, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 23, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on December 23, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

Persons claiming veteran's preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall addressed to the Manager, Land Office, Bureau of Land Management, P. O. Box 2237, Boise, Idaho.

J. R. PENNY,
State Supervisor.

MICHIGAN

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

AUGUST 20, 1958.

Plat of Survey of the land (Island) described below, accepted March 26, 1958, will be officially filed in the Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C., effective 10:00 a. m., on September 30, 1958.

MICHIGAN MERIDIAN, MICHIGAN

T. 22 N., R. 9 W., Sec. 2, Lot 5; 4.00 acres.

This plat represents the survey of an island in Long Lake which was not included in the original survey as shown by plat approved January 19, 1854.

The island in sec 2, T. 22 N., R. 9 W. is upland in character, reaching approximately 10 to 15 feet above water level. There is a small swamp area on the island. Timber species consists of birch, poplar, white and Norway pine, balm of Gilead, maple and oak, ranging in size from 4 to 18 inches diameter. Soil is sandy loam.

No application may be allowed under the homestead or small tract or any other nonmineral public land laws unless the lands have already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merit. The lands will not be subject to occupancy or disposition until they have been classified.

Applications and selections under nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager, mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

1. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

2. All valid applications, under the Homestead and Small Tract Laws, by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 274–284 as amended), presented prior to 10:00 a. m., on September 30, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m., on December 30, 1958, will be governed by the time of filing.

3. All valid applications and selections under the nonmineral public land laws, other than those coming under paragraph (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on December 30, 1958, will be considered filed simultaneously at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

All inquiries relating to the lands should be addressed to the Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

H. K. SCHOLL,
Manager.

MICHIGAN

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

AUGUST 20, 1958.

Plats of Survey of the lands (Islands) described below, accepted March 26, 1958, will be officially filed in the Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C., effective 10:00 a. m., on September 30, 1958.

MICHIGAN MERIDIAN, MICHIGAN

T. 43 N., R. 3 E.,
Sec. 24, Lots 1, 2; 7.41 acres.
Sec. 25, Lots 6, 7, 8; 13.13 acres.
T. 43 N., R. 4 E.,
Sec. 30, Lots 1, 2; 12.13 acres.

These plats represent the survey of islands in the St. Mary's River which was not included in the original survey as shown by plat approved January 31, 1846.

In T. 43 N., R. 3 E., the island designated Lot 1, Sec. 24 (Bass Reef Isl.) is stony and upland in character, reaching approximately 10 feet above water level. The timber species consists of elm, birch, cedar, ash, and poplar, ranging in size from 4 to 18 inches in diameter. The island designated Lot 2, Sec. 24, and Lot 6, Sec. 25 (Love Isl.) is upland in character, reaching approximately 8 feet above water level. Timber species consists of birch, cedar, poplar, ash, elm, tamarack, basswood, and balm of Gilead ranging in size from 4 to 24 inches diameter. The island designated Lot 7, Sec. 25, is upland in character, reaching approximately 10 feet above water level. Timber species consists of poplar, birch, elm, boxelder, ash, cedar, maple, and balm of Gilead, ranging in size from 4 to 20 inches diameter. The island designated Lot 8, Sec. 25 and Lot 2, Sec. 30, Ts. 43 N., Rs. 3 and 4 E. (Hart Island) is upland in character, reaching approximately 10 feet above water level. Timber consists of cedar, birch, balsam, poplar, tamarack, elm, maple, and balm of Gilead, ranging in size from 4 to 20 inches diameter. In T. 43 N., R. 4 E., the island designated Lot 1, Sec. 30 (Edward Isl.) is upland in character, reaching approximately 10 feet above water level. Timber species consist of elm, cedar, birch, poplar, balm of Gilead, and ash, ranging in size from 4 to 24 inches diameter. Soil is sandy, gravelly, and stony loam.

No application may be allowed under the homestead or small tract or any other nonmineral public land laws unless the lands have already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merit. The lands will not be subject to occupancy or disposition until they have been classified.

Applications and selections under nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager, mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

1. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

2. All valid applications, under the Homestead and Small Tract Laws, by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 274–284 as amended), presented prior to 10:00 a. m., on September 30, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m., on December 30, 1958, will be governed by the time of filing.

3. All valid applications and selections under the nonmineral public land laws, other than those coming under paragraph (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on December 30, 1958, will be considered filed simultaneously at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

All inquiries relating to the lands should be addressed to the Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

H. K. SCHOLLS,
Manager.

[Classification No. 491]

CALIFORNIA

SMALL TRACT CLASSIFICATION

JULY 30, 1958.

1. Pursuant to authority delegated to me by the California State Supervisor, Bureau of Land Management, under Part II, Document 4, California State Office, dated November 19, 1954 (19 F. R. 7697), I hereby classify the following described public lands, totaling 134.01 acres, in San Bernardino County, California, as suitable for disposition for residence purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

SAN BERNARDINO MERIDIAN

T. 4 N., R. 6 W.,
Sec. 6, Lots 3 to 50, inclusive.

Containing 134.01 acres, subdivided into 48 small tracts, of which 33 are covered by applications from persons entitled to preference under 43 CFR 257.5 (a).

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to applications under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid with a preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to July 30, 1958, will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a).

ROLLA E. CHANDLER,
Officer-in-Charge,
Southern Field Group,
Los Angeles, Calif.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Dept. Circ. 570, Rev. Apr. 20, 1943, 1958. Supp. 190]

PRUDENTIAL INSURANCE COMPANY OF GREAT BRITAIN

SURETY COMPANIES ACCEPTABLE ON FEDERAL BONDS

AUGUST 21, 1958.

A Certificate of Authority has been issued by the Secretary of the Treasury to the following company under the act of Congress approved July 30, 1947, 6 U. S. C. secs. 6–13, as an acceptable surety on Federal bonds.

An underwriting limitation of $688,000.00 has been established for the company. Further details as to the extent and localities with respect to which the company is acceptable as surety on Federal bonds will appear in the next issue of Treasury Department Form 356, copies of which, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Surety Bonds Branch, Washington 25, D. C.

The Certificate of Authority issued to the company on May 1, 1958, to act as a reinsuring company only on Federal bonds, given under Department Circular No. 297, July 15, 1922, 31 CFR Part 223 is terminated as a result of the company's qualification as a direct writing company.

Name of company, location of principal executive office and State in which incorporated. The Prudential Insurance Company of Great Britain located in New York, New York.

[SEAL] JULIAN B. BAIRD,
Acting Secretary of the Treasury.

FEDERAL POWER COMMISSION

[Docket No. G–15976]

DELTA DRILLING CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 19, 1958.

Delta Drilling Company (Delta) on July 24, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 22, 1958.

Purchaser: United Gas Pipe Line Company.

Rate schedule designation: Supplement No. 6 to Delta's FPC Gas Rate Schedule No. 8.

Effective date: August 21, 1958 (effective date is the date on which Supplement Nos. 4 and 5 to Delta's FPC Gas Rate Schedule No. 8 were accepted for filing and permitted to become effective).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 6 to Delta's FPC Gas Rate Schedule No. 8 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules

of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 6 to Delta's FPC Gas Rate Schedule No. 8.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until August 22, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6851; Filed, Aug. 25, 1958; 8:47 a. m.]

[Docket No. G-15994]

PHILLIPS PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 19, 1958.

Phillips Petroleum Company (Phillips) on July 21, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 18, 1958.
Purchaser: West Lake Natural Gasoline Company.
Rate schedule designation: Supplement No. 1 to Phillips' FPC Gas Rate Schedule No. 316.
Effective Date: August 21, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed periodic rate increase, Phillips only quotes the pricing provisions of the contract.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Phillips' FPC Gas Rate Schedule No. 316 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Phillips' FPC Gas Rate Schedule No. 316.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until August 22, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6852; Filed, Aug. 25, 1958; 8:47 a. m.]

[Docket No. G-15995]

MAGNOLIA PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 19, 1958.

Magnolia Petroleum Company (Magnolia) on July 22, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: El Paso Natural Gas Company et al.
Rate schedule designation: Supplement No. 1 to Magnolia's FPC Gas Rate Schedule No. 144.
Effective date: August 22, 1958 (effective date is the effective date proposed by Magnolia).

In support of the proposed favored-nation rate increase, Magnolia states, in effect, that the contract was entered into in good faith as the result of extensive arm's length negotiations, and that the gas is sold on an installment basis. Magnolia contends that gas is a commodity as opposed to a service rendered by a pipe line or distribution company; that there is a physical limitation upon a wasting asset such as natural gas; that the supply and demand method of rate determination is the only feasible formula under which the natural gas industry can operate and still maintain a certain and adequate supply; and that rising costs necessitate increased rates. In addition, Magnolia submits a copy of a letter dated June 20, 1958, from El Paso Natural Gas Company notifying Magnolia that similar increases of Sun Oil Company are now in effect subject to refund after suspension in Docket No. G-12880.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Magnolia's FPC Gas Rate Schedule No. 144 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Magnolia's FPC Gas Rate Schedule No. 144.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until January 22, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6853; Filed, Aug. 25, 1958; 8:47 a. m.]

[Docket No. G-15996]

BRITISH-AMERICAN OIL PRODUCING CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 19, 1958.

The British-American Oil Producing Company (Operator) et al. (British-American), on July 23, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 14, 1958.
Purchaser: Mountain Fuel Supply Company.
Rate schedule designation: Supplement No. 2 to British-American's FPC Gas Rate Schedule No. 20.
Effective date: October 14, 1958 (effective date is the effective date proposed by British-American).

In support of the proposed periodic rate increase, British-American states that the contract pricing provision collectively represents the consideration, that the contract was negotiated at arm's length, and that periodic price increases are common in long-term contracts and are economically desirable to all parties.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 2 to British-American's FPC Gas Rate Schedule No. 20 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 2 to British-American's FPC Gas Rate Schedule No. 20.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until March 14, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6854; Filed, Aug. 25, 1958; 8:47 a. m.]

[Docket No. G-15997]

AMERADA PETROLEUM CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 19, 1958.

The Amerada Petroleum Corporation (Amerada) on July 23, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 18, 1958.
Purchaser: Texas Illinois Natural Gas Pipeline Company.
Rate schedule designation: Supplement No. 9 to Amerada's FPC Gas Rate Schedule No. 8.
Effective date: September 1, 1958 (effective date is the effective date proposed by Amerada).

In support of the proposed redetermined rate increase, Amerada submits a copy of a letter from the Texas Illinois Natural Gas Pipeline Company stating that it has made a study in accordance with the contract price redetermination provision and informing Texas of the recomputed price for the second five-year period and agreeing to the new price. Amerada states that the contract resulted from arm's-length bargaining.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 9 to Amerada's FPC Gas Rate Schedule No. 8 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 9 to Amerada's FPC Gas Rate Schedule No. 8.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6855; Filed, Aug. 25, 1958; 8:47 a. m.]

[1] Present rate previously suspended and is in effect subject to refund in Docket No. G-12882.

[Docket No. G-15998]

TEXAS CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 19, 1958.

The Texas Company (Texas) on July 24, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: Mountain Fuel Supply Company.
Rate schedule designation: Supplement No. 3 to Texas' FPC Gas Rate Schedule No. 45.
Effective date: October 14, 1958 (effective date is the effective date proposed by Texas).

In support of the proposed periodic rate increase, Texas states that the contract pricing provision collectively represents the consideration, that the contract was negotiated at arm's length, and that periodic price increases are common in long-term contracts and are economically desirable to all parties. Texas further states that the increase is necessary to replace depleted reserves and compensate for higher costs and that other producers in the area are receiving 15 cents per Mcf for new gas.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 3 to Texas' FPC Gas Rate Schedule No. 45 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 3

to Texas' FPC Gas Rate Schedule No. 45.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until March 14, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6856; Filed, Aug. 25, 1958; 8:47 a. m.]

[Docket No. G-15999]

TEXAS CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 19, 1958.

The Texas Company (Operator) et al. (Texas) on July 25, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: Texas Illinois Natural Gas Pipeline Company.
Rate schedule designation: Supplement No. 5 to Texas' FPC Gas Rate Schedule No. 1.
Effective date: September 1, 1958 (effective date is the effective date proposed by Texas).

In support of the proposed redetermined rate increase, Texas submits a copy of a letter from the Texas Illinois Natural Gas Pipeline Company stating that it has made a study in accordance with the contract price redetermination provision and informing Texas of the recomputed price for the second five-year period and agreeing to the new price. Texas states that the contract resulted from arm's-length bargaining and that the increase is part of the overall consideration to partially compensate it for continuously increasing costs. Texas cites prices as high as 20.0 cents per Mcf being paid in the area for similar supplies of new gas.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 5 to Texas' FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 5 to Texas' FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6857; Filed, Aug. 25, 1958; 8:48 a. m.]

[Docket No. G-13792 etc.]

PERMIAN BASIN PIPELINE CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 20, 1958.

In the matters of Permian Basin Pipeline Company, Docket No. G-13792; Sun Oil Company (Southwest Division), Docket No. G-13931; Phillips Petroleum Company, Operator, Docket No. G-14131.

Take notice that on November 22, 1957, Permian Basin Pipeline Company (Permian) filed in Docket No. G-13792 an application, pursuant to section 7 (c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of approximately 60.9 miles of 16-inch lateral supply pipeline to extend in a southerly direction from a point of connection with Permian's existing Hobbs Compressor Station in Lea County, New Mexico, to a dehydration plant in Winkler County, Texas, which, together with approximately 11.3 miles of field lines varying in diameter from 16 to 6 inches, and 9 meter stations, will be installed by Permian in the Emperor Field, Winkler County, in order to purchase, receive, dehydrate, and transport natural gas produced in the Emperor Field by Sun Oil Company (Southwest Division) (Sun), Phillips Petroleum Company, Operator (Phillips), and Tidewater Oil Company (Tidewater), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The estimated total initial cost of the facilities proposed by Permian is $3,691,600, which cost will be financed by short-term borrowing from Northern Natural Gas Company and will be repaid with proceeds of permanent financing upon completion of the construction of the facilities.

On December 11, 1957, as supplemented by letter filed April 4, 1958, Sun in Docket No. G-13931, and on December 23, 1957, as supplemented May 19, 1958, Phillips in Docket No. G-14131, filed certificate applications covering the above sales of gas to Permian to be made pursuant to separate gas sales contracts dated October 28, 1957, and September 6, 1957, respectively.

Tidewater was authorized by order issued December 17, 1957, in Docket No. G-11768, to make the above sale to Permian from the Emperor Field under a contract dated August 9, 1957.

Sun, Phillips, and Tidewater are the sole signatory seller parties to their respective contracts with Permian, which have similar terms and provisions.

Producers' facilities consist of customary lease equipment. Proposed deliveries will be made at Permian's proposed meter stations at or near the well-heads and will commence upon receipt of authorization by the producers and completion of Permian's proposed facilities, estimated at 90 days from the commencement of construction thereof.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 24, 1958, at 9:30 a. m. e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 "G" Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 12, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6858; Filed, Aug. 25, 1958; 8:48 a. m.]

[Docket No. G-15294]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

August 20, 1958.

Take notice that on June 16, 1958, The Ohio Fuel Gas Company (Applicant) filed in Docket No. G-15294 an application, pursuant to section 7 (c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities in order to provide direct interruptible industrial service to the Universal-Cyclops Steel Corporation (Universal) for use in a new stainless steel strip mill near Conesville, in Coshocton County, Ohio, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 9,600 feet of 8-inch lateral pipeline from its existing 8- and 10-inch interstate Line O-731 to the Universal plant now under construction near Conesville, and an industrial measuring and regulating station to serve the plant.

The estimated natural gas requirements of Universal in Mcf are:

	1959	1960	1961	1963
Peak day	1,000	2,200	3,000	5,500
Annual	330,000	480,000	550,000	1,000,000

Applicant estimates the total capital cost of constructing its proposed facilities to serve Universal at $107,985, of which Universal will advance $78,500, which will be refunded by Applicant at an annual rate of 40 percent of the semi-annual revenues from the proposed sale. The remainder of Applicant's cost of construction will be financed from cash on hand.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 25, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 17, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Project No. 1886]

OZARK-MAHONING CO.

NOTICE OF APPLICATION FOR SURRENDER OF LICENSE

AUGUST 20, 1958.

Public notice is hereby given that Ozark-Mahoning Company, of Tulsa, Oklahoma, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for surrender of the license for water-power Project No. 1886, located on James Creek, tributary of Left Hand Creek which is a tributary of St. Vrain Creek, in Boulder County, Colorado.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is September 25, 1958. The application is on file with the Commission for inspection.

[Docket No. G-15866]

J. M. FLAITZ AND R. B. MITCHELL ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 19, 1958.

J. M. Flaitz and R. B. Mitchell (Operator) et al. (Respondent) on July 28, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: Southern Natural Gas Company.
Rate schedule designation: Supplement No. 1 to Respondent's FPC Gas Rate Schedule No. 2.
Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

The increased rate(s) and charge(s) so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until August 2, 1958, and thereafter to permit it to become effective as of that date: *Provided,* That within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until August 2, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate(s), charge(s), and classification(s) set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of August 2, 1958: *Provided, however,* That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the

[1] Previous rate previously suspended and is in effect subject to refund in Docket No. G-13065.

presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of ---------- To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-__, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ------ day of -------

---

By ----------

Attest:

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1931]

FIRSTAMERICA CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

AUGUST 20, 1958.

In the matter of application by the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in First-America Corporation, Capital Stock, File No. 7-1931.

The above-named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York and Pacific Coast Stock Exchanges.

Upon receipt of a request, on or before September 5, 1958, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[File No. 24SF-2440]

CONDOR PETROLEUM CO., INC.

NOTICE OF AND ORDER FOR HEARING.

AUGUST 20, 1958.

I. Condor Petroleum Co., Inc., a Delaware corporation, filed with the Commission on September 5, 1957, a notification and offering circular relating to a proposed offering of 100,000 shares of its 10 cents par value common stock at $3.00 per share and subsequently filed amendments thereto for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to section 3 (b) thereof and Regulation A promulgated thereunder.

II. The Commission on July 9, 1958, issued an order pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending the conditional exemption under Regulation A, and affording to any person having an interest therein an opportunity to request a hearing pursuant to Rule 261. A written request for hearing was received by the Commission.

The Commission, deeming it necessary and appropriate to determine whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption.

It is hereby ordered, That a hearing under the applicable provisions of the Securities Act of 1933, as amended, and the rules of the Commission be held in the New York Regional Office, 225 Broadway, New York 7, New York, at 10:00 a. m., September 25, 1958, with respect to the following matters and questions without prejudice, however to the specification of additional issues which may be presented in these proceedings:

A. Whether the conditional exemption provided by Regulation A is not available for the securities purported to be offered in that:

1. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made in the light of circumstances under which they are made not misleading, particularly, with respect to:

(a) The identity of the actual underwriter;

(b) The identity of the person or persons to whom commissions on sales of securities are being paid.

2. The offering is being and would be made in violation of section 17 of the Act.

3. The Regulation A exemption is not available pursuant to Rule 261 (a) (6) in that the actual underwriter of the securities being offered was temporarily enjoined by the United States District Court for the Southern District of New York on January 3, 1958, from further violations of section 15 (c) (3) of the Securities Exchange Act of 1934.

B. Whether the order dated July 9, 1958 temporarily suspending the exemption under Regulation A should be vacated or made permanent.

III. *It is further ordered*, That William Swift, Sr. or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing, and any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all of the powers granted to the Commission under sections 19 (b), 21 and 22 (c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on Condor Petroleum Co., Inc., that notice of the entering of this order shall be

given to all other persons by general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard or otherwise wishes to participate in such hearing shall file with the Secretary of the Commission on or before September 19, 1958, a request relative thereto as provided in Rule XVII of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 58-6879; Filed, Aug. 25, 1958; 8:54 a. m.]

[File No. 70-3722]

COLUMBIA GAS SYSTEM, INC.

NOTICE OF PROPOSED ISSUE AND SALE OF SHORT-TERM NOTES TO BANKS

AUGUST 19, 1958.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, has filed a declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 thereof as applicable to the proposed transactions, which are summarized as follows:

Pursuant to agreements dated July 22, 1958, with a group of commercial banks, Columbia will issue and sell to said banks its unsecured promissory notes in aggregate principal amount not exceeding $40,000,000 to evidence loans as follows:

Bank	*Amount*
Guaranty Trust Company of New York	$13,000,000
Chemical Corn Exchange Bank	4,500,000
Mellon National Bank and Trust Company	4,500,000
The First National City Bank of New York	4,700,000
Bankers Trust Company	3,000,000
Irving Trust Company	2,150,000
The Hanover Bank	2,150,000
J. P. Morgan & Co., Inc.	2,150,000
Manufacturers Trust Company	2,150,000
The New York Trust Company	1,500,000
Brown Brothers, Harriman & Company	200,000
Total	$40,000,000

Columbia will borrow not less than $20,000,000 by September 15, 1958, and the balance, to the extent required, by December 31, 1958. Borrowings will be made on 11 months' notes and will provide for interest at the annual rate of 3½ percent, the current prime rate for commercial loans. Columbia may prepay any borrowing on 10 days' notice, but it may not prepay the loans by borrowing from banks at a lower rate of interest. The total amount borrowed by Columbia, if less than $40,000,000, will be borrowed from the respective banks in proportion to their total participation as aforesaid.

There is now pending before the Commission a joint application-declaration of Columbia and its wholly-owned subsidiary Columbia Gulf Transmission Company ("Pipeline Company") in which Columbia seeks the Commission's approval to acquire through Pipeline Company the facilities of Gulf Interstate Gas Company ("Gulf Interstate"), which now transports gas from the Louisiana gas fields to the Columbia system service area under a long-term contract (File No. 70-3719). Until it is known whether the proposed acquisition will be consummated, Columbia cannot determine the amount of its cash requirements. If the acquisition of Gulf Interstate is consummated, Columbia will require cash as follows: (1) Not less than $45,000,000 and possibly as much as $55,000,000 to assist system companies in financing the balance of their 1958 construction requirements, and to maintain adequate minimum cash balances, and (2) $20,000,000 to increase its investment in the stock of Pipeline Company. In such event, Columbia proposes to furnish the required capital by the sale of $30,000,000 of debentures in October; by short-term bank borrowings as required, but not exceeding $40,000,000, and the balance, if any, through funds generated internally. The bank borrowings would be repaid from the proceeds of common stock and possibly debenture financing as soon as feasible.

If the acquisition of the Gulf Interstate facilities is not consummated, Columbia will liquidate its investment in the securities of that company, thus reimbursing its treasury for the $20,000,000 now invested therein, and Columbia will make no investment in the common stock of Pipeline Company. In that event, its cash requirements will be reduced to the amount (not less than $45,000,000 nor more than $55,000,000) required to complete the system's 1958 construction program and maintain adequate cash balances. The amount needed in this alternative, over and above the estimated proceeds of $20,000,000 from the sale of the Gulf Interstate securities, will be supplied in September 1958 by bank borrowings as needed, but not to exceed $30,000,000, and the balance if any from internal sources. To the extent possible the bank borrowings will be repaid with the proceeds of a $20,000,000 debenture issue in October 1958. Any additional amount of bank loans beyond $20,000,000, will be repaid from the proceeds of permanent financing in 1959.

No other regulatory commission has jurisdiction in the matter.

Columbia's total expenses in connection with the proposed transactions are estimated at $300.

Notice is further given that any interested person may, not later than September 4, 1958, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the declaration, as filed or as amended, may be permitted to become effective as provided in Rule 23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules 20 (a) and 100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

FIRE-CURED (TYPE 21) TOBACCO AND VIRGINIA SUN-CURED (TYPE 37) TOBACCO

NOTICE OF REFERENDUM

Pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended by Public Law 85-705, 85th Congress, 2d Session, approved August 21, 1958, notice is hereby given that a September 12, 1958, a referendum will be held of farmers who were engaged in the production in 1957 of fire-cured (type 21) tobacco or Virginia sun-cured (type 37) tobacco. The purpose of the referendum is to determine whether the farmers voting favor combining for the 1958-59 and subsequent marketing years the fire-cured (type 21) tobacco acreage allotment and the Virginia sun-cured (type 37) tobacco acreage allotment that are on the same farm into a single combined acreage allotment for whichever of such two kinds of tobacco is chosen by the farm owner or his representative. The referendum will be conducted in accordance with the provisions of the Act and the applicable provisions of the Regulations Governing the Holding of Referenda on Marketing Quotas (21 F. R. 3432).

Since Public Law 85-705, 85th Congress, 2d Session, approved August 21, 1958, requires that the referendum provided for therein be held within 30 days after enactment thereof, and in order that arrangements for holding the referendum may be made in an orderly manner and as much advance notice as possible be given of the date of the referendum, it is essential that this notice be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, procedure and 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this notice shall be effective upon filing of this document with the Director, Division of the Federal Register.

Issued at Washington, D. C. this 21st day of August 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary of Agriculture.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 21, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34895: *Commodity rates between all points in the United States.* Filed by O. E. Schultz, Agent (ER No. 2456), for interested rail carriers. Rates on all commodities, except coal and coke, carloads and less than carloads between all points on railroads in the United States.

Ground for relief: To preclude necessity for filing further fourth-section applications to maintain departures in connection with commodity rate adjustments.

FSA No. 34896: *Cocoanut or copra oils—Lake Charles, La., to eastern points.* Filed by Southwestern Freight Bureau, Agent (B-7358), for interested rail carriers. Rates on cocoanut or copra oils, carloads from Lake Charles, La., to specified points in Delaware, District of Columbia, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island.

Grounds for relief: Market competition with New Orleans, La.

Tariff: Supplement 330 to Southwestern Freight Bureau tariff I. C. C. 4087.

FSA No. 34897: *Soda ash—Westvaco, Wyo., to Streator, Ill.* Filed by Western Trunk Line Committee, Agent (No. A-2001), for interested rail carriers. Rates on soda ash (other than modified), crude sodium sesqui carbonate, as further described in the application, carloads from Westvaco, Wyo., to Streator, Ill.

Grounds for relief: Market competition with Detroit, Mich.

Tariff: Supplement 86 to Western Trunk Lines tariff I. C. C. A-4123.

FSA No. 34898: *Fine coal to Eau Claire and Chippewa Falls, Wis.* Filed by Illinois Freight Association, Agent (No. 15), for interested rail carriers. Rates on bituminous fine coal, carloads from mines in Illinois, Indiana, and western Kentucky, district described to Eau Claire and Chippewa Falls, Wis.

Grounds for relief: Rail-barge-truck competition.

Tariffs: Supplement 9 to Illinois Freight Association tariff I. C. C. 898, and 16 other schedules listed in exhibit 1 to the application, as amended.

FSA No. 34899: *Fine Coal to Red Wing, Minn.* Filed by Illinois Freight Association, Agent (No. 20), for interested rail carriers. Rates on bituminous fine coal, carloads, from mines in Illinois, Indiana and western Kentucky district described to Red Wing, Minn.

Grounds for relief: Competition with natural gas.

Tariff: Supplement 9 to Illinois Freight Association tariff I. C. C. 898, and 15 other schedules listed in exhibit 1 of the application, as amended.

FSA No. 34900: *Cheese and oleomargrine from New Orleans, La., and Memphis, Tenn., to southern points.* Filed by O. W. South, Jr., Agent (SFA No. A3715), for interested rail carriers. Rates on (A) Cheese, including cheese foods and related articles, carloads, (B) Oleomargarine, carloads from (A) New Orleans, La., (B) New Orleans, La., and Memphis, Tenn., to (A) and (B) Points in southern territories.

Grounds for relief: Short-line distance formula, grouping, and relief-line arbitraries.

Tariff: Supplement 30 to Southern Freight Association tariff I. C. C. 1527.

FSA No. 34901: *Petroleum products between points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent (No. 331), for interested rail carriers. Rates on gasoline (natural) and petroleum iso-pentane, tank-car loads between points in Texas on interstate traffic, including direct routes through adjoining states.

Grounds for relief: Competition with rates applicable over intrastate routes between points in Texas.

Tariff: Supplement 19 to Texas-Louisiana Freight Bureau tariff I. C. C. 890.

FSA No. 34902: *Substituted service, rail for motor—M.-K.-T lines.* Filed by Middlewest Motor Freight Bureau, Agent (No. 114), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars in substituted service between Kansas City and St. Louis, Mo., on the one hand, and Dallas, Ft. Worth, Houston, San Antonio, Tex., Muskogee, Oklahoma City and Tulsa, Okla., on the other, on traffic originating at or destined to points on motor carriers beyond the named points as described in the application.

Grounds for relief: Motor truck competition.

FSA No. 34903: *Substituted service, rail for motor—C. R. I. & P. R. R.* Filed by Middlewest Motor Freight Bureau, Agent (No. 115), for interested carriers. Rates on property loaded in highway trailers and transported in substituted service on railroad flat cars between Burr Oak (Chicago) Ill., on the one hand, and St. Joseph, Mo., and Witchita, Kans., on the other; also between Armourdale (Kansas City), Kans., or Wichita, Kans., on the one hand and Denver, Colo., on the other, on traffic originating at or destined to points on motor carriers beyond the named points.

Grounds for relief: Motor truck competition.

Tariff: Supplement 80 to Middlewest Motor Freight Bureau tariff MF-I. C. C. 223.

FSA No. 34904: *Substituted service, rail for motor—C. R. I. & P. R. R.* Filed by Middlewest Motor Freight Bureau, Agent (No. 116), for interested carriers. Rates on property loaded in highway trailers and transported in substituted service on railroad flat cars between Burr Oak (Chicago), Ill., and Kansas City (Armourdale), and Wichita, Kans., on traffic originating at or destined to points on motor carriers beyond the named points.

Grounds for relief: Motor truck competition.

Tariff: Supplement 80 to Middlewest Motor Freight Bureau tariff MF-I. C. C. 223.

FSA No. 34905: *Substituted service, rail for motor—M. K. T. R. R.* Filed by Middlewest Motor Freight Bureau, Agent (No. 117), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Kansas City or St. Louis, Mo., on the one hand, and Muskogee, Oklahoma City, Tulsa, Okla., or Parson, Kans., on

the other, on traffic originating at or destined to points on motor carriers beyond the named points.

Grounds for relief: Motor truck competition.

Tariff: Supplement 80 to Middlewest Motor Freight Bureau tariff MF-I. C. C. 223.

FSA No. 34906: *Substituted service, rail for motor—C. G. W. Ry.* Filed by Middlewest Motor Freight Bureau, Agent (No. 118), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Chicago, Ill., and Kansas City, Mo., on traffic originating at or destined to points on motor carriers beyond the named substitution points.

Grounds for relief: Motor truck competition,

Tariff: Supplement 80 to Middlewest Motor Freight Bureau tariff MF-I. C. C. 223.

FSA No. 34907: *Substituted service, rail for motor—C. & E. I. And M. K. T.* Filed by Middlewest Motor Freight Bureau, Agent (No. 119), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Chicago, Ill., and Oklahoma City, Okla., on traffic originating at or destined to points on motor carriers beyond the named substitution points.

Grounds for relief: Motor truck competition.

Tariff: Supplement 80 to Middlewest Motor Freight Bureau tariff MF-I. C. C. 223.

FSA No. 34908: *Joint-motor-rail rates between western points—C. R. I. & P.* Filed by The Rocky Mountain Motor Tariff Bureau, Inc. (No. 5), for interested carriers. Rates on property of various kinds loaded in or on trailers and transported over joint motor-rail or rail-motor route, in part on railroad flat cars between Denver, Colo., on the one hand, and points in Illinois and Wisconsin named in exhibit 2 of the application, via Chicago, Ill., interchange point, on the other.

Grounds for relief: Motor truck competition.

FSA No. 34909: *Substituted service, rail for motor—B. & M. R. R. et al.* Filed by Midwest Haulers, Inc. (No. 8), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between East Cambridge and Holyoke, Mass., on the one hand, and specified points in Illinois, Michigan, and Ohio, on traffic originating at or destined to points on motor carriers beyond the named points.

Grounds for relief: Motor truck competition.

FSA No. 34910: *Tire fabric—Ohio points to Alabama and Georgia points.* Filed by O. E. Schultz, Agent, for interested rail carriers. Rates on tire fabric, tire cord, hose cord, belting cord, hose yarn, hose fabric, and belting fabrics, carloads from Cleveland, Fairport Harbor, Painesville, and Perry, Ohio to Decatur, Ala., Cartersville, Cedartown, and Rockmart, Ga.

Grounds for relief: Motor truck competition.

Tariff: Supplement 96 to Central Territory Railroads tariff I. C. C. 4664.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

ORGANIZATION OF DIVISIONS AND BOARDS, AND ASSIGNMENT OF WORK

MISCELLANEOUS AMENDMENTS

AUGUST 14, 1958.

The Organization Minutes of the Interstate Commerce Commission relating to the organization of divisions and boards and assignment of work, business and functions of the Interstate Commerce Commission, pursuant to section 17 of the Interstate Commerce Act as amended, revised to February 13, 1958, (23 F. R. 1747 as amended (23 F. R. 2115, and 2287)) have been further amended, effective immediately in the following particulars:

1. In Item 4.6, Finance Division, add paragraphs (o) and (p) reading as follows:

(o) Part V, relating to the guaranty of loans to common carriers by railroad, excepting matters relating to the closing of such transactions which are delegated by Item 6.6 (b) hereof to the Commissioner through whom the Bureau of Finance reports, unless certified to the Division by said Commissioner.

(p) Section 13a, relating to discontinuances or changes of railroad operations or services.

2. Under Assignment of Duties to Individual Commissioners, designate the single paragraph under Item 6.6 as paragraph (a), and add paragraph (b) reading as follows:

(b) Matters relating to the closing of transactions in accordance with such terms and conditions as may have been prescribed by the Commission or Division 4 under the provisions of Part V of the Act, including the execution on behalf of the Commission of contracts and other instruments incident to the closing of such transactions. The Commissioner may certify to Division 4 any matter which in his judgment should be passed on by that division, or the Commission.

3. In Item 9.7, relating to Bureau of Finance, designate existing line (d), The Transfer Board, as line (e), and insert new line (d), providing for Section of Loans headed by Chief of Section, reading as follows:

(d) Loans -------- Chief of Section --------

4. In addition Item 8.3 has been restated as follows:

8.3 Except as to matters provided for in Items 8.4, 8.5, and 8.6, any such petition and any supporting or opposing documents in: (a) a proceeding decided unanimously with respect to the final conclusion by the participating members of a division, except as indicated in (b), shall be considered by the Commission; and (b) a proceeding:

(1) Not decided unanimously with respect to the final conclusion by the participating members of the division, or

(2) In which, without regard to the unanimity of the division, there is a recommendation by a staff member that the petition be granted, or

(3) Relating to the application for approval of contract carrier rental contracts under authority of § 207.6 (b) of Ex Parte No. MC-43,

shall be considered by the appropriate division as constituted at the time the petition is processed and circulated for action; if the division grants the petition will stand as granted by the division and denied by the Commission, and further proceedings will be before the division and under its direction. Any further decision, order or requirement of the division shall be subject to petition for rehearing or reconsideration as provided in the act. If the division does not grant the petition, it will be considered by the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

[Notice 18]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 21, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 170), appear below:

As provided in the Commission's special rules of practice, any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 61140. By order of August 19, 1958, the Transfer Board approved the transfer to R. & H. Bus Co., Inc., East Hartford, Conn., of Certificates Nos. MC 113430 Sub 1, issued June 10, 1954, and MC 113430 Sub 2, issued September 18, 1957, to The R and H Company, a Corporation, East Hartford, Conn., authorizing the transportation of passengers, between Hartford, Conn., and New York, N. Y., between White Plains, N. Y., and New York, N. Y., between White Plains, N. Y., and New York Highways 22 and 120, between Hartford, Conn., and Waterbury, Conn., between Plainville, Conn., and New Britain, Conn., and between points on designated Connecticut and New York highways. John R. Sims, Munsey Building, Washington 4, D. C., for applicants.

No. MC-FC 61361. By order of August 15, 1958, the Transfer Board approved the transfer to Donald S. Grimm, Inc., Lodi, Ohio, of permit No. MC 6237, issued November 2, 1950, to Donald S. Grimm, Lodi, Ohio, authorizing the transportation of: Dairy products, from Lodi, Ohio, to points within a designated territory in Ohio; Dairy products, as classified in the appendix to the report in Modification of Permits-Packing House Products, 46 M. C. C. 23, and empty containers therefor, between Lodi, Ohio, on the one hand, and, on the other, points in Maryland, Massachusetts, Michigan, New Jersey, New York, Pennsylvania, and West Virginia; Tin cans, in cartons, from Warwood and Weirton, W. Va., to Lodi, Ohio; and Fiber containers and paper boxes, from Lodi, Ohio, to Warwood and Weirton, W. Va. Herbert Baker, 50 West Broad Street, Columbus 15, Ohio, for applicants.

No. MC-FC 61376. By order of August 19, 1958, the Transfer Board approved the transfer to Ferrill Fast Freight, Inc., Salem, Ill., of Certificates Nos. MC 44937 and MC 44937 Sub 3, issued June 6, 1941, and October 10, 1950, respectively, to John A. Dalton, doing business as Dalton Transfer Company, Salem, Ill., authorizing the transportation of: General commodities excluding household goods and other specified commodities, over regular routes, between Salem, Ill., and St. Louis, Mo., serving certain intermediate and off-route points including those in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone; and petroleum products and automobile parts and accessories, over regular routes, from St. Louis, Mo., to Centralia, Ill. L. K. Mocabee, 237 North Ninth Street, East St. Louis, Ill., for applicants.

No. MC-FC 61381. By order of August 19, 1958, the Transfer Board approved the transfer to Noble R. Steves, Inc., Boston, Mass., of Certificate No. MC 31864, issued March 23, 1956, to Marie Steves Burke, doing business as Steves Van Service, Boston, Mass., authorizing the transportation of Household goods, over irregular routes, between Everett, Mass., and points in Massachusetts within 20 miles of Everett, Mass., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Ohio, and Illinois; and, New office furniture, over irregular routes, from Boston and Cambridge, Mass., to points in Connecticut, Maine, New Hampshire, New York, and Rhode Island, with no transportation for compensation on return. Franklin L. Steves, 24 Sharp Street, Boston 24, Mass., for applicants.

No. MC-FC 61402. By order of August 15, 1958, the Transfer Board approved the transfer to Frank Cooper, doing business as National Cartage Co., Battle Creek, Mich., of Certificate No. MC 43340, issued September 19, 1942, to Glenn A. Stocken, doing business as National Carthage Co., Battle Creek, Mich., authorizing the transportation of Fresh meats, eggs, poultry, food-processing and meat-packing house products, including packing-house by-products, and advertising matter incidental to the sale and distribution of such commodities, from Battle Creek, Mich., to points within 5 miles of Battle Creek, including Battle Creek, Raymond R. Allen, Security National Bank Building, Battle Creek, Mich., for applicants.

No. MC-FC 61434. By order of August 15, 1958, the Transfer Board approved the transfer to H. Warren Watson, doing business as H. W. Watson Transportation Co., Worcester, Massachusetts, of permit in No. MC 88132, issued July 20, 1954, to W. D. Smith Trans. Co., Inc., West Boylston, Massachusetts, authorizing the transportation of petroleum and petroleum products, in tank trucks, over regular routes, from East Providence, R. I., to Rutland, Worcester, Clinton, and Milford, Mass., serving the intermediate point of Providence, R. I., for pick-up only, and the off-route point of West Upton, Mass., for delivery only. Arthur A. Wentzell, 539 Hartford Pike, Shrewsbury, Mass., Mail Address: P. O. Box 720, Worcester 1, Mass.

No. MC-FC 61503. By order of August 15, 1958, the Transfer Board approved the transfer to Granite City Transport, Inc., Barre, Vt., of Certificates Nos. MC 107228 and MC 107228 Sub 2, issued June 28, 1950, and June 27, 1955, respectively, to Nash John, doing business as J. & S. Transportation Co., Barre, Vt., authorizing the transportation of Granite, over irregular routes, from Barre, Northfield, Montpelier, Waterbury, Hardwick, South Ryegate, Morrisville, and Groton, Vt., to Greenfield, Holyoke, and Springfield Mass., points in Bergen, Passaic, Essex, Union, Somerset, Morris, and Middlesex Counties, N. J., points in a specified area in New York, including Hudson Falls, Glens Falls, Schenectady, Utica, Binghamton and Hawleyton, N. Y., to the New York-Pennsylvania State line, those on Long Island within 50 miles of Long Island City, N. Y., including Long Island City, and points in a specified area in Connecticut, including Hartford, Middletown, Durham Center, and Madison, Conn.; and Granite, over irregular routes, from the United States-Canadian boundary line at or near Highgate Springs, Vt., to Barre, Vt. Richard E. Davis, Barre, Vermont, for applicants.

TITLE 3—THE PRESIDENT

PROCLAMATION 3256

NATIONAL EMPLOY THE PHYSICALLY HANDICAPPED WEEK, 1958

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS with respect for the God-given dignity of each individual and in keeping with the American tradition of helping others to help themselves, we appreciate the importance of useful employment; and

WHEREAS our physically handicapped citizens want to make their maximum contribution to the strength of our land and they have proved their ability as skilled and productive workers; and

WHEREAS the continued development of our country requires an ever-enlarging effort by all our people: both able-bodied and physically handicapped; and

WHEREAS the Congress, by a joint resolution approved August 11, 1945 (59 Stat. 530), has designated the first week in October of each year as National Employ the Physically Handicapped Week, and has requested the President to issue a proclamation each year calling for the observance of that week:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do call upon the people of our Nation to observe the week beginning October 5, 1958, as National Employ the Physically Handicapped Week.

I also call upon the Governors of States, mayors of municipalities, Federal and other public officials, leaders of industry and labor, and members of all concerned organizations to take part in this observance. I particularly urge all employers to give the physically handicapped equal consideration for retention in their jobs as well as for employment, and I request our citizens to remember, throughout the year, that by their interest and assistance many handicapped persons can achieve economic independence and active participation in the total life of the national community.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 20th day of August in the year of our Lord nineteen hundred and [SEAL] fifty-eight, and of the Independence of the United States of America the one hundred and eighty-third.

DWIGHT D. EISENHOWER

By the President:

CHRISTIAN A. HERTER,
Acting Secretary of State.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 5]

PART 722—COTTON

SUBPART—REGULATIONS PERTAINING TO ACREAGE ALLOTMENTS FOR THE 1958 CROP OF UPLAND COTTON

ACREAGE PLANTED TO COTTON ON FARM IN 1958 FOR COMPLIANCE DETERMINATIONS

Basis and purpose. The purpose of this amendment is to clarify the definition of "acreage planted to cotton on the farm in 1958" so that cotton grown in 1958 from cotton seeded in previous years may also be considered for compliance purposes.

Since measurements of cotton acreage are now being made in connection with determinations of compliance with farm allotments, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure requirements and the 30-day effective date

requirements of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Division of the Federal Register.

Section 722.912 (c) (19) of the Regulations Pertaining to Acreage Allotments for the 1958 Crop of Upland Cotton (22 F. R. 8137, 8278, 10004; 23 F. R. 192, 109, 335, 4468) is amended to read as follows:

(19) "Acreage planted to cotton on the farm in 1958", for purposes of determining compliance with the farm allotment, shall be the acreage seeded to cotton on the farm in 1958 and the acreage of cotton on the farm seeded prior to 1958, excluding any acreage in excess of the farm allotment which (i) is destroyed by causes beyond the producer's control prior to the expiration of the period established under § 722.928 for disposing of excess cotton acreage or (ii) is disposed of in accordance with § 722.928.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interprets or applies secs. 345, 346, 52 Stat. 59, as amended; 7 U. S. C. 1345, 1346)

Done at Washington, D. C., this 22d day of August 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[992.313 Amdt. 2]

PART 992—IRISH POTATOES GROWN IN WASHINGTON

LIMITATION OF SHIPMENTS

Pursuant to Marketing Agreement No. 113 and Order No. 92 (7 CFR Part 992), regulating the handling of Irish potatoes grown in the State of Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the State of Washington Potato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided will tend to effectuate the declared policy of the act.

It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (1) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; (2) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment; (3) compliance with this amendment will not require any preparation on the part of handlers which cannot be completed by the effective date; (4) a reasonable time is permitted under the circumstances, for such preparation; and (5) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

Order, as amended. The provisions of § 992.313 (b) (2) (FEDERAL REGISTER July 1, 1958, 23 F. R. 5004) are hereby amended to read as follows:

(b) *Order.* (2) Except as otherwise provided in this section, during the period from August 28, 1958, through May 31, 1959, no handler shall ship potatoes of any variety if more than "slightly skinned" as such term is defined in said United States Standards for Potatoes.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 22, 1958, to become effective August 28, 1958.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division.*

[F. R. Doc. 58-6941; Filed, Aug. 26, 1958; 8:55 a. m.]

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 112—HARDTACK NUCLEAR TEST SERIES, 1958

DEFINITIONS; PROHIBITION

On August 25, 1958, the Atomic Energy Commission issued public notice of the disestablishment of the Hardtack nuclear test series danger area surrounding Johnston Island. The prohibitions of § 112.4 with respect to the Johnston Island danger area, as defined in § 112.3 (a) (2), are no longer necessary, and the following amendments to Part 112 are issued to effect their termination.

Inasmuch as this action is intended to relieve from, rather than to impose restrictions under regulations currently in effect, the Atomic Energy Commission has found that general notice of proposed rule making and public procedures thereon are unnecessary and that good cause exists why this amendment should be made effective without the customary period of notice.

Pursuant to the Administrative Procedure Act, Public Law 404, 79th Congress, 2d Session, the following amendments are published as a document subject to codification, to be effective upon filing with the FEDERAL REGISTER.

1. Section 112.3 is amended as follows:

a. Paragraph (a) (2) is revoked.

b. Paragraph (b) is amended as follows:

(b) "Hardtack test series" means that series of nuclear tests conducted by the Atomic Energy Commission and the Department of Defense at the Eniwetok Proving Ground, within the danger area as defined in paragraph (a) of this section, which tests began in April 1958 and will end at an announced time during the calendar year 1958.

2. Section 112.4 is amended as follows:

§ 112.4 *Prohibition.* No United States citizen or other person who is within the scope of this part shall enter, attempt to enter, conspire to enter or remain in the danger area, as defined in § 112.3 (a), during the continuation of the Hardtack test series except with the express approval of appropriate officials of the Atomic Energy Commission or the Department of Defense.

(Sec. 161, 68 Stat. 948, as amended; 42 U. S. C. 2201. Interpret or apply secs. 2, 3, 91, 68 Stat. 921, as amended, 922, 936; 42 U. S. C. 2012, 2013, 2121. For the purpose of sec. 223, 68 Stat. 958; 42 U. S. C. 2273, § 112.4 issued under sec. 161i, 68 Stat. 949; 42 U. S. C. 2201 (i))

Dated at Germantown, Md., this 25th day of August 1958.

For the Atomic Energy Commission.

PAUL F. FOSTER, *General Manager.*

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 85]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedures appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (L/MFR, ADF, VOR, TerVOR, VOR/DME, ILS, or RADAR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low or medium frequency range procedures prescribed in § 609.100 (a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots

4. The instrument landing system procedures prescribed in § 609.400 are amended to read in part:

ILS STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition From—	Transition To—	Course and distance	Minimum altitude (feet)	Ceiling and visibility minimums: Condition	2-engine or less: 65 knots or less	2-engine or less: More than 65 knots	More than 2-engine: More than 65 knots

[SEAL]

WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

AUGUST 15, 1958.

[F. R. Doc. 58–6761; Filed, Aug. 26, 1958; 8:45 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935 AND INVESTMENT COMPANY ACT OF 1940

APPLICATION OF THIS PART

This amendment to § 210.1–01 (Rule 1–01) of Article I and § 210.5a–01 (Rule 5A–01) of Article 5A strikes out the reference in these rules to § 239.18 (Form S–11) because that form has been rescinded since the last printing of Part 210 (Regulation S–X).

Paragraph (a) (1) of § 210.1–01 as amended reads as follows:

§ 210.1–01 *Application of this part.* (a) * * *

(1) Registration statements under the Securities Act of 1933, filed on Form S–1, S–2, S–3, S–4, S–5, or S–6 (§§ 239.11, 239.12, 239.13, 239.14, 239.15, 239.16 of this chapter), except as otherwise specifically provided in such forms;

Paragraph (a) of § 210.5a–01 as amended reads as follows:

§ 210.5a–01 *Application of §§ 210.5a–01 to 210.5a–07.* * * *

(a) Registration statements on Form S–2 (§ 239.12 of this chapter) of Form S–3 (§ 239.13 of this chapter), except as otherwise specifically provided in such forms, under the Securities Act of 1933;

This action is taken pursuant to the Securities Act of 1933, particularly sections 6, 7, 8, 10 and 19 (a) thereof, the Securities Exchange Act of 1934, particularly sections 12, 13, 15 (d) and 23 (a) thereof, the Public Utility Holding Company Act of 1935, particularly sections 5 (b), 14 and 20 (a) thereof, and the Investment Company Act of 1940, particularly sections 8, 30, 31 (c) and 38 (a) thereof.

Since the foregoing action merely deletes reference to Form S–11 which has previously been rescinded, the Commission finds that notice and procedure pursuant to the Administrative Procedure Act is not necessary. For the same reason the foregoing action may be made effective immediately. Accordingly such action shall become effective upon publication.

(Secs. 19, 23, 48 Stat. 85, 901, as amended, sec. 38, 54 Stat. 841; 15 U. S. C. 77s, 78w, 80a–37)

By the Commission.

[SEAL]

ORVAL L. DUBOIS,
Secretary.

AUGUST 18, 1958.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter B—Food and Food Products

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF ETHYL 4,4′-DICHLOROBENZILATE

A petition was filed with the Food and Drug Administration by Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Saw Mill River Road, Ardsley, New York, requesting the establishment of tolerances for residues of ethyl 4,4′-dichlorobenzilate (Chlorobenzilate) in or on grapefruit and tangerines.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120) are amended by changing the section headnote of § 120.109 and inserting in the section the items "grapefruit" and "tangerines." As amended, § 120.109 reads as follows:

§ 120.109 *Tolerances for residues of ethyl 4,4′-dichlorobenzilate.* A tolerance of 5 parts per million is established for residues of ethyl 4,4′-dichlorobenzilate (Chlorobenzilate) in or on each of the following raw agricultural commodities: Apples, cantaloups, grapefruit, lemons, oranges, pears, tangerines.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 511; 21 U. S. C. 346a)

Dated: August 20, 1958.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F. R. Doc. 58-6921; Filed, Aug. 26, 1958; 8:51 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

EXEMPTION FROM REQUIREMENT OF TOLERANCE FOR RESIDUES OF CHLOROFORM

A petition was filed with the Food and Drug Administration by the Frontier Chemical Company, Wichita, Kansas, requesting the establishment of an exemption from the requirement of a tolerance for residues of chloroform from use as a fumigant on certain grains.

Evidence in the petition and otherwise available shows that when chloroform is used as a grain fumigant as proposed in the petition, residues will not be present in the processed food ready for human consumption and that residues in animal feed will not carry through into milk or meat and will not constitute a hazard to the health of the animals.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which an exemption is being established.

After consideration of the data submitted in the petition and other relevant material which show that the exemption established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120) are amended by adding the following new section:

§ 120.167 *Exemption from the requirement of a tolerance for residues of chloroform.* Chloroform is exempted from the requirement of a tolerance for residues, when used as a fumigant for the following grains: Barley, corn, oats, popcorn, rice, rye, sorghum (milo), wheat.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 511; 21 U. S. C. 346a)

Dated: August 20, 1958.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F. R. Doc. 58-6920; Filed, Aug. 26, 1958; 8:51 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6305]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

AMORTIZATION OF GRAIN STORAGE FACILITIES

On July 10, 1956, notice of proposed rule making regarding the regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, under sections 161, 162, 168, and 169, relating to itemized deductions for individuals and corporations, of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (21 F. R. 5091). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the regulations under section 169 as so published are hereby adopted subject to the change set forth below.

PARAGRAPH 1. Paragraph (c) of § 1.169-2 is revised.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: August 21, 1958.

FRED C. SCRIBNER, Jr.,
Acting Secretary of the Treasury.

The following regulations are hereby prescribed under section 169 of the Internal Revenue Code of 1954:

Sec.
1.169 Statutory provisions; amortization of grain-storage facilities.
1.169-1 General scope of section 169.
1.169-2 Definition of grain-storage facility.
1.169-3 Amortization deduction.
1.169-4 Election of amortization.
1.169-5 Termination of amortization deduction.
1.169-6 Adjusted basis of grain-storage facility.
1.169-7 Depreciation of portion of grain-storage facility not subject to amortization.
1.169-8 Life tenant and remainderman.

AUTHORITY: §§ 1.169 to 1.169-8, issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

§ 1.169 *Statutory provisions; amortization of grain-storage facilities.*

SEC. 169. *Amortization of grain-storage facilities*—(a) *Allowance of deduction*—(1) *Original owner.* Any person who constructs, reconstructs, or erects a grain-storage facility (as defined in subsection (d)) shall, at his election, be entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of such facility based on a period of 60 months. The 60-month period shall begin as to any such facility, at the election of the taxpayer, with the month following the month in which the facility was completed, or with the succeeding taxable year.

(2) *Subsequent owners.* Any person who acquires a grain-storage facility from a taxpayer who—

(A) Elected under subsection (b) to take the amortization deduction provided by this subsection with respect to such facility, and

(B) Did not discontinue the amortization deduction pursuant to subsection (c),

shall, at his election, be entitled to a deduction with respect to the adjusted basis (determined under subsection (e) (2)) of such facility based on the period, if any, remaining (at the time of acquisition) in the 60-month period elected under subsection (b) by the person who constructed, reconstructed, or erected such facility.

(3) *Amount of deduction.* The amortization deduction provided in paragraphs (1) and (2) shall be an amount, with respect to each month of the amortization period within the taxable year, equal to the adjusted basis of the facility at the end of such month, divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such adjusted basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction above provided with respect to any month shall be in lieu of the depreciation deduction with respect to such facility for such month provided by section 167.

(b) *Election of amortization.* The election of the taxpayer under subsection (a) (1) to take the amortization deduction and to begin the 60-month period with the month following the month in which the facility was completed shall be made only by a statement to that effect in the return for the taxable year in which the facility was completed. The election of the taxpayer under subsection (a) (1) to take the amortization deduction and to begin such period with the taxable year succeeding such year shall be made only by a statement to that effect in the return for such succeeding taxable year. The election of the taxpayer under subsection (a) (2) to take the amortization deduction shall be made only by a statement to that effect in the return for the taxable year in which the facility was acquired. Notwithstanding the preceding three sentences, the election of the taxpayer under subsection (a) (1) or (2) may be made, under such regulations as the Secretary or his delegate may prescribe, before the time prescribed in the applicable sentence.

(c) *Termination of amortization deduction.* A taxpayer which has elected under subsection (b) to take the amortization deduction provided in subsection (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Secretary or his delegate before the beginning of such month. The depreciation deduction provided under section 167 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction with respect to such facility.

(d) *Definition of grain-storage facility.* For purposes of this section, the term "grain-storage facility" means—

(1) Any corn crib, grain bin, or grain elevator, or any similar structure suitable primarily for the storage of grain, which crib, bin, elevator, or structure is intended by the taxpayer at the time of his election to be used for the storage of grain produced by him (or, if the election is made by a partnership, produced by the members thereof); and

(2) Any public grain warehouse permanently equipped for receiving, elevating, conditioning, and loading out grain,

the construction, reconstruction, or erection of which was completed after December 31, 1952, and on or before December 31, 1956. If any structure described in clause (1) or (2) of the preceding sentence is altered or remodeled so as to increase its capacity for the storage of grain, or if any structure is converted, through alteration or remodeling, into a structure so described, and if such alteration or remodeling was completed after December 31, 1952, and on or before December 31, 1956, such alteration or remodeling shall be treated as the construction of a grain-storage facility. The term "grain-storage facility" shall include only property of a character which is subject to the allowance for depreciation provided in section 167. The term "grain-storage facility" shall not include any facility any part of which is an emergency facility within the meaning of section 168 of this title.

(e) *Determination of adjusted basis*—(1) *Original owners.* For purposes of subsection (a) (1)—

(A) In determining the adjusted basis of any grain-storage facility, the construction, reconstruction, or erection of which was begun before January 1, 1953, there shall be included only so much of the amount of the adjusted basis (computed without regard to this subsection) as is properly attributable to such construction, reconstruction, or erection after December 31, 1952; and

(B) In determining the adjusted basis of any facility which is a grain-storage facility within the meaning of the second sentence of subsection (d), there shall be included only so much of the amount otherwise included in such basis as is properly attributable to the alteration or remodeling.

If any existing grain-storage facility as defined in the first sentence of subsection (d) is altered or remodeled as provided in the second sentence of subsection (d), the expenditures for such remodeling or alteration shall not be applied in adjustment of the basis of such existing facility but a separate basis shall be computed in respect of such facility as if the part altered or remodeled were a new and separate grain-storage facility.

(2) *Subsequent owners.* For purposes of subsection (a) (2), the adjusted basis of any grain-storage facility shall be whichever of the following amounts is the smaller:

(A) The basis (unadjusted) of such facility for purposes of this section in the hands of the transferor, donor, or grantor, adjusted as if such facility in the hands of the taxpayer had a substituted basis within the meaning of section 1016 (b), or

(B) So much of the adjusted basis (for determining gain) of the facility in the hands of the taxpayer (as computed without regard to this subsection) as is properly attributable to construction, reconstruction, or erection after December 31, 1952.

(f) *Depreciation deduction.* If the adjusted basis of the grain-storage facility (computed without regard to subsection (e)) exceeds the adjusted basis computed under subsection (e), the depreciation deduction provided by section 167 shall, despite the provisions of subsection (a) (3) of this section, be allowed with respect to such grain-storage facility as if the adjusted basis for the purpose of such deduction were an amount equal to the amount of such excess.

(g) *Life tenant and remainderman.* In the case of property held by one person for life with remainder to another person, the amortization deduction provided in subsection (a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant.

§ 1.169-1 *General scope of section 169.* (a) Section 169 provides for the amortization of grain-storage facilities, as defined therein, over a period of 60 months. The amortization deduction is allowable at the election of the taxpayer and subject to the provisions of section 169. The amortization deduction is not only allowable to the original owner of a grain-storage facility, but may be allowable to any subsequent owner who acquires the facility from another person who elected to take the amortization deduction and had not discontinued such deduction under the statute. In the case of the original owner of a grain-storage facility the amortization period is 60 months. For a subsequent owner the amortization period is the period, if any, remaining at the time of his acquisition in the 60-month period elected by the person who completed construction, reconstruction, or erection of the grain-storage facility.

(b) Cross-references: For the right of estates and trusts to amortize grain-storage facilities, see section 642 (f) and the regulations thereunder. For the allowance of the amortization deduction in the case of grain-storage facilities of partnerships, see section 703 (b) and the regulations thereunder.

§ 1.169-2 *Definition of grain-storage facility*—(a) *General.* For the purpose of section 169 the term "grain-storage facility" means—

(1) Any corn crib, grain bin, or grain elevator, or any similar structure suitable primarily for the storage of grain, but only if the taxpayer at the time of his election to take the amortization deduction allowed under section 169 intends such crib, bin, elevator, or structure to be used for the storage of grain produced by him or, in case the election to take the amortization deduction is made by a partnership, only if such crib, bin, elevator, or structure is intended by the partnership at the time of its election to be used for the storage of grain produced by members of the partnership; and

(2) Any public grain warehouse or elevator permanently equipped for receiving, elevating, conditioning, and loading out grain,

the construction, reconstruction, or erection of which was completed after December 31, 1952, and on or before December 31, 1956. The term "grain" includes all products commonly classed as grain, such as wheat, corn, oats, barley, rye, rice, soybeans, grain sorghums, flaxseed, and dry edible beans.

(b) *Private grain-storage facilities.* In the case of any structure described in paragraph (a) (1) of this section, the construction, reconstruction, or erection of which was completed after December 31, 1952, and on or before December 31, 1956, the taxpayer at the time of his election to take the amortization deduction with respect to the structure must intend to use the facility for the storage of grain produced or to be produced by him. If the election is made by a partnership, the structure must be intended at the time of the election to be used for the storage of grain produced by one or more members of the partnership. The statute does not require that the facility be actually used at the time of the election for the storage of grain. The intent required by the statute at the time of the taxpayer's election to take the amortization deduction is applicable not only to the original owner who completed the construction, reconstruction, or erection of the facility, but to any subsequent owner of the facility. The existence of the requisite intent is a question of fact to be ascertained from the circumstances of each particular case. The lack of the required intent with respect to the use of the facility by a subsequent owner does not affect the allowance of the amortization deduction to a preceding owner for the period during which the facility was owned by him. However, the absence of the required intent as to the use of the facility on the part of either the original owner or any intervening owner precludes any subsequent owner from taking the amortization deduction with respect to the facility. A structure is not suitable primarily for the storage of grain if it is of a type customarily used for other purposes, even though it may actually be used for storing grain. For example, no part of a residential dwelling may qualify as a grain-storage facility. Nor is a structure suitable primarily for the storage of grain unless it is so constructed as to be especially adapted to efficient storage of grain. Thus, a general utility type of building does not qualify under the statute as a grain-storage facility, even though it may be actually used for storing grain. However, structures not suitable primarily for the storage of grain may through alteration or remodeling qualify as grain-storage facilities (see paragraph (d) of this section). On the other hand, a structure which is suitable primarily for the storage of grain is not disqualified under the statute merely because it may at times be used for other purposes. The structures described in paragraph (a) (1) of this section may include trackside grain-storage facilities.

(c) *Public grain-storage facilities.* The term "public grain warehouse" as used in section 169 (d) includes only a grain warehouse or elevator transacting business with members of the general public. The amortization deduction, however, is not available to a person who stores only grain purchased for consumption in his business, such as a milling company which constructs storage facilities for purchased grain held for processing. The statute also requires that the grain warehouse or elevator must be permanently equipped for receiving, elevating, conditioning, and loading out grain. A public grain warehouse must be a permanent structure, of either the elevator or so-called "flat storage" type, suitable primarily for the storage of grain, and the equipment for receiving, elevating, conditioning, or loading out grain must be either permanently installed or permanently available for use. When such equipment is permanently installed, it is considered a part of the grain warehouse or elevator for the purpose of section 169. On the other hand, portable equipment will not be considered a part of the grain warehouse

or elevator for such purpose. The term "conditioning" as used in section 169 (d) includes turning, drying, aerating, fumigating, or other processing of grain. While it is not essential for qualification as a grain-storage facility that a public grain warehouse or elevator be permanently equipped to render all services embraced within the meaning of "conditioning", the grain warehouse or elevator must be permanently equipped for turning, drying, or similar processing of grain. The fact that a public grain warehouse accepts for storage, in addition to products commonly classed as grain (see paragraph (a) of this section), other products which are ordinarily stored in grain warehouses does not disqualify the warehouse as a grain-storage facility for the purpose of section 169.

(d) *Alteration or remodeling.* (1) If any structure described in paragraph (a) (1) or (2) of this section is altered or remodeled so that its capacity for the storage of grain is increased, and such alteration or remodeling was completed after December 31, 1952, and on or before December 31, 1956, for the purpose of section 169 such alteration or remodeling is treated as the construction of a grain-storage facility. Such alteration or remodeling may qualify as a grain-storage facility, whether or not the original structure constituted a grain-storage facility as defined in section 169 (d). If the original structure did qualify as a grain-storage facility for the purpose of section 169, the amortization deduction allowable under section 169 (a) may be taken with respect to such alteration or remodeling, whether or not the taxpayer or any preceding owner elected to take the amortization deduction allowable with respect to the original structure.

(2) Likewise, if any structure not described in paragraph (a) (1) or (2) of this section is converted through alteration or remodeling into a stucture so described, and such alteration or remodeling was completed after December 31, 1952, and on or before December 31, 1956, for the purpose of section 169 such alteration or remodeling is treated as the construction of a grain-storage facility.

(3) For election to take the amortization deduction with respect to alteration or remodeling described in subparagraphs (1) and (2) of this paragraph, see § 1.169–4. For determination of adjusted basis for the purpose of the amortization deduction with respect to a grain-storage facility attributable to such alteration or remodeling, see § 1.169–6.

(e) *Excluded property*—(1) *Nondepreciable property.* The term "grain-storage facility" includes only property of a character which is subject to the allowance for depreciation provided in section 167. Thus, "grain-storage facility" does not include the land on which a structure defined in paragraph (a) of this section is erected.

(2) *Emergency facilities.* (i) The term "grain-storage facility" does not include any facility any part of which is considered an emergency facility within the meaning of section 168. For the definition of "emergency facility" for the purpose of section 168, see § 1.168–4.

(ii) If all or any part of the adjusted basis (computed under section 1011) of a structure described in paragraph (a) of this section is certified as an "emergency facility" under section 168 (e), such structure cannot qualify as a "grain-storage facility" for the purposes of section 169. However, if, prior to the making of any election to take the amortization deduction allowable under section 168 (a) with respect to such structure, the certificate made under section 168 (e) is cancelled by the certifying authority, such structure will be considered a "grain-storage facility" for the purposes of section 169.

(iii) In the case of any alteration or remodeling described in paragraph (d) (1) or (2) of this section, if all or any part of the adjusted basis (computed under section 1011) of the original structure is certified as an "emergency facility" under section 168 (e), such alteration or remodeling may, nevertheless, qualify as a "grain-storage facility" for the purposes of section 169, provided the following conditions are met:

(*a*) None of the expenditures attributable to such alteration or remodeling represents construction, reconstruction, erection, installation, or acquisition included in the certificate made under section 168 (e) with respect to the original structure, and

(*b*) A separate certificate is not made under section 168 (e) with respect to such alteration or remodeling as a new and separate emergency facility, or if a separate certificate was made, such certificate, prior to the making of any election to take the amortization deduction allowable under section 168 (a) with respect to such alteration or remodeling, is canceled by the certifying authority.

§ 1.169–3 *Amortization deduction*—(a) *Original owner.* Any person who constructs, reconstructs, or erects a grain-storage facility as defined in section 169 (d) is entitled at his election to a deduction with respect to the amortization of the adjusted basis (for determining gain) of such facility based on a period of 60 months. As to the adjusted basis of a grain-storage facility, see § 1.169–6. The taxpayer may, with respect to a grain-storage facility, elect to begin the 60-month amortization period with (1) the month following the month in which such facility was completed, or (2) the first month of the taxable year succeeding that in which such facility was completed (see § 1.169–4). The date on which, or the month within which, a grain-storage facility is completed is to be determined upon the facts in the particular case. A statement of the date ascertained by the taxpayer, together with a statement of the pertinent facts relied upon, should be filed with the taxpayer's election to take amortization deductions with respect to such facility.

(b) *Subsequent owner.* Any person who acquires a grain-storage facility from a taxpayer who elected to take the amortization deduction provided by section 169 (a) with respect to such facility and who, prior to the acquisition by such person, had not discontinued the amortization deduction pursuant to section 169 (c), is entitled at his election to a deduction with respect to the amortization of the adjusted basis (determined under section 169 (e) (2)) of such facility based on the period, if any, remaining at the time of his acquisition in the 60-month period elected by the original owner of such facility. For the determination of the adjusted basis of a grain-storage facility in the hands of a subsequent owner for the purpose of the amortization deduction, see § 1.169–6.

(c) *Amount of deduction.* (1) In general, with respect to each month of the 60-month period which falls within the taxable year, the amortization deduction is an amount equal to the adjusted basis of the facility at the end of such month divided by the number of months (including the particular month for which the deduction is computed) remaining in the 60-month period. If a grain-storage facility is held successively by two or more persons during a single month, the amortization deduction, if any, allowable to each of such persons in respect of that month shall be only that portion of the amount to which each such person would be entitled for a full month which the number of days in such month during which the facility was held by him bears to the total number of days in such month. The adjusted basis of the grain-storage facility at the end of any month shall be computed without regard to the amortization deduction with respect to such facility for such month. The total amortization deduction with respect to a grain-storage facility for a particular taxable year is the sum of the amortization deductions allowable with respect to such facility for each month of the 60-month period which falls within such taxable year.

(2) The amortization deduction with respect to a grain-storage facility for any month is in lieu of the deduction for depreciation which would otherwise be allowable under section 167 with respect to the facility for that month. If the original owner of a grain-storage facility elects to begin the 60-month amortization period with the first month of the taxable year succeeding that in which the facility was completed, the deduction for depreciation provided in section 167 is allowable with respect to the facility for the period intervening between the completion of the facility and the beginning of the 60-month period. However, if the original owner elects to begin the 60-month amortization period with the month following that in which the facility was completed, no deduction under section 167 is allowable in respect of the month in which the facility was completed. For depreciation allowable with respect to any amount not subject to amortization, see § 1.169–7.

(d) *Examples.* This section may be illustrated by the following examples:

Example (1). On July 1, 1954, A, who makes his income tax return on a calendar year basis, begins the construction of a grain-storage facility which is completed on September 30, 1954, at a cost of $24,000, not including the cost of the land on which the facility is erected. A elects to take the amortization deduction with respect to the facility and to begin the 60-month amortization period with October 1954, the month following its completion. The adjusted basis of the facility at the end of October is $24,000. The allowable amortization deduction with respect to such facility for the taxable year 1954 is $1,200, computed as follows:

Monthly Amortization Deductions:	
October: $24,000 divided by 60	$400
November: $23,600 ($24,000 minus $400) divided by 59	400
December: $23,200 ($23,600 minus $400) divided by 58	400
Total Amortization Deduction for 1954	1,200

Example (2). The X Corporation, which makes its income tax return on the calendar year basis, begins the construction of a grain-storage facility on June 15, 1954. The facility is completed on August 2, 1954. The X Corporation elects to take amortization deductions with respect to the facility and to begin the 60-month amortization period with September 1954, the month following its completion. At the end of the first month of the amortization period the adjusted basis of the facility is $30,000. In October 1954, the facility is damaged by fire, as the result of which the adjusted basis is properly reduced by $2,537. The allowable amortization deduction with respect to the facility for the calendar year 1954 is $1,871, computed as follows:

Monthly Amortization Deductions:	
September: $30,000 divided by 60	$500
October: $26,963 ($30,000 minus $500 and $2,537) divided by 59	457
November: $26,506 ($26,963 minus $457) divided by 58	457
December: $26,049 ($26,506 minus $457) divided by 57	457
Total amortization deduction for 1954	1,871

For illustration in the case of a subsequent owner of a grain-storage facility, see example (2) in § 1.169–6 (f).

§ 1.169–4 *Election of amortization*—(a) *General rule*—(1) *Original owner.* The election by a taxpayer who constructs, reconstructs, or erects a grain-storage facilfty to take amortization deductions with respect to the facility and to begin the 60-month amortization period, either with the month following the month in which the facility was completed or with the first month of the taxable year succeeding the taxable year in which such facility was completed, shall be made by a statement to that effect in the taxpayer's return for the taxable year in which falls the first month of the 60-month amortization period so elected. Such statement shall include the following information:

(i) A description clearly identifying each grain-storage facility for which an amortization deduction is claimed.

(ii) The date on which the construction, reconstruction, or erection of each such facility was completed.

(iii) The total costs and expenditures paid or incurred in the construction, reconstruction, or erection of any such facility, excluding the cost of any land.

(iv) If the construction, reconstruction, or erection of any such facility was begun before January 1, 1953, the amount of the costs and expenditures properly attributable to such construction, reconstruction, or erection after December 31, 1952.

(v) In the case of a private grain-storage facility described in § 1.169–2 (b), a statement that the taxpayer intends to use the facility for the storage of grain produced or to be produced by him or, in case the election is being made by a partnership, that the structure is intended to be used for the storage of grain produced by one or more members of the partnership.

(2) *Subsequent owner.* The election by a subsequent owner (that is, a person who acquires a grain-storage facility from a taxpayer who elected to take the amortization deduction with respect to the facility and who, prior to the acquisition by the subsequent owner, had not discontinued the amortization deduction under section 169 (c)) to take amortization deductions with respect to the facility shall be made by a statement to that effect in the taxpayer's return for the taxable year in which falls the month in which the facility was acquired. Such statement shall include the following information:

(i) The name and address of the preceding owner.

(ii) The date and the manner of the acquisition of the grain-storage facility from such preceding owner.

(iii) A statement of the basis (unadjusted) of the facility in the hands of the preceding owner for amortization purposes, adjusted to the date of acquisition by the taxpayer.

(iv) A statement of the adjusted basis of the facility in the hands of the taxpayer for amortization purposes, computed as of the date of acquisition by the taxpayer.

(v) In the case of a private grain-storage facility described in § 1.169–2 (b), a statement that the taxpayer intends to use the facility for the storage of grain produced or to be produced by him or, in case the election is being made by a partnership, that the structure is intended to be used for the storage of grain produced by one or more members of the partnership.

(b) *Special rules for making election prior to filing of return.* If, prior to the time prescribed in paragraph (a) of this section for making the election to take amortization deductions with respect to a grain-storage facility, such facility is acquired by a subsequent owner, the preceding owner of the facility may make such election within 60 days after the date of acquisition of such facility by the subsequent owner. In the event that the preceding owner dies or ceases to exist prior to making an election, the election may be made within such time by the duly authorized representatives of the preceding owner. Unless the election to take amortization deductions with respect to the facility is made by the preceding owner or on his behalf, the subsequent owner of the facility shall not be entitled to take the amortization deductions allowable under section 169 (a) with respect to such facility. A statement of election under this paragraph shall be filed with the district director for the district in which the return of the taxpayer is required to be filed, and shall contain the same information required with respect to a statement of election under paragraph (a) of this section. However, in the case of a private grain-storage facility described in § 1.169–2 (b), in lieu of the statement regarding the intended use of the facility at the time of the election, the statement of election under this paragraph shall include a statement that the preceding owner, at the time of the construction, reconstruction, erection, or acquisition of the facility by him, intended to use the facility for the storage of grain produced or to be produced by him. If the preceding owner of the facility was the original owner, the statement of election must specify the beginning of the 60-month amortization period. Unless the grain-storage facility is acquired from the original owner after the beginning of his taxable year succeeding the taxable year in which such facility was completed, an election made under this paragraph must begin the 60-month amortization period with the month following the month in which the facility was completed.

(c) *Election not made at the time or in the manner prescribed by this section.* (1) The district director has no authority to extend the time prescribed in section 169 (b) and paragraph (a) of this section for making an election to take amortization deductions allowable under section 169 (a). However, the district director in his discretion may, for good cause shown, grant a reasonable extension of time for the making of an election under paragraph (b) of this section.

(2) Except as provided in the preceding subparagraph, if a statement of election under paragraph (a) or (b) of this section does not comply with the requirements prescribed therein, it may, in the discretion of the district director and for good cause shown, be made in such manner and form as may be approved by him.

(3) No method of making the election to take the amortization deductions with respect to a grain-storage facility other than those prescribed in this section shall be permitted. A taxpayer who fails to elect to take amortization deductions with respect to such a facility shall not be entitled to amortization deductions with respect to such facility.

(d) *Alteration or remodeling of existing grain-storage facility.* If an existing grain-storage facility, as defined in section 169 (d), is altered or remodeled and such alteration or remodeling is treated under section 169 (d) as the construction of a grain-storage facility (see §§ 1.169–2 (d) and 1.169–6 (e)), the part of the facility altered or remodeled is treated as a new and separate grain-storage facility. In such case, unless the taxpayer who completes such alteration or remodeling makes a separate election, in the manner and within the time provided in this section, to take amortization deductions and to begin a new 60-month period with respect to such alteration or remodeling, he shall not be entitled to amortization deductions with respect to such alteration or remodeling. Such alteration or remodeling is also treated as a separate grain-storage facility in the hands of a subsequent owner.

§ 1.169–5 *Termination of amortization deduction.* (a) If a taxpayer has elected to take amortization deductions with respect to a grain-storage facility he may, prior to the expiration of the 60-month amortization period and prior to the acquisition of such facility by another person, discontinue the amortization de-

ductions with respect to such facility for the remainder of the 60-month period. An election to discontinue the amortization deductions shall be made by notice in writing filed with the district director for the district in which the return of the taxpayer is required to be filed, specifying the month as of the beginning of which the taxpayer elects to discontinue such deductions. Such notice shall be filed before the beginning of the month specified therein, and shall contain a description clearly identifying the grain-storage facility with respect to which the taxpayer elects to discontinue the amortization deductions. If the taxpayer elects in the manner provided herein to discontinue the amortization deductions with respect to a grain-storage facility, he shall not be entitled to any further amortization deductions with respect to such facility.

(b) A taxpayer who elects to discontinue amortization deductions with respect to a grain-storage facility is entitled to a deduction for depreciation under section 167 with respect to such facility. The deduction for depreciation shall begin with the first month as to which the amortization deduction is not applicable and shall be computed on the adjusted basis of the property as of the beginning of such month (see section 1011 and the regulations thereunder).

(c) This section may be illustrated by the following example:

Example. On February 1, 1954, the Y Corporation, which makes its income tax returns on the calendar year basis, begins the construction of a grain-storage facility. The facility is completed on June 30, 1954, at a cost of $306,000, of which $60,000 is allocable to the land and $246,000 to the facility. The corporation elects to take amortization deductions with respect to the facility and to begin the 60-month amortization period with July 1954, the month following its completion. On March 25, 1955, the corporation files notice with the district director of its election to discontinue the amortization deductions beginning with the month of April 1955. The adjusted basis of the facility on July 31, 1954, is $246,000. The amortization deductions for the taxable year 1954 and the months of January, February, and March 1955, amount to $36,900, or $4,100 per month for nine months. Accordingly, the adjusted basis of the facility as of April 1, 1955, is $209,100. Beginning as of that date, the deduction for depreciation under section 167 is allowable with respect to the property. Such deduction shall be computed on the adjusted basis ($209,100) of the property as of April 1, 1955.

§ 1.169–6 *Adjusted basis of grain-storage facility*—(a) *General.* Section 169 (e) provides rules which apply in the determination of the adjusted basis of a grain-storage facility for the purpose of computing the amortization deductions allowable under section 169 (a). Section 169 (e) does not purport to provide an all-inclusive formula for the computation of adjusted basis for amortization purposes, but only prescribes certain modifications in the amount which would otherwise constitute the adjusted basis of the facility. As a result of these modifications, the adjusted basis for the purpose of computing the amortization deductions allowable with respect to the facility will differ in some cases from the adjusted basis of the facility determined under section 1011 without regard to section 169 (e). The adjusted basis for amortization purposes may also differ from the adjusted basis of the facility for other purposes in that it shall be the adjusted basis for determining gain (see sections 1011–1022, inclusive). The adjusted basis for amortization purposes is derived from the unadjusted basis of the grain-storage facility determined in accordance with the provisions of section 1012. The special rules provided in section 169 (e) are applicable in translating the unadjusted basis determined in accordance with the provisions of section 1012 into the unadjusted basis for amortization purposes under section 169. The unadjusted basis for amortization purposes, less the adjustments properly allocable thereto, becomes the adjusted basis for amortization purposes. These adjustments are those specified in sections 1016 and 1017. However, adjustments which increase the adjusted basis under section 1011 are not to be taken into account in determining the adjusted basis for amortization purposes (see paragraph (d) of this section).

(b) *Original owners.* Section 169 (e) (1) provides rules which apply in the determination of the adjusted basis for amortization purposes of a grain-storage facility in the hands of an original owner (see § 1.169–3 (a)). As the result of the application of the rules stated in subparagraphs (1) and (2) of this paragraph, the adjusted basis of the facility for amortization purposes will be smaller than the amount which would otherwise constitute the adjusted basis of the facility. The rules are the following:

(1) If the construction, reconstruction, or erection of the facility was begun before January 1, 1953, there is to be included only so much of the entire unadjusted basis of the facility as is properly attributable to construction, reconstruction, or erection after December 31, 1952.

(2) If a structure which is not an existing grain-storage facility as defined in section 169 (d) is altered or remodeled and such alteration or remodeling is treated under section 169 (d) as the construction of a grain-storage facility (see § 1.169–2 (d)), there is to be included only so much of the entire unadjusted basis of such structure as is properly attributable to such alteration or remodeling as was completed after December 31, 1952, and on or before December 31, 1956. In the case of alteration or remodeling of an existing grain-storage facility, see paragraph (e) of this section.

(c) *Subsequent owners.* A special rule is provided in section 169 (e) (2) for the determination of the adjusted basis for amortization purposes of a grain-storage facility in the hands of a subsequent owner (see § 1.169–3 (b)). Such adjusted basis is the smaller of the following amounts:

(1) The adjusted basis determined by including an amount in respect of unadjusted basis equal to the adjusted basis of the facility for amortization purposes in the hands of the preceding owner, determined as of the date of acquisition of the facility by the taxpayer. For the purpose of this paragraph, in determining the adjusted basis of the facility for amortization purposes in the hands of the preceding owner the adjustments required under section 1016 shall include an adjustment in respect of the amount of the amortization deduction allowable to the preceding owner for the month in which the facility was acquired by the taxpayer. See § 1.169–3 (c). For the rule excluding capital additions from the adjusted basis of a grain-storage facility for amortization purposes, see paragraph (d) of this section.

(2) The adjusted basis (computed under section 1011 for determining gain) of the facility in the hands of the taxpayer. If the construction, reconstruction, or erection of the facility was begun before January 1, 1953, in determining such adjusted basis there is to be included only so much of the entire unadjusted basis of the facility (in the hands of the taxpayer), as is properly attributable to construction, reconstruction, or erection after December 31, 1952.

(d) *Capital additions.* If after the completion or acquisition of a grain-storage facility further expenditures are made for construction, reconstruction, or erection, such expenditures shall not be added to the adjusted basis of the facility for amortization purposes. If such expenditures result in alteration or remodeling which under section 169 (d) is treated as the construction of a grain-storage facility, see paragraph (e) of this section.

(e) *Alteration or remodeling of existing grain-storage facility.* If an existing grain-storage facility as defined in section 169 (d) is altered or remodeled and such alteration or remodeling is treated under section 169 (d) as the construction of a grain-storage facility (see § 1.169–2 (d)), the expenditures for such alteration or remodeling shall not be applied in adjustment of the basis of the existing facility, but a separate basis shall be computed by reference to such expenditures as if such alteration or remodeling represented a new and separate grain-storage facility. A structure which was not an existing grain-storage facility prior to alteration or remodeling which is treated under section 169 (d) as the construction of a grain-storage facility becomes an existing grain-storage facility for the purposes of this paragraph. Thus, if a structure which is an existing grain-storage facility by reason of such alteration or remodeling is again altered or remodeled and such alteration or remodeling is treated under section 169 (d) as the construction of a grain-storage facility, the provisions of this subparagraph are also applicable to such later alteration or remodeling.

(f) *Examples.* The computation of the adjusted basis of a grain-storage facility for amortization purposes may be illustrated in the following examples:

Example (1). On February 28, 1953, A completes the construction of a grain-storage facility as defined in section 169 (d) at a cost $2,000 for the land and $6,000 for the construction. Only $3,000 of the total cost of the facility is properly attributable to construction after December 31, 1952. A elects to claim the amortization deduction and to begin the 60-month period on March 1, 1953. Under section 169 (e), the adjusted basis of the facility for the purpose of section 169 (a) as of that date is only $3,000, the amount attributable to construction after December 31, 1952. In determining the adjusted basis of the facility as of any subsequent date for the purpose of computing the amortization deduction, the amortization deductions allowable in respect of the period prior to such date must be taken into account. See section 1016. Thus, the adjusted basis of the facility for the purpose of computing the amount of the amortization deduction allowable for the month of January 1954, is $2,500 ($3,000 minus $500, the amortization deductions allowable prior to January 1, 1954).

Example (2). A began on January 1, 1954, and completed on June 30, 1954, the construction of a grain-storage facility as defined in section 169 (d) at a cost of $5,000 for the land and $30,000 for the construction. A elects to claim the amortization deduction and to begin the 60-month period on July 1, 1954. On May 1, 1955, A sells the grain-storage facility to B for a price of $34,000, of which $6,000 is allocable to the land. B elects to claim the amortization deduction on the basis of the 50 months remaining in the amortization period. B, in determining the adjusted basis of the facility in his hands, must start with the unadjusted basis of the facility in the hands of A ($30,000) and adjust such basis under section 1016 in respect of amortization claimed by A during his ownership of the facility ($5,000). Since this amount ($25,000) is smaller than the adjusted basis (for determining gain) of the facility in B's hands as of May 1, 1955 ($28,000, that is $34,000 less $6,000 allocable to land), the adjusted basis of the facility for the purpose of section 169 (a) in B's hands as of May 1, 1955, is $25,000. B, therefore, may include only $25,000 in determining the adjusted basis of the facility in his hands as of May 1, 1955, the date of the purchase. The amortization deductions claimed by B must, of course, be applied in reduction of such adjusted basis in determining the adjusted basis of the facility as of any subsequent date for the purpose of his amortization deduction under section 169 (a). The amount by which the purchase price paid by B and allocable to depreciable property ($28,000) exceeds the adjusted basis determined under section 169 (e) for such property ($25,000)—or $3,000—is treated as the adjusted basis (as of May 1, 1955) for the purpose of the depreciation deduction allowable under section 167. See § 1.169–7.

§ 1.169–7 *Depreciation of portion of grain-storage facility not subject to amortization.* The rule set forth in section 169 (a) (see § 1.169–3), that the amortization deduction with respect to a grain-storage facility is in lieu of any deduction for depreciation which would otherwise be allowable under section 167 with respect to the facility, is subject to an exception provided in section 169 (f). Under this exception, if the adjusted basis of the facility as computed under section 1011 for purposes other than the amortization deductions (see § 1.1011–1) is in excess of the adjusted basis computed under section 169 (e) for the purpose of the amortization deductions (see § 1.169–6), any excess shall be charged off over the useful life of the facility and recovered through depreciation deductions allowable under section 167. Thus, if the construction of a grain-storage facility was begun before January 1, 1953, no amortization deductions are allowable with respect to the amount attributable to such construction before such date (see § 1.169–6). However, the depreciation deduction provided by section 167 and the regulations thereunder is allowable with respect to the amount attributable to construction before January 1, 1953. Similarly, in the case of a subsequent owner the adjusted basis of a grain-storage facility computed under section 1011 for purposes other than the amortization deductions (see § 1.1011–1) may exceed the adjusted basis of the facility computed under section 169 (e) for amortization purposes. In such case the excess will be subject to the allowance for depreciation provided by section 167. For illustration of the treatment of the portion of a grain-storage facility which is subject to the allowance for depreciation, see example (2) in § 1.169–6 (f).

§ 1.169–8 *Life tenant and remainderman.* In the case of a grain-storage facility held by one person for life with the remainder to another person, the amortization deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant during his life.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 610—CHILDREN'S DRESS AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

Pursuant to section 5 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, as amended; 29 U. S. C. 205), the Secretary of Labor by Administrative Order No. 508 (23 F. R. 4036), as amended by Administrative Order No. 511 (23 F. R. 5215), appointed, convened, and gave notice of the hearing of Industry Committee No. 40–C to recommend the minimum wage rate or rates to be paid under section 6 of that Act (52 Stat. 1062, as amended; 29 U. S. C. 206) to employees in the children's dress and related products industry in Puerto Rico who are engaged in commerce or in the production of goods for commerce.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the committee filed with the Administrator a report containing its findings and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1064, as amended; 29 U. S. C. 208), Reorganization Plan No. 6 of 1950 (64 Stat. 1263; 3 CFR, 1950 Supp., p. 165), and General Order No. 45–A of the Secretary of Labor (15 F. R. 3290), the recommendations of the committee are hereby published in this order amending the Code of Federal Regulations. Effective September 12, 1958, 29 CFR Part 610 is amended to read as follows:

Sec.
610.1 Definition of the industry.
610.2 Wage rates.
610.3 Notices.

AUTHORITY: §§ 610.1 to 610.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208. Interpret or apply sec. 5, 52 Stat. 1062, as amended; 29 U. S. C. 205.

§ 610.1 *Definition of the industry.* The manufacture from woven or knit fabric or from waterproof materials of the following garments: Dresses, blouses, shirts, and similar garments for girls; shirts and blouses for boys, size 6X and under; dresses, creepers, rompers, waterproof pants, diaper covers, sportswear, and play apparel for infants three years of age or under; and clothing and accessories for dolls; *Provided, however,* That the industry shall not include products manufactured by heat sealing, cementing, vulcanizing, or any operation similar thereto; or the outlining or embroidery of lace by machine, or the embroidery of any article or trimming by a crochet beading process or with bullion thread.

§ 610.2 *Wage rates.* (a) Wages at a rate of not less than 47 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the children's dress and related products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce, and who is engaged in the hand-embroidery classification which is defined as the operations of hand-embroidering, hand-embellishing, ornamental stitching, and other hand-sewing operations involving decorative effects.

(b) Wages at a rate of not less than 65 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees engaged in commerce or in the production of goods for commerce and who is engaged in the other operations classification which is defined as all operations in the children's dress and related products industry in Puerto Rico, other than these operations in the hand-embroidery classification of this industry.

§ 610.3 *Notices.* Every employer subject to the provisions of § 610.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 610.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

Signed at Washington, D. C., this 20th day of August 1958.

CLARENCE T. LUNDQUIST,
Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

BOHEMIA RIVER, MARYLAND

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.245 governing the operation of drawbridges across navigable waters discharging into the Atlantic Ocean south

of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets, where constant attendance of draw tenders is not required, is hereby amended prescribing paragraph (f) (1–a) to govern the operation of the Maryland State Roads Commission bridge across Bohemia River at Cayots, Maryland, as follows:

§ 203.245 *Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.* • • •

(f) *Waterways discharging into Chesapeake Bay.* • • •

(1–a) *Bohemia River, Md.; Maryland State Roads Commission bridge at Cayots.* From May 30 to September 30, inclusive, except on Saturdays, Sundays, State and Federal holidays, between sunrise and sunset, and from October 1 to May 29, inclusive, except between the hours of 7:00 p. m. on Fridays and 7:00 a. m. on Mondays, inclusive, the draw will not be required to be opened except upon 3 hours' advance notice. From October 1 to May 29, inclusive, between the hours of 7:00 p. m. on Fridays and 7:00 a. m. on Mondays, inclusive, the draw will not be required to be opened except upon advance notice given prior to 7:00 p. m. on Friday. From May 30 to September 30, inclusive, between sunrise and sunset on Saturdays, Sundays, State and Federal holidays, the regulations contained in § 203.240 shall govern operation of this bridge.

[Regs., Aug. 11, 1958, 823.01 (Bohemia River, Md.)—ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] HERBERT M. JONES,
Major General, U. S. Army,
The Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 31]

MALHEUR NATIONAL WILDLIFE REFUGE, OREGON

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add § 31.208 to Chapter I, Title 50, Code of Federal Regulations, Subpart—Malheur National Wildlife Refuge, Oregon, as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of migratory game birds on certain lands of the Malheur National Wildlife Refuge under certain limitations and subject to compliance with the laws and regulations of the State of Oregon.

The proposed regulation relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U. S. C. 1003); however, it is the policy of the Department of the Interior that, wherever practicable, the rule making requirements be observed voluntarily. Accordingly, interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 22, 1958.

D. H. JANZEN,
Director, Bureau of
Sport Fisheries and Wildlife.

§ 31.208 *Hunting of migratory game birds permitted.* Subject to compliance with the provisions of Parts 6, 18, and 21 of this chapter, the hunting of migratory game birds is permitted on the hereinafter described lands of the Malheur National Wildlife Refuge, Oregon, subject to the following conditions, restrictions, and requirements:

(a) *Hunting area.* The following described area is open to hunting:

T. 26 S., R. 31 E., W. M., N. M. L.,
Sec. 13, lots 1–6, incl., S½NW¼;
Sec. 14, lots 7 and 8, SE¼NE¼, NE¼SE¼;
Sec. 23, lots 1–4, incl., NW¼NE¼, E½SW¼;
Sec. 24, lots 1 and 2;
Sec. 25, lot 1 north of Malheur Lake, lots 1–11, incl., south of Malheur Lake;
Sec. 26, lots 1, 3, 4, and 5 south of Malheur Lake, lots 1–4, incl., W½NE¼, SE¼NW¼, north of Malheur Lake.
T. 25 S., R. 32 E., W. M., N. M. L.,
Sec. 36, lot 1, N½NE¼, SW¼NE¼.
T. 26 S., R. 32 E., W. M., N. M. L.,
Sec. 1, lots 1, 2, and 3;
Sec. 2, lots 1, 2, 6–9, incl.;
Sec. 3, lots 9–12, incl., N½SW¼;
Sec. 4, lots 9–13, incl., W½SW¼, NE¼SE¼;
Sec. 5, that part of lot 2 lying south of a line parallel to and 10 chains south of the north line of lot 2, lot 7, that part of lot 8 lying south of a line parallel to and 10 chains north of the south line of lot 8, NE¼SE¼, S½SE¼;
Sec. 8, lots 4–6, incl., N½NE¼, SW¼NE¼, NW¼SE¼;
Sec. 9, lots 1, 2, and 3;
Sec. 10, lots 1 and 2;
Sec. 17, lots 1, 2, and 3;
Sec. 18, lots 3–7, incl., N½NE¼.
T. 26 S., R. 31 E., W. M., S. M. L.,
Sec. 30, lots 4, 5, 11–14, incl.
T. 25 S., R. 32½ E., W. M., N. M. L.,
Sec. 31, lots 1, 2, and 3.

Also all the lakebed lands abutting upon and lying in front of the following described legal subdivisions:

T. 26 S., R. 31 E., W. M., N. M. L.,
Sec. 13, lots 1–6, incl.;
Sec. 14, lots 7 and 8;
Sec. 23, lots 1–4, incl.;
Sec. 24, lots 1 and 2;
Sec. 25, lot 1 north of Malheur Lake, lots 5, 9, 10, and 11 south of Malheur Lake;
Sec. 26, lots 1–4, incl., north of Malheur Lake, lots 1, 3, and 5 south of Malheur Lake.
T. 25 S., R. 32 E., W. M., N. M. L.,
Sec. 36, lot 1.
T. 26 S., R. 32 E., W. M., N. M. L.,
Sec. 1, lots 1, 2, and 3;
Sec. 2, lots 1, 2, 6–9, incl.;
Sec. 3, lots 9–12, incl.;
Sec. 4, lots 9–13, incl.;
Sec. 8, lots 4, 5, and 6;
Sec. 9, lots 1, 2, and 3;
Sec. 10, lots 1 and 2;
Sec. 17, lots 1, 2, and 3;
Sec. 18, lots 3–7, incl.
T. 26 S., R. 31 E., W. M., S. M. L.,
Sec. 30, lots 13 and 14.
T. 25 S., R. 32½ E., W. M., N. M. L.,
Sec. 31, lots 1 and 3.

(b) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(c) *Dogs.* Hunting dogs, not to exceed two per hunter, may be used for the purpose of retrieving dead or wounded birds, but such dogs shall not be permitted to run at large on the public shooting grounds or elsewhere on the refuge.

(d) *Boats.* The use of boats without motors for the purpose of hunting is permitted.

(e) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for the purpose of regulating the hunting.

(f) *State cooperation.* State cooperation may be enlisted in the regulation, management, and operation of the public hunting areas, and the State may promulgate such special regulations as may be necessary for these purposes. In the event such State regulations are issued, compliance therewith shall be a requisite to lawful entry for the purpose of hunting.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 961]

[Docket No. AO-160-A20]

HANDLING OF MILK IN PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

NOTICE OF POSTPONEMENT OF HEARING ON PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the postponement of a public hearing which was called to begin at 9:30 a. m., on August 28, 1958. The hearing is now scheduled to be convened in the Carlton Room, Sylvania Hotel, Broad and Locust Streets, Philadelphia, Pennsylvania, on September 18, 1958, beginning at 9:30 a. m., e. d. t.

The issue under consideration at this hearing is set forth in the notice of hearing issued by the Deputy Administrator, Agricultural Marketing Service, on August 19, 1958 and published in the FEDERAL REGISTER on August 22, 1958 (23 F. R. 6510, F. R. Doc. 58-6782).

Issued at Washington, D. C., this 22d day of August 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 58-6940; Filed, Aug. 26, 1958; 8:54 a. m.]

[7 CFR Part 1001]

HANDLING OF LIMES GROWN IN FLORIDA

NOMINATION PROCEDURE

Notice is hereby given that the Department is considering the approval of a proposed amendment, hereinafter set forth, to the rules and regulations (Subpart—Florida Lime Administrative Committee Rules and Regulations; 7 CFR 1001.110 et seq.) that are currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 101, as amended (7 CFR Part 1001), regulating the handling of limes grown in Florida. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

The amendment to the said rules and regulations was proposed by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order as the agency to administer the terms and provisions thereof, and would add the following new section:

§ 1001.115 *Nomination procedure.* (a) Any grower who desires to be represented in a nomination meeting by a duly authorized agent and to have his vote cast by such agent in the nomination and election of nominees for grower members and alternate members to fill positions on the Florida Lime Administrative Committee, as provided in § 1001.22 (b) (2), shall submit to the committee, not later than January 20, a written statement containing the following:

(1) Name of grower;
(2) Mailing address;
(3) Location of each lime grove (either legal or from established landmarks);
(4) Number of lime trees owned;
(5) Number of 55-pound units of limes marketed to date during the current season;
(6) Name of the handler of the fruit marketed;
(7) Authorization, including the name and address, of the person who is to represent said grower at the nomination meeting.

(b) Any grower who has not filed the statement as prescribed in paragraph (a) of this section must be present at the nomination meeting to be eligible to have his vote counted in connection with the nomination and election of nominees.

(c) Any grower who, pursuant to the provisions of paragraph (a) of this section, has authorized an agent to cast such grower's vote, may rescind such authorization by appearing at the nomination meeting and exercising his right to vote in person.

All persons who desire to submit written data, views, or arguments for consideration in connection with said proposed amendment should do so by forwarding same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, Room 2077, South Building, Washington 25, D. C., not later than the tenth day after publication of this notice in the FEDERAL REGISTER.

Dated: August 22, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-6923; Filed, Aug. 26, 1958; 8:52 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Part 241]

[Economic Regs. Draft Release 97]

UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

NOTICE OF PROPOSED RULE MAKING

AUGUST 21, 1958.

Notice is hereby given that the Civil Aeronautics Board has under consideration the amendment of Part 241 of the Economic Regulations (14 CFR Part 241). This proposed rule modifies, redefines, and in many cases clarifies the present accounting and reporting requirements.

The principal features of the proposed regulation are explained in the explanatory statement and the proposed amendments to Part 241 are set forth in the proposed rule.

This regulation is proposed under the authority of sections 205 (a), 407 (a) and 407 (d) of the Civil Aeronautics Act of 1938, as amended. (52 Stat. 984, 1000, 1004; 49 U. S. C. 425, 487, 496).

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate and addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All communications received on or before September 25, 1958, will be considered by the Board before taking further action thereupon. Copies of such communications will be available on or after September 30, 1958, for examination by interested persons in the Docket Section of the Board, Room 5412, Dept. of Commerce Building, Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

During the past year the Board has received industry comments and requests for waivers which indicate a need for amending and clarifying various provisions of the revised Uniform System of Accounts. Accordingly, amendments are proposed herein which, it is expected, will serve to save time and effort on the part of the Board and its staff and on the part of the carriers subject to accounting and reporting requirements by eliminating the necessity for case by case determinations of the several accounting and reporting issues. Apart from the elimination of difficulties arising from lack of specific or detailed coverage, the proposed amendment of this regulation affords an appropriate occasion for standardizing terms, correcting typographical errors, and incorporating changes which have occurred in operating authority. The nature of these changes renders unnecessary detailed analysis and explanation. As an aid to the public, however, the items involving substantive changes are briefly described below:

1. Section 241.03 provides separate definitions for "Service, charter" and "Service, special" in lieu of the present single definition of both under the caption "Service, charter and special."

2. Sections 241.04 and 241.05 add Trans Caribbean Airways, newly certificated, to the list of Group I Air Carriers, and improves the system of abbreviations for classifying air carrier operations.

3. Sections 241.2–11 and 241.6 require that all amounts receivable from and payable to other air carriers be accounted for in gross amounts. Under the present regulation, those traffic balances between air carriers which are normally settled in net amounts through airline clearing houses must be accounted for in net amounts receivable from or payable to each such clearing house. While the netting of these receivables and payables was prescribed in the present regulations at the request of the industry, there appears to be no support in general accounting practice for this requirement. Receivables and payables stand independent of each other in terms of ultimate objectives regardless of the techniques used for determining routine monthly settlement. Thus, as modified, the regulation would conform with general accounting practice.

4. Section 241.2–15 clarifies the intent of the regulation with respect to the accounting and reporting of contingencies in the balance sheet.

5. Section 241.13 provides that the cost of instrument repairs would be chargeable to "Other Flight Equipment" rather than to "Airframe" or "Aircraft Engine" repair accounts as now prescribed. This change is made in the light of industry representations as to the impracticability of including instrument repair costs in the prescribed accounts because of the separate controls exercised over instrument repairs.

6. Sections 241.22 and 241.23 provide that only two copies of Schedule A "Certification" need be filed instead of the three copies now prescribed; that Schedule B–6 "Distribution of Noncurrent Assets by Operating Entity" be filed only by air carriers having more than one operating entity; that interim reports be

filed every month, instead of for the first two months of each calendar quarter and within 30 instead of 40 days after the end of the reporting period; adds to the list of schedules comprising the CAB Form 41 report Schedule D–1 "Service Performed for the Defense Establishment" in conformance with the requirements prescribed by Regulation No. ER–221.

7. Section 241.24 clarifies the instructions for filing Schedules P–2, P–7, and P–8 and for filing interim income statements.

8. Section 241.25 adds a reference to the glossary in Item 016 "Number of Revenue Passenger Originations" on Schedules T–1 and T–2 and deletes the same reference from Item 017 "Number of Revenue Passenger Enplanements," and clarifies the instruction relating to Schedule T–4 by providing that Column 11 "Number of Revenue Passenger Originations" reflect passengers in scheduled services only.

It is proposed to revise Part 241 of the Economic Regulations (14 CFR Part 241) in the following respects:

1. By amending the definition of "Service, charter and special" in § 241.03 to read as follows:

Service, charter. Nonscheduled air transport service in which the party receiving transportation obtains exclusive use of an aircraft at published tariff rates and the remuneration paid by the party receiving transportation accrues directly to, and the responsibility for providing transportation is that of, the accounting air carrier.

2. By adding a new definition to § 241.03 to read as follows:

Service, special. Nonscheduled air transport services in which the party receiving transportation obtains exclusive use of an aircraft at other than tariff rates and/or individually-ticketed services not involving inter-airport transportation, whereby the remuneration paid by the party receiving transportation accrues directly to, and the responsibility for providing transportation is that of, the accounting air carrier.

3. By amending § 241.04 by adding "Trans Caribbean Airways, Inc.," and "Trans Car" to the list of Group I Air Carriers.

4. By amending § 241.05 to read as follows:

Operation	*Abbreviation*
Domestic Mail:	
Trunk Lines	DM Trunk.
Local Service	DM Local.
Intra-Territorial	DM Terr.
Domestic Non-Mail	DNM.
Foreign and Overseas Mail:	
Atlantic Ocean	FOM Atlantic.
Central and South America	FOM LAD.
Pacific Ocean	FOM Pacific.
States–Alaska	FOM S–Alaska.
Foreign and Overseas Non-Mail	FONM.

5. By amending § 241.2–2 (b) by deleting the words "charged to" and substituting therefor the words "recorded in".

6. By amending § 241.2–11 (a) by deleting the second sentence and that part of the third sentence which reads "which are not normally settled through airline clearing houses, and".

7. By amending § 241.2–15 to read as follows:

Contingent assets and contingent liabilities, except as permitted by Account 2930 "Other Appropriations of Retained Earnings", shall not be included in the body of the balance sheet but shall be explained in footnotes.

8. By amending the title of Accounts 1651 and 1751 in § 241.3 to read as follows: "Reserve for depreciation—hotel, restaurant and food service equipment."

9. By amending the second sentence of § 241.5–4 (i) (3) by deleting the words "remaining unexpired" and substituting therefore the word "expired".

10. By amending the instructions in § 241.6 for account 1240 to read as follows:

1240 *Accounts Receivable—General Traffic.* (a) Record here amounts due for the performance of air transportation, except those due from the United States and foreign governments and associated companies, includible in balance sheet accounts 1220 Accounts Receivable—U. S. Government, 1230 Accounts Receivable—Foreign Governments, and 1250 Notes and Accounts Receivable—Associated Companies. This account shall include gross amounts due whether settled through airline clearing houses or with individual carriers.

(b) Amounts payable, includible in account 2030 Collections as Agent—Traffic shall not be credited to this account.

11. By amending the instructions in § 241.6 for account 1250 Notes and Accounts Receivable—Associated Companies by deleting the words "but are not settled through airlines clearing houses" from the first sentence.

12. By amending the instructions in § 241.6 for account 2030 to read as follows:

2030 *Collections as Agent—Traffic.* (a) This account shall include amounts collected for transportation furnished by others, except associated companies, whether settled through airline clearing houses or with individual carriers.

(b) Accounts receivable, includible in account 1240 Accounts Receivable—General Traffic shall not be charged to this account.

13. By amending the first sentence of the instructions in § 241.6 for account 2050 Notes and Accounts Payable—Associated Companies to read as follows: "Record here gross amounts due on traffic accounts, current notes and open accounts with associated companies."

14. By amending § 241.7 by inserting the function "63" between 62 and 65 on line 26.1 in the column for Group III carriers.

15. By deleting the words "instruments or" from the instructions for the following subaccounts in § 241.13: 25.1 Labor—Airframes, 25.2 Labor—Aircraft Engines, 42.1 Airframe Repairs—Associated Companies, 42.2 Aircraft Engine Repairs—Associated Companies, 43.1 Airframe Repairs—Outside, 43.2 Airframe Engine Repairs—Outside, 46.1 Materials—Airframes, 46.2 Materials—Aircraft Engines.

16. By amending the instructions in § 241.13 for subaccounts 25.3, 42.3, 43.3, and 46.3 by inserting "(including instruments)" in the first sentence following the word "equipment", eliminating the words "instruments and," and adding a new sentence to read as follows: "Instruments shall include all gauges, meters, measuring devices, and indicators, together with appurtenances thereto for installation in aircraft and aircraft engines, which are maintained separately from airframes and aircraft engines."

17. By amending § 241.14 by deleting from account 88—Miscellaneous Non-operating Credits, the words "gains from sale of investment in securities of others."

18. By amending the second sentence in § 241.22 (a) by deleting the word "interim" and substituting therefor the words "Certification and Interim."

19. By amending the table of schedules in § 241.22 by

(a) Adding a new schedule No., title, filing frequency, and postmark interval as follows:

D–1—Service Performed for Defense Establishment—Quarterly—40.

20. By amending the filing requirements in § 241.22 for Interim Balance Sheets and Interim Income Statements by deleting the footnote in the Frequency column and by changing the numbers in the Postmark interval (days) column, relating thereto, from "40" to "30".

21. By amending § 241.23 by adding to paragraph (a) of the instructions under Schedule B–6 the words "where a carrier has more than one operating entity."

22. By amending the instructions in § 241.23 for Schedule B–41, paragraph (e), to change the number "(1)" to "(2)".

23. By amending the instructions in § 241.23 for Interim Balance Sheets to read as follows: "Each air carrier shall file each month two copies of balance sheets in the form prepared for its management."

24. By amending the instructions in § 241.24 for Schedule P–2 by redesignating paragraph (b) as paragraph (c) and inserting a new paragraph (b) to read as follows:

(b) Separate sets of this schedule shall be filed for each separate operating entity and for the overall or system operations of the air carrier.

25. By amending the instructions in § 241.24 for Schedule P–7 by amending paragraph (b), redesignating present paragraphs (c) through (f) as (d) through (g), and adding a new paragraph (c) to read as follows:

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) Two sets of this schedule shall be filed for each operating entity with the Form 41 report filed for the fourth calendar quarter of each calendar year. One set shall be filed for each operating entity for the first three quarters of each calendar year. One of the two sets filed for the fourth quarter of each year shall reflect the indicated data applicable to the twelve months ended December 31. All other sets shall reflect the indicated data applicable to the current quarter. An "X" shall be inserted in the box designated "Qr" at the head of each column of each report covering quarterly data and an "X" shall be inserted in the box designated "Yr" at the head of each column of each report covering 12-month data.

26. By amending § 241.24 by deleting from paragraph (b) under Schedule P–8 the word "Two" and substituting therefor the word "Separate."

27. By amending paragraph (a) of the instructions in § 241.24 for interim income statements to read as follows:

(a) Each air carrier shall file each month two copies of income statements in the form prepared for its management.

28. By amending the instructions in § 241.25 for Schedules T–1 and T–2 by adding after paragraph (g) the phrase "(See § 241.03 Passenger originations)" and deleting from paragraph (h) the phrase "(See § 241.03 for further definition)".

29. By amending the instructions in § 241.25 for Schedule T–4 by adding to paragraph (i) "in scheduled services (See § 241.03 for further definition)".

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[C–020724, C–023139]

COLORADO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

AUGUST 19, 1958.

Pursuant to the following listed determination of the Federal Power Commission, and in accordance with authority delegated to me by the Colorado State Supervisor, Bureau of Land Management, effective February 19, 1958 (23 F. R. 1098), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended:

Determination No.	Dates and types of withdrawal	Description of lands (Sixth Principal Meridian)
DA–408	Power Site Reserve No. 116, approved Feb. 18, 1910, and made permanent by Executive Order of July 2, 1910, the Withdrawal being construed by Interpretation No. 44, dated Mar. 7, 1924.	T. 4 S., R. 86 W., sec. 17, lot 18.
DA–410	Power Site Reserve No. 244, dated Feb. 17, 1912, as construed by Interpretation No. 44 of Mar. 7, 1924.	T. 4 S., R. 86 W., sec. 17, lot 15.

The above described lands contain 58.85 acres of public lands.

These lots are along the right and left bank of the Colorado River, about six miles upstream from Dotsero, Colorado. Rough, rocky terrain makes up the major portions of each lot, and supports only native vegetation. A county road crosses lot 15.

No applications for the lands will be allowed under the homestead, desert-land, small-tract, or any other non-mineral public land law, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy, or disposition, until they have been classified.

The lands described shall be subject to application by the State of Colorado for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended.

Subject to any existing rights and the requirements of applicable law, the lands described are hereby opened to filing of applications, selections, and locations, in accordance with the following:

a. Applications and selections under the non-mineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation, will be adjudicated on facts presented in support of each claim or right. All applications presented by persons other than these referred to in this paragraph will be subject to applications and claims mentioned in this paragraph.

(2) All valid applications under the homestead, desert-land, and small tract laws, by qualified veterans of World War II or the Korean Conflict, and by others entitled to preference rights under the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, presented prior to 10:00 a. m. on September 24, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour, and before 10:00 a. m. on December 24, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public land laws, other than those coming under paragraphs 1 and 2 above, presented prior to 10:00 a. m. on December 24, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the Mineral Leasing Laws. They have also been open to location under the United States Mining Laws pursuant to the act of August 11, 1955 (66 Stat. 683; 30 U. S. C. 621–625).

Persons claiming veterans' preference under paragraph a2 must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, 371 New Custom House, P. O. Box 1018, Denver 1, Colorado.

J. ELLIOTT HALL,
Lands and Minerals Officer.

ALASKA

SMALL TRACT PUBLIC SALE NO. 4–AOS; CANCELLATION

AUGUST 18, 1958.

Effective August 28, 1958, Federal Register Document 58–5835 appearing on pages 5802 and 5803 of the issue for July 31, 1958, is cancelled in its entirety This order involving terminated lease tracts under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, was published in error in that such orders do not require publication in the FEDERAL REGISTER.

L. T. MAIN,
Anchorage Operations Supervisor, Anchorage, Alaska.

DEPARTMENT OF THE TREASURY

Bureau of Customs

[TC 342.5]

Coordinate Plotters

NOTICE OF PROSPECTIVE CLASSIFICATION

AUGUST 21, 1958.

It appears probable that a correct interpretation of paragraph 360, Tariff Act of 1930, requires that coordinate plotters be classified under the provision of such paragraph for mathematical instruments with duty at the rate of 25½ percent ad valorem a rate higher than that heretofore assessed under an established and uniform practice.

Pursuant to § 16.10a (d) of the Customs Regulations (19 CFR 16.10a (d)), notice is hereby given that the existing uniform practice of classifying such articles as drawing instruments under paragraph 360, Tariff Act of 1930, with duty at the rate of 19 percent ad valorem, is under review by the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of this merchandise which are submitted in writing to the Bureau of Customs, Washington 25, D. C. To assure consideration of such communications, they must be received in the Bureau not later than 30 days from the publication of this notice. No hearings will be held.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Internal Revenue Service

Relief From Excess Profits Tax Because of an Inadequate Excess Profits Credit

ALLOWANCE DURING FISCAL YEAR ENDED JUNE 30, 1958

Subchapter E of Chapter 2 of the 1939 Internal Revenue Code imposes an excess profits tax on corporations for taxable years beginning after December 31, 1939. Under the provisions of this subchapter excess profits are measured by comparing the earnings for the current taxable year with a statutory excess profits credit.

Section 722 of Subchapter E reflects the recognition by Congress of the desirability and necessity of granting relief in meritorious cases to corporations which bear an excessive burden because of an inadequate excess profits credit. This section provides for the recomputation of excess profits tax on the basis of a reconstructed excess profits credit.

As required by section 6105 of the 1954 Internal Revenue Code the following list, containing the cases arranged alphabetically by internal revenue districts, shows the name and address of each corporation to which relief has been allowed, business, taxable years involved, excess profits credit before allowance of relief, increase in excess profits credit claimed, increase in excess profits credit allowed, decrease in excess profits tax, and increase in income tax. Allowances pursuant to decisions entered by The Tax Court of the United States have been made in eighty-two docketed cases. These are included in the list with appropriate notations. There are included as a supplemental to this list twelve cases in which relief was allowed by the Commissioner and two cases in which relief was allowed by The Tax Court of the United States during the fiscal year ended June 30, 1957. These cases were not included in the list of allowances made during the fiscal year 1957 previously published.

In order to determine the relief granted and the relevant data required to be published, intermediate computations of the excess profits tax and the income tax showing the amounts of taxes which would have been due without the benefits of section 722 were made. Comparison of the pertinent items and figures appearing in the application for relief and the tax computations after allowance of relief with those appearing in the intermediate tax computations developed the required data.

Explanations of certain items, as displayed in their respective column headings of the list, and the data evolved follow:

Business in which engaged, column 2. The business in which taxpayer is engaged is that reported in the income tax return of the corporation for the taxable year or years involved; therefore, it does not necessarily correspond with the business during the base period. In those instances where the return for the year involved failed to disclose the nature of the business, information from other sources was utilized. Moreover, since the nature of business shown usually represents a general description of the predominant business activity, it does not necessarily represent or reflect the business activity with respect to which an inadequate excess profits credit was established.

Excess profits credit before allowance of relief, column 4. The excess profits credit before allowance of relief is the credit originally claimed by the taxpayer, as corrected, whether based on income or invested capital.

Increase in the amount of excess profits credit claimed by taxpayer, column 5. The increase in the amount of excess profits credit claimed by taxpayer is the excess of the credit based on the constructive income claimed by the taxpayer over the credit before allowance of relief shown in column 4.

Increase in the amount of excess profits credit allowed, column 6. This increase in the amount of excess profits credit allowed is the excess of the recomputed credit based on constructive income finally allowed over the credit before allowance of relief shown in column 4.

Gross reduction in the excess profits tax, column 7.

Gross increase in the income tax, column 8. The gross reduction in the excess profits tax and the gross increase in the income tax resulting from the operation of section 722 are the difference between the gross taxes which would have been due without the benefits of section 722 and the gross taxes due after relief has been granted. The gross excess profits tax is the tax due prior to the deforment under section 710 (a) (5), the foreign tax credit under section 729, the credit for debt retirement under section 7[illegible] the ten percent credit under section 7[illegible] and the adjustment under section 7[illegible]. The gross income tax is the tax prior to the foreign tax credit under section 131.

The changes in the income and excess profits taxes shown reflect the effect of the increase attributable to section 722 in the unused excess profits credit carried forward from prior taxable years as well as the effect of the increase in unused excess profits credit carried back from subsequent years to the extent that claims with respect to unused credit carry-overs and carry-backs determined under section 722 were allowed within the same fiscal year.

While the decrease in excess profits tax is directly related to the increase in excess profits credit allowed, a number of factors serve to invalidate a comparison of the relationship of these two items applicable to a corporation for different taxable years or to different corporations for the same taxable year. Among the most important factors affecting this comparison are (1) increase in excess profits tax rates, (2) changes in rate structure from a graduated to a flat rate system, (3) effect of unused excess profits credits of prior and subsequent years attributable to section 722, (4) variations of provisions applicable to fiscal years, (5) limitation of excess profits tax to the amount of which 80 per cent of net income exceeds the income tax, applicable to certain taxable years, (6) relation of excess profits before the application of section 722 to the increase in excess profits credit allowed, and (7) reduction in excess profits net income due to change from invested capital method to income credit method.

For taxable years beginning after December 31, 1940, a portion of the amount by which the excess profits tax is reduced by reason of the application of section 722 is offset by an increase in income tax. This offset arises from the provisions which permit the deduction of the income subject to excess profits tax (or excess profits tax in certain taxable years) in arriving at income subject to income tax.

Lists containing the cases in which relief has been allowed for prior fiscal years have been published in the various issues of the FEDERAL REGISTER as follows:

Fiscal year ended—	Volume	Number	Date
June 30, 1942	9	194	Sept. [illegible]
June 30, 1943	9	194	Sept. [illegible]
June 30, 1944	9	219	Nov. [illegible]
June 30, 1945	10	224	Nov. [illegible]
June 30, 1946	11	196	Oct. [illegible]
June 30, 1947	12	197	Oct. [illegible]
June 30, 1948	13	206	Oct. [illegible]
June 30, 1949	14	201	Oct. [illegible]
June 30, 1950	15	205	Oct. [illegible]
June 30, 1951	16	211	Oct. [illegible]

ATOMIC ENERGY COMMISSION

[Docket No. 50-70]

GENERAL ELECTRIC CO.

NOTICE OF PROPOSED ISSUANCE OF FACILITY LICENSE

Please take notice that the Atomic Energy Commission proposes to issue to General Electric Company a facility license which would authorize the conduct of critical experiments in the General Electric Test Reactor at power levels not in excess of 50 kilowatts (thermal), substantially as set forth below unless within fifteen days after the filing of this notice with the Federal Register Division a request for a formal hearing is filed with the Commission as provided by the Commission's rules of practice (10 CFR Part 2). Construction of the facility was authorized by Construction Permit No. CPTR-2 issued on March 11, 1958 (23 F. R. 1906). Prior to issuance of the license the facility will be inspected by representatives of the Commission to determine whether that portion which will be utilized for the conduct of the critical experiments has been constructed in compliance with the applicable terms and conditions of the construction permit.

For further details see (1) the application submitted by General Electric Company and amendments thereto, and (2) a memorandum by the Division of Licensing and Regulation which summarizes the principal factors considered in reviewing the application for license to conduct the critical experiments, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

The General Electric Company has also requested a license to operate the reactor as a testing facility at authorized power levels not exceeding thirty-three megawatts. Pursuant to the provisions of the Atomic Energy Act of 1954, as amended, the Commission will hold a public hearing on the Company's application for such license. The date and location of such hearing have been announced in a separate notice.

Dated at Germantown, Md., this 20th day of August 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

PROPOSED LICENSE

1. The Atomic Energy Commission (hereinafter referred to as "the Commission") finds that:

A. The portion of the General Electric Test Reactor (hereinafter referred to as "the facility") which will be used in the conduct of the critical experiments described in Amendment No. 6, dated July 15, 1958 to General Electric Company's license application has been constructed in compliance with the applicable terms and conditions contained in Construction Permit No. CPTR-2.

B. There is reasonable assurance that the critical experiments can be conducted without endangering the health and safety of the public.

C. General Electric Company is technically and financially qualified to conduct the critical experiments in the facility.

D. The issuance of a license to conduct the critical experiments will not be inimical to the common defense and security or to the health and safety of the public.

E. General Electric Company has submitted proof of financial protection which satisfies the requirements of Commission regulations currently in effect.

2. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses General Electric Company:

A. Pursuant to section 104c of the Atomic Energy Act of 1954, as amended (hereinafter referred to as "the act"), and Title 10, CFR, Chapter I, Part 50, "Licensing of Production and Utilization Facilities", to possess the facility as a utilization facility and to conduct therein the critical experiments described in Amendment No. 6, dated July 15, 1958, to its license application in accordance with the procedures described therein.

B. Pursuant to the Act and Title 10, CFR, Chapter I, Part 70, "Special Nuclear Material", to possess and use 8.5 kilograms of contained uranium-235 as fuel for the conduct of the critical experiments.

C. Pursuant to the Act and Title 10, CFR, Chapter I, Part 30, "Licensing of Byproduct Material", to possess but not to separate such byproduct material as may be produced during the conduct of the critical experiments.

3. This license applies to the facility which is owned by General Electric Company and located at the Company's Vallecitos Atomic Laboratory near Pleasanton, California, described in General Electric Company's application dated June 5, 1957 and amendments thereto dated July 18, 1957, December 12, 1957, February 26, 1958, May 15, 1958, June 18, 1958 and July 15, 1958 (all collectively referred to herein as "the application").

4. This license shall be deemed to contain and be subject to the conditions specified in § 50.54 of Part 50 and § 70.32 of Part 70; is subject to all applicable provisions of the Act and rules, regulations and orders of the Commission now or hereafter in effect; and is subject to the additional conditions specified below:

A. General Electric Company shall not operate the facility at power levels in excess of 50 kilowatts.

B. General Electric Company shall not perform any critical experiment in the facility other than the experiments described in Amendment No. 6 dated July 15, 1958 to its license application until a description of the proposed experiment and a hazards summary report shall have been submitted to the Commission and the Commission shall have specifically authorized the experimental activity.

C. The facility shall be equipped with a device which will automatically scram the reactor if the power level during conduct of the critical experiments exceeds twice the rated power level of the tests. In no case shall the power level at which the scram is to occur exceed 100 kilowatts.

D. In addition to those otherwise required under this license and applicable regulations, General Electric Company shall keep the following records:

(1) Reactor operating records, including power levels.

(2) Records showing radioactivity released or discharged into the air or water beyond the effective control of General Electric Company as measured at the point of such release or discharge.

(3) Records of emergency scrams, including reasons for emergency shutdowns.

E. General Electric Company shall immediately report in writing to the Commission any indication or occurrence of a possible unsafe condition relating to the conduct of the critical experiments.

5. This license is effective as of the date of issuance and shall expire either at midnight March 11, 1968, or upon the issuance of an operating license authorizing the operation of the facility as a testing facility, whichever event occurs first.

Date of issuance:

For the Atomic Energy Commission.

In re application of James A. Saunders, (Transferor) and William F. Johns, Jr., (Transferee); Docket No. 12578, File No. BTC-2792; for transfer of control of Sioux Empire Broadcasting Company, Inc., Licensee of Station KIHO, Sioux Falls, South Dakota.

1. The Commission has before it for consideration (a) a "Protest" filed on July 25, 1958 pursuant to section 309(c) of the Communications Act of 1934, as amended, by KISD, Inc., licensee of standard broadcast station KISD, Sioux Falls, South Dakota directed against the Commission's action of June 26, 1958, granting without hearing the above-entitled application; (b) an "Opposition to Protest" filed by the applicants herein on August 4, 1958; and (c) a "Reply" to said "Opposition" filed by KISD, Inc., on August 8, 1958.

2. Commission records indicate that Station KISD operates on 1430 kc with power of 250 w. Station KIHO, Sioux Falls, South Dakota operates on 1270 kc with power of 1 kw. The above application requests Commission consent to the proposed sale of 51 percent of the outstanding stock of Sioux Empire Broadcasting Company from James A. Saunders to William F. Johns, Jr. Commission records indicate that the transferee, Johns, currently owns 30 percent of the outstanding stock of the licensee corporation. He was until recently a 12 percent owner of Station KMNS, Sioux City, Iowa and presently owns 51 percent of Station WOSH (FM & TV), Oshkosh, Wisconsin and 51 percent of Station KRIB, Mason City, Iowa. On July 28, 1958, the Commission was notified through the filing of an ownership report that the above transaction was consummated.

3. In its protest, protestant alleges, in substance, that it is the licensee of Station KISD, Sioux Falls, South Dakota, and is in direct competition with Station KIHO for advertising revenues, as well as for personnel, program materials and other things necessary to the successful operation of a broadcasting facility; that it will suffer economic injury as a result of the grant of the above-entitled application because control by William F. Johns, Jr., enables KIHO to compete more effectively against KISD; that Johns now owns or has operating control of Station WOSH, Oshkosh, Wisconsin, Station WMIN, St. Paul, Minnesota, and Station KRIB, Mason City, Iowa; that Johns has the opportunity to utilize personnel, materials and programing for KIHO in common with one or more of his other stations and to offer the facilities of KIHO in combination with one or more of his other stations at lower combined advertising rates; that during the past year when Johns exercised common control of Stations KMNS, Sioux City, Iowa and KIHO, Sioux Falls, South Dakota, he offered the facilities of the two stations in combination at lower combined rates calling them the "Twin Siouxs"; that Johns has actually assumed and exercised full control over KIHO during the whole period from September, 1957 to date; that during October and November, 1957 because of the "grandiose" claims regarding the disirability of KIHO under its new management, KISD lost several regular advertising accounts to KIHO and had begun to lose some of the advertising revenues it normally obtains on an intermittent basis; and that Johns abused Commission processes in prior applications only to withdraw when pertinent facts were brought to the attention of the Commission.

4. The protestant further alleges that Johns has been conducting dishonest prize-awarding contests through KIHO and has manifested a radical degree of financial irresponsibility in his relationships with local advertisers; that Johns has contracted to purchase Saunders' 51 percent interest without cash consideration; that he is merely relieving Saunders of his obligation on two notes for a total of $9,000; that the balance sheet of the licensee corporation reveals that it is insolvent and cannot meet its current obligations; that, on information and belief the bulk of liabilities are now long past due; that the corporation will need sizable additional resources to cover both operating costs and installment payments on $56,000 in deferred obligations;

that, if the corporation is to survive, it must be "primed" with cash and that cash can come from only one source, Johns, himself; and, that his personal balance sheet shows only $4,000 in quick assets.

5. The protestant further claims that Johns has stated that he will finance the operation of KIHO out of the proceeds of the sale of KMNS; that by his own estimate he expects to receive a total of $86,400 for his interest therein; that on three different occasions Johns has told the Commission that he intends to use the proceeds from the sale of KMNS to finance his acquisition of his parents' interests in WMIN, St. Paul, Minnesota; that in his contract to acquire WMIN, Johns is obligated to pay $60,000 cash at closing with deferred payments of an additional $17,200, of which $11,000 will fall due within the first year; that the balance sheet of WMIN reveals that it has sustained a total operating deficit of $32,000 and has a net worth of minus $16,000; that in his contract to acquire Station KRIB, Mason City, Iowa, Johns has incurred obligations payable within one year in the amount of $12,000; that the foregoing leads to the inescapable conclusion that Johns will have a total of "nothing" to apply to the needs of KIHO and will be unable to satisfy the notes he has assumed from Saunders if he is also to meet all his other commitments as they fall due; and, that it is apparent that there is a serious question whether Johns possesses the minimum financial qualifications to earn the Commission's approval of his exercise of ownership and control of KIHO.

6. The protestant then sets forth that Johns' proposal for future programming merits a close look by the Commission because he proposes 86.2 percent for entertainment, 6.7 percent for news and 4.4 percent for religious programming, leaving the "grand" sum of 2.7 percent for agriculture, education, discussion, talks and other programs; that he proposes nothing at all for either agriculture or talks; that his proposed schedule for a typical week reveals that every program characterized as other than entertainment, religion or news is scheduled for Sunday morning; and that the Commission should not grant the application without first calling upon Johns to show wherein this program proposal will serve the needs and interests of the public.

7. It is further claimed that actual control of the licensee of KIHO was abandoned by Saunders and has been assumed and exercised by Johns continuously to date (except during the period between November 1, 1957, and January 14, 1958, when Johns had Commission authority to exercise control); that factual allegations concerning this unauthorized assumption of control are set forth in a previous protest filed on November 20, 1957, and incorporated herein by reference; that said allegations set forth that Johns installed Robert J. Flynn (formerly General Manager of Johns' station KMNS, Sioux City, Iowa) as General Manager of KIHO; that Flynn was replaced by Vincent Casey, who was subsequently replaced by LeRoy Okerlund and then by James R. Duryea; that the local general managers of KIHO from September 1957 to date have been agents of Johns and never of Saunders; that Johns had all checks for salaries and bills sent to him in St. Paul for signature; that with respect to the winners of cash prizes in KIHO contests, Johns indicated for which winners checks were to be drawn; that the bookkeeper was required to obtain personal approval of Johns before making a substantial withdrawal from the station's bank account; and that, on information and belief, promotional literature was regularly received from Johns' other stations with instructions to use certain materials whenever possible (such as music lists, program materials, etc.). The protestant then describes in detail the station's questionable practices and manipulations with regard to conduct of contests, in which the listening audience participated for cash prizes. These contests included bingo, top "20" musical selections for a week and a treasure hunt, the prizes for which ranged in value from $5.00 to $10,000.00.

8. The protestant further alleges, on information and belief, that Johns has never contributed any money toward the operations or the obligations of KIHO; that the station has been kept in a perpetual state of financial distress; that as a consequence, creditors are dunning the management constantly and that Johns imposes upon his local managers the principal duty to put off creditors; that the station's bank account has been overdrawn almost invariably at one point to the extent of $7,000; that salary checks to KIHO employees have been returned because of insufficient funds; that prize winners were paid only after making repeated demands on the management and some were never paid; that during November and December 1957, it was a common practice to broadcast fewer spot announcements than the total number for which advertisers had contracted; that in view of the foregoing, there is a substantial question whether Johns possesses the character qualifications to be the owner and operator of KIHO and there is an equally substantial question whether the license for KIHO should not be revoked. Attached to the protest is an affidavit of Vincent Casey alleging control of the station by Johns.

9. In its prayer for relief, protestant requests the Commission to enter an order staying the effectiveness of its grant of the above-entitled application, directing a re-transfer of control from Johns to Saunders, and that the application be designated for hearing upon issues specified by it.

10. In their opposition to the protest, James A. Saunders and William F. Johns concede that the protestant has standing to file a protest under section 309 (c) of the Communications Act. With respect to the facts and matters complained of in the protest, they first set forth a history of past activities and then allege, in substance, that when a prior application for Commission consent to the transfer of control of Station KIHO was protested, Mr. Johns withdrew, feeling that it was better to have a minority interest than to incur the expense of a hearing and the resulting uncertainties; that the attack upon the financial qualifications of William F. Johns, Jr., and the licensee indicates a lack of understanding by the protestant of the nature of the financial arrangement between the parties; that when the Commission ordered the transfer of control of KIHO returned to Mr. Saunders, Mr. Saunders did not have the cash available that Mr. Johns had paid him for the 51 percent stock interest, whereupon, Johns accepted the promissory note from Saunders for the original cash purchase price; that there is every reason to believe with sound management, the licensee corporation will be able to pay off existing notes; that the business of the station has taken an upturn since Mr. Johns re-acquired control and employed a new manager; that the protestant's statement that "the merest glance at the balance sheet of the licensee corporation reveals that it is insolvent" is untrue since the Commission obviously would not have approved the application if the balance sheet had indicated that the corporation was insolvent; that none of KIHO's creditors have brought suit against it or threatened to do so but rather have indicated a willingness to cooperate with Mr. Johns in his efforts to improve the station's financial position; that the continued operation of the station under Mr. John's supervision offers the station's creditors the greatest hope of being paid; that there is no "pressing need" for any large sum of money to cover the excess of current liabilities over current assets; that while some of the current liabilities are past due, the station is under no pressure to meet them at once and that William F. Johns, Sr., is willing to lend the corporation or William F. Johns, Jr., up to $100,000, if necessary; and that John's other station, KRIB is now operating at a profit.

11. The opposition further alleges that the programming criticized is Mr. John's proposed programming rather than actual programming; that the Commission considered the programming when it acted upon the application; that it is, in the opinion of Mr. Johns, the only type of programming that will be successful in the Sioux Falls market; that KISD, when it hired Vincent Casey, adopted in toto the program format and programming methods of KIHO; that with respect to the unauthorized transfer of control, no major decisions regarding the operation of the station were to be made without the approval of Mr. Saunders; that Mr. Flynn's transfer from KIHO to WMIN was made primarily because Mr. Flynn wanted to move to St. Paul; that Mr. Saunders, while authorizing the station manager to take up with Mr. Johns the operational problems of the station, made it abundantly clear that no major decisions were to be made without his knowledge and approval; that many of the charges made are stated as "allegations on information and belief"; that the station's auditor discloses that at no time was the station's account overdrawn by more than $1,000; that no checks were returned without payment

prior to the time when Casey was manager; that the station's financial problems began when Casey became manager; that Casey commenced the "Bingo" contest without the knowledge or approval of either Mr. Saunders or Mr. Johns; that Mr. Flynn was authorized to sign checks; that the contests conducted by the station were not manipulated nor dishonestly conducted; that spot announcements were never removed or deleted from an advance log except for good reason; and that there is no basis for questioning the character qualifications or the financial responsibility of William F. Johns, Jr., or the financial qualifications of the licensee of KIHO.

12. In support of their allegations, the applicants submitted sworn statements (a) by James A. Saunders setting forth that he gave Johns permission to undertake the day-to-day operations of the station, while remaining in control; (b) by Robert J. Flynn stating that Mr. Saunders controlled the station; (c) by the Program Director of KIHO regarding the contests conducted by the station; (d) a letter from The New American Bank of Oshkosh, Wisconsin attesting to the character of Mr. Johns; (e) a letter from William F. Johns, Sr. agreeing to lend his son $100,000; and (f) other material regarding Mr. Johns' character. The opposition concludes by urging, in substance, that a further reversal of control of the station, with the resulting disruption of the station's business and the adverse effects upon the confidence of employees, advertisers, and creditors would almost certainly prove disastrous to the station; that there can be no doubt that the station serves the public interest and that the Commission has twice found that the public interest would be served by the transfer of control from James A. Saunders to William F. Johns; and that the protest of KISD, Inc. should be denied.

13. In its Reply, protestant urges, in substance, that the applicants have left unresolved the questions raised in the protest concerning financial qualifications, programming, unauthorized transfer of control, contests, spot announcements and other qualifications; and that a stay of the protested grant is required.

14. In view of the facts alleged in the protest that the protestant is the licensee of Station KISD, Sioux Falls, South Dakota, where Station KIHO is located; that the two stations are in direct competition for advertising revenues; and that KISD has suffered and will suffer economic injury as a direct result of the assumption of control of Station KIHO by William F. Johns, Jr., we find the protestant to be a "party in interest" within the meaning of section 309 (c) of the Communications Act of 1934, as amended. Camden Radio, Inc. v. FCC, 94 U. S. App. D. C. 312, 220 F. 2d 191; In re General-Times Television Corporation, 13 Pike & Fischer RR 1049; FCC v. Sanders Brothers, 309 U. S. 470. We find further that the protestant has specified with particularity, within the meaning of section 309 (c), the facts upon which it relies and which it contends shows that a grant was improperly made or otherwise would not be in the public interest. Accordingly, the above-entitled application will be designated for an evidentiary hearing.

15. Issue "8" proposed by the protestant reads as follows:

8. To determine, in light of the evidence adduced under the foregoing issues, whether the licensee of station KIHO should be ordered to show cause why its license should not be revoked.

The Commission's authority to revoke a station license is based on the provisions of section 312 (a) of the Communications Act of 1934, as amended. Section 312 does not create rights in third parties but gives to the Commission complete discretion in the exercise of the powers granted thereunder. In re Gulf Television Company, 11 Pike & Fischer RR 460; In the Matter of Petersburg Television Corporation, 12 Pike & Fischer RR 1395. Issue "8" presented above is not a triable issue inasmuch as a revocation proceeding is a matter which is left solely to the discretion of the Commission. If the Commission finds grounds, after hearing, to institute revocation proceedings it may do so at that time. Accordingly, said issue is being deleted. As to the other issues, we are not adopting any of them, and the burden of proof thereon, both in proving the facts alleged and in demonstrating their materiality and relevancy will be on the protestants.

16. We turn now to the question of whether we should stay the effective date of the grant in question. Section 309 (c) presents two tests controlling the question when the Commission may authorize the applicant to utilize the facilities or authorization in question pending decision after hearing. The first is when the Commission can find that the "authorization involved is necessary to the maintenance or conduct of an existing service." The second test is when the Commission can affirmatively find "for reasons set forth in the decision that the public interest requires that the grant remain in effect." The Commission does not believe that the facts before it permit a finding under either of the above provisions. The inability of the transferor to resume control of the station has not been established. Therefore, cessation of the broadcast service of KIHO has not been shown to be inevitable under the circumstances. The change in the position of the parties was a voluntary one, effectuated with full knowledge that the grant remained subject to protest by any party in interest for a period of 30 days. Furthermore, a previous Commission action of October 30, 1957, granting without hearing an application (in which the same parties were involved) for transfer of control of Ware Broadcasting Corporation (former name of the present licensee) was protested and the Commission at that time ordered a stay of the effective date of the grant. The applicant was on notice that a change in the status quo might result in the conditions alleged in the opposition, i. e., disruption of the station's business and adverse effects upon the confidence of employees, advertisers and creditors. While we appreciate the extent to which private interests will be affected by a stay of our grant, we are of the view that such circumstances were not within the contemplation of Congress when it provided for a "public interest" finding by the Commission to support an avoidance of a stay.

17. In light of the above: *It is ordered*, That, pursuant to section 309 (c) of the Communications Act of 1934, as amended, effective immediately, the effective date of the grant of the above-entitled application is postponed pending final determination by the Commission in the hearing ordered below with respect to the protest herein; that said protest is granted to the extent provided for below and is denied in all other respects; and that the above-entitled application is designated for evidentiary hearing at the offices of the Commission in Washington, D. C., on the following issues:

(a) To determine whether William F. Johns, Jr., possesses the financial qualifications to be the transferee of control of station KIHO.

(b) To determine whether the programming proposed for station KIHO by the above-entitled application will serve the needs and interests of the residents of Sioux Falls and its environs.

(c) To determine whether control of station KIHO was transferred to or assumed by William F. Johns, Jr., in violation of section 310 (b) of the Communications Act of 1934, as amended.

(d) To determine whether control of station KIHO was exercised by William F. Johns, Jr., instead of by James A. Saunders, in violation of the Commission's order stated at paragraph 21, of its Memorandum Opinion and Order of December 18, 1957, in Docket 12272.

(e) To determine whether, under the control of William F. Johns, Jr., station KIHO has been operated with practices calculated to deceive or to defraud listeners and advertisers in Sioux Falls and its environs.

(f) To determine whether William F. Johns, Jr., possesses the character qualifications to be the transferee of control of station KIHO.

(g) To determine, in light of the evidence adduced under the foregoing issues, whether the grant of the above-entitled application serves the public interest, convenience and necessity.

The burden of proceeding with the introduction of evidence and the burden of proof as to each of the above issues shall be on the protestant.

18. *It is further ordered*, That, the protestant and the Chief, Broadcast Bureau are hereby made parties to the above-entitled proceedings and that:

(a) The hearing on the above issues is to commence at a time and place and before an Examiner to be specified in a subsequent order; and

(b) The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions; and

(c) The appearances by the parties intending to participate in the above hearing shall be filed not later than September 8, 1958.

19. *It is further ordered*, That, the transferred 51 percent of the stock of the licensee herein and control of Station KIHO be returned by William F. Johns, Jr., to James A. Saunders within 30 days from the date of this order.

Adopted: August 20, 1958.

Released: August 21, 1958.

[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 58-6039; Filed, Aug. 26, 1958; 8:54 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-15873]

TRICE PRODUCTION CO.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 20, 1958.

Trice Production Company (Respondent) on July 24, 1958, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 22, 1958.

Purchaser: United Gas Pipe Line Company.

Rate schedule designation: Supplement No. 1 to Respondent's FPC Gas Rate Schedule No. 5.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

The increased rate(s) and charge(s) so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until August 2, 1958, and thereafter to permit it to become effective as of that date: *Provided*, That within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until August 2, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate(s), charge(s), and classification(s) set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of ----------, To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G--, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ------ day of ------

By ----------

Attest:

---------- (Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

T. L. JAMES AND CO. INC. ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGES IN RATES, AND ALLOWING INCREASED RATES TO BECOME EFFECTIVE

AUGUST 20, 1958.

T. L. James and Company Inc. et al. (Respondent) on July 28, 1958, tendered for filing proposed changes in its presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, dated July 24, 1958.

Purchasers: (1) Arkansas Louisiana Gas Company. (2) Mississippi River Fuel Corporation. (3) Arkansas Louisiana Gas Company.

Rate schedule designation: (1) Supplement No. 3 to Respondent's FPC Gas Rate Schedule No. 1. (2) Supplement No. 4 to Respondent's FPC Gas Rate Schedule No. 4. (3) Supplement No. 3 to Respondent's FPC Gas Rate Schedule No. 5.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

J. I. ROBERTS

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 20, 1958.

J. I. Roberts (Respondent) on July 21, 1958, tendered for filing a proposed change in his presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 18, 1958.

Purchaser: Mississippi River Fuel Corporation.

Rate schedule designation: Supplement No. 5 to Respondent's FPC Gas Rate Schedule No. 1.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

NOTE: The remaining text of this document is identical with that of F. R. Doc. 58-6899, *supra*.

OIL PARTICIPATIONS INC.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 20, 1958.

Oil Participations Incorporated (Respondent) on July 21, 1958, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 17, 1958.

Purchaser: United Fuel Gas Company.

Rate schedule designation: Supplement No. 2 to Respondent's FPC Gas Rate Schedule No. 8.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

NOTE: The remaining text of this document is identical with that of F. R. Doc. 58-6899, *supra*.

By the Commission.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary*.

[Docket No. G-16026]

NATURAL GAS PIPELINE COMPANY OF AMERICA

ORDER SUSPENDING PROPOSED REVISED TARIFF SHEETS AND PROVIDING FOR HEARING

AUGUST 21, 1958.

Natural Gas Pipeline Company of America (Natural) on August 5, 1958, tendered for filing Sixth Revised Sheets Nos. 5 and 6, Fourth Revised Sheet No. 7, and Second Revised Sheet No. 27 to its FPC Gas Tariff, First Revised Volume No. 1, proposing that such revised tariff sheets become effective on August 25, 1958. Such revised tariff sheets would effect an increase in rates and charges of approximately $8,192,000 annually, or 11.7 percent, based on sales for the year ended April 30, 1958, as adjusted.[1] The proposed annual increase is in addition to the amounts being collected by Natural at the rate of about $1,747,200 annually since May 22, 1958, subject to an undertaking to assure refund of excess charges in the proceedings in Docket No. G-13950.[2] As yet, no hearing has been held in Docket No. G-13950.

The now proposed increased rates and charges are largely based upon a (1) claimed rate of return of 6¼ percent per year on a year-end rate base instead of an average rate base, with associated income taxes, and (2) claimed increased operating expenses.

More specifically, the major adjustments relied upon by Natural include, among others:

(a) Return of $11,228,040, based upon a claimed rate of return of 6¼ percent upon a year-end rate base of $179,648,635 (including Natural's own production and gasoline plants at depreciated original cost), which rate of return may not be fair and reasonable.

(b) Claimed income tax allowance of $5,015,662, of which Federal income taxes are estimated to be $4,982,776, and State income taxes $32,886 (0.66 percent of Federal income taxes), associated with the claimed rate of return of 6¼ percent.

(c) Use of a year-end rate base—December 31, 1958, or 8 months after the 12 months of actual operations ending April 30, 1958—instead of an average rate base, an adjustment which may not be proper, and the use of a test year purporting to show for the eight months succeeding April 1958, an anticipated increase of 51 percent in gross plant ($89,803,000), and an estimated increase in annual sales volume of but 16 percent for the same period.[3]

(d) A claimed allowance of $1,411,851 for working capital requirements which may not be proper.

The effect of all the adjustments proposed by Natural and expected to occur by December 31, 1958, is a claimed cost of service for the test year of $78,139,977, of which $77,802,678 is allocated to jurisdictional sales. Natural proposed to recoup $77,818,562 by increased jurisdictional rates and charges as follows:

	Present [1]	Proposed	Increase
Rate schedule CD-1:			
First block:			
Demand charge	$1.64	$2.68	$1.04
Commodity charge	.20	.20	----------
Second block:			
Demand charge	2.21	2.21	----------
Commodity charge	.20	.20	----------
Rate schedule I-1	.20	.20	----------

[1] Rates subject to inquiry in Docket No. G-13950.

The proposed rates retain the present dual rate structure first sanctioned by the Commission in Docket No. G-1697, 12 FPC 729. However, while increasing the overall level of the presently effective First Block of Rate Schedule CD-1, Natural does not propose any change in the presently effective 20 cents per Mcf commodity component of the rate. Apparently this is in keeping with Natural's view, first expressed in its tender in Docket No. G-13950, that 20 cents is as high as the commodity charge should be without, as put by it, jeopardizing the estimated sales. Thus, Natural proposes to recoup the increased costs by increasing solely the demand charge rather than adjusting the demand-commodity components of its rates in a manner consistent with claimed costs classified and allocated in accord with Commission practice, as sanctioned by the courts. It appears that Natural's predetermined limitation on the level of the commodity charge, in effect, places upon the demand side of the rate $5,335,500 (33 percent) of costs which would be attributed to the commodity component if Natural were to adhere to cost classification and allocation methods approved by the Commission and the courts and followed prior to Docket No. G-13950 by Natural.

By Second Revised Sheet No. 27 (superseding First Revised Sheet No. 27), entitled "Index of Size of First and Second Blocks of Daily Contract Quantity and Sequence of Deliveries", Natural proposes a tariff change which may not be proper. Therein Natural shows Second Block deliveries sandwiched between two separate parts of First Block deliveries (Block 1-a and Block 1-b). Apparently Block 1-a deliveries represent presently authorized First Block quantities; Block 1-b, proposed First Block quantity in excess of Block 1-a. No part of the Block 1-b billing demands shown by Natural on Second Revised Sheet No. 27 are presently authorized.

As a part of the rate-increase application Natural included agreements with all of its 14 customers who will be affected by the proposed increase respecting the level of the proposed rates. It appears that these agreements are predicated upon Natural (a) completing facilities to enable it to deliver an additional 100,000 Mcf per day as contemplated by the temporary authorization in Docket No. G-12399, (b) increasing its purchases from Texas Illinois Natural Gas Pipeline Company as proposed in Docket No. G-14829, (c) placing the proposed increased rates in effect "on or about" the date that conditions (a) and (b) are satisfied; and (d) adjusting the proposed rates to reflect any reduction due to future additional delivery obligations above the 100,000 Mcf per day which it contemplates in Docket No. G-12399. The agreements are subject to the further understanding that the proposed increased rates shall be subject to Natural's undertaking to make certain refunds and rate adjustments in accordance with the "Agreement of Natural Gas Pipeline Company of America relating to Future Refunds by Suppliers of Gas" as filed with the Commission on April 1, 1958. The agreement of Natural referred to is subject to inquiry, among other things, in Docket No. G-13950. It appears from the agreements that Natural sought its customers' consent in order to insure its ability to construct the additional facilities and remove the uncertainties created by Memphis Light, Gas and Water Division v. F. P. C., 250 F. 2d 402, certiorari granted, 355 U. S. 938.

The increased rates and charges proposed by Natural in Sixth Revised Sheets Nos. 5 and 6, Fourth Revised Sheet No. 7, and Second Revised Sheet No. 27 to its FPC Gas Tariff, First Revised Volume No. 1, have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, concerning the lawfulness of the rates, charges, classifications, and services provided in Natural's FPC Gas Tariff, First Revised Volume No. 1, as proposed to be amended by Sixth Revised Sheets Nos. 5 and 6, Fourth Revised Sheet No. 7, and Second Revised Sheet No. 27, and that said proposed revised tariff sheets be suspended as hereinafter ordered and the use thereof be deferred pending hearing and decision thereon, except as they may become effective as provided by the Natural Gas Act.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held at a time and place to be fixed by notice from the Secretary concerning the lawfulness of the rates, charges, classifications, and services, or any of them, subject to the jurisdiction of the Commission, provided in Natural's FPC Gas Tariff, First Revised Volume No. 1, as proposed to be amended by Sixth Revised Sheets Nos. 5 and 6, Fourth Revised Sheet No. 7, and Second Revised Sheet No. 27 tendered for filing on August 5, 1958.

(B) Pending such hearing and decision thereon, Sixth Revised Sheets Nos. 5 and 6, Fourth Revised Sheet No. 7, and Second Revised Sheet No. 27 to Natural's FPC Gas Tariff, First Revised Volume No. 1, be and the same are each hereby suspended and the use thereof deferred until January 25, 1959, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary*.

[F. R. Doc. 58-6903; Filed, Aug. 26, 1958; 8:47 a. m.]

[Docket No. G-13800]

J. M. HUBER CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 20, 1958.

Take notice that on November 25, 1957, as supplemented on March 3, 1958, and June 16, 1958, J. M. Huber Corporation (Applicant) filed in Docket No. G-13800 an application, pursuant to section 7 (c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the sale of natural gas produced in the West Panhandle Field, Hutchin-

[1] The tender was in substitution for a proposed rate increase of $8,349,500 annually submitted on July 25, 1958. The reduced rate reflects the withdrawal of a proposed rate increase tendered on July 25, 1958, by Texas Illinois Natural Gas Pipeline Company, a supplier of Natural. Natural requests that the effective date of August 25, 1958, proposed in the first rate-increase tender, be retained for the substitute rate-increase tender.

[2] The increased rates now contingently effective in Docket No. G-13950 will be effective only from May 22, 1958, until such time as the increased rates tendered on August 5, 1958, shall become effective. Previously, by order issued June 20, 1958, in Docket Nos. G-3123 and G-12157, the Commission approved a proposed settlement of those rate proceedings for the period March 2, 1956, through December 31, 1957, and prescribed refunds for the period. Also, the order provided, among other things, that Natural shall refund to its jurisdictional customers any revenues collected from such customers for the period January 1 through May 21, 1958, that shall exceed Natural's cost of service applicable thereto, including a 6 percent rate of return.

[3] This includes sales for the test period reflecting an additional capacity of 100,000 Mcf per day which Natural says is provided for under temporary authorization received by it in Docket No. G-12399. The company asserts that on or before January 1, 1959, it will complete those facilities and undertake the delivery of this 100,000 Mcf of gas per day.

[4] Natural serves three customers (City of Nebraska City, Ruth Fuel Company, and Wilson Gas Company) under rates not proposed to be changed.

son, Hansford, Carson, Moore and Sherman Counties, Texas, to Colorado Interstate Gas Company (Colorado Interstate), all as more fully set forth in the application and supplements, which are on file with the Commission and open to public inspection.

Proposed delieveries will be made at the outlet of Applicant's compressor station in Hutchinson County, through customary field facilities.

The basic gas sales contract between Applicant and Colorado Interstate is dated August 1, 1957, for an indefinite term, and contemplates a volume of 600,000 Mcf per month at an initial rate of 18 cents per Mcf at 14.65 psia until December 31, 1963, with periodic price increases of one cent per Mcf for each of the three subsequent five-year periods. A redetermination clause is applicable to the five-year period beginning January 1, 1979, and each five-year period thereafter. The rate schedule also contains a minimum take-or-pay-for provision operative from the date of initial delivery.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 21, 1958, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 "G" Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 26, 1958.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6904; Filed, Aug. 26, 1958; 8:47 a.m.]

[Docket No. G-16025]

RALPH R. GILSTER ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 20, 1958.

Ralph R. Gilster et al. (Respondent) on July 21 and 31, 1958 tendered for filing proposed changes in its presently filed rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing:

Description: Notices of Change, dated July 17 and 29, 1958.

Purchaser: Texas Eastern Transmission Corporation.

Rate schedule designation: Supplement Nos. 5 and 6 to Gilster's FPC Gas Rate Schedule No. 2.

Effective date: August 1, 1958 (effective date is the effective date proposed by Respondent).

The instant Notices of Change reflect in whole or in part the effect of the Louisiana State Gathering Tax which is stated to be effective as of August 1, 1958. The use of Supplement No. 1 to Gilster's FPC Gas Schedule No. 2 was deferred by Commission order issued April 1, 1957 at Docket No. G-11338.

The increased rates and charges proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement Nos. 5 and 6 to Gilster's FPC Gas Rate Schedule No. 2 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement Nos. 5 and 6 to Gilster's FPC Gas Rate Schedule No. 2.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until the date on which Supplement No. 1 to Gilster's FPC Gas Rate Schedule No. 2 is made effective in the manner prescribed by the Natural Gas Act, or until August 2, 1958, whichever is later.

(C) Neither the supplements hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6905; Filed, Aug. 26, 1958; 8:47 a. m.]

[Docket No. G-15342]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 20, 1958.

Take notice that on June 23, 1958, Cities Service Gas Company (Applicant) filed in Docket No. G-15342 an application, pursuant to section 7 (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation during the calendar year 1958 of certain minor, routine natural gas facilities for making direct industrial sales, either temporary or permanent, along Applicant's pipeline system traversing Texas, Oklahoma, Kansas, Nebraska, and Missouri, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to limit the facilities to a total expenditure of $30,000, with no single project to cost more than $5,000.

The temporary customers will be predominantly road building contractors, with not over twenty such temporary sales expected during 1958, requiring about 35,000 Mcf of natural gas per average road project.

The permanent industrial customers, of which not over thirty new ones are expected during 1958, will use the gas mostly for processes in factories, power for irrigation or space heating of various buildings, requiring an estimated annual average of about 49,300 Mcf per customer, based on actual past experience.

The estimated total natural gas involved under this application for the anticipated maximum of 50 customers is 2,180,000 Mcf, nearly all of which will be on an interruptible basis.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 25, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 "G" Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 17, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Project No. 2114]

PUBLIC UTILITY DISTRICT NO. 2 OF GRANT COUNTY, WASHINGTON

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

AUGUST 20, 1958.

Public notice is hereby given that Public Utility District No. 2 of Grant County, Washington, of Ephrata, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for amendment of the license for water-power Project No. 2114, located on the Columbia River in Chelan, Douglas, Kittitas, Grant, Yakima, and Benton Counties, Washington, to revise the clearing requirements for the reservoir areas of the project so that all sides and margins of each reservoir would be cleared above the horizontal plane established at an elevation 10 feet below the normal low water line of the reservoir and below the annual flood line of such reservoir, where the annual flood is represented by a flow of 200,000 cubic feet per second.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is September 25, 1958. The application is on file with the Commission for inspection.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6910; Filed, Aug. 26, 1958; 8:48 a. m.]

[Docket No. G-15280]

CARTER-JONES DRILLING CO., INC.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 20, 1958.

Take notice that Carter-Jones Drilling Company, Inc. (Applicant), a Texas corporation with its principal place of business at Kilgore, Texas, filed on June 12, 1958, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to sell natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully described in the application which is on file with the Commission and open to public inspection.

Applicant is operator of the Torrans Gas Unit in the Woodlawn Field, Harrison and Marion Counties, Texas, and proposes to sell natural gas produced therefrom to Texas Eastern Transmission Corporation for transportation in interstate commerce for resale. Applicant lists W. M. Plaster, Smith R. Reynolds and A. M. Rozeman as nonoperators having an interest in the gas unit. The gas sale agreement is on file with the Commission as Applicant's FPC Gas Rate Schedule No. 11 and Supplements Nos. 1 and 2 thereto.

This matter should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 24, 1958, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 17, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6909; Filed, Aug. 26, 1958; 8:48 a. m.]

[Docket No. E-6823]

LUZ Y FUERZA DEL NORTE, S. A. AND CENTRAL POWER AND LIGHT CO.

NOTICE OF APPLICATION

MAY 26, 1958.

Take notice that on May 19, 1958, Luz y Fuerza del Norte, S. A. (Luz y Fuerza), incorporated under the laws of the Republic of Mexico, with its principal place of business at Reynosa, Tamaulipas, Mexico, and Central Power and Light Company (Central), incorporated under the laws of the State of Texas, with its principal place of business at Corpus Christi, Texas, filed a joint application for authorization, pursuant to section 202 (e) of the Federal Power Act, to transmit electric energy from the United States to Mexico, Docket No. E-6823.

Luz y Fuerza proposes to purchase from B & P Bridge Company of Weslaco (Bridge Company), a Texas corporation with its principal place of business at Progreso, Texas, certain facilities at the international border between the United States and Mexico covered by a Permit signed by the Chairman of the Commission on March 11, 1954, and accepted by Bridge Company on April 5, 1954, Docket No. IT-5375, and proposes to transmit the energy over such facilities. Luz y Fuerza filed on May 19, 1958, an application, pursuant to Executive Order 10485, dated September 3, 1953, for permission to operate and maintain these facilities, Docket No. E-6824. This application states that Bridge Company proposes to surrender its Permit upon the granting of a Permit to Luz y Fuerza.

By order issued May 3, 1954, in Docket No. IT-5375, the Commission authorized Bridge Company to transmit electric energy from the United States to Mexico in an amount not in excess of 219,000 kilowatt-hours per year at a rate not to exceed 50 kilowatts over the facilities specified in the aforementioned Permit. The order recited that the energy to be exported would be obtained from Central.

Luz y Fuerza seeks to increase to 12,000,000 kwh the maximum amount and to 2,500 kw the maximum rate of electric energy which may be exported annually over the above-mentioned facilities. The energy to be exported would be used for distribution in the towns of Nuevo Progreso and Canales, State of Tamaulipas, Mexico, and vicinity. Central will continue to be the supplier of the exported energy.

Any person desiring to be heard or to make any protest with reference to the aforementioned application filed pursuant to section 202 (e) of the Federal Power Act should, on or before Sept. 12, 1958, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6924; Filed, Aug. 26, 1958; 8:52 a. m.]

[Project No. 2088]

OROVILLE-WYANDOTTE IRRIGATION DISTRICT

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

AUGUST 21, 1958.

Public notice is hereby given that Oroville-Wyandotte Irrigation District, of Oroville, California, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for amendment of the license for water-power Project No. 2088, known as the South Fork Project and to be located on the South Fork of Feather River and its tributary Lost Creek, and Slate Creek, a tributary of the North Fork of Yuba River, in Butte, Plumas, Sierra, and Yuba Counties, California, and having its general center about 25 miles easterly from Oroville, to revise the presently licensed but unconstructed project so that it shall consist of (1) Grass Valley Dam and Reservoir, consisting of a rock-fill dam about 200 feet high across South Fork of Feather River, creating a reservoir with gross storage capacity of 91,300 acre-feet at elevation 5,045; (2) Slate Creek Dam and Reservoir, consisting of a concrete arch dam about 130 feet high across Slate Creek, creating a reservoir with capacity of 5,600 acre-feet at elevation 3,816; (3) Sly Creek Dam and Reservoir, consisting of a rock-fill dam about 265 feet high across

Lost Creek, creating a reservoir with storage capacity of 59,000 acre-feet at elevation 3,520; (4) Lost Creek Dam and Reservoir, consisting of an existing concrete arch dam about 100 feet high across Lost Creek, creating a reservoir which has a storage capacity of 5,800 acre-feet at elevation 3,282; (5) two diversion tunnels about 12,700 feet and 14,350 feet long extending from Slate Creek and the South Fork of Feather River, respectively, each terminating near the upper end of Sly Creek Reservoir and the diversions to be effected by low concrete arch dams 53 feet and 45 feet high, respectively; (6) Forbestown Diversion Dam and Reservoir, consisting of a concrete arch diversion dam about 85 feet high across South Fork of Feather River, to allow maximum forebay regulation to elevation 1,783 for the proposed Forbestown Powerhouse, the diversion dam to be located about 1,980 feet downstream from the proposed Woodleaf Powerhouse; (7) Ponderosa Dam and Forbestown Afterbay, consisting of a concrete arch dam about 130 feet high across South Fork of Feather River below the Forbestown Powerhouse, with spillway crest at elevation 960, and forming a reservoir with an effective pondage capacity of about 1,748 acre-feet; (8) Woodleaf Powerhouse, on South Fork of Feather River, and to be served by a pressure tunnel extending 18,400 feet from Lost Creek Reservoir to a portal and thence by a single penstock 3,630 feet long, the proposed powerhouse to contain one impulse turbine rated at 68,000 horsepower and direct-connected to a generator rated at 57,000 kva and 49,000 kw at 86 percent power factor; (9) Forbestown Powerhouse, on South Fork of Feather River, and to be served by a pressure tunnel extending 18,290 feet to a portal and thence by a single penstock 1,270 feet long, the proposed powerhouse to contain a single 37,500 horsepower turbine direct-connected to a generator rated at 30,000 kva and 27,000 kw at 90 percent power factor; and (10) a substation and appurtenant facilities at each of the proposed powerhouses. No transmission lines are contemplated for inclusion in the project.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is October 6, 1958. The application is on file with the Commission for public inspection.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6925; Filed, Aug. 26, 1958; 8:52 a. m.]

[Docket No. G-13659]

BOARD OF MAYOR AND ALDERMAN OF MASON, TENNESSEE

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 21, 1958.

Take notice that the Board of Mayor and Alderman of Mason, in the State of Tennessee (Applicant), a body politic and corporate, filed on November 6, 1957, an application for an order under section 7 (a) of the Natural Gas Act directing Trunkline Gas Company (Trunkline), to establish physical connection of its transportation facilities with the proposed facilities of Applicant and to sell natural gas to Applicant for resale to the public in the town of Mason, Tennessee and its environs, all as more fully represented in the application, which is on file with the Commission and open for public inspection.

There are no gas distribution facilities presently in existence in Mason. Applicant proposes to construct and operate such a system and a ½ mile 3-inch pipeline connecting its system to Trunkline's pipeline in Tipton County, Tennessee.

The estimated cost of the facilities required by Applicant to receive and distribute natural gas in Mason is $55,000, which amount is to be acquired by the sale of municipal revenue bonds at 5½ percent.

The estimated gas requirements of Applicant are as follows:

Year	Volumes in Mcf	
	Peak Day	Annual
1958	116	8,500
1959	153	11,200
1960	185	13,500
1961	215	15,700
1962	222	17,860

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 28, 1958, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 16, 1958.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6926; Filed, Aug. 26, 1958; 8:52 a. m.]

SECURITIES AND EXCHANGE COMMISSION

D T M CORP.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 20, 1958.

In the matter of D T M Corporation (Formerly Diamond T Motor Car Company), Common Stock, File No. 1-2822.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

In the opinion of the Exchange, the issue is no longer suitable for dealing and listing on the Exchange in that the principal operating assets of the Company have been sold and the Company has ceased to be an operating Company.

Upon receipt of a request, on or before September 5, 1958, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 58-6916; Filed, Aug. 26, 1958; 8:50 a. m.]

DAVEGA STORES CORP.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 20, 1958.

In the matter of Davega Stores Corporation, Common Stock, 5 Percent Preferred Stock, File No. 1-3281.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

In the opinion of the Exchange these two issues are no longer suitable for dealing and listing on the Exchange because the aggregate market value of the Common Stock is less than $2,000,000 and the average net earnings of the Company, after taxes, for the last three years have been less than $200,000. Both stocks have become listed and registered on the American Stock Exchange.

Upon receipt of a request, on or before September 5, 1958, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3724]

INDIANA & MICHIGAN ELECTRIC CO.

NOTICE OF PROPOSED ISSUE AND SALE OF SHORT-TERM NOTES TO BANKS

AUGUST 20, 1958.

Notice is hereby given that Indiana & Michigan Electric Company ("Indiana"), an electric utility subsidiary of American Electric Power Company, Inc., a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating section 6 (b) thereof as applicable to the proposed transactions, which are summarized as follows:

Pursuant to loan agreements with a group of ten commercial banks, Indiana proposes to issue and sell to them its unsecurred promissory notes in the aggregate maximum amount of $21,000,000 outstanding at any one time, to evidence borrowings of like amount. The names of the banks and their maximum participations under the loan agreements are as follows:

Irving Trust Co.	New York, N. Y.	$3,150,000
Mellon National Bank & Trust Co.	Pittsburgh, Pa.	3,150,000
First National City Bank of New York.	New York, N. Y.	3,150,000
Manufacturers Trust Co.	do	2,730,000
Guaranty Trust Company of New York.	do	2,100,000
Continental Illinois National Bank and Trust Co. of Chicago.	Chicago, Ill.	2,100,000
Bankers Trust Co.	New York, N. Y.	1,470,000
The Hanover Bank	do	1,470,000
Chemical Corn Exchange Bank.	do	1,050,000
The Northern Trust Co.	Chicago, Ill.	630,000
Total		21,000,000

The notes will be dated when issued, will mature not more than 270 days after the date of issuance, and will bear interest at the prime rate (presently 3½ percent per annum). The notes may be prepaid from time to time, in whole or in part, without premium. No notes will be issued hereunder after Indiana's next permanent financing, from the proceeds of which the notes will be retired.

Of the $21,000,000 proposed to be borrowed, Indiana has already borrowed $2,500,000 and states that it may borrow $10,100,000 more without the approval of the Commission by virtue of the exemption provided in the first sentence of section 6 (b) of the act. Approval is requested for the borrowings in excess of such exemption in amounts sufficient to enable Indiana to issue up to $21,000,000 of notes, at any one time outstanding.

The proceeds from the notes will be used by Indiana to pay part of the costs of its construction program which, it is estimated, will amount to $33,300,000 during the last six months of 1958. It is estimated that cash generated internally will be sufficient to pay approximately 20 percent of the construction costs.

Indiana expects that its next permanent financing will be completed in November 1958, and that it will consist of the sale of senior and equity securities, or a capital contribution, in such amounts and proportions as will maintain Indiana's capital structure on a sound basis.

No finders' fees or commissions will be paid. It is estimated that Indiana's expenses will not exceed $1,000, exclusive of issuance taxes which are to be paid to the State of Indiana.

It is stated that the issue and sale of the short-term notes will be expressly authorized by the Public Service Commission of Indiana, in which State the applicant is organized and doing business.

Notice is further given that any interested person may, not later than September 4, 1958 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application, as filed or as amended, may be granted as provided in Rule 23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules 20 (a) and 100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 58-6918; Filed, Aug. 26, 1958; 8:51 a. m.]

[File No. 70-3723]

OHIO POWER CO.

NOTICE OF PROPOSED ISSUE AND SALE OF SHORT-TERM NOTES TO BANKS

AUGUST 20, 1958.

Notice is hereby given that Ohio Power Company ("Ohio"), an electric utility subsidiary of American Electric Power Company, Inc., a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 and 7 thereof as applicable to the proposed transactions, which are summarized as follows:

Pursuant to loan agreements with a group of ten commercial banks, Ohio proposes to issue and sell to them its unsecured promissory notes in aggregate amount not exceeding $40,000,000 to evidence borrowings of like amount. The names of the banks and their maximum participations under the loan agreements are as follows:

Irving Trust Co.	New York, N. Y.	$6,000,000
Mellon National Bank & Trust Co.	Pittsburgh, Pa.	6,000,000
First National City Bank of New York.	New York, N. Y.	6,000,000
Manufacturers Trust Co.	do	5,200,000
Guaranty Trust Company of New York.	do	4,000,000
Continental Illinois National Bank and Trust Co.	Chicago, Ill.	4,000,000
Bankers Trust Company.	New York, N. Y.	2,800,000
The Hanover Bank	do	2,800,000
Chemical Corn Exchange Bank.	do	2,000,000
The Northern Trust Co.	Chicago, Ill.	1,200,000
Total		40,000,000

The notes will be dated in each case when the borrowing is made, will mature not more than 270 days after the date of issuance, and will bear interest at the prime rate (presently 3½ percent per annum). The notes may be prepaid from time to time, in whole or in part, without premium. No notes will be issued hereunder after June 30, 1959.

Of the $40,000,000 proposed to be borrowed, Ohio has already borrowed $13,000,000 and states that it may borrow $8,700,000 more without approval of the Commission, by virtue of the exemption provided in the first sentence of section 6 (b) of the act. Approval is requested for the borrowings in excess of such exemption in amounts sufficient to enable Ohio to issue up to $40,000,000 of notes, at any one time outstanding.

The proceeds from the notes will be used by Ohio to pay part of the costs of its construction program which, it is estimated, will amount to $22,000,000 for the last six months of 1958 and $30,000,000 for the first six months of 1959. It is estimated that cash generated internally will be sufficient to pay approximately 40 percent of the construction costs.

Ohio expects to complete its next permanent financing prior to June 30, 1959, and to pay off all of the notes from the proceeds of such financing which will consist of senior and equity securities, or a capital contribution, in such proportions as will maintain Ohio's capital structure on a sound basis. Upon the consummation of such permanent financing, the authorization hereunder shall cease.

No finders' fees or commissions will be paid. It is estimated that Ohio's expenses will not exceed $1,000.

It is stated that no other regulatory commission has jurisdiction in the matter.

Notice is further given that any interested person may, not later than September 4, 1958 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the declaration as filed or as amended may be permitted to become effective as provided in Rule 23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules 20 (a) and 100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice 49]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 22, 1958.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with no service at intermediate points have been filed with the Interstate Commerce Commission, under the Commission's Special Rules Revised, 1957 (49 CFR 211.1 (c) (8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1 (d) (4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1 (e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 67646 (Sub-No. 2) (Deviation No. 2), HALL'S MOTOR TRANSIT COMPANY, P. O. Box 738, Sunbury, Pa., filed August 11, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Buffalo, N. Y., and New York, N. Y., as follows: from Buffalo over the New York State Thruway and access routes to New York City and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over the following pertinent routes: Between Buffalo, N. Y., and Harrisburg, Pa., as follows: from Buffalo over New York Highway 33 to Batavia, N. Y., thence over New York Highway 63 to Wayland, N. Y., thence over U. S. Highway 15 to Williamsport, Pa., thence over Pennsylvania Highway 14 to Northumberland, Pa., thence over U. S. Highway 11 to Harrisburg (also, from Harrisburg to Greigsville, N. Y., as specified, thence over New York Highway 36 to Caledonia, N. Y., and thence over New York Highway 5 to Buffalo; also from Harrisburg to Geneseo as specified, thence over New York Highway 39 to Avon, N. Y., thence over New York Highway 5 to Caledonia, N. Y., and thence Buffalo; also from Sunbury, Pa., to Williamsport, Pa., over U. S. Highway 15); between Wayland, N. Y., and Rochester, N. Y., as follows: from Wayland over New York Highway 15A to Rochester; between Trout Run, Pa., and Syracuse, N. Y., as follows: From Trout Run over Pennsylvania Highway 14 to the Pennsylvania-New York State line, thence over New York Highway 14 to Horseheads, N. Y., via Elmira, thence over New York Highway 13 to Cortland, N. Y., and thence over U. S. Highway 11 to Syracuse (also over New York Highway 14 to Geneva, N. Y., and thence over New York Highway 5 to Syracuse; also over U. S. Highway 15 to Painted Post, N. Y., thence over U. S. Highway 17 to Binghamton, N. Y., thence over U. S. Highway 11 to Syracuse); between Endicott, N. Y., and Scranton, Pa., as follows: From Endicott over New York Highway 17H to junction U. S. Highway 11, thence over U. S. Highway 11 to Scranton; between Harrisburg, Pa., and Scranton, Pa., as follows: from Harrisburg over U. S. Highway 11 to Scranton; between Scranton, Pa., and Mansfield, Pa., as follows: From Scranton over U. S. Highway 6 to Mansfield; between Buffalo, N. Y., and Geneva, N. Y., as follows: from Buffalo over New York Highway 130 to junction U. S. Highway 20, thence over U. S. Highway 20 to East Avon, N. Y., thence over U. S. Highway 15 to Rochester, N. Y., thence over New York Highway 96 to junction U. S. Highway 332, thence over U. S. Highway 332 to Canadaigua, N. Y., and thence over New York Highway 5 to Geneva; between Sunbury, Pa., and New York, N. Y., as follows: from Sunbury over U. S. Highway 122 to Hamburg, Pa., thence over U. S. Highway 22 to Newark, N. Y., thence over U. S. Highway 1 to New York City; (also between Phillipsburg, N. J., and Paterson, N. J., as follows: From Phillipsburg over New Jersey Highway S24, to junction New Jersey Highway 24, thence over New Jersey Highway 24 to the New Jersey-New York State line, thence over New York Highway 46 to junction New York Highway S6, and thence over New York Highway S6 to Paterson); between Harrisburg, Pa., and Newark, N. J., as follows: From Harrisburg over U. S. Highway 22 to Newark.

No. MC 107500 (Deviation No. 1), BURLINGTON TRUCK LINES, INC., 547 West Jackson Boulevard, Chicago 6, Ill., filed August 15, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Fairfield, Iowa, and junction Iowa Highway 149 and U. S. Highway 63, as follows: From Fairfield over Iowa Highway 1 to junction Iowa Highway 78, thence over Iowa Highway 78 to junction Iowa Highway 149, thence over Iowa Highway 149 to junction U. S. Highway 63 and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over the following pertinent routes: Between Chicago, Ill., and Omaha, Nebr., as follows: From Chicago over U. S. Highway 34 to junction Illinois Highway 65, thence over Illinois Highway 65 to Aurora, Ill., thence over Illinois Highway 31 to junction U. S. Highway 34 (also from junction U. S. Highway 34 and Illinois Highway 65 over U. S. Highway 34 to junction Illinois Highway 31), thence over U. S. Highway 34 to Glenwood, Iowa, thence over U. S. Highway 275 to junction Iowa Highway 375, thence over Iowa Highway 375 to Council Bluffs, Iowa, and thence over U. S. Highway 6 to Omaha; and between Oskaloosa, Iowa, and Charlton, Iowa, as follows: From Oskaloosa over U. S. Highway 63 to Bloomfield, Iowa, thence over Iowa Highway 2 to Corydon, Iowa, and thence over Iowa Highway 14 to Charlton.

MOTOR CARRIERS OF PASSENGERS

No. MC 75289 (Deviation No. 1), D. C. TRANSIT SYSTEM, INC., 36th and M Streets NW., Washington 7, D. C., filed August 13, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *passengers* over six deviation routes, as follows: (a) Between Washington, D. C., and Bowie Race Track, Md., as follows: From Washington over the Baltimore-Washington Parkway to junction U. S. Highway 50, thence over U. S. Highway 50 to Maryland Highway 703, thence over Maryland Highway 703 to Bowie Race Track; (b) between Washington, D. C., and Laurel Race Track, Md., as follows: From Washington over the Baltimore-Washington Parkway to junction Maryland Highway 602, thence over Maryland Highway 602 to junction unnumbered road, thence over unnumbered road to Laurel Race Track; (c) Between Washington, D. C., and Pimlico Race Track, in Baltimore, Md., as follows: From Washington over the Baltimore-Washington Parkway to Baltimore, Md., thence over city streets to Pimlico Race Track; (d) between Washington, D. C., and Race Track in Timonium, Md., as follows: From Washington over Baltimore-Washington Parkway to Baltimore, Md., thence over city streets to junction Maryland Highway 25, thence over Maryland Highway 25 to junction Maryland Highway 134, thence over Maryland Highway 134 to junction U. S. Highway 111, thence over U. S. Highway 111 to Timonium; (e) between Washington, D. C., and the Race Track at Bel Air, Md., as follows: From Washington over the Baltimore-Washington Parkway to Baltimore Harbor Tunnel Expressway, thence over Baltimore Harbor Tunnel Expressway to junction U. S. Highway 40, thence over U. S. Highway 40 to junction Maryland Highway 152, thence over Maryland Highway 152 to junction U. S. Highway 1, thence over U. S. Highway 1 to the Race Track at Bel Air; and (f) between Washington, D. C., and Laurel Raceway near Laurel, Md., as follows: From Washington over the Baltimore-Washington Parkway to junction Maryland Highway 602, thence over Maryland Highway 602 to junction U. S. Highway 1, thence over U. S. Highway 1 to Laurel Raceway; and return over the same routes, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over the following pertinent routes: from Washington, D. C., over U. S. Highway 50 to Collington, Md., thence over unnumbered highway to Bowie Race Track; from Washington, D. C. over U. S. Highway 1 to Laurel, Md.; from Washington, D. C., over U. S. Highway 1 to Baltimore, Md., thence over city streets to Pimlico Race Track; from Washington, D. C., over U. S. Highway 1 to Baltimore, Md., thence over U. S. Highway 111 to Timonium, Md.; from Washington over U. S. Highway 1 to the Race Track at Bel Air, Md.; from Washington, D. C., over U. S. Highway 1 or Alternate U. S. Highway 1 to Hyattsville, Md., thence over U. S. Highway 1 to the entrance to the Laurel Raceway north of Laurel, Md.; and return over the same routes.

By the Commission.

[Notice 231]

MOTOR CARRIER APPLICATIONS

AUGUST 22, 1958.

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers and by brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other procedural matters with respect thereto (49 CFR 1.241).

All hearings will be called at 9:30 o'clock a. m., United States standard time (or 9:30 o'clock a. m., local daylight saving time), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 730 (Sub No. 124), filed August 15, 1958. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., a Corporation, 1417 Clay Street, Oakland, Calif. Applicant's representative: Earl J. Brooks, P. I. E. Building, 14th and Clay Streets, Oakland 4, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities, including Class A and B explosives* and *commodities requiring special equipment*, but excluding articles of unusual value, livestock, household goods as defined by the Commission, and commodities in bulk, serving the Inter-Continental Ballistics Missiles testing and launching sites, near Cheyenne, Wyo., and access roads thereto and supply points therefor, and points within fifty (50) miles of Cheyenne, Wyo., as off-route points in connection with applicant's authorized regular route operations to and from Cheyenne. Applicant is authorized to conduct operations in Arizona, California, Colorado, Idaho, Illinois, Kansas, Missouri, Montana, Nevada, Oregon, Utah, Washington, and Wyoming.

HEARING: September 26, 1958, at the New Customs House, Denver, Colo., before Joint Board No. 198, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 1759 (Sub No. 11), filed June 20, 1958. Applicant: FROEHLICH TRANSPORTATION CO., INC., 31 Victory Street, Stamford, Conn. Applicant's attorney: Arthur J. Piken, 160-16 Jamaica Avenue, Jamaica 32, N. Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery goods*, fresh or frozen, (1) from Norwalk, Conn., points in Westchester County, N. Y., and New York, N. Y., to Pittsfield, Mass., and points within 25 miles of Pittsfield, including Pittsfield; and (2) from Norwalk, Conn., to points in Albany, Broome, Chenango, Columbia, Delaware, Dutchess, Fulton, Greene, Montgomery, Nassau, Oneida, Orange, Otsego, Putnam, Rensselaer, Rockland, Saratoga, Schenectady, Schoharie, Suffolk, Sullivan, Ulster, Warren, Washington, and Westchester Counties, N. Y., and New York, N. Y., and stale *bakery goods* and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodities on return. Applicant is authorized to conduct operations in Connecticut, New Jersey, and New York.

HEARING: October 1, 1958, at 346 Broadway, New York, N. Y., before Examiner James I. Carr.

No. MC 4405 (Sub No. 306), filed August 8, 1958. Applicant: DEALERS TRANSIT, INC., 12601 South Torrence Avenue, Chicago 33, Ill. Applicant's attorney: James W. Wrape, Sterick Building, Memphis, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trucks*, in initial movements, in truckaway and driveaway service, from the site of the K-W Dart Truck Company, Kansas City, Mo., to points in the United States. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 10, 1958, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Frank R. Saltzman.

No. MC 11185 (Sub No. 110), filed July 8, 1958. Applicant: J-T TRANSPORT COMPANY, INC., 3501 Manchester Trafficway, Kansas City, Mo. Applicant's attorney: James W. Wrape, Sterick Building, Memphis 3, Tenn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Aircraft assemblies* requiring special handling and equipment because of their delicate and fragile nature, from Columbus, Ohio, to Grand Prairie, Tex. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 10, 1958, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Frank R. Saltzman.

No. MC 15289 (Sub No. 4), filed June 27, 1958. Applicant: BLUE ARROW EXPRESS, INC., 606 West 47th Street, New York 36, N. Y. Applicant's attorney: Daniel G. Levin, Bar Building, Ossining, N. Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Floor coverings* and *materials and supplies* used in the manufacture of floor coverings, between New London, Conn., on the one hand, and, on the other, New York, N. Y., and points in New York and New Jersey, within 70 miles of Columbus Circle, New York, N. Y. Applicant is authorized to conduct operations in New Jersey and New York.

HEARING: October 2, 1958, at 346 Broadway, New York, N. Y., before Examiner James I. Carr.

No. MC 17683 (Sub No. 20), filed June 12, 1958. Applicant: DAVIS TRANSPORT, INC., 73 Emerald Street, Keene, N. H. Applicant's attorney: S. Harrison Kahn, 726-34 Investment Building, Washington, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk and in bags, palletized or otherwise, *cement products*, and *empty containers, pallets, or other such incidental facilities* used in transporting cement or cement products, between Glens Falls, N. Y., on the one hand, and, on the other, points in Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine. Applicant is authorized to conduct operations in New Hampshire, Vermont, Massachusetts, and Rhode Island.

HEARING: October 13, 1958, at the New Hampshire Public Service Commission, Concord, N. H., before Examiner James I. Carr.

No. MC 20783 (Sub No. 34), filed July 2, 1958. Applicant: TOMPKINS MOTOR LINES, INC., 628 East Adams Street, Springfield, Ill. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asbestos cement conduit or pipe containing asbestos fibre and asbestos couplings and rubber washers* when moving at the same time and on the same vehicle with the conduit or pipe, from St. Louis, Mo., to points in Tennessee, North Carolina, South Carolina, Alabama, Georgia, and Florida, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application on return. Applicant is authorized to conduct regular route operations in Georgia, North Carolina, and Tennessee, and irregular route operations in Alabama, Florida, Georgia,

North Carolina, South Carolina, and Tennessee.

HEARING: October 20, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Examiner Frank R. Saltzman.

No. MC 23976 (Sub No. 9), filed June 9, 1958. Applicant: BEND-PORTLAND TRUCK SERVICE, INC., 1321 Southeast Water Avenue, Portland 14, Oregon. Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: *Explosives and other dangerous articles* (1) between Portland, Oreg., and Alturas, Calif., from Portland over U. S. Highway 26 to the junction of U. S. Highway 97 near Madras, Oreg., thence over U. S. Highway 97 to Bend, Oreg., thence over U. S. Highway 97 to the junction of Oregon Highway 31, thence over Oregon Highway 31 to the junction of U. S. Highway 395 at or near Valley Falls, Oreg., thence over U. S. Highway 395 to Alturas, and return over the same route; (2) between Bend, Oreg., and Burns, Oreg., over U. S. Highway 20, serving all intermediate and off route points in Modoc County, Calif., and those in Klamath, Lake, Deschutes, Jefferson, Crook, and Harney Counties, Oreg. Applicant is authorized to conduct operations in Oregon.

HEARING: October 24, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 11.

No. MC 23976 (Sub No. 10), filed June 9, 1958. Applicant: BEND-PORTLAND TRUCK SERVICE, INC., 1321 Southeast Water Avenue, Portland 14, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Class A and B explosives*, (1) between Bend, Oreg., and Sisters, Oreg., over U. S. Highway 20; (2) between Redmond, Oreg., and Sisters, Oreg., over U. S. Highway 126, serving no intermediate points. Applicant is authorized to conduct operations in Oregon.

HEARING: October 23, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 172.

No. MC 26373 (Sub No. 3), filed May 16, 1958. Applicant: VANWAYS, INC., Sixth and Albany Streets, P. O. Box 48, Caldwell, Idaho. Applicant's attorney: William B. Adams, Pacific Building, Portland 4, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Boise, Idaho, and Baker, Oreg., over U. S. Highway 30, serving all intermediate points, and the off-route points of Homedale, Parma, Payette, Weiser, Star, Eagle, Middleton, Wilder and Marsing, Idaho, and Nyssa, Oreg. Applicant is authorized to conduct irregular route operations in Idaho, Oregon, and Washington:

NOTE: Applicant states this is an application to convert an irregular route operation to a regular route operation; that it presently has irregular route authority under Docket No. MC 26373 to transport the subject commodities between all points in the counties traversed by the proposed route, namely the Idaho Counties of Ada, Canyon, Gem, and Payette, and the Oregon Counties of Malheur and Baker. Applicant further states if the requested authority is granted, it would coincidentally request cancellation of its irregular route authority between Boise and Baker and the pertinent intermediate and off-route point as presently authorized in Docket No. MC 26373.

HEARING: October 6, 1958, at the Idaho Public Utilities Commission, State House, Boise, Idaho, before Joint Board No. 6.

No. MC 30200 (Sub No. 3), filed May 12, 1958. Applicant: GEORGE OLTMAN AND SUE OLTMAN, doing business as OLTMAN TRUCK SERVICE, P. O. Box 511, Burns, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in Payette and Ada Counties, Idaho, to points in Harney County, Oreg. Applicant is authorized to conduct operations in California, Idaho, Nevada, Oregon, and Washington.

HEARING: October 20, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 6.

No. MC 31600 (Sub No. 454), filed August 8, 1958. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Sizing*, in bulk, from Chicopee, Mass., to Sunbury, Pa., and *empty containers or other such incidental facilities* used in transporting sizing, on return. Applicant is authorized to conduct operations in Rhode Island, Massachusetts, Connecticut, New York, New Jersey, New Hampshire, Maine, Pennsylvania, Delaware, Vermont, Kentucky, Ohio, Illinois, Maryland, West Virginia, South Carolina, North Carolina, Virginia, Indiana, and Michigan.

HEARING: September 30, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner C. Evans Brooks.

No. MC 35628 (Sub No. 219), filed August 13, 1958. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a Corporation, 134 Grandville SW., Grand Rapids, Mich. Applicant's attorney: Leonard D. Verdier, Jr., 300 Michigan Trust Building, Grand Rapids 2, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except Class A and B explosives, dangerous inflammables, household goods as defined by the Commission, and commodities in bulk (except scrap metal in bulk), serving the site of the Forest Products Division plant of Olin Mathieson Chemical Corporation located about six miles southeast of Joliet, Ill., as an off-route point in connection with applicant's authorized regular route operations between Chicago, Ill., and St. Louis, Mo., over U. S. Highway 66 and Alternate U. S. Highway 66. Applicant is authorized to conduct operations in Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, Ohio, Pennsylvania, Wisconsin, West Virginia, and the District of Columbia.

HEARING: September 11, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Joint Board No. 149.

No. MC 36517 (Sub No. 5), filed June 9, 1958. Applicant: JAMES J. KEATING, INC., 58 State Street, Perth Amboy, N. J. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. Authority sought to operate as a *Common carrier*, by motor vehicle, over irregular routes, transporting: *Salt cake* (crude sulphate of soda) in bulk, in hopper-type vehicles, from Havre de Grace, Md., to Jersey City, N. J., and *returned or refused shipments* of the above-described commodity on return. Applicant is authorized to conduct operations in Connecticut, Delaware, Maryland, New Jersey, New York, Pennsylvania, and the District of Columbia.

HEARING: September 30, 1958, at 346 Broadway, New York, N. Y., before Examiner James I. Carr.

No. MC 41849 (Sub No. 7), filed July 21, 1958. Applicant: KEIGHTLEY BROS., INC., 1601 South 39th Street, St. Louis, Mo. Applicant's attorney: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis 1, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry bulk commodities*, in dump trucks, between St. Louis, Mo., and points in St. Louis and St. Charles Counties, Mo., on the one hand, and, on the other, points in Madison and St. Clair Counties, Ill. Applicant is authorized to conduct operations in Illinois and Missouri.

HEARING: October 17, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Joint Board No. 135, or, if the Joint Board waives its right to participate, before Examiner Frank R. Saltzman.

No. MC 42487 (Sub No. 373), filed August 4, 1958. Applicant: CONSOLIDATED FREIGHTWAYS, INC., 2116 Northwest Savier Street, Portland, Oreg. Applicant's attorneys: Ron E. Poelman, Consolidated Freightways, Inc., Menlo Park, Calif., and Donald A. Schafer, 1026 Public Service Building, Portland, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, over an alternate route for operating convenience only, between Casper, Wyo., and Pocatello, Idaho, serving no intermediate points and service Casper for the purpose of joinder only; from Casper over Wyoming Highway 220 through Alcova, Wyo., to junction U. S. Highway 287 at Muddy Gap, Wyo., thence over U. S. Highway 287 through Lamont, Wyo., to Rawlins, Wyo., thence over U. S. Highway 30 through Rock Springs, Wyo., to junction U. S. Highway 30–N about five miles south of Granger, Wyo., thence over U. S. Highway 30–N through Kemmerer, Sage, and Border, Wyo., and Montpelier, Soda Springs, and McCammon, Idaho, to Pocatello, and return over the same route. Applicant is authorized to conduct operations in California, Oregon, Washington, Idaho, Montana, Minnesota, Wyoming, Wisconsin, Illinois, Indiana, Missouri, Nebraska, Kentucky, North Dakota, South Dakota, and Iowa.

NOTE: Applicant is authorized to conduct the above operations in Certificate No. MC 42487 (Sub No. 249), and the purpose of this application is to eliminate the restriction contained in such certificate reading "with service over this route restricted to traffic moving to or from the points in Washington, Oregon and Idaho".

HEARING: October 9, 1958, at the Idaho Public Utilities Commission, State House, Boise, Idaho, before Joint Board No. 29.

No. MC 42963 (Sub No. 8), filed July 7, 1958. Applicant: DANIEL HAMM DRAYAGE COMPANY, INC., 2d and Tyler Streets, St. Louis, Mo. Applicant's attorney: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis 1, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated commercial refrigeration cases*, which because of size, weight and shape, require the use of special equipment and special handling, and *related parts and equipment* when moving in conjunction with uncrated commercial refrigeration cases, from St. Louis, Mo., to points in the United States, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application on return. Applicant is authorized to conduct operations in Arkansas, Illinois, Indiana, Iowa, Kentucky, Missouri, Ohio, and Tennessee.

HEARING: October 21, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Examiner Frank R. Saltzman.

No. MC 52709 (Sub No. 85), filed August 13, 1958. Applicant: RINGSBY TRUCK LINES, INC., 3201 Ringsby Court, Denver 5, Colo. Applicant's representative: Eugene St. M. Hamilton, same address as applicant. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities, including Class A and B explosives*, but excluding livestock, commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving points within a 50 mile radius of Cheyenne, Wyo., as off-route points in connection with applicant's authorized regular route operations to and from Cheyenne. Applicant is authorized to conduct operations in Colorado, Wyoming, Nebraska, Illinois, Iowa, California, Utah, Missouri, and Nevada.

NOTE: Applicant states that the sole purpose of this application is to serve launching sites of the Intercontinental Ballistics Missiles and any authority granted may be so restricted.

HEARING: September 26, 1958, at the New Customs House, Denver, Colo., before Joint Board No. 198, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 60012 (Sub No. 40), filed July 28, 1958. Applicant: RIO GRANDE MOTOR WAY, INC., 775 Wazee Street, Denver, Colo. Applicant's attorney: Ernest Porter, 1531 Stout Street, P. O. Box 5482, Denver 17, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities, including Class A and B explosives, commodities in bulk, and commodities requiring special equipment*, but excluding household goods as defined by the Commission and commodities of unusual value, and *rejected or damaged shipments*, between Aztec and Farmington, N. Mex., and the Navajo Damsite located approximately 30 miles east of Aztec, N. Mex., on the San Juan River, and points within ten (10) miles thereof. Applicant is authorized to conduct operations in Colorado and New Mexico.

HEARING: October 2, 1958, at the New Mexico State Corporation Commission, Santa Fe, N. Mex., before Joint Board No. 87, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 70451 (Sub No. 204), filed August 6, 1958. Applicant: WATSON BROS. TRANSPORTATION CO., INC., 1523 Marcy Street, Omaha, Nebr. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities, including Class A and B explosives*, and excepting commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving St. Charles, Mo., as an off-route point in connection with applicant's authorized regular route operations to and from St. Louis, Mo. Applicant is authorized to conduct operations in Arizona, California, Colorado, Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, New Mexico, and Wyoming.

HEARING: October 22, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Joint Board No. 179, or, if the Joint Board waives its right to participate, before Examiner Frank R. Saltzman.

No. MC 70451 (Sub No. 205), filed August 14, 1958. Applicant: WATSON BROS. TRANSPORTATION CO., INC., 1523 Marcy Street, Omaha, Nebr. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except household goods as defined by the Commission, serving the Navajo Dam Site, about ten (10) miles northeast of Blanco, N. Mex., and points within ten (10) miles thereof, as off-route points in connection with applicant's authorized regular route operations between Durango, Colo., and Los Angeles, Calif.; and general commodities, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, and commodities in bulk, restricted against transportation of commodities the transportation of which because of their size or weight require use of special equipment, serving the Navajo Dam Site, about ten (10) miles northeast of Blanco, N. Mex., and points within ten (10) miles thereof, as off-route points in connection with applicant's authorized regular route operations (a) between Phoenix, Ariz., and Durango, Colo., (b) between Phoenix, Ariz., and Holbrook, Ariz., and (c) between Shiprock, N. Mex., and Durango, Colo. Applicant is authorized to conduct operations in Arizona, Colorado, California, Illinois, Iowa, Kansas, Missouri, Nebraska, New Mexico, and Wyoming.

HEARING: October 2, 1958, at the New Mexico State Corporation Commission, Santa Fe, N. Mex., before Joint Board No. 87, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 70451 (Sub No. 206), filed August 18, 1958. Applicant: WATSON BROS. TRANSPORTATION CO., INC., 1523 Marcy Street, Omaha, Nebr. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Class A and B explosives*, and except commodities of unusual value, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving points within 50 miles of Cheyenne, Wyo., as off-route points in connection with applicant's authorized regular route operations to, from and through Denver, Colo. Applicant is authorized to conduct operations in Arizona, California, Colorado, Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, New Mexico, and Wyoming.

NOTE: Applicant states the purpose for filing this application is solely to serve launching sites of the Inter-Continental Ballistics Missiles and that any authority granted may be so restricted.

HEARING: September 26, 1958, at the New Customs House, Denver, Colo., before Joint Board No. 198, or if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 73675 (Sub No. 23) (CORRECTION), published in the FEDERAL REGISTER issue August 20, 1958, filed August 11, 1958. Applicant: GALLAGHER FREIGHT LINES, INC., 2424 Arapahoe Street, Denver, Colo. Applicant's attorney: Ward A. White, P. O. Box 332, 410 Bell Building, Cheyenne, Wyo. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the missile launching sites (now and to be) located near Cheyenne, Wyo., as off-route points in connection with applicant's authorized regular route operations to and from Cheyenne and Fort Francis E. Warren, Wyo. Applicant is authorized to conduct operations in Colorado, Utah, and Wyoming.

NOTE: Previous publication indicating hearing before Joint Board No. 194, was in error.

HEARING: September 26, 1958, at the New Customs House, Denver, Colo., before Joint Board No. 197, or if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 76032 (Sub No. 126), filed August 6, 1958. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver 23, Colo. Applicant's attorney: O. Russell Jones, 54½ East San Francisco Street, Santa Fe, N. Mex. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transportating: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between Kansas City, Mo., and Dalhart, Tex.: from Kansas City over U. S. Highway 50 (portion formerly U. S. 50S) via Ottawa, Emporia, Newton, and Hutchinson, Kans., to junction Kansas Highway 61 at Hutchinson, thence over Kansas Highway 61 to Pratt, Kans., thence over U. S. Highway 54 via Meade and Liberal, Kans., and Guymon, Okla., to Dalhart, and return over the same route serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in New Mexico, California, Arizona, Texas, Colorado, Illinois, Missouri, Nebraska, Indiana, Oklahoma, Iowa, Kansas, and Nevada.

NOTE: Applicant seeks the following restriction: Restricted against transporting traffic over said routes to and from points in Texas except that moving through the Albuquerque, N. Mex., gateway. In No. MC 76032 Sub-91 applicant holds alternate route authority between Kansas City, Mo., and Dalhart, Tex., via U. S. Highway 50 via Ottawa, Emporia, Newton, and Hutchinson, Kans., to junction U. S. Highway 183 at Kinsley, Kans., thence over U. S. Highway 183 to junction U. S. Highway 54, thence over U. S. Highway 54 via Meade and Liberal, Kans., and Guymon, Okla., to Dalhart, restricted as proposed herein. Applicant's attorney states: "Inasmuch as the authority held by applicant between Kansas City and Dalhart is an alternate route even though the actual mileage savings amounts to only 27 miles. • • • While it is not anticipated that the mileage savings over the proposed alternate route will result in any substantial savings, highway conditions over U. S. Highway 183 between Kinsley and Greensberg are such that it becomes imperative for applicant to seek a somewhat different route between Hutchinson and Greensberg. • • • for this reason applicant is necessarily filing a new alternate route application."

HEARING: September 30, 1958, at the Hotel Kansan, Topeka, Kans., before Examiner Frank R. Saltzman.

No. MC 76564 (Sub No. 62), filed August 5, 1958. Applicant: HILL LINES, INC., 1300 Grant Street, Amarillo, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Class A and B explosives and commodities in bulk*, but excluding household goods as defined by the Commission, commodities of unusual value, and those requiring special equipment, (1) between Artesia, N. Mex., and El Paso, Tex., from Artesia over New Mexico Highway 83 to the junction of U. S. Highway 54, thence over U. S. Highway 54 to El Paso, and return over the same route; (2) between Roswell, N. Mex., and El Paso, Tex., from Roswell over U. S. Highway 285 to the junction of New Mexico Highway 13, thence over New Mexico Highway 13 to the junction of New Mexico Highway 83, thence over New Mexico Highway 83 to the junction of U. S. Highway 54, thence over U. S. Highway 54 to El Paso, and return over the same route, serving all intermediate points on the above routes and the off-route points of Holloman Air Force Base located approximately 9 miles west of Alamogordo, N. Mex., on U. S. Highway 70, and Weed, N. Mex., located approximately 8 miles south of Mayhill, N. Mex. Applicant is authorized to conduct operations in New Mexico and Texas.

HEARING: October 6, 1958, at the U. S. Court Rooms, Roswell, N. Mex., before Joint Board No. 33.

No. MC 79491 (Sub No. 1), filed June 24, 1958. Applicant: ARMIN WEINMANN, doing business as A. WEINMANN, 74 Avenue B, West Babylon, N. Y. Applicant's atorney: Morris Honig, 150 Broadway, New York 38, N. Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pianos*, between New York, N. Y., on the one hand, and, on the other, points in Rockland, Orange, Dutchess, Putnam, and Westchester Counties, N. Y.; (2) *Organs*, and *organ and piano parts and benches*, between New York, N. Y., on the one hand, and, on the other, points in New Jersey and Connecticut. Applicant is authorized to conduct operations in New York, New Jersey, and Connecticut.

HEARING: October 2, 1958, at 346 Broadway, New York, N. Y., before Examiner James I. Carr.

No. MC 79690 (Sub No. 18), filed June 25, 1958. Applicant: COAST-LEE & EASTES, INC., 2326 Airport Way, Seattle 4, Wash. Applicant's attorney: George H. Hart, Central Building, Seattle 4, Wash. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Centralia, Wash., and Elma, Wash.: from Centralia over Washington Highway 9 to Elma, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular-route operations. Applicant is authorized to conduct operations in Washington and Oregon.

HEARING: October 30, 1958, at the Federal Office Building, First and Marion Streets, Seattle, Wash., before Joint Board No. 80.

No. MC 80402 (Sub No. 4), filed June 4, 1958. Applicant: TERMINAL FREIGHT TRANSPORT, INC., Paterson Plank Road and Route 3, E. Rutherford, N. J. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities, including commodities in bulk*, and excepting those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, and those requiring special equipment, between East Rutherford, N. J., on the one hand, and, on the other, points in Somerset, Monmouth, Middlesex and Morris Counties, N. J., restricted to shipments having a prior or subsequent movement in interstate commerce. Applicant is authorized to conduct operations in Connecticut, Delaware, Maryland, New Jersey, New York, and the District of Columbia.

HEARING: September 29, 1958, at 346 Broadway, New York, N. Y., before Examiner James I. Carr.

No MC 85093 (Sub No. 2), filed July 24, 1958. Applicant: AARON ISRAEL, doing business as ARCHIE'S MOTOR TRANSPORTATION CO., 349 South Second Street, New Bedford, Mass. Applicant's attorney: Foster R. Herman, Masonic Building, New Bedford, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *Haddock, shrimp, scallops, fish sticks, chicken, onion rings, codfish cakes, fish dinners, seafood dinners* requiring refrigeration in transit, between New Bedford, Mass., and Providence, R. I., over U. S. Highway 6, serving no intermediate points. Applicant is authorized to conduct operations in Massachusetts and Rhode Island.

HEARING: October 14, 1958, at the New Post Office and Court House Building, Boston, Mass., before Joint Board No. 18, or, if the Joint Board waives its right to participate, before Examiner James I. Carr.

No. MC 88748 (Sub No. 1), filed July 22, 1958. Applicant: CONTRACT PACKERS, INC., 2331 12th Avenue, New York 27, N. Y. Applicant's attorney: Edward M. Alfano, 36 West 44th Street, New York 36, N. Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, uncrated and *crated* from New York and Westbury, N. Y., to points in Hudson, Bergen, Essex, Passaic, Sussex, Warren, Hunterdon, Mercer, Ocean, Monmouth, Somerset, Middlesex, Union, and Morris Counties, N. J., and *rejected, returned or traded-in shipments* on the above-described commodity, on return. Applicant is authorized to transport kitchen furniture from New York, N. Y., to Trenton and Asbury Park, N. J., and points in New Jersey within 40 miles of New York, N. Y.

NOTE: Applicant requests the above-described operations be restricted to home deliveries only and states that any duplicating authority is to be canceled.

HEARING: October 17, 1958, at 346 Broadway, New York, N. Y., before Examiner James I. Carr.

No. MC 89778 (Sub No. 70), filed July 2, 1958. Applicant: BAGGETT TRANSPORTATION COMPANY, 2 South 20th Street, Birmingham, Ala. Applicant's attorney: Harold G. Hernly, 1624 Eye Street NW., Washington 6, D. C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Class A and B explosives, blasting supplies, nitro-carbo-nitrate* and *ammonium nitrate, fertilizer compounds*, dry, in bags or bulk, from Ordill, Ill., to points in Colorado, Georgia, Michigan, Minnesota, Nebraska, North Dakota, Oklahoma, South Dakota, and Wisconsin. Applicant is authorized to conduct contract and common carrier operations in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin.

NOTE: A proceeding has been instituted under section 212 (c) to determine whether applicant's status is that of a contract or common carrier in No. MC 89778 (Sub No. 69).

HEARING: October 20, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Examiner Frank R. Saltzman.

No. MC 94963 (Sub No. 3), filed August 4, 1958. Applicant: GEORGE R. T. ROBERTS, Sabetha, Kans. Applicant's attorney: James F. Miller, 500 Board of Trade Building, 10th and Wyandotte, Kansas City 5, Mo. Authority sought to operate as a *contract or common carrier*, by motor vehicle, over irregular routes, transporting: *Beer* in cans, from New York, N. Y., to Kansas City, Mo. Applicant is authorized to conduct operations in Illinois, Kansas, Missouri, New York, and Pennsylvania.

NOTE: A proceeding has been instituted under section 212 (c) of the Interstate Commerce Act to determine whether applicant's status is that of a contract or common carrier, assigned Docket No. MC 94963 (Sub No. 2).

HEARING: October 6, 1958, at the New Hotel Pickwick, Kansas City Mo., before Examiner Frank R. Saltzman.

No. MC 98610 (Sub No. 1), filed June 11, 1958. Applicant: KANSAS TRANSPORT COMPANY, a Corporation, McPherson, Kans. Applicant's attorney: John E. Jandera, 641 Harrison Street, Topeka, Kans. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk and in packages and containers, and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodity, between points in Oklahoma, Colorado, Nebraska, and Kansas.

HEARING: October 2, 1958, at the Hotel Kansan, Topeka, Kans., before Examiner Frank R. Saltzman.

No. MC 102373 (Sub No. 4), filed July 7, 1958. Applicant: JACOB R. COHN, 153 Emerson Street, Springfield, Mass. Applicant's representative: William L. Mobley, 1694 Main Street, Springfield 3, Mass. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, loose or in barrels, in dump vehicles, from points in Connecticut within 35 miles of Springfield, Mass., to Springfield, Mass. Applicant is authorized to conduct operations in Connecticut, Massachusetts, New Hampshire, New York, Rhode Island, and Connecticut.

HEARING: October 15, 1958, at the U. S. Court Rooms, Hartford, Conn., before Joint Board No. 22, or, if the Joint Board waives its right to participate, before Examiner James I. Carr.

No. MC 102616 (Sub No. 659), filed August 6, 1958. Applicant: COASTAL TANK LINES, INC., Grantley Road, York, Pa. Applicant's attorney: Harold G. Hernley, 1624 Eye Street NW., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils* (edible), in bulk, in tank vehicles, from Reading, Pa., to points in Delaware, Maryland, New Jersey, Pennsylvania, and the District of Columbia, restricted to transportation of shipments having a prior movement by rail. Applicant is authorized to conduct operations in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE: Duplication with present and pending authority to be eliminated.

HEARING: September 29, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Harold P. Boss.

No. MC 102982 (Sub No. 3) filed August 11, 1958. Applicant: GEORGE W. KUGLER, INC., P. O. Box 511, Clearfield, Pa. Applicant's attorney: Noel F. George, 44 East Broad Street, Columbus 15, Ohio. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay products*, from the sites of Robinson Clay Products Company plants at or near Mogadore (Summit County), Ohio, Midvale and Parral (Tuscarawas County), Ohio, and Malvern (Carroll County), Ohio, to points in Maine, Vermont, New Hampshire, Connecticut, Rhode Island, and Massachusetts; and from Mogadore (Summit County), Ohio, and Malvern (Carroll County), Ohio, to points in New Jersey, Delaware, and the District of Columbia; and *empty containers, rejected and unused clay products*, and *materials and supplies* used in the manufacture of clay products, on return. Applicant is authorized to transport clay products in West Virginia, Maine, Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Rhode Island, Virginia, the District of Columbia, New Hampshire, and Vermont.

HEARING: October 1, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner James C. Cheseldine.

No. MC 104654 (Sub No. 116), filed July 24, 1958. Applicant: COMMERCIAL TRANSPORT, INC., South 20th Street, P. O. Box 297, Belleville, Ill. Applicant's representative: A. A. Marshall, 305 Buder Building, St. Louis 1, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products* as described in Appendix XIII to the report in Descriptions in Motor Carrier Certificates, 61 M. C. C. 209, in bulk, in tank vehicles, from East St. Louis, Cahokia, and Roxana, Ill., and points within 5 miles of Roxana to points in Wisconsin. Applicant is authorized to conduct operations in Illinois, Indiana, Missouri, Kentucky, Arkansas, and Tennessee.

HEARING: October 16, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Joint Board No. 194, or, if the Joint Board waives its right to participate, before Examiner Frank R. Saltzman.

No. MC 107500 (Sub No. 18), filed August 15, 1958. Applicant: BURLINGTON TRUCK LINES, INC., 547 West Jackson Boulevard, Chicago, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving points within a 50 mile radius of Cheyenne, Wyo., as off-route points in connection with applicant's authorized regular route operations to, from and through Cheyenne, Wyo. Applicant is authorized to conduct operations in Colorado, Nebraska, Missouri, Illinois, and Iowa.

NOTE: Applicant states that the purpose of this application is solely to serve launching sites of Inter-Continental Ballistics Missiles and any authority granted may be so restricted.

HEARING: September 26, 1958, at the New Customs House, Denver, Colo., before Joint Board No. 198, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 108340 (Sub No. 9), filed June 24, 1958. Applicant: HANEY TRUCK LINE, a Corporation, 2219 Cedar Street, Forest Grove, Oreg. Applicant's attorney: Earle V. White, 1401 Northwest 19th Avenue, Portland 9, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, and commodities in bulk, between points in Washington County, Oreg., on the one hand, and, on the other, points in Washington. Applicant is authorized to conduct operations in Idaho, Oregon, and Washington.

HEARING: October 16, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 45.

No. MC 110420 (Sub No. 192), (CORRECTION), published issue August 20, 1958, filed July 1, 1958. Applicant: QUALITY CARRIERS, INC., Calumet Street, Burlington, Wis. Applicant's attorney: Paul F. Sullivan, Sundial House, 1821 Jefferson Place NW., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paints, varnishes*, and *synthetic resins*, and *ingredients thereof*, in bulk, in tank vehicles, between Kansas City, Mo., on the one hand, and, on the other, points in Iowa, Kansas, Michigan, Minnesota, Nebraska, Wisconsin, Tennessee, Illinois, Indiana, Kentucky, and Ohio; (2) *liquid chocolate* and *chocolate coating*, in bulk, in tank vehicles, from Milwaukee, Wis., to points in Alabama,

Georgia, Illinois, Indiana, North Carolina, Ohio, Pennsylvania, and South Carolina; and to Denver, Colo., Burlington, Iowa, Boston and North Abington, Mass., Fargo, N. Dak., New York, N. Y., and Rochester, N. Y.; (3) *latex emulsion*, in bulk, in tank vehicles, from Ringwood, Ill., to Indianapolis, Ind., and St. Louis, Mo., (4) *ammonium thiosulfate*, in bulk, in tank vehicles, from Ringwood, Ill., to St. Louis, Mo., (5) *blended oils*, in bulk, in tank vehicles, from Mishawaka, Ind., to Cleveland, Ohio, Muskegon and Saginaw, Mich., and Duluth, Minn., (6) *wine*, in bulk, in tank vehicles, from Harbert, Mich., to St. Louis, Mo. Applicant is authorized to conduct operations in Alabama, Arkansas, Florida, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, and Wisconsin. The purpose of this republication is to show that the above commodities will move in bulk, in tank vehicles.

HEARING: Remains as assigned October 8, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Harold P. Boss.

No. MC 110525 (Sub No. 366), filed August 21, 1958. Applicant: CHEMICAL TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. Applicant's attorneys: Gerald L. Phelps and Leonard A. Jaskiewicz, Munsey Building, Washington 4, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals, isocyanates* and *liquid plastic materials*, in bulk, in tank vehicles, from Natrium (Marshall County), W. Va., to Chicago, Ill., Gary, Hammond, and La Porte, Ind., Keokuk, Iowa, Baltimore, Md., Detroit, Mich., St. Louis, Mo., Franklin, N. J., and Marietta, Ohio. Applicant is authorized to conduct operations in New Jersey, New York, Maryland, Pennsylvania, Kentucky, West Virginia, Ohio, Delaware, Virginia, North Carolina, Tennessee, Kansas, Michigan, Illinois, Connecticut, Massachusetts, Indiana, Rhode Island, Minnesota, Missouri, Wisconsin, Georgia, and Alabama.

HEARING: September 18, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Michael B. Driscoll.

No. MC 112020 (Sub No. 49), filed August 8, 1958. Applicant: COMMERCIAL OIL TRANSPORT, a Corporation, 1030 Stayton Street, Fort Worth, Tex. Applicant's attorney: Leroy Hallman, First National Bank Building, Dallas 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paints, resins, varnishes* and *lacquers*, in bulk, in tank vehicles, from points in the Kansas City, Mo., Commercial Zone, to points in Montana, Nebraska, North Dakota, South Dakota, Wyoming, Iowa, Michigan, Minnesota, Wisconsin, Illinois, Indiana, Ohio, Arkansas, Kentucky, Tennessee, Mississippi, Colorado, Kansas, Louisiana, Oklahoma, and Texas; and (2) *linseed oil* and *soybean oil*, in bulk, in tank vehicles, from points in Ohio, Minnesota, Illinois and Iowa, to points in the Kansas City, Mo., Commercial Zone. Applicant is authorized to conduct operations in Texas, Louisiana, Arkansas, Oklahoma, Kansas, Missouri, Nebraska, Iowa, Illinois, Indiana, Colorado, Mississippi, Michigan, Ohio, Wisconsin, New York, Kentucky, and Tennessee.

HEARING: October 9, 1958, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Frank R. Saltzman.

No. MC 113843 (Sub No. 30), filed July 1, 1958. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston 10, Mass. Applicant's attorney: James M. Walsh, 316 Summer Street, Boston 10, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products* and *meat by-products*, from Erie, Pa., to Bridgeport and Hartford, Conn., and New York, N. Y. Applicant is authorized to conduct operations in Ohio, Massachusetts, New York, Maryland, the District of Columbia, Virginia, West Virginia, Illinois, Wisconsin, Connecticut, Indiana, Michigan, New Jersey, Pennsylvania, Rhode Island, Kentucky, Maine, New Hampshire, Texas, North Carolina, South Carolina, Tennessee, Delaware, Missouri, Minnesota, Nebraska, Iowa, and Colorado.

HEARING: October 15, 1958, at the U. S. Court Rooms, Hartford, Conn., before Examiner James I. Carr.

No. MC 113908 (Sub No. 39), filed July 22, 1958. Applicant: ERICKSON TRANSPORT CORPORATION, MPO Box 706, Springfield, Mo., Mail: Coon Valley, Wis. Applicant's atorney: Turner White III, 808 Woodruff Building, Springfield, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk and milk products* and such *dairy products* as defined in Appendix I to Ex Parte No. MC 45, as may be transported in bulk, in tank vehicles, between points in North Dakota, South Dakota, Minnesota, Wisconsin, Illinois, Iowa, Nebraska, Kansas, Missouri, Oklahoma, Texas, Arkansas, Indiana, Kentucky, Tennessee, and Florida. Applicant is authorized to conduct operations in Illinois, Indiana, Ohio, Kentucky, South Dakota, Iowa, Missouri, Kansas, Minnesota, Nebraska, Texas, Florida, and Michigan.

HEARING: October 7, 1958, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Frank R. Saltzman.

No. MC 114021 (Sub No. 5), filed June 25, 1958. Applicant: MIDWEST TRANSFER COMPANY OF ILLINOIS, 7000 South Pulaski Road, Chicago, Ill. Applicant's attorney: Charles W. Singer, 1825 Jefferson Place NW., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building, roofing and insulating materials*, as more fully described in the application, from St. Louis, Mo., to points in North Dakota, South Dakota, Nebraska, Montana, Wyoming, Colorado, New Mexico, Texas, Mississippi, and Louisiana. Applicant is authorized to conduct operations in Illinois, Michigan, Indiana, Ohio, Kentucky, Pennsylvania, Missouri, Wisconsin, New York, Iowa, Michigan, New Jersey, and West Virginia.

HEARING: October 23, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Examiner Frank R. Saltzman.

No. MC 114250 (Sub No. 2), filed June 11, 1958. Applicant: EUGENE LUISI, doing business as LUISI TRUCK LINES, 2516 South First Street, Yakima, Wash. Applicant's attorney: John M. Hickam, Failing Building, Portland, Oreg. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cannery supplies and materials*, (1) from points in Benton, Cowlitz, Yakima, and Walla Walla Counties, Wash., to points in Umatilla and Malheur Counties, Oreg.; (2) from points in Benton, Cowlitz, Yakima, and Walla Walla Counties, Wash., to points in Nez Perce, Payette, Gem, and Canyon Counties, Idaho; (3) from points in Multnomah County, Oreg., to points in Nez Perce, Payette, Gem, and Canyon Counties, Idaho; *Fruits* and *vegetables*, fresh, processed or manufactured, from points in Umatilla County, Oreg., to points in Yakima, King, Pierce, and Spokane Counties, Wash., and *empty containers or other such incidental facilities* (not specified) used in transporting the above commodities on return. Applicant is authorized to conduct operations in Oregon.

HEARING: October 21, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 81.

No. MC 115869 (Sub No. 1), filed June 17, 1958. Applicant: HENDRIE & COMPANY, LIMITED, a Corporation, 3 Peter Street, Toronto, Ontario, Canada. Applicant's representative: William D. Traub, 10 East 40th Street, New York 16, N. Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Timber* and *lumber*, between ports of entry on the International Boundary line between the United States and Canada at or near Buffalo and Niagara Falls, N. Y., on the one hand, and, on the other, points in Niagara, Orleans, Monroe, Erie, and Genesee Counties, N. Y., restricted to shipments either originating at or destined to points in Canada. Applicant is authorized to conduct operations in Michigan and New York.

HEARING: October 1, 1958, at 346 Broadway, New York, N. Y., before Examiner James I. Carr.

No. MC 116077 (Sub No. 50), filed August 8, 1958. Applicant: ROBERTSON TANK LINES, INC., 5700 Polk Avenue, Houston, Tex. Applicant's attorneys: Charles D. Mathews and Thomas E. James, 1020 Brown Building, P. O. Box 858, Austin, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from points in Jefferson County, Tex., to points in Oklahoma, Missouri, Illinois, Wisconsin, Minnesota, Iowa, Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming, Colorado, Utah, and New Mexico. Applicant is authorized to conduct operations in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Jersey, New Mexico, North Carolina, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, and Texas.

HEARING: September 30, 1958, at the Federal Office Building, Franklin and Fannin Street, Houston, Tex., before Examiner Mack Myers.

No. MC 116565 (Sub No. 4), filed April 28, 1958. Applicant: ORVILLE STEVENSON, 316 Southwest K Street, Grants Pass, Oreg. Applicant's representative: I. R. Perry, P. O. Box 594, Grants Pass, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in Douglas and Lane Counties, Oreg., to points in California and Nevada.

HEARING: October 14, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 151.

No. MC 116632 (Sub No. 3), filed July 16, 1958. Applicant: MOHALLAND BROS., INC., Box 208, Princeton, Maine. Applicant's attorney: Mary E. Kelley, 10 Tremont Street, Boston 8, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (1) between points in Washington and Hancock Counties, Maine, on the one hand, and, on the other, ports of entry on the international boundary line between the United States and Canada at or near Calais and Bar Harbor, Maine; (2) between points in Washington and Hancock Counties, Maine, on the one hand, and, on the other, points in New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania.

HEARING: October 9, 1958, at the Federal Building, Portland, Maine, before Examiner James I. Carr.

No. MC 116808 (Sub No. 2), filed June 2, 1958. Applicant: NYLE MALLORY AND GERALD MALLORY, doing business as MALLORY TRUCKING LINE, Route 1, Burley, Idaho. Applicant's attorney: Raymond D. Givens, 1530 Idaho Street, P. O. Box 964, Boise, Idaho. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, in sacks, and in bulk, from North Salt Lake City, Utah, to points in Cassia and Minidoka Counties, Idaho, except Burley, Oakley, Paul, and Rupert, Idaho.

HEARING: October 8, 1958, at the Idaho Public Utilities Commission, State House, Boise, Idaho, before Joint Board No. 258.

No. MC 116955 (Sub No. 2), filed July 28, 1958. Applicant: STEEL HAULERS, INC., 9725 High Drive, Prairie Village, Kans. Applicant's attorney: James P. Miller, 500 Board of Trade Building, 10th and Wyandotte, Kansas City 5, Mo. Authority sought to operate as a *contract or common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, loose, or in compressed bails or bundles, (1) from points in Kansas, Minnesota, Nebraska, Oklahoma, Arkansas, Texas, Missouri, Louisiana, Iowa, South Dakota, and North Dakota, to St. Louis and Kansas City, Mo., and Tulsa, Okla., and the Commercial Zones (as defined by the Commission) of each of said destination cities, and (2) from points in Louisiana, Oklahoma and Arkansas to Houston, Tex., and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application on return. Applicant is authorized to conduct operations in Arkansas, Illinois, Indiana, Iowa, Kansas, Louisiana, Missouri, Nebraska, Oklahoma, South Dakota, and Texas.

NOTE: A proceeding has been instituted under section 212 (c) of the Interstate Commerce Act to determine whether applicant's status is that of a contract or common carrier, assigned Docket No. MC 116955 (Sub No. 1).

HEARING: October 8, 1958, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Frank R. Saltzman.

No. MC 117273 (Sub No. 1), filed July 14, 1958. Applicant: C. & R. TRANSPORT CORP., 3106 Southeast 22d Avenue, Portland, Oreg. Applicant's attorney: Seymour L. Cobiens, Corbett Building, Portland 4, Oreg. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Milled lumber*, from Longview, Wash., to points in California.

NOTE: Applicant states the rights applied for herein are those it originally intended to apply for under its application in No. MC 117273, on which a hearing was held July 2, 1958, as well as rights therein for northbound movement of beer and wines from points in California to points in Oregon and Washington. Through error applicant set forth Clark County from which the milled lumber was to be transported, instead of Cowlitz County; therefore, this application is filed only with respect to the southbound movement from one mill in Longview.

HEARING: October 14, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 5.

No. MC 117349 (Sub No. 2) filed July 2, 1958. Applicant: VINCENT J. BRAIO, doing business as J. BRAIO TRANS., 5 High Street, Worcester, Mass. Applicant's representative: Arthur A. Wentzell, P. O. Box 720, Worcester, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fish meal*, in bags, from Amagansett, N. Y., to Worcester, Mass., and Manchester, N. H., and *empty bags or other such incidental facilities* (not specified) used in transporting the above-specified commodity on return.

HEARING: October 10, 1958, at the New Post Office and Court House Building, Boston, Mass., before Examiner James I. Carr.

No. MC 117417, filed May 26, 1958. Applicant: CHINOOK MOTOR FREIGHT, INC., 2320 Rudkin Road, Yakima, Wash. Applicant's attorney: Douglas A. Wilson, 916 Larson Building, Yakima, Wash. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, from points in Oregon and Idaho to Wallula and Attalia, Wash.; *Paper* and *paper products*, from Wallula and Attalia, Wash., to points in Oregon and Idaho; and *Empty containers or other such incidental facilities* (not specified) used in transporting the above-described commodities, from the above-specified destination points to the above-specified origin points.

HEARING: October 20, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 81.

No. MC 117421, filed May 27, 1958. Applicant: COAST REFRIGERATED TRANSPORT CO., a Corporation, 15 Coburg Road, Eugene, Oreg. Applicant's attorney: Earle V. White, 1401 Northwest 19th Avenue, Portland 9, Oreg. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, between Eugene, Oreg., and points in Washington; *eggs*, (packaged), and *empty containers therefor*, between points in Oregon west of the summit of the Cascade Mountains, on the one hand, and, on the other, points in Washington west of the summit of the Cascade Mountain; *flour* (packaged), from Spokane, Wash., to Eugene, Oreg., and *empty containers* used in transporting flour, on return.

HEARING: October 23, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 45.

No. MC 117422, filed May 28, 1958. Applicant: MERCHANTS TRANSPORT, INC., 234 Southeast Alder Street, Portland 14, Oreg. Applicant's attorney: Earle V. White, 1401 Northwest 19th Avenue, Portland 9, Oreg. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, chain and general grocery and food business houses, from points in California, to Eugene and Portland, Oreg., and *dairy products*, from points in Douglas, Coos, and Curry Counties, Oreg., to points in California.

NOTE: C. C. Horger, President of applicant, is also owner-operator of common carrier certificate in No. MC 113212, C. C. Horger, doing business as Oregon Freight Lines, with authority to transport general and specified commodities from, to and between specified points in Oregon and Washington.

HEARING: October 24, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 11.

No. MC 117469, filed June 23, 1958. Applicant: ROBERT J. MELCHISEDECK, West 1124 Glass Avenue, Spokane 18, Wash. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail department stores, between Spokane, Wash., and Coeur d'Alene, Idaho, and points within 25 miles of Coeur d'Alene.

HEARING: November 3, 1958, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 169.

No. MC 117473, filed June 23, 1958. Applicant: C. E. ARNDT, 1905 Shelby, Higginsville, Mo. Applicant's attorney: Herman W. Huber, 101 East High Street, Jefferson City, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer* and *fertilizer compounds*, dry, in bulk and in bags, from East St. Louis, Ill., and its commercial zones, as defined by the Commission, to points in

Missouri, and *damaged, rejected and returned shipments* of the above-specified commodities on return.

NOTE: Applicant states the proposed operations will be year-round with seasonal peaks in spring and fall.

HEARING: October 15, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Joint Board No. 135, or, if the Joint Board waives its right to participate, before Examiner Frank R. Saltzman.

No. MC 117483, filed June 27, 1958. Applicant: AL PLUMLEY, P. O. Box 123, Island City, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, from points in Union and Wallowa Counties, Oreg., to points in Nez Perce County, Idaho, and Walla Walla County, Wash.

HEARING: October 22, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 81.

No. MC 117486, filed June 30, 1958. Applicant: SNOW TRUCKING COMPANY, a Corporation, 288 Riverside Drive, Dedham, Mass. Applicant's representative: Gerard J. Donovan, 11 Beacon Street, Boston 8, Mass. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals, solvents, vegetable oils, naval stores* and *empty pails*, from Allston, Mass., to Biddeford, South Portland, Portland, Westbrook, Auburn, Winthrop, and Lewiston, Maine, Manchester, Milford, and Portsmouth, N. H., Manchester, Hartford, West Hartford, New Britain, Waterbury, Ansonia, New Haven, West Haven, Middletown, Mystic, New London, Norwich, Norwichtown, and Willimantic, Conn., and Providence, East Providence and Cranstown, R. I. *Empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application from the above-specified destination points to Allston, Mass.

HEARING: October 10, 1958, at the New Post Office and Court House Building, Boston, Mass., before Examiner James I. Carr.

No. MC 117486 (Sub No. 1), filed July 2, 1958. Applicant: SNOW TRUCKING COMPANY, a Corporation, 288 Riverside Drive, Dedham, Mass. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Perchlorethylene* (chemical), in bulk, in tank vehicles, from Niagara Falls, N. Y., to Boston, Mass.

HEARING: October 14, 1958, at the New Post Office and Court House Building, Boston, Mass., before Examiner James I. Carr.

No. MC 117488, filed June 30, 1958. Applicant: LOUIE G. PINKLEY, doing business as PINKLEY'S "66" SERVICE, 945 Goodfellow Boulevard, St. Louis, Mo. Applicant's attorney: Herman W. Huber, 101 East High Street, Jefferson City, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, damaged, disabled, or repossessed motor vehicles and trailers*, by tow truck or wrecker and replacement vehicles to the point of wreck or disablement, between points in Missouri, Illinois, and Arkansas.

HEARING: October 15, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Joint Board No. 243, or, if the Joint Board waives its right to participate, before Examiner Frank R. Saltzman.

No. MC 117519, filed July 15, 1958. Applicant: GLEN TROUT, 1151 Willow, Ottawa, Kans. Applicant's attorney: Wentworth E. Griffin, 1012 Baltimore Building, Kansas City 5, Mo. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Expanded shale aggregate*, from Ottawa, Kans., to points in Missouri on and west of a line beginning at the Iowa-Missouri State line at U. S. Highway 63, thence over U. S. Highway 63 to junction with U. S. Highway 66, thence over U. S. Highway 66 to junction with Missouri Highway 5, and thence over Missouri Highway 5 to the Missouri-Arkansas State line; and *empty containers or other such incidental facilities* used in transporting expanded shale aggregate, on return.

HEARING: October 6, 1958, at the New Hotel Pickwick, Kansas City, Mo., before Joint Board No. 36, or, if the Joint Board waives its right to participate, before Examiner Frank R. Saltzman.

No. MC 117522, filed July 21, 1958. Applicant: HARRY THOMAS BEER, 10745 Sales Road, Tacoma 44, Wash. Applicant's attorney: R. L. Peters, 11024 Pacific Avenue, Tacoma 44, Wash. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New and used house trailers*, designed to be drawn by passenger automobiles, between points in Washington, Oregon, and California.

NOTE: Applicant states that occasionally he proposes to pick up house trailers on return movements, and that the above-described commodities will be transported by means of a tow-truck.

HEARING: October 30, 1958, at the Federal Office Building, First and Marion Streets, Seattle, Wash., before Joint Board No. 5.

No. MC 117523, filed July 16, 1958. Applicant: LESLIE J. WHITTEN, doing business as L. WHITTEN, 706 Mill Street, Kelso, Wash. Applicant's attorney: John M. Hickson, 1225 Failing Building, Porland, Oreg. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood shavings* (Briquets), also known as Presto-Ligs, between points in Cowlitz County, Wash., and points in Multnomah, Columbia, Hood River, Wasco, Tillamook, Clatsop, and Washington Counties, Oreg.

HEARING: October 22, 1958, at 538 Pittock Block, Portland, Oreg., before Joint Board No. 45.

No. MC 117529, filed July 17, 1958. Applicant: MILTON J. HOPKINS, III, doing business as HOPPIE'S SERVICE STATION AND TOWING, Route No. 1, Barnhart, Mo. Applicant's representative: A. A. Marshall, 305 Buder Building, St. Louis 1, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, damaged and disabled motor vehicles*, in towaway service, by wrecker vehicles, between points in Arkansas, Illinois, Iowa, Kansas, Kentucky, Missouri, and Tennessee.

HEARING: October 22, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Examiner Frank R. Saltzman.

No. MC 117531, filed July 21, 1958. Applicant: LOUIS BROOKS AND DAN BROOKS, a Partnership, 60 Grand Avenue, Brooklyn, N. Y. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. SOMERSET BUS CO., INC., is authorized to operate as a *common carrier* in New Jersey, New York, Pennsylvania, Maryland, and the District of Columbia. Application has not been filed for temporary authority under section 210a (b). In No. MC–F 6637 (SOMERSET BUS CO., INC.—CONTROL AND MERGER—THE GREEN FLYER, INC.), decided February 20, 1958, the acquisition by SOMERSET BUS CO., INC., of control of THE GREEN FLYER, INC., through purchase of capital stock, merger of the operating rights and property of the latter into the former for ownership, management, and operation, and acquisition by the four individuals named above of control of the operating rights and property through the control and merger, were conditionally approved and authorized. Temporary authority granted under section 210a (b), as extended, is outstanding in No. MC–F 6637 for a period expiring with consummation of the merger, or October 1, 1958, whichever occurs first.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 22, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40), and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34911: *Joint motor-rail rates—Cotton and linters from Carryville and Piggott, Ark.* Filed by Southwestern Freight Bureau, Agent (No. B–7360), for interested carriers. Rates on cotton and cotton linters, in bales, carloads from Carryville and Piggott, Ark., on the Frisco Transportation Company to points on rail lines in southwestern, southern, western trunk line, and official territories, also points in Canada in New Brunswick, Nova Scotia, Ontario, and Quebec.

Grounds for relief: Abandonment of a portion of the line of the St. Louis-San Francisco Railway Company under Finance Docket No. 20155.

Tariff: Supplement 29 to Southwestern Freight Bureau tariff I. C. C. 4268.

FSA No. 34912: *Liquefied petroleum gas—Southwestern points to Ohio and Maryland points.* Filed by Southwestern Freight Bureau, Agent (No. B–7359), for interested rail carriers. Rates on liquefied petroleum gas, tank-car loads from specified points in Arkansas, Kansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas to Batavia, Cincinnati, Lebanon, Loveland, Ohio, and Hagerstown and Hancock, Md.

Grounds for relief: Motor truck competition.

Tariffs: Supplement 169 to Southwestern Freight Bureau tariff I. C. C. 4118. Supplement 155 to Southwestern Freight Bureau tariff I. C. C. 4150.

FSA No. 34913: *Cement—Arkco, Ark., to southwestern points.* Filed by Southwestern Freight Bureau, Agent (SWFB No. B–7342), for interested rail carriers. Rates on cement, hydraulic, natural or portland, tile grout, masonry or mortar cement, concrete mixture, as described, and dry building mortar, straight or mixed carloads from Arkco, Ark., to destinations in Arkansas, Louisiana (west of the Mississippi River), southern Missouri, Oklahoma, and Texas.

Grounds for relief: Short-line distance formula, market competition with Okay Jct., Ark.

Tariff: Supplement 110 to Southwestern Freight Bureau, I. C. C. 3934.

By the Commission.

[Notice 19]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 22, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 60920. By order of August 21, 1958, the Transfer Board approved the transfer to Leon Dale Ver Steeg, Sioux Center, Iowa, of certificate No. MC 1285, issued March 6, 1942, to William H. Boone, Sioux Center, Iowa, authorizing the transportation of: Livestock, grain, hay, and emigrant movables, over irregular routes, between Sioux Center, Iowa, and points within 25 miles of Sioux Center, on the one hand, and, on the other, points in Minnesota, South Dakota, and Nebraska within 100 miles of Sioux Center, and agricultural implements and livestock feeds, over irregular routes, from Sioux Falls, S. Dak., to Sioux Center, Iowa, and points within 25 miles of Sioux Center. Maurice A. Te Paske, 20 Third Street NE., Sioux Center, Iowa, for applicants.

No. MC–FC 61395. By order of August 21, 1958, the Transfer Board approved the transfer to William M. Caburis dba Beekman Moving & Storage Co., New York, N. Y., of Certificate No. MC 73178, issued October 14, 1949, to Arthur John Murphy dba Town and Country Movers and A. J. Murphy Trucking, New York, N. Y., authorizing the transportation of household goods as defined by the Commission, over irregular routes, between New York, N. Y., on the one hand, and, on the other, points in Massachusetts, New Jersey, Pennsylvania, New York, Connecticut, Rhode Island, and the District of Columbia, traversing Maryland for operating convenience only. David Brodsky, 1776 Broadway, New York 19, N. Y., for applicants.

No. MC–FC 61445. By order of August 20, 1958, the Transfer Board approved the transfer to Wallack Freight Lines, Inc., Bellmore, New York, of certificate in No. MC 73352, issued June 1, 1944, to Vera Alfisy, Grant City, Staten Island, New York, authorizing the transportation of general commodities, excluding household goods and other specified commodities, over irregular routes, between points in New York, N. Y., Commercial Zone, as defined by the Commission; and between New York, N. Y., on the one hand, and, on the other, Elizabeth, Irvington, Newark, and Harrison, N. J. Edward M. Alfano, 36 West 44th Street, New York 36, New York.

No. MC–FC 61452. By order of August 20, 1958, the Transfer Board approved the transfer to John J. Brady, Jr., and William F. Brady, a partnership, doing business as John J. Brady and Sons, Beverly Farms, Massachusetts, of certificates in Nos. MC 90274 and MC 90274 Sub 1, issued August 28, 1950, and January 15, 1952, the record holder of which is John J. Brady (William F. Brady and Frank H. Brady, Administrators), John J. Brady, Jr., and William F. Brady, a partnership, doing business as J. J. Brady & Sons, Beverly Farms, Massachusetts, authorizing the transportation of horses, dogs, and personal belongings of owners and jockeys in the same vehicle with animals, and horses (other than ordinary livestock) and equipment and paraphernalia, incidental to such transportation, over irregular routes, between points in New Hampshire, Massachusetts, Vermont, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, Tennessee, South Carolina, Florida, Louisiana, Pennsylvania, and the District of Columbia. Thomas F. Fitzgibbon, 81 Washington Street, Salem, Massachusetts.

No. MC–FC 61457. By order of August 20, 1958, the Transfer Board approved the transfer to Elsifor Moving and Storage Co., Inc., Columbus, Ohio, of Certificate No. MC 10029, issued February 22, 1943, to Elsifor Moving and Storage Company, a Corporation, Ann Arbor, Mich., authorizing the transportation of Household goods, as defined by the Commission, over irregular routes, between Ann Arbor, Mich., and points in Michigan within 70 miles of Ann Arbor, on the one hand, and, on the other, points in Illinois, the District of Columbia, Indiana, Michigan, New York, Ohio, Pennsylvania, Wisconsin, and those in Virginia and Maryland within 50 miles of Washington, D. C., traversing West Virginia and New Jersey for operating convenience only. Mann, Lipnik & Darrow, 315 Ann Arbor Trust Building, Ann Arbor, Mich., for applicants.

No. MC–FC 61478. By order of August 21, 1958, the Transfer Board approved the transfer to Hubert A. Libby dba Pine State Charter Service, Sebago Lake, Maine, of Certificate No. MC 96112, issued June 17, 1949, to Burnham Bros., Inc., Naples, Maine, authorizing the transportation of Passengers, in charter service, restricted to traffic originating at the points indicated, over irregular routes, from North Bridgeton, Me., to points in Connecticut, Rhode Island, Massachusetts, and New Hampshire, and return; and from Bridgeton Center, Me., to points in New Hampshire, and return. Hubert A. Libby, R. F. D. No. 2, Sebago Lake, Maine, Transferee; Chester L. Burnham, President, Burnham Bros., Inc., Naples, Maine, Transferor.

TITLE 2—THE CONGRESS

ACTS APPROVED BY THE PRESIDENT

EDITORIAL NOTE: After the adjournment of the Congress *sine die*, and until all public acts have received final Presidential consideration, a listing of public laws approved by the President subsequent to adjournment will appear in the daily FEDERAL REGISTER under *Title 2, The Congress*. A consolidated listing of the new acts approved by the President will appear in the Daily Digest in the final issue of the Congressional Record covering the 85th Congress, Second Session.

Acts Approved August 25, 1958

S. 607 ..... Public Law 85–745
An Act to provide retirement, clerical assistants, and free mailing privileges to former Presidents of the United States, and for other purposes.

S. 3333 ..... Public Law 85–748
An Act to facilitate the insurance of loans under title I of the Bankhead-Jones Farm Tenant Act, as amended, and the Act of August 28, 1937, as amended (relating to the conservation of water resources), and for other purposes.

S. 3996 ..... Public Law 85–746
An Act to authorize the Secretary of the Interior to enter into an agreement for relocating portions of the Natchez Trace Parkway, Mississippi, and for other purposes.

H. J. Res. 424 ..... Public Law 85–752
Joint Resolution to improve the administration of justice by authorizing the Judicial Conference of the United States to establish institutes and joint councils on sentencing, to provide additional methods of sentencing, and for other purposes.

H. R. 4142 ..... Public Law 85–757
An Act to amend the Act creating the City of Clinton Bridge Commission and authorizing said commission and its successors to acquire by purchase or condemnation and to construct, maintain, and operate a bridge or bridges across the Mississippi River at or near Clinton, Iowa, and at or near Fulton, Illinois, in order to make certain changes in the authority of such commission, and for other purposes.

H. R. 6382 ..... Public Law 85–747
An Act to subject naval ship construction to the Act of June 30, 1936 (49 Stat. 2036), as amended.

H. R. 7866 ..... Public Law 85–755
An Act to amend title 28, United States Code, relating to the Court of Customs and Patent Appeals.

H. R. 8002 ..... Public Law 85–759
An Act to provide for improved methods of stating budget estimates and estimates for deficiency and supplemental appropriations.

H. R. 9627 ..... Public Law 85–753
An Act to authorize the Secretary of the Interior to convey certain lands in Alaska to the city of Ketchikan, Alaska.

H. R. 9673 ..... Public Law 85–754
An Act to restore retired pay to those retired officers of the Armed Forces dropped from the rolls after December 31, 1954, and before the date of enactment of this Act, and for other purposes.

H. R. 9740 ..... Public Law 85–758
An Act to convey certain land to the Makah Tribe of Indians.

H. R. 10173 ..... Public Law 85–756
An Act to provide for the transfer of title to certain land at Sand Island, Territory of Hawaii, to the Territory of Hawaii, and for other purposes.

H. R. 11133 ..... Public Law 85–749
An Act to amend section 7 of the Administrative Expenses Act of 1946, as amended, to provide for the payment of travel and transportation cost for persons selected for appointment to certain positions in the continental United States and Alaska, and for other purposes.

H. R. 12967 ..... Public Law 85–750
An Act to amend the Fair Labor Standards Act of 1938 with respect to the frequency of review of minimum wage rates established for Puerto Rico and the Virgin Islands.

H. R. 13404 ..... Public Law 85–751
An Act to amend section 404 (c) (1) of the Postal Field Service Compensation Act of 1955 to grant longevity credit for service performed in the Panama Canal Zone postal service.

Acts Approved August 26, 1958

H. R. 8868 ..... Public Law 85–760
An Act to remove the present $1,000 limitation which prevents the settlement of certain claims arising out of the crash of an aircraft belonging to the United States at Worcester, Massachusetts, on July 18, 1957.

TITLE 2—THE CONGRESS

ACTS APPROVED BY THE PRESIDENT

CROSS REFERENCE: For listing of current public laws approved by the President, see last page of this issue.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 20-7]

PART 20—PILOT AND INSTRUCTOR CERTIFICATES

GRADUATES OF CERTIFICATED FLYING SCHOOLS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of August 1958.

Section 20.110 (a) of revised Part 20 deals with the special issuance of pilot certificates to graduates of certificated flying schools. This section recognizes the advantages of an organized training curriculum in an approved school and for this reason gives a graduate of a certificated flying school full credit for having met the aeronautical experience requirements set forth in Part 20 even though the experience requirements established for certificated schools under Part 50 of the Civil Air Regulations are slightly lower than the experience requirements of Part 20. However, the proviso to this section states that a graduate of an approved school who is an applicant for an instrument rating or a limited flight instructor certificate shall meet the aeronautical experience requirements for the issuance of a commerical pilot certificate of Part 20. This section could thus be construed to mean that a graduate of an approved school would be given full credit for his aeronautical experience in acquiring a commercial pilot certificate but that once he had acquired such certificate this same experience would not be sufficient to enable him to apply for an instrument rating or limited flight instructor certificate. This was not the Board's intent.

For many years, Part 20 provided that a graduate of a certificated flying school who was applying for an instrument rating or flight instructor certificate was deemed to have met the aeronautical experience requirements of Part 20 if he were the holder of a commercial pilot certificate or a private pilot who met the aeronautical experience requirements for the issuance of a commercial certificate under Part 20. It was not the Board's intent in the revision of Part 20 to change the substance of the foregoing provision but merely to restate it in simplified language.

Therefore, in order to clarify § 20.110 (a) so that it clearly expresses the Board's intent, it is necessary to amend the proviso to that section to provide that an applicant for an instrument rating or a limited flight instructor certificate shall be the holder of a valid commercial pilot certificate or the holder of a private pilot certificate who meets the aeronautical experience requirements of Part 20 for the issuance of a commercial pilot certificate.

Since this amendment is clarifying in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 20 of the Civil Air Regulations (14 CFR Part 20, as amended) effective August 25, 1958.

By amending the proviso of § 20.110 (a) to read as follows: *"Provided,* That an applicant for an instrument rating or a limited flight instructor certificate shall be (1) the holder of a commercial pilot certificate, or (2) the holder of a private pilot certificate who meets the aeronautical experience requirements for the issuance of a commercial pilot certificate as set forth in § 20.44."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 602, 610, 52 Stat. 1008, 1012, as amended; 49 U. S. C. 552, 560)

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter B—Food and Food Products

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

INCREASED TOLERANCES FOR RESIDUES OF SODIUM O-PHENYLPHENATE

A petition was filed with the Food and Drug Administration by Vis-Ko, Inc., 925 Kincaid Avenue, Sumner, Washington, requesting the establishment of increased tolerances for residues of sodium o-phenylphenate, calculated as o-phenylphenol, in or on apples and pears.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which the increased tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the increased tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (23 F. R. 6403) are amended as follows:

1. Section 120.129 is amended by deleting paragraph (d) and renumbering paragraphs (b) and (c) as (c) and (d), respectively.

2. Section 120.129 is further amended by inserting therein a new paragraph (b).

3. As amended, § 120.129 reads as follows:

§ 120.129 *Tolerances for residues of sodium o-phenylphenate.* Tolerances are established as follows for residues from postharvest application of sodium o-phenylphenate, calculated as o-phenylphenol:

(a) 125 parts per million in or on cantaloups, of which not more than 10 parts per million shall be in the edible portion.

(b) 25 parts per million in or on apples, pears.

(c) 20 parts per million in or on peaches.

(d) 10 parts per million in or on citrus citron, grapefruit, kumquat, lemons, limes, oranges, pineapple, tangelos, tangerines.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 511; 21 U. S. C. 346a)

Dated: August 22, 1958.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F. R. Doc. 58-6975; Filed, Aug. 27, 1958; 8:49 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF TOTAL COMBINED BROMINE IN OR ON CHERRIES AND PLUMS AFTER FUMIGATION WITH ETHYLENE DIBROMIDE

Correction

In F. R. Document 58-6832 appearing in the issue for Saturday, August 23, 1958, at page 6553 make the following change: In the first paragraph, line 8, the word "on" should read "no".

Subchapter C—Drugs

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F. R. 1045), the regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR, 1957 Supp., 146b.116, 146c.237) are amended as indicated below:

1. Section 146b.116 *Streptomycylidene isonicotinyl hydrazine sulfate* is amended in paragraph (c) *Labeling* by changing the comma preceding the clause beginning "and its expiration date • • •" to a period and deleting the remainder of the paragraph.

2. Section 146c.237 *Chlortetracycline-neomycin-streptomycin ointment* • • • is amended by changing the words "18 months" in paragraph (b) to read "36 months."

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for these amendments.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: August 21, 1958.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6306]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

REPORTING AND SUBSTANTIATION OF TRAVELING AND OTHER BUSINESS EXPENSES OF EMPLOYEES

On March 12, 1958, notice of proposed rule making regarding the regulations for taxable years beginning after December 31, 1957, relating to the reporting and substantiation of traveling and other business expenses, was published in the FEDERAL REGISTER (23 F. R. 1698) as Part 19 of 26 CFR. No requests for a public hearing were received. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the following regulations are hereby adopted by amending the Income Tax Regulations (26 CFR Part 1) under section 162 of the Internal Revenue Code of 1954, relating to trade or business expenses, which were issued

as Treasury Decision 6291 (23 F. R. 2244), approved April 3, 1958, as follows:

PARAGRAPH 1. Section 1.162–2 is amended by adding immediately after paragraph (e) thereof the following new paragraph (f):

(f) For rules with respect to the reporting and substantiation of traveling and other business expenses of employees for taxable years beginning after December 31, 1957, see § 1.162–17.

PAR. 2. There is added immediately after § 1.162–16 the following new section:

§ 1.162–17 *Reporting and substantiation of traveling and other business expenses of employees*—(a) *Introductory.* The purpose of the regulations in this section is to provide rules for the reporting of information on income tax returns by taxpayers who pay or incur ordinary and necessary business expenses in connection with the performance of services as an employee and to furnish guidance as to the type of records which will be useful in compiling such information and in its substantiation, if required. The rules prescribed in this section do not apply to expenses paid or incurred for incidentals, such as office supplies for the employer or local transportation in connection with an errand. Employees incurring such incidental expenses are not required to provide substantiation for such amounts. The term "ordinary and necessary business expenses" means only those expenses which are ordinary and necessary in the conduct of the taxpayer's business and are directly attributable to such business. The term does not include nondeductible personal, living or family expenses.

(b) *Expenses for which the employee is required to account to his employer*—(1) *Reimbursements equal to expenses.* The employee need not report on his tax return (either itemized or in total amount) expenses for travel, transportation, entertainment, and similar purposes paid or incurred by him solely for the benefit of his employer for which he is required to account and does account to his employer and which are charged directly or indirectly to the employer (for example, through credit cards) or for which the employee is paid through advances, reimbursements, or otherwise, provided the total amount of such advances, reimbursements, and charges is equal to such expenses. In such a case the taxpayer need only state in his return that the total of amounts charged directly or indirectly to his employer through credit cards or otherwise and received from the employer as advances or reimbursements did not exceed the ordinary and necessary business expenses paid or incurred by the employee.

(2) *Reimbursements in excess of expenses.* In case the total of amounts charged directly or indirectly to the employer and received from the employer as advances, reimbursements, or otherwise, exceeds the ordinary and necessary business expenses paid or incurred by the employee and the employee is required to and does account to his employer for such expenses, the taxpayer must include such excess in income and state on his return that he has done so.

(3) *Expenses in excess of reimbursements.* If the employee's ordinary and necessary business expenses exceed the total of the amounts charged directly or indirectly to the employer and received from the employer as advances, reimbursements, or otherwise, and the employee is required to and does account to his employer for such expenses, the taxpayer may make the statement in his return required by subparagraph (1) of this paragraph unless he wishes to claim a deduction for such excess. If, however, he wishes to secure a deduction for such excess, he must submit a statement showing the following information as part of his tax return:

(i) The total of any charges paid or borne by the employer and of any other amounts received from the employer for payment of expenses whether by means of advances reimbursements or otherwise; and

(ii) The nature of his occupation, the number of days away from home on business, and the total amount of ordinary and necessary business expenses paid or incurred by him (including those charged directly or indirectly to the employer through credit cards or otherwise) broken down into such broad categories as transportation, meals and lodging while away from home overnight, entertainment expenses, and other business expenses.

(4) To "account" to his employer as used in this section means to submit an expense account or other required written statement to the employer showing the business nature and the amount of all the employee's expenses (including those charged directly or indirectly to the employer through credit cards or otherwise) broken down into such broad categories as transportation, meals and lodging while away from home overnight, entertainment expenses, and other business expenses. For this purpose, the Commissioner in his discretion may approve reasonable business practices under which mileage, per diem in lieu of subsistence, and similar allowances providing for ordinary and necessary business expenses in accordance with a fixed scale may be regarded as equivalent to an accounting to the employer.

(c) *Expenses for which the employee is not required to account to his employer.* If the employee is not required to account to his employer for his ordinary and necessary business expenses, e. g., travel, transportation, entertainment, and similar items, or, though required, fails to account for such expenses, he must submit, as a part of his tax return, a statement showing the following information:

(1) The total of all amounts received as advances or reimbursements from his employer in connection with the ordinary and necessary business expenses of the employee, including amounts charged directly or indirectly to the employer through credit cards or otherwise; and

(2) The nature of his occupation, the number of days away from home on business, and the total amount of ordinary and necessary business expenses paid or incurred by him (including those charged directly or indirectly to the employer through credit cards or otherwise) broken down into such broad categories as transportation, meals and lodging while away from home overnight, entertainment expenses, and other business expenses.

(d) *Substantiation of items of expense.* (1) Although the Commissioner may require any taxpayer to substantiate such information concerning expense accounts as may appear to be pertinent in determining tax liability, taxpayers ordinarily will not be called upon to substantiate expense account information except those in the following categories:

(i) A taxpayer who is not required to account to his employer, or who does not account;

(ii) A taxpayer whose expenses exceed the total of amounts charged to his employer and amounts received through advances, reimbursements or otherwise and who claims a deduction on his return for such excess;

(iii) A taxpayer who is related to his employer within the meaning of section 267 (b); and

(iv) Other taxpayers in cases where it is determined that the accounting procedures used by the employer for the reporting and substantiation of expenses by employees are not adequate.

(2) The Internal Revenue Code contemplates that taxpayers keep such records as will be sufficient to enable the Commissioner to correctly determine income tax liability. Accordingly, it is to the advantage of taxpayers who may be called upon to substantiate expense account information to maintain as adequate and detailed records of travel, transportation, entertainment, and similar business expenses as practical since the burden of proof is upon the taxpayer to show that such expenses were not only paid or incurred but also that they constitute ordinary and necessary business expenses. One method for substantiating expenses incurred by an employee in connection with his employment is through the preparation of a daily diary or record of expenditures, maintained in sufficient detail to enable him to readily identify the amount and nature of any expenditure, and the preservation of supporting documents, especially in connection with large or exceptional expenditures. Nevertheless, it is recognized that by reason of the nature of certain expenses or the circumstances under which they are incurred, it is often difficult for an employee to maintain detailed records or to preserve supporting documents for all his expenses. Detailed records of small expenditures incurred in traveling or for transportation, as for example, tips, will not be required.

(3) Where records are incomplete or documentary proof is unavailable, it may be possible to establish the amount of the expenditures by approximations based upon reliable secondary sources of information and collateral evidence. For example, in connection with an item of traveling expense a taxpayer might establish that he was in a travel status a certain number of days but that it was impracticable for him to establish the details of all his various items of travel expense. In such a case rail fares or plane fares can usually be ascertained with exactness and automobile costs approximated on the basis of mileage covered. A reasonable approximation of meals and lodging might be based upon receipted hotel bills or upon average daily rates for such accommodations and meals prevailing in the particular community for comparable accommodations. Since detailed records of incidental items are not required, deductions for these items may be based upon a reasonable approximation. In cases where a taxpayer is called upon to substantiate expense account information, the burden is on the taxpayer to establish that the amounts claimed as a deduction are reasonably accurate and constitute ordinary and necessary business expenses paid or incurred by him in connection with his trade or business. In connection with the determination of factual matters of this type, due consideration will be given to the reasonableness of the stated expenditures for the claimed purposes in relation to the taxpayer's circumstances (such as his income and the nature of his occupation), to the reliability and accuracy of records in connection with other items more readily lending themselves to detailed record-keeping, and to all of the facts and circumstances in the particular case.

(e) *Prior regulations.* The provisions of the regulations in this section are supplemental to existing regulations relating to information required to be submitted with income tax returns, and shall be applicable with respect to taxable years beginning after December 31, 1957, notwithstanding any existing regulation to the contrary.

(Sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interprets or applies sec. 6001, 68A Stat. 731; 26 U. S. C. 6001)

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: August 22, 1958.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 581—PERSONNEL REVIEW BOARDS

ARMY DISCHARGE REVIEW BOARD

In § 581.2, amend paragraphs (d) (5), (f) (2) (i), and (g) (1), as follows:

§ 581.2 *Army Discharge Review Board.* • • •

(d) *Application for review.* • • •

(5) The request for review will be forwarded to:

The Adjutant General, U. S. Army Records Center, 9700 Page Boulevard, St. Louis 14, Mo.

• • • • • •

(f) *Hearings.* • • •

(2) *Conduct of hearings.* (i) Conduct of hearings will be, so far as practicable, as provided in AR 15–6 (Administrative Army Regulations containing procedural guide for investigating officers and boards of officers in conducting investigations). Applicant and/or his counsel may have access to the records in the case, except such classified material the disclosure of which would jeopardize Defense interest of the United States. When necessary to acquaint the applicant with the substance of a document classified by intelligence agencies, the Assistant Chief of Staff for Intelligence, Department of the Army, on the request of the board, will prepare a summary of, or extract from, the document, deleting all references to sources of information and other matter the disclosure of which, in his opinion, would be detrimental to the Defense interest of the United States.

• • • • • •

(g) *Findings and conclusions*—(1) The board will make written findings in closed session in each case.

• • • • • •

[AR 15–180, July 28, 1958] (Sec. 3012, 70A Stat. 157; 10 U. S. C. 3012. Interprets or applies sec. 301, 58 Stat. 286; 39 U. S. C. 693h)

[SEAL] HERBERT M. JONES,

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 111—POSTAL UNION MAIL

REVISION OF BOOK RATES

1. The designation in Federal Register Document 58–5877, filed July 30, 1958 (23 F. R. 5762, 5763), of September 1, 1958, as the effective date for application of amended paragraph (d) (1) of § 111.2 *Specific categories,* and amended subdivision (i) of paragraph (d) (6) of such § 111.2, to books is hereby rescinded.

2. In § 111.2 *Specific categories* make the following changes in paragraph (d):

a. Subparagraph (1), as amended (23 F. R. 5122, 5762), is further amended, to read as follows:

(1) *Surface rates.* Surface rates for printed matter to all countries are 4 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction of 2 ounces, except as follows:

(i) For rates on second-class matter mailed by publishers or registered news agents, see § 22.1 (d).

(ii) For rates on books, see subparagraph (6) of this paragraph.

(iii) For rates on raised print for the blind, see paragraph (e) of this section.

Airmail rates are shown in § 111.1 (a).

NOTE: The corresponding Postal Manual section is 221.241.

b. Subdivision (i) of subparagraph (6), as amended (23 F. R. 5122, 5762), is further amended, to read as follows:

(i) *Rates.* Surface rate for books, as described in subdivision (iii) of this subparagraph, is 8 cents each pound or fraction when addressed to the following countries:

Argentina.	Republic of Honduras.
Bolivia.	Mexico.
Brazil.	Nicaragua.
Chile.	Panama.
Colombia.	Paraguay.
Costa Rica.	Peru.
Cuba.	El Salvador.
Dominican Republic.	Uruguay.
Ecuador.	Venezuela.
Guatemala.	
Haiti.	

For all other countries, the rates are 2 cents for the first 2 ounces and 1½ cents

for each additional 2 ounces or fraction. For airmail rates, see § 111.1 (a).

NOTE: The corresponding Postal Manual section is 221.246a.

(R. S. 161, as amended, Pub. Law 85-619, 396, as amended, 398, as amended; 5 U. S. C. 22, 369, 372.)

[SEAL] HERBERT B. WARBURTON, *General Counsel.*

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1724]

[78825]

MICHIGAN

PARTLY REVOKING EXECUTIVE ORDERS OF APRIL 29, 1871, AND MARCH 27, 1906; REVOKING EXECUTIVE ORDER NO. 3976 OF MARCH 22, 1924, AND DEPARTMENTAL ORDER OF FEBRUARY 16, 1906 (ISLE ROYALE NATIONAL PARK)

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive Order of March 27, 1906, so far as it reserved the following-described lands at the entrance to Rock Harbor, for lighthouse purposes, is hereby revoked:

MICHIGAN MERIDIAN

T. 66 N., R. 34 W.,
Sec. 25, lot 1.

containing 1.84 acres.

2. The Executive Order of April 29, 1871, so far as it reserved Gull Island, to the eastward of Isle Royale, Lake Superior, for lighthouse purposes, is hereby revoked. The reservation consists of four islands located approximately four miles east-northeast of Passage Island, in Lake Superior, in

T. 68 N., R. 31 W.,

and contains 15 acres, more or less.

3. The order of the Secretary of the Interior of February 16, 1906, reserving the following-described islands, being a part of the group of islands known as "Isle Royale," for lighthouse purposes to mark the entrance to Rock Harbor in Lake Superior, is hereby revoked:

T. 67 N., R. 33 W.,
Sec. 24, Island No. 5 in SE¼;
Sec. 25, Island No. 20 in NE¼.

containing 6.09 acres and 9.17 acres respectively.

4. Executive Order No. 3976 of March 22, 1924, withdrawing the public lands in Isle Royale in the State of Michigan, pending determination as to the advisability of including them in a national monument, is hereby revoked.

5. The lands described in paragraphs 1, 3 and 4 of this order, are a part of the Isle Royale National Park, established pursuant to the act of March 3, 1931 (46 Stat. 1514; 16 U. S. C. 408), the area of which was increased by the act of March 6, 1942 (56 Stat. 138; 16 U. S. C. 408e, 408g, 408h), as amended.

6. The lands described in paragraph 2 of this order are unsurveyed, and will not be subject to application, location, selection, or any other form of appropriation under the public land laws until an authorized officer of the Bureau of Land Management shall issue, and have published in the FEDERAL REGISTER, a notice of the official filing of a plat of survey of the lands, which notice shall designate the time when, and manner in which applications and selections may be filed for, and rights initiated in such lands.

HATFIELD CHILSON, *Under Secretary of the Interior.*

AUGUST 21, 1958.

[F. R. Doc. 58-6951; Filed, Aug. 27, 1958; 8:45 a. m.]

[Public Land Order 1701]

[76094]

[1223224]

CALIFORNIA

CORRECTION TO PUBLIC LAND ORDER OF AUGUST 1, 1958

AUGUST 21, 1958.

In Federal Register Document No. 58-6164 in the issue of August 7, 1958, at page 5995, in paragraph numbered 2, under T. 12 S., R. 25 E., section 6, the reference should be to NE¼ of lot 1 rather than to the NE¼ of lot 4.

E. J. THOMAS, *Acting Director.*

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 931]

[Docket No. AO-229-A5]

HANDLING OF MILK IN CEDAR RAPIDS-IOWA CITY MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement, and order regulating the handling of milk in the Cedar Rapids-Iowa City marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Cedar Rapids, Iowa, on April 29-30, 1958, pursuant to notices thereof which were issued April 10 and April 22, 1958 (23 F. R. 2427 and 2770).

The material issues on the record of the hearing relate to:

1. Specifying conditions whereby a cooperative association in certain capacities may qualify as a pool plant.
2. Combining Class II milk and Class III milk into one classification.
3. Prescribing conditions under which transfers or diversions may be classified as Class II.
4. Reducing the Class I butterfat differential.
5. Revising the producer butterfat differential.
6. Modifying application of the location differentials.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. Provision should be made whereby a plant operated by a cooperative association for the benefit of the market may qualify as a pool plant.

The source of supply for all but one of the regulated plants under the order is from the farms of producer members of the Eastern Iowa Cooperative Dairy Producers. Of the 750 producers on the market approximately 650 are members of that association.

Although the cooperative association does not maintain facilities for processing producer milk in excess of handlers' requirements, it does assume the responsibility for marketing such excess milk. Producer milk not needed by handlers is received at the cooperative's plant where it is cooled and reloaded for shipment to other fluid milk markets or to manufacturing plants.

Most of the handlers supplied by producer members of the Eastern Iowa Cooperative do not operate their plants on one or more days each week. On such days the cooperative receives at its plant all of the milk of its members. The orderly marketing of milk in the Cedar Rapids-Iowa City market requires the use of this plant to which producer deliveries are moved when not needed by handlers for Class I purposes.

The cooperative association performs valuable services for the market in that it maintains an adequate supply of milk for the market's needs and assumes the responsibility of marketing all milk in excess of handlers' requirements. Permitting the cooperative association, under certain conditions, to pool the returns from the sale of producer milk which moves directly to the association's plant will contribute substantially to the orderly marketing of milk in the Cedar Rapids-Iowa City market.

The performance standards should be such that only a plant operated by a cooperative association whose major function is the supplying of milk to the market would be allowed to share in the marketwide pool. This can best be accomplished by designating as a pool plant a plant that is operated by a cooperative association whose members are the majority of the total number of producers on the market and whose shipments to pool plants are at least 50 percent of the receipts at all pool plants during the month.

All milk from the farms of producers under the Cedar Rapids-Iowa City order is transported in tank trucks. The Eastern Iowa Cooperative Dairy Producers is the principal owner and operator of such tank trucks in which milk is moved from producers' farms to the plants of the various handlers in Cedar Rapids and Iowa City. The weights and butterfat content of each producer's delivery are ascertained at the farm by a representative of the cooperative. Plant operators receiving such milk have no such information except as it is made available to them by the cooperative. Under these conditions it would be administratively feasible for such plant operators to pay the cooperative association at least the applicable class prices and for the cooperative association to account to the producer settlement fund for such milk. Enabling a cooperative association to obtain pool plant status with respect to milk received at producers' farms in tank trucks owned or operated by such association will accomplish this objective.

2. Class II milk should include all the butterfat and skim milk heretofore defined as Class II and Class III milk. This proposal, made by the producer association, was unopposed at the hearing.

Class II milk now includes all skim milk and butterfat not accounted for as Class III milk and used to produce any product other than a fluid milk product. Class III milk is skim milk and butterfat (1) used to produce butter, cheddar cheese, animal feed, casein and nonfat dry milk; (2) contained in the month-end inventory of fluid milk products; (3) in shrinkage up to 2 percent of receipts of producer milk; and (4) in shrinkage of other source milk.

The Class II price under the order is the average of the prices paid by 7 nearby manufacturing plants (6 in Illinois and one in Iowa) for milk received from dairy farmers from the 16th day of the preceding month to the 15th day of the current month. The Class III price is the price obtained from a formula which uses as its basis the 92-score Chicago butter price and the price of nonfat dry milk, f. o. b. manufacturing plants in the Chicago area.

The amount by which the Class II price exceeds the Class III price varies from month to month. From 1954 through 1957 the average Class II price of $3.00 was 14 cents above that for Class III. The March 1958 Class II and Class III prices were $3.10 and $2.86, respectively.

The skim milk and butterfat components of Class II and Class III milk are priced by adjusting the announced prices, which are on a 3.5 percent butterfat basis, by their respective butterfat differentials. The Class II butterfat differential is obtained by multiplying the Chicago butter price for the month by 0.120 and that for Class III is calculated by subtracting 6 cents from Chicago butter price, and multiplying the resultant value by 0.120. The Class III butterfat differential for March 1958 was equivalent to 0.108 times the Chicago butter price.

The average difference between the Class II and Class III butterfat differentials from 1954 through 1957 was 0.7 cents per point. The spread of 0.7 cents per point between the March 1958 Class II and Class III butterfat differentials of 7.1 and 6.4 cents, respectively, is equivalent to 7 cents per pound of butterfat and 24.5 cents per hundredweight of 3.5 percent milk. Since the announced Class II price for March 1958 exceeded the Class III price by less than 24.5 cents, the skim milk classified in Class II was priced at a lesser rate than the skim milk in Class III—63.7 cents compared to 64.4 cents per hundredweight. For 1957 the Class II skim milk price under the order averaged 59.2 cents and that for Class III 65.2 cents.

The utilization of skim milk for manufacturing purposes by the major handlers in the Cedar Rapids-Iowa City market is predominantly in the higher valued manufacturing products, such as cottage cheese. Skim milk thus utilized has heretofore been classified as Class II. As indicated above, however, producers have been receiving a lesser price for such skim than for skim utilized in the production of nonfat dry milk solids (Class III).

Health authorities in the marketing area do not require that skim milk utilized in other than Class I products be obtained from milk or milk products from approved Grade A sources. Skim milk from any source may be used in the various dispositions heretofore contained in Class II or Class III. Grade A skim milk not needed for fluid disposition in the Cedar Rapids-Iowa City market must compete for sales with skim milk from ungraded sources. It is concluded therefore that the price of skim milk in all such dispositions should be fixed at the same level and be classified in Class II.

In reapportioning the Class II price between the skim milk and butterfat thus classified, in conjunction with combining Class II and Class III milk into one class, it is necessary to fix a price for butterfat which will, insofar as is practicable, return the highest price obtainable to producers for such butterfat and at the same time be sufficiently competitive with butterfat from alternative sources of supply so as to maintain a ready and dependable market for excess butterfat throughout the year. This will be best effectuated by pricing butterfat in producer milk classified in Class II at 110 percent of the Chicago butter price.

The butterfat differential herein provided (about 1.2 cents per pound of butterfat above the Class III price for butterfat now in the order) will facilitate the movement of butterfat in the reserve supplies of milk to manufacturing outlets and thereby eliminate the potentialities of unstable marketing conditions that milk without a market tends to create. On the other hand, the Class II butterfat differential here proposed is sufficiently high so as not to give an undue incentive to the movement of butterfat for manufacturing purposes at the expense of available Class I outlets.

The pricing of skim milk that would be obtained in reapportionment of the Class II price between skim milk and butterfat as herein recommended would be 21 and 12 cents per hundredweight, respectively, above the Class II and Class III prices for skim milk now provided in the order. This change together with that applicable to the assignment of a lower proportionate value of the Class II price to the butterfat classified therein gives recognition to the value of skim milk and butterfat for manufacturing purposes in the Cedar Rapids-Iowa City area and will be helpful in maintaining stability in the market. Moreover, the pricing of skim milk and butterfat for manufacturing uses as herein provided approximates that in the nearby Federal order markets of Quad Cities and North Central Iowa, handlers under which orders are in substantial competition with handlers regulated by the Cedar Rapids-Iowa City order in both procurement and sales.

The Class II price is now calculated by averaging the prices paid for ungraded milk by 7 local manufacturing plants from the 16th day of the preceding month through the 15th day of the current month. Payments to farmers at such plants for ungraded milk are made twice monthly. Under present conditions there is a lag of a half month in using the prices paid at these manufacturing plants in computing the Class II price. It was indicated that it is now possible to obtain these prices promptly enough so that the prices paid for both halves of the same month can be used in computing the Class II price for such month. Accordingly, provision should be made to effectuate this more practical procedure.

3. As proposed by producers, skim milk and butterfat should be classified as Class I if transferred or diverted in the form of a fluid milk product to non-

pool plants located more than 300 miles from the nearer of the cities of Cedar Rapids and Iowa City. Fluid milk products transferred or diverted to a nonpool plant located not more than 300 miles from the nearer of Cedar Rapids and Iowa City should be classified as Class I unless certain conditions are met.

The most favorable outlets for producer milk not needed for Class I purposes by regulated handlers are at considerable distances from the marketing area. Such milk is shipped, principally by the cooperative association to plants in Illinois, Missouri, and Wisconsin, both for fluid use and for manufacturing. Until recently adequate facilities for manufacturing such excess milk have been maintained at various locations in and near the marketing area. Such outlets, however, are no longer available and it has been necessary to find markets for such milk outside the State of Iowa.

When skim milk or butterfat is transferred or diverted to a nonpool plant the market administrator is required to verify the utilization claimed by such nonpool handler. It may be expected that the market administrator is able to make verification within a reasonable "surplus disposal area" without incurring undue expense. It would not, however, be administratively feasible or otherwise justifiable to have a surplus disposal area of unlimited expanse or to cover a geographical area which is larger than that within the 300 mile radius from the marketing area as proposed by producers and provided herein.

Failing to provide for such a mileage limitation at this time might well make unreasonable demands on the market administrator in connection with the verification of occasional or irregular shipments to nonpool plants located beyond 300 miles from the marketing area. There are adequate facilities within 300 miles of Cedar Rapids and Iowa City to handle seasonal and daily reserve supplies of producer milk. Accordingly, the order should provide that skim milk and butterfat shall be classified as Class I milk if transferred or diverted from a pool plant in the form of a fluid milk product to a nonpool plant located more than 300 miles by the shortest highway distance as determined by the market administrator from the nearer of the city halls of Cedar Rapids and Iowa City.

The order now provides that transfers of fluid milk products in bulk to nonpool plants may be assigned to any available Class II and Class III milk in the receiving nonpool plant. Thus, such transfers now have no priority in the assignment of available Class I milk at the nonpool plant even though they may have been used solely for Class I purposes. Producers claim that the present transfer provisions in this regard give inequitable consideration to the classification of pooled milk that is moved to nonpool plants.

Before transfers or diversions (to nonpool plants located within 300 miles from the nearer of Cedar Rapids and Iowa City) may be classified as Class II milk, it should be ascertained that the fluid milk products disposed of from the receiving nonpool plant do not exceed the receipts of skim milk and butterfat in milk received during the month from Grade A dairy farms directly supplying such plant. However, if the fluid milk products disposed of from the receiving nonpool plant exceed the receipts of skim milk and butterfat from Grade A dairy farms regularly suppiying such plant, the difference should be assigned to the fluid milk products transferred or diverted from a pool plant and classified as Class I milk. If the transfers and diversions to the nonpool plant during the month are from two or more plants subject to the provisions of this and other orders issued pursuant to the act, the skim milk and butterfat assigned to Class I milk at each such pool plant under the Cedar Rapids-Iowa City order should be not less than that obtained by prorating the assignable Class I milk at the nonpool plant over the receipts from all plants subject to the provisions of this and other orders issued pursuant to the Act.

The method herein recommended for classifying transfers and diversions from pool plants to nonpool plants accords equitable treatment to Cedar Rapids-Iowa City order handlers and gives appropriate recognition to handlers in other regulated markets in the classification of milk transferred to a common nonpool plant. Giving priority to the graded dairy farms directly supplying a nonpool plant recognizes that they are the regular and dependable source of supply of milk for fluid use at such plant. The proposed method of classification will safeguard the primary functions of the transfer provisions of the order by promoting orderly disposal of reserve supplies and in assuring that shipments to nonpool plants will be classified in an equitable manner.

4. The rate of the Class I butterfat differential should be changed. The differential is now computed by multiplying the average of the daily quotations for 92-score butter at Chicago for the preceding month by 0.140. As provided herein, the factor of 0.140 would be replaced by 0.120.

The Class I butterfat differential in the Cedar Rapids-Iowa City market is high in relation to the Class I butterfat differential in other markets. For example, in the North Central Iowa and Quad Cities markets (with which markets Cedar Rapids-Iowa City handlers have overlapping supply and sales areas) handlers pay butterfat differentials on Class I milk of 0.120 and 0.125, respectively, times the Chicago 92-score butter price. Handlers regulated by the Chicago order pay a butterfat differential on Class I milk approximating the 92-score butter price times 0.120.

The high Class I butterfat differential, it is claimed, has been one of the principal reasons for the rapid and continuing decline in the proportion of butterfat contained in the Class I disposition in the market. This decrease of butterfat in Class I utilization is reflected in the increasing sales of low butterfat products.

A high butterfat differential tends to be a deterrent in increasing the butterfat content of fluid milk products distributed by Cedar Rapids-Iowa City handlers. The declining proportion of butterfat in the various products in the market is indicated by the average butterfat content of all Class I disposition of 3.54 percent in 1954 and 1955, 3.50 percent in 1956, and 3.44 percent in 1957.

In the Cedar Rapids-Iowa City market, as in other markets, whole milk in fluid form is the most significant item making up the Class I sales in the market. In March 1958 (the most recent month for which information was available at the hearing) 8.7 of the 10.4 million pounds of the Class I disposition were in the form of whole milk. The average test of this whole milk disposition was 3.347 percent. Since the cost to handlers for Class I milk at this test (adjusted by the lower butterfat differential here proposed) will be increased less than 2 cents per hundredweight, no change should be made in the Class I price because of the revised butterfat differential.

The change proposed herein gives recognition to the increasing value of the nonfat solids portion of the milk for fluid purposes in relation to the butterfat portion. The lower rate of the butterfat differential should give some encouragement to the sale of milk of a higher butterfat content and of cream.

5. The butterfat differential used in making payments to producers should be calculated at the average of the return actually received from the sale of butterfat in producer milk. The rate to be used for this purpose would be the average of the Class I and Class II differentials weighted by the proportion of butterfat in producer milk classified in each class. Thus, producer returns for butterfat will reflect the actual sale value of their butterfat at the class prices provided in the order. The producer butterfat differential in no way affects the handlers' cost of milk but merely prorates returns among producers whose milk differs in butterfat test.

The producer butterfat differential is now calculated by multiplying the Chicago 92-score butter price by 0.120. The method for arriving at the producer differential herein recommended, and proposed by producers, will more equitably adjust payments to producers for butterfat in this milk above or below 3.5 percent on the basis of what handlers pay for such butterfat.

6. No change should be made in applying location differential adjustments provided in the order except that location differential credits should be applicable to packaged milk transferred to another plant irrespective of the quantities of milk used in other than Class I milk in the transferee plant.

A regulated handler with distributing plants in each of the cities of Cedar Rapids and Clinton, Iowa, proposed that Clinton be included with Cedar Rapids and Iowa City as a point from which to measure mileages for the purpose of applying location differential adjustments under the order.

A location differential adjustment of minus 14.5 cents is now applicable to the Class I and uniform prices for producer milk received at the Clinton plant, which plant is 87 miles from Cedar Rapids. Including Clinton with Cedar Rapids and Iowa City as points from which to measure mileages for the purpose of applying location differential adjustments would increase the Class I and uniform prices 14.5 cents for producer milk received at such plant.

Producers shipping milk directly to Cedar Rapids or Iowa City in bulk tank trucks are charged varying hauling rates depending on the distance of their farms from such cities. For example, the Eastern Iowa Cooperative Dairy Producers charges member producers whose farms are within 15 miles of Cedar Rapids 25 cents per hundredweight for hauling. Producers whose farms are between 15 and 35 miles from Cedar Rapids pay a 30-cent per hundredweight hauling charge and producers whose farms are more than 35 miles from Cedar Rapids are assessed 35 cents per hundredweight for hauling. Producers shipping milk in bulk to the distributing plant at Clinton pay substantially less for hauling than would be the case if their milk were moved directly to the marketing area (Cedar Rapids and Iowa City). Most producers delivering to the Clinton plant pay a 22-cent per hundredweight hauling charge.

The minimum prices should be equal for all milk delivered to the marketing area. An allowance is necessary, therefore, to account for the transportation charges to the marketing area on milk received at a distance from it. The allowance of 14.5 cents on milk received at Clinton approximates the additional transportation cost of moving such milk directly to the marketing area.

Heretofore the order has provided that for the purpose of applying location differential transfers of milk between pool plants shall be assigned to the lowest class available at the transferee plant. Since the location differential adjustment does not apply to Class II or Class III milk, packaged milk transferred to a plant at which any milk was classified in these lower classes would not be eligible for the full location differential credit that would otherwise apply. Because of this, some of the packaged milk moving from a regulated plant in Clinton to another in Cedar Rapids was not allowed the location differential credit.

When the order was amended effective August 1, 1957, to provide for location differentials there were no interplant transfers of packaged milk involving plants at which a location differential credit would be applicable and such transfers were not contemplated. It was expected that this provision would apply only to interplant shipments of bulk milk. The suspension order issued May 15, 1958 (23 F. R. 3438), allowed the proponent handler the location differential credit on packaged milk transferred to another plant irrespective of whether any milk was classified in Class II or Class III milk in the transferee plant.

To insure that milk will not be moved unnecessarily at the expense of producers, however, the order should contain a provision to determine whether milk transferred in bulk between pool plants may receive the location differential credit. This should provide that any milk transferred in bulk be assigned to any Class II use remaining in the transferee plant after a maximum assignment of 5 percent of the direct producer receipts to Class II milk at such plant.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order amending the order. The following order amending the order regulating the handling of milk in the Cedar Rapids-Iowa City marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

DEFINITIONS

§ 931.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 931.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 931.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 931.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 931.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 931.6 *Cedar Rapids-Iowa City marketing area.* "Cedar Rapids-Iowa City marketing area", hereinafter called the "marketing area", means all the territory within the corporate limits of the cities of Cedar Rapids and Iowa City, both in the State of Iowa.

§ 931.7 *Producer.* "Producer" means any person, except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is received at a pool plant.

§ 931.8 *Distributing plant.* "Distributing plant" means a plant in which any Grade A fluid milk product is processed or packaged and disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 931.9 *Supply plant.* "Supply plant" means a plant from which Grade A milk, skim milk or cream is shipped during the month to a pool plant qualified pursuant to § 931.10 (a).

§ 931.10 *Pool plant.* "Pool plant" means:

(a) A distributing plant from which a volume of Class I milk equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area.

(b) A supply plant from which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month:

Provided, That if such shipments are not less than 50 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year.

(c) A cooperative association with respect to Grade A milk received from dairy farmers at their farms in a tank truck owned or operated by such cooperative association and delivered in such tank truck to a pool plant: *Provided*, That such milk shall be deemed to have been received by the cooperative association at the location of the pool plant to which it is delivered by the tank truck and such location shall be deemed to be the location of such cooperative association in its capacity as the operator of a supply plant.

(d) A plant that is operated by a cooperative association whose members are the majority of the total number of producers shipping to pool plants: *Provided*, That the total quantities of producer milk received from members of the cooperative association at pool plants during the month is not less than 50 percent of the total pounds of producer milk received at all pool plants during the month: *Provided further*, That if written application is filed with the market administrator on or before the 5th day of any month such plant may be designated a nonpool plant for such month and for any subsequent months: *And provided further*, That such plant shall be a nonpool plant during any month in which it would be subject to the classification and pricing provisions of another order issued pursuant to the act unless a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets and pool plants in the Cedar Rapids-Iowa City marketing area than in the marketing area regulated pursuant to such other order.

§ 931.11 *Nonpool plant.* "Nonpool plant" means any plant other than a pool plant that receives milk from dairy farmers or is a milk manufacturing, processing, or bottling plant.

§ 931.12 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants or in his capacity as the operator of a distributing plant that is not a pool plant, and

(b) A cooperative association with respect to producer milk diverted by the association for its account pursuant to § 931.14.

§ 931.13 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers.

§ 931.14 *Producer milk.* "Producer milk" means the skim milk and butterfat contained in milk received at a pool plant directly from producers: *Provided*, That milk diverted from a pool plant to a nonpool plant for the account of either the operator of the pool plant or a cooperative association shall be deemed to have been received by the diverting handler at the plant from which diverted: *And provided further*, That in any of the months of July through March milk diverted from the farm of a producer on more than the number of days that milk was delivered to a pool plant from such farm during the month shall not be deemed to have been received by the diverting handler at the plant from which diverted on such days.

§ 931.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream or any mixture in fluid form of skim milk and cream (except aerated cream products, ice cream mix, evaporated or condensed milk and sterilized products packaged in hermetically sealed containers).

§ 931.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, (2) producer milk, or (3) inventory at the beginning of the month; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 931.17 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department.

MARKET ADMINISTRATOR

§ 931.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 931.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 931.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 931.87: (1) The cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 931.88, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties.

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate the name of any person who within 10 days after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 931.30 and 931.31, or payments pursuant to §§ 931.80, 931.84, 931.86, 931.87 and 931.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(i) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(j) Publicly announce on or before:

(1) The 5th day of each month, the minimum price for Class I milk pursuant to § 931.50 (a) and the Class I butterfat differential pursuant to § 931.51 (a) both for the current month; and the minimum price for Class II milk pursuant to § 931.50 (b) and the Class II butterfat differential pursuant to § 931.51 (b), both for the preceding month; and

(2) The 10th day after the end of each month the uniform price pursuant to § 931.71 and the producer butterfat differential pursuant to § 931.81; and

(k) On or before the 10th day after the end of each month, report to each cooperative association which so requests, the percentage of the milk caused to be delivered by the cooperative association or its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report, the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

REPORTS, RECORDS AND FACILITIES

§ 931.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report for such month to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) The quantities of skim milk and butterfat contained in producer milk diverted to nonpool plants pursuant to § 931.14;

(e) Inventories of fluid milk products on hand at the beginning and end of the month;

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area; and

(g) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

§ 931.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator on or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer:

(1) His name and address,

(2) The total pounds of milk received from such producer,

(3) The number of days, if less than the entire month, for which milk was received from such producer,

(4) The average butterfat content of such milk, and

(5) The net amount of such handler's payment together with the price paid and the amount and nature of any deductions.

§ 931.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations.

§ 931.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 931.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat which are required to be reported pursuant to § 931.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 931.41 through 931.46.

§ 931.41 *Classes of utilization.* Subject to the conditions set forth in § 931.44 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of a fluid milk product and (2) not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product; (2) contained in inventory of fluid milk products on hand at the end of the month; and (3) in shrinkage allocated to receipts of producer milk (except milk diverted to a nonpool plant pursuant to § 931.14) and other source milk (received in the form of a fluid milk product in bulk) but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively.

§ 931.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and in other source milk that was received in the form of a fluid milk product in bulk.

§ 931.43 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 931.44 *Transfers.* Skim milk and butterfat disposed of each month from a pool plant shall be classified:

(a) As Class I milk, if transferred in the form of a fluid milk product to the pool plant of another handler, unless utilization in another class is claimed by both handlers in their reports submitted for the month to the market administrator pursuant to § 931.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 931.46 and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk of both handlers;

(b) As Class I milk, if transferred to a producer-handler in the form of a fluid milk product;

(c) As Class I milk, if transferred or diverted in the form of a fluid milk product to a nonpool plant located more than 300 miles, by the shortest highway distance as determined by the market administrator, from the nearer of the city halls of Cedar Rapids and Iowa City, Iowa; and

(d) As Class I milk, if transferred or diverted in the form of a fluid milk product in bulk to a nonpool plant located not more than 300 miles, by the shortest highway distance as determined by the market administrator, from the nearer of the city halls of Cedar Rapids and Iowa City, Iowa, unless:

(1) The transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 931.30 for the month within which such transactions occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat in the fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from such nonpool plant do not exceed the receipts of skim milk and butterfat in milk received during the month directly from Grade A dairy farms that the market administrator determines constitute the regular source of supply for such plant: *Provided*, That any skim milk or butterfat in fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from the nonpool plant which is in excess of receipts from such dairy farms shall be assigned to the fluid milk products so transferred or diverted and classified as Class I milk: *And provided further*, That if the total skim milk and butterfat which were transferred or diverted during the month to such nonpool plant from all plants subject to the classification and pricing provisions of this order and other orders issued pursuant to the act is less than the skim milk and butterfat available for assignment to Class I milk pursuant to the preceding proviso hereof, the assignment to Class I milk at a pool plant shall be not less than that obtained by prorating the assignable Class I milk

at the transferee plant over the receipts at such plant from all plants subject to the classification and pricing provisions of this and other orders issued pursuant to the act.

§ 931.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in each class for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all of the water reasonably associated with such solids in the form of whole milk.

§ 931.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 931.45 the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 931.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which were not subject to the Class I pricing provisions of an order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less;

(5) Subtract from the remaining pounds of skim milk in each class in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which are subject to the Class I pricing provisions of another order issued pursuant to the act.

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers according to the classification of such products as determined pursuant to § 931.44 (a);

(8) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month; and

(9) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 931.50 *Class prices.* Subject to the provisions of §§ 931.51 and 931.52 the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the price for Class I milk established under Federal Order No. 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, plus 15 cents.

(b) *Class II milk price.* The Class II milk price shall be the average of the basic or field prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Plant Location

Amboy Milk Products Co., Amboy, Ill.
Borden Co., Dixon, Ill.
Borden Co., Sterling, Ill.
Carnation Co., Morrison, Ill.
Carnation Co., Oregon, Ill.
Carnation Co., Waverly, Iowa.
United Milk Products Co., Argo Fay, Ill.

§ 931.51 *Butterfat differentials to handlers.* For milk containing more or less than 3.5 percent butterfat, the class prices for the month calculated pursuant to § 931.50 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.120.

(b) *Class II price.* Multiply the Chicago butter price for the current month by 0.110.

§ 931.52 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 50 miles or more from the Cedar Rapids and Iowa City, Iowa, City Halls, by the shortest hard surfaced highway distance as determined by the market administrator, and which is classified as Class I milk, the price specified in § 931.50 (a) shall be reduced by 10 cents for the first 65 miles or less and by 1.5 cents for each additional 10 miles or fraction thereof that such plant is from the nearer of the Cedar Rapids and Iowa City City Halls: *Provided*, That for the purpose of calculating the location differential adjustment applicable pursuant to this section, fluid milk products which are transferred in bulk between pool plants shall be assigned to any remainder of Class II milk in the transferee plant after making the calculations prescribed in § 931.46 (a) (5) and the comparable steps in § 931.46 (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable to each plant, beginning with the plant having the largest differential.

§ 931.53 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 931.60 *Producer-handler.* Sections 931.40 to 931.46, 931.50 to 931.52, 931.70, 931.71, and 931.80 to 931.88, shall not apply to a producer-handler.

§ 931.61 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant is qualified as a pool plant pursuant to § 931.10 and a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets and to pool plants in the Cedar Rapids-Iowa City marketing area than in the marketing area regulated pursuant to such other order: *Provided*, That the operator of a distributing plant or a supply plant which is exempt from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 931.30) and allow verification of such reports by the market administrator.

§ 931.62 *Handlers operating nonpool plants.* None of the provisions from §§ 931.44 to 931.52, inclusive, or from §§ 931.70 to 931.85, inclusive, shall apply in the case of a handler in his capacity as the operator of a nonpool plant, except that such handler shall, on or before the 13th day after the end of each month pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of as Class I milk from such plant to retail or wholesale outlets (including sales by vendors and plant stores) in the marketing area during the month, by the rate determined pursuant to § 931.63.

§ 931.63 *Rate of payment on unpriced milk.* The rate of payment per

hundredweight to be made by handlers on unpriced other source milk allocated to Class I milk shall be any plus amount obtained by subtracting from the Class I price adjusted by the Class I butterfat and location differentials applicable at a pool plant of the same location as the nonpool plant supplying such other source milk:

(a) During the months of December through June, the Class II price adjusted by the Class I butterfat differential; and

(b) During the months of July through November, the uniform price adjusted by the Class I butterfat differential.

DETERMINATION OF UNIFORM PRICE

§ 931.70 *Computation of value of milk for each handler.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 931.46 (a) (9) and the corresponding step of § 931.46 (b) by the applicable class prices;

(c) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the lesser of (1) the hundredweight of producer milk classified in Class II less shrinkage during the preceding month or (2) the hundredweight of milk subtracted from Class I pursuant to § 931.46 (a) (8) and the corresponding step of § 931.46 (b);

(d) Add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 931.46 (a) (2) and (3) and the corresponding step of § 931.46 (b) by the rate of payment on unpriced milk determined pursuant to § 931.63 at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided*, That if the source of any Class I products at a pool plant is not clearly established or if such skim milk is in the form of nonfat dry milk, they shall be considered to have been received from a source at the location of the pool plant where they are classified.

§ 931.71 *Computation of uniform price.* For each of the months the market administrator shall compute a uniform price for producer milk of 3.5 percent butterfat content f. o. b. pool plants located within 50 miles of the City Hall of Cedar Rapids or Iowa City, as follows:

(a) Combine into one total the values computed pursuant to § 931.70 for all handlers who made the reports prescribed in § 931.30 for such month, except those in default of payments required pursuant to § 931.84 for the preceding month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is less or more, respectively, than 3.5 percent, an amount computed by multiplying such differences by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add an amount equal to the sum of the location differential deductions to be made pursuant to § 931.62;

(d) Add an amount equal to one-half of the unobligated cash balance in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section.

PAYMENT FOR MILK

§ 931.80 *Time and method of payment for producer milk.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of each month during which the milk was received, to each producer for milk received from him and for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, at not less than the uniform price computed in accordance with § 931.71, subject to the butterfat differential computed pursuant to § 931.81 and less location differential deductions pursuant to § 931.82.

(b) On or before the 12th day after the end of each month during which the milk was received, to a cooperative association for milk which it caused to be delivered to such handler from producers, if such cooperative association is authorized to collect such payments for its member producers and exercises such authority, an amount equal to the sum of the individual payments otherwise payable to such producers.

(c) On or before the 10th day after the end of each month during which milk was received at a pool plant from a cooperative association in its capacity as the operator of a pool plant pursuant to § 931.10 (c), at not less than the applicable class prices for such milk.

§ 931.81 *Butterfat differentials to producers.* The applicable uniform prices to be paid each producer pursuant to § 931.80 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 3.5 percent, respectively, at the rate determined by multiplying the total pounds of butterfat in the producer milk allocated to Class I and Class II milk during the month pursuant to § 931.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth of a cent.

§ 931.82 *Location differentials to producers.* The uniform price to be paid producers for milk received at a pool plant located 50 miles or more from the Cedar Rapids and Iowa City, Iowa, City Halls, by the shortest hard-surfaced highway distance as determined by the market administrator shall be reduced by 10 cents for the first 65 miles or less and by 1.5 cents for each additional 10 miles or fraction thereof that such plant is from the nearer of the Cedar Rapids and Iowa City, City Halls.

§ 931.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 931.62, 931.84 and 931.86, and out of which he shall make all payments to handlers pursuant to §§ 931.85 and 931.86.

§ 931.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay to the market administrator the amount by which the value of milk for such handler pursuant to § 931.70 for such month exceeds the obligation pursuant to § 931.80 of such handler to producers for milk received during the month.

§ 931.85 *Payments out of the producer-settlement fund.* On or before the 12th day after the end of each month the market administrator shall pay to each handler the amount by which the obligation pursuant to § 931.80 of such handler to producers for milk received during the month exceeds the value of milk for such handler computed pursuant to § 931.70: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 931.80 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 931.86 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due; and payment thereof shall be made on or before the next date for making payment set forth in the provisions under which such error occurred.

§ 931.87 *Expense of administration.* As his pro rata share of the expense of the administration of the order, each handler shall pay to the market administrator on or before the 12th day after the end of each month 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to butterfat and skim milk contained in (a) producer milk, (b) other source milk at a pool plant which is allocated to Class I milk pursuant to § 931.46, and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 931.88 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 931.80 shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from such producer (except such handler's own farm production) during the month, and shall pay such deductions to the market administrator not later than the 12th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall, in lieu of the deductions specified in paragraph (a) of this section, make such deductions as are authorized by such producers and, on or before, the 12th day after the end of each month, pay over such deductions to the association rendering such services.

§ 931.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money, irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8c (15) (A) of the Act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transactions involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 931.90 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 931.91 *Suspension or termination.* The Secretary shall, whenever he finds this subpart, or any provision hereof, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this subpart or any such provision of this subpart.

§ 931.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations hereunder the final accural or ascertainment of which require further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 931.93 *Liquidation.* Upon the suspension or termination of provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all accounts, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 931.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 931.101 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstance is held invalid, the application of such provision and of the remaining provisions of this subpart to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 26th day of August 1958.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

Agricultural Research Service

[9 CFR Parts 145, 146, 147]

NATIONAL POULTRY AND TURKEY IMPROVEMENT PLANS AND AUXILIARY PROVISIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that the Department of Agriculture has under consideration proposed amendments of the National Poultry Improvement Plan and the National Turkey Improvement Plan and Auxiliary Provisions recommended by the 1958 Conference of representatives of the State agencies cooperating in the administration of the Plans, and that, pursuant to section 101 (b) of the Department of Agriculture Organic Act of 1944, as amended (7 U. S. C. 429), it is proposed to amend Parts 145, 146 and 147 of Title 9, Code of Federal Regulations, to incorporate such recommended amendments and to make incidental changes for clarity and consistency. Said Parts 145, 146 and 147 would be amended in the following respects:

1. Section 145.4 would be amended by adding a new paragraph (f), to read:

(f) Each shipment of products to points outside the continental United States shall be accompanied by a properly executed Form NPIP–15F, Report of Sales of Hatching Eggs, Chicks and Poults (For Shipment Outside the United States).

2. Section 145.6 would be amended by changing paragraphs (a) and (e) to read, respectively:

(a) Hatcheries, including brooder rooms, shall be kept in sanitary condition, acceptable to the Official State Agency. The minimum requirements with respect to sanitation shall include the following:

(1) Incubator walls, floors and trays shall be kept free from broken eggs and egg shells.

(2) Tops of incubators and hatchers shall be kept clean (not used for storage).

(3) Entire hatchery, including sales room, shall be kept in a neat, orderly condition and free from accumulated dust.

(4) Hatchery residue such as egg shells, infertile eggs and dead germs shall be disposed of promptly.

(5) Hatchers and hatching trays shall be cleaned and fumigated or disinfected after each hatch.

* * * * *

(e) All hatcheries within a State which are operated under the ownership or management of the same person or related corporation, or in which the same person or persons have a substantial financial interest as partners or otherwise, shall participate in the Plan if any of them are to participate. All breeding and supply flocks, hatching eggs or chicks of such hatcheries shall meet the same pullorum-typhoid classification.

3. Section 145.8 would be amended by changing the second sentence of paragraph (c) to read: "When a breeder's name or strain designation is used, the participant shall be able by records to substantiate that the products so designated are from flocks that are composed of either (1) birds hatched from eggs produced under the direct supervision of the breeder of such strain; or (2) stock multiplied by persons designated and so reported by the breeder to each Official State Agency concerned."

4. Section 145.12 would be amended by changing the first and second sentences of paragraph (b) to read: "Each year a sample of the flocks selected or tested by each Authorized Agent shall be inspected by a State Inspector. This must include the inspection of a minimum of 15 percent of the flocks of each hatchery."

5. Section 145.19 would be amended by changing subparagraphs (4), (7) and (9) of paragraph (b) to read, respectively:

(4) Number of birds of this breed and variety originally trapnested for ROP entry:

* * * * *

(7) Number of birds entered which were individually pedigreed;

* * * * *

(9) Percentage of birds entered meeting the ROP requirements;

6. Section 145.20 would be amended by deleting subparagraph (4) of paragraph (a).

7. Section 145.21 would be amended by changing paragraph (f) to read:

(f) Compare the number of eggs being incubated from each hen with the number she is credited with having laid during the corresponding period, and subsequently with the number of chicks recorded as hatched and wing-banded. (He shall have the authority to examine for fertility the eggs being incubated.);

8. Section 145.22 would be amended by changing paragraphs (a) and (b) to read, respectively:

(a) The Performance Tested Parent Stock classification may be attained by the qualification of flocks through the performance of their progeny in a central or multiple unit random sample test, as specified in §§ 145.27, 145.28 and 145.29, or in any other central or multiple unit random sample test approved for this purpose by the Department. Compliance with the provisions of §§ 145.27, 145.28 or 145.29 shall be a basic requirement for approval: *Provided*, That tests conducted by agencies other than Official State Agencies may be approved.

(b) Any person who, in the opinion of the Official State Agency, is conducting a systematic program of poultry breeding is eligible for participation. The application for qualification shall be made by the breeder of the parent stock but the sample may be taken from any source approved by the breeder for the production of the grade to be tested.

9. Section 145.23 would be amended by changing paragraphs (a), (b) and (d) to read, respectively:

(a) The entry may consist of any breed, variety, strain, cross thereof, or hybrid combination; provided the grade designated for entry is produced and available in commercial quantities, or is clearly designated as experimental stock not available in commercial quantities.

(b) Candidates for flock qualification as Performance Tested Parent Stock for egg production shall be represented by an entry in a central or multiple unit random sample egg production test.

* * * * *

(d) The entry representing candidates for flock qualification as Performance Tested Parent Stock shall be so designated by the participant to the Official State Agency prior to the beginning of the test. The designation shall be made in ample time for the Official State Agency to notify the appropriate test supervisor the names of entrants and request notice of dates for submission of samples so arrangements can be made for their selection in accordance with the requirements of the Plan.

10. Section 145.23 would be further amended by adding a new paragraph, (e), to read:

(e) The entry shall consist of a random sample of eggs selected by a representative of the Official State Agency in accordance with the following procedures:

(1) Determine from Official State Agency records the number and location of all flocks within the State supplying eggs of the grade to be tested. By a process of drawing at random names or assigned numbers, determine from which of these flocks the sample is to be taken. The flock or flocks from which the sample is taken must include at least 1,000 birds.

(2) The eggs shall be taken from the nests in proportion to the number of birds in each house or pen.

(3) The sample shall not include eggs which, in the opinion of the sample taker, are unsuitable for hatching.

(4) The sample shall be placed in an appropriate container and the container sealed with a distinctive seal or sealing tape by the sample taker.

(5) The sample taker shall furnish the Official State Agency and the test supervisor with a detailed report of the procedures followed in obtaining each sample.

11. Section 145.24 would be amended by changing subparagraphs (1) and (2) of paragraph (a) to read:

(1) Performance Tested Parent Stock for egg production when such stock represented in an officially recognized central or multiple unit random sample egg production test by an entry which ranked in the upper one-fourth of the entries, or was not significantly different from the top entry in income above feed and chick costs per pullet chick started.[1] (When the breeder has entries in more than one central or multiple unit random sample test, qualification shall be based upon the average rank in all such tests.)

(2) Performance Tested Parent Stock for meat production when such stock represented in an officially recognized random sample meat production test by an entry which ranked in the upper one-fourth of the entries, or among those entries not significantly different from the top entry in average rate of egg production on hen-housed basis and in rate of growth.[1] (When the breeder has entries in more than one central or multiple unit random sample test, qualification shall be based upon the average performance records in all such tests.)

12. Section 145.24 would be further amended by redesignating paragraph (c) as paragraph (d) and changing to read:

(d) Stock classified as Performance Tested Parent Stock may retain that classification for one year after classification, provided the stock is maintained under the supervision of the qualifying breeder, and is mated in the same combination, and for one more year when, in addition, the stock has been continuously represented by an entry as provided in § 145.23.

13. Section 145.24 would be further amended by adding a new paragraph (c), as follows:

(c) Qualification for the U. S. Performance Tested Parent Stock classification shall be determined by the AH Division from records submitted by approved tests; and that Division shall notify each entrant and his Official State Agency of his qualification or failure to qualify.

14. Section 145.27 would be amended by changing paragraphs (a) and (b) to read, respectively:

(a) A central random sample egg production test shall be conducted at a neutral location under the supervision of an Official State Agency and shall consist of entries from two or more participants and a control stock approved by the Department.

[1] Significance of difference shall be determined by a suitable mean separation procedure such as the Duncan's Multiple Range Test at the 5 percent level of significance.

(b) The sample to be tested shall consist of a random sample of eggs selected by a representative of the Official State Agency from all flocks used to produce the grade of chicks to be tested.

15. Sections 145.28, 145.29, 145.30, 145.31 and 145.32 would be redesignated as §§ 145.29, 145.30, 145.31, 145.32, and 145.33, respectively, and a new § 145.28 would be added to read:

§ 145.28 *Multiple unit random sample egg production test.* (a) A multiple unit random sample egg production test shall be conducted at two or more locations under the supervision of an Official State Agency and shall consist of entries from four or more participants.

(b) The sample to be tested shall consist of a random sample of eggs or chicks selected by a representative of the Official State Agency from all flocks used to produce the grade of chicks to be tested.

(c) At least 60 pullet chicks shall be started for each entry at each of two or more locations.

(d) One entry at each test location shall be a common control stock.

(e) At housing time each entry may be divided into replicate pens at each test location.

(f) Pen egg production and mortality shall be recorded daily until the birds are 500 days of age.

(g) Body weight shall be obtained at housing time and at the conclusion of the test.

(h) At the end of the test a summary for each entry shall be submitted by the Official State Agency to the AH Division for publication, including the items specified in § 145.26 (a).

16. The redesignated § 145.29 would be amended by changing paragraphs (a) and (b) to read, respectively:

(a) A central random sample meat production test shall be conducted at a neutral location under the supervision of an Official State Agency and shall consist of entries from two or more participants and a control stock approved by the Department.

(b) The sample shall be selected by a representative of the Official State Agency and (1) for the growing phase shall consist of a random sample of eggs selected from all flocks used to produce the grade of chicks to be tested; and (2) for the laying phase shall consist of a random sample of eggs, or chicks, or 4–6 month-old pullets selected at random from the female parent stock.

17. The redesignated § 145.30 would be amended by changing paragraph (f) to read:

(f) There shall be a minimum of four unannounced inspections by a State Inspector, with at least two during the period when egg weights and body weights are recorded (11 to 13 months of age).

18. The redesignated § 145.33 would be amended by changing the introductory provision preceding paragraph (a) to read:

§ 145.33 *National random sample performance testing program.* The national random sample performance testing program embodies the operation of central or multiple unit performance tests available to any poultry breeder in accordance with the following provisions:

19. The redesignated § 145.33 would be further amended by changing subparagraphs (3) and (4) of paragraph (c) to read, respectively:

(3) The test management of each test shall attempt to provide similar environmental conditions at each test location for all entries.

(4) The test management of any central or multiple unit random sample test may rule that the results of one or more entries are invalid. The reason for such invalidation shall be a part of the published report.

20. Section 146.4 would be amended by adding a new paragraph (h), to read:

(h) Each shipment of products to points outside the continental United States shall be accompanied by a properly executed Form NPIP–15P, Report of Sales of Hatching Eggs, Chicks and Poults (For Shipment Outside the United States).

21. Section 146.6 would be amended by changing paragraphs (a) and (e) to read, respectively:

(a) Hatcheries, including brooder rooms, shall be kept in sanitary condition, acceptable to the Official State Agency. The minimum requirements with respect to sanitation shall include the following:

(1) Incubator walls, floors and trays shall be kept free from broken eggs and egg shells.

(2) Tops of incubators and hatchers shall be kept clean (not used for storage).

(3) Entire hatchery, including sales room, shall be kept in a neat, orderly condition and free from accumulated dust.

(4) Hatchery residue such as egg shells, infertile eggs and dead germs shall be disposed of promptly.

(5) Hatchers and hatching trays shall be cleaned and fumigated or disinfected after each hatch.

• • • • •

(e) All hatcheries within a State which are operated under the ownership or management of the same person or related corporation, or in which the same person or persons have a substantial financial interest as partners or otherwise, shall participate in the Plan if any of them are to participate. All hatching eggs or poults sold by such hatcheries shall be of the same pullorum-typhoid classification.

22. Section 146.8 would be amended by changing subparagraph (1) of paragraph (c) to read:

(1) A breeder's strain name may be used only when the flock is composed of (i) birds which were hatched from eggs produced under the direct supervision of the breeder or (ii) stock multiplied by persons designated and so reported by the breeder to each Official State Agency concerned.

23. Section 146.10 would be amended by changing paragraph (b) to read:

(b) *U. S. Performance Tested Parent Stock.* Flocks represented in both a turkey reproduction test as provided for in § 146.29 and in a central turkey meat production test as provided for in § 146.30 by entries that have met the following performance standards:

(1) Average poult production of at least 20 salable poults per hen in eight weeks;

(2) Poult livability to 8 weeks of age of at least 90 percent or above the average of the test.

(3) Market quality of U. S. Grade A, except for dressing and handling defects, for at least 90 percent, or above the average of the test, of all birds graded.

(4) Qualification for the U. S. Performance Tested Parent Stock classification shall be determined by the AH Division from records submitted by central turkey meat production and turkey reproduction tests; and that Division shall notify each entrant and his Official State Agency of his qualification or failure to qualify.

24. Section 146.30 would be amended by changing paragraph (c) to read:

(c) A sufficient number of eggs, determined by the entrant, to produce the poults required for the entry shall be selected by a representative of the Official State Agency in accordance with the following procedure:

(1) Determine from Official State Agency records the flocks, and the number of birds in each, supplying eggs of the grade to be tested.

(2) The sample shall be taken from at least 50 percent of the flocks supplying eggs of the grade to be tested. These flocks shall be selected at random and shall comprise at least 50 percent of the birds in all such flocks. The sample shall be taken at random from eggs held in the hatchery egg room or in the egg rooms of the individual supply flocks; provided, that if the egg room contains eggs from more than one flock, all eggs must be identified as to flock source.

(3) The sample shall be taken in proportion to the number of birds in each sampled flock.

(4) The sample shall not include eggs which, in the opinion of the sample taker, are unsuitable for hatching.

(5) Each egg shall be identified with a stamp furnished by the test and placed in an appropriate container for shipment to the test.

(6) The sample taker shall furnish the Official State Agency and the test supervisor with a detailed report of the procedure followed in obtaining each sample.

25. Section 146.30 would be further amended by changing subparagraph (5) of paragraph (i) to read:

(5) Average live weight (i) of fryer-roaster entry at the end of test; and (ii) of mature marketing entry at 12 weeks of age; and at close of test (such average weight shall be based on individual weights and seperated by sexes);

26. Section 146.30 would be further amended by redesignating paragraph (j) as paragraph (k) and adding a new paragraph (j). The new paragraph (j) and the redesignated paragraph (k) would read, respectively:

(j) In each test the differences between the entry averages in final live and eviscerated weights and body measurements shall be analyzed by a suitable mean separation procedure such as the Duncan's Multiple Range Test. Significance or non-significance (at the 5 percent level) of the differences between entries shall be shown in the report published by the AH Division.

(k) The results of the tests reported to the AH Division by December 1 shall be published in a national summary alphabetically by test and entries, with no indication of rank other than that which may result from the procedure provided for in paragraph (j) of this section.

27. Subpart A of Part 147 would be amended by adding a new § 147.4, to read:

§ 147.4 *Tube agglutination tests for S. typhimurium.* (a) The procedure for the collection and delivery of blood samples in the tube agglutination test for S. typhimurium is the same as that described in § 147.1 (a).

(b) The "O" antigen should be prepared as follows:

(1) The antigen shall consist of a representative non-motile strain of S. typhimurium which is of known antigenic composition, high agglutinability, but is not sensitive to negative and nonspecific sera. Strain P 10 meets these requirements.

(2) The stock culture is maintained on 1 percent nutrient agar deeps, which have been incubated for 18–24 hours at 37° C. They are stored at room temperature.

(3) A satisfactory medium used for growing the organism is veal infusion agar (Difco). It is dispensed in 50 ml. amounts into 500 ml. medicine bottles, with screw caps, and sterilized at 15 lbs. pressure for 20 minutes. The bottles are then laid flat upon an even surface until the medium has solidified.

(4) The inoculum used for preparation of "O" antigen is a non-motile strain of S. typhimurium. The organism is grown in veal infusion broth (Difco) for 18–24 hours at 37° C., then plated, for single colony isolation, on veal infusion agar plates. These plates are incubated for 18–24 hours at 37° C. After incubation single colonies are picked and transferred to veal infusion agar slants, which are incubated for 18–24 hours at 37° C. After this the cultures are tested for smoothness by using a 1:500 dilution of acriflavine.

(5) Smooth cultures are inoculated into flasks containing veal or beef infusion broth which is incubated for 18–24 hours at 37° C. The incubated broth suspension of organisms is dispensed into the antigen bottles containing veal infusion agar. The suspension is distributed evenly over the agar surface by gently tilting the bottles from side to side. The inoculated bottles are then laid flat, agar side down, for 10–20 minutes. They are subsequently incubated, agar side upward, for 24–48 hours at 37° C. before harvesting.

(6) The harvesting of the organism consists of washing the growth from each antigen bottle with 0.5 percent phenolized physiological saline. The bacterial suspension from each bottle is filtered through sterile milk pad filters into a large sterile container or through a thin layer of absorbent cotton in a Buchner funnel with the aid of suction. To each 100 ml. of the bacterial suspension is added additional phenol to make the final concentration 0.5 percent. The concentrated antigen is tested for sterility at intervals after 24 hours. After sterility is proved the stock antigen is standardized to determine the density according to the McFarland nephelometer scale.

(7) The diluted antigen to be used in routine testing is prepared from stock antigen by diluting with 0.25 percent phenolized saline and is standardized to a turbidity corresponding to 0.75–1.00 of the McFarland nephelometer scale.

(c) The "H" antigen should be prepared as follows:

(1) Stock cultures of fixed phases, 1 and 2, of S. typhimurium are maintained in semisolid medium containing desired suppression antiserum. However, before using the cultures for the preparation of "H" antigen they should be passed through semisolid medium at 24 hour intervals in order to obtain a high degree of motility and checked for desired phase antigens.

(2) Either a solid or a liquid medium may be used to obtain growth for antigen. The solid medium is the same as that used in the preparation of "O" antigen. The liquid medium is veal infusion broth, dispensed in 1000 ml. amounts into 2000 ml. flasks.

(3) Each phase is inoculated separately into either solid or liquid medium. The flasks of broth to be used for inoculum of the solid medium are inoculated directly from the semisolid medium. If solid medium is used, the inoculated antigen bottles are handled and incubated in the same manner as when making the "O" antigen.

If liquid medium is used it is inoculated directly from the semisolid culture of bacteria.

(4) Each phase is harvested separately by washing the growth from the antigen bottles, with physiological saline containing 0.6 percent formalin. The washed inoculum is filtered through sterile milk pad filters into a large container or through a thin layer of absorbent cotton in a Buchner funnel with the aid of suction. To each 100 ml. of the bacterial suspension, formalin is added to make the final concentration from 0.5 to 1.0 percent. The stock antigen is tested for sterility at intervals after 24 hours. After sterility is proved the stock antigen is standardized to determine the density according to the McFarland nephelometer scale. Then Phase 1 and Phase 2 antigens are combined so that the stock "H" antigen will contain the same proportion of Phase 1 and Phase 2, as determined by standardization. The "H" antigens prepared from broth are treated with formalin so the final concentration is 0.5–1 percent.

(5) The diluted antigen to be used in routine testing is prepared from stock antigen by diluting with 0.25 percent formalized saline and is standardized to a turbidity corresponding to 0.75–1.00 on the McFarland nephelometer scale. The antigens are stored in the refrigerator (5° to 10° C.) in tightly stoppered bottles.

(d) The maximum serum dilution employed for the "O" antigen tube test must not exceed 1:25. In all official reports on the blood test the serum dilutions should be indicated. The sera should be introduced into the agglutination tubes in the desired amounts with well-cleaned serological pipettes or special serum delivery devices which do not permit the mixing of different sera. The antigen and serum should be well mixed before incubation. The serum and antigen mixture must be incubated for at least 20 hours at 37° C.

(e) The maximum serum dilution employed for the "H" antigen tube test must not exceed 1:25. In all official reports on the blood test the serum dilutions should be indicated. The serum and antigen mixture may be incubated at 45–50° C. in a water bath for 4 hours or at 37° C. for at least 20 hours.

(f) The results shall be recorded as:

N, or — (negative) when the serum antigen mixture remains uniformly turbid.

P, or + (positive) when there is a distinct clumping of the antigen, and the liquid between the agglutinated particles is clear.

S, or ? (suspicious) when the agglutination is only partial or incomplete.

M, or missing, when samples listed on the original record sheet are missing.

H, or hemolyzed, when blood samples are hemolyzed and cannot be tested.

B, or broken, when sample tubes are broken and no serum can be obtained.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments of the National Poultry and Turkey Improvement Plans and Auxiliary Provisions may do so by filing them with the Director, Animal Husbandry Research Division, Agricultural Research Center, Beltsville, Md., within 30 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 22d day of August 1958.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

DEPARTMENT OF COMMERCE

Bureau of Public Roads

[23 CFR Part 20]

NATIONAL STANDARDS FOR REGULATION BY STATES OF OUTDOOR ADVERTISING SIGNS, DISPLAYS AND DEVICES ADJACENT TO THE NATIONAL SYSTEM OF INTERSTATE AND DEFENSE HIGHWAYS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Standards set forth in tentative form below are proposed to be promulgated by the Secretary of Commerce. Prior to final

adoption of such Standards, consideration will be given to any comments, suggestions or proposals pertaining thereto which are submitted in writing to the Federal Highway Administrator, Bureau of Public Roads, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed Standards are to be issued under the authority contained in section 122 of the Federal-Aid Highway Act of 1956 (70 Stat. 374), as enacted by section 12 of the Federal-Aid Highway Act of 1958 (72 Stat. 89).

Dated: August 25, 1958.

B. D. TALLAMY,
Federal Highway Administrator.

Approved:

SINCLAIR WEEKS,
Secretary of Commerce.

§ 20.1 *Purpose.* (a) By section 122 of the Federal-Aid Highway Act of 1956 (70 Stat. 374), as enacted by section 12 of the Federal-Aid Highway Act of 1958 (72 Stat. 89), which said section 122 is hereinafter called the "Act", the Congress has declared that:

(1) To promote the safety, convenience and enjoyment of public travel and the free flow of interstate commerce and to protect the public investment in the National System of Interstate and Defense Highways, hereinafter called the "Interstate System", it is in the public interest to encourage and assist the States to control the use of and to improve areas adjacent to such System by controlling the erection and maintenance of outdoor advertising signs, displays and devices adjacent to that system;

(2) It is a national policy that the erection and maintenance of outdoor advertising signs, displays, or devices within certain areas should be regulated, consistent with national standards to be prepared and promulgated by the Secretary of Commerce.

(b) The regulations in this part are hereby promulgated as provided in the act.

§ 20.2 *Definitions.* The following terms when used in the regulations in this part have the following meanings:

(a) "Centerline of the highway" means the basic surveyed reference line from which right-of-way limits are measured and to which the construction centerline of one or more roadways is tied.

(b) "Controlled portion of the Interstate System" means any portion which.

(1) Is constructed upon any part of right-of-way, the entire width of which is acquired for right-of-way for any public road subsequent to July 1, 1956, by the Federal Government, a State, or a county, city or other political subdivision thereof, by donation, dedication, purchase, condemnation or otherwise (a portion shall be deemed so constructed if, within such portion, no line normal or perpendicular to the centerline of the highway and extending to both edges of the right-of-way will intersect any right-of-way so acquired on or before July 1, 1956);

(2) Lies within a State, the highway department of which has entered into an agreement with the Secretary of Commerce as provided in section 122 (b) of the act; and

(3) Is not excluded by such agreement from the application of these Standards as provided in section 122 (b) of the act.

(c) "Erect" means to construct, build, raise, assemble, place, affix, attach, create, paint, draw, or in any other way bring into being or establish.

(d) "Interchange" means a grade separated intersection with one or more turning roadways for travel between intersection legs, or an intersection at grade, where two or more highways join or cross.

(e) "Legible" means capable of being read without visual aid by a person of normal visual acuity.

(f) "Maintain" means to allow to exist.

(g) "Main-traveled way" means the portion of a highway, including shoulders, for vehicular use on which the through traffic is carried. In the case of a divided highway, each of the separated roadways for traffic in opposite directions is a main-traveled way. It does not include frontage roads, turning roadways, or parking areas.

(h) "Protected areas" means all areas inside the boundaries of a State which are adjacent to and within six hundred sixty feet of the edge of the right-of-way of all controlled portions of the Interstate System within that State. Where a controlled portion of the Interstate System terminates at a State boundary which is not perpendicular or normal to the centerline of the highway, "protected areas" also means all areas inside the boundary of such State which are within six hundred and sixty feet of the edge of the right-of-way of the Interstate highway in the adjoining State.

(i) "Scenic area" means any public park or area of particular scenic beauty or historical significance designated by or pursuant to State law as a scenic area.

(j) "Sign" means any outdoor sign, display, device, figure, painting, drawing, message, placard, poster, billboard, or other thing which is designed, intended, or used to advertise or inform, any part of the advertising or informative contents of which is visible from any place on the main traveled way of a controlled portion of the Interstate System.

(k) "State" means the District of Columbia and any State of the United States within the boundaries of which a portion of the Interstate System is located.

(l) "State law" means a State statute or an ordinance, rule, or regulation enacted or adopted by a State agency or political subdivision pursuant to State constitution or statute.

(m) "Turning roadway" means a connecting roadway for traffic turning between two intersection legs of an interchange.

(n) "Visible" means capable of being seen (whether or not capable of being read) without visual aid by a person of normal visual acuity.

§ 20.3 *Measurements of distance.* (a) Distance from the edge of a right-of-way shall be measured horizontally along a line normal or perpendicular to the centerline of the highway.

(b) Distance to an interchange shall be measured to the nearest point where the constructed centerline of a main traveled way of an interstate highway is intersected by a constructed centerline of another highway or turning roadway.

(c) All distances under § 20.6 (c) shall be measured along the centerline of the highway between two vertical planes which are normal or perpendicular to and intersect the centerline of the highway, and pass through the termini of the measured distance.

§ 20.4 *Signs that may not be permitted in protected areas.* Erection and maintenance of the following signs may not be permitted in protected areas:

(a) Signs advertising activities that are illegal under Federal, state or local laws or regulations in effect at the location of such signs or at the location of such activities,

(b) Obsolete signs,

(c) Signs that are not clean and in good repair,

(d) Signs that are not securely affixed to a substantial structure, and

(e) Signs that are not consistent with the regulations in this part.

§ 20.5 *Signs that may be permitted in protected areas.* Erection and maintenance of the following signs may be permitted in protected areas:

Class 1: Official signs. Directional or other official signs or notices erected and maintained by public officers or agencies pursuant to and in accordance with direction or authorization contained in State law, for the purpose of carrying out an official duty or responsibility.

Class 2: On premise signs. Signs not prohibited by State law which are consistent with the applicable provisions of section 6 and which advertise the sale or lease of, or activities being conducted upon, the real property where the signs are located.

Not more than one such sign advertising the sale or lease of the same property or advertising activities being conducted as a single enterprise may be permitted under this Class in such manner as to be visible to traffic proceeding in any one direction on any one Interstate highway.

Class 3: Signs within 12 miles of advertised activities. Signs not prohibited by State law which are consistent with the applicable provisions of §§ 20.6, 20.7, and 20.8 and which advertise activities being conducted within 12 air miles of such signs.

If a sign refers to or identifies, by trade or brand name, trademark, distinctive symbol or in any other manner whatsoever, any service rendered or product produced, sold, used, or otherwise handled more than 12 miles from such sign, it shall be deemed to advertise activities being conducted more than 12 miles away and may not be permitted under this Class or Class 2 unless the name and location of the activity within 12 miles rendering such service, or producing, selling, using, or otherwise handling such product are displayed upon the sign more conspicuously than such trade or brand name, trademark, distinctive symbol or other reference or identification.

Class 4: Signs in the specific interest of the traveling public. Signs authorized to be erected or maintained by State law which are consistent with the applicable provisions of §§ 20.6, 20.7, and 20.8 and which are designed to give information in the specific interest of the traveling public.

Only information about public places operated by Federal, state or local governments, natural phenomena, historic sites, areas of natural scenic beauty or naturally suited for outdoor recreation, and places for camping, lodging, eating and vehicle service and repair is deemed to be in the specific interest of the traveling public. A trade or brand name, trademark, distinctive symbol or other similar thing is not deemed to be information in the specific interest of the traveling public and may not be permitted under this Class unless it identifies or characterizes such a place or identifies vehicle service, equipment, parts, accessories, fuels, oils or lubricants being offered for sale at such a place.

§ 20.6 *Class 3 and 4 signs that may be permitted outside informational sites.* (a) The erection and maintenance of signs giving information about historic sites operated by Federal, state or local governments or by nonprofit organizations may be permitted within protected areas outside informational sites. Paragraphs (b) and (c) of this section shall not be applicable to such signs.

(b) If traffic proceeding in any direction on an Interstate highway is not served by an informational site established, as permitted in § 20.7 (a), at any location (1) within 12 air miles of activities which may be advertised by Class 3 signs but not by Class 4 signs or (2) within 30 air miles of, and in advance of an interchange providing traffic service for, places about which information may be given by Class 4 signs (whether or not it may also be given by Class 3 signs), the erection and maintenance of Class 3 or 4 signs advertising such activities or giving information about such places may be permitted within protected areas, outside informational sites, in such manner as to be visible only to such traffic.

(c) The erection and maintenance of signs permitted under paragraph (b) of this section may not be permitted in any manner inconsistent with the following:

(1) Such signs visible to traffic proceeding toward an interchange may not be permitted in protected areas within 2 miles of such interchange.

(2) Not more than 6 such signs visible to traffic proceeding toward an interchange may be permitted in protected areas more than 2 miles but less than 5 miles from such interchange.

(3) In protected areas more than 5 miles from an interchange, the number of such signs visible to traffic proceeding toward such interchange may not be permitted to exceed an average of one such sign per mile.

(4) Notwithstanding subparagraphs (2) and (3) of this paragraph, not more than 2 such signs may be permitted within any mile distance whether or not such mile distance begins or ends at the same point as any mile referred to in such subparagraphs, and no such signs may be permitted to be less than 1,000 feet apart.

(5) No such signs may be permitted in scenic areas.

(6) Not more than one such sign advertising activities being conducted as a single enterprise or giving information about a single place may be permitted to be erected or maintained in such manner as to be visible to traffic moving in any one direction on any one Interstate highway.

(d) The erection and maintenance of signs with a surface, exclusive of trim and supports, more than 10 feet high or more than 60 sq. feet in area may not be permitted under this section.

(e) No class 3 or 4 signs other than those permitted by this section may be permitted to be erected or maintained within protected areas, outside informational sites.

§ 20.7 *Class 3 and 4 signs that may be permitted in informational sites.* (a) Informational sites for the erection and maintenance of class 3 and 4 advertising and informational signs may be established in accordance with the Regulations for the Administration of Federal-Aid for Highways. The location and frequency of such sites shall be as determined by agreements between the Secretary of Commerce and the State highway departments.

(b) Class 3 and 4 signs may be permitted within such informational sites in protected areas in a manner consistent with the following provisions:

(1) No sign may be permitted which is not placed upon a panel.

(2) No panel may be permitted to exceed 13 feet in height or 25 feet in length, including border and trim, but excluding supports.

(3) No sign may be permitted to exceed 12 square feet in area, and nothing on such sign may be permitted to be legible from any place on the main traveled way or a turning roadway.

(4) Not more than one sign concerning a single activity or place may be permitted within any one informational site.

(5) No sign may be permitted which moves or has any animated or moving parts.

(6) Illumination of panels by other than white lights may not be permitted, and no sign placed on any panel may be permitted to contain, include, or be illuminated by any other lights.

§ 20.8 *General provisions.* No Class 3 or 4 sign may be permitted to be erected or maintained pursuant to § 20.6 and no class 2 sign may be permitted to be erected or maintained, in any manner inconsistent with the following:

(a) No sign may be permitted which attempts or appears to attempt to direct the movement of traffic or interfere with, imitate, or resemble any official traffic sign, signal, or device.

(b) No sign may be permitted which prevents the driver of a vehicle from having a clear and unobstructed view of official signs.

(c) No sign may be permitted which contains, includes, or is illuminated by any flashing, intermittent, or moving light or lights.

(d) No lighting may be permitted to be used in any way in connection with any sign unless it is so effectively shielded as to prevent beams or rays of light from being directed at any portion of the main-traveled way of the Interstate System, or is of such low intensity or brilliance as not to cause glare or to impair the vision of the driver of any motor vehicle, or to otherwise interfere with any driver's operation of a motor vehicle.

(e) No sign may be permitted which moves or has any animated or moving parts.

(f) No sign may be permitted to be erected or maintained upon trees or painted or drawn upon rocks or other natural features.

ATOMIC ENERGY COMMISSION

[10 CFR Part 140]

FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

NOTICE OF PROPOSED RULE MAKING

On September 2, 1957, the Atomic Energy Act of 1954 was amended by Public Law 85-256. One of the new sections added to the Atomic Energy Act by that amendment was section 170 containing financial protection requirements with respect to persons who hold, or have applied for, certain types of licenses under the Atomic Energy Act. In order to make the provisions of Public Law 85-256 effective as promptly as possible, the Atomic Energy Commission issued this part on September 11, 1957, stating that the Regulations would be replaced at an early date by more definitive regulations. The amendment set forth below is one of a series of amendments to Part 140 to be issued by the Commission for that purpose.

When Part 140 was issued the Commission had not prepared the form of indemnity agreements to be entered into with the licensee from whom financial protection is required under section 170 of the act. Recognizing this situation § 140.17 provides that the Commission will, in due course, execute and issue agreements of indemnity with licensees from whom financial protection is required; and that such agreements would contain such provisions as are required by law and such additional provisions as may be incorporated therein pursuant to Commission Regulations. The section provides also that such agreements, when entered into with any licensee, would be effective either on the effective date of Part 140 or on the effective date of the license authorizing operation of a nuclear reactor, whichever is later. The following amendment contains the form of an indemnity agreement which the Commission would enter into with licensees under § 140.17 of this part. As indicated in the notes inserted in the form of agreement, certain provisions are inapplicable to certain types of licensees and would not be used in such cases. It may also be that cases will arise in which it will be appropriate to modify some of the provisions of the form or to include other provisions. For the most part, such provisions will have to be developed as situations arise in which they are required. It is anticipated that any such changes will be effected either by rule or by appropriate procedures in particular licensing proceedings in order that interested persons may have opportunity to participate.

Part 140 and the following proposed amendments do not contain requirements as to the demonstrations which should be made by insurance companies whose policies are furnished as proof of financial protection, or by licensees furnishing proof of financial protection in the form of their own resources, that such companies and licensees will in fact be able to satisfy claims covered by the proposed agreement. These matters will be covered in future amendments to this part.

Notice is hereby given that adoption of the following amendment to Part 140, "Financial Protection Requirements and Indemnity Agreements", is contemplated. All interested persons who desire to submit written comments and suggestions for consideration in connection with the proposed amendment should send them to the United States Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation, within thirty (30) days after publication of this notice in the FEDERAL REGISTER.

1. Section 140.17 is amended to read as follows:

§ 140.17 *Indemnity agreements.* (a) The Commission will, in due course, execute and issue agreements of indemnity pursuant to the regulations in this part or such other regulations as may be issued by the Commission. Each such agreement shall contain such provisions as are required by law and such additional provisions as may be incorporated therein by the Commission pursuant to regulation. Such agreements, as to any licensee, shall be effective on:

(1) The effective date of this part; or

(2) The effective date of the license authorizing the licensee to operate the nuclear reactor involved, whichever is later.

(b) Each licensee shall pay a fee to the Commission at the rate of $30 per year per thousand kilowatts of thermal capacity authorized in its license: *Provided*, That no fee shall be less than $100 per annum for any nuclear reactor. Such fee shall be due for the period beginning with the date on which the applicable indemnity agreement will be effective under paragraph (a) of this section; and shall be paid in accordance with billing instructions received from the Commission.

(c) (1) The general form of indemnity agreement to be entered into by the Commission with licensees is set forth in Appendix B.

(2) The form of indemnity agreement to be entered into by the Commission with any particular licensee under this part shall contain such modifications of the form in Appendix B (§ 140.76) as are provided for in applicable licenses, regulations or orders of the Commission.

(3) Each licensee who has previously executed an indemnity agreement under this part shall enter into such agreements amending such indemnity agreement as are required by applicable licenses, regulations or orders of the Commission.

2. Section 140.76 is added to read as follows:

§ 140.76 *Appendix B.*

This agreement is entered into by and between the ---------- (hereinafter referred to as the "licensee") and the United States Atomic Energy Commission (hereinafter referred to as the "Commission") pursuant to the Atomic Energy Act of 1954, as amended.

In consideration of the requirements of said Act, of the benefits, immunities, and privileges afforded and to be afforded to the licensee by the United States of America pursuant to said Act, and in consideration of the benefits, supplies, services or other things (tangible or intangible) furnished and to be furnished to the licensee by persons indemnified, and in consideration of the respective undertakings of the parties hereto,

It is agreed that

ARTICLE I

As used in this agreement,

1. "Nuclear reactor," "byproduct material," "person," "financial protection," "source material," and "special nuclear material" shall have the meanings given them in the Atomic Energy Act of 1954, as amended, and the regulations issued by the Commission;

2. "Amount of financial protection" means the amount specified in Item 2 in the Declarations annexed hereto;

3. "In the course of transportation" means in the course of transportation within the United States, including handling or temporary storage incidental thereto, of the radioactive material to the location or from the location causing bodily injury, sickness, disease, or death, or loss of or damage to property, or loss of use of property, arising out of or resulting from the radioactive, toxic, explosive, or other hazardous properties of the radioactive material being transported; provided, however, with respect to transportation of the radioactive material to the location that such transportation is not by predetermination to be interrupted by the removal of such material from the transporting conveyance for any purpose other than the continuation of such transportation to the location or temporary storage incidental thereto; provided, further, that the transportation of the radioactive material from the location shall be deemed to end when the radioactive material is removed from the transporting conveyance for any purpose other than the continuation of such transportation or temporary storage incidental thereto.

4. "Nuclear incident" means any occurrence within the United States causing bodily injury, sickness, disease, or death, or loss of or damage to property, or loss of use of property, arising out of or resulting from the radioactive, toxic, explosive, or other hazardous properties of the radioactive material.

5. "Person indemnified" means the licensee and any other person who may be liable for public liability.

6. "Public liability" means any legal liability arising out of or resulting from a nuclear incident, except (1) claims under State or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed at the location and in connection with the licensee's possession, use or transfer of the radioactive material; and (2) claims arising out of an act of war.

7. "Excluded property" means any property of a person legally liable for a nuclear incident, which property is located at the location and is:

(a) Used in connection with the licensee's possession, use or transfer of the radioactive material; or is

(b) Not an aircraft, watercraft or vehicle licensed for highway use.

NOTE: The foregoing subparagraph (b) will be used if a NELIA- or MAELU-type policy, including supplementary endorsement coverage, is furnished as financial protection.

8. "The location" means the location designated in Item 4 of the Declarations annexed hereto.

9. "The radioactive material" means source, special nuclear, and byproduct material, as those terms are defined in the Atomic Energy Act of 1954 and regulations of the Commission, which (1) the licensee receives, possesses or uses for the purpose of operating the nuclear reactors designated in the Declarations annexed hereto, or (2) which is produced as the result of operation of said reactors.

ARTICLE II

1. The licensee will maintain financial protection in the amount specified in Item 2 of the Declarations and in the form of the nuclear energy liability insurance policy, a copy of which is annexed hereto as Attachment 1. Such financial protection shall be maintained by the licensee at all times during the term of the license designated in Item 3 of the Declarations attached hereto. The Declarations are incorporated in this agreement with the same force and effect as if fully set forth herein. If more than one license is designated in Item 3 of the Declarations, the licensee agrees to maintain such financial protection until the end of the term of that license which will be the last to expire. The licensee shall, notwithstanding the expiration, termination, modification, amendment, suspension or revocation of any license or licenses designated in Item 3 of the Declarations, make all reasonable efforts to continue said policy in effect until all the radioactive material has been removed from the location and transportation of the radioactive material from the location has been completed as provided in paragraph 3, Article I, or until the Commission authorizes in writing the termination or the modification of such financial protection. The Commission will not unreasonably withhold such authorization.

2. The licensee agrees that, upon the occurrence of any event which reduces or may reduce the limit of liability provided under the said policy, the licensee will promptly apply for reinstatement of the amount specified in Item 2 of the Declarations annexed to said policy and will make all reasonable efforts to obtain such reinstatement.

NOTE: Paragraphs 1 and 2 will be used in cases where a licensee furnishes a policy of insurance similar to the NELIA or MAELU policies as financial protection.

3. The licensee undertakes and agrees to indemnify and hold harmless all persons indemnified, as their interest may appear, from public liability arising out of or in connection with the licensed activity, provided that the obligation of the licensee to indemnify such persons shall not exceed in the aggregate the amount of financial protection for each nuclear incident, including the reasonable cost of investigating and settling claims and defending suits for damage. Public liability shall not be deemed to arise out of or in connection with the licensed activity unless such public liability arises out of or results from a nuclear incident which occurs at the location or which occurs in the course of transportation.

NOTE: Paragraph 3 will be used in cases where the licensee is relying on his own financial resources as financial protection.

4. (a) With respect to damage caused by a nuclear incident to property of any person legally liable for the incident, the licensee agrees to pay to such person those sums which such person would have been obligated to pay if such property had belonged to another; provided, that the obligation of the licensee under this paragraph 4 does not apply with respect to:

(1) Property which is located at the location and used in connection with the licensee's possession, use or transfer of the radioactive material;

(2) Property damage due to neglect of the person indemnified to use all reasonable means to save and preserve the property after knowledge of a nuclear incident.

NOTE: Paragraph 4 will be used in cases where the licensee is relying upon his own financial resources as financial protection.

(b) The obligation of the licensee under this paragraph 4 shall apply only with respect to damage caused by a nuclear incident which occurs at the location or in the course of transportation.

5. The licensee agrees that it will hold the United States and the Commission harmless from any damages resulting from the use or possession by the licensee of that part of the radioactive material which is special nuclear material.

6. The obligations of the licensee under paragraphs 3, 4, and 5 of this Article shall not in the aggregate exceed the amount of financial protection with respect to any nuclear incident, including the reasonable costs of investigating and settling claims and defending suits for damage.

7. The obligations of the licensee under paragraphs 3 and 4 of this Article shall apply only with respect to nuclear incidents occurring during the term of the license designated in Item 3 of the Declarations. If more than one license is designated in Item 3 of the Declarations, the obligations of the licensee under paragraphs 3 and 4 of this Article shall apply only with respect to nuclear incidents occurring prior to the end of the term of that license which is the last to expire. The Commission agrees that, upon the expiration and revocation of any license designated in Item 3 of the Declarations it will enter into an appropriate agreement with the licensee reducing the amount of financial protection required under this Article; provided, that the licensee is then entitled to a reduction in the amount of financial protection under applicable Commission regulations and orders. The obligations of the licensee under paragraphs 3 and 4 of this Article shall not apply with respect to nuclear incidents occurring prior to the effective time of this agreement as specified in the Declarations.

8. The obligations of the licensee under this Article shall not be affected by any failure or default on the part of the Commission or the Government of the United States to fulfill any or all of its obligations under this agreement.

ARTICLE III

1. The Commission undertakes and agrees to indemnify and hold harmless the licensee and other persons indemnified, as their interest may appear, from public liability arising out of or in connection with the licensed activity. Public liability shall not be deemed to arise out of or in connection with the licensed activity unless such public liability arises out of or results from a nuclear incident which occurs at the location or in the course of transportation.

2. (a) With respect to damage caused by a nuclear incident to property of any person legally liable for the nuclear incident, other than excluded property, the Commission agrees to pay to such person those sums which the Commission would have been obligated to pay under this agreement if such property had belonged to another. The obligation of the Commission under this paragraph 2 does not apply to property damage due to neglect of the person indemnified to use all reasonable means to save and preserve the property after knowledge of a nuclear incident.

(b) The obligation of the Commission under this paragraph 2 shall apply only with respect to damage caused by a nuclear incident which occurs at the location or in the course of transportation.

3. The obligations of the Commission under this Article shall apply only with respect to such public liability and such damage to property, other than excluded property, of persons legally liable for the nuclear incident as in the aggregate exceeds the amount of financial protection.

4. The obligations of the Commission under this Article shall apply only with respect to nuclear incidents occurring during the term of the license designated in Item 3 of the Declarations. If more than one license is designated in Item 3 of the Declarations, the obligations of the Commission under this Article shall apply only with respect to nuclear incidents occurring prior to the end of the term of that license which is the last to expire. The obligations of the Commission under this Article shall not apply with respect to nuclear incidents occurring prior to the effective time of this agreement as specified in the Declarations.

5. The obligations of the Commission under this and all other agreements and contracts to which the Commission is a party shall not in the aggregate exceed $500,000,000 with respect to any nuclear incident, including the reasonable costs of investigating and settling claims and defending suits for damage.

6. The obligations of the Commission under this Article, except to the licensee for damage to property of the licensee, shall not be affected by any failure on the part of the licensee to fulfill its obligations under this agreement.

ARTICLE IV

1. When the Commission determines that it will probably be required to make indemnity payments under the provisions of Article II above, the Commission shall have the right to, and shall, collaborate with the licensee and other persons indemnified in the settlement and defense of any claim and shall have the right (a) to require the prior approval of the Commission for the settlement or payment of any claim asserted against the licensee for public liability or damage to property of persons legally liable for the nuclear incident which the licensee or the Commission may be required to indemnify under this agreement; and (b) to appear through the Attorney General of the United States on behalf of the licensee or other person indemnified, take charge of such action and settle or defend any such action. If the settlement or defense of any such action or claim is undertaken by the Commission, the licensee shall furnish all reasonable assistance in effecting a settlement or asserting a defense.

2. In the event of bodily injury or property damage arising out of or in connection with the possession or use of byproduct, source or special nuclear material at the location or in the course of transportation, or in the event of an occurrence which may give rise to claims therefor, written notice containing particulars sufficient to identify the licensee and reasonably obtainable information with respect to the time, place, and circumstances thereof, and the names and addresses of the injured, an identification of damaged property and of the owners of such property, and the names and addresses of available witnesses, shall be furnished by or for the licensee to the Commission as promptly as practicable. After claim is made or suit is brought against the licensee, he shall immediately forward to the Commission a copy of every demand, notice, summons or other process received by the licensee or his representative.

3. In the event of damage caused by a nuclear incident to property of the licensee, for which it appears that the Commission may be requested to make payments under the provisions of Article III above, the licensee shall furnish a complete inventory of the damage claimed hereunder to such property, showing in detail the amount thereof. Within ninety-one days after such incident, unless such time is extended in writing by the Commission, the licensee shall render to the Commission, a proof of loss, signed and sworn to by the licensee, stating the knowledge and belief of the licensee as to the following: Identification of the nuclear incident; the interest of the licensee in the property destroyed or damaged, and the amount of each item of property damage; all encumbrances on such property; and all contracts of insurance, whether valid or not, covering any of such property. The licensee shall include in the proof of loss a copy of all descriptions and schedules of all policies. Upon the Commission's request, the licensee shall furnish verified plans and specifications of any such property. The licensee, as often as may be reasonably required, shall exhibit to any person designated by the Commission any of such property, and submit to examinations under oath by any person named by the Commission and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of accounts, records, bills, invoices and other vouchers or certified copies thereof if originals be lost, pertaining to such property at such reasonable time and place as may be designated by the Commission or its representative, and shall permit extracts and copies thereof to be made.

4. The licensee shall cooperate with the Commission, and, upon the request of the Commission or of the Attorney General of the United States or of their representatives, shall attend hearings and trials and assist in making settlements, securing and giving evidence, obtaining the attendance of witnesses and in the conduct of any legal proceeding in connection with the subject matter of this agreement and in the performance by the Commission of any of its responsibilities under Section 170 of the Atomic Energy Act of 1954. Without the prior written approval of the Commission, the licensee shall not, in any case where it appears that the Commission may be required to make payments under the provisions of Article III, hereinafter make any payment, assume any obligation or incur any expense except at his own cost.

5. Neither this agreement nor any interest therein nor claim thereunder may be assigned or transferred without the approval of the Commission.

6. The licensee is authorized to act on behalf of all persons indemnified under this agreement with respect to any matter pertaining to this agreement, including but without limitation on the generality of the foregoing, the payment of fees and the amendment, extension, cancellation, or modification of this agreement.

ARTICLE V

The parties agree that they will enter into appropriate amendments of this agreement to the extent that such amendments are required pursuant to the Atomic Energy Act of 1954, as amended, or licenses, regulations or orders of the Commission.

ARTICLE VI

The licensee agrees to pay to the Commission such fees as are established by the Commission by regulation or order, pursuant to subsection 170 f. of the Atomic Energy Act of 1954, as amended. Such fees shall be paid within 30 days of the receipt of bills therefor from the Commission. Upon the failure of the licensee to pay any such fee within 30 days of the receipt of the bill therefor from the Commission, the licensee shall pay interest on the amount of such unpaid fee at the rate of 6 per cent per annum until payment is made.

[10 CFR Part 140]

FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

NOTICE OF PROPOSED RULE MAKING

On September 11, 1957 the Atomic Energy Commission issued this part, pursuant to the Atomic Energy Act of 1954, as amended by Public Law 85-256. When part 140 was issued, the Commission stated, among other things, that the regulations therein would be replaced at an early date by more definitive regulations; and that part 140 does not contain many types of provisions which will be included in later revisions.

Part 140, as presently in effect, provides that financial protection may be furnished by licensees subject to the part in the form of (1) an effective policy of liability insurance from private sources for which the premiums have been paid; or (2) adequate resources to provide the financial protection required by the part; or (3) such other type of financial protection as the Commission may approve; or (4) any combination of the foregoing. Since issuance of Part 140, a substantial number of persons who have applied for or received licenses authorizing the operation of nuclear reactors have furnished, as proof of financial protection, nuclear energy liability insurance binders issued by the Nuclear Energy Liability Insurance Association or by the Mutual Atomic Energy Liability Underwriters organizations (hereinafter respectively referred to as "NELIA" and "MAELU"). Pending any further changes in the form, the binders incorporate the form of policy set forth below. The Commission has advised persons filing such binders in appropriate amounts that their proof of financial protection has been accepted by the Atomic Energy Commission under regulations currently in effect.

The following amendment would grant approval by Commission rule to the furnishing of financial protection in the form of the nuclear energy liability insurance policy set forth below as Appendix A (§ 140.75). The form is identical to the forms of policies issued by the NELIA and MAELU groups. The supplementary coverage endorsement is a part of the form.

The fact that the Commission proposes to incorporate in Part 140 a general approval of the form of policy offered by the NELIA and MAELU organizations, should not be construed as indicating that it is the only form which the Commission will approve. The Commission will accept any other form of nuclear energy liability insurance policy as proof of financial protection under Part 140, if it concludes that such forms provide adequate financial protection under the requirements of its regulations and applicable legislation.

Notice is hereby given that adoption of the following amendment to Part 140, "Financial Protection Requirements and Indemnity Agreements" is contemplated. All interested persons who desire to submit written comments and suggestions for consideration in connection with the proposed amendment should send them to the United States Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation, within 30 days after publication of this notice in the FEDERAL REGISTER.

1. The following new § 140.25 is added:

§ 140.25 *Nuclear energy liability insurance.* (a) Licensees who choose to furnish financial protection pursuant to § 140.12 (a), may do so in the form of the nuclear energy liability insurance policy (including the supplementary coverage endorsements) set forth in Appendix A (§ 140.75).

(b) The Commission will accept any other form of nuclear energy liability insurance as proof of financial protection, if it determines that the provisions of such insurance provide adequate financial protection under the requirements of the Commission's regulations and the Atomic Energy Act of 1954, as amended.

2. Section 140.75 is added to read as follows:

§ 140.75 *Appendix A.*

APPROVED FORM OF NUCLEAR ENERGY LIABILITY POLICY

The undersigned members of the -------- ---------- hereinafter called the "companies," each for itself, severally and not jointly, and in the respective proportions hereinafter set forth, agree with the insured, named in the declarations made a part hereof, in consideration of the premium and in reliance upon the statements in the declarations and subject to the limit of liability, exclusions, conditions and other terms of this policy.

INSURING AGREEMENTS

I. *Bodily injury and property damage liability.* To pay on behalf of the insured:

A. All sums which the insured shall become legally obligated to pay as damages because of:

(1) Bodily injury, sickness or disease, including death resulting therefrom, hereinafter called "bodily injury," sustained by any person;

(2) Physical injury to or destruction of radioactive contamination of property, and loss of use of property so injured, destroyed or contaminated, and loss of use of property while evacuated or withdrawn from use because possibly so contaminated or because of imminent danger of such contamination, hereinafter called "property damage";

caused by the nuclear energy hazard, and the companies shall defend any suit against the insured alleging such bodily injury or property damage and seeking damages which are payable under the terms of this policy; but the companies may make such investigation, negotiation and settlement of any claim or suit as they deem expedient;

B. Costs taxed against the insured in any such suit and interest on any judgment therein;

C. Premiums on appeal bonds and on bonds to release attachments in any such suit, but without obligation to apply for or furnish such bonds;

D. Reasonable expenses, other than loss of earnings, incurred by the insured at the companies' request.

II. *Definitions.* Wherever used in this policy:

A. The term "the facility" means the facility described in the declarations and includes the location designated in Item 3 of the declarations and all property and operations at such location;

B. The terms "source material," "special nuclear material," and "byproduct material" shall have the meanings given them in the Atomic Energy Act of 1954, or in any law amendatory thereof;

C. The term "nuclear energy hazard" means the radioactive, toxic, explosive or other hazardous properties of source material, special nuclear material or byproduct material, but only with respect to (1) the possession, handling, use or disposal of such materials at the location designated in Item 3 of the declarations, or (2) the transportation, including handling or temporary storage incidental thereto, of such materials shipped (a) from such location, provided such transportation of such materials shall be deemed to end when such materials are removed from a transporting conveyance for any purpose other than continuation of such transportation or temporary storage incidental thereto, or (b) to such location from a nuclear facility owned by the United States of America, provided such transportation of such materials from such nuclear facility is not by predetermination to be interrupted by the removal of such materials from a transporting conveyance for any purpose other than the continuation of such transportation to such location or temporary storage incidental thereto;

D. The term "nuclear incident" means an occurrence which results in bodily injury or property damage caused by the nuclear energy hazard;

E. The term "nuclear facility" means:

(1) Any apparatus designed or used to sustain nuclear fission in a self-supporting chain reaction or to contain a critical mass of fissionable material;

(2) Any equipment or device (a) designed or used for the separation of the isotopes of uranium or plutonium, (b) designed or used for the processing, fabricating or alloying of special nuclear material or of irradiated materials containing special nuclear material, (c) incorporating or making use of such irradiated materials, or (d) designed or used for processing waste byproduct material;

(3) Any structure, basin, excavation, premises or place prepared or used for the storage or disposal of waste source material or waste consisting of or containing special nuclear material or byproduct material;

and includes the site on which any of the foregoing is located, together with all operations conducted thereon and all premises used for such operations.

Subdivision (b) of paragraph (2) foregoing is not applicable to the occasional mechanical processing or fabricating of special nuclear material by any person or organization at a location which contains no equipment, device or apparatus otherwise defined herein as a nuclear facility, where special nuclear material or byproduct material is not regularly handled, stored, or disposed of as waste, and which is principally used for other operations not related to the handling, fabricating or use of special nuclear material.

III. *Definition of insured.* The unqualified word "insured" includes (a) the named insured and (b) any other person or organization with respect to his legal responsibility for a nuclear incident.

Subdivision (b) above does not include as an insured the United States of America or any of its agencies.

Subject to Condition 3 and the other provisions of this policy, the insurance applies separately to each insured against whom claim is made or suit is brought.

IV. *Application of policy.* This policy applies only to bodily injury or property damage (1) which results from nuclear incidents occuring during the policy period and (2) which is discovered, and for which written claim is made against the insured, not later than two years after the end of the policy period.

EXCLUSIONS

This policy does not apply:

(a) To any obligation for which the insured or any carrier as his insurer may be held liable under any workmen's compensation, unemployment compensation or disability benefits law, or under any similar law;

(b) Except with respect to liability of another assumed by the insured under contract, to bodily injury to any employee of the insured arising out of and in the course of his employment by the insured;

(c) To liability assumed by the insured under contract, other than an assumption in a contract with another of the liability of any person or organization which would be imposed by law on such person or organization in the absence of an express assumption of liability;

(d) To bodily injury or property damage due to the manufacturing, handling or use at the location designated in Item 3 of the declarations, in time of peace or war, of any nuclear weapon or other instrument of war utilizing special nuclear material or byproduct material;

(e) To bodily injury or property damage due to war, whether or not declared, civil war, insurrection, rebellion or revolution, or to any act or condition incident to any of the foregoing;

(f) To property damage to any property at the location designated in Item 3 of the declarations, other than aircraft, watercraft or vehicles licensed for highway use, provided such aircraft, watercraft or vehicles are not used in connection with the operation of the facility;

(g) To property damage to source material, special nuclear material or byproduct material in the course of transportation to or from the location designated in Item 3 of the declarations, including handling or storage incidental thereto;

(h) To any nuclear incident

(1) Arising out of the possession, transportation, handling, use or disposal, outside the territorial limits of the United States of America, its territories or possessions, Puerto Rico or the Canal Zone, of source material, special nuclear material or byproduct material;

(2) Occurring at any nuclear facility other than the facility described in the declarations;

(3) Arising out of the possession, transportation, handling, use or disposal by any person or organization, away from the facility, of source material, special nuclear material or byproduct material, unless such nuclear incident occurs away from any other nuclear facility and in the course of transportation, including handling or storage incidental thereto, of source material, special nuclear material, byproduct material contained in or combined with special nuclear material, or waste consisting of or containing byproduct material, shipped (i) from the facility or (ii) to the facility from a nuclear facility owned by the United States of America.

CONDITIONS

1. *Premium.* The named insured shall pay the companies the advance premium stated in the declarations, for the period from the effective date of the policy through December 31 following. Thereafter, at the beginning of each calendar year while this policy is in force, the named insured shall pay the advance premium for such year to the companies. The advance premium for each calendar year shall be stated in a written notice given by the companies to the named insured as soon as practicable prior to or after the beginning of such year.

Such advance premiums are estimated premiums only. As soon as practicable after each December 31 and after the termination of the policy, the earned premium for the preceding premium period shall be computed in accordance with the companies' rules, rates, rating plans, premiums and minimum premiums applicable to this insurance. If the earned premium thus computed for any premium period exceeds the advance premium previously paid for such period, the insured shall pay the excess to the companies; if less, the companies shall return to the insured the unearned portion paid by the insured.

The named insured shall maintain records of the information necessary for premium computation and shall send copies of such records to the companies at the end of each calendar year, at the end of the policy period and at such other times during the policy period as the companies may direct.

2. *Inspection: suspension.* The companies shall be permitted to inspect the facility and to examine the insured's books and records at any time, as far as they relate to the subject matter of this insurance. If a representative of the companies discovers a condition with respect to the nuclear energy hazard which he believes to be unduly dangerous, a representative of the companies may request that such condition be corrected without delay. In the event of noncompliance with such request, a representative of the companies may, after twelve hours prior notice to the United States Atomic Energy Commission, by written notice to the named insured, immediately suspend the insurance with respect to the named insured and any other person or organization responsible for the continuance of such dangerous condition. A copy of such notice shall be sent promptly to the United States Atomic Energy Commission. The insurance so suspended may be reinstated by the companies by an endorsement issued to form a part of this policy.

3. *Limit of liability: termination of policy upon exhaustion of limit.* Regardless of the number of persons and organizations who are insured under this policy, and regardless of the number of claims made and suits brought against any or all insureds because of one or more nuclear incidents during the policy period, the limit of liability stated in the declarations is the total aggregate liability of the companies for their obligations under this policy and the expenses incurred by the companies in connection with such obligations, including

(a) Payments in settlement of claims and in satisfaction of judgments against the insureds for damages because of bodily injury or property damage, and payments made under parts B, C and D of Insuring Agreement I;

(b) Payments for expenses incurred in the investigation, negotiation, settlement and defense of any claim or suit, including, but not limited to, the cost of such services by salaried employees of the companies, fees and expenses of independent adjusters, attorneys' fees and disbursements, expenses for expert testimony, inspection and appraisal of property, examination, X-ray or autopsy or medical expenses of any kind;

(c) Payments for expenses incurred by the companies in investigating a nuclear incident or in minimizing its effects.

Each such payment made by the companies shall reduce by the amount of such payment the limit of the companies' liability under this policy.

If, during the policy period or subsequent thereto, the total of such payments made by the companies shall exhaust the limit of the companies' liability under this policy, all liability and obligations of the companies under this policy shall thereupon terminate and shall be conclusively presumed to have been discharged. This policy, if not theretofore canceled, shall thereupon automatically terminate.

Regardless of the number of years this policy shall continue in force and the number of premiums which shall be payable or paid, the total aggregate liability of the companies shall be the limit of liability stated in the declarations and shall not be cumulative from year to year.

4. *Limitation of liability—common occurrence.* Any occurrence or series of occurrences resulting in bodily injury or property damage arising out of the radioactive, toxic, exposive or other hazardous properties of source material, special nuclear material or byproduct material

(a) In the course of transportation from the facility or to the facility from a nuclear facility owned by the United States of America and also arising out of such properties of other such material in the course of transportation from one or more other nuclear facilities or to one or more such facilities from one or more nuclear facilities owned by the United States of America, or

(b) Discharged or dispersed from the facility over a period of days, weeks, months or longer and also arising out of such properties of other such material so discharged or dispersed from one or more other nuclear facilities,

shall be deemed to be one nuclear incident.

With respect to such bodily injury and property damage (1) the total aggregate liability of the companies under all contracts of nuclear energy liability insurance, including this policy, issued to nuclear facilities and applicable to such incident, shall not exceed the highest applicable limit of liability of any such contract; (2) the total liability of the companies under this policy shall not exceed that proportion of the total aggregate liability of the companies, as stated in clause (1) above, which (a) the applicable limit of liability of this policy bears to (b) the sum of the applicable limits of liability of all such contracts issued by the companies.

5. *Notice of occurrence, claim or suit.* In the event of bodily injury or property damage to which this policy applies or of an occurrence which may give rise to claims therefor, written notice containing particulars sum-

cient to identify the insured and also reasonably obtainable information with respect to the time, place and circumstances thereof, and the names and addresses of the injured and of available witnesses, shall be given by or for the insured to the ---------- or the companies as soon as practicable. If claim is made or suit is brought against the insured, he shall immediately forward to the ---------- or the companies every demand, notice, summons or other process received by him or his representative.

6. *Assistance and cooperation of the insured.* The insured shall cooperate with the companies and, upon the companies' request, attend hearings and trials and assist in making settlements, securing and giving evidence, obtaining the attendance of witnesses and in the conduct of any legal proceedings in connection with the subject matter of this insurance. The insured shall not, except at his own cost, make any payment, assume any obligation or incur any expense.

7. *Action against companies.* No action shall lie against the companies or any of them unless, as a condition precedent thereto, the insured shall have fully complied with all the terms of this policy, nor until the amount of the insured's obligation to pay shall have been finally determined either by judgment against the insured after actual trial or by written agreement of the insured, the claimant and the companies.

Any person or organization or the legal representative thereof who has secured such judgment or written agreement shall thereafter be entitled to recover under this policy to the extent of the insurance afforded by this policy. No person or organization shall have any right under this policy to join the companies or any of them as parties to any action against the insured to determine the insured's liability, nor shall the companies or any of them be impleaded by the insured or his legal representative. Bankruptcy or insolvency of the insured or of the insured's estate shall not relieve the companies of any of their obligations hereunder.

8. *Subrogation.* In the event of any payment under this policy, the companies shall be subrogated to all the insured's rights of recovery therefor against any person or organization, and the insured shall execute and deliver instruments and papers and do whatever else is necessary to secure such rights. Prior to knowledge of a nuclear incident the insured may waive in writing any right of recovery against any person or organization, but after such knowledge the insured shall not waive or otherwise prejudice any such right of recovery.

The companies hereby waive any rights of subrogation acquired against the United States of America or any of its agencies by reason of any payment under this policy.

The companies do not relinquish, by the foregoing provisions, any right to restitution from the insured out of any recoveries made by the insured on account of a loss covered by this policy of any amounts to which the companies would be entitled had such provisions, or any of them, not been included in this policy.

9. *Other insurance.* If the insurance afforded by this policy is concurrent with insurance afforded by a like policy issued to the named insured by ----------, hereinafter called "concurrent insurance," the companies shall not be liable under this policy for a greater proportion of any loss or expense than the limit of liability stated in the declarations of this policy bears to the sum of such limit and the limit of liability stated in the declarations of such concurrent policy.

If the insured has other valid and collectible insurance (other than such concurrent insurance or any other nuclear energy liability insurance issued by the companies or ---------- to any person or organization) applicable to loss and expense covered by this policy, the insurance afforded by this policy shall be excess insurance over such other insurance.

10. *Changes.* Notice to any agent or knowledge possessed by any agent or by any other person shall not effect a waiver or a change in any part of this policy or stop the companies from asserting any right under the terms of this policy; nor shall the terms of this policy be waived or changed, except by endorsement issued to form a part of this policy executed by the ---------- on behalf of the companies.

11. *Assignment.* Assignment of interest by the named insured shall not bind the companies until their consent is endorsed hereon; if, however, the named insured shall die or be declared bankrupt or insolvent, this policy shall cover such insured's legal representative, receiver, or trustee as an insured under this policy, but only with respect to his liability as such, and then only provided written notice of his appointment as legal representative, receiver, or trustee is given to the companies within ten days after such appointment.

12. *Cancellation.* This policy may be canceled by the named insured by mailing to the companies and the United States Atomic Energy Commission written notice stating when, not less than thirty days thereafter, such cancellation shall be effective. This policy may be canceled by the companies by mailing to the named insured at the address shown in this policy and to the United States Atomic Energy Commission written notice stating when, not less than ninety days thereafter, such cancellation shall be effective; provided in the event of nonpayment of premium or if the operator of the facility, as designated in the declarations, is replaced by another person or organization, this policy may be canceled by the companies by mailing to the named insured at the address shown in this policy and to the United States Atomic Energy Commission written notice stating when, not less than thirty days thereafter, such cancellation shall be sufficient proof of notice. The effective date and hour of cancellation stated in the notice shall become the end of the policy period. Delivery of such written notice either by the named insured or by the companies shall be equivalent to mailing.

Upon termination or cancellation of this policy, other than as of the end of December 31 of any year, the earned premium for the period of this policy has been in force since the preceding December 31 shall be computed in accordance with the following provisions:

(a) If this policy is terminated, pursuant to Condition 3, by reason of the exhaustion of the limit of the companies' liability, all premium theretofore paid or payable shall be fully earned;

(b) If the named insured cancels, the earned premium for such period shall be computed in accordance with the customary annual short rate table and procedure, provided if the named insured cancels after knowledge of a nuclear incident, all premiums theretofore paid or payable shall be fully earned;

(c) If the companies cancel, the earned premium for such period shall be computed pro rata.

Premium adjustment, if any, may be made either at the time cancelation is effected or as soon as practicable after cancelation becomes effective, but payment or tender of unearned premium is not a condition of cancelation.

13. *Company representation.* (a) Any notice, sworn statement, or proof of loss which may be required by the provisions of this policy may be given to any one of the companies, and such notice, statement, or proof of loss so given shall be valid and binding as to all companies.

(b) In any action or suit against the companies, service of process may be made on any one of them, and such service shall be deemed valid and binding service on all companies.

(c) The ---------- is the agent of the companies with respect to all matters pertaining to this insurance. All notices or other communications required by this policy to be given to the companies may be given to such agent, at its office at ----------, with the same force and effect as if given directly to the companies. Any requests, demands or agreements made by such agent, shall be deemed to have been made directly by the companies.

14. *Authorization of named insured.* The named insured is authorized to act on behalf of all insureds with respect to the giving and receiving of notice of cancellation of this policy, the payment of premiums and receiving of return premiums.

15. *Declarations.* By acceptance of this policy the named insured agrees that the statements in the declarations are the agreements and representations of the named insured, that this policy is issued in reliance upon the truth of such representations and that this policy embodies all agreements between the named insured and the companies or any of their agents relating to this insurance.

In witness whereof, each of the subscribing companies has caused this policy to be executed and attested on its behalf by the ---------- of the ---------- and duly countersigned on the declarations page by an authorized representative, but this policy shall be binding upon each company only to the extent of the below-designated proportion of any obligation assumed or expense incurred under this policy.

(Authorized Representative)

SUPPLEMENTARY COVERAGE ENDORSEMENT
(NUCLEAR FACILITIES)

It is agreed that such insurance as is afforded by the policy applies, subject to the following provisions:

DIVISION A

1. The following paragraph is added at the end of Insuring Agreement I:

Damage to property of an insured away from the facility. With respect to property damage caused by the nuclear energy hazard to property of an insured which is away from the facility, to pay to such insured those sums which such insured would have been legally obligated to pay as damages therefor, had such property belonged to another.

2. This insurance does not apply to property damage due to neglect of the insured to use all reasonable means to save and preserve the property after knowledge of a nuclear incident.

3. With respect to the insurance afforded by this Division A:

(a) In the event of property damage resulting from a nuclear incident, the insured shall furnish a complete inventory of the property damage claimed hereunder, showing in detail the amount thereof. Within ninety-one days after such incident, unless such time is extended in writing by the companies, the insured shall render to the companies a proof of loss, signed and sworn to by the insured, stating the knowledge and belief of the insured as to the following: identification of the nuclear incident; the interest of the insured in the property destroyed or damaged, and the amount of each item of property damage; all encumbrances on such property; and all other contracts of insurance, whether valid or not, covering any of such property. The insured shall include in the proof of loss a copy of all descriptions and schedules of all policies. Upon the companies' request, the insured shall furnish verified plans and specifications of any such property. The insured, as often as may be reasonably required, shall exhibit to any person designated by the companies any of such property, and submit to examinations under oath by any person named by the companies and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of account, records, bills, invoices and other vouchers or certified copies thereof if originals be lost, at such reasonable time and place as may be designated by the companies or their representatives, and shall permit extracts and copies thereof to be made.

(b) In case the insured and the companies shall fail to agree as to the amount of property damage, then, on the written demand of either, each shall select a competent and disinterested appraiser and notify the other of the appraiser selected within twenty days of such demand. The appraisers shall first select a competent and disinterested umpire and, failing for fifteen days to agree upon such umpire, then, on request of the insured or the companies, such umpire shall be selected by a judge of a court of record in the state in which the property is located. The appraisers shall then appraise each item of property damage and, failing to agree, shall submit their differences only to the umpire. An award in writing, so itemized, of any two when filed with the companies shall determine the amount of property damage. Each appraiser shall be paid by the party selecting him and the expenses of the appraisal and umpire shall be paid by the parties equally.

The companies shall not be held to have waived any of their rights by any act relating to appraisal.

(c) No suit or action on the policy for the recovery of any claim shall be sustainable in any court of law or equity unless all the requirements of the policy shall have been complied with and unless commenced within two years after the nuclear incident which results in the property damage.

DIVISION B

The following paragraphs are added to Insuring Agreement I, to follow the paragraph added by Division A above:

Subrogation—offsite employees. With respect to bodily injury sustained by any employee of an insured and resulting from a nuclear incident, to pay to the workmen's compensation carrier of such insured all sums which such carrier would have been entitled to recover and retain as damages from another person or organization, had such person or organization alone been legally responsible for such nuclear incident, by reason of the rights acquired by subrogation by reason of the payment of the benefits required of such carrier under the applicable workmen's compensation or occupational disease law. An employer who is a duly qualified self-insurer under such law shall be deemed to be a workmen's compensation carrier within the meaning of this paragraph. This Division B does not apply to bodily injury sustained by any person who is employed at and in connection with the facility.

The insurance afforded by the policy by virtue of this Division B shall not constitute workmen's compensation insurance as required under the laws of any state.

DIVISION C

Employers' liability—offsite employees.

1. Except with respect to any person who is employed at and in connection with the facility, exclusion (b) of the policy is deleted.

2. If the insured has other insurance (other than concurrent insurance as described in Condition 9) against a loss covered by this policy by virtue of paragraph 1 of this Division C, the insurance so afforded by this policy shall be primary insurance under such other insurance.

3. This Division C does not apply unless the insured has complied with the requirements of the applicable workmen's compensation or occupational disease law respecting the securing of compensation benefits thereunder to his employees.

It is further agreed that the following clause is added to subparagraph (a) of the first paragraph of Condition 3 of the policy: "and payments made in settlement of claims under Divisions A, B and C of the Supplementary Coverage Endorsement (Nuclear Facilities) forming a part of this policy";

Dated at Germantown, Md., this 21st day of August 1958.

For the Atomic Energy Commission.

PAUL F. FOSTER,
General Manager.

Sec. 33, All.

2. The lands are located from 12 to 28 miles east of the town of Lucerne Valley, California, and 14 to 26 miles north of the town of Yucca Valley, California, in the region generally known as Johnson Valley. The area is traversed by the Victorville-Twentynine Palms highway. The topography is undulating to broken in character, crossed by numerous washes of varying size. The soil is generally sandy, supporting a dominant vegetation of creosote bush and bur sage. The lands described above are unsuitable for classification for disposal under the Small Tract Act of 1938, as amended. The entire area is closed to filings under the Small Tract Act.

3. No application for these lands will be allowed under the homestead, desert land, or any other nonmineral public land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. Subject to any valid existing rights and the requirements of applicable laws, the lands described herein are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims, subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead and Desert Land Laws by qualified veterans of World War II and, or, the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279 through 284, as amended), presented prior to 10:00 a. m., on September 25, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 25, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws other than those coming under paragraphs (1) and (2) above and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m., on December 25, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be opened to location under the United States mining laws, beginning 10:00 a. m., on December 25, 1958.

5. Persons claiming veteran's preference rights under paragraph 4a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements of support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

6. Inquiries concerning these lands shall be addressed to the Manager, U. S. Land Office, Bureau of Land Management, Bartlett Building, 215 West Seventh Street, Los Angeles, California.

ROLLA E. CHANDLER,
Officer-in-Charge,
Southern Field Group,
Los Angeles, California.

NEW MEXICO

REDELEGATION OF AUTHORITY BY LAND OFFICE MANAGER TO CHIEFS, MINERAL AND LAND ADJUDICATION UNITS

AUGUST 20, 1958.

Pursuant to authority contained in Bureau Order 541, as amended, authority is hereby redelegated to the Chief, Mineral Adjudication Unit to take action for the Manager in all matters listed in section 3.6 of Part III-A, and to the Chief, Lands Adjudication Unit in all matters listed in section 3.9 of Part III-A, to become effective immediately upon publication in the FEDERAL REGISTER. The authority delegated may not be redelegated.

DOUGLAS E. HENRIQUES,
Land Office Manager,
New Mexico Land Office.

Approved: August 20, 1958.

E. R. SMITH,
New Mexico State Supervisor,
Bureau of Land Management.

The areas described above aggregate 12,377.38 acres.

3. The following described lands are open to application location, selection and petition as outlines below. No application for these lands will be allowed under the Homestead, Desert Land, Small Tract or any other non-mineral public land laws, unless the lands have already been classified upon consideration of an applicant. The lands will not be subject to occupancy until they have been classified:

SAN BERNARDINO MERIDIAN

T. 19 N., R. 1 E.,
Sec. 17, E½;
Sec. 20, NE¼;
Sec. 21, N½;
Sec. 25, SE¼.
T. 18 N., R. 3 E.,
Sec. 17, NE¼;
Sec. 21, N½.
T. 20 N., R. 5 E.,
Sec. 21, All.
T. 19 N., R. 8 E.,
Sec. 28, N½, SE¼;
Sec. 35, E½.

The areas described above aggregate 2,882.57 acres.

4. The lands are located in the vicinity of Death Valley National Monument. They are rough, mountainous, and cut by canyons and deep washes. Elevations vary from 800 to 5,000 feet, and maximum summer temperatures often reach 120° F. The soil is of granitic origin, low in organic matter and supports sparse vegetation with a limited grazing value. Precipitation is less than 4 inches, usually occurring in local intense thunderstorms of cloudburst intensity during summer months.

5. Subject to any existing valid rights and the requirements of applicable law, the lands described in paragraph 3 hereof, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the non-mineral public land laws presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on September 24, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 24, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on December 24, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

6. Persons claiming veterans' preference rights under paragraph 5 (a) (2) above, must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

NOLAN F. KEIL,
Manager,
Land Office,
Los Angeles.

NEVADA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

AUGUST 22, 1958.

The Forest Service, Department of Agriculture, has filed an application,

Serial No. Nevada 046240, for the withdrawal of the lands described below, from location and entry under the General Mining Laws subject to valid existing claims. The applicant desires the land as an administrative site.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 1551, Reno, Nevada.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are within the Humboldt National Forest and are described below:

MOUNT DIABLO MERIDIAN, NEVADA

CALIFORNIA SPRINGS ADMINISTRATIVE SITE

T. 16 N., R. 58 E.,
Sec. 8, S½NE¼NW¼.

The area described contains 20 acres more or less.

CALIFORNIA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

AUGUST 21, 1958.

The Department of Agriculture has filed an application, Serial No. Los Angeles 0157654, for the withdrawal of the lands described below, from all forms of appropriation under the Public Land Laws, including the mining and mineral leasing laws, subject to valid existing rights.

The applicant desires the land for a Botanical area to be known as the Ancient Bristlecone Pine Forest. The trees in the area are an important source of scientific information in the fields of plant physiology and dendrochronology. The area contains a number of trees 2,000 to 4,000 years old and these are believed to be the oldest living trees.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 215 West Seventh Street, Los Angeles 14, California.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN

FEDERAL POWER COMMISSION

[Docket No. G-13123]

LOUIS J. ROUSSEL

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 22, 1958.

Take notice that Louis J. Roussel (Operator) (Applicant), an independent producer, filed an application on August 22, 1957, pursuant to section 7 (b) of the Natural Gas Act for permission and approval to abandon service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks permission and approval to abandon the sale of natural gas to Texas Northern Gas Corporation (Texas Northern) from the Roussel-Laughlin-Morgan No. 1 well in the South Bayou Mallet Field, Acadia Parish, Louisiana, which service is covered by contract dated February 26, 1952.

The application states that there has been no production from said well since September 5, 1955, at which time said well was plugged and abandoned, pursuant to a permit issued by the Department of Conservation of the State of Louisiana.

Applicant was authorized on January 3, 1955, in Docket No. G-3712 to render the service proposed to be abandoned herein.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 23, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 12, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R Doc. 58-6955; Filed, Aug. 27, 1958; 8:46 a. m.]

[Docket No. G-12580, etc.]

EL PASO NATURAL GAS CO. ET AL.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

AUGUST 22, 1958.

In the matters of El Paso Natural Gas Company, Docket Nos. G-12580, and G-13862; Shell Oil Company, Docket No. G-13876; Aztec Oil & Gas Company, Docket No. G-13946; Phillips Petroleum Company, Docket No. G-13963; Western Natural Gas Company, Docket No. G-13964; The Pure Oil Company, Docket No. G-14156; General Petroleum Corporation, Docket No. G-14245; Davis Oil Company, Docket No. G-14361; The Carter Oil Company, Docket No. G-14369; Continental Oil Company, Docket No. G-14396; Sun Oil Company, Docket No. G-14403; The Ohio Oil Company, Docket No. G-14441; Pan American Petroleum Corporation, Docket No. G-14640; Three States Natural Gas Company, Docket No. G-14800; Reynolds Mining Corporation, Docket No. G-14834; Petro-Atlas Corporation, Docket No. G-15081; The Texas Company, Docket No. G-15153.

On May 13, 1958, the Commission issued an order In the Matter of El Paso Natural Gas Company, Docket No. G-12580, reopening the proceeding to enable El Paso Natural Gas Company to make further showing as to its gas supply and ability to serve approximately 100,000 Mcf of natural gas per day to Southern California Edison Company.

In the Matters of El Paso Natural Gas Company, Docket Nos. G-13862, et al., El Paso proposes to construct and operate facilities necessary to enable it to take 100,000 Mcf of natural gas per day from the Aneth area near its San Juan system.

In view of the foregoing, the proceeding In the Matter of El Paso Natural Gas Company, Docket No. G-12580, should be consolidated for the purpose of hearing with the proceedings heretofore scheduled to be heard September 10, 1958, In the Matters of El Paso Natural Gas Company, Docket Nos. G-13862, et al.

The Commission orders:

(A) It is reasonable and appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to consolidate the proceedings in the above dockets for purpose of hearing, and to hold a public hearing in the above-entitled proceedings as hereinafter ordered.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a consolidated hearing will be held on September 10, 1958, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications as set forth above.

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6956; Filed, Aug. 27, 1958; 8:46 a. m.]

[Docket No. G-13331]

JUSTISS-MEARS OIL CO., INC.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 22, 1958.

Take notice that Justiss-Mears Oil Co., Inc. (Operator) et al.[1] (Applicant), filed an application on September 30, 1957, pursuant to section 7 (b) of the Natural Gas Act, for permission and approval to abandon service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to abandon the sale of natural gas to Texas Gas Transmission Corporation (Texas Gas) from the Beekman Field, Morehouse Parish, Louisiana, being rendered under a gas sales contract dated June 30, 1954, between Applicant and Texas Gas. The sale proposed to be abandoned was authorized by the Commission's order issued February 28, 1955, in Docket No. G-2773.

The application states that the gas reserves underlying the acreage involved have been totally exhausted and economical production therefrom is no longer possible.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 23, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 12, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6957; Filed, Aug. 27, 1958; 8:47 a. m.]

[1] Et al. parties are the Grossett Company and S. J. Wilson.

[Docket No. G-16078]

MORRIS ANISMAN

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

AUGUST 22, 1958.

Morris Anisman (Anisman) on July 24, 1958, tendered for filing a proposed change in his presently filed rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, Undated.
Purchaser: Texas Eastern Transmission Corporation.
Rate schedule designation: Supplement No. 4 to Anisman's FPC Gas Rate Schedule No. 1.
Effective date: August 1, 1958 (effective date is the effective date proposed by Anisman).

The instant Notice of Change reflects in whole or in part the effect of the Louisiana State Gathering Tax which is stated to be effective as of August 1, 1958. The use of Supplement No. 3 to Anisman's FPC Gas Rate Schedule No. 1 was deferred by Commission order issued December 19, 1957, at Docket No. 13942.

The increased rate and charge proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 4 to Anisman's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 4 to Anisman's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said Supplement No. 4 be and it is hereby suspended and the use thereof deferred until the date on which Supplement No. 3 to Anisman's FPC Gas Rate Schedule No. 1 is made effective in the manner prescribed by the Natural Gas Act, or until August 2, 1958, whichever is later.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6958; Filed, Aug. 27, 1958; 8:47 a. m.]

[Docket No. G-16060]

SOHIO PETROLEUM CO.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 22, 1958.

Sohio Petroleum Company (Respondent) on July 24, 1958, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 24, 1958.

Purchaser: Transcontinental Gas Pipe Line Corporation.

Rate schedule designation: Supplement No. 20 to Respondent's FPC Gas Rate Schedule No. 26.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until August 2, 1958, and thereafter to permit it to become effective as of that date: *Provided*, That within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until August 2, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of ---------- to Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-----, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ------ day of ----------.

By ----------

Attest:

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6959; Filed, Aug. 27, 1958; 8:47 a. m.]

[1] Undated.

The increased rates and charges proposed are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refunds in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges until August 2, 1958, and thereafter to permit them to become effective as of that date: *Provided*, That within 20 days from the date of this order, each Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of each of the said proposed changes, and that the supplements herein designated be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondents' proposed increased rates be made effective as hereinafter provided and that each Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in each of the supplements to Respondents' FPC Gas Rate Schedules as herein designated.

(B) Pending such hearings and decisions thereon, each of said supplements be and each is hereby suspended and the use thereof deferred until August 2, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in each of the aforementioned supplements to Respondents' FPC Gas Rate Schedules shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, each Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Each Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondents herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts and in such manner as may be required by final order of the Commission. Respondents shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondents so elect, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the dates upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, each Respondent shall execute

and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of ---------- To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-----------, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ------ day of ----------.

By ----------

Attest:

(Secretary)

Unless a Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, his agreement and undertaking shall be deemed to have been accepted.

(F) Each Respondent who, in conformity with the terms and conditions of paragraph (D) of this order, makes such refunds as may be required by order of the Commission, shall be discharged of his undertaking; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the periods of suspension have expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[Docket No. G-15780]

PAN AMERICAN PETROLEUM CORP. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

JULY 31, 1958.

Pan American Petroleum Corporation (Operator) et al. (Pan American) on July 1, 1958, tendered for filing a proposed change in its presently filed rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed tender, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated June 27, 1958.

Purchaser: United Fuel Gas Company.

Rate schedule designation: Supplement No. 10 to Pan American's FPC Gas Rate Schedule No. 173.

Effective date: August 1, 1958 (effective date is the effective date proposed by Pan American).

The instant Notice of Change reflects in whole or in part the effect of the Louisiana State Gathering Tax which is stated to be effective as of August 1, 1958. The use of Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 173 was deferred by order of the Commission dated March 26, 1958 at Docket No. G-14730.

The increased rate and charge here proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 10 to Pan American's FPC Gas Rate Schedule No. 173 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 10 to Pan American's FPC Gas Rate Schedule No. 173.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until the date upon which Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 173 is made effective in the manner prescribed by the Natural Gas Act, or until August 2, 1958, whichever is later.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[Project No. 553]

CITY OF SEATTLE, WASHINGTON

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

AUGUST 22, 1958.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by The City of Seattle, Washington, licensee for Project No. 553, for amendment of its license for the project, situated on the Skagit River, in Whatcom County, Washington, to permit modification of the Diablo plant turbines, surge tower, intake structure and power tunnel which will result in an increased peaking capability of the Diablo generating units from 132,000 kilowatts to 160,000 kilowatts. According to the application, the increased peak power capacity is needed to meet the increasing peak loads of the licensee's system.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is October 7, 1958. The application is on file with the Commission for public inspection.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[Docket No. G-16028]

SINCLAIR OIL & GAS CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 22, 1958.

Sinclair Oil & Gas Company (Sinclair) on July 25, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 21, 1958.

Purchaser: Lone Star Gas Company.

Rate schedule designation: Supplement No. 7 to Sinclair's FPC Gas Rate Schedule No. 47.

Effective date: August 25, 1958 (effective date is the effective date proposed by Sinclair).

In support of the proposed favored-nation rate increase, Sinclair submits a copy of a letter from the Lone Star Gas Company notifying that effective July 1, 1958, the price of gas it purchases from properties in Big Mineral Creek Field, Grayson County, Texas, would be increased from 12 cents per Mcf to 14 cents per Mcf. Sinclair states that the increased price will not result in an excessive rate of return but will merely fulfill the contractual obligations, assist applicant in obtaining a just and reasonable rate commensurate with risks involved and represents a fair consideration to seller for the long-term commitment of the gas.

The increased rate and charge so proposed has not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 7 to Sinclair's FPC Gas Rate Schedule No. 47 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 7 to Sinclair's FPC Gas Rate Schedule No. 47.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until January 25, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[F. R. Doc. 58-6963; Filed, Aug. 27, 1958; 8:48 a. m.]

[Docket No. G-15265]

TENNESSEE GAS TRANSMISSION CO.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 22, 1958.

Take notice that Tennessee Gas Transmission Company (Applicant), a Delaware corporation, with its principal place of business in Houston, Texas, filed an application on June 11, 1958, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of natural gas facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully described in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to construct and operate approximately 4.15 miles of 10¾-inch OD lateral pipeline, replacing a like mileage of 6" lateral pipeline extending from Applicant's main line to the delivery point for the Springfield Gas Light Company, Springfield, Massachusetts. Springfield Gas Light Company is an existing customer of Applicant, serving the Springfield area.

The application states that the present 6" line is now located in an area that is becoming progressively congested as the city grows, imposing higher maintenance costs and the usual hazards of high pressure gas lines in populated areas. Applicant has been requested by the City of Springfield authorities to relocate a substantial portion of its existing lateral pipeline to a less congested area. The length of the proposed line will be the same as that of the line to be replaced.

The application states that the existing lateral line is now operating at nearly its maximum capacity. Projections of load growth indicate it will soon become imperative that the lateral line capacity be increased and that it is more economical to install a larger line at this time than to loop the line at a later date.

Applicant states that the instant proposal will attain both the desired ends—relocation to a safer, less congested area with lower maintenance costs and increased capacity to match growing demands.

The total estimated cost of the proposed facilities is $241,000 and will be financed from the general funds of Applicant. No increase in deliveries is proposed.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 22, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 12, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

OFFICE OF DEFENSE AND CIVILIAN MOBILIZATION

[ODCM (DPA) Request 25—DPAV-33 (c)]

BORG-WARNER CORP. ET AL.

REQUEST TO PARTICIPATE IN THE ACTIVITIES OF AN ARMY ORDNANCE INTEGRATION COMMITTEE ON CARTRIDGE CASES

Pursuant to section 708 of the Defense Production Act of 1950, as amended, there is published herewith the request to participate in the activities of an Army Ordnance integration committee in accordance with the Plan and Regulations of Ordnance Corps Governing the Integration Committee on Cartridge Cases, as amended. The voluntary plan has been amended to extend membership eligibility in accordance with the Defense Production Act Amendments of 1955 and has been further amended to place the Integration Committee on Cartridge Cases in standby status, effective October 25, 1957, without authority to meet and without antitrust immunity, pending a finding by the Assistant Secretary of the Army (Logistics) and concurred in by the Director of the Office of Defense and Civilian Mobilization that reactivation of the Committee is essential in the interest of national defense.

These amendments were made after consultations between the Attorney General, the Chairman of the Federal Trade Commission, and the Director of the Office of Defense Mobilization. This

amended voluntary plan has been approved by the Director of the Office of Defense Mobilization and has been found to be in the public interest as contributing to the national defense.

CONTENTS OF REQUEST

Reference is made to the participation of your company in the activities of the Integration Committee on Cartridge Cases. The Department of the Army has advised me that the Committee has been inactive and has recommended that the Plans and Regulations of the Ordnance Corps covering its activities be amended to place the Committee in a standby status pending a national defense need for reactivation. You are requested to participate in the Plan as amended.

The Attorney General has approved this request after consultation with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary plan, as amended, and find it to be in the public interest as contributing to the national defense. You will become a participant therein upon notifying me in writing of your acceptance of this request. Will you kindly also send two copies of your acceptance to the Industrial Operations Branch, Procurement Division, Office of the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D. C.

If you accept this request, immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that the activities of the Committee and your participation therein are within the limits set forth in the voluntary plan, as amended. The earlier request extended by letter of ---------- is superseded and withdrawn.
(Date)

Your cooperation in this matter will be appreciated.

Sincerely yours,

GORDON GRAY,
Director,
Office of Defense Mobilization.

The following companies have accepted the request to participate in the amended plan and this list supersedes membership notices published in 17 F. R. 4184, 18 F. R. 335 and 19 F. R. 255.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3074]

CORNUCOPIA GOLD MINES

ORDER SUMMARILY SUSPENDING TRADING

AUGUST 22, 1958.

I. The Common Stock, $0.05 par value, of Cornucopia Gold Mines being listed and registered on the American Stock Exchange; and

II. The Commission on July 25, 1958, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act") to determine at a hearing to be held September 2, 1958, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the common stock of Cornucopia Gold Mines (hereinafter called "registrant") on the American Stock Exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, and for failure to comply with the disclosure requirements of Regulation 14 adopted pursuant to section 14 (a) of the act.

On August 13, 1958, the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for a period of ten days from the date of the aforesaid order.

III. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the American Stock Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such securities otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten (10) days, August 24 to September 2, 1958, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 2—THE CONGRESS

ACTS APPROVED BY THE PRESIDENT

EDITORIAL NOTE: After the adjournment of the Congress *sine die*, and until all public acts have received final Presidential consideration, a listing of public laws approved by the President subsequent to adjournment will appear in the daily FEDERAL REGISTER under *Title 2, The Congress*. A consolidated listing of the new acts approved by the President will appear in the Daily Digest in the final issue of the Congressional Record covering the 85th Congress, Second Session.

Acts Approved August 26, 1958

S. 377 ---------- Public Law 85-762
An Act to amend the Interstate Commerce Act and the Transportation Act of 1940, with respect to periods of limitation applicable to actions or claims, including those by or against the United States, for recovery of charges for the transportation of persons or property, and for other purposes.

S. 4059 ---------- Public Law 85-763
An Act to amend Reorganization Plan Numbered 1 of 1958 in order to change the name of the office established under such plan.

H. R. 13558 ---------- Public Law 85-761
An Act to incorporate the Military Order of the Purple Heart of the United States of America, of combat wounded veterans who have been awarded the Purple Heart.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—UNITED STATES STANDARDS FOR GRADES OF DRIED CURRANTS[1]

MISCELLANEOUS AMENDMENTS

Notice of proposed rule making with respect to proposed amendments to the United States Standards for Grades of Dried Currants (§§ 52.981 to 52.985) was published in the FEDERAL REGISTER on July 24, 1958 (23 F. R. 5607).

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of these amendments until thirty (30) days after publication in the FEDERAL REGISTER for the reasons that: (1) The processing season for dried currants is imminent and it is necessary for purposes of inspection and marketing that these amendments be effective at the beginning of the packing season; (2) the industry has had 30 days notice of the proposed amendments and no views to the contrary have been received; and (3) additional time will not be needed to make preparation for compliance with these amendments.

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the United States Standards for Grades of Dried Currants are hereby amended under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087, et seq., as amended; 7 U. S. C. 1621 et seq.) as follows:

1. In § 52.983, paragraphs (a) and (b), change the moisture limit from "18 percent" to "20 percent."

2. Change § 52.983 (a) (7) to read:

(7) Not more than 3 percent, by count, of dried currants may be moldy;

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 916—MILK IN THE UPSTATE MICHIGAN MARKETING AREA

ORDER AMENDING ORDER

§ 916.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Upstate Michigan marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe, with respect to (i) all receipts within the month of milk from producers, including milk of such handlers' own production, (ii) any other source milk allocated to Class I pursuant to § 916.46 (c) and (e) and the corresponding steps of § 916.47, and (iii) the applicable amount specified in § 916.84 (a) (2) or (b) (2).

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than September 1, 1958.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator of the Agricultural Marketing Service was issued July 21, 1958 and the decision of the Assistant Secretary containing all amendment provisions of this order, was issued August 8, 1958. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective September 1, 1958, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c (9) of the act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Upstate Michigan marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

1. Amend § 916.11 to read as follows:

§ 916.11 *Producer.* "Producer" means any qualified dairy farmer whose milk is received directly from the farm at a pool plant. "Producer" shall also include a qualified dairy farmer with respect to milk diverted from a pool plant to a nonpool plant for the account of a handler or cooperative association, if milk of such qualified dairy farmer was previously received at a pool plant (a) on any three days of the current or immediately preceding month or (b) on half or more of the delivery days of any three of the immediately preceding twelve months. Milk so diverted shall be deemed to have been received at the pool plant from which diverted if for the account of the operator of such pool plant, and at a pool plant at the location of the plant from which diverted, if diverted for the account of a cooperative association from the pool plant of another handler.

2. Amend § 916.43 (b) to read as follows:

(b) Skim milk and butterfat disposed of by a handler from a pool plant to a nonpool plant in the form of milk or skim milk shall be Class I utilization if so reported by the handler, or unless the market administrator is permitted to audit the records of receipts and utilization at such nonpool plant, in which case the classification of all skim milk and butterfat at such nonpool plant shall be determined and the skim milk and butterfat transferred from the pool plant shall be allocated to the highest use remaining after allocating, in series beginning with Class I, receipts from dairy farmers who are the regular source of supply of inspected milk for such plant, and receipts from plants regulated under Part 924 of this chapter (Order No. 24) for the Detroit, Michigan, marketing area. If any milk is transferred from such plant to a second nonpool plant, the same conditions of audit, classification and allocation shall apply in determining classification.

3. Amend § 916.46 to read as follows:

§ 916.46 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class II utilization, the pounds of butterfat shrinkage allowed pursuant to § 916.41 (b) (3);

(b) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat contained in milk or milk products received in packaged form which were classified and priced under another marketing agreement or order issued pursuant to the act and disposed of in the same form as received;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat remaining in other source milk not subject to the Class I pricing provisions of an order issued pursuant to the act received in a form other than whole milk;

(d) For the months of July and August only, subtract from the pounds of butterfat remaining in Class II the least of:

(1) Such remainder,

(2) A percentage of butterfat in receipts of producer milk equal to the weighted average percentage that Class II utilization (exclusive of shrinkage and inventory) was of producer receipts during the preceding months of September through June, or

(3) 8 percent of receipts of butterfat in producer milk;

(e) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat remaining in other source milk received in the form of whole milk and not subject to the Class I pricing provisions of another order issued pursuant to the act;

(f) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat remaining in other source milk subject to the Class I pricing provisions of another order issued pursuant to the act;

(g) Subtract from the remaining pounds of butterfat in Class II and Class I, in series beginning with Class II, the pounds of butterfat in inventory of fluid milk products and cream on hand at the beginning of the month;

(h) Subtract from the remaining pounds of butterfat in each class, the pounds of butterfat received from other handlers in such classes pursuant to § 916.43 (a);

(i) Add to the remaining pounds of butterfat in Class II utilization the pounds subtracted pursuant to paragraphs (a) and (d) of this section; and

(j) If the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class, in series beginning with the lowest priced utilization.

4. Amend § 916.51 (a) to read as follows:

(a) *Class I milk.* The Class I milk price shall be the basic formula price plus $1.05 during the months of February through June and plus $1.45 during the months of July through January.

5. In § 916.60 (b) delete "§ 916.46 (g)" and substitute therefor "§ 916.46 (j)".

6. In § 916.60 (c) (1) delete "§ 916.46 (d)" and substitute therefor "§ 916.46 (g)".

7. In § 916.60 (c) (2) change the parenthetical statement "(except as shrinkage)" to "(except as shrinkage and pursuant to § 916.46 (d))".

8. In § 916.74 change "§§ 916.46 and 916.47" to "§ 916.46 (c) and (e) and the corresponding steps of § 916.47".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of August 1958, to be effective on and after the 1st day of September 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 58-7019; Filed, Aug. 28, 1958; 8:52 a. m.]

960.101 Separability of provisions.

AUTHORITY: §§ 960.0 to 960.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 960.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Akron-Stark County, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in the order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 3 cents per hundredweight or such amount not to exceed 3 cents per hundredweight as the Secretary may prescribe with respect to (i) all receipts within the preceding month of producer milk (including such handler's own production), and (ii) all other source milk allocated to Class I pursuant to § 960.46 (b) and the corresponding step of § 960.47;

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than September 1, 1958.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator of the Agricultural Marketing Service was issued June 24, 1958 and the decision of the Assistant Secretary containing all amendment provisions of this order, was issued August 7, 1958. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective September 1, 1958, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in sec. 8c (9) of the act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum and who

during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Akron-Stark County, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

DEFINITIONS

§ 960.1 *Act.* "Act" means Public Act No. 10 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 960.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 960.3 *Marketing area.* "Akron-Stark County, Ohio, marketing area", hereinafter referred to as the "marketing area" means all territory, including but not limited to all municipal corporations within the boundaries of: Summit County; Stark County, except Paris and Sugar Creek Townships; Franklin, Ravenna, Brimfield and Suffield Townships and Lots 5 to 10, 15 to 20, 25 to 30, and 35 to 40, inclusive, of Randolph Township in Portage County; Smith Township in Mahoning County, except Great Lot 35 thereof; Knox Township in Columbiana County; and Sections 1, 2, 3, 10, 11 and 12 of Sugar Creek Township in Wayne County; all in the State of Ohio.

§ 960.4 *Handler.* "Handler" means any person (a) in his capacity as the operator of a pool plant, (b) in his capacity as the operator of a nonpool plant where milk is processed and packaged for distribution on a route(s) in the marketing area, and (c) any cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from producers' farms to a plant for the account of such cooperative association.

§ 960.5 *Pool plant.* "Pool plant" means (a) any plant at which milk is packaged and distributed as Class I milk on a route in the marketing area except:

(1) A plant specified in § 960.80 (a), (b) or (c); and

(2) A plant operated by a producer-handler.

(b) Any plant having the approval of the appropriate health authority of the marketing area:

(1) During the month in which it delivers to pool plant(s) described in paragraph (a) of this section an amount equal to 30 percent of its dairy farm supply of milk and, unless written notice to the contrary is received by the market administrator before the first day of the month, for such consecutive succeeding months as the 30 percent average is maintained.

(2) Following a period of August through January (the period from the effective date of this subparagraph through January 1959 shall be used instead of August 1958 through January 1959 for all requirements of this subparagraph) during which such plant has delivered to pool plant(s) described in paragraph (a) of this section, 10 percent or more of its total dairy farm supply during each month and 30 percent or more of such supply during the entire August–January period, unless written notice of intention to withdraw is received by the market administrator on or before the first day of the month, in which case such plant shall be a nonpool plant until it again qualifies pursuant to subparagraph (1) of this paragraph:

(i) During the months of February through July, regardless of shipments; and

(ii) During each successive month of August through January for which it delivers 10 percent or more of its total dairy farm supply to pool plant(s) described in paragraph (a) of this section.

§ 960.6 *Nonpool plant.* "Nonpool plant" means a plant other than a plant operated by a producer-handler, during such months as it is not a pool plant.

§ 960.7 *Producer.* "Producer" means any person other than a producer-handler who produces milk which has approval of the health authorities of any community in the marketing area for consumption as fluid milk in such community and is received at a pool plant. This definition shall include any such person who is regularly designated as a producer but whose milk is caused to be diverted to a plant, other than a pool plant, by a handler for his account. Milk so diverted shall be deemed to have been received at the pool plant from which diverted by a handler or at an identical location if diverted by a cooperative association.

§ 960.8 *Producer milk.* "Producer milk" means skim milk and butterfat contained in milk received from producers.

§ 960.9 *Other source milk.* "Other source milk" means all skim milk or butterfat contained in or represented by (a) receipts during the month of products named in § 960.41 (a) except (1) producer milk, and (2) receipts from other pool plants; and (b) other milk products from any source, including those produced at the plant, which are reprocessed, repackaged or converted to another product in the plant during the month.

§ 960.10 *Producer-handler.* "Producer-handler" means any person who (a) produces milk; (b) receives no milk from producers or from other sources; and (c) operates a plant from which a route(s) is operated wholly or partially within the marketing area.

§ 960.11 *Route.* "Route" means a sale or delivery (including a sale from a plant or store) of Class I milk to a wholesale or retail stop(s).

§ 960.12 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 960.13 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture.

§ 960.14 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association: (a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; (b) to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and (c) to have all of its activities under the control of its members.

§ 960.15 *Eligible milk.* "Eligible milk" means the amount of milk received by a handler from a producer during each of the months specified in § 960.63 which is not in excess of such producer's daily average quota, computed pursuant to § 960.56 multiplied by the number of days in such month on which such producer delivered milk to such handler: *Provided*, That with respect to any producer on "every-other-day" delivery to a pool plant, the days of nondelivery shall be considered as days of delivery for purposes of this section and of § 960.56.

§ 960.16 *Ineligible milk.* "Ineligible milk" means the amount of milk received by a handler from a producer during each of the months specified in § 960.63 which is in excess of eligible milk received from such producer during such month, and shall include all milk received from a producer for whom no daily average quota can be computed pursuant to § 960.56.

MARKET ADMINISTRATOR

§ 960.20 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 960.21 *Powers.* The market administrator shall have the power to:

(a) Administer all of the terms and provisions of this subpart;

(b) Make rules and regulations to effectuate the terms and provisions of this subpart;

(c) Receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) Recommend to the Secretary amendments of this subpart.

§ 960.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such

duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 960.74, (1) the costs of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, (2) his own compensation, and (3) all other expenses (except those incurred under § 960.75) necessarily incurred by him in the maintenance and functioning of his office in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart and upon request by the Secretary surrender the same to his successor or to such other person as the Secretary may designate;

(f) Publicly announce unless otherwise directed by the Secretary by posting in a conspicuous place in his office and by such other means as he deems appropriate the name of any person who, within 8 days after the day upon which he is required to perform such acts, has not made reports pursuant to § 960.30 or § 960.31 or payments pursuant to § 960.70, § 960.72, § 960.74, § 960.75 or § 960.76;

(g) Submit his books and records to examination and furnish such information and verified reports as may be requested by the Secretary;

(h) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate:

(1) On or before the 5th day of each month the minimum class prices for the preceding month for milk of 3.5 percent butterfat content, as computed pursuant to §§ 960.50, 960.51 and 960.52, and the butterfat differentials, computed pursuant to § 960.53.

(2) On or before the 13th day of each month the uniform price(s) for the preceding month, computed pursuant to § 960.61, or §§ 960.62 and 960.63 as applicable, and the butterfat differential for the preceding month computed pursuant to § 960.64.

(j) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such information concerning the operation of this subpart as does not reveal confidential information.

(k) On or before the 13th day of each month, report to each cooperative association that so requests the class utilization of milk received during the preceding month by each handler from producers who are members of such association, prorating to such receipts the class utilization of all producers receipts of such handler.

(l) Provide notice, for each producer for whom a daily average quota is computed pursuant to § 960.56, on or before the first day of the month first stated in § 960.63 to: (1) Such producers, (2) cooperative associations for such producers who are its members, and (3) handlers for such producers from whom they received milk.

REPORTS, RECORDS AND FACILITIES

§ 960.30 *Monthly reports of receipts and utilization.* On or before the 8th day of each month, each handler who operates a pool plant(s), and any cooperative association with respect to milk for which it is a handler pursuant to § 960.4 (c), shall, with respect to milk or milk products which were received at a pool plant by such handler during the preceding month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The quantities of butterfat and skim milk contained in milk received from producers, and, for the months specified in § 960.63 the aggregate quantities of eligible milk;

(b) The quantities of butterfat and skim milk contained in or used to produce receipts of milk products specified in § 960.41 (a) from other pool plants;

(c) The quantities of butterfat and skim milk contained in or used to produce receipts of other source milk;

(d) The utilization of all butterfat and skim milk the receipt of which is required to be reported pursuant to this section;

(e) The pounds of butterfat and skim milk contained in all milk, skim milk, and cream and other Class I products on hand at the beginning and at the end of the month;

(f) Such other information with respect to the use of milk as the market administrator may request.

§ 960.31 *Other reports.* Other reports shall be submitted to the market administrator as follows:

(a) Each producer-handler, and each handler who does not operate a pool plant, shall make reports at such time and in such manner as the market administrator may request.

(b) On or before the 20th day of each month each handler who operated a pool plant(s) at which producer milk was received in the preceding month shall submit such handler's producer payroll for the preceding month which shall show (1) the total pounds and the butterfat content of milk received from each producer, and for the months specified in § 960.63, the pounds of eligible milk and of ineligible milk received from each producer, (2) the amount and date of payment to each producer or cooperative association pursuant to § 960.70, (3) the nature and amount of each deduction or charge made by the handler, and (4) the number of days, if less than the entire month, for which milk was received from such producers.

§ 960.32 *Records and facilities.* Each handler and producer-handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of any of his operations and such facilities as in the opinion of the market administrator are necessary to verify or to establish the correct data with respect to: (a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, skim milk and other contents of all milk and milk products handled; and (c) all payments required to be made by such handler pursuant to §§ 960.70, 960.72, 960.74, 960.75, and 960.76.

§ 960.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler or producer-handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if within such three-year period the market administrator notifies the handler or producer-handler in writing that the retention of such books and records or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler or producer-handler shall retain such books and records or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler or producer-handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 960.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received by a handler which is required to be reported pursuant to § 960.30 shall be classified pursuant to §§ 960.41 to 960.44.

§ 960.41 *Classes of utilization.* Subject to the conditions set forth in §§ 960.43 and 960.44, the classes of utilization shall be:

(a) Class I utilization shall be all skim milk (including the skim milk equivalent of concentrated products) and butterfat (1) disposed of for consumption in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, concentrated milk not in hermetically sealed cans, and cream, including sour cream or any mixture of cream and milk or skim milk, or (2) not accounted for as Class II or Class III utilization.

(b) Class II utilization shall be all skim milk and butterfat used to produce cottage cheese.

(c) Class III utilization shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) or (b) of this section; (2) disposed of for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; (3) in cream frozen; (4) in shrinkage of producer milk up to 2 percent of receipts from producers; (5) in shrinkage of other source milk; and (6) in inventories of products specified in paragraph (a) (1) of this section on hand at the end of the month.

§ 960.42 *Shrinkage.* (a) If producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred or diverted by a handler from his pool plant to another pool plant without first having been received for purposes of weighing in the transferring or diverting handler's pool plant shall be included in the receipts at the pool plant to which such milk was transferred or diverted for the purpose of computing shrinkage and shall be excluded from the receipts at the transferring or diverting handler's pool plant for such purpose.

§ 960.43 *Responsibility of handlers.* All skim milk and butterfat contained in producer milk and in other source milk received by a handler shall be classified as Class I utilization unless the handler proves to the market administrator that such skim milk and butterfat or a portion thereof should be classified otherwise.

§ 960.44 *Transfers.* (a) Skim milk and butterfat disposed of from a pool plant to the pool plant of another handler in the form of milk, skim milk or cream shall be Class I utilization unless utilization in another class is indicated by the operators of both plants in their reports submitted pursuant to § 960.30: *Provided*, That in no event shall the amount so classified in such class be greater than the amount of producer milk used in such class in the pool plant(s) of the transferee handler after allocating other source milk in such plant(s) in series beginning with the lowest priced utilization.

(b) Skim milk and butterfat moved in the form of milk, skim milk or cream from a pool plant to a handler described in § 960.80 or to a nonpool plant shall be Class I utilization unless all of the following conditions are met:

(1) Utilization in another class is indicated by the operator of the pool plant in his report submitted pursuant to § 960.30.

(2) The operator of the nonpool plant maintains books and records which are made available for examination upon request by the market administrator and which are adequate for the verification of the utilization claimed.

(3) If the above conditions are met, the market administrator shall classify all skim milk and butterfat received at the nonpool plant and the skim milk and butterfat so transferred shall be allocated in series beginning with any skim milk and butterfat, respectively, remaining in Class I utilization after allocating skim milk and butterfat in milk received from dairy farmers whom the market administrator determines constitute the regular source of milk for Class I uses at such plant, in series beginning with Class I utilization.

(c) Skim milk and butterfat transferred in the form of milk, skim milk, or cream to a producer-handler shall be classified as Class I utilization.

§ 960.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the report submitted by each handler pursuant to § 960.30 and shall compute separately the pounds of skim milk and butterfat in each class.

§ 960.46 *Allocation of butterfat.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class III utilization the pounds of butterfat shrinkage allowed pursuant to § 960.41 (c) (4);

(b) Subtract from the total pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk other than that received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received in a form other than that specified in paragraph (d) of this section from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

(d) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat contained in milk or milk products received in packaged form which were classified and priced under another Federal order and disposed of in the same form as received;

(e) Subtract from the pounds of butterfat remaining in Class III milk, Class II milk and Class I milk, in series beginning with Class III, the pounds of butterfat contained in inventory of products specified in § 960.41 (a) (1) on hand at the beginning of the month;

(f) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat received from other handlers in such classes pursuant to § 960.44 (a); and

(g) Add to the remaining pounds of butterfat in Class III utilization the pounds subtracted pursuant to paragraph (a) of this section.

(h) If the remaining pounds of butterfat in both classes exceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 960.47 *Allocation of skim milk.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed for butterfat in § 960.46.

MINIMUM PRICES

§ 960.50 *Class I milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. a pool plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations during the month, which is classified as Class I milk shall be the Class I price as determined pursuant to § 975.61 of this chapter.

§ 960.51 *Class II milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. a pool plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations during the month which is classified as Class II milk shall be the higher of the prices computed by the market administrator pursuant to § 960.52 (a) or (b) plus 30 cents.

§ 960.52 *Class III milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. a pool plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations during the month which is classified as Class III milk shall be the higher of the prices computed by the market administrator pursuant to paragraph (a) or (b) of this section.

(a) The average of the basic (or field) prices ascertained to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the Department of Agriculture by the companies indicated below:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price computed by adding together the plus amounts pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A 92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month, subtract 3 cents, add 20 percent of the resulting amount, and then multiply by 3.5.

(2) From the simple average, as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the month for which prices are being computed by the Department of Agriculture, deduct 5.5 cents, and multiply by 8.2.

§ 960.53 *Handler butterfat differentials.* If the average butterfat content

of the milk of any handler allocated to any class is more or less than 3.5 percent, there shall be added to the prices of milk for each class as computed pursuant to §§ 960.50, 960.51 and 960.52 for each one-tenth of one percent that the average butterfat content of such milk is above 3.5 percent, or subtracted for one-tenth of one percent that such average butterfat content is below 3.5 percent, an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month, multiplied by the following factors:

(a) *Class I milk.* Multiply by 1.3, and divide the result by 10.

(b) *Class II and Class III milk.* Multiply by 1.15, and divide the result by 10.

§ 960.54 *Location adjustment to handlers.* In computing the value of such quantities of milk as are received at a pool plant located 40 miles or more, by the shortest highway distance from the nearest of the Public Square in Cleveland, Ohio, the City Hall in Akron, Ohio, or the City Hall in Canton, Ohio, as determined by the market administrator, and classified as Class I or Class II milk, there shall be deducted:

(a) 13 cents per hundredweight, if such distance from the Public Square in Cleveland, Ohio, is more than 40 miles but not more than 60 miles; and

(b) 20 cents per hundredweight, if such distance from the Public Square in Cleveland, Ohio, is more than 60 miles but not more than 74 miles, and 2 cents per hundredweight additional for each 14 miles or fraction thereof in excess of 74 miles.

(c) For the purpose of determining the respective quantities of Class I and Class II milk subject to the location adjustment, transfers between pool plants shall be assigned to Class I and Class II milk in a volume not in excess of that by which 105 percent of Class I and Class II milk at the transferee plant exceeds receipts of producer milk at such plant, such assignment to transferor pool plants to be made in such sequence as will result in computation of the least total location adjustment.

§ 960.55 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

DETERMINATION OF ELIGIBLE MILK QUOTA

§ 960.56 *Determination of eligible milk quota for each producer.* Subject to the rules set forth in § 960.57 the market administrator shall determine quotas for producers as follows: During each of the months specified in § 960.63 the daily quota of each producer whose milk was received by a handler(s) on not less than thirty (30) days during the immediately preceding months of October through December, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in the 3-month period by the number of days from the date of the first delivery to the end of such 3-month period.

§ 960.57 *Quota rules.* (a) Except as provided in paragraph (b) of this section, an eligible milk quota shall apply to deliveries of milk by the producer for whose account that milk was delivered to a handler(s) during the quota forming period.

(b) A daily quota may be transferred during the period of April through June by notifying the market administrator in writing before the first day of any delivery period that such quota is to be transferred to the person named in such notice, but under the following conditions only:

(1) In the event of the death of a producer, the entire daily quota may be transferred to a member of such producer's immediate family who carries on the dairy operation on the same farm;

(2) If a quota is held jointly and such joint holding is terminated on the basis of written notice to the market administrator from the joint holders, the entire daily quota may be transferred to one of the joint holders, or divided in accordance with such notice between the former joint holders if they continue dairy farm operations.

DETERMINATION OF UNIFORM PRICE

§ 960.60 *Value of producer milk for each handler.* The value of producer milk received during the month by each handler who operates a pool plant(s), and by any cooperative association with respect to milk for which it is a handler pursuant to § 960.4 (c), shall be a sum of money computed by the market administrator as follows:

(a) Multiply by the applicable class prices, adjusted pursuant to §§ 960.53 and 960.54, the total combined hundredweight of skim milk and butterfat received from producers and allocated to each class pursuant to §§ 960.46 and 960.47;

(b) Add an amount computed by multiplying any excess utilization classified pursuant to § 960.46 (h) and the corresponding step of § 960.47 by the applicable class prices; and

(c) Add any amount obtained through multiplying by the difference between the Class III price for the preceding month and the Class I price for the current month the lesser of:

(1) The hundredweight of milk subtracted from Class I pursuant to § 960.46 (e) and the corresponding step of § 960.47, or

(2) The hundredweight of producer milk classified as Class III utilization (except as shrinkage) for the preceding month.

§ 960.61 *Computation of uniform price.* For each month (except those specified in § 960.63) the market administrator shall compute a uniform price per hundredweight of milk containing 3.5 percent of butterfat to be paid to producers delivering milk to pool plants at which no location adjustments are applicable as follows:

(a) Combine into one total the value of producer milk for each handler as computed pursuant to § 960.60 for all handlers who reported pursuant to § 960.30 for such month, except those in default in payments required pursuant to § 960.72 for the preceding month;

(b) Add the total amount of all payments made pursuant to § 960.72 (b);

(c) Add any amounts paid into the producer-settlement fund and subtract any amounts paid out of the producer-settlement fund pursuant to § 960.70;

(d) Add an amount representing not less than one-half of the unobligated balance in the producer-settlement fund exclusive of the amounts added or subtracted pursuant to paragraphs (b) and (c) of this section;

(e) Subtract, if the weighted average butterfat test of all producer milk represented by the amounts included under paragraph (a) of this section is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 960.64 multiplied by 10;

(f) Add the aggregate value of all allowable producer location adjustments pursuant to § 960.65;

(g) Divide the resulting amount by the total hundredweight of producer milk received by all handlers during the month for which uniform prices are being computed;

(h) Subtract not less than 4 cents nor more than 5 cents, and the result shall be the uniform price to be paid per hundredweight of milk containing 3.5 percent of butterfat to producers who delivered milk during the month for which uniform prices are being computed.

§ 960.62 *Computation of ineligible milk price.* For the months specified in § 960.63, the market administrator shall compute the uniform price per hundredweight for ineligible milk of 3.5 percent butterfat content by:

(a) Multiplying the hundredweight of such milk not in excess of the total quantity of Class II and Class III milk by the price for Class III milk of 3.5 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II and Class III milk by the price for Class I milk of 3.5 percent butterfat content, and adding together the resulting amounts; and

(b) Dividing the total value of ineligible milk obtained in paragraph (a) of this section by the total hundredweight of such milk and adjusting to the nearest cent.

§ 960.63 *Computation of eligible milk price.* For each of the months of April through June the market administrator shall compute the uniform price per hundredweight for eligible milk of 3.5 percent butterfat content received from producers at a pool plant by:

(a) Subtracting the value of ineligible milk obtained in § 960.62 (a) from the aggregate value of milk computed pursuant to § 960.61 (a) to (f) and adjusting by an amount involved in adjusting the uniform price of ineligible milk to the nearest cent;

(b) Dividing the amount obtained in paragraph (a) of this section by the total hundredweight of eligible milk included in these computations; and

(c) Subtracting not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (b) of this section.

§ 960.64 *Producer butterfat differential.* In making payments pursuant to § 960.70, the uniform prices shall be adjusted for each one-tenth of one percent of butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 960.53, weighted by the pounds of butterfat in producer milk in each class and rounded to the nearest tenth of a cent.

§ 960.65 *Location adjustments to producers.* In making payments pursuant to paragraphs (a) and (b) of § 960.70, a handler may deduct with respect to eligible milk received from producers during the months specified in § 960.63 and with respect to all milk received from producers during the other months, at a pool plant located 40 miles or more, by the shortest highway distance from the nearest of the Public Square in Cleveland, Ohio, the City Hall in Akron, Ohio, or the City Hall in Canton, Ohio, as determined by the market administrator:

(a) More than 40 miles but not more than 60 miles from the Public Square in Cleveland, Ohio, an amount not to exceed 13 cents per hundredweight; and

(b) More than 60 miles but not more than 74 miles from the Public Square in Cleveland, Ohio, an amount not to exceed 20 cents per hundredweight, and 2 cents per hundredweight additional for each additional 14 miles or fraction thereof.

§ 960.66 *Notification.* On or before the 13th day of each month the market administrator shall notify each handler who submitted a report for the preceding month pursuant to § 960.30 of:

(a) The classification pursuant to §§ 960.46 and 960.47 of skim milk and butterfat contained in producer milk received by such handler during the preceding month and the value of such milk computed pursuant to § 960.60;

(b) The uniform prices for the month computed pursuant to § 960.61 or §§ 960.62 and 960.63, as applicable; and

(c) The amount due such handler pursuant to § 960.73 and the amount to be paid by such handler pursuant to §§ 960.72, 960.74 and 960.75.

PAYMENTS

§ 960.70 *Time and method of payment.* (a) Except as provided by paragraph (b) of this section, on or before the 18th day of each month, each handler (except a cooperative association) shall pay each producer for milk received from him during the preceding month, not less than an amount of money computed by multiplying the total pounds of such milk by the applicable uniform price(s) pursuant to § 960.61 or §§ 960.62 and 960.63 adjusted by the butterfat and location differentials pursuant to §§ 960.64 and 960.65, and less any proper deductions authorized by the producer, including advance payments made pursuant to paragraph (c) of this section: *Provided,* That if by such date such handler has not received full payment for such month pursuant to § 960.73 he may reduce such payments uniformly per hundredweight for all producers, by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) (1) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the association, each handler shall pay to the cooperative association on or before the 16th day of each month, in lieu of payments pursuant to paragraph (a) of this section an amount equal to the gross sum due for all milk received from certified members, less amounts owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer and submit to the cooperative association written information which shows for each such member-producer (i) the total pounds of milk received from him during the preceding month, (ii) the total pounds of butterfat contained in such milk, (iii) the number of days on which milk was received, and (iv) the amounts withheld by the handler in payment for supplies sold. The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler shall be made by written notice to the market administrator, and shall be subject to his determination.

(c) Upon written request filed with him on or before the 15th day of the month by a producer, or by a cooperative association which collects payments pursuant to paragraph (b) of this section, each handler shall make advance payment as follows:

(1) On or before the last day of the month, to each such producer who has not discontinued delivery of milk to such handler, an amount not less than the value of milk received from such producer during the first 15 days of such month computed at the Class III price for 3.5 percent milk for the preceding month, without deduction for hauling;

(2) On or before the 27th day of the month, to the cooperative association, with respect to milk received during the first 15 days of the month from certified members specified in the request for advance payment, an amount not less than the aggregate value of such milk at the Class III price for 3.5 percent milk for the preceding month, without deduction for hauling.

§ 960.71 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made pursuant to §§ 960.72 and 960.76 and out of which he shall make all payments pursuant to §§ 960.73 and 960.76.

§ 960.72 *Payments to the producer-settlement fund.* On or before the 14th day of each month handlers shall make payments to the market administrator as follows:

(a) If the value of producer milk received by a handler in the preceding month as computed pursuant to § 960.60 exceeds the amount which such handler is required to pay all producers pursuant to § 960.70 such handler shall pay the difference between the two amounts.

(b) If during the preceding month total receipts of producer milk (exclusive of milk diverted from the pool plant of another handler to a nonpool plant for the account of a cooperative association unless written evidence is furnished the market administrator that such milk was offered for delivery to a pool plant at class prices of the order) was 110 percent or more of the total Class I milk at pool plants, an amount equal to the difference between the values (at test and location) at the Class I price and Class III price with respect to:

(1) Other source milk subtracted from Class I pursuant to § 960.46 (b) and the corresponding step of § 960.47; and

(2) Milk in inventory subtracted from Class I pursuant to § 960.46 (e) and the corresponding step of § 960.47 which is in excess of the sum of:

(i) The quantity for which a payment is computed pursuant to § 960.60 (c), and

(ii) The quantity subtracted from Class III pursuant to § 960.46 (e) and the corresponding step of § 960.47 in the month preceding.

§ 960.73 *Payments out of the producer-settlement fund.* On or before the 16th day of each month, the market administrator shall pay to each handler any amount by which the sum required to be paid by such handler for the preceding month pursuant to § 960.70 is greater than the total value of the milk of such handler computed pursuant to § 960.60 for such preceding month less any unpaid obligations of the handler to the market administrator pursuant to §§ 960.72, 960.74, 960.76 (a), and 960.76

(a): *Provided*, That if the balance in the producer-settlement fund is insufficient to make payments to all handlers pursuant to this section, the market administrator shall reduce such payments by a uniform amount per hundredweight of milk and shall complete such payments as soon as the necessary funds become available.

§ 960.74 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 960.22 (d), each handler shall pay the market administrator on or before the 16th day of each month 3 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe with respect to (a) all receipts within the preceding month of producer milk (including such handler's own production), and (b) all other source milk allocated to Class I pursuant to § 960.46 (b) and the corresponding step of § 960.47.

§ 960.75 *Marketing services.* In making payments to producers or cooperative associations pursuant to § 960.70 a handler shall make deductions and dispose of amounts so deducted as follows:

(a) Except as set forth in paragraph (b) of this section a handler shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to all producer milk for which payment is being made pursuant to § 960.70 and shall pay the total amount of such deductions to the market administrator on or before the 16th day after the end of the month in which such producer milk was received. Such amount shall be expended by the market administrator to verify weights and tests of milk of producers and to provide producers with market information, such service to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) Each association of producers which is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, may file with a handler a claim for authorized deductions from the payments otherwise due to its producer members for milk delivered to such handler. Such claim shall contain a list of the producers for which such deductions apply, an agreement to indemnify the handler for the amount of any loss sustained by him because of any improper claim on the part of the association, and a certification that the association has an unterminated membership contract with each producer, which contract authorizes the claimed deduction. In making payments to producers for milk received during the month, each handler shall make deductions in accordance with the association's claim and shall pay the amount deducted within 16 days after the end of the month.

§ 960.76 *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records or accounts discloses errors resulting in monies due (a) the market administrator from such handler or such handler from the market administrator or (b) any producer or cooperative association from such handler pursuant to § 960.70 the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice. In computing amounts due pursuant to this section the class prices, the appropriate uniform price, the butterfat differential, the rate of administrative assessment pursuant to § 960.74, and the rate of marketing service deduction pursuant to § 960.75 which were applicable in the month for which the original calculation of amounts due were made shall be used.

§ 960.77 *Termination of obligation.* (a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator received the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notified the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association the name of such producers or association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books or records required by this subpart to be made available, the market administrator may, within the two-year period provided in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which milk involved in the claim was received if any underpayment is claimed, or [illegible] years after the end of the [illegible] month during which the payment [illegible] cluding deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within that applicable period of time, files pursuant to section 8c (15) (A) of the [illegible] a petition claiming such money.

APPLICATION OF PROVISIONS

§ 960.80 *Handler exemption.* A handler operating any plant specified below shall be exempted with respect to the milk received of such plant during the month from all provisions of this subpart except §§ 960.31, 960.32 and 960.[illegible]:

(a) A plant located outside the marketing area from which an average of less than 300 points (one point being defined as one-half pint of cream or one quart of any other Class I product) of Class I milk per day is disposed of during the month on a route(s) operated wholly or partly within the marketing area;

(b) A plant at which the Secretary finds is subject during the month to another Federal order; or

(c) A plant at which no milk approved by the health authorities of any community of the marketing area for consumption as fluid milk is received from dairy farmers and from which disposition of Class I milk in the marketing area is permitted only in portions of the marketing area for which no health authority exercises jurisdiction with respect to approval of milk for fluid consumption.

§ 960.81 *Producer-handler.* A producer-handler shall be exempt from all provisions of this subpart except that he shall make reports to the market administrator at such time and in such manner as the market administrator may request.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 960.90 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated. The provisions of this section shall apply to any obligation under this subpart for the payment of money.

§ 960.91 *Suspension or termination.* Whenever the Secretary finds the subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act, he shall terminate or suspend the operation of this order or any such provision of this subpart.

§ 960.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 960.93 *Liquidation.* Upon the suspension of the provisions of the subpart, except this section, the market administrator, or such other liquidation agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instrument necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidation agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 960.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 960.101 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid the application of such provisions, and the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 25th day of August 1958, to be effective on and after the 1st day of September 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 58-7002; Filed, Aug. 28, 1958; 8:49 a. m.]

PART 1023—MILK IN THE DES MOINES, IOWA, MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK

1023.92 Continuing power and duty of the market administrator.
1023.93 Liquidation after suspension or termination.

MISCELLANEOUS PROVISIONS

1023.100 Separability of provisions.
1023.101 Agents.

AUTHORITY: §§ 1023.0 to 1023.101 issued under sec. 5, 49 Stat. 753 as amended; 7 U. S. C. 608c.

§ 1023.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Des Moines, Iowa, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such amount not to exceed 4 cents per hundredweight as the Secretary may prescribe, with respect to (a) producer milk, (b) other source milk at a pool plant which is allocated to Class I milk pursuant to § 1023.46, and (c) approved milk received at a nonpool plant: *Provided*, That if payment for such milk is not made pursuant to § 1023.80 (b) the expense of administration payable shall be applicable only to the Class I milk disposed of in the marketing area (except to a pool plant) from such plant.

(b) *Additional findings.* It is necessary in the public interest to make this order partially effective not later than September 1, 1958, and fully effective not later than October 1, 1958.

The provisions of the said order are known to handlers. The recommended decision of the Acting Deputy Administrator of the Agricultural Marketing Service was issued May 29, 1958, and the decision of the Assistant Secretary containing all of the provisions of this order was issued July 30, 1958. Since this order will constitute the original imposition of a regulatory program of this nature for the market, the provisions other than those relating to prices and payments to producers, should be put into effect prior to the effective date of the entire order to afford handlers an opportunity to make any necessary changes in their accounting procedure or other adjustments as required to conform with all provisions of the order. Reasonable time will have been afforded interested parties to prepare to comply with the aforesaid provisions. In view of the foregoing, it is hereby found and determined that good cause exists for making this order partially effective September 1, 1958, and fully effective October 1, 1958, and that it would be contrary to the public interest to delay the effective date of this order for 30 days after its publication in the

FEDERAL REGISTER. (See sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in sec. 8c (9) of the act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers as defined in the order; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Des Moines, Iowa, marketing area shall be in conformity to, and in compliance with, the following terms and conditions:

DEFINITIONS

§ 1023.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1023.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 1023.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal Agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 1023.4 *Person.* "Person" means any individual, partnership, corporation, association or any other business unit.

§ 1023.5 *Cooperative Association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act" and

(b) To have full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or its products for its members.

§ 1023.6 *Des Moines, Iowa, Marketing Area.* "Des Moines, Iowa, marketing area" (hereinafter called the "marketing area"), means all the territory within the boundaries of the city of Grinnell and the counties of Adair, Appanoose, Boone, Clarke, Dallas, Decatur, Greene, Guthrie, Jasper, Lucas, Madison, Mahaska, Marion, Monroe, Polk, Story, Union, Warren, Wapello, and Wayne, all in the State of Iowa, including territory within such boundaries which is occupied by government (Municipal, State or Federal) reservations, installations, institutions, or other establishments.

§ 1023.7 *Approved dairy farmer.* "Approved dairy farmer" means any person, except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority which milk is received at an approved plant.

§ 1023.8 *Producer.* "Producer" means an approved dairy farmer whose milk is received at a pool plant.

§ 1023.9 *Distributing plant.* "Distributing plant" means a plant which is approved by an appropriate health authority for the processing or packaging of Grade A milk and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 1023.10 *Supply plant.* "Supply plant" means a plant from which milk, skim milk or cream which is acceptable to the appropriate health authority for distribution in the marketing area under a Grade A label is shipped during the month to a pool plant qualified pursuant to § 1023.12.

§ 1023.11 *Approved plant.* "Approved plant" means a pool plant or a distributing plant which is not a pool plant.

§ 1023.12 *Pool plant.* "Pool plant" means:

(a) A distributing plant from which a volume of Class I milk equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area: *Provided*, That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authorities for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(b) A supply plant from which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) or (c) of this section is equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided*, That if such shipments are not less than 50 percent of the receipts of Grade A milk directly from dairy farmers at such plant during the immediately preceding period of September through November, such plant shall be a pool plant for the months of March through June, unless written application is filed with the market administrator on or before the 15th day of any of the months of March, April, May, or June to be designated a nonpool plant for such month and for each subsequent month through June of the same year: *And provided further*, That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(c) A plant operated by a cooperative association whose members are the majority of the total number of producers shipping to pool plants of other handlers during the month: *Provided*, That if a portion of such association's plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

§ 1023.13 *Nonpool plant.* "Nonpool plant" means any plant other than a pool plant which receives milk from dairy farmers or is a milk manufacturing, processing or bottling plant.

§ 1023.14 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of one or more approved plants, or (b) any cooperative association with respect to the milk from approved dairy farmers diverted by the association for the account of such association from an approved plant to a nonpool plant.

§ 1023.15 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from approved dairy farmers or from sources other than approved plants.

§ 1023.16 *Approved milk.* "Approved milk" means the skim milk and butterfat contained in milk received at an approved plant directly from an approved dairy farmer: *Provided*, That milk diverted from an approved plant to a nonpool plant for the account of either the operator of the approved plant or a cooperative association shall be deemed to have been received by the diverting handler at the plant from which diverted: *And provided further*, That in any of the months of July through March milk diverted from the farm of an approved dairy farmer on more than the number of days that milk was delivered to an approved plant from such farm during the month shall not be deemed to have been received by the diverting handler at the plant from which diverted on such days.

§ 1023.17 *Producer milk.* "Producer milk" means approved milk which is received at a pool plant.

§ 1023.18 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream or any mixture in fluid form of skim milk and cream (except aerated cream products, sour cream, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers).

§ 1023.19 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, (2) approved milk, or (3) inventory at the beginning of the month; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 1023.20 *Base zone.* "Base zone" means all the territory within the boundaries of Polk County, Iowa.

§ 1023.21 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago as reported during the month by the Department.

MARKET ADMINISTRATOR

§ 1023.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1023.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1023.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 1023.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 1023.87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary, surrender the same to such person as the Secretary may designate;

(f) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 1023.30 and 1023.31 or payments pursuant to §§ 1023.62, 1023.80, 1023.84, 1023.86, 1023.87, and 1023.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and disseminate publicly such statistics and informations as he deems advisable and as do not reveal confidential information;

(i) Verify all reports and payments of each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(j) Publicly announce and notify each handler in writing on or before:

(1) The 5th day of each month, the minimum price for Class I milk pursuant to § 1023.50 (a) and the Class I butterfat differential pursuant to § 1023.51 (a), both for the current month; and the minimum price for Class II milk pursuant to § 1023.50 (b) and the Class II butterfat differential pursuant to § 1023.51 (b) both for the preceding month; and

(2) The 10th day after the end of each month, the uniform price pursuant to § 1023.72, and the butterfat differential pursuant to § 1023.81; and

(k) On or before the 10th day after the end of each month, report to each cooperative association, which so requests, the percentage of the milk caused to be delivered by the cooperative association or by its members to the pool plant of each handler during the month that was utilized in each class. For the purpose of this report the milk so delivered shall be allocated to each class in the same ratio as all producer milk received at such plant during the month.

REPORTS, RECORDS AND FACILITIES

§ 1023.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report to the market administrator for such month, reporting separately for each of his approved plants, in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in or represented by receipts of approved milk;

(b) The quantities of skim milk and butterfat contained in or represented by fluid milk products received from pool plants;

(c) The quantities of skim milk and butterfat contained in or represented by other source milk;

(d) The quantities of skim milk and butterfat contained in or represented by approved milk diverted to nonpool plants pursuant to § 1023.16;

(e) Inventories of fluid milk products on hand at the beginning and end of the month; and

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 1023.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, (iii) the number of days, if less than the entire month, for which milk was received from such producer, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of any fluid milk product at his pool plant, his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product;

(3) Prior to his diversion of producer milk to a nonpool plant, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted; and

(4) Such other information with respect to the utilization of butterfat and skim milk as the market administrator may prescribe.

§ 1023.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream, and other milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products on hand at the beginning and end of each month; and

(d) Payments to approved dairy farmers and cooperative associations including the amount and nature of any deductions and the disbursement of money so deducted.

§ 1023.33 *Retention of records.* All books and records required under this part to be made available to the market

administrator shall be retained by the handler for a period of 3 years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such 3-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1023.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat which are required to be reported pursuant to § 1023.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 1023.41 to 1023.46.

§ 1023.41 *Classes of utilization.* Subject to the conditions set forth in § 1023.44 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of a fluid milk product (except as provided in paragraph (b) (2) of this section) and (2) not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be (1) skim milk and butterfat used to produce any product other than a fluid milk product; (2) skim milk disposed of for livestock feed or dumped if the market administrator has been notified in advance and afforded the opportunity of verifying such dumping; (3) skim milk and butterfat contained in inventory of fluid milk products on hand at the end of the month; and (4) skim milk and butterfat in shrinkage allocated to receipts of approved milk and other source milk (except milk diverted to a nonpool plant pursuant to § 1023.16) but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively.

§ 1023.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat at each approved plant; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in approved milk and other source milk.

§ 1023.43 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 1023.44 *Transfers.* Skim milk or butterfat disposed of each month from an approved plant shall be classified:

(a) As Class I milk, if transferred in the form of a fluid milk product to a pool plant unless utilization as Class II milk is claimed for both plants on the reports submitted for the month to the market administrator pursuant to § 1023.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 1023.46 and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *Provided further*, That if the transferor plant is a nonpool plant the skim milk or butterfat transferred shall be classified as Class I milk and as Class II milk in the same ratio as other source milk at the transferee plant is allocated to each class pursuant to § 1023.46 (a) (2) and the corresponding step in paragraph (b) thereof: *And provided further*, That if other source milk was received at either or both plants the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk of both handlers;

(b) As Class I milk, if transferred to a producer-handler in the form of a fluid milk product;

(c) As Class I milk, if transferred or diverted in the form of a fluid milk product to a nonpool plant located more than 150 miles, by the shortest highway distance as determined by the market administrator, from the nearest of the Post Offices of Corydon, Creston, Des Moines, Grinnell, Jefferson and Ottumwa, Iowa; and

(d) As Class I milk if transferred or diverted in the form of a fluid milk product in bulk to a nonpool plant located not more than 150 miles, by the shortest highway distance as determined by the market administrator, from the nearest of the Post Office of Corydon, Creston, Des Moines, Grinnell, Jefferson and Ottumwa, unless:

(1) The transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1023.30 for the month within which such transactions occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat in the fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from such nonpool plant do not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines constitute the regular source of supply for such plant: *Provided*, That any skim milk or butterfat in fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from the nonpool plant which is in excess of receipts from such dairy farmers shall be assigned to the fluid milk products so transferred or diverted classified as Class I milk: *And provided further*, That if the total skim milk and butterfat which were transferred or diverted during the month to such nonpool plant from all plants subject to the classification and pricing provisions of this part and other orders issued pursuant to the act is more than the skim milk and butterfat available for assignment to Class I milk pursuant to the preceding proviso hereof, the skim milk and butterfat assigned to Class I milk at an approved plant shall be not less than that obtained by prorating the assignable Class I milk at the transferee plant over the receipts at such plant from all plants subject to the classification and pricing provisions of this and other orders issued pursuant to the act.

§ 1023.45 *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for each approved plant and shall compute the pounds of butterfat and skim milk in each class at each such plant: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all of the water reasonably associated with such solids in the form of whole milk.

§ 1023.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 1023.45, the market administrator shall determine the classification of approved milk received at each approved plant each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to approved milk pursuant to § 1023.41 (b) (4);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which were not subject to the Class I pricing provisions of an order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in approved milk by 0.05, whichever is less;

(5) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk which were received in the form of fluid milk products which are subject to the

Class I pricing provisions of another order issued pursuant to the act;

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from pool plants according to the classification of such products as determined pursuant to § 1023.44 (a);

(8) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month; and

(9) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in approved milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of approved milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 1023.50 *Class prices.* Subject to the provisions of §§ 1023.51 and 1023.52 the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the price for Class I milk established under Federal Order No. 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, plus 35 cents: *Provided*, That for milk received from approved dairy farmers at an approved plant outside the base zone the price otherwise applicable pursuant to this paragraph shall be reduced 10 cents.

(b) *Class II milk price.* The Class II milk price shall be computed as follows:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the Department, during the delivery period: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the weighted average of carlot prices for nonfat dry milk solids for human consumption, spray process, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month;

(3) Add into one sum the amounts obtained in subparagraphs (1) and (2) of this paragraph; and

(4) Subtract 75.2 cents therefrom.

§ 1023.51 *Butterfat differentials to handlers.* For milk containing more or less than 3.5 percent butterfat, the class prices for the month calculated pursuant to § 1023.50 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.120.

(b) *Class II prices.* Multiply the Chicago butter price for the current month by 0.110.

§ 1023.52 *Location differentials to handlers.* For approved milk which is received at an approved plant located 60 miles or more from the Post Offices of Corydon, Creston, Des Moines, Grinnell, Jefferson, and Ottumwa, Iowa, by the shortest hard-surfaced highway distance as determined by the market administrator, and which is classified as Class I milk, the price specified in § 1023.50 shall be reduced by 10 cents for the first 75 miles or less and by 1.5 cents for each additional 10 miles or fraction thereof that such plant is from the nearest of the Post Offices of Corydon, Creston, Des Moines, Jefferson, Grinnell, and Ottumwa: *Provided*, That for the purpose of calculating such location differential, fluid milk products which are transferred between approved plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 1023.46 (a) (4), and the comparable steps in § 1023.46 (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 1023.53 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1023.60 *Producer-handler.* Sections 1023.40 to 1023.46, 1023.50 to 1023.52, 1023.70 to 1023.72 and 1023.80 to 1023.88 shall not apply to a producer-handler.

§ 1023.61 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant is qualified as a pool plant pursuant to § 1023.12 and a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets and to pool plants in the Des Moines marketing area than in the marketing area regulated pursuant to such other order: *Provided*, That the operator of a distributing plant or a supply plant which is exempt from the provisions of this part pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1023.30) and allow verification of such reports by the market administrator.

§ 1023.62 *Handlers operating nonpool plants.* Unless payment for approved milk at such plant is made pursuant to § 1023.80 (b), each handler in his capacity as the operator of a nonpool plant shall, on or before the 13th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund an amount obtained by multiplying the total hundredweight of butterfat and skim milk disposed of as Class I milk from such plant to retail or wholesale outlets (including sales by vendors and plant stores) in the marketing area during the month by the rate determined pursuant to § 1023.63.

§ 1023.63 *Rate of payment on unpriced milk.* The rate of payment per hundredweight to be made by handlers on unpriced other source milk allocated to Class I milk shall be any plus amount obtained by subtracting from the Class I price adjusted by the Class I butterfat and location differentials applicable at a pool plant of the same location as the nonpool plant supplying such other source milk;

(a) During the months of April, May and June, the Class II price adjusted by the Class II butterfat differential; and

(b) During the months of July through March, the uniform price pursuant to § 1023.72 adjusted by the Class I butterfat differential.

DETERMINATION OF UNIFORM PRICE

§ 1023.70 *Computation of value of milk at each approved plant.* The value of approved milk received during each month at each approved plant shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 1023.46 (a) (9) and the corresponding step of (b) by the applicable class prices;

(c) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the lesser of (1) the hundredweight of approved milk classified in Class II less shrinkage during the preceding month or (2) the hundredweight of milk subtracted from Class I pursuant to § 1023.46 (a) (8) and the corresponding step of (b);

(d) Add an amount calculated by multiplying the hundredweight of skim

milk and butterfat subtracted from Class I milk pursuant to § 1023.46 (a) (2) and (3) and the corresponding step of (b) by the rate of payment on unpriced milk determined pursuant to § 1023.63 at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided*, That if the source of any such fluid milk product received at an approved plant is not clearly established, or if such skim milk and butterfat is received or used in a form other than a fluid milk product, such product shall be considered to have been received from a source at the location of the approved plant where it is classified.

§ 1023.71 *Computation of aggregate value used to determine uniform price.* For each month the market administrator shall compute an aggregate value from which to determine the uniform price per hundredweight for producer milk of 3.5 percent butterfat content, f. o. b. plants located within the base zone, as follows:

(a) Combine into one total the values computed pursuant to § 1023.70 for all pool plants for which the reports prescribed in § 1023.30 for such month were made, except those in default of payments required pursuant to § 1023.84 for the preceding month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is less or more, respectively, than 3.5 percent, an amount computed by multiplying such differences by the butterfat differential to producers, and multiplying the result by the hundredweight of such producer milk;

(c) Add an amount equal to the sum of the location differential deductions to be made pursuant to § 1023.82; and

(d) Add an amount equal to one-half of the unobligated cash balance in the producer-settlement fund.

§ 1023.72 *Computation of uniform price.* For each month the market administrator shall compute a uniform price for producer milk of 3.5 percent butterfat content f. o. b. pool plants located within the base zone, as follows:

(a) Divide the aggregate value computed pursuant to § 1023.71 by the total hundredweight of producer milk included in such computations; and

(b) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (a) of this section. The resulting figure shall be the uniform price for producer milk.

PAYMENT FOR MILK

§ 1023.80 *Time and method of payment.* (a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (c) of this section, as follows:

(1) On or before the last day of each month, for producer milk received during the first 15 days of the month, at not less than the Class II price for the preceding month; and

(2) On or before the 15th day after the end of each month, for producer milk received during such month, an amount computed at not less than the uniform price adjusted pursuant to §§ 1023.81, 1023.82 and 1023.87 and less the payment made pursuant to subparagraph (1) of this paragraph.

(b) Unless payment is made to the producer-settlement fund pursuant to § 1023.62, each handler shall make payment on or before the 15th day after the end of each month to each approved dairy farmer for approved milk received from him during the month at an approved plant which is a nonpool plant at not less than the price per hundredweight, adjusted by the butterfat differential pursuant to § 1023.81, obtained by dividing the value of approved milk at such plant computed pursuant to § 1023.70 by the hundredweight of approved milk at such plant: *Provided*, That if the total amount paid to such approved dairy farmers is less than that prescribed by this paragraph, payment of the difference shall be made to the producer-settlement fund.

(c) Each handler shall make payment to a cooperative association for producer milk which it caused to be delivered to such handler, if such cooperative association is authorized to collect such payments for its members and exercises such authority, an amount equal to the sum of the individual payments otherwise payable for such producer milk, as follows:

(1) On or before the 26th day of each month for producer milk received during the first 15 days of the month; and

(2) On or before the 13th day after the end of each month for milk received during such month.

(d) In making the payments for producer milk pursuant to this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement in such form that it may be retained by the recipient, which shall show:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of producer milk;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 1023.81 *Butterfat differentials to producers.* The uniform price for producer milk shall be increased or decreased for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to Class I and Class II milk pursuant to § 1023.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth cent.

§ 1023.82 *Location differentials to producers.* (a) The uniform price for producer milk received at a pool plant located 60 miles or more from the Post Offices of Corydon, Creston, Des Moines, Grinnell, Jefferson, and Ottumwa, Iowa, by the shortest hard-surfaced highway distance as determined by the market administrator shall be reduced by 10 cents for the first 75 miles or less and by 1.5 cents for each additional 10 miles or fraction thereof that such plant is from the nearest of the Post Offices of Corydon, Creston, Des Moines, Grinnell, Jefferson, and Ottumwa; and

(b) The uniform price for producer milk received at a pool plant outside the base zone shall be reduced 10 cents.

§ 1023.83 *Producer-settlement fund.* The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made to such fund and out of which he shall make all payments from such fund pursuant to §§ 1023.62, 1023.80, 1023.84, 1023.85, and 1023.86; *Provided*, That the market administrator shall offset the payment due to a handler against payments due from such handler.

§ 1023.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month each handler shall pay to the market administrator the amount by which the obligation pursuant to § 1023.80 of such handler for producer milk received during the month is less than the value of such producer milk pursuant to § 1023.70.

§ 1023.85 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month the market administrator shall pay to each handler the amount by which the obligation, pursuant to § 1023.80, of such handler for producer milk received during the month exceeds the value of such producer milk pursuant to § 1023.70: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 1023.80 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 1023.86 *Adjustment of accounts.* Whenever verification by the market administrator of reports or payments of any handler discloses errors in payments to or from the producer-settlement fund pursuant to §§ 1023.84 and 1023.85, the market administrator shall promptly bill such handler for any unpaid amounts and such handler shall, within 15 days of such billing, make payments to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. When-

...verification by the market administrator of the payment by a handler to any producer or to a cooperative association discloses payment of an amount less than is required by § 1023.80 the handler shall make up such payment to the producer or cooperative association not later than the time of making payment next following such disclosure.

§ 1023.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1023.80 shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to producer milk received by such handler (except such handler's own farm production) during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

§ 1023.88 *Expense of administration.* As his pro rata share of the expense of the administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of each month 4 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to butterfat and skim milk contained in (a) producer milk, (b) other source milk at a pool plant which is allocated to Class I milk pursuant to § 1023.46, and (c) approved milk received at a nonpool plant: *Provided*, That if payment for such milk is not made pursuant to § 1023.80 (b), the expense of administration payable pursuant to this section shall be applicable only to the Class I milk disposed of in the marketing area (except to a pool plant) from such plant.

§ 1023.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraph (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator received the handler's utilization report on milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representative all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c (15) (a) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1023.90 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1023.91 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. The part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 1023.92 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising under this part, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignment or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 1023.93 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1023.100 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 1023.101 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Sections 1023.0 to 1023.46 and 1023.88 to 1023.101 shall be effective September 1, 1958, and all of the remaining provisions shall be effective October 1, 1958.

Issued at Washington, D. C., this 25th day of August 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 611—SWEATER AND KNIT SWIMWEAR INDUSTRY IN PUERTO RICO

Pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1062, as amended; 29 U. S. C. 205), the Secretary of Labor by Administrative Order No. 508 (23 F. R. 4036), as amended by Administrative Order No. 511 (23 F. R. 5215), appointed, convened, and gave notice of the hearing of Industry Committee No. 40–E to recommend the minimum wage rate or rates to be paid under section 6 of that act (52 Stat. 1062, as amended; 29 U. S. C. 206) to employees in the Sweater and Knit Swimwear Industry in Puerto Rico who are engaged in commerce or in the production of goods for commerce.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the committee filed with the Administrator a report containing its findings and recommendations with respect to the matters referred to it. The committee found that it was not reasonable or necessary to establish separate classifications within the industry, and recommended a new hourly minimum wage rate.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1064, as amended; 29 U. S. C. 208), Reorganization Plan No. 6 of 1950 (64 Stat. 1263; 3 CFR, 1950 Supp., p. 165), and General Order No. 45–A of the Secretary of Labor (15 F. R. 3290), the recommendations of the committee are hereby published in this order amending the Code of Federal Regulations. Effective September 14, 1958, 29 CFR Part 611 is amended to read as follows:

Sec.
611.1 Definition of the industry.
611.2 Wage rates.
611.3 Notices.

AUTHORITY: §§ 611.1 to 611.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208. Interpret or apply sec. 6, 52 Stat. 1062, as amended; 29 U. S. C. 206.

§ 611.1 *Definition of the industry.* The sweater and knit swimwear industry in Puerto Rico, to which this part shall apply is defined as the manufacture of men's, women's, misses', boys', and girls' knit sweaters, shrugs, shoulderettes, boleros, and similar knitwear, and women's, misses', and girls' knit swimwear: *Provided, however,* That the industry shall not include the embroidery of any article or trimming by a crochet beading process or with bullion thread.

§ 611.2 *Wage rates.* Wages at a rate of not less than 96 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the sweater and knit swimwear industry in Puerto Rico, who is engaged in comerce or in the production of goods for commerce.

§ 611.3 *Notices.* Every employer subject to the provisions of § 611.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 611.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

Signed at Washington, D. C., this 22d day of August 1958.

CLARENCE T. LUNDQUIST,
Administrator.

[F. R. Doc. 58–7015; Filed, Aug. 28, 1958; 8:51 a. m.]

PART 612—NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

Pursuant to section 5 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, as amended; 29 U. S. C. 205), the Secretary of Labor by Administrative Order No. 508 (23 F. R. 4036), as amended and by Administrative Order No. 511 (23 F. R. 5215), appointed, convened, and gave notice of the hearing of Industry Committee No. 40–D to find the facts on which to recommend the minimum wage rate or rates to be paid under section 6 of that Act (52 Stat. 1062, as amended; 29 U. S. C. 206) to employees in the needlework and fabricated textile products industry in Puerto Rico who are engaged in commerce or in the production of goods for commerce.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the committee filed with the Administrator a report containing its findings and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1064, as amended; 29 U. S. C. 208), Reorganization Plan No. 6 of 1950 (64 Stat. 1263; 3 CFR, 1950 Supp., p. 165), and General Order No. 45–A of the Secretary of Labor (15 F. R. 3290), the recommendations of the committee are hereby published in this order amending the Code of Federal Regulations. Effective September 14, 1958, 29 CFR Part 612 is amended to read as follows:

Sec.
612.1 Definition of the industry.
612.2 Wage rates.
612.3 Notices.

AUTHORITY: §§ 612.1 to 612.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208. Interpret or apply sec. 6, 52 Stat. 1062, as amended; 29 U. S. C. 206.

§ 612.1 *Definition of the industry.* The manufacture from any material of all apparel and apparel furnishings and accessories made by knitting, crocheting, cutting, sewing, embroidering, or other processes; and the manufacture of all textile products and the manufacture of like articles in which a synthetic material in sheet form is the basic component: *Provided, however,* That the industry shall not include any product or activity included in the artificial flower, decoration, and party favor industry in Puerto Rico (Part 688 of this chapter), the button, jewelry, and lapidary work industry in Puerto Rico (Part 616 of this chapter), the corsets, brassieres, and allied garments industry in Puerto Rico (Part [illegible] of this chapter), the fabric and leather glove industry in Puerto Rico (Part [illegible] of this chapter), the hosiery industry in Puerto Rico (Part 687 of this chapter), the men's and boys' clothing and related products industry in Puerto Rico (Part 615 of this chapter), the shoe and related products industry in Puerto Rico (Part 601 of this chapter), the straw, hair, and related products industry in Puerto Rico (Part 613 of this chapter), the textile and textile products industry in Puerto Rico (Part 699 of this chapter), the handkerchief, square scarf, and art linen industry in Puerto Rico (Part [illegible] of this chapter), the women's and children's underwear and women's blouse and neckwear industry in Puerto Rico (Part 610 of this chapter), and the sweater and knit swimwear industry in Puerto Rico (Part 611 of this chapter), as defined in the wage orders for those industries.

§ 612.2 *Wage rates*—(a) *Crocheted slippers, leather handbags, and other operations on knit gloves classification.* Wages at a rate of not less than 67 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the needlework and fabricated textile products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce and who is also engaged in the crocheted slippers, leather handbags, and other operations on knit gloves classification, which is defined as the manufacture of slippers, slipper socks, mukluks, and similar types of footwear (except infants' bootees) made by a crocheting or knitting process, and women's, misses', and girls' leather handbags and purses and any operation on knit or crocheted gloves and mittens other than hand-embroidery operations.

(b) *Hand-crocheting and hand-embroidery of crocheted hats and infants' bootees and hand-embroidery of knit gloves classification.* Wages at a rate of not less than 50 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the needlework and fabricated textile products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce and who also is engaged in the hand-crocheting and hand-embroidery of crocheted hats and infants' bootees and hand-embroidery of knit gloves classification, which is defined as the operations of hand-crocheting, hand-knitting, and hand-embroidering of crocheted or knitted headwear for women, misses, girls, and infants three years of age or under, and of crocheted or knitted bootees for infants, and the hand-embroidery of knit or crocheted gloves and mittens, other than by a crochet beading process or with bullion thread and operations immediately incidental thereto.

(c) *Dungarees, slacks, and related products and other operations on crocheted hats and infants' bootees classification.* Wages at a rate of not less than 75 cents an hour shall be paid under section 6 of the Fair Labor Standards

of 1938 by every employer to each of his employees in the needlework and fabricated textile products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce and who also is engaged in the dungarees, slacks, and related products and other operations on crocheted hats and infants' bootees classification, which is defined as the manufacture of dungarees, slacks, pedal pushers, culottes, shorts, and similar apparel for women, misses, and girls, and any operation on crocheted or knitted headwear for women, misses, girls, and infants three years of age or under, or on crocheted or knitted bootees for infants other than hand-crocheting, hand-knitting, and hand-embroidering.

(d) *General classification.* Wages at a rate of not less than 77 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the needlework and fabricated textile products industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce and who is also engaged in the general classification, which is defined as the manufacture from any material of all apparel and apparel furnishing and accessories, and all textile products and like articles in which synthetic material in sheet form is the basic component, which are not included in any other classification of the needlework and fabricated textile products industry in Puerto Rico, the outlining or embroidery of lace by machine and embroidery of any article or trimming on a bonnaz embroidery machine, or by a crochet beading process, or with bullion thread, and all operations immediately incidental thereto.

§ 612.3 *Notices.* Every employer subject to the provisions of § 612.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 612.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

Signed at Washington, D. C., this 22d day of August 1958.

CLARENCE T. LUNDQUIST,
Administrator.

[F. R. Doc. 58-7016; Filed, Aug. 28, 1958; 8:52 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS

OPEN SEASONS, BAG LIMITS, AND POSSESSION OF CERTAIN MIGRATORY GAME BIRDS

Basis and purpose. By notice of proposed rule making published on May 14, 1958 (23 F. R. 3275), the public was invited to submit views, data, or arguments in writing to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D. C., on or before June 20, 1958, and thus participate in the preparation of amendments to Part 6, Title 50, Code of Federal Regulations, to be proposed for the purpose, among others, of specifying open seasons, certain closed seasons, means of hunting, shooting hours, and bag limits for migratory game birds.

Subsequently, after consideration of data obtained through investigations conducted by representatives of various State game departments and by personnel of the Bureau of Sport Fisheries and Wildlife, the several State game departments were informed concerning the season lengths and daily bag and possession limits proposed to be prescribed for the 1958–59 seasons on migratory waterfowl, coots, and Wilson's snipe. The State game departments were also invited to submit recommendations for hunting seasons in the respective States on applicable members of these species; such hunting seasons to conform to the season lengths, and to fall within a framework of opening and closing dates, as established by this Department.

Each State game department has now furnished information concerning the hunting seasons desired for its State on migratory waterfowl, coots, and Wilson's snipe. In addition, the game department of the State of Alabama has recommended a season on rails and gallinules to open concurrently with the seasons on migratory waterfowl and coots in that State. The fixing of seasons for these species in Alabama was deferred until a later date at the time the 1958–59 seasons for these birds in other States were prescribed on August 8, 1958 (23 F. R. 6029). Since the issuance of permits for propagating, scientific collecting, and other purposes is a function now primarily performed in the several Regional Offices, § 6.22 of the regulations will be amended to reflect the proper offices to which holders of such permits shall furnish any required reports. Consideration having been given to all pertinent data received in response to the Notice of Proposed Rule Making relating to the fixing of seasons and bag limits on migratory waterfowl, coots, and Wilson's snipe, the Migratory Bird Treaty Act regulations are amended as indicated below:

1. Section 6.22 is amended to read as follows:

§ 6.22 *Reports.* Unless a different date is stated in the permit, reports of operations required to be submitted by any permit issued under this part shall be filed, on a form furnished for that purpose, with the office from which the permit was obtained, on or before the 10th day of January following issuance of the permit. Failure to submit a report as required will be sufficient cause for revocation of the permit or withdrawal of any privilege accorded any person failing to make the report.

2. Paragraph (b) *Mississippi Flyway States* of § 6.46, as the same appears in 23 F. R. 6029, is amended by deleting therefrom footnote 1 and by prescribing an open season on rails and gallinules in Alabama from Nov. 7 to Jan. 15. Paragraph (b) of § 6.46 will read, in pertinent part, as follows:

(b) *Mississippi Flyway States.*

	Rails and gallinules (except coots)		Woodcock
	Sora	All others (singly or in aggregate)	
Daily bag limits	25	15	4
Possession limits	25	15	8
Seasons in:			
Alabama	Nov. 7–Jan. 15		Dec. 12–Jan. 20
• • •	• • •		• • •

3. Section 6.51 is amended by republishing the headnote and revising the introductory paragraph and by adding new paragraphs (b), (c), (d), (e), and (f) as follows:

§ 6.51 *Seasons and limits on waterfowl, coots, and Wilson's snipe.* Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), and the daily bag and possession limits on the species of waterfowl and on coots and Wilson's snipe as designated in this section are prescribed between the dates of September 1, 1958, and February 12, 1959, as follows:

• • • • • •

(b) *Scoter, eider, and old-squaw ducks.*

Daily bag limit	7 (singly or in aggregate)
Possession limit	14
Special seasons in open coastal waters only, beyond outer harbor lines in: [1]	
Connecticut	Oct. 1–Jan. 15.
Maine	
Massachusetts	
New Hampshire	
New York	
Rhode Island	

[1] In areas other than those beyond outer harbor lines in the States listed, scoter, eider, and old-squaw ducks may be taken only during the open seasons for other ducks. (See § 6.51 (c).) Daily bag and possession limits prescribed for scoter, eider, and old-squaw ducks are in addition to the limits prescribed for other ducks taken during the regular season.

include more than (a) 4 canvasbacks, or (b) 4 redheads, or (c) 4 in the aggregate of both canvasbacks and redheads. No daily duck daily bag and possession limit include more than 1 hooded merganser. Closed season on wood ducks in the States of Alabama, Kentucky, Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, and Wisconsin. In addition, the closed season on wood ducks in Tennessee, not more than 1 wood duck may be included in the daily bag and possession limits. In addition, only Tennessee bag limits may include canvasbacks and red-breasted merganser is 5, possession limit 10, singly or in aggregate of both kinds.

³ Geese: Such limit may not include, in the alternative, more than (a) 2 Canada geese or its subspecies; (b) 2 white-fronted geese; or (c) 1 Canada goose or its subspecies and 1 white-fronted goose.

⁴ Shooting hours for waterfowl and coots in the States of Alabama, Louisiana, Mississippi, Ohio, and Tennessee, shall be ½ hour before sunrise to sunset. Louisiana: Waterfowl and coots, Nov. 1-Jan. 9: *Provided*, That for lands and waters of the State of Louisiana lying easterly of the center line of the main navigable channel of the Mississippi River between the northerly boundary of Louisiana to latitude 31° N., the season shall be Nov. 7-Jan. 15. Mississippi: Waterfowl and coots, Nov. 7-Jan. 15: *Provided*, That for lands and waters of the State of Mississippi lying westerly of the center line of the main navigable channel of the Mississippi River from the northerly boundary of Louisiana to latitude 31° N., the season shall be Nov. 1-Jan. 9.

Ohio: Waterfowl and coots, Oct. 24-Jan. 1: *Provided*, That for Pymatuning Reservoir in Ashtabula County, and ¼ mile distant in any direction from said reservoir, the season shall be Oct. 15-Dec. 13 and the shooting hours for the area described shall be ½ hour before sunrise to sunset.

(e) *Central Flyway States.*

	Ducks	Coots	Geese (except Ross's geese)		Wilson's snipe
			White-fronted and Canada	Blue and Snow	
Daily bag limits	¹ ² 5	10	See footnote 4		8

South Dakota	Oct. 1-Dec. 29		Oct. 1-Dec. 4	Oct. 1-Dec. 4	Closed season.
Texas ⁵	Nov. 1-Jan. 14		Nov. 16-Jan. 14	Nov. 1-Jan. 14	Dec. 16-Jan. 14.
Wyoming:					
Teton County; that part of Lincoln County within the drainages of Bear, Grey's, Salt, and Snake Rivers; and that part of Uinta County within the drainage of Bear River	Oct. 11-Dec. 24		Oct. 11-Dec. 24	Closed season	Closed season.
Remainder of State	Oct. 11-Dec. 24		Oct. 26-Dec. 24	Closed season	Closed season.

¹ Wood ducks and mergansers: Daily bag and possession limits may not include more than 1 wood duck and 1 hooded merganser: *Provided*, That the season on wood ducks in New Mexico is closed. In addition to the daily bag and possession limits on the other ducks, the daily bag limit on American and redbreasted mergansers is 5, possession limit 10, singly or in aggregate of both kinds.

² In the states of Colorado, Kansas, Nebraska, Oklahoma and South Dakota, the daily bag and possession limits on ducks are 7 and 14, respectively.

³ The daily bag limit may not include more than (a) 2 canvasbacks, or (b) 2 redheads, or (c) 1 canvasback and 1 redhead. The possession limit may not include more than (a) 4 canvasbacks, or (b) 4 redheads, or (c) 4 in the aggregate of both canvasback and redheads.

⁴ Geese: The daily bag and possession limit on geese is 5: *Provided*, That throughout all States in the Central Flyway the bag and possession limit on geese in no event may include more than 1 white-fronted goose. In Goshen County, Wyoming, and throughout all other States in the flyway, the bag and possession limit on geese may not include more than (a) 2 Canada geese or its subspecies, or (b) 1 Canada goose and 1 white-fronted goose. In Wyoming subspecies in Goshen County the bag and possession limit on geese may not include more than 1 Canada goose or its subspecies. Closed season on Canada geese in Morrill County, Nebraska, and Scotts Bluff County, Colorado. A closed season is prescribed on blue and snow geese in Beaverhead, Gallatin, and Madison Counties in Montana, and in the entire State of Wyoming.

⁵ Texas: Closed season on black-bellied tree ducks.

(c) *Atlantic Flyway States.*

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6925]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

JUDSON DUNAWAY CORP.

Subpart—*Dealing on exclusive and tying basis:* § 13.670 *Dealing on exclusive and tying basis.* Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment for services or facilities for processing or sale under 2 (d); § 13.824 *Advertising expenses.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended, sec. 3, 38 Stat. 731; 15 U. S. C. 13, 14) [Cease and desist order, Judson Dunaway Corporation, Dover, N. H., Docket 6925, July 24, 1958]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a manufacturer of a line of household cleaning, deodorizing, mothproofing, and related products, with plants in Dover, N. H., and Kentland, Ind., with (I) discriminating in price in violation of section 2 (d) of the Clayton Act by such practices as paying substantial sums of money to Grand Union chain of supermarkets and retail food stores in the form of advertising of its products on an illuminated "spectacular" at 46th and Broadway, New York City, and in the form of in-store promotional displays, while not giving Grand Union's competitors similar treatment; and (II) allowing a discount from, or rebate upon, the price of its products to Grand Union on condition that the latter not deal in products of its competitors.

Following acceptance of an agreement containing a consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 24 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Judson Dunaway Corporation, a corporation, its officers, employees, agents and represenatives, directly or through any corporate or other device, in connection with the sale or offering for sale in commerce (as "commerce" is defined in the Clayton Act) of insecticides, household cleaning, deodorizing and mothproofing preparations, and other products, do forthwith cease and desist from:

Paying or contracting to pay to or for the benefit of any customer anything of value as compensation or in consideration for any advertising or for any promotional displays furnished by or through such customer in connection with the handling, processing, sale or offering for sale of respondent's products unless such payment or consideration is available on proportionally equal terms to all other customers competing in the resale of such products.

It is further ordered, That respondent Judson Dunaway Corporation, a corporation, its officers, employees, agents and representatives, directly or through any corporate or other device, in connection with the sale or offering for sale in commerce (as "commerce" is defined in the Clayton Act) of insecticides, household cleaning, deodorizing and mothproofing preparations, and other products, do forthwith cease and desist from:

1. Selling or making any contract or agreement for the sale of any such product on the condition, agreement or understanding that the purchaser thereof shall not use or deal in or sell products supplied by any competitor or competitors of respondent;

2. Enforcing or continuing in operation or effect any condition, agreement or understanding in, or in connection with, any existing contract of sale, which condition, agreement or understanding is to the effect that the purchaser of said products shall not use or deal in or sell products supplied by any competitor or competitors of respondent.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: July 24, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[Docket 7081]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

SEARS, ROEBUCK AND CO.

Subpart—*Misrepresenting oneself and goods*—Business status, advantages or connections: § 13.1505 *Operations as educational or religious;* § 13.1520 *Personnel or staff;* [*Misrepresenting oneself and goods*]—Goods: § 13.1663 *Individual's special selection or situation;* [*Misrepresenting oneself and goods*]—Prices; § 13.1805 *Exaggerated as regular and customary;* § 13.1825 *Usual as reduced or to be increased.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Sears, Roebuck and Co., Chicago, Ill., Docket 7081, July 24, 1958]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a general merchandise sales corporation with representing falsely through its door-to-door salesmen, furnished by it with a "canned sales talk" and sales kit, that such salesmen were publicity agents promoting a "Family Educational Program", seeking to enlist "Cooperative Sponsors" to whom they were making a special offer of its 20-volume "American People's

Encyclopedia" and its 16-volume "The Children's Hour" at reduced prices together with a ten-year research service and a coffee table; and that the offer was limited to the single interview.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 24 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondent Sears, Roebuck and Co., a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of books or other articles of merchandise when sold in combination therewith, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or indirectly, that:

1. Respondent's agents, representatives or employees representing it in the sale of said books or merchandise have any status other than that which they have in fact.

2. Purchasers of said books or merchandise will receive an organized course of instruction in any subject or subjects unless such is the fact.

3. Respondent's principal purpose is to enlist persons to publicize said books or merchandise when respondent's principal purpose is to sell said books or merchandise.

4. Any offer to sell said books or merchandise to a designated group or class of buyers is special to or restricted to such buyers when such offer is made generally to all purchasers at the same price and on the same terms and conditions.

5. Any offer of premiums or benefits made to a designated group or class of buyers of said books or merchandise is special to or restricted to such buyers when such offer is made generally to all purchasers.

6. Said books or merchandise are offered at reduced prices or at any specified amount of savings from respondent's usual and customary selling prices when the prices and terms at which they are offered for sale and sold constitute respondent's usual and customary selling prices and terms for such books or merchandise.

7. Any offer to sell said books or merchandise is limited or otherwise restricted as to time or availability unless such is the fact.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Sears, Roebuck and Co., a corporation, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: July 24, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1004]

[Docket No. AO-271-A3]

HANDLING OF MILK IN CENTRAL ARIZONA MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement, and order regulating the handling of milk in the Central Arizona marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Phoenix, Arizona, on June 11-12, 1958, pursuant to notice thereof which was issued May 29, 1958 (23 F. R. 3881).

The material issues on the record of the hearing relate to:

1. Changing the type of pool from market-wide to individual-handler;

2. Revising the Class I price, including the butterfat differential;

3. Revising the Class II price during certain months; and

4. Revising the base plan.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. The present pooling provisions of the order should not be changed. The cooperative association which proposed that the market-wide pool be eliminated and returns to producers be distributed by means of individual-handler pools requested in its brief that no consideration be given to its proposal. They stated that because of certain organizational difficulties it is necessary that the market-wide pool be continued at the present time. In view of these circumstances, and the fact that handlers and other producers opposed the proposal, it is recommended that the method of pooling should not be changed at this time.

2. The Class I price which handlers pay for milk should be maintained at about its present level. Since the changes recommended in the Class I butterfat differential and in the supply-demand formula would increase costs to handlers by about 5 cents per hundredweight, the Class I differential should be reduced by a corresponding amount to compensate for these changes.

Class prices in the Central Arizona marketing area are computed in terms of milk containing 3.8 percent butterfat content, but in actual practice the butterfat content of the milk which has been classified as Class I has been approximately 3.6 percent. The latter figure also approximates the average test of the milk which is received from producers.

Producers proposed that the Class I butterfat differential, which presently is equal to 1.75 times the price of butter, be changed to 1.35 times the price of butter. It is concluded that the proposed change in the butterfat differential should be adopted.

The present Class I butterfat differential is one of the highest in any market under regulation and results in allocating a substantial proportion of the Class I price to the butterfat and a correspondingly lower proportion to the serum part of the milk. Prior to the issuance of the order, handlers in the Central Arizona market purchased milk on the basis of its butterfat content and placed no specific value on the volume of fluid which accompanied the butterfat. Thus, milk testing 6 percent butterfat was paid for at a price equal to exactly twice the price paid for a corresponding volume of milk containing 3 percent butterfat. When the order was issued, it contained a higher butterfat differential than would otherwise have applied so as to avoid too great a change in the custom which had prevailed in the past.

A high butterfat differential tends to be a deterrent to the use of butterfat in Class I products. A lower butterfat differential for Class I milk should provide an incentive for increasing the butterfat

consumption of fluid milk and should encourage the sale of fluid cream. It also recognizes the increasing value of the butterfat portion of the milk for fluid use in relation to the butterfat.

Changing the Class I butterfat differential would make no difference in the cost of Class I milk to handlers if the average butterfat content of the Class I products were 3.8 percent. Since the average butterfat content of Class I milk has been approximately 3.6 percent each month since the order was issued, the recommended change in the butterfat differential would increase the actual cost of Class I milk to handlers by about 4½ cents per hundredweight. The decrease in the butterfat differential would average slightly more than 2 cents per point.

Producers proposed that in addition to a reduction in the value of the Class I butterfat differential a change be made in the supply-demand norms provided in the order. They contended that the supply-demand norms do not reflect the actual relationship of receipts to sales in the Central Arizona marketing area. The norms which they proposed would have increased the Class I price by several cents per hundredweight. A careful study of the statistical reports of the market administrator indicates that the present norms should be adjusted in certain months to reflect changes which have taken place in the production pattern in the market during the past year or so. These changes, however, are slight. If the adjustments recommended herein had been in effect for the 12 months from September 1957 through August 1958, the Class I price would have averaged approximately 1 cent higher than its actual level.

As noted above, there is no need for an increase in the level of the Class I price. Producer receipts in the Central Arizona market have been increasing each year since the Central Arizona marketing order became effective. The increase in receipts has been at a somewhat faster rate than the increase in Class I sales. The market is now adequately supplied with milk for Class I use, after having been relatively short for several years.

The decrease in the Class I butterfat differential and the change in the supply-demand norms, provided for in this decision, together would result in an increase in the Class I price of between 5 and 6 cents per hundredweight if adjustments were not made to compensate for these factors. To offset these increases the Class I differential should be reduced from $2.80 per hundredweight to $2.75 per hundredweight.

Handlers proposed that, if the butterfat differential were reduced as proposed by producers, the basic butterfat test used in computing class prices under the order be changed from 3.8 percent butterfat to 3.5 percent butterfat. They proposed this as a means of offsetting the increase in the Class I price which would otherwise occur if the only amendment made were to reduce the Class I butterfat differential. Producers opposed the change in the basic test on the grounds that since the State of California in its official milk orders computed prices in terms of 3.8 percent butterfat content, it was desirable for comparative purposes to maintain Arizona prices at the same level.

As the changes recommended in the order will maintain Class I prices at the same level, even though prices continue to be computed in terms of 3.8 percent butterfat, it is concluded that no change should be made in the order in this regard.

3. The Class II price should be amended by eliminating the deduction of 25 cents from the butter-powder price which is now made during the months of January through June.

Handlers opposed the increase in the Class II price but recommended that the lower price, instead of applying from January through June as at the present time, apply from November through April. They testified that disposal of excess receipts during November and December was a much greater problem than during May and June.

The proponent producers' cooperative association in the area has recently acquired facilities for the manufacture of nonfat dry milk. They indicated their willingness to receive and manufacture into nonfat dry milk at the butter-powder price, any milk which handlers were unwilling to receive. The Central Arizona market is a well balanced market. Producer receipts and Class I sales are extremely well aligned. The percentage of producer receipts to Class I sales during the period from July 1957 to June 1958 varied only from 113 percent to 122 percent. Most of the milk which has been produced in excess of the Class I requirements has been utilized for cottage cheese. Much of the remainder has been used in ice cream. Thus, the amount of milk which is available for other Class II uses has been negligible. In view of the small volume of milk which would remain after the requirements for these products have been met, and the willingness of the cooperative association to handle at the butter-powder price any milk which handlers are unwilling to receive, it is concluded that the butter-powder price should be used as the Class II price during the entire year.

4. The provisions of the order relating to the base plan should be revised, particularly as they relate to transfers of bases.

Some producers in the past have increased their bases under the transfer provisions. Through "paper transfers" and the manipulation of ownership of herds during the base-forming period it has been possible for producers to increase bases in excess of that which would be earned by their milk production during the base-forming period. The intent of the order is to provide a means of determining a base for each producer in accordance with the actual receipts of milk at pool plants during the base-forming period. To accomplish this intent under conditions where bases are combined, the total base should be determined by adding together the milk deliveries of the transferee and transferor during the base-forming period and dividing this total by the number of days from the first day milk was received from either producer during the base-forming period to the last day of the base-forming period, but not by less than 90.

It should also be provided that if milk is delivered from the same dairy in more than one name during the base-forming period, the bases earned in such names should be combined, as indicated above, if milk is delivered in both names during the base-paying period.

Adoption of these rules will prevent the abuse of the transfer provisions to inflate bases, but will not interfere with the legitimate transfer of bases by producers who retire or dispose of their dairy herds for other legitimate reasons.

A proposal was also made by the producers' cooperative association that the base plan be operative on a 12-month basis and that a producer's base be determined by dividing his deliveries during the base-forming period by 122, regardless of the number of days of delivery by the producer. With respect to the former, there is no need for extending the base plan for the whole year. The purpose of the base plan is to encourage level production, not to limit the amount of milk produced for the market. As noted above, the month to month production in the Central Arizona market is remarkably uniform and it is very doubtful that any improvement could be achieved by paying producers on the base plan during the entire year.

The proposal to divide deliveries during the base-forming period by 122 regardless of the number of days of delivery was suggested as a means of correcting the abuse of the base-transfer provisions which have been discussed above. In view of the other steps taken, there is no need for such a provision.

The proposal of the handlers that November be eliminated from the base-forming period should also be denied. Use of the 4 months presently designated has resulted in a very even supply of milk for the market. There is no evidence that changing the base-forming period would have an effect other than possibly to reduce slightly the amount of base earned since average daily deliveries during November have been a little higher than during August, September, and October.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and deter-

minations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order amending the order. The following order amending the order regulating the handling of milk in the Central Arizona marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

1. Amend § 1004.51 (a) by deleting the figure, "$2.80", in the first paragraph thereof, and substituting therefor the figure "$2.75".

2. Amend § 1004.51 (a) (2) (iii) by deleting the table contained therein and substituting the following:

Month for which price applies	Months used in computation	Standard utilization percentages	
		Minimum	Maximum
January	October-November	112	116
February	November-December	115	119
March	December-January	116	120
April	January-February	116	120
May	February-March	116	120
June	March-April	115	119
July	April-May	113	117
August	May-June	113	117
September	June-July	112	116
October	July-August	110	114
November	August-September	109	113
December	September-October	111	115

3. Amend § 1004.51 (b) to read as follows:

(b) *Class II milk price.* The Class II milk price shall be the "butter-powder" price computed pursuant to § 1004.50 (b).

4. Amend § 1004.52 (a) by deleting the figure, "0.175" and substituting therefor the figure "0.135".

5. Amend § 1004.90 to read as follows:

§ 1004.90 *Computation of daily average base for each producer.* Subject to the rules set forth in § 1004.91, the daily average base of each producer shall be calculated by dividing the total pounds of milk received from such producer at all pool plants during the months of August through November immediately preceding by the number of days from the first day milk is received from such producer during said month to the last day of November, inclusive, but not less than 90.

6. Amend § 1004.91 to read as follows:

§ 1004.91 *Base rules.* The following rules shall apply in connection with the establishment and assignment of bases.

(a) Subject to the provisions of paragraph (b) of this section, the market administrator shall assign a base as calculated pursuant to § 1004.90 to each person for whose account producer milk was delivered to pool plants during the months of August through November;

(b) If a producer ceases to deliver milk in his name between August 1 and November 30, but milk is delivered to a pool plant from the same dairy production facilities in the name of another producer during the remainder of the base-forming period, the bases earned by both producers shall be combined in the manner set forth in paragraph (c) (2) of this section if milk is delivered in the names of both producers during any of the following months of January through June.

(c) An entire base shall be transferred from a person holding such base to any other person effective as of the end of the month during which an application for the transfer of such base is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder or his heirs, and by the person to whom such base is to be transferred subject to the following conditions:

(1) If a base is held jointly, the entire base shall be transferable only upon the receipt of the above described application signed by all joint holders or their heirs, and by the person to whom such base is to be transferred;

(2) If one or more bases are transferred to a producer already holding a base which was either earned by such producer or transferred to him, a new base shall be computed by adding together the total producer milk deliveries during the base-forming period of all persons in whose names such bases were earned, and dividing the total by the number of days from the earliest date of delivery during the base-forming period by any of such persons to the last day of November, both inclusive, but not less than 90; and

(d) If a base is held jointly, it may be divided among the joint holders effective as of the end of the month during which an application for division of the base is received by the market administrator: *Provided*, That such application is signed by all joint holders or their heirs, and such application sets forth the percentage of the jointly held base which is to be assigned to each of the joint holders or their heirs.

Issued at Washington, D. C., this 28th day of August, 1958.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

DEPARTMENT OF LABOR

Division of Public Contracts

[29 CFR Part 202]

TIRES AND RELATED PRODUCTS INDUSTRY; MINIMUM WAGE DETERMINATIONS

NOTICE OF HEARING TO DETERMINE PREVAILING MINIMUM WAGES

Pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, as amended; 41 U. S. C. 35 et seq.) and section 4 (a) of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001 et seq.), notice is hereby given that a hearing to determine the prevailing minimum wages in the tires and related products industry will be held before a Hearing Examiner on October 8, 1958, beginning at 10:00 a. m., e. d. s. t., in Room 1214, United States Department of Labor Building, 14th Street and Constitution Avenue NW., Washington, D. C.

The tires and related products industry, for the purpose of this hearing, is defined as that industry which manufactures or furnishes tires and related products, including pneumatic casings, inner tubes, industrial and highway solid tires of 2 inches or more in cross-section, and camelback.

All interested persons may appear at the time and place specified herein and submit data, views, and arguments as to the following subjects and issues: (1) The appropriateness of the proposed definition of the industry; (2) what are the prevailing minimum wages in the industry; (3) whether a single determination for all the area in which the industry operates or separate determinations for smaller geographic areas (including the appropriate limits for such areas) should be determined for this industry; and (4) whether there should be included in any determination for this industry provision for the employment of probationary workers at wages lower than the prevailing minimum wages and on what terms or limitations, if any, such employment should be permitted.

Employment and wage data in this industry for the payroll period ending nearest November 15, 1957, has been gathered by the Department of Labor. This information will be submitted for consideration at the hearing, and is available to interested persons upon request. Data collected in the Department of Labor for use in preparing its monthly series on "Earnings and Hours" showing the movement of average hourly earnings in this industry subsequent to November 15, 1957, may be prepared for consideration at the hearing on the question of what changes have occurred in the prevailing minimum

...in this industry since November ..., 1957, to the date of the hearing.

Written statements may be filed with the Chief Hearing Examiner at any time prior to the date of the hearing by persons who cannot appear personally. An original and three copies of any such statement shall be filed and shall include the reason or reasons for non-appearance. Such statement shall be under oath or affirmation, and will be offered in evidence at the hearing. If objection is made to the admission of any such statement, the Presiding Officer shall determine whether it will be received in evidence.

To the extent possible, evidence with respect to the subjects and issues involved of each witness and the sworn or affirmed statements of persons who cannot appear personally, should permit tabulation on a plant-by-plant basis, and state: (1) (a) The number and location of establishments in the industry to which the testimony of such witness or such written statement is applicable, (b) the number of workers employed in each such establishment, (c) the minimum rates paid to covered workers and the number of covered workers at each such establishment receiving such rates and the occupations in which they are employed, (d) the minimum wages paid to probationary workers in each such establishment, the scale of wages paid during such periods, the length of such periods, the number of workers receiving such wages, and the occupations in which they are employed; (2) the geographic area or areas of competition within this industry; and (3) the changes in the minimum wages paid since November 15, 1957, for persons employed in this industry.

This hearing will be conducted pursuant to the rules of practice for minimum wage determinations under the Walsh-Healey Public Contracts Act codified in 41 CFR Part 203.

Signed at Washington, D. C., this 21st day of August 1958.

JAMES P. MITCHELL,
Secretary of Labor.

FOOD AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

RESIGNATION AND APPOINTMENT OF EMPLOYER MEMBER OF INDUSTRY COMMITTEE

Harold E. Morgan of Playa de Ponce, Puerto Rico, has resigned as an employer representative on Industry Committee No. 41-B. The Secretary of Labor, pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et. seq.), hereby appoints Luis R. Quinones of Rio Piedras, Puerto Rico, to serve on said Committee as an employer representative.

Signed at Washington, D. C., this 22d day of August 1958.

JAMES P. MITCHELL,
Secretary of Labor.

NOTICES

ATOMIC ENERGY COMMISSION

[Docket No. 27-5]

WALKER TRUCKING CO.

PROPOSED ISSUANCE OF A SOURCE AND BYPRODUCT MATERIAL LICENSE TO PROVIDE RADIOACTIVE WASTE DISPOSAL SERVICE

Please take notice that the Atomic Energy Commission proposes to issue a Source and Byproduct Material License to The Walker Trucking Company, 1283-1285 East Street, New Britain, Connecticut, substantially in the following form, authorizing the disposal of waste byproduct and source material in the Atlantic Ocean at a minimum depth of 1000 fathoms unless within fifteen (15) days after filing of this notice with the Federal Register Division a request for a formal hearing is filed with the Commission in the manner prescribed by Title 10, Code of Federal Regulations, Chapter I, Part 2, "Rules of Practice".

The Atomic Energy Commission has found that:

(a) The applicant's proposed equipment, facilities, and procedures are adequate to protect health and minimize danger to life or property.

(b) The applicant is qualified by training and experience to perform the proposed sea disposal service for packaged source and byproduct material in such a manner as to protect health and minimize danger to life or property; and

(c) The issuance of a Source and Byproduct Material License to the Walker Trucking Company will not be inimical to the health and safety of the public.

For further details see (1) the application submitted by The Walker Trucking Company, and amendments thereto; (2) a memorandum prepared by the Division of Licensing and Regulation which summarizes the principal factors considered in reviewing the application for license; and (3) a copy of Appendix A to the license containing a description of container specifications substantially similar to those contained in Title 49, Code of Federal Regulations, Part 78, referred to in Condition 7 of the license; all on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C.

Copies of (2) and (3) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 20th day of August 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

ANNEX A—SOURCE AND BYPRODUCT MATERIAL LICENSE

[License No. 6-3627-1 (H60)]

Pursuant to the Atomic Energy Act of 1954, as amended, and Title 10, Code of Federal Regulations, Chapter I, Part 40, "Control of Source Material", and Title 10, Code of Federal Regulations, Chapter I, Part 30, "Licensing of Byproduct Material", and in reliance upon statements and representations heretofore made by the applicant, a license is hereby issued to The Walker Trucking Company, 1283-1285 East Street, New Britain, Connecticut, to receive, possess, package, and dispose of source and byproduct material in the Atlantic Ocean.

This license shall be deemed to contain the conditions specified in section 183 of the Atomic Energy Act of 1954, as amened, and is subject to the provisions of Title 10, Code of Federal Regulations, Chapter I, Part 20, "Standards for Protection Against Radiation", and all other applicable rules, regulations, and orders of the Atomic Energy Commission now or hereafter in effect and to the following conditions:

1. The licensee shall not receive possession of more than 700 pounds of source material during the term of this license.

2. The licensee shall not possess more than 50 curies of byproduct material at any one time.

3. Byproduct and source material shall be received, possessed, packaged, and disposed of by or under the direct supervision of Paul P. F. Bujalski.

4. The licensee shall receive, package, possess, and dispose of source and byproduct material in accordance with the procedures described in the Licensee's application dated March 4, 1958, and attachments thereto; "Supplement to Form 313", dated February 1958; and letters dated April 10, 1958, April 18, 1958, and July 8, 1958; except as provided otherwise in this license.

5. A copy of the "Supplement to Form 313", dated February 1958, as amended, shall be supplied to each employee of the licensee involved in the receipt, packaging, and disposal of source and byproduct material.

6. Source and byproduct material received from customers shall be prepackaged in containers which shall not be opened at any time by The Walker Trucking Company, and which shall meet the requirements of Condition 7 of this license. The licensee shall instruct each customer to package the waste material in such a manner as to assure the absence of any significant voids.

7. Intrastate transportation of AEC-licensed material to the location designated in Condition 8 shall be in accordance with the following requirements except as specifically approved by the Atomic Energy Commission:

A. *Outside shipping containers.* (1) The containers shall meet any one of the following specifications described in Appendix A attached hereto:

a. 15A, 15B, 12B, 6A, 6B, 6C, 17C, 17H, 19A, or 19B for the containment of radioactivity in amounts not in excess of 2.0 curies; or

b. Specification 55 for containment of solid cobalt 60, cesium 137, iridium 192, or gold 198 in amounts not in excess of 300 curies.

(2) There shall be no radioactive contamination on any exterior surface of the container in excess of 500 d/m/100 sq. cm. alpha and 0.1 mrep/hr beta-gamma radiation.

(3) The smallest dimension of the container shall not be less than 4 inches.

(4) The radiation level at any accessible surface of the container shall not exceed 200 mrem/hr.

(5) At one meter from any point on the radioactive source the radiation level shall not exceed 10 mrem/hr.

(6) Containers which contain radioactive material emitting only alpha and/or beta radiation shall contain sufficient shielding to prevent the escape of primary corpuscular radiation to the exterior surface and to reduce the secondary radiation at the surface of the container to at least 10 mrem/24 hours at any time during transportation.

B. *Inside containers.* (1) Solid and gaseous radioactive materials shall be packed in suitable inside containers designed to prevent rupture and leakage under conditions incident to transportation.

(2) Liquid radioactive materials must be packed in sealed glass, earthenware, or other suitable containers. The container must be surrounded on all sides by an absorbent material sufficient to absorb the entire liquid contents and be of such nature that its efficiency will not be impaired by chemical reactions with the contents. Where shielding is required the absorbent material must be placed within the shield. If the inside container meets the Specification 2R in Appendix A the absorbent material is not required.

(3) Materials containing radioisotopes of plutonium, americium, polonium, or curium, or the isotope strontium 90, in quantities in excess of 100 microcuries, must be packed in containers which meet Specification 2R in Appendix A.

C. *Shielding.* Inside containers must be completely surrounded with sufficient shielding to meet the requirements of subparagraphs A (4), A (5), and A (6) of this condition. The shield must be so designed that it will not open or break under normal conditions incident to transportation.

D. *Labeling.* Each outside container label required under § 20.203 (f) (1) of 10 CFR Part 20 shall bear the following information:

(1) Total activity in millicuries, or in the case of source and special nuclear material, the total weight;

(2) Principal radioisotope;

(3) Radiation level at the surface of the container and at one meter from the source; and

(4) The name and address of the licensee.

E. Each vehicle in which licensed material is transported shall be marked or placarded on each side and the rear with lettering at least 3 inches high as follows: Caution—Radioactive Material.

F. *Accidents.* In the event of an accident involving any vehicle transporting licensed material, immediate steps shall be taken to prevent radiation exposure of persons and to control contamination.

G. *Exemptions.* Specific approval must be obtained from the Atomic Energy Commission for modification of, or exemption from, the requirements of this license condition. Requests for such approval should be directed to the Chief, Isotopes Branch, Division of Licensing and Regulation, Atomic Energy Commission, and should contain sufficient information to support such a request.

8. The licensee shall store and package byproduct material for sea disposal at the facility located on Brownstone Avenue, Portland, Connecticut, and described in licensee's application dated March 4, 1958.

9. The licensee shall dispose of byproduct and source material in the Atlantic Ocean at a point designated as parallel of Latitude 38°50′ N. and meridian of Longitude 72°00′ W. at a minimum depth of 1,000 fathoms.

10. The licensee shall notify the Chief, Isotopes Branch, Division of Licensing and Regulation, Atomic Energy Commission, at least 20 days prior to each disposal, by letter deposited in the United States mail properly stamped and addressed. This notification shall contain the following information: The proposed date for disposal, the total number of containers, the amount of source material in pounds, the total activity of byproduct material in millicuries, and the most hazardous radioisotope contained in each container.

11. A curie of Iridium 192 is defined as that quantity of activity which presents a radiation intensity of 0.55 roentgen per hour at a distance of one meter.

This license shall be effective on the date issued and shall expire on August 31, 1960.

Date of issuance:

For the Atomic Energy Commission.

J. R. MASON,
Chief,
Isotopes Branch,
Division of Licensing and Regulation.

[F. R. Doc. 58-6982; Filed, Aug. 28, 1958; 8:45 a. m.]

[Docket No. 27-8]

NEW ENGLAND TANK CLEANING CO.

PROPOSED ISSUANCE OF A BYPRODUCT MATERIAL LICENSE TO PROVIDE RADIOACTIVE WASTE DISPOSAL SERVICE

Please take notice that the Atomic Energy Commission proposes to issue a Byproduct Material License to New England Tank Cleaning Company, 135 First Street, Cambridge 41, Massachusetts, substantially in the following form, authorizing the disposal of waste byproduct material in the Atlantic Ocean at a minimum depth of 1,000 fathoms unless within fifteen (15) days after filing of this notice with the Federal Register Division a request for a formal hearing is filed with the Commission in the manner prescribed by Title 10, Code of Federal Regulations, Chapter I, Part 2, "Rules of Practice".

The Atomic Energy Commission has found that:

(a) The applicant's proposed equipment, facilities, and procedures are adequate to protect health and minimize danger to life or property;

(b) The applicant is qualified by training and experience to perform the proposed sea waste disposal service for packaged byproduct material in such a manner as to protect health and minimize danger to life or property; and

(c) The issuance of a Byproduct Material License to New England Tank Cleaning Company will not be inimical to the health and safety of the public.

For further details see (1) the application submitted by the New England Tank Cleaning Company, and amendments thereto; (2) a memorandum prepared by the Division of Licensing and Regulation which summarizes the principal factors considered in reviewing the application for license; and (3) a copy of Appendix A to the license containing a description of container specifications substantially similar to those contained in Title 49, Code of Federal Regulations, Part 78, referred to in Condition 6 of the license; all on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C.

Copies of (2) and (3) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 20th day of August 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

ANNEX A—BYPRODUCT MATERIAL LICENSE

[License No. 20-3541-1 (H60)]

Pursuant to the Atomic Energy Act of 1954, as amended, and Title 10, Code of Federal Regulations, Chapter I, Part 30, "Licensing of Byproduct Material", and in reliance upon statements and representations heretofore made by the applicant, a license is hereby issued to New England Tank Cleaning Company, 135 First Street, Cambridge 41, Massachusetts, to receive, possess, package, and dispose of byproduct material in the Atlantic Ocean.

This license shall be deemed to contain the conditions specified in section 183 of the Atomic Energy Act of 1954, as amended, and is subject to the provisions of Title 10, Code of Federal Regulations, Chapter I, Part 20, "Standards for Protection Against Radiation", and all other applicable rules, regulations, and orders of the Atomic Energy Commission now or hereafter in effect and to the following conditions:

1. The licensee shall not possess more than 1000 curies of byproduct material at any one time.

2. Byproduct material shall be received, possessed, packaged, and disposed of by or under the direct supervision of Norman C. Rasmussen.

3. The licensee shall receive, package, possess, and dispose of the byproduct material in accordance with the procedures described in the licensee's application dated December 19, 1957, and attachments thereto, and the licensee's letters dated January 17, 1958, February 4, 1958, February 27, 1958, April 1, 1958, and June 20, 1958; except as provided otherwise in this license.

4. A copy of "General Instructions for Personnel Handling Radioactive Substances", "Emergency Procedures", "General Instructions for Vehicular Accidents", "Personal Decontamination Procedures", and "Special Instructions for Final Packaging Operations", as described in the licensee's application and letters specified in Condition 3 of this license, shall be supplied to each employee of the licensee involved in the receipt, packaging, and disposal of byproduct material.

5. Byproduct material received from customers shall be prepackaged in containers which shall not be opened at any time by the New England Tank Cleaning Company, and which shall meet the requirements of Condition 6 of this license. The licensee shall instruct each customer to package the waste material in such a manner as to assure the absence of any significant voids.

6. Intrastate transportation of AEC-licensed material to the location designated in Condition 7 shall be in accordance with the following requirements except as specifically approved by the Atomic Energy Commission:

A. *Outside shipping containers.* (1) The containers shall meet any one of the follow-

...pecifications described in Appendix A ...ed hereto:

...15A, 15B, 12B, 6A, 6B, 6C, 17C, 17H, 19A, ... for the containment of radioactivity ... amounts not in excess of 2.0 curies; or

... Specification 55 for containment of ... cobalt 60, cesium 137, iridium 192, or ... 198 in amounts not in excess of 300 ...

(2) There shall be no radioactive contamination on any exterior surface of the container in excess of 500 d/m/100 sq. cm. alpha and 0.1 mrep/hr beta-gamma radiation.

(3) The smallest dimension of the container shall not be less than 4 inches.

(4) The radiation level at any accessible surface of the container shall not exceed 200 mrem/hr.

(5) At one meter from any point on the radioactive source the radiation level shall not exceed 10 mrem/hr.

(6) Containers which contain radioactive material emitting only alpha and/or beta radiation shall contain sufficient shielding to prevent the escape of primary corpuscular radiation to the exterior surface and to reduce the secondary radiation at the surface of the container to at least 10 mrem/24 hours at any time during transportation.

B. *Inside containers:* (1) Solid and gaseous radioactive materials shall be packed in suitable inside containers designed to prevent rupture and leakage under conditions incident to transportation.

(2) Liquid radioactive materials must be packed in sealed glass, earthenware, or other suitable containers. The container must be surrounded on all sides by an absorbent material sufficient to absorb the entire liquid contents and be of such nature that its efficiency will not be impaired by chemical reactions with the contents. Where shielding is required the absorbent material must be placed within the shield. If the inside container meets the Specification 2R in Appendix A the absorbent material is not required.

(3) Materials containing radioisotopes of plutonium, americium, polonium, or curium, or the isotope strontium 90, in quantities in excess of 100 microcuries, must be packed in containers which meet Specification 2R in Appendix A.

C. *Shielding.* Inside containers must be completely surrounded with sufficient shielding to meet the requirements of subparagraphs A (4), A (5), and A (6) of this condition. The shield must be so designed that it will not open or break under normal conditions incident to transportation.

D. *Labeling.* Each outside container label required under § 20.203 (f) (1) of 10 CFR Part 20 shall bear the following information:

(1) Total activity in millicuries, or in the case of source and special nuclear material, the total weight;

(2) Principal radioisotope;

(3) Radiation level at the surface of the container and at one meter from the source; and

(4) The name and address of the licensee.

E. Each vehicle in which licensed material is transported shall be marked or placarded on each side and the rear with lettering at least 3 inches high as follows: Caution—Radioactive Material.

F. *Accidents.* In the event of an accident involving any vehicle transporting licensed material, immediate steps shall be taken to prevent radiation exposure of persons and to control contamination.

G. *Exemptions.* Specific approval must be obtained from the Atomic Energy Commission for modification of, or exemption from, the requirements of this license condition. Requests for such approval should be directed to the Chief, Isotopes Branch, Division of Licensing and Regulation, Atomic Energy Commission, and should contain sufficient information to support such a request.

7. The licensee shall store and package byproduct material for sea disposal at Great Brewster Island, Boston, Massachusetts.

8. The licensee shall dispose of byproduct material in an area bounded by the parallels of Latitude 41°38' N. and 41°28' N. and by the meridians of Longitude 65°28' W. and 65°45' W. at a minimum depth of 1000 fathoms.

9. The licensee shall notify the Chief, Isotopes Branch, Division of Licensing and Regulation, Atomic Energy Commission, at least 20 days prior to each disposal, by letter deposited in the United States mail properly stamped and addressed. This notification shall contain the following information: the proposed date for disposal, the total number of containers, the total activity in millicuries, and the most hazardous radioisotope contained in each container.

10. A curie of Iridium 192 is defined as that quantity of activity which presents a radiation intensity of 0.55 roentgen per hour at a distance of one meter.

This license shall be effective on the date issued and shall expire on August 31, 1960.

Date of issuance:

For the Atomic Energy Commission.

J. R. MASON,
Chief,
Isotopes Branch,
Division of Licensing and Regulation.

[Docket No. 50-89]

GENERAL DYNAMICS CORP.

ISSUANCE OF FACILITY LICENSE AMENDMENT

Please take notice that the Atomic Energy Commission has issued the following Amendment (No. 2) to License R-38 authorizing General Dynamics Corporation as requested in its application for license amendments dated May 28, 1958, and July 11, 1958, to conduct, in its facility located at Torrey Pines Mesa, California, tests comprising (1) neutron studies of nuclear cross sections and solid state properties, (2) shielding studies of neutrons streaming through holes in a water shield and (3) a series of reactivity compensation experiments. The Commission has found that operation of the facility in accordance with the terms and conditions of the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since the conduct of the proposed additional experiments does not present any substantial changes in the hazards to the health and safety of the public from those presented by the previously approved operation of the facility.

In accordance with the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of the issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within thirty days after the issuance of the license amendment. For further details, see (1) the application for license amendment submitted by General Dynamics Corporation and (2) a hazards analysis of the proposed experiments prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 21st day of August 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

AMENDMENT OF UTILIZATION FACILITY LICENSE

[License No. R-38, Amdt. 2]

In addition to the activities previously authorized by the Commission under License No. R-38, as amended, General Dynamics Corporation (hereinafter referred to as the "licensee"), is authorized to perform, in accordance with the procedures and subject to the limitations stated therein, the experiments described in the application for amendment dated May 28, 1958, as "(1) neutron studies of nuclear cross sections and solid state properties and (2) shielding studies of neutrons streaming through holes in a water shield," and described in Enclosure 1, "Proposed Reactivity Compensation Experiments", in the application for amendment dated July 11, 1958.

In performing these tests, the licensee shall comply with the conditions and requirements contained or incorporated in paragraph 3 of License No. R-38, as amended. In addition paragraph 3 of the License No. R-38 is amended by adding subparagraph 3.C. to read as follows:

When conducting the experiments described in the application for amendment dated July 11, 1958, General Dynamics Corporation shall comply with the following additional conditions:

(1) At the first indication of boiling of the pool water the reactor shall be shut down.

(2) Radiation monitoring instruments capable of detecting the radiation levels around the reactor shall be in operation during all phases of the conduct of the experiments.

(3) Only persons necesary for the conduct of the experiments shall be permitted in the reactor building while the experiments are being performed.

This amendment is effective as of the date of issuance.

Date of issuance: August 21, 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director,
Division of Licensing and Regulation.

[Docket No. 27-7]

ISOTOPES SPECIALTIES CO.

ISSUANCE OF BYPRODUCT AND SOURCE MATERIAL LICENSE TO PROVIDE RADIOACTIVE WASTE DISPOSAL SERVICE

Please take notice that no requests for formal hearing having been filed following filing of the notice of proposed action with the Federal Register Division, the Atomic Energy Commission has this date issued the following Byproduct and Source Material License No. 4-580-6 authorizing Isotopes Specialties Company, Inc. to receive, possess, package, and dispose of byproduct and source material in the Pacific Ocean in accordance with the terms and conditions of said license. The notice of proposed action was published in the FEDERAL REGISTER on March 8, 1958. For further details see the application for a license at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C.

Dated at Germantown, Md., this 21st day of August 1958.

For the Atomic Energy Commission.

H. L. PRICE,
Director, Division of Licensing and Regulation.

BYPRODUCT AND SOURCE MATERIAL LICENSE

[License No. 4-580-6 (H60)]

Pursuant to the Atomic Energy Act of 1954, as amended, and Title 10, Code of Federal Regulations, Chapter I, Part 30, "Licensing of Byproduct Material" and Title 10, Code of Federal Regulations, Chapter I, Part 40, "Control of Source Material," and in reliance on statements and representations heretofore made by the applicant, a license is hereby issued to Isotopes Specialties Company, Inc., 170 West Providencia, Burbank, California, to receive, possess, package, and dispose of waste byproduct and source material in the Pacific Ocean.

This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to the provisions of 10 CFR Part 20, "Standards for Protection Against Radiation," and all other applicable rules, regulations, and orders of the Atomic Energy Commission now or hereafter in effect and to the following conditions:

1. The licensee shall not possess more than 100 curies of byproduct material at any one time.

2. The licensee shall not possess during the term of this license a total quantity of more than 2,000 pounds of uranium or thorium or any combination thereof contained in source material.

3. The byproduct and source material shall be received, possessed, packaged and disposed of, by, or under the supervision of Allen M. Goldstein.

4. The licensee shall receive, possess, package, and dispose of the byproduct and source material in accordance with procedures described in his application dated December 2, 1957, and attachments thereto, except as provided otherwise in this license.

5. A copy of the administrative procedures, attached to the application dated December 2, 1957, shall be supplied to each of the licensee's employees who are involved in the receipt, possession, packaging and disposal of the byproduct and source materials.

6. The licensee shall notify the Chief, Isotopes Branch, Division of Licensing and Regulation, Atomic Energy Commission, by letter deposited in the United States mail properly stamped and addressed, at least 20 days prior to each disposal, of the proposed date for disposal, the proposed disposal location in latitude and longitude, the total number of containers, the total activity of the byproduct material in millicuries, and/or total weight of source material, and the most hazardous radioisotope in each container.

7. Byproduct Material License Number 4-580-3 issued on September 27, 1957, is hereby terminated.

8. A curie of Iridium 192 is defined as that quantity of activity which emits a radiation intensity of 0.55 roentgen per hour at a distance of one meter.

This license shall be effective on the date issued and shall expire on August 31, 1960.

Date of issuance: August 21, 1958.

For the Atomic Energy Commission.

H. L. PRICE,
Director,
Division of Licensing and Regulation.

CLINTON CATTLE COMMISSION CO.

PROPOSED POSTING OF STOCKYARD

The Director of the Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, has information that the Clinton Cattle Commission Co., Clinton, Oklahoma, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of the act. Notice is hereby given, therefore, that the said Director, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the act, as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule may do so by filing them with the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., within 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 26th day of August 1958.

[SEAL] DAVID M. PETTUS,
Director, Livestock Division,
Agricultural Marketing Service.

Office of the Secretary

ILLINOIS

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following counties in the State of Illinois a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

ILLINOIS

Alexander.	Monroe.
Hardin.	Pope.
Jackson.	Pulaski.
Massac.	Union.

Pursuant to the authority set forth above, production emergency loans may not be made in the above-named counties after June 30, 1959, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 28th day of August 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G-13754, G-13755]

ARROWHEAD EXPLORATION CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 25, 1958.

In the matters of Arrowhead Exploration Company, Docket No. G-13754; Ernest A. Strakosch, Agent, et al., Docket No. G-13755.

Take notice that Arrowhead Exploration Company (Arrowhead) and Ernest A. Strakosch, Agent, et al.[1] (Strakosch) filed applications on November 18, 1957, pursuant to section 7 of the Natural Gas Act, for authority to render and abandon service, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the respective applications, which are on file with the Commission and open to public inspection.

Strakosch, by its application in Docket No. G-13755, seeks permission and approval to abandon the sale of natural gas to Hope Natural Gas Company (Hope) from a certain lease in Union and Lincoln Districts, Tyler County, West Virginia, which service is covered by contract dated February 18, 1955.

Arrowhead, by its application in Docket No. G-13754, seeks a certificate of public convenience and necessity authorizing it to continue the sale proposed to be abandoned by Strakosch in its application herein.

By an instrument of assignment executed on June 18, 1957, the aforesaid assignees of Strakosch reassigned their working interests in the lease involved to Arrowhead subject to the aforementioned contract and to certain overriding royalty reservations.

Concurrently with its subject application in Docket No. G-13754, Arrowhead filed a notice of succession to Strakosch's FPC Gas Rate Schedule No. 1 together with the above-mentioned assignment of June 18, 1957.

Strakosch was previously authorized to furnish the above-described service by order issued April 16, 1956, In the Matters of Wayne Moore, et al., Docket Nos. G-8132, et al., granting a certificate of public convenience and necessity to Strakosch in Docket No. G-8580.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 23, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 12, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the

[1] The "et al." parties are successors in interest to Strakosch. Said parties and their working interests are: Richard N. Calhoun 1/64; Thomas M. Dines 1/16; D. Coleman Glover 1/32; Katherine D. Glover 1/32; W. R. Johnson 1/32; J. M. R. Lyeth, Jr., 1/16; Munro L. Lyeth 3/32; Munro L. Lyeth, Trustee for Munroe L. Lyeth, Jr., Trust No. 1 (d. b. a. M. L. L. Co.) 1/64; Munro L. Lyeth, Trustee for Judith G. Lyeth, Trust No. 1 (d. b. a. J. G. L. Co) 1/64; Bryce Metcalf, Jr., 1/64; Charles J. Hughes 1/8; Lafayette M. Hughes, Jr., 1/8; and Wm. E. Hughes 1/8; Charles J. Hughes and Munro L. Lyeth 1/8.

intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6993; Filed, Aug. 28, 1958; 8:47 a. m.]

[Docket No. G-14987]

STARKS UTILITIES, INC.

NOTICE OF APPLICATION

AUGUST 25, 1958.

Take notice that Starks Utilities, Inc. (Applicant), a private corporation organized and existing under the laws of the State of Louisiana, with its principal place of business in Lake Charles, Louisiana, filed an application on April 28, 1958, for an order pursuant to section 7 (a) of the Natural Gas Act, directing Texas Eastern Transmission Corporation (Texas Eastern), to establish physical connection of its gas transmission facilities with the proposed natural gas system of Applicant and to sell and deliver natural gas to Applicant as hereinafter described, subject to the jurisdiction of the Commission, all as more fully described in the application which is on file with the Commission and open to public inspection. Supplemental information was filed by Applicant on May 19, and June 12, 1958.

Applicant states that it is authorized under the laws of the State of Louisiana to construct and operate facilities to transport and distribute natural gas for resale in the Town of Starks, Calcasieu Parish, Louisiana. Applicant presently owns and operates the water system in Starks. The town and adjacent area currently has only bottled gas service, which Applicant states is not adequate for the needs of the community. The application states that Texas Eastern's main line lies adjacent to the southerly city limits of Starks and a proposed tap and meter setting is to be constructed on this line, at a convenient location to the town. The estimated overall cost of the proposed distribution system, together with the short lateral line to be extended from Texas Eastern's line to the town distribution system is $42,000.

Applicant will privately finance the proposed project from funds on hand or from funds available to it.

The estimated gas requirements for the first four years of operation in the town of Starks are as follows:

Year	*Peak day (Mcf)*	*Annual (Mcf)*
1st	130	16,160
2d	142	16,295
3d	155	16,430
4th	168	16,570

On June 14, 1958, Texas Eastern filed its reply to the application, stating that if directed by the Commission, it would have no objection to serving the requested volumes of natural gas, and to do so would not impair its ability to render adequate service to its existing customers.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (CFR 1.8 or 1.10) on or before September 16, 1958.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-6994; Filed, Aug. 28, 1958; 8:47 a. m.]

[Docket No. G-15273]

ATLANTIC SEABOARD CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 25, 1958.

Take notice that Atlantic Seaboard Corporation (Applicant), a Delaware corporation with its principal place of business in Charleston, West Virginia, filed an application on June 12, 1958, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of natural gas facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully described in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to construct and operate an additional delivery tap, together with metering and regulating facilities. The proposed facilities will be located nead Buena Vista, Virginia and Applicant's existing 6'' Lynchburg lateral pipeline for the wholesale sale of natural gas to Lynchburg Gas Company (Lynchburg), an existing customer.

The application states that Applicant presently delivers gas for resale to Lynchburg Gas at two delivery points in the tri-county area (Amherst, Bedford and Campbell Counties) in Virginia, in which Lynchburg Gas is the major gas distributor. The proposed new delivery point will be located adjacent to Lynchburg's present market area and outside of the area presently served by Lynchburg Gas.

It is proposed that Lynchburg Gas will purchase gas from Applicant at the proposed new delivery point and in turn will resell the gas to its wholly-owned subsidiary, Lynchburg Pipe Line Company. The latter will transport and sell the gas to the Locher Brick Company (Locher) at Glasgow, Virginia. Lynchburg Gas has informed Applicant that Locher's requirements will approximate 500 Mcf per day, with annual requirements estimated at 150,000 Mcf. These requirements will be curtailable during periods of peak demands on Lynchburg Gas' system.

The application states that Applicant's 6'' Lynchburg lateral line, designated VA-M-1 has sufficient capacity to deliver the estimated requirements of Lynchburg Gas, including the volumes for the new brick plant. Lynchburg Gas presently has a contract demand of 6500 Mcf per day with Applicant. Off-peak volumes under this contract will be made available to the brick plant, thus increasing Lynchburg Gas' load factor on its gas purchases from Applicant.

The estimated cost of the proposed facilities is $9,350, which amount will be supplied by Applicant from funds on hand.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Unless the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 16, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1932]

REICHHOLD CHEMICALS, INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

AUGUST 25, 1958.

In the matter of application by the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in Reichhold Chemicals, Inc., common stock; File No. 7-1932.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before September 9, 1958, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

[File No. 1-572]

MENGEL CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 25, 1958.

In the matter of the Mengel Company, common stock; File No. 1-572.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

In the opinion of the Exchange, said stock is no longer suitable for dealing and listing on the Exchange because there are less than 250 holders of record of the Common Stock, after substantially discounting the number of holders of odd-lots, and because the amount of Common Stock outstanding, exclusive of concentrated holdings, is less than 30,000 shares. All but 21,007 shares are stated to be held by Container Corporation of America.

Upon receipt of a request, on or before September 9, 1958, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

DEVOE & RAYNOLDS CO., INC.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 25, 1958.

In the matter of Devoe & Raynolds Company, Inc., Class A Stock; File No. 1-425.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

In the opinion of the Exchange, said stock is no longer suitable for dealing and listing on the Exchange because there are less than 250 stockholders of record, after substantially discounting the number of holders of odd-lots, and because the amount of Class A Stock outstanding, exclusive of concentrated holdings, is less than 30,000 shares. All but 22,233 shares are stated to be held by Merritt-Chapman & Scott Corporation or as treasury shares by the issuer.

Upon receipt of a request, on or before September 9, 1958, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

TITLE 2—THE CONGRESS

ACTS APPROVED BY THE PRESIDENT

EDITORIAL NOTE: After the adjournment of the Congress *sine die*, and until all public acts have received final Presidential consideration, a listing of public laws approved by the President subsequent to adjournment will appear in the daily FEDERAL REGISTER under *Title 2, The Congress*. A consolidated listing of the new acts approved by the President will appear in the Daily Digest in the final issue of the Congressional Record covering the 85th Congress, Second Session.

Acts Approved August 27, 1958

S. J. Res. 190 ..... Public Law 85-783
Joint Resolution to approve the report of the Department of the Interior on Red Willow Dam and Reservoir in Nebraska.

S. 2517 ..... Public Law 85-771
An Act to amend sections 2275 and 2276 of the Revised Statutes with respect to certain lands granted to States and Territories for public purposes.

S. 2530 ..... Public Law 85-773
An Act to designate the beneficiary of the equitable title to land purchased by the United States and added to the Rocky Boy's Indian Reservation, Montana.

S. 2592 ..... Public Law 85-770
An Act to amend the law relating to the execution of contracts with Indian tribes.

S. 3203 ..... Public Law 85-780
An Act relating to minerals on the Wind River Indian Reservation in Wyoming, and for other purposes.

S. 3572 ..... Public Law 85-774
An act to authorize land exchanges for purposes of the George Washington Memorial Parkway in Montgomery County, Maryland, and for other purposes.

S. 3723 ..... Public Law 85-776
An Act to amend Public Law 522, Eighty-fourth Congress (relating to the conveyance of certain lands to the city of Henderson, Nevada).

S. 3873 ..... Public Law 85-781
An Act to amend section 201 of the Federal Property and Administrative Services Act of 1949, as amended, to authorize the interchange of inspection services between executive agencies, and the furnishing of such services by one executive agency to another, without reimbursement or transfer of funds.

S. 4169 ..... Public Law 85-768
An Act to amend the Act of June 10, 1938, relating to participation by the United States in the International Criminal Police Organization.

S. 4287 ..... Public Law 85-789
An Act to amend the Act of July 27, 1956, relating to detention of mail for temporary periods in certain cases.

H. R. 1244 ..... Public Law 85-764
An Act to provide for the development by the Secretary of the Interior of Independence National Historical Park, and for other purposes.

H. R. 3630 ..... Public Law 85-782
An Act to amend the Veterans' Benefits Act of 1957 to provide that an additional aid and attendance allowance of $150 per month shall be paid to certain severely service-connected disabled veterans during periods in which they are not hospitalized at Government expense.

H. R. 7570 ..... Public Law 85-[illegible]
An Act to amend section 409 of the Social Security Amendments of [illegible] to provide social security coverage for certain employees of tax-exempt organizations which erroneously but in good faith failed to file the required waiver certificate in time to provide such coverage.

H. R. 8308 ..... Public Law 85-[illegible]
An Act to establish the use of humane methods of slaughter of livestock as a policy of the United States, and for other purposes.

H. R. 8599 ..... Public Law 85-[illegible]
An Act to amend title II of the Social Security Act so as to provide that the exception from "wages" made by section 209 (i) of such Act shall not be applicable to payments to employees of a State or a political subdivision thereof for periods of absence from work on account of sickness.

H. R. 8606 ..... Public Law 85-[illegible]
An Act to amend the Civil Service Retirement Act with respect to annuities of survivors of employees who are elected as Members of Congress.

H. R. 10360 ..... Public Law 85-[illegible]
An Act to amend title V of the Agricultural Act of 1949, as amended.

H. R. 11346 ..... Public Law 85-[illegible]
An Act to amend title II of the Social Security Act to include Massachusetts and Vermont among the States which are permitted to divide their retirement systems into two parts so as to obtain social security coverage, under State agreement, for only those State and local employees who desire such coverage, and to permit individuals who have decided against such coverage to change their decision within a year after the division of the system.

H. R. 12494 ..... Public Law 85-[illegible]
An Act to authorize the Secretary of Agriculture in selling or agreeing to the sale of lands to the State of North Carolina to permit the State to sell or exchange such lands for private purposes.

H. R. 12776 ..... Public Law 85-[illegible]
An Act to revise, codify, and enact into law, title 23 of the United States Code, entitled "Highways".

H. R. 12876 ..... Public Law 85-[illegible]
An Act to extend title VII of the Public Health Service Act (relating to health research facilities) for three years, and for other purposes.

H. R. 13450 ..... Public Law 85-[illegible]
An Act making supplemental appropriations for the fiscal year ending June 30, 1959, and for other purposes.

H. R. 13518 ..... Public Law 85-[illegible]
An Act to incorporate the Blinded Veterans Association.

H. R. 13688 ..... Public Law 85-[illegible]
An Act to provide airmail and special delivery postage stamps for Members of the House of Representatives on the basis of regular sessions of Congress, and for other purposes.

H. J. Res. 585 ..... Public Law 85-[illegible]
Joint Resolution authorizing and directing the Secretary of the Interior to conduct studies and render a report on service to Santa Clara, San Benito, Santa Cruz, and Monterey Counties from the Central Valley project, California.

H. J. Res. 648 ..... Public Law 85-[illegible]
Joint Resolution providing for a joint session of Congress for commemorating the one hundred and fiftieth anniversary of the birth of Abraham Lincoln.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 719—RECONSTITUTION OF FARMS, FARM ALLOTMENTS, AND FARM HISTORY AND SOIL BANK BASE ACREAGES

Sec.
719.1 Basis and purpose and applicability.
719.2 Definitions.
719.3 Responsibilities of State Committee.
719.4 Responsibilities of County Committee.
719.5 Initiation of action to reconstitute farms.
719.6 Determination of reconstitution of farm.
719.7 Reconstitution of farm allotments, history and soil bank base acreages.
719.8 Rules for determining farm allotments and farm history and soil bank base acreages where the reconstitution is by division.
719.9 Rules for determining farm allotments, farm history and soil bank base acreages, where the reconstitution is by combination.
719.10 Guides for applying cropland definition.
719.11 Guides for applying farm definition.

AUTHORITY: §§ 719.1 to 719.11 issued under sec. 375, 50 Stat. 66, sec. 124, 70 Stat. 198; 7 U. S. C. 1375, 1812. Interpret or apply secs. 301, 313, 314, 329, 334, 335, 344, 345, 346, 347, 348, 353, 355, 356, 358, 359, 362, 368, 374, 52 Stat. 38, 47, 48, as amended, 52, 53, as amended, 54, as amended, 57, as amended, 58 as amended, 59, as amended, 61, as amended, 62, as amended, 64, 65, as amended, 55 Stat. 88, as amended, 90, as amended, 203, as amended, 66 Stat. 597, as amended, secs. 103, 104, 106, 107, 112, 114, 115, 122, 70 Stat. 189, 190, 191, 195, 196, 197; 7 U. S. C. 1301, 1313, 1314, 1315, 1329, 1334, 1335, 1340, 1344, 1345, 1346, 1347, 1348, 1353, 1355, 1356, 1358, 1359, 1362, 1374, 1821, 1822, 1824, 1831, 1836, 1802, 1803, 1810.

§ 719.1 *Basis and purpose and applicability.* The regulations in this part are issued pursuant to section 375 (b) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1375 (b)) and section 124 of the Soil Bank Act (7 U. S. C. 1812). The purpose of the regulations in this part is to establish procedures for reconstituting farms, farm allotments, and farm history and soil bank base acreages under marketing quota, acreage allotment, and Soil Bank programs administered pursuant to the Agricultural Adjustment Act of 1938, as amended, and the Soil Bank Act. The regulations in this part are to become effective with respect to reconstitutions involving 1959 and subsequent crops. Accordingly, since such procedures are now necessary with respect to the 1959 wheat crop, it is hereby found that notice and public procedure in accordance with the Administrative Procedure Act (5 U. S. C. 1003) are impractical, unnecessary and contrary to the public interest and that the regulations in this part shall become effective upon publication in the FEDERAL REGISTER.

§ 719.2 *Definitions.* As used in the regulations in this part and in all in-

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

structions, forms, and documents in connection therewith the words and phrases defined in this section shall have the meaning herein assigned to them unless the text or subject matter otherwise requires.

(a) The terms, words, or phrases, "County Office Manager", "Committees", "Department", "Deputy Administrator", "Field", "Operator", "Person", "Secretary", "State Administrative Officer", and "Subdivision" shall have the same meanings assigned to them as are assigned in § 718.2 of this chapter, as now published or as may be hereafter amended, it being the intent and purpose that the foregoing terms, words, and phrases shall at all time have the same meaning in this part and Part 718 of this chapter.

(b) "Allotment" means an acreage of a specific crop established pursuant to the Agricultural Adjustment Act of 1938 and any amendments thereto heretofore or hereafter made.

(c) "Base period," with respect to any commodity or program, means the years considered in establishing acreage allotments or soil bank bases for the current year.

(d) "Combination" means the consolidation into one farm of two or more tracts or parts thereof.

(e) "County" means county or parish of a State.

(f) "Cropland" means land which the county committee determines: (1) Was tilled in at least one of the five calendar years immediately preceding the crop year for which the determination is being made; or (2) was established in permanent vegetative cover within the five calendar years immediately preceding the crop year for which the determination is being made and was classified as cropland at the time of establishment; or (3) has been tilled but at the time of determination is in an established crop rotation pattern recognized in the community. Land planted to vineyards, orchards, or other trees which was classified as cropland at the time of planting shall retain the cropland classification only for the year of planting, except that portions of the land area within an orchard or vineyard not devoted to trees or vines shall be classified as cropland if such land area meets the requirements of the first sentence of this paragraph. Insofar as the acreage of cropland on the farm enters into the determination of the farm acreage allotment, the cropland acreage on the farm shall not be deemed to be decreased during the period of any contract entered into pursuant to the conservation reserve program under the Soil Bank Act or any agreement entered into under the Great Plains conservation program by reason of the establishment and maintenance of vegetative cover or water storage facilities or other soil, water, wildlife, or forest-conserving uses under such contract or agreement.

(g) "Current year" means the calendar year for which the allotments and soil bank bases are established.

(h) "Division" means the dividing of land formerly comprising one farm into two or more parts which may become either individual farms or parts thereof.

(i) "Farm" means:

(1) *Farms constituted under prior regulations.* The term "farm" means land which has been properly constituted and identified as a farm under regulations issued pursuant to the Agricultural Adjustment Act of 1938, as amended, or the Soil Bank Act, as amended, and such land shall continue to constitute a farm for all programs to which the regulations in this part may apply until reconstituted as required under subparagraph (4) of this paragraph.

(2) *Farms constituted for the first time or reconstituted hereafter.* With respect to the constitution and identification of land as a farm for the first time or the reconstitution of farms made hereafter, the term "farm" shall mean all adjoining or nearby and easily accessible farm, wood, or range land under the same ownership which is operated by one person and all additional farm, wood, or range land under different ownership operated by such person which the county committee determines is nearby and easily accessible, is approximately equally productive, and for the past two years has been operated by such person and which will be so operated during the current year, or which has been operated by such person for one year with proof satisfactory to the county committee that it will be operated by such person for at least two more years. Notwithstanding the foregoing definition of "farm" in this subparagraph:

(i) Fields and subdivisions of fields which are part of a farm shall remain a part of such farm when operated under a short term agreement by another operator, unless and until such fields or subdivisions of fields may be properly constituted as a separate farm or part of another farm under this section.

(ii) Land for which one or more landlord(s) refuse(s) to sign a conservation reserve contract and which is a part of a multiple-ownership farm may be constituted as a separate farm provided some eligible land in the balance of such multiple-ownership farm is covered by a conservation reserve contract.

(iii) Where part of a farm is owned by the Federal Government and the federal agency handling the leasing of such land has leased such land under a lease restricting the production of price-supported commodities in excess supply, the farm shall be reconstituted so that such government-owned land is a separate farm. Such government-owned land, or other land as may be acquired by the Federal Government and leased to producers under such restrictive leases, shall not be combined with privately-owned land or with other government-owned land not under restrictive lease.

(iv) Where a conservation reserve contract has been entered into under the conservation reserve program regulations (6 CFR Part 485) pursuant to which the entire eligible land on the farm is designated as conservation reserve, the farm as constituted at the time all the eligible land becomes so designated shall not be combined with other land (as long as all of the eligible land in the farm is under contract) unless the conservation reserve contract is modified to include in the conservation reserve all eligible land of such other land.

(3) *Location of farm for administrative purposes.* A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(4) *Required reconstitutions.* A reconstitution of a farm either by division or by combination shall be required whenever:

(i) A change has occurred in the operation of the land after the last constitution or reconstitution and as a result of such change the farm does not meet the requirements of the definition set forth in subparagraph (2) of this paragraph; or

(ii) The farm was not properly constituted under the applicable regulations in effect at the time of the last constitution or reconstitution; or

(iii) A reconstitution is required to meet the provisions of subparagraph (2) (ii) or (iii) of this paragraph.

(j) "Farm serial number" means the serial number assigned to a farm by the county committee for the purpose of identification and shall be commonly referred to as "farm number."

(k) "History acreage," with respect to any commodity or program, means the acreages determined in accordance with the applicable regulations to be considered in establishing acreage allotments and soil bank bases for the current year.

(l) "Photograph number" means the number assigned to the photograph for the purpose of identification and may be either the roll and exposure number or a number assigned by the county commit-

tee which is recognized in identifying the photograph for internal operations.

(m) "Preceding year" means the calendar year immediately preceding the year for which the allotments or soil bank bases are established.

(n) "Producer" means a person who, as owner, landlord, tenant, or sharecropper shares in a sugar crop at time of harvest or is entitled to share in the other crops available for marketing from the farm or in the proceeds thereof and in the case of rice also means a person who furnishes water for a share of the crop.

(o) "Reconstitution" means the changing of the identity of a farm as it exists on county office records to a new identity approved by the county committee by process of "Division" or "Combination." The term shall also include the constitution and identification of land as a farm for the first time.

(p) "Soil bank contract" means an acreage reserve agreement or conservation reserve contract, entered into pursuant to the Soil Bank Act (7 U. S. C. 1801 et seq.).

§ 719.3 *Responsibilities of State Committee.* The State Committee through the State administrative officer shall be responsible for furnishing such guidance and direction as is necessary to assure insofar as practicable uniform understanding and application of the provisions of the regulations in this part.

§ 719.4 *Responsibilities of County Committee.* The County Committee shall be responsible for initiating action to properly constitute any land known to be improperly constituted as a farm under the regulations in this part and for considering and taking appropriate action on requests for reconstitution received from land owners or operators and effecting such reconstitutions as are required in accordance with the regulations in this part.

§ 719.5 *Initiation of action to reconstitute farms.* Action to reconstitute farms shall be initiated either by the county committee or by the owner or operator of a farm affected by the proposed action. An owner or operator desiring a reconstitution shall furnish the county office manager for the use of the county committee a form CSS–155 showing thereon all data required in connection with the proposed reconstitution and signed by a producer or his representative on a farm affected by the proposed reconstitution. An owner or operator applying for a reconstitution may be assisted by employees in the county ASC office in the preparation of form CSS–155. If the action is initiated by the county committee a form CSS–155 shall be prepared under the direction of the county office manager for the use of the county committee.

§ 719.6 *Determination of reconstitution of farm.* After consideration of the data required to be shown on form CSS–155 the county committee shall determine whether a reconstitution should be made in accordance with the regulations in this part and shall show on said form whether the proposed reconstitution is approved or disapproved. If the approved reconstitution is a division the basis for dividing allotments, history and soil bank base acreages shall also be shown thereon. The form shall be signed on behalf of the county committee by a member thereof and the action taken recorded in the minutes of the committee meeting.

§ 719.7 *Reconstitution of farm allotments, history and soil bank base acreages*—(a) *Applicability.* Whenever the county committee determines that a farm should be reconstituted the farm allotments and farm history and soil bank base acreages shall be reviewed and reconstituted in accordance with the regulations in this part and related county office records shall be revised as necessary to properly reflect basic allotment data for each farm as reconstituted. To the extent practicable all reconstitutions shall be based on facts and conditions existing at the time the change requiring the reconstitution occurred rather than on facts and conditions existing at the time the actual reconstitution action is taken by the county committee.

(b) *Changes not requiring redetermination of allotments and history and soil bank base acreages.* Farm allotments and history and soil bank base acreages shall not be redetermined if the only change in the farmland involved is noncropland or 15 percent or less of the cropland on the parent farm is acquired for governmental or other public purpose and such land is removed from agricultural production.

(c) *Two or more allotments.* If there are two or more allotments on a farm which is reconstituted all such allotments shall be redetermined in accordance with the provisions of the same paragraph of the regulations in this part except that:

(1) The contribution method of division shall not apply to allotments which were not in effect at the time of the last effective combination of the farm and.

(2) For a period of five years after the combination, the contribution method shall be applicable to the division of tobacco allotments on farms combined during the period 1954 through 1958, inclusive.

(d) *Determination of allotment crop history acreages.* The history acreages for the various tracts involved in the division of a parent farm shall be redetermined for each year of the base period by using the same basis as that applicable to the apportionment of the allotments for the parent farm among such tracts except that where the parent farm allotments are divided on the basis of the contribution method the history acreage for each indentical tract for each year of the base period prior to the last effective combination shall be the history acreage determined for the tract prior to the combination.

(e) *Maximum and minimum provisions, adjustments, and release and reapportionment.* Allotments for reconstituted farms resulting from the divisions or combinations of parent farms in accordance with any applicable provisions of the regulations in this part are subject to maximum and minimum allotment provisions and to adjustments from applicable allotment reserves and released farm allotments pursuant to the applicable regulations governing the determination of farm acreage allotments.

(f) *Continuous application.* Where the farm reconstitution is made prior to determination of current year allotments or soil bank bases the allotment crop history acreages for the tracts for the base period years shall be determined under the applicable provisions of the regulations in this part for use in establishing the current year's allotments or soil bank bases for the reconstituted farms.

(g) *Redetermination of cropland acreage.* The cropland acreage on the respective tracts involved in a division of the parent farm shall be verified and redetermined where necessary prior to the apportionment of the allotment acreages and history or soil bank base acreages to such tracts.

§ 719.8 *Rules for determining farm allotments and farm history and soil bank base acreages where the reconstitution is by division*—(a) *Methods for reconstituting farm allotments and history acreages where the farm divided consists of land under one ownership.* If the farm to be divided into two or more tracts consists of land under one ownership the current allotments and farm history acreages determined for the parent farm shall be apportioned among the tracts in the same proportion as the acreage of cropland (acreage of developed rice land for rice) for each such tract bears to the cropland in the parent farm: *Provided, however,* That the proviso in paragraph (c) (2) of this section or the provisions of paragraph (c) (4) of this section may be applied. The sum of allotment and history acreages for the respective tracts of a division shall not exceed the respective acreages for the parent farm, subject to the provisions of § 719.7 (e).

(b) *Methods for reconstituting farm allotments and history acreages where the farm divided consists of tracts under separate ownership.* If the farm to be divided consists of tracts under separate ownership the current allotments and history acreages for allotment crops shall be divided by the contribution method as provided in subparagraph (1) of this paragraph, if applicable under the terms of subparagraph (1) of this paragraph. If the contribution method is not applicable, the division shall be made by the cropland method as provided in subparagraph (2) of this paragraph: *Provided, however,* If the contribution method is not applicable and the county committee determines in accordance with subparagraph (3) of this paragraph the cropland method should not be used, the history method as provided in subparagraph (3) of this paragraph shall be applied.

(1) *Contribution method.* If the farm to be divided is the result of a combination which became effective during the 3-year period (5-year period in the case of tobacco allotments combined during the period 1954 through 1958) immediately prior to the current year and consists of individual tracts under separate ownership and the farm is being divided into two or more tracts, each such individual tract which is separated from the parent farm in whole or in part shall share in the allotments and allotment crop history acreages for the parent farm for the current year in the same proportion that each such individual tract contributed to the farm allotments for the year for which combined: *Provided,* That if any such individual tract is further divided into two or more tracts for the current year, or in the case of wheat, if the tracts were in an approved odd and even rotation seeding pattern in the year of combination, the allotments for the individual tract shall be apportioned in accordance with the cropland or history method. The contribution method shall not be applied for any commodity for which an allotment was not established for the farm at the time the combination was made.

(2) *Cropland method.* If the farm, as constituted in the preceding year, will be operated in the current year as two or more farms or parts of farms, and the contribution rule is not applicable, the current year allotments and allotment crop history acreages determined for the parent farm, shall, except as otherwise provided under contribution and history methods, be apportioned among the tracts in the same proportion that the acreage of cropland (acreage of developed rice land for rice) in each such tract bears to the cropland (developed rice land for rice) for the parent farm: *Provided, however,* That upon agreement in writing by the owners and operators, and approval by the county committee, the allotments and history acreages may be apportioned on the basis of the cropland normally considered as available for and adapted to the production of the allotment crops on each tract.

(3) *History method.* If the county committee determines that because of substantial physical differences in the soil, topography of the land, location of facilities or cultural practices, the division of the allotments and history acreages for the parent farm determined under the cropland method would result in allotments and history acreages not representative of the farming operations which normally would be carried out on each tract, the county committee may divide the allotments and history acreages for the parent farm among the tracts on the basis of the history acreages determined by the county committee to be representative for each of the tracts.

(4) *Farm to be divided in settling an estate.* Notwithstanding any other provision of the regulations in this part if a farm is to be divided among the heirs in settling an estate the allotment and history acreages upon approval of the county committee may be apportioned among the tracts on the basis of a written agreement signed by all interested persons.

(c) *Soil bank base acreages.* (1) Except as provided in subparagraphs (2), (3) and (4) of this paragraph, the farm soil bank base and history acreages shall be apportioned among the tracts as follows:

(i) The history acreage of allotment crops included in the soil bank base determined for the parent farm shall be apportioned on the same basis as the allotments and history acreages for such allotment crops are apportioned under the regulations in this part.

(ii) If the farm to be divided into two or more tracts consists of land under one ownership, the history acreage in the soil bank base established for the parent farm equal to the acreage of non-allotment crops shall be apportioned among the tracts in the same proportion as the acreage of cropland for each such tract bears to the cropland in the parent farm. If a farm consisting of individual tracts under separate ownership is being divided into two or more tracts, each such individual tract which is separated from the parent farm in whole or in part shall share in the acreage of non-allotment crops for the parent farm in the same proportion that each such individual tract contributed to the acreage of non-allotment crops on the parent farm. Notwithstanding the provisions of this subdivision, if the farm is covered by a conservation reserve contract under which 1958 or a prior year is the first year of the contract period, the acreage of the soil bank base equal to the acreage of non-allotment crops, may, at the election of the producer holding the contract, be apportioned in accordance with the regulations in effect at the time such contract was entered into, on the basis of the cropland on each part, unless the county committee determines that such apportionment would not be representative of the farming operations normally carried out on each part.

(2) If a soil bank base was established for each component part of the parent farm prior to the time of the last effective combination, the soil bank base for each identical individual tract being separated from the parent farm shall be the soil bank base established for such tract prior to the combination.

(3) If a farm is to be divided among the heirs in settling an estate, the soil bank base acreage may, upon approval of the county committee, be apportioned among the tracts on the basis of a written agreement signed by all interested persons.

(4) In no event may the sum of soil bank base acreages for the respective tracts of a division exceed the soil bank base acreage for the parent farm.

§ 719.9 *Rules for determining farm allotments, farm history and soil bank base acreages, where the reconstitution is by combination.* If two or more tracts which were operated as separate farms or parts of farms in the preceding year are combined and operated as a single farm for the current year the current year's allotments and farm history and soil bank base acreages for the reconstituted farm shall be the sum of the current year's allotments and farm history and soil bank base acreages determined for each of the tracts comprising the combination subject to the provisions of § 719.7 (e).

§ 719.10 *Guides for applying cropland definition.* The definition of cropland requires certain factual determinations and provides latitude for county committee judgment with respect to several factors. Except as otherwise provided for the land devoted to vineyards, orchards and other trees, a land area which is not in an established rotation pattern recognized in the community or which was not tilled within the preceding five-year period shall be classified as non-cropland. In addition, cropland which is removed from agricultural production under eminent domain or for commercial or residential development shall be reclassified as non-cropland for the succeeding year. A land area shall be classified as cropland whenever it meets the provisions of the definition. A brief explanation of the various factors involved is outlined in this section to assist county committees in the uniform application of the definition.

(a) *Tilled land.* Cropland planted or devoted to a crop (other than a permanent vegetative cover) and from which a crop is harvested or on which tillage operations are carried out in a workmanlike manner during the summer growing season in preparation of the land for the seeding of a crop for harvest shall be considered as meeting the "tilled" requirement for that year. Non-cropland (new land or cropland previously reclassified as non-cropland) broken out during the calendar year immediately preceding the crop year for which the determination is being made and planted to a crop (other than a permanent vegetative cover) in a workmanlike manner shall be considered as having been tilled during such preceding year if a crop is or will be harvested from the land in the calendar year immediately preceding the crop for which the determination is being made. The harvesting requirement of this paragraph shall not of itself affect the classification of the land if the county committee determines that harvest was not possible or practicable because of crop failure resulting from adverse weather, insects or disease.

(b) *Rotation.* This factor, perhaps more than any other, requires flexibility in application because of the variety of crops grown and production practices peculiar to specific areas of the country. It is a means of recognizing these local practices but must not be used as a device to establish or maintain an unrealistic cropland figure. As a general rule, land may be considered to be in a rotation pattern when a recognized system of cropping plans or land use is carried out over a period of years resulting in the land area being devoted to those crops and land uses which contribute reasonable beneficial effects to the land. The county committee should determine a reasonable period of years, after which cropland that is not in an established rotation pattern will be reclassified as noncropland. As a matter of general policy this period should normally not exceed five years. It may be necessary in some areas to establish a longer rotation period for perennial legumes and grasses.

(c) *Permanent vegetative cover (other than trees).* Cropland established in permanent vegetative cover, other than trees, shall be considered as cropland for

a period of five years including the year of establishment and as long thereafter as it is determined to be in an established rotation pattern. Meadowland on which a light seeding or fertilizing operation is carried out at intervals will not be considered as tilled for the purpose of retaining the cropland classification on the area. Pasturing any acreage or cutting hay from native hayland shall not be considered as cropping.

(d) *Trees, orchards, and vineyards.* Cropland on which a planting of vineyards, orchards, or other trees is established in the spring or early summer shall not be considered as being tilled or in rotation during that year and consequently will be reclassified as noncropland for the following year. Cropland on which a planting of vineyards, orchards, or other trees is established in the late summer or fall after a crop has been removed from the land or after the land has been tilled during the growing season shall retain the cropland classification for the succeeding year. The area of cropland within an orchard or vineyard shall continue to carry the cropland classification to the extent it is actually used as cropland and meets the provision of the definition.

(e) *Noncropland.* Land which because of topography, soil conditions, or vegetative cover is recognized as land on which it is impractical to perform tillage operations shall not be considered as cropland. This in general would include rough and semiarid pasture land, waste land, and land given over to forest or tree growth, etc. In addition, land which is normally utilized for pasture or the production of hay or both and for which a recognized rotation pattern has not been established shall not be considered as cropland even though the productivity of such land is substantially equivalent to other land on the farm and the land could be readily tilled. All such land shall be classified as noncropland unless the county committee specifically determines that the utilization for pasture or hay is within an established rotation pattern that is generally recognized in the community.

(f) *Land covered by a conservation reserve contract or the great plains conservation program.* Cropland on which a permanent vegetative cover, water storage facility, or other soil, water, wildlife, or forest conserving use is established and maintained under the above programs shall retain the cropland classification for allotment purposes for the life of the applicable contract or agreement. Upon expiration or termination of the contract or agreement the acreage shall be reappraised in consideration of the definition of cropland to determine its proper classification.

(g) *Miscellaneous land treatment.* The act of applying certain materials to an area of land such as a light seeding, the application of fertilizer, lime, or other soil conditioners or performing certain cultural practices such as discing, harrowing, subsoiling, mowing or pasturing do not within themselves constitute a tillage operation and would not in and of themselves serve to cause the area to be classified as cropland.

§ 719.11 *Guides for applying farm definition.* The definition of a farm requires that consideration be given to a number of provisions such as ownership, operation, accessibility and nearness, and the productiveness of different tracts. A brief explanation of these provisions is outlined in this section to assist committees in properly determining what land is to be included in a farm.

(a) *Ownership.* The requirement of formal proof of title is unnecessary in cases where the county committee knows, or where it is a matter of common knowledge in the community, that the land is owned by the person shown as owner on the county office records. The committee should require specific proof in any case in which there is doubt as to ownership or where the committee believes that collusion may be involved. A person holding a bona fide contract for purchase of land will be considered the owner of the land covered by the contract if he is entitled the possession under the contract and has the right to farm the land.

(b) *Operator and operation.* The operator of a farm means the person who is in charge of the supervision and conduct of the farming operations on the farm. To be in charge of the farming operations of certain tracts of land means to be in general control during the program year of the farming activities and land use on the land unit. The fact that a person may be referred to as a renter or tenant in some localities does not necessarily mean that he is an operator. Such person may be in fact a sharecropper who is not in charge of the supervision and conduct of the farming operations on the entire farm. If a producer owns and operates a tract of land and an adjacent or nearby tract of land is owned by his wife, son, or some other near relative and all of the land is actually operated by such producer as one farming unit with substantially the same labor and machinery, all such land shall be a farm if it otherwise qualifies under the definition.

(c) *Easily accessible and nearby.* Tracts of land which are close enough together so that farm labor is or could be freely interchanged and the interchange of machinery is or could be regularly accomplished under its own power during the period when normal farming operations are in progress on all tracts of land may be considered nearby and easily accessible. Tracts of land which are only a short distance apart geographically but which are not readily accessible to one another because of some natural barrier or city should not be considered nearby and as parts of the same farm even though they have a common operator.

(d) *Productiveness.* Combinations of tracts under different ownership shall not be permitted where one is primarily irrigated land while the other is primarily non-irrigated land or where, in the judgment of the county committee, the present productivity of the cropland on one tract differs so substantially from that of the other that crop allotments likely would be shifted from one tract to the other, thereby defeating the purpose of the allotment or soil bank programs.

(e) *Terms of operation.* In determining the constitution of a farm, the county committee shall satisfy itself, from personal knowledge or evidence presented, that the operator will be or has been in charge of the supervision and conduct of the farming operations for the entire farm for the required length of time. Evidence presented to the committee may consist of written leases, written statements from the operator, owner, or other persons having knowledge of the facts, or other probative evidence including oral testimony. If, subsequently, any operator who has obtained approval for a reconstitution is found knowingly operating in a manner substantially different from that represented such a reconstitution shall be disapproved and the farm shall be constituted properly.

(f) *Reconstitutions after seeding or planting.* Reconstitutions after the seeding or planting of the allotment crop has been completed shall be approved for the crop only in cases where the conditions supporting the reconstitution existed at the time of seeding or planting of such crop on the farm, or in the case of failure to seed or plant the allotment crop on the farm, the date seeding or planting of the crop by other farmers in the area was generally accomplished.

Issued this 26th day of August 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 151]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.451 *Valencia Orange Regulation 151*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 28, 1958.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., August 31, 1958, and ending at 12:01 a. m., P. s. t., September 7, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 693,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 29, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-7123; Filed, Aug. 29, 1958; 11:50 a. m.]

PART 927—MILK IN NEW YORK-NEW JERSEY MILK MARKETING AREA

ORDER AMENDING ORDER

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agriculture Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New York-New Jersey milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than September 1, 1958.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator of the Agricultural Marketing Service was issued June 6, 1958, and the decision of the Assistant Secretary containing all amendment provisions of this order, was issued August 4, 1958. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective September 1, 1958, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c (9) of the act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, That on and after the effective date hereof, the handling of milk in the New York-New Jersey milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

1. Add new §§ 927.14 and 927.15 as follows:

§ 927.14 *Own farm milk.* (a) Own farm milk means milk received at a plant from a farm operated by the person who is the operator of such plant.

(b) The market administrator shall publicly announce the name of any handler operating a pool plant receiving own farm milk and the location of the plant operated by such handler. This public announcement shall not include the name of (1) any person meeting the definition of producer-handler as set forth in § 927.15, (2) any person receiving no milk from other dairy farmers and selling no more than 100 quarts per day of Class I-A milk to persons in the marketing area other than to other plants, or (3) an institution specified in § 927.65 (h) (4).

§ 927.15 *Producer-handler.* Producer-handler means a handler who, following the filing of an application pursuant to paragraph (a) of this section, has been so designated by the market administrator upon determination that the requirements of paragraph (b) of this section have been met. Such designation shall be effective on the first of the month after receipt by the market administrator of an application containing complete information on the basis of which the market administrator determines that the requirements of paragraph (b) are being met, except that the effective date of designations shall be the same as the effective date of this provision if applications therefor are filed not later than 15 days after such effective date. The effective date of designation shall be governed by the date of filing new applications in instances where applications previously filed have been de-

nied. All designations shall remain in effect until canceled pursuant to paragraph (c) of this section.

(a) *Application.* Any handler claiming to meet the requirements of paragraph (b) of this section may file with the market administrator, on forms prescribed by the market administrator, an application for designation as a producer-handler. The application shall contain the following information:

(1) A listing and description of all resources and facilities used for the production of milk which are owned or directly or indirectly operated or controlled by the applicant.

(2) A listing and discription of all resources and facilities used for the processing or distribution of milk or milk products which are owned, or directly or indirectly operated or controlled by the applicant.

(3) A description of any other resources and facilities used in the production, handling or processing of milk or milk products in which the applicant in any way has an interest, including any contractual arrangement, and the names of any other persons having or exercising any degree of ownership, management, or control in, or with whom there exists any contractual arrangement with respect to, the applicant's operation either in his capacity as a handler or in his capacity as a dairy farmer.

(4) A listing and description of the resources and facilities used in the production, processing and distribution of milk which the applicant desires to be determined as his milk production, processing and distribution unit in connection with his designation as a producer-handler: *Provided*, That all milk production resources and facilities owned, operated or controlled by the applicant either directly or indirectly shall be considered as constituting a part of the applicant's milk production unit in the absence of proof satisfactory to the market administrator that some portion of such facilities or resources do not constitute an actual or potential source of milk supply for the applicant's operation as a producer-handler.

(5) Such other information as may be required by the market administrator.

(b) *Requirements.* (1) The handler has and exercises (in his capacity as a handler) complete and exclusive control over the operation and management of a plant at which he handles milk received from production facilities and resources (milking herd, buildings housing such herd and the land on which such buildings are located) the operation and management of which also are under the complete and exclusive control of the handler (in his capacity as a dairy farmer), all of which facilities and resources for the production, processing and distribution of milk constitute an integrated operation over which the handler (in his capacity as a producer-handler) has and exercises complete and exclusive control.

(2) The handler, in his capacity as a handler, handles no whole milk, fluid skim milk, or cream other than that derived from the milk production facilities and resources designated as constituting the applicant's operation as a producer-handler.

(3) The handler is not, either directly or indirectly, associated with control or management of the operation of another plant or another handler, nor is another handler so associated with his operation.

(4) The handler sells more than an average of 100 quarts per day of Class I-A milk to persons in the marketing area other than to other plants.

(5) In case the plant of the applicant was operated by a handler whose designation as a producer-handler previously had been cancelled pursuant to paragraph (c) of this section, the quantity of whole milk, fluid skim milk, or cream handled during the twelve months preceding the application which was derived from sources other than the designated milk production facilities and resources constituting the applicant's operation as a producer-handler is less than the volume set forth for cancellation pursuant to subparagraph (3) or (4) of paragraph (c) of this section.

(c) *Cancellation.* The designation as a producer-handler shall be cancelled under conditions set forth in subparagraphs (1) and (2) of this paragraph or, except as specified in subparagraphs (3) and (4) of this paragraph, upon determination by the market administrator that any of the requirements of paragraph (b) of this section are not continuing to be met, such cancellation to be effective on the first day of the month following the month in which the requirements were not met.

(1) Milk from the designated production facilities and resources of the producer-handler is delivered in the name of another person as pooled milk to another handler, or, except in the months of June through November with prior notice to the market administrator, a dairy herd, cattle barn or milking parlor is transferred to another person who uses such facilities or resources for producing milk which is delivered as pooled milk to another handler. This provision, however, shall not be deemed to preclude the occasional sale of individual cows from the herd.

(2) A dairy herd, cattle barn or milking parlor, previously used for the production of milk delivered as pooled milk to another handler, is added to the designated milk production facilities and resources of the producer-handler, except in the months of December through May, with prior notice to the market administrator, or if such facilities and resources were a part of the designated production facilities and resources during any of the preceding 12 months. This provision, however, shall not be deemed to preclude the occasional purchase of individual cows for the herd.

(3) If the producer-handler handles an average of more than 150 product pounds per day each or in aggregate of whole milk, fluid skim milk or cream, which are derived from sources other than the designated milk production facilities and resources, the cancellation of designation shall be effective the first of the month in which he handled such milk, skim milk, or cream.

(4) If the producer-handler handles whole milk, fluid skim milk, or cream derived from sources other than the designated milk production facilities and resources in a volume less than specified in subparagraph (3) of this paragraph, the designation shall be cancelled effective on the first of the month following the third month in any six-month period in which the producer-handler handled such milk, skim milk, or cream: *Provided*, That the receipt of up to an average of 10 pounds per day each or in aggregate of packaged fluid skim milk or cream shall not be counted for purposes of this subparagraph.

(d) *Public announcement.* The market administrator shall publicly announce the name, plant and farm location of persons designated as producer-handlers, and those whose designations have been cancelled. Such announcements shall be controlling with respect to the accounting at plants of other handlers for milk received from such producer-handler on and after the first of the month following the date of such announcement.

(e) *Burden of establishing and maintaining producer-handler status.* The burden rests upon the handler who is designated as a producer-handler (and upon the applicant for such designation) to establish through records required pursuant to § 927.54 that the requirements set forth in paragraph (b) of this section have been and are continuing to be met and that the conditions set forth in paragraph (c) of this section for cancellation of designation do not exist.

2. Amend § 927.29 (d) to read as follows:

(d) Any plant which for any month is not a pool plant because of failure to meet the requirements of paragraphs (a), (b), or (c) of this section from which Class I-A milk is distributed in the marketing area other than to another plant shall be a pool plant in any month if at least 55 percent of the milk received from dairy farmers at the plant during such month is classified in Class I-A and Class I-B: *Provided*, That such plant shall not be a pool plant if the handler operating the plant elects at the time of filing the report pursuant to § 927.50 not to have the plant designated a pool plant, and to make payments into the producer-settlement fund at the rate specified in § 927.83 (b) for any nonpool milk or skim milk which, on the basis of products distributed in the marketing area to purchasers other than other plants is classified as Class I-A, Class II or as skim milk subject to the fluid skim differential: *Provided further*, That such plant shall not be a pool plant, if in the absence of this provision, milk received from farmers at the plant would be classified and priced under another order issued pursuant to the Act, with a provision for marketwide equalization, and if the percentage of the milk received from dairy farmers at the plant which is classified as Class I-B and disposed of in the marketing area defined in such order is greater than the percentage of such milk classified as Class I-A.

3. Amend § 927.33 by:

(a) Changing the proviso therein to read as follows: "*Provided*, That if the butterfat in such milk is shipped in the form of milk, cream, fluid cream products, half and half, or cultured or flavored milk drinks, or if the skim milk in such milk is shipped in the form of milk, fluid skim milk, condensed skim milk, half and half, cream, or cultured milk drinks to another plant or other plants, it shall be classified, subject to the provisions of paragraphs (a) and (b) of this section, at the plant to which shipped, and there shall be no limit on the number of interplant movements in such forms, except as set forth in paragraphs (a) and (b) of this section. For purposes of this section, classification of skim milk shall mean the determination of whether the skim milk is assigned to a product or use to which the fluid skim milk differential may be applicable."

(b) Amending paragraphs (a) and (b) to read as follows:

(a) Except as set forth in paragraph (b) of this section, the classification of milk shipped in the form of milk and of milk the butterfat from which is shipped in the form of cream, fluid cream products, half and half, or cultured or flavored milk drinks, and of skim milk which is shipped in the form of fluid skim milk, condensed skim milk, half and half, cream, or cultured milk drinks to a nonpool plant shall be determined at the nonpool plant (unless such nonpool plant is in the marketing area, receives no milk from dairy farmers and is engaged substantially either in distributing packaged milk, fluid skim milk, or cream in the marketing area or in shipping bulk milk or cream to a pasteurizing and bottling plant in the marketing area), unless the handler operating the pool plant from which such shipments were made to the nonpool plant elects in writing in his monthly reports to have the classification of such milk and skim milk determined at the pool plant from which such shipments were made to the nonpool plant.

(b) The classification of milk shipped in the form of milk more than 65 miles from the plant where received from dairy farmers and of milk the butterfat from which is shipped in the form of cream, fluid cream products, half and half, or cultured milk drinks more than 65 miles from the plant where such product is made to a plant outside Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York State, Ohio, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, or the District of Columbia shall be determined at the plant from which the milk or milk product is so shipped.

4. Amend § 927.35 (a) by changing the last sentence preceding subparagraph (1) and by adding a proviso to read as follows: "Such assignment shall be subject to the additional requirements set forth in subparagraphs (1) through (6) of this paragraph: *Provided*, That if the plant is listed pursuant to § 927.14 or designated as a producer-handler plant pursuant to § 927.15, milk received from other pool plants designated pursuant to § 927.25 or § 927.28 or from other plants which are pool plants pursuant to § 927.29 on the basis of the assignment (at such other plants) pursuant to subparagraph (1) of this paragraph, shall be asigned to Class I-A before the application of subparagraph (1) and (2) of this paragraph."

5. Amend § 927.35 (a) (1) by changing the proviso to read as follows: *Provided*, That if such Class I-A milk is not sufficient to qualify such plant as a pool plant pursuant to paragraph (a) or (b) of § 927.29, or if the handler operating the plant so elects at the time of filing a report pursuant to § 927.50, no assignment pursuant to this subparagraph shall be made."

6. Amend § 927.35 (a) (2) (iii) to read as follows: "Milk received from other pool plants designated pursuant to § 927.25 or § 927.28 except as provided in subparagraph (6) of this paragraph.

7. Amend § 927.35 (a) (5) to read as follows:

(5) Notwithstanding other provisions of this paragraph, milk, cream, or fluid skim milk received (except packaged milk, cream, or fluid skim milk produced in accordance with methods and standards of the American Association of Medical Milk Commissions for the production of certified milk and which is received for marketing as certified milk or milk products), from a handler listed by the market administrator as a producer-handler pursuant to § 927.15, shall be considered to be nonpooled with respect to assignments pursuant to this section and payments pursuant to § 927.83: *Provided*, That milk received from a producer-handler who produces milk in accordance with methods and standards of the American Association of Medical Milk Commissions for the production of certified milk and which is not received for marketing as certified milk, shall be treated as milk received from a dairy farmer at the plant and not subject to the provisions of § 927.65 (h).

8. Add a new subparagraph (6) in § 927.35 (a) to read as follows:

(6) Milk received at a handler's plant from a dairy farmer who is also a handler listed by the market administrator pursuant to § 927.14 as receiving own farm milk shall be considered as received first at such dairy farmer's plant and shall be assigned as far as possible to pool milk; classified in Class III. Milk received from a dairy farmer who is also a handler but who is not listed by the market administrator pursuant to either § 927.14 or § 927.15 shall be considered as having been received from a dairy farmer.

9. Amend § 927.35 (e) by deleting the sentence preceding the proviso and substituting the following: "Milk from a handler's own farm which is excluded from the computation of the handler's net pool obligation pursuant to § 927.65 (h) shall be prorated to the classification of all milk received from dairy farmers including the handler's own farm milk:

10. Amend § 927.44 by deleting all the words prior to the word "deduct" and substitute the following: "The handler shall pay a fluid skim differential per hundredweight for skim milk, other than that derived from Class I-A or Class I-B milk subject to the pricing provisions of § 927.40 (a) or (c), which is disposed of to outlets in the markting area, which skim milk leaves or is on hand at the plant in the form of: milk, fluid skim milk in consumer packages or in dispenser units, half and half, cultured milk drinks containing 3.0 percent or more but not more than 5.0 percent butterfat, and fluid skim milk in bulk delivered to any such outlet which is engaged in the marketing or packaging of bulk fluid skim milk and for all skim milk which is not established to have been otherwise utilized or disposed of. Such fluid skim differential shall be computed as follows: * * *"

11. Amend § 927.50 by changing that portion thereof preceding paragraph (a) to read as follows:

§ 927.50 *Monthly reports.* Each handler (except a handler receiving own farm milk and not required to be listed pursuant either to §§ 927.14 or 927.15) shall report each month to the market administrator for the preceding month in the manner and on the forms prescribed by the market administrator, with respect to milk or milk products received at each of his pool plants, and at each of his plants where milk or milk products subject to payments under §§ 927.83 and 927.84 were handled, the information set forth in paragraphs (a) through (f) of this section. Such report, if transmitted by mail, shall bear a postmark no later than the 8th day of the month, and if not so mailed, shall be delivered physically to the office of the market administrator no later than the close of business on the 10th day of the month.

12. Amend § 927.54 by changing paragraph (e) thereof and by adding new paragraphs (f) and (g) to read as follows:

(e) Make inspection of buildings and their surroundings, facilities, and equipment for verification purposes and to ascertain what constitutes a plant and the production, processing and distribution resources and facilities of a producer-handler's operation.

(f) Verify that the requirements for designation as a producer-handler have been and are being met.

(g) Verify all other information required by this part to be reported.

13. Amend § 927.65 (h) (2) and (3) to read as follows:

(2) Own farm milk not in excess of an average of 800 pounds per day if the

handler is not a producer-handler designated pursuant to § 927.15 and if the volume of milk, other than own farm milk, handled does not exceed an average of 1,600 pounds per day.

(3) All milk handled by a producer-handler designated pursuant to § 927.15 which is derived from such producer-handler's production resources and facilities.

14. Amend § 927.65 (h) by inserting a new subparagraph (4) as follows:

(4) Own farm milk of a charitable, religious, educational or governmental institution which is not engaged in the practice of receiving bulk milk from other sources for processing or packaging and is not engaged in the practice of selling packaged milk to persons not associated with such institution.

15. Amend § 927.67 by changing the words "14th day of each month" to "15th day of each month."

16. Amend § 927.71 (b) (5) by (1) adding Schenectady County, New York, to those presently listed therein, (2) changing the phrase "131–140 mile zone" to "141–150 mile zone", and (3) changing the phrase "111–120 mile zone" to "131–140 mile zone."

17. Amend § 927.83 (a) (1) to read as follows: "It was derived from milk received at a nonpool plant from dairy farmers or received from a handler designated as a producer-handler pursuant to § 927.15."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 27th day of August 1958, to be effective on and after the 1st day of September 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 58-7065; Filed, Aug. 29, 1958; 8:53 a. m.]

PART 927—MILK IN NEW YORK-NEW JERSEY MILK MARKETING AREA

ORDER AMENDING ORDER

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New York-New Jersey milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act:

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than September 1, 1958.

The provisions of the said order are known to handlers. The decision of the Acting Secretary containing all amendment provisions of this order, was issued August 20, 1958. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective September 1, 1958, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative asociations specified in section 8c (9) of the act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the New York-New Jersey milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

Amend § 927.43 by deleting "in the months of July through February" appearing therein immediately preceding the first proviso and by substituting therefor the following: "in the month of July and in the months of December through February".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 27th day of August 1958, to be effective on and after the 1st day of September 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 58-7066; Filed, Aug. 29, 1958; 8:53 a. m.]

[Plum Order 29]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION OF SHIPMENTS; TERMINATION OF CERTAIN PLUM ORDERS

§ 936.612 *Plum Order 29*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found:

(i) That the limitation of shipments of plums in accordance with the provisions of the plum orders specified in paragraph (b) (1) of this section will not, after the effective time hereof, tend to effectuate the declared policy of the act; and

(ii) That the limitation of shipments of late varieties of plums, as set forth in paragraph (b) (2) of this section, pursuant to the provisions of § 936.41 of the amended marketing agreement and order will tend to effectuate such orderly marketing of such plums as will be in the public interest; will tend to effectuate the declared policy of the act, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that; the level of prices of late varieties of plums is such that regulation of the

shipment of such plums, in accordance with the provisions of the plum orders specified in paragraph (b) (1) of this section, may not be continued after the effective time hereof; the termination of such plum orders would permit the unrestricted shipment of all late varieties of plums, and such unrestricted shipment of the varieties specified in paragraph (b) (2) of this section would be conducive to the orderly marketing of such plums in the public interest and would not tend to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) The following plum orders shall be terminated at the effective time of paragraph (b) (2) of this regulation:

Plum Order 5 (§ 936.586; 23 F. R. 3660); Plum Order 6 (§ 936.588; 23 F. R. 4470); Plum Order 7 (§ 936.589; 23 F. R. 4470); Plum Order 8 (§ 936.590; 23 F. R. 4471); Plum Order 9 (§ 936.591; 23 F. R. 4472); Plum Order 10 (§ 936.592; 23 F. R. 4473); Plum Order 11 (§ 936.593; 23 F. R. 4691); Plum Order 12 (§ 936.594; 23 F. R. 4692; 5269); Plum Order 13 (§ 936.595; 23 F. R. 4693); Plum Order 14 (§ 936.596; 23 F. R. 4694); Plum Order 15 (§ 936.597; 23 F. R. 4695); Plum Order 16 (§ 936.598; 23 F. R. 4696); Plum Order 17 (§ 936.599; 23 F. R. 4697); Plum Order 18 (§ 936.601; 23 F. R. 5294); Plum Order 19 (§ 936.602; 23 F. R. 5294); Plum Order 20 (§ 936.603; 23 F. R. 5295); Plum Order 21 (§ 936.604; 23 F. R. 5296); Plum Order 22 (§ 936.605; 23 F. R. 5297); Plum Order 23 (§ 936.606; 23 F. R. 3660); Plum Order 24 (§ 936.607; 23 F. R. 5502); Plum Order 25 (§ 936.608; 23 F. R. 5502); Plum Order 26 (§ 936.609; 23 F. R. 5503); Plum Order 27 (§ 936.610; 23 F. R. 5505); and Plum Order 28 (§ 936.611; 23 F. R. 5505).

(2) During the period beginning at 12:01 a. m., P. s. t., August 30, 1958, and ending at 12:01 a. m., P. s. t., November 1, 1958, no shipper shall ship any package or container of the following late varieties of plums unless such plums meet the minimum standards of quality and maturity applicable to the particular variety as hereinafter set forth:

(i) Late Duarte and President varieties of plums, unless such plums grade at least U. S. No. 1, with a total tolerance of fifteen (15) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(a) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 5 x 5 standard pack;

(b) If the plums are packed in any container other than a standard basket, seventy-five (75) percent, by count, of the plums measure not less than one and ten sixteenth ($1\frac{10}{16}$) inches in diameter: *Provided*, That, individual containers in any lot may contain not more than thirty-seven and one-half ($37\frac{1}{2}$) percent, by count, of plums which measure less than one and ten-sixteenth ($1\frac{10}{16}$) inches in diameter, if the average percent of such smaller sized plums in all containers in such lot does not exceed twenty-five (25) percent: *And provided further*, That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a $7\frac{1}{2}$-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph;

(ii) Kelsey variety of plums unless such plums grade at least U. S. No. 1, with a total tolerance of twenty-five (25) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and,

(a) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(b) If the plums are packed in any container other than a standard basket, sixty-six and two-thirds ($66\frac{2}{3}$) percent, by count, of the plums measure not less than one and thirteen-sixteenth ($1\frac{13}{16}$) inches in diameter: *Provided*, That, individual containers in any lot may contain not more than fifty (50) percent, by count, of plums which measure less than one and thirteen-sixteenth ($1\frac{13}{16}$) inches in diameter, if the average percent of such smaller sized plums in all containers in such lot does not exceed thirty-three and one-third ($33\frac{1}{3}$) percent: *And provided further*, That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a 7-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(3) When used in this section, "U. S. No. 1," "fairly uniform in size," "serious damage," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520 to 51.1537 of this title; 23 F. R. 3509); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "$7\frac{1}{2}$-row standard pack" shall mean that the top layer of the pack contains 56 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(5) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 28, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-7080; Filed, Aug. 29, 1958; 9:02 a. m.]

[Lemon Reg. 754]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

§ 953.861 *Lemon Regulation 754*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based becomes available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, includ-

ing its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 27, 1958.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 31, 1958, and ending at 12:01 a. m., P. s. t., September 7, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 255,750 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 28, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[957.317 Amdt. 2]

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957) regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of recommendations and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and order, as amended, and other available information it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (iii) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date, (iv) reasonable time is permitted, under the circumstances, for such preparation, and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

Order, as amended. The provisions of § 957.317 (b) (1) (23 F. R. 5157) are hereby amended to read as follows:

(2) Except as otherwise provided in this section, during the period from September 1, 1958, through June 30, 1959, no handler shall ship potatoes of any variety unless such potatoes are generally "fairly clean," which means that at least 90 percent of such potatoes are "fairly clean," as such terms are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1559 of this title), and

(i) If they are of the round varieties (including, but not being limited to, Bliss Triumph, and Pontiac varieties), such potatoes meet the requirements of the U. S. No. 2, or better, grade, 2 inches minimum diameter,

(ii) If they are of the White Rose variety, such potatoes meet the requirements of the U. S. No. 2, or better, grade, 8 ounces minimum weight: *Provided*, That any such potatoes that grade not less than U. S. No. 1 may be shipped if they are of 2 inches minimum diameter or 4 ounces minimum weight, size A,

(iii) If they are of the Kennebec variety, such potatoes meet the requirements of the U. S. No. 2, or better, grade, and are of 2 inches minimum diameter or 4 ounces minimum weight, and

(iv) If they are of any other variety (including, but not being limited to the Early Gem and Russet Burbank varieties), such potatoes meet the requirements of the U. S. No. 2 or better grade, and are 6 ounces minimum weight: *Provided*, That any such potatoes that grade not less than U. S. No. 1 may be shipped if they are of 2 inches minimum diameter or 4 ounces minimum weight, size A, as such terms, grades, and sizes are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1559 of this title), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 27, 1958, to become effective September 1, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

INDIAN RIVER, FLORIDA

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.436 (a) governing the operation of bridges over Indian River at Cocoa, Eau Gallie and Melbourne, Florida, is hereby amended with respect to the bridge at Cocoa to allow an additional 30 minutes of closed period during the afternoon, to relieve congestion of highway traffic, as follows:

§ 203.436 *Indian River, Fla.; State Road Department of Florida bridges at Cocoa, Eau Gallie and Melbourne.* (a) Except as provided in paragraphs (b) and (c) of this section, the owner of or agency controlling these bridges shall not be required to open the draw-spans of the bridges at Eau Gallie and Melbourne between the hours of 6:45 a. m. and 7:45 a. m. and 4:30 p. m. and 5:30 p. m., and the drawspan of the bridge at Cocoa between the hours of 6:45 a. m. and 7:45 a. m. and 4:15 p. m. and 5:15 p. m., Monday through Friday of each week.

[Regs., Aug. 19, 1958, 823.01 (Indian River, Fla.)—ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] HERBERT M. JONES,
Major General, U. S. Army, The Adjutant General.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS

OPEN SEASONS, BAG LIMITS, AND POSSESSION OF CERTAIN MIGRATORY GAME BIRDS

Correction

In Federal Register Document 58-7051 published at page 6717 in the issue for Friday, August 29, 1958, the date and signature at the end of the document should read as follows:

Issued at Washington, D. C., and dated August 27, 1958.

HATFIELD CHILSON,
Acting Secretary of the Interior.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regulations, Amdt. 4b-9]

PART 4b—AIRPLANE AIRWORTHINESS TRANSPORT CATEGORIES

SUPPLEMENTAL OXYGEN REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 27th day of August 1958.

The advent of turbine-powered airplanes with normal operating altitudes higher than has been the case with airplanes powered by reciprocating engines has made necessary a reconsideration of supplemental oxygen requirements. Following a study of this problem by representatives of the Government and industry, a proposal to amend the existing supplemental oxygen requirements of Part 4b and the operating rules was published in accordance with public rule making procedures and circulated as Civil Air Regulations Draft Release No. 58-7 dated March 27, 1958.
